Guide to the Capital Improvement Program (CIP)

Capital Program Overview

Guide to the Capital Improvement Program (CIP)

Capital Improvement Planning Process

The Public Works Department was responsible for developing and implementing the Fiscal Year 2018 (FY 18) CIP. Public Works, in conjunction with other Departments, reviewed the City's capital needs and prioritized project submittals based on established criteria:

- The ability of the project to meet health, safety and legal concerns and mandates
- The value of the project to prolong the life of City assets or avoid/minimize future repair costs
- The benefit the project will provide the community in support of the goals articulated in the Strategic Plan
- The potential for the project to generate savings or increase productivity
- The extent to which the project will secure future funds through program planning or grant eligibility

The Financial Management Department provided the revenue projections to determine the type and amount of resources available to finance proposed capital projects. Specifically, Financial Management monitors fiscal trends at both the local and state levels. Analyses of property, sales, and user tax revenues and County, State and Federal information contribute to their economic forecast.

This Document

The CIP identifies the proposed budget for each program that will receive funding in FY 18, including estimated revenues for FY 19 and FY 20. The CIP's multi-year character is reflected in the historical summaries to show the fiscal activity for each program.

Carryover Balances

The Financial Summaries and individual Program pages include an FY 18 Budget Balance column. These budget balance amounts may be currently planned for projects in the design stage, pending contract award, or committed to an approved contract. Therefore, estimated budget balance amounts are not necessarily available for new projects. Please note that carryover balances are based on November 14, 2017 data and calculated totals may reflect rounding.

Operating and Maintenance Costs/Operating Budget Impacts

One of the many issues evaluated through the CIP process is the impact new infrastructure projects and assets may have on departmental operating budgets. As capital improvement projects are considered by the City Council, the operating and maintenance (O & M) costs for these facilities should be estimated so that the City Manager and City Council can assess whether adequate budget is available to operate and maintain these facilities after construction.

Guide to the Capital Improvement Program (CIP)

(continued)

Although some additional costs may be absorbed within a department's existing budget, future resources often will be required in the Proposed Budget for the operational expenses associated with capital projects. As part of the Capital Improvement Program Budget process, the Public Works Department coordinated with the Financial Management Department and end user department staff to describe and quantify any anticipated O & M costs associated with each new capital project.

O & M costs are addressed at the outset of the process and if needed included in proposed adjustments to the operating budgets as part of the Annual Budget Process. As a result, Management and the City Council are able to prioritize these additional costs, along with other budget requests, based on available funding.

Implementation Criteria

O & M costs are not applied to upgrades and renovations (e.g., major street maintenance projects) since they actually tend to lower long-term maintenance costs.

Calculating FY 18 Operating and Maintenance Costs

The Public Works Department assists client departments to qualify potential costs.

- FTE (Full Time Equivalent) impacts
- Utility (water, sewer, refuse, electrical and gas) costs in a facility
- Maintenance, including HVAC, plumbing, electrical and structural repairs, landscaping services
- Custodial services
- New operating equipment/supplies
- Technology annual replacement contribution

Fiscal Year 2018 Capital Improvement Program (New Funding)

Total New Capital for FY 18 - \$96,363,961

Strategic Investments

Adopted Capital Projects

Provided below is a summary of adopted capital improvement projects for FY 18. These projects are funded through a variety of sources. Additional detail can be found in the FY 18 program pages.

Title	Status	Estimated Cost
Airport		\$2,000,000

AIRPORT TERMINAL AREA IMPROVEMENT	The Long Beach Airport's historic terminal building is heavily used on a daily basis, requiring regular major maintenance, repairs and improvements. Repairs and improvements as needed.	\$1,000,000
-----------------------------------	--	-------------

AIRPORT PAVEMENT REHABILITATION	Repairs and improvements necessary to comply with Part 139 Certification requirements. Improvements are emergency repairs and unforeseen maintenance on utility, pavement, crack sealing, and slurry sealing, signage, lighting replacement, paving.	\$1,000,000
---------------------------------	--	-------------

Title	Status	Estimated Cost
Beaches and Marinas		\$1,100,000

BEACH PARKING LOTS REHABILITATION	Upgrades and additions made to existing parking lot. Repaving, grading for better drainage and striping of parking lot.	\$500,000
-----------------------------------	---	-----------

ALAMITOS BAY AREA IMPROVEMENTS	Demolition and installation of a replacement lifeguard station.	\$200,000
--------------------------------	---	-----------

TIDELANDS CRITICAL FACILITY REPAIRS	Design and construct safety repairs at locations to be determined.	\$400,000
-------------------------------------	--	-----------

Title	Status	Estimated Cost
Mobility		\$47,736,182

PROP A TRANSIT IMPROVEMENTS	Primarily bus stop improvements at various locations and recreational transit.	\$1,371,000
-----------------------------	--	-------------

CITYWIDE LED LIGHTING	Replace conventional high pressure sodium (HPS) lights with light emitting diodes (LEDs) to extend the useful life and reduce energy costs.	\$210,500
-----------------------	---	-----------

MAJOR AND SECONDARY HIGHWAY (ARTERIAL)	Reconstruction and resurfacing of City streets to extend useful life, provide incidental curb, gutter and sidewalk improvements, construct curb ramps and bus pads, and replace pavement markings.	\$18,527,624
--	--	--------------

BRIDGE REHABILITATION AND SEISMIC RETROFIT	Perform bridge deck repairs listed in the County of Los Angeles condition survey dated January 2012.	\$300,000
--	--	-----------

RESIDENTIAL STREET PROGRAM	Repair residential street and alleys through pavement sealing, asphalt overlays, and full reconstruction.	\$12,107,058
----------------------------	---	--------------

ALLEYS	Ongoing repair and/or replacement of existing alleys identified in the Alley Pavement Management Plan.	\$1,800,000
--------	--	-------------

CITYWIDE SLURRY SEAL PROGRAM	Repair residential streets through pavement sealing and slurry sealing.	\$2,670,000
------------------------------	---	-------------

ADA RESPONSE PROGRAM	Construct and/or improve verified requests for rights-of-way access and investigate new requests when received.	\$500,000
----------------------	---	-----------

Strategic Investments

Adopted Capital Projects (CONTINUED)

