Capital Program Overview

Guide to the Capital Improvement Program (CIP)

Capital Improvement Planning Process

The Public Works Department is responsible for developing and implementing the Fiscal Year 2021 (FY 21) CIP. Public Works, in conjunction with other Departments, reviewed the City's capital needs and prioritized project submittals based on established criteria:

- The ability of the project to meet health, safety and legal concerns and mandates;
- The value of the project to prolong the life of City assets or avoid/minimize future repair costs;
- The benefits that the project will provide to the community in support of the goals articulated in the Strategic Plan;
- The potential for the project to generate savings or increase productivity; and
- The extent to which the project will secure future funds through program planning or grant eligibility.

In response to the current economic situation the City is facing due to the pandemic, the Financial Management Department continues to provide revenue projections to determine resources available to finance capital projects. Specifically, Financial Management monitors fiscal trends at both the local and state levels. Analyses of property, sales, and user tax revenues and County, State and Federal information contribute to their economic forecast.

This Document

The CIP identifies the adopted budget for each program receiving funding in FY 21, including estimated revenues for FY 22 and FY 23. The CIP's multi-year character is reflected in the historical summaries to show the fiscal activity for each program.

Carryover Balances

The Financial Summaries and individual Program pages include an FY 21 Budget Balance column. These budget balance amounts may be currently planned for projects in the design stage, pending contract award, or committed to an approved contract. Therefore, estimated budget balance amounts are not necessarily available for new projects. Carryover¹ balances are based on fiscal-year ending September 2020 data and calculated totals may reflect rounding.

Operating and Maintenance Costs/Operating Budget Impacts

One of the many issues evaluated through the CIP process is the impact new infrastructure projects and assets may have on departmental operating budgets. As capital improvement projects are considered by the City Council, the operating and maintenance (O & M) costs for these facilities should be estimated so that the City Manager and City Council can assess whether adequate budget is available to operate and maintain these facilities after construction.

Guide to the Capital Improvement Program (CIP)

(continued)

Although some additional costs may be absorbed within a department's existing budget, future resources often will be required and requested as part of the budget process for operational expenses associated with capital projects. As part of the Capital Improvement Program Budget process, the Public Works Department coordinated with the Financial Management Department and end user department staff to describe and quantify any anticipated O & M costs associated with each new capital project.

O & M costs are addressed at the outset of the process and, if needed, included in proposed adjustments to the operating budgets as part of the Annual Budget Process. As a result, the City Manager and the City Council can prioritize these additional costs, along with other budget requests, based on available funding.

Implementation Criteria

O & M costs are not applied to upgrades and renovations (e.g., major street maintenance projects) since they tend to lower long-term maintenance costs.

Calculating FY 21 Operating and Maintenance Costs

The Public Works Department assists client departments to quantify potential O & M costs.

- FTE (Full Time Equivalent) impacts;
- Utility (water, sewer, refuse, electrical and gas) costs in a facility;
- Maintenance, including HVAC, plumbing, electrical and structural repairs, landscaping services;
- Custodial services;
- New operating equipment/supplies; and
- Annual technology replacement contribution.

Dig Once Policy

The Dig Once Policy was established to minimize the number and scale of excavations within the City's right-of-way infrastructure. The Dig Once Policy will reduce costs of infrastructure projects when completed in conjunction with other right-of-way improvements while also facilitating integration of utility projects within the right-of-way. A moratorium is in effect for excavations in the right-of-way that have undergone construction, reconstruction or resurfacing within the previous sixty (60) months, or slurry sealed within the previous twenty-four (24) months. To ensure the most efficient and cost prohibitive delivery of infrastructure projects in the right-of-way, staff from lead departments (Public Works, Technology and Innovation, Long Beach Energy Resources, and Water) meet periodically to discuss and coordinate current and future projects within the right-of-way.

Fiscal Year 2021 Capital Improvement Program

New Funding Summary

Total New FY 21 Capital Funding: \$111,936,178

Fiscal Year 2021 - 2023 Capital Improvement Program

Estimated Funding Summary

Total Estimated FY 21 - FY 23 Capital Funding: \$313,411,956

Program Title: This summarizes the description of the Program. The City's diverse programs range from Sustainable Transportation to Park Infrastructure to Major Arterial Improvements.

Program Number: The reference number used to identify the specific Capital Investment Program.

Program Budget for FY 21: The beginning balance plus new funding for FY 21 Budget, the funding source shows the different funds making up the total program budget.

FY 21 and Future Years Totals: The total amount of new funding that is estimated to be allocated to the program in the current and future fiscal years.

Strategic Investments

Adopted Capital Projects

Provided below is a summary of adopted capital improvement projects for FY 21. These projects are funded through a variety of sources. Additional detail can be found in the FY 21 program pages.

Title	Description	Estimated Cost
Airport		\$1,000,000
AIRPORT LANDSIDE IMPROVEMENTS	Post-security areas such as the concourse facility and the pre-security areas such as the historic terminal building and adjacent roadways are heavily used on a daily basis. The upkeep of these facilities and infrastructure is critical to support air travel operations and maintain an award-winning travel experience.	\$500,000
AIRPORT AIRFIELD IMPROVEMENTS	Repairs and improvements necessary to comply with Part 139 Certification requirements. Improvements are emergency repairs and unforeseen maintenance on utility, pavement, crack sealing, slurry sealing, signage, lighting replacement, and paving.	\$500,000
Beaches and Marinas		\$0
Mobility		\$60,327,640
CIP ADMINISTRATION	Direct administration associated with managing local return programs or projects.	\$1,571,000
ADA RAPID RESPONSE	Construct and/or improve verified requests for right-of-way access and investigate new requests when received.	\$500,000
ALLEY IMPROVEMENTS	Ongoing repair and/or replacement of existing alleys identified in the Alley Management Plan.	\$2,325,728
ARTERIAL CORRIDOR ENHANCEMENTS	Design and construct multi-modal and complete street improvements along major roadway corridors. Enhancements include transportation facilities that benefit vehicles, pedestrians, bicyclists, and transit users.	\$13,303,100
ARTERIAL STREET REHABILITATION	Reconstruction and resurfacing of city streets to extend useful life, provide incidental curb, gutter and sidewalk improvements, construct curb ramps and bus pads and replace pavement markings.	\$17,202,912
BIKEWAY AND PEDESTRIAN IMPROVEMENTS	Design, construct and implement projects and programs to enhance the safety and viability of the City's bicycle and pedestrian network.	\$2,509,900
BRIDGE IMPROVEMENTS	Perform maintenance to prolong the life of bridges and reduce future infrastructure expenses related to infrastructure degradation and heavy vehicular usage.	\$1,000,000
BUS STOP IMPROVEMENTS	Provides recreational transit services and improvements to bus stops at various locations throughout the City.	\$210,000
ADA CURB RAMP IMPROVEMENTS	Construct sidewalk curb ramp improvements.	\$9,500,000
LIGHT RAIL TRANSIT IMPROVEMENTS	Replace/upgrade aging traffic signal and train control computers to provide traffic signal priority and synchronization for the A (Blue) Line light rail transit throughout Long Beach and provide maintenance to prolong the life of the improvements and reduce future infrastructure expense.	\$256,000

Strategic Investments

Adopted Capital Projects (continued)

Title	Description	Estimated Cost
RESIDENTIAL STREET IMPROVEMENTS	Repair residential streets and alleys through pavement sealing, asphalt overlays, and full reconstruction.	\$10,899,000
CITYWIDE SINKHOLES	Apply permanent repair or temporary patching of sinkholes and subsidence in the public right-of-way.	\$250,000
CITYWIDE STRIPING & SIGNAGE PROGRAM	Install and replace street name signs and traffic control signs at various locations throughout the City.	\$250,000
TRAFFIC SIGNAL IMPROVEMENTS	Construct pedestrian-related safety improvements and high priority traffic signal safety improvements.	\$550,000
Parks		\$0
Public Facilities		\$5,455,610
FACILITY IMPROVEMENTS	Improvements to City buildings to minimize structural deficiencies, extend the useful life of facilities and improve energy efficiency.	\$5,455,610
Utilities		\$45,152,928
STORM DRAIN SYSTEM IMPROVEMENTS	Construct water quality and drainage improvements Citywide.	\$3,000,000
LB ENERGY RESOURCES FACILITY WORK	Long Beach Energy Resources - Facility Work	\$500,000
LB ER FACILITY WORK GAS CONTROL /CATHODIC PROTECTION	Long Beach Energy Resources - Facility Work Gas Control / Cathodic Protection	\$250,000
LB ENERGY RESOURCES MAIN PIPELINE REPLACEMENT	Long Beach Energy Resources - Main Pipeline Replacement	\$8,500,000
LB ENERGY RESOURCES GAS METER REPLACEMENT	Long Beach Energy Resources - Gas Meter Replacement	\$25,000
LB ENERGY RESOURCES SERVICE PIPELINE REPLACEMENT	Long Beach Energy Resources - Service Pipeline Replacement	\$1,775,000
SEWER FUND	Upgrades and improvements to the City's sewer infrastructure.	\$6,287,094
WATER FUND	Upgrades and improvements to the City's potable and reclaimed water infrastructure.	\$24,815,834