Title	Status	
Mobility		Continue
SIDEWALKS/CURB RAMPS	Construct sidewalk curb ramp improvements.	\$5,700,000
SUSTAINABLE TRANSPORTATION IMPROVEMENT	Design, construct and implement projects and programs to enhance the safety and viability of bicycle and pedestrian routes.	\$3,250,000
CITYWIDE STRIPING & SIGNAGE PROGRAM	Install and replace street name signs and traffic control signs at various locations, as needed, throughout the city.	\$50,000
NEIGHBORHOOD TRAFFIC MITIGATION	Provide enhancements and improvements to safety, mobility and active transportation to City neighborhoods.	\$250,000
TRAFFIC & PEDESTRIAN SIGNALS	Construct pedestrian related safety improvements and high priority traffic signal improvement projects.	\$1,000,000
Title	Status	Estimated Cost
Parks & Recreation		\$7,127,500
PARK BIKE PATH REPLACEMENT	Repair and/or replacement of existing bike paths, facilities, signage, and striping of park bike paths.	\$100,000
PARK FACILITY REROOFING	Reroof Park Facilities as needed to prevent damage to structures, equipment and inventory citywide.	\$292,000
RANCHO LOS ALAMITOS	Perform improvements in a manner that is consistent with preserving the historical character of the Rancho.	\$500,000
RANCHO LOS CERRITOS	Repair and maintenance upgrades to extend the useful life of Rancho Los Cerritos.	\$500,000
PARK ACQUISITION & DEVELOPMENT	Acquisition of park land and development of new parks throughout the City.	\$4,648,000
GAME FIELD UPGRADES	Repair and maintain to prolong the life of game field infrastructure and reduce future expenses related to heavy usage.	\$480,000
IRRIGATION SYSTEM REPLACEMENT	Upgrade and replace park irrigation systems.	\$357,500
RECREATION BUILDING REHABILITATION	Rehabilitate existing buildings to enhance the functional use.	\$250,000
Title	Status	Estimated Cost
Public Facilities		\$11,038,000
CONVENTION CENTER COMPLEX IMPROVEMENTS	Ongoing improvements include the Terrace Plaza fountain upgrades, Terrace Plaza Sound & Lighting upgrades and general facility improvements: painting, flooring and other building upgrades.	\$1,400,000
CIVIC CENTER COMPLEX IMPROVEMENTS	Improvements to maintain each facility in a reliable and efficient operating condition	\$500,000

Strategic Investments

Adopted Capital Projects (CONTINUED)

Title	Status	
Public Facilities		Continue
CITYWIDE REROOFING	Replace City buildings roofs as needed to prevent damage to structures, equipment and protect and preseve inventory.	\$250,000
GENERAL CITY BUILDING REFURBISHMENT	Refurbish City buildings to minimize structural deficiencies and extend the facility useful life.	\$5,974,000
FIRE FACILITIES MODERNIZATION	Upgrades to provide gender separation for restrooms and the conversion of common sleeping dorms to private sleeping quarters in order to provide privacy for the workforce.	\$125,000
FACILITY ASSESSMENTS	Compile a comprehensive facility listing and identify facilities to be assessed in the City's Facility Condition Assessment Study.	\$200,000
QUEEN MARY PROJECTS	Historic preservation and capital improvements to the Queen Mary.	\$2,589,000
Title	Status	Estimated Cost
Utilities		\$27,362,279
GAS AND OIL PROGRAM	Installation of an Advanced Metering Infrastructure system (AMI) and repair and improvement to the City's gas pipeline infrastructure.	\$8,050,000
STORM DRAIN PUMP STATION REPAIR & CERTIFICATION	Repair and upgrade storm water pumps at various locations in accordance with AQMD regulations.	\$1,550,000
STORM DRAIN SYSTEM & WATER QUALITY IMPROVEMENT	Repair storm water catch basins and storm water mainline pipes. Construct storm drain enhancements.	\$300,000
SEWER FUND	Upgrades and improvements to the City's sewer infrastructure.	\$4,046,000
WATER FUND	Upgrades and improvements to the City's potable and reclaimed water infrastructure.	\$13,416,279

Section Summaries

The purpose of the CIP is to provide a comprehensive Infrastructure Investment Program to plan, design, construct, maintain, and repair City facilities and infrastructure. The size, age and diverse infrastructure of the City require significant consideration to determine the best investments to make now, in order to realize the most cost effective returns in the future. The CIP also serves as a financial tool to set aside funds for the wide variety of capital projects as well as a planning tool to ensure capital projects are consistent with the City's General plan.

How this Document is Organized

The economic vitality and quality of life in the community is enhanced through CIP projects. Capital improvements require a major initial investment, a significant and continuing financial commitment for maintenance and, eventually, replacement. The following pages provide a summary of each section with a dollar amount that represents adopted new funding for FY 18.

Airport

Beaches and Marinas

Harbor

Mobility

Public Facilities

Parks

Utilities

Program Section Overviews

Airport

Long Beach Airport (LGB) serves over 3 million passengers each year and offers a variety of services to air carriers, commercial and general aviation users, as well as the traveling public. Funding for Airport Capital Improvement Projects is derived from several sources including: Federal Aviation Administration (FAA), Airport Improvement Program grants (AIP); Passenger Facility Charges (PFC); Customer Facility Charges (CFC); Airport fees; and bond sale proceeds. The focus of the Airport Capital Improvement Program is to continue improving the safety, security, and operations of the Airport to meet the mandates of the FAA and Transportation Security Administration.

In FY 17, LGB completed security improvements to the airfield perimeter. The improvements included the removal of several thousand feet of deteriorating and/or inadequate perimeter fence, installation of intrusion detection systems, access control systems, and security network infrastructure improvements.

Also, completed in FY 17 were improvements to the Lot A parking structure. The Lot A project consisted of demolition of the existing single elevator and staircase tower; installation of a new two-cab elevator and outdoor staircase; new exit driveway; new attendant booth; new ramps, curbs, gutters and islands; and new LED lighting. FY 18 funds have been approved for miscellaneous Terminal Area

Improvements and Airfield Pavement Rehabilitation. Planned projects in FY 18 include selected priorities of the Terminal Area Improvements Phase II. The Terminal Improvements Phase II consists of a new ticketing lobby, TSA In-Line Checked Baggage Screening Facility, baggage claim, Rental Car Facility, and a Ground Transportation Center.

Beaches and Marinas

Two assets that make Long Beach unique are its beaches and marinas. These City operated and maintained resources provide recreational enjoyment to both residents and visitors. In FY 17, the City completed the Colorado Lagoon Restoration Phase 2B, and continues to work on the Seaside Way Pedestrian Bridge at the Convention Center, which will be substantially complete by the end of FY 17. These new improvements are more efficient and environmentally friendly than they were in their previous condition.

In FY 17, the City also initiated the Colorado Lagoon Open Channel Project, which is anticipated to be completed in FY18. Construction began in FY 18 for the following projects: Leeway Sailing Center Pier Rebuild, Rainbow Harbor Commercial Sewage EVAC System Replacement, Belmont Pool/Granada Parking Lot Improvements, Rainbow Harbor Aquarium Plaza Wave Fountain repairs, and installation of the new Bayshore Lifeguard Station.