Section Summaries

The purpose of the Capital Improvement Program (CIP) is to provide a comprehensive infrastructure investment program to plan, design, construct, maintain, and repair City facilities and its infrastructure. The size, age, and diverse infrastructure of the City along with limited funding requires significant consideration to determine the best investments to make, in order to realize the most cost-effective returns for the future. The CIP serves as a financial tool to identify funds for a wide variety of capital projects as well as a planning tool to ensure capital projects are consistent with the City's General Plan.

The economic vitality and quality of life in the community are enhanced through CIP projects. Capital improvements require a major initial investment, a significant ongoing financial commitment for maintenance and eventual replacement. The following pages provide a summary of each section with a dollar amount that represents the adopted funding for Fiscal Year (FY) 21.

As the COVID-19 pandemic spread across the globe quickly, its impact on our City has been equally rapid and severe. Economies are facing the worst period of economic growth since the Great Depression. Locally, this economic crisis is projected to have a severe effect on the City's revenues. In FY 21, not all sections received funding due to the negatively impacted revenues by the COVID-19 Pandemic.

How this Document is Organized

The CIP budget is comprised mainly of seven sections of capital improvement programs defined by the type of capital investment. The Public Works Department manages the following sections: Beaches and Marinas, Mobility, Parks, and Public Facilities. The Airport and Harbor Departments manage their respective sections of the CIP, while the Utilities section is split between Public Works, Long Beach Energy Resources Department, and the Water Department.

Airport

Beaches and Marinas

Harbor

Mobility

Parks

Public Facilities

Utilities

Program Section Overviews

Airport

Long Beach Airport (LGB) offers a variety of services to air carriers, commercial and general aviation users, as well as the traveling public. Funding for Airport Capital Improvement Projects is derived from several sources including: Federal Aviation Administration (FAA), Airport Improvement Program grants (AIP), Transportation Security Administration (TSA) grants, Passenger Facility Charges (PFC), Customer Facility Charges (CFC), Airport fees, and operating revenues. The focus of the Airport Capital Improvement Program is to continue improving the safety, security, and operations of the Airport to meet the mandates of the FAA and TSA.

In FY 20, the Airport completed the \$23M construction of Taxiway C, consistent with the Airfield Geometry Study recommendations to increase safety and efficiency of the airfield operations. The project included the reconstruction of the former Runway 16L-34R

using Portland Cement Concrete (PCC) and the construction of new cross taxiways D4 and L4, which were designed to simplify the pavement geometry adjacent to the main commercial Runway 12-30. The Airport was able to complete this project 4 months ahead of schedule by taking advantage of the lower number of airfield operations.

Also completed in FY 20, was the installation of 15 new electric Ground Service Equipment (GSE) chargers in an effort to lower pollutant emissions through conversion to electric ground support equipment. In addition to being faster and more efficient than previous chargers, they recognize each specific battery type and charge accordingly to prolong the life of the individual batteries.

The Terminal Area Improvements Program Phase II continues to progress, with the first two facilities (Checked Baggage Inspection System (CBIS) and new Ticketing Building) being prioritized. Foundation work for the CBIS building has been completed with steel erection and roofing underway. The Ticketing Building's electrical infrastructure is anticipated to be completed in early 2021 which will allow the Airport to complete site demolition and prepare for foundation construction. Other projects on the airfield include the \$6M rehabilitation of Taxiway D, which is currently underway and will be completed by the end of 2021, at which time the Airport anticipates beginning the \$7M construction of Taxiway B.

The Airport's budget includes a total of \$1,000,000 for FY 21. These improvements include \$500,000 for Airfield Pavement Rehabilitation and \$500,000 for Airport Terminal Area Improvements.