The Marinas, Beaches & Waterways budget includes a total of \$1.1 million in new funding for FY 18. This funding includes the completion of the Belmont Pool/Granada Parking Lot paving and improvements, the new Bayshore Lifeguard Station, and the Tideland Critical Facility Repairs.

Most Tideland Capital Improvement Projects are subject to State Lands Commission approval.

Mobility

Preserving our neighborhoods is a key element in the Long Beach Strategic Plan. The Mobility section contains programs designed to meet the increased needs for mobility resulting from economic growth, utilizing a combination of different funding sources. These funds include Proposition A & C, Gas Tax Street Improvement Capital, Transportation Improvement Fees, and Federal, County grants and two new funding sources, Los Angeles County Measure M and the State Road Maintenance and Rehabilitation Act funds.

Mobility improvements include street repair, street and intersection widening, traffic signal system expansion and upgrades, transit improvements, replacement parking, neighborhood traffic management, and bike lanes.

This section also includes programs that monitor and evaluate traffic congestion throughout the City and respond with projects to relieve congestion or enhance traffic safety. The Street Rehabilitation program is designed to help meet that goal. The program delivers improvements including reconstructing and resurfacing major, secondary, and residential streets; upgrading accessibility of curb ramps to comply with current American Disabilities Act (ADA) regulations; replacing of street signs; repairing neighborhood sidewalks, curbs, and gutters; and rehabilitating bridges to repair deficiencies identified by the annual bridge inspection report. Public Works continues to update the Pavement Management System biannually and uses the information to prioritize the streets in need of resurfacing or reconstruction.

There are several factors that are taken into consideration when the City evaluates the selection of streets, such as surface conditions, utility work (pipeline construction), future developments in the area, and potential conflicts with other projects. The goal and objective is to rehabilitate a roadway when it is in “good” condition versus delaying repairs to a state in which the street is in a “poor” condition, significantly increasing the costs of repairs.

In FY 17, 15 lane miles of arterial streets were replaced, 15 miles of sidewalks were repaired and 6.5 lane miles of bike lanes were added.

The Mobility budget includes \$47.7 million in new funding for FY 18, of which \$33.6 million has been budgeted for street rehabilitation. Measure A funds total \$14 million, of which \$2.7 million is for residential street repair, \$6.9 million for arterial street improvements, \$1.8 million for alley improvements Citywide and \$2.6 million for slurry improvements.

In addition to Measure A funding, street rehabilitation also receives local and state funding totaling \$27.5 million for major and secondary streets, residential street repair, sidewalks, bridge rehabilitation and related improvements provided in the FY 18 Capital Budget. The remaining \$6.1 million in new funding is proposed for sustainable transportation improvements, Citywide signage, traffic mitigation, and traffic & pedestrian signal improvements. Of this amount, \$50,000 in Measure A funds have been budgeted to replace the City's aging traffic signs and \$210,500 has been budgeted to upgrade the City's street lights to LEDs.

Parks and Recreation

Long Beach's 170 parks and open spaces are fundamental to the fabric of the Long Beach community, and are a cornerstone of the City's livability initiatives. Long Beach Parks generate property value and tax revenue, increase community health and reduce environmental impacts and costs.

Parks contribute to the economic vitality of Long Beach, as proximity to Long Beach parks increases property value, thereby increasing property tax revenue. Long Beach Parks are a good value compared with the amount residents would pay to use equivalent private facilities.

Long Beach Parks host festivals, concerts and athletics events that draw visitors bringing tourism revenue to local restaurants, hotels, and stores, boosting the local economy.

Parks provide space for exercise and respite, and exposure to green space is associated with better physical and mental health. The environmental benefits of Long Beach Parks save residents money through reduced air pollution, greenhouse gas emissions, and storm water management costs. Long Beach Parks are essential to crime reduction efforts and reduce juvenile crime by providing places for children to learn, play and be involved in positive activity. Parks also deliver multi-generational programs and activities for Long Beach's four-legged residents.

Many of Long Beach's 170 parks and open spaces face aging infrastructure, and there is a constant and significant effort to rehabilitate existing park assets. Long deferred critical repairs have resulted in necessary capital projects to rehabilitate various park sites. In FY 17, the first year of Measure A funding provided for facility improvements at MacArthur, MLK, and Pan American Parks;

improvements to Animal Care Services, and the historic Rancho Los Alamitos site. Also in FY17, newly-developed parks included Gumbiner Park, the Drake/Chavez Greenbelt, and Molina Park.

Public Facilities

The City of Long Beach owns hundreds of facilities throughout the City contributing to provide residents with public services, recreation, places to learn, and public safety. A few of the popular facilities include the Civic Center comprised of City Hall, Fire Station 1, Police Headquarters and the Main Library, the Department of Health and Human Services, neighborhood branch libraries, and Public Works operations.

Long deferred critical repairs are required to sustain the integrity of the City's various facilities. During FY 17, repairs were completed at the Fleet Services and Environmental Services Bureau facilities included roofing, painting, and on-site water line and skylight repairs. Construction of the new Michelle Obama Library and a new liquefied natural gas filling station was completed along with roof repairs at four Health and Human Services Buildings, HVAC repairs at the Emergency Operations Center, and remodel and repair work at multiple Police Department, Fire Department, and Library locations.

In FY 18, \$11.3 million is approved for Public Facilities. Of that amount, \$4.1 million is proposed from Measure A funding for general building refurbishment, fire facilities modernization, the convention center and an update to the facility assessment study. The remaining \$7.2 million is for Queen Mary and energy efficient upgrades at Civic Center improvements to keep the facility operational until the new city hall and main library are complete.

Harbor

The Harbor Department (Port) continues to implement a long-term capital improvement program designed to provide Port tenants with safe and secure, state-of-the-art facilities capable of accommodating international trade and secure regional economic benefits in a sustainable manner that ensures economic vitality, ecological health, and community integrity.

The Port's \$3 billion investment in capital projects over the next decade will stimulate the economy by creating thousands of direct construction jobs along with indirect service and commercial opportunities. In FY 17, the Port is forecasting to spend \$267 million on the Gerald Desmond Bridge as construction is well underway, with all work scheduled to be completed in 2018. FY 18 will also see the Port invest

approximately \$90 million in its Middle Harbor Redevelopment Project. When the project is complete, the Middle Harbor Terminal will accommodate the newest 20,000+ Twenty-Foot Equivalent Unit (TEU) container ship and be the greenest major container terminal in North America due to its extensive use of on dock rail and cold ironing infrastructure.

Port Security will continue to be a high priority, with the Department investing nearly \$19 million in capital projects, including \$15 million for fire station upgrades and one new fire boat.

The new Utilities section is comprised of three services to Long Beach residents. These are Long Beach Gas and Oil, Long Beach Water and Stormwater/Environmental Compliance.

Long Beach Gas and Oil Department

Long Beach Gas & Oil (LBGO) oversees 1,900 miles of natural gas pipeline. A key Department objective is the safe delivery of natural gas to its 147,000 businesses and households. All operations are conducted in strict compliance with U.S. Department of

Transportation's (DOT) pipeline safety regulations, CFR 49 part 190-199. LBGO is engaged in a long-term pipeline infrastructure replacement program focusing on pipelines identified in its Distribution Integrity Management Plan. During the past five years, over 56 miles of distribution pipeline and approximately 5,500 service pipelines have been replaced, improving system integrity.

As part of the Department's commitment to provide affordable and safe natural gas, LBGO has taken a system-wide approach in reviewing the backbone of the gas distribution system for potential upgrades to increase reliability of gas delivery. LBGO is also in the process of establishing a consistent pressure standard throughout the system to ensure the long-term ability to meet customer demand and has installed or replaced twelve district regulator stations in the past five years. The integrated approach to pressure-consistency, and replacement of aging infrastructure will improve reliability and allow for more efficient operations. In addition, LBGO will continue to work closely with the Public Works Department to coordinate gas projects with street improvement projects.

Stormwater/Environmental Compliance

The Stormwater/Environmental Compliance Division is responsible for maintaining the City's 300 miles of storm drains and sewer pipeline, pump stations and monitoring stormwater quality within Long Beach. Water quality compliance is handled through the City's National Pollutant Discharge Eliminate System (NPDES) permit. In 2016, an assessment of the City's 23 pump stations was completed and identified over \$35 million in repairs and upgrades.

In FY 18, \$1.85 million is for Stormwater/Environmental Compliance. Of this amount, \$1.55 million is from Measure A funding for storm drain repair and certification. The remaining \$300,000 is to install full capture trash inserts to comply with a State-wide environmental mandate.

Long Beach Water Department

Planned capital improvements to the City's water and sewer system encompass a wide range of projects. The Water Department will continue replacing aging infrastructure that is approaching the end of their useful life including, but not limited to; water pipelines, valves and meters. The Department will coordinate pipeline projects with the Measure A Street Rehabilitation projects. In addition, the Department is continuing with its well and water tank rehabilitation projects. The Sewer CIP budget reflects a sustained level of investment in infrastructure, as the Department follows a programmatic CIP based on an updated Sewer Master Plan.

AIRPORT TERMINAL AREA IMPROVEMENT

AP1030

Project Description The Long Beach Airport's historic terminal building is heavily used on a daily basis. This high usage leads to unforeseen repairs and consists of emergency repair to non-scheduled equipment replacement. The new passenger concourse will require similar as-needed repairs as the facility ages. The critical need is for the Airport to have the ability to keep the facility operational. The Terminal Improvements Phase II consists of a new ticketing lobby, TSA In-Line Checked Baggage Screening Facility, baggage claim, Rental Car Facility and a Ground Transportation Center.

Estimated Operating and Maintenance Terminal upgrades are intended to prolong the life of the new infrastructure and ensure the terminal is modernized, efficient and accessible for future use.

Project Timeline Design: October 2017 – March 2018.
Construction: April 2018 – September 2018.

COLORADO LAGOON

PW8000

Project Description Repair and rehabilitate the playground area, irrigation systems and fencing at the Colorado Lagoon.

Estimated Operating and Maintenance Repair and maintenance to prolong the life of the Colorado Lagoon and reduce future infrastructure expenses.

Project Timeline Design: October 2017 - December 2017.
Construction: January 2018 - April 2018.

Department Contact Public Works - Project Management - Eric Lopez - (562) 570-5690

Funding Sources

Funding Source	Beg Balance	FY 18	FY 19	FY 20	3 Year Total

BEACH PARKING LOTS REHABILITATION

PW8310

Project Description Repaving and grading for better drainage and striping of parking lots. New gate arm for the boat launch ramp and new electric vehicle charging stations. Upgrades to be made at:

- Belmont Pool Parking Lot
- Granada Beach Parking Lot

Estimated Operating and Maintenance The parking lot will not be expanded, so there are no additional operating and maintenance impacts are anticipated.

Project Timeline Design: January 2017 - September 2017.
Construction: October 2017- December 2017.

SUSTAINABLE TRANSPORTATION IMPROVEMENT

PWT010

- Project Description**
- Citywide 8-80 Connections
 - Design, construct, implement projects and programs to enhance the safety and viability of bicycle and pedestrian routes
 - Grant Matching Funds
 - Liveability Initiatives
 - PCH Ride

Estimated Operating and Maintenance Repair and maintenance to prolong the life of bike corridors and reduce future infrastructure expenses.

Project Timeline

Design: October 2017– February 2018.
 Bid & Award: March 2018 – August 2018.
 Construction: September 2018 – February 2019.

PARK BIKE PATH REPLACEMENT

PW3010

Project Description On-going repair and/or replacement of existing bike paths, facilities, signage, and striping of park bike paths. Ongoing repair and replacement of bike path paving and striping at:

- Channel View Park
- El Dorado Regional Park (including park connections to the San Gabriel River Bike Path)
- Heartwell Park, including off-site connection to the San Gabriel River Bike Path
- PW right-of-way off-street bike path between Martin Luther King, Jr. Avenue and Orange Avenue
- Recreation Park
- 6th Street off-site connection to the LA River Bike Path

Estimated Operating and Maintenance Repair and maintenance to prolong the life of bike paths and reduce future infrastructure expenses.

Project Timeline Design: October 2017.
Construction: November 2017 – October 2018.

RECREATION BUILDING REHABILITATION

PW3240

Project Description Rehabilitate existing buildings to enhance the functional use and maximise operating efficiencies. Work to be initiated in FY 18:

- 4th Street Street Senior Center

Estimated Operating and Maintenance Repair and maintenance to prolong the recreation buildings and reduce ongoing infrastructure expenses due to increased park usage.

Project Timeline Design: October 2017 – March 2018.
Construction: April 2018 – September 2018.

Department Contact Public Works - Project Management - Eric Lopez - (562) 570-5690

CONVENTION CENTER COMPLEX IMPROVEMENTS

PW2040

- Project Description** The Convention Center's Capital Improvements will provide facility upgrades to address infrastructure needs and to enhance the competitive position of the Center. Work to be initiated in FY 18:
- Terrace Plaza Fountain upgrades
 - Terrace Plaza Sound & Lighting Upgrades
 - General painting, flooring and other building upgrades

Estimated Operating and Maintenance These Capital Improvements increase the longevity of the City-owned asset, decrease maintenance costs, and improve the marketability of the Center. The Center provides an incredible amenity for the local community and regional visitors, and is an important economic driver for the City.

Project Timeline Design and Permitting: October 2017.
Construction: November 2017 – October 2018.

Department Contact Economic Development - Johnny Vallejo - (562) 570-6792

CIVIC CENTER COMPLEX IMPROVEMENTS

PW4100

Project Description The Civic Center Complex facility requires improvements to maintain each facility in a reliable and efficient operating condition. A majority of these projects will be initiated based on operational needs in conjunction with the new city hall and main library. Public Safety Building retrofits include LED lighting and maintenance on boilers.

Estimated Operating and Maintenance Repair and maintenance to city hall, main library and surrounding complex to reduce ongoing infrastructure expenses while the new city hall and main library are under construction.

Project Timeline Design: September 2017 – October 2017.
Construction: November 2017 – October 2018.

CITYWIDE REROOFING

PW4140

Project Description Replace City building roofs to prevent damage to structures, equipment, and protect and preserve inventory. Roof replacement can extend the lifespan of buildings, facilities, and substructures around the City including parks establishments and community centers. Work to be initiated in FY 18:

- Fire Stations
- Neighborhood Branch Libraries

Estimated Operating and Maintenance These Capital Improvements increase the longevity of City-owned assets and decrease maintenance costs.

Project Timeline Design: October 2017.
Construction: November 2017 – October 2018,

GENERAL CITY BUILDING REFURBISHMENT

PW4240

Project Description Refurbish City buildings to minimize structural deficiencies and extend the facility useful life.
 Work to be initiated in FY 18:

- Bach, Twain, and Bret Harte Libraries
- Emergency Operations Center
- Energy Efficient Upgrades
- Fire Stations 7 and 17
- Fire Station Training Center
- Health Department Facilities
- Police Academy

Estimated Operating and Maintenance Repair and maintenance to prolong the life of municipal buildings and reduce ongoing infrastructure expenses.

Project Timeline Design: October 2017 – March 2018.
 Construction: April 2018 – September 2018.

FIRE FACILITIES MODERNIZATION

PW4370

Project Description Modernize fire department facilities at Fire Stations throughout the City. Upgrades include providing gender separation for restrooms and the conversion of common sleeping dorms to private sleeping quarters in order to provide privacy for the workforce.
Work to be initiated in FY 18:

- Fire Station 9

Estimated Operating and Maintenance Upgrade and maintenance to prolong the life of municipal fire facilities and reduce ongoing infrastructure expenses.

Project Timeline Construction: October 2017 – September 2018.

FACILITY ASSESSMENTS

PW4450

Project Description Develop list of all City-owned buildings and facilities and complete an independent Facility Condition Assessment. This will include comprehensive building evaluations (structural, mechanical, electrical, plumbing, and energy and water conservation) for City facilities, identifying corrective work needed, and developing budget estimates and projected schedules for the completion of all recommended and preventative maintenance work.

Estimated Operating and Maintenance Maintenance of a comprehensive facility deficiency listing will be essential to identifying future rehabilitation work and minimize maintenance costs.

Project Timeline Assessment: December 2017 - December 2018.
Construction: August 2018.

**STORM DRAIN SYSTEM & WATER QUALITY IMPROVEMENT****PW7060**

Project Description Repair storm water catch basins and storm water mainline pipes. Construct storm drain enhancements. Conduct water quality improvements along Queensway Bay, San Pedro Bay, Alamitos Bay, and Los Cerritos Channel. Required monitoring modeling and implementation actions associated with Total Maximum Daily Loads (TMDL) as mandated by the State and Federal agencies. Improvements include construction of bioswales, low flow diversions and Structural Best Management Practices (BMP) for trash, metal and bacteria.

Estimated Operating and Maintenance Repair and maintenance to modernize storm drain catch basins and mainline pipes to reduce future infrastructure expenses related to normal degradation and heavy usage.

Project Timeline Design: October 2017 - March 2018.
Construction: April 2018 - April 2019.

Note: LBGO is completing the installation of an Advanced Metering Infrastructure system (AMI). Initial funding provided by a special fee to the rate payer with additional funding from a lease-to-own financing program. Debt service will be covered with savings from existing meter reading contract. AMI cost is not included in the numbers provided.

Gas Meter Replacement budget is reduced to \$25K in FY2018.
LBGO anticipates AMI meter installation will be completed in FY2017.

Fiscal Year 2018 Capital Improvement Program

Fiscal Year 2018 Capital Improvement Program

Glossary

AB2766 (Air Quality): This funding source was enacted to support programs that reduce air pollution from motor vehicles. Funds are collected by the Department of Motor Vehicle (DMV) and subvended to the South Coast Air Quality Management District (AQMD) for disbursement. The City receives these funds to implement programs and measures that reduce air pollution from motor vehicles mandated by the requirements of federal and state Clean Air Acts and the Air Quality Management Plan (AQMP).

AB2928 (Traffic Congestion Relief): The State Assembly Bill that established legislation for the Traffic Congestion Relief Fund in the State Treasury for allocation of street and road funds to cities and counties for maintenance and reconstruction. This funding source was replaced in 2002 by the Transportation Congestion Improvement Act. See State Proposition 42.

Americans with Disabilities Act of 1990 (ADA): A Federal law enacted to provide for the protection of individuals with disabilities. This protection ranges from prohibitions against discrimination in employment to specific requirements for modifications of public facilities and transportation systems.

Airport Area Assessment District: The assessment district formed for the purpose of constructing upgrades in the airport area to improve traffic flow. The upgrades include street widening, grade separation, dedicated turn lanes, traffic signals, and signage. See Assessment District.

Airport Capital: A sub-fund of the Airport Fund. The non-grant portion of the Airport Fund capital expenditures. See Airport Fund.

Airport COPS: Certificates of Participation issued by the Long Beach Airport to fund capital improvements. See Certificates of Participation.

Airport Fund: The fund designation used to account for revenues and expenditures applicable to the operation and maintenance of the Long Beach Airport and its leaseholds. The major revenue sources consist of revenues related to airport operations leases and grants. The Airport Fund is an Enterprise Fund. See Enterprise Fund.

Airport Customer Facility Charges: A fee charged by car rental agencies on each rental transaction and passed on to the Airport to expend on a car

rental facility or transportation system between the rental facility and the terminal.

Airport Passenger Facility Charges: The amount added to the passenger airline ticket to provide a funding source for airport improvements.

Appropriation: An authorization granted by the City Council that permits officials to make expenditures and incur obligations for specific purposes.

Assessment District: A separate local government entity formed to provide specific local public services. Assessment districts can be established to provide a single service such as sewage treatment or to provide multiple services such as police and fire protection, parks and recreation facilities, and water distribution systems. Property owners within the assessment district's boundary pay into the district in direct proportion to the benefits or services they receive.

Beginning Balance: Unspent funds carried over from prior fiscal years that become part of the FY 18 appropriation.

Bond: A method of financing long-term debt, issued by a government or private corporation, which bears interest.

Budget: A plan of anticipated expenditures and revenue for a certain period.

California Energy Commission: California's primary energy policy and planning agency.

Caltrans: The State of California Department of Transportation. Caltrans administers both U.S. Department of Transportation grants and its own grants for improvements to streets and highways.

Caltrans Construction Cooperative Grant: A grant issued by Caltrans for the City of Long Beach to provide various services in connection with the State's Interstate 710 construction project.

Capital: Assets that add to the long-term net worth of the City.

Capital Improvement: Construction or major repair of City-owned buildings and infrastructure which helps meet health, safety, and legal concerns and mandates, prolongs the life of City assets or avoids or minimizes future repair costs, benefits the community and supports goals articulated in the City

of Long Beach Strategic Plan, has potential to generate operating savings or increase productivity, and is consistent with the City's General Plan.

Certificates of Participation (COPS): Interest-bearing debt instruments sold to investors by a non-profit agency to finance construction. The agency then leases the facility and uses the revenues to repay the debt.

CFD No. 5 Bond: See Community Facilities District (CFD) No. 5 Bond.

CFO: Chief Financial Officer.

CIP Category: A group of similar programs organized into a major section of the CIP budget document.

Civic Center 1997A Bond: A bond issued in 1997 by the Long Beach Finance Authority to fund various capital improvement projects in the Civic Center Complex.

Civic Center Capital: A sub-fund of the Civic Center Fund. The non-bond portion of the Civic Center Fund capital expenditures. The major ongoing revenue source to the Fund is rental payments from the departments occupying the facilities.

Civic Center Fund: The fund designation used to account for revenues and expenditures applicable to the operation and maintenance of the City Hall Complex and the Main Library Complex. The major ongoing revenue source to the Fund is rental payments from the departments occupying the facilities.

Coastal Conservancy Grant: State bond proceeds used to provide grant that protect coastal or ocean resources from development, natural or economic conditions. Established in 1976, the California Coastal Conservancy is funded largely by State bonds.

Community Development Block Grant (CDBG): Federal entitlement funds (based on various criteria) received by the City of Long Beach from the U.S. Department of Housing and Urban Development (HUD) for the purpose of benefiting low and moderate-income areas and disabled residents.

Community Facilities District (CFD) No. 5 Bond: The 2000 Special Tax Bonds issued to finance the acquisition and construction of certain street and other public improvements for the Long Beach Towne Center.

Construction Support: Engineering work during the construction process, which ensures that projects are constructed in accordance with design parameters and specifications. Primary construction engineering functions include construction, inspection, laboratory services, field surveys, and design plan updates or interpretation.

Contract Award Process: Procurement preparation for Council award and all pertinent contract documentation prior to the initiation of construction.

Debt Service: The principal and interest payment on borrowed money according to a predetermined schedule.

Department of Boating and Waterways (DBAW): A State agency that provides grants and loans for improvements in the Tidelands areas of the City.

Design: The process of identifying project options, developing a project scope, conducting feasibility analyses, and creating plans, specifications, and estimates for a capital improvement. Primary design engineering functions include drafting, design, development of specifications, and traffic engineering.

Economic Development Administration (EDA): Created by Congress pursuant to the Public Works and Economic Development Act of 1965 to generate new jobs, retain existing jobs, and stimulate industrial and commercial growth in economically distressed areas of the United States.

Edison Grant: A grant received from Edison International under the LED Traffic Signal Rebate Program to provide for more energy efficient traffic signals.

Environmental Enhancement and Mitigation Program (EEMP) Grant: Annually, the EEMP offers grants for projects to mitigate the environmental impacts caused by new or modified state transportation facilities. These grants are offered to local, state, and federal governmental agencies. The EEMP was established in 1989.

El Dorado Regional Park Development Grant: A National Park Service federal grant administered by the State Department of Parks and Recreation to upgrade the El Dorado Park campsites.

Enterprise Fund: The fund designation used to account for City operations that are financed and operated in a manner similar to private business enterprises. The intent of the City in using this type of fund is to determine that the costs (expenses, including depreciation) of providing these services to the general public on a continuing basis are financed

or recovered primarily through user charges. The City's Enterprise Funds include Airport, Development Services, Gas, Refuse/ Recycling, Sewer, Towing, Water, and SERRF.

Environmental Protection Agency (EPA) Grant: Federal funds used to address environmental issues for pre-approved projects.

FAA: Federal Aviation Administration.

FAA AIP Program Grant: An Airport Improvement Program (AIP) grant from the FAA to construct capital improvements for pre-approved projects at the Long Beach Airport.

FEMA: Federal Emergency Management Agency. Provides funds, services, hiring, and post-disaster assistance for response and recovery in the event of natural disasters.

FEMA HMGP: The FEMA Hazard Mitigation Grant Program. The Governor's Office of Emergency Services (OES) administers this program in California.

Fiscal Year (FY): A designated time frame which identifies the beginning and ending dates for recording an entity's financial transactions. The fiscal year for the City of Long Beach is from October 1 through September 30.

Fleet Capital: A sub-fund of the Fleet Fund. It is comprised of the non-grant and non-bond portion of the Fleet Fund capital expenditures. See Fleet Fund.

Fleet Fund: The fund designation used to account for revenues and expenditures applicable to the City's operation, maintenance, and timely replacement of the City's fleet of vehicles and equipment. There are two major sources of ongoing revenue for the Fund, Fleet Services charges to the City departments and land rental payments.

Fund: An accounting entity with a self-balancing set of accounts recording financial resources and transactions for specific activities.

Fund Type: A classification term used to group funding sources into specific categories of government functions or services.

Funding Source: The specific source of appropriated funds.

FY 18 New Budget: The new allocation of monies that is part of the FY 18 budget appropriation.

Gas Capital: A sub-fund of the Gas Fund. This is the non-grant portion of the Gas Fund capital expenditures. See Gas Fund.

Gas Fund: The fund designation used to account for revenues and expenditures applicable to activities associated with the transmission and distribution of natural gas to the City's users. The Gas Fund is an Enterprise Fund. See Enterprise Fund.

Gasoline Tax Street Improvement Capital: A sub-fund of the Gasoline Tax Street Improvement Fund. This is the non-grant portion of the Gasoline Tax Street Improvement Fund.

Gasoline Tax Street Improvement Fund: The fund designation used to account for revenues and expenditures of gasoline tax funds apportioned under the State Streets and Highways Code, as well as other sources dedicated to transportation improvements. Expenditures may be made for any street-related purpose on the City's system of streets, including maintenance. In addition to the gasoline tax revenue from the State of California, other transportation-related revenue sources include funding from the Federal Transportation Equity Act for the Twenty-First Century (TEA-21) and the State Traffic Congestion Relief Fund and State Proposition 42 (AB2928).

General Capital Projects Fund: The fund designation used to account for the all-years Capital Improvement Program with multiple funding sources, including the General Fund that pays for the City's general projects.

General Fund: The fund designation used to account for financial resources applicable to the general governmental operations of the City of Long Beach. The largest sources of revenue for the General Fund are property taxes, sales taxes, utility user's taxes, and motor vehicle license fees.

Grants: Disbursement of assets from another government agency or entity to be expended for a pre-approved purpose, activity, or facility.

Highways-Through-Cities Grant (HTC): A Los Angeles County financial aid program to assist Cities with their major and secondary highway rehabilitation projects. This is a discretionary program based on each Supervisor's decision regarding which projects to assist in the cities within their district. Financing is provided by each County Supervisor District's Road Construction program allocation of State gas tax funding.

HBRR: Highway Bridge Rehabilitation and Replacement Program. See TEA-21 HBRR.

Health Fund: The fund designation used to account for revenues and expenditures applicable to the support of the operations of the Department of Health and Human Services.

HVAC: Heating, ventilation, and air conditioning.

Internal Service Fund: The fund designation used to account for the finance of goods and services provided by one City department to another on a cost-reimbursement basis, e.g., computer services, fleet services, etc., including depreciation.

ISTEA: Intermodal Surface Transportation Efficiency Act (of 1991). The Transportation Equity Act for the Twenty-First Century (TEA-21) superseded this funding source in 1998. The Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) superseded TEA-21 in 2005. The Moving Ahead for Progress in the 21st (MAP-21) Century Act supercedes SAFETY-LU in 2012.

LED: Light Emitting Diode. A component of an electronic display.

Long Beach and Los Angeles Harbor Contributions: Monies received from the Long Beach and Los Angeles Harbors to fund various street improvements to improve the traffic flow out of the Long Beach and Los Angeles harbor areas.

Los Angeles County Grant: Grants issued by the County of Los Angeles to the City of Long Beach to fund various capital improvement projects.

MAP-21: The authorized bill that governed United States federal surface transportation spending. The bill was signed into law by President Bush on August 10, 2005 and expired on September 30, 2009 but Congress renewed its funding formulas ten times after its expiration date, until replacing the bill with Moving Ahead for Progress in the 21st (MAP-21) Century Act in 2012. The \$286.4 billion measure contained a host of provisions and earmarks intended to improve and maintain the surface transportation infrastructure in the United States, including interstate highway system, transit systems around the country, bicycling and pedestrian facilities, and freight rail operations.

Marina Capital: A sub-fund of the Marina Fund. The non-grant and non-loan portion of the Marina Fund capital expenditures. See Marina Fund.

Marina Fund: The fund designation used to account for the revenues and expenditures

applicable to the operation, maintenance, and development of the City's marinas in the Tidelands area.

Measure A: In June 2016, Long Beach voters approved Measure A, a Transaction and Use Tax. The Measure added a transactions and use (sales) tax on the sale and/or use of all tangible personal property sold at retail in the City for a 10 year period.

Measure D: In November 2010, Long Beach voters approved Measure D, a City Charter amendment that removed control of oil properties and all oil operations in the Port of Long Beach from the Long Beach Board of Harbor Commissioners, giving the authority instead to the Long Beach City Council. Measure D transfers 5% of the port's gross earnings to Tidelands Operating Fund.

Measure R: A ballot measure proposed by the Los Angeles County that was passed in 2008. This increases the county sales tax by one half-cent to fund transportation projects. Collection of Measure R sales tax revenue commenced on July 1, 2009.

MTA Grant: State and Federal funding awarded to the City of Long Beach through the Metropolitan Transportation Authority (MTA) "Call for Projects".

Non-Point Source Pollution (NPS): Water pollution which originates from many different sources rather than one specific, identifiable source. NPS occurs when rainfall, irrigation waters, and water habits (washing cars/pets) create a flow over land and impervious surfaces and are deposited into the receiving waters via the storm drain system.

Park Impact Fees: Fees collected on new residential development to mitigate impact on Parks, Recreation and Marine facilities for the purpose of assuring that the park land and recreational facility standards established by the City of Long Beach are met with respect to the additional needs created by such development.

Program: A specific undertaking for the delivery of a capital improvement including procurement, construction or installation of facilities or related equipment.

Proposition A: A source of funding from the Los Angeles County sales tax of one-half cent used exclusively to construct, improve, and maintain mass transit services and facilities. See Transportation Fund.

Proposition 1B (Transportation Bond): Funding derived from Budget Bill: SB78 and Trailer Bill: SB88 and implemented as "The Highway Safety, Traffic

Reduction, Air Quality, and Port Security Bond Act of 2006" passed by the voters in November 2006. This authorized the state to sell approximately \$20 billion of general obligation bonds to fund transportation projects to relieve congestion, improve the movement of goods, improve air quality, and enhance the safety and security of the transportation system.

Proposition C: A source of funding from the Los Angeles County sales tax of one-half cent used to construct, improve, and maintain mass transit services and facilities. This funding also provides an expanded list of eligible project expenditures including: congestion management programs, bikeways and bike lanes, street improvements supporting public transit service, and pavement management system projects. See Transportation Fund.

Proposition C MTA Grant: See MTA Grant.

Proposition 42: See State Proposition 42.

Public Safety Facilities Capital Improvements Lease Revenue Bond: The 2002 bond issued by the Long Beach Finance Authority to finance public safety facility capital improvement projects.

Rainbow Harbor Area Fund: The fund designation used to account for revenues and expenditures applicable to the operation, maintenance, and development of the City's Rainbow Harbor area.

Rainbow Harbor Capital: A sub-fund of the Rainbow Harbor Area Fund. The non-grant and non-loan portion of the Rainbow Harbor Area Fund capital expenditures.

Safe Routes to School Program: Administered by Caltrans, this 2003 program provides state and federal funds for projects that protect the safety of children traveling to and from school. Projects were developed through collaboration with the Long Beach Unified School District.

SERRF Refunding 03 Bonds: The 2003 refunding bonds for the finance of the construction of the Southeast Resource Recovery Facility (SERRF).

Sewer Capital: A sub-fund of the Sewer Fund. The non-grant portion of the Sewer Fund capital expenditures. See Sewer Fund.

Sewer Fund: The fund designation used to account for revenues and expenditures applicable to the operation, maintenance, and replacement of the City's sewer system in a cost effective manner. The major sources of revenue include a water usage charge based on water that will enter the sewer

system and a service charge based on the size of the customer's water meter. The Sewer Fund is an Enterprise Fund.

Skylinks Golf Course 03 Bonds: The 2003 bond issued by the Long Beach Finance Authority to finance improvements to the Skylinks Golf Course.

South Coast Air Quality Management District (SCAQMD): Agency responsible for preparation of the state implementation plan (SIP) applicable within its boundaries, adoption of control regulations for stationary sources, and implementation of indirect source and transportation control measures.

State Bond Act of 1988: The 1988 bond issued by the State of California to fund various parks and recreation projects.

State Grant – California Endowment Fund: State funding awarded to the City of Long Beach to establish a Latino Diabetes Prevention and Management Program.

State Grant – Energy Commission: Funding authorized by Assembly Bill 970 and administered by the California Energy Commission (CEC). These funds were used to purchase and install light-emitting diode (LED) traffic signals and battery back up systems.

State Grant – Public Libraries: Funding for new library facilities provided under the California Reading and Literacy Improvement and Public Library Construction and Renovation Bond Act of 2000.

State Implementation Plan (SIP): The 1970 Clean Air Act requires each state to develop a state implementation plan to attain National Ambient Air Quality Standards (NAAQS) by the applicable attainment deadlines. SIPs must be approved by the Federal Environmental Protection Agency.

State Library Bond: California Reading and Literacy Improvement and Public Library Construction and Renovation Bond Act of 2000 (Proposition 14). The bond proceeds are designated for site acquisition, new building construction, remodeling, renovation, and upgrading electrical and telecommunications systems.\

State Proposition 12 Bond: Funding derived from Assembly Bill 18 and Senate Bill 1147 and implemented as the Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Act of 2000. The program includes entitlement (funding for cities based on population) and competitive grants for improvement of park land and facilities.

State Proposition 13 (Costa-Machado Water Act of 2000) - Coastal Non-point Source Program: A source of funding from the State Water Resources Control Board (SWRCB) for the Los Angeles River and Colorado Lagoon California Beaches Initiative projects.

State Proposition 40 Bond: Funding derived from the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Act of 2002. Proposition 40 provides both entitlement and competitive grant programs to California cities for improvement of community recreation areas.

State Proposition 40 Water Board Grant: Funding derived from the SWRCB from the Clean Beaches Initiative. This grant was obtained for the remediation of the Colorado Lagoon.

State Proposition 42: Funding derived from Assembly Bill 2928 and implemented as State Transportation Congestion Improvement Act, passed in 2002. This requires sales and user taxes on motor fuels to be used for public transportation, city and county road repairs and improvements, and state highway improvements.

State Proposition 46 Jobs Housing Balance Incentive Grant: The Housing and Emergency Shelter Trust Fund Act of 2002. This authorized the award of a one-time \$25 million grant for cities and counties meeting the terms and conditions of the program for the 2001 calendar year. The City obtained this grant as part of the matching fund requirement for the MacArthur Park Branch Library project.

State Transportation Improvement Grant: Federal funds from the Department of Transportation given to the State of California for major transportation projects. This funding has been used primarily for Citywide street repair and improvements.

State Water Bond 2000: Funding derived from the Safe Drinking Water, Clean Water, Watershed Protection, and Flood Protection Act of 2000. The funds are administered by the SWRCB for non-point source pollution control, watershed management plan development and implementation, wastewater recycling, and the protection of various targeted watersheds.

TDA-SB821: Transportation Development Act funding from sales tax receipts as specified in the California Streets and Highways Code. The TDA SB-821 is the Senate Bill that established legislation for the Transportation Development Act.

Transportation Equity Act for the Twenty-First Century (TEA-21): Enacted on June 9, 1998, this federal legislation authorizes the Federal surface transportation programs for highways, highway safety, and transit. TEA-21 provides states with the flexibility to set their own transportation priorities and to explore creative financing mechanisms within certain guidelines. TEA-21 supersedes the 1991 ISTEA program.

TEA-21 HBRR: Highway Bridge Replacement and Rehabilitation funds used specifically for bridges within the city limits. See TEA-21.

TEA-21 MTA Grant: See MTA Grant.

Temple/Willow Bond: Bonds issued by the City to fund the construction of the new Fleet and Towing facility located on the corner of Temple Avenue and Willow Street.

Tidelands Operations Capital: A sub-fund of the Tidelands Operations Fund. The non-grant and loan portion of the Tidelands Operations Fund capital expenditures. See Tidelands Operations Fund.

Tidelands Operations Fund: The fund designation used to account for revenues and expenditures applicable to the operations, maintenance, and development of the convention center and beaches in the Tidelands area.

Traffic Mitigation Program: The goal of the Program is to relieve arterial congestion, accommodate planned growth, and implement specific programs including street widening, left turn pockets, parking prohibition, off-street replacement parking, and traffic signal synchronization. The City receives the monies from the payment of Transportation Improvement Fees. The Traffic Mitigation Program monies are appropriated in the Capital Projects Fund.

Transactions and Use Tax (Measure A): Additional sales tax added for transactions on the sale of all tangible personal property sold at retail in the City for a 10 year period starting in January of 2017.

Transportation Development Act: The Transportation Development Act TDA SB-821 of 1971, law provides funding to be allocated to transit and non-transit related purposes that comply with regional transportation plans. Funding comes from sales tax receipts as specified in the California Streets and Highways Code.

Transportation Fund: The fund designation which accounts for revenues and expenditures applicable to the City's share of an additional one and a half

percent sales tax. The tax is collected by the County of Los Angeles to finance transportation projects: Propositions A, 1B, C and Measure R.

Transportation Improvement Fees: Fees collected from land developers to mitigate cumulative traffic impacts. Sometimes referred to as Transportation Development Fees. See Traffic Mitigation Program.

TSM-State Grant: Traffic System Management funds administered by the California Department of Transportation (Caltrans) for traffic-related improvements. Receipt of the grant funds is contingent upon Caltrans' approval of the proposed projects.

Upland Oil Revenue Fund: An oil fund used to account for proceeds from oil operations north of the mean high tide in Long Beach, oil fields of working interest of Signal Hill east and west, Recreation Park on the north side of 7th Street and Marine Stadium. Revenues are used to spur investment opportunities in one-time capital improvements, budget requirements, and essential needs. The Upland Oil fund will allow for important contributions to public safety, infrastructure, libraries, parks, recreation, and technology.

Urban Area Security Initiative (UASI): A grant awarded by the U.S. Department of Homeland Security to the City of Long Beach to fund planning, equipment, training, and personnel costs associated with the protection of critical infrastructure in and around the Long Beach Urban Area.

Water Fund: The fund designation used to account for revenues and expenditures used to meet the water needs of the citizens of Long Beach with a dependable supply of high-quality water at a reasonable cost. The major sources of revenue include a volumetric charge for water used by customers and a service charge based on the size of the customer's water meter. The Water Fund is an Enterprise Fund. See Enterprise Fund.

West Long Beach Business Park Assessment District: The assessment district established to fund various street improvements in the West Long Beach area. See Assessment District.