Beaches and Marinas

Two assets that help make Long Beach unique are its beaches and marinas. These City-operated and maintained assets provide recreational enjoyment to both residents and visitors. In FY 20, the City completed the Pierpoint Landing Roof Replacement, 72nd Street Lighting, Rainbow Harbor Fountain Repair, Rainbow Lagoon Pump Replacement, and the Naples Seawall Phase 2 projects. Construction is currently underway on three beachfront cafes located at Alamitos, Junipero, and Granada and are anticipated to be complete by the end of FY

21. Construction of the Colorado Lagoon Open Channel is anticipated to start in FY 21. Most Tidelands Capital Improvement Projects are subject to State Lands Commission approval prior to implementation.

Due to the significant revenue declines in the Tidelands area as a result of the COVID-19 pandemic, revenues anticipated to fund CIP projects were not realized. As a result, in FY 21, the Beaches and Marinas program did not receive any new funding.

Mobility

The Mobility section contains programs designed to meet the increased needs for mobility resulting from economic growth and utilizing a combination of different funding sources. Funding sources include the City of Long Beach Measure A, Proposition A and C, Gas

Tax Street Improvement Capital, Transportation Improvement Fees, Los Angeles County Measure M and R, State Road Maintenance and Rehabilitation Act, along with, Federal, State, and County grants.

Mobility improvements include roadway rehabilitation, complete streets and corridor improvements, traffic signal system and intersection upgrades, transit improvements, replacement parking and traffic lane striping, neighborhood traffic management, and mobility enhancements in the right-of-way. This section also includes programs that evaluate traffic congestion throughout the City while responding with projects to relieve congestion and enhance traffic safety.

When designing arterial and local streets, each location is addressed using the complete streets design framework. When designing a roadway, several factors are considered such as the conditions for people who walk, bicycle, and those who use public transportation. The program delivers improvements including reconstructing and resurfacing of major, secondary, and residential streets; upgrading accessibility of curb ramps to comply with current American Disabilities Act (ADA) regulations; installing bicycle facilities; replacement of street signs; repairing neighborhood sidewalks, curbs, and gutters; and rehabilitating bridges to repair deficiencies identified by the bridge inspection reports.

The paving program is guided by the City's Infrastructure Investment Plan (IIP) and Pavement Management Program (PMP), which is updated biannually. Staff also plans projects to coordinate with Development Services projects and projects from other departments and agencies. The program is developed to make the best use of our limited funds. This is not a "worst first" methodology as the City uses a balanced approach between maintaining "good" streets in good condition, while also spending some funding to eliminate the backlog of streets in "poor" condition. Several factors are taken into consideration when the City evaluates the selection of streets, such as surface conditions, utility work (pipeline construction), future developments in the area, and potential conflicts with other projects. The goal is to rehabilitate a roadway when it is in "good" condition versus delaying repairs to a state in which the street is in a "poor" condition, significantly increasing the costs of repairs.

In FY 20, the City started the design phase of the following Complete Streets projects: Anaheim Street Improvements – LA River to PCH, Market Street Improvements - LA River to Cherry Avenue, South Street Improvements – Dairy Avenue to Atlantic Avenue, Santa Fe Avenue Traffic Signal Improvements, and the Mid-City Traffic Signal Improvements – area bordered by Alamitos/7th/Redondo/Ocean.

The adopted Mobility budget includes \$60.3 million of new funding in FY 21, of which

\$41.4 million has been budgeted for street rehabilitation and arterial corridor enhancements throughout the City. The budget also includes Measure A funds totaling \$15.2 million, of which \$7.5 million is for Arterial Street Improvements, \$6.5 million for ADA Curb Ramp Improvements and \$1.2 million for Citywide Alley Improvements.

In addition to Measure A funding, Mobility also receives local, state and federal funding. This includes improvements to sidewalks, bridge rehabilitation and seismic retrofit, sustainable transportation, traffic mitigation, traffic and pedestrian signal improvements, and administration.

Parks

Long Beach has over 170 parks and over 3,000 acres of open space that are used daily by residents and visitors. Parks contribute to the economic vitality of Long Beach, as proximity to parks increases property value, thereby increasing property tax revenue. Long Beach Parks host festivals, concerts and athletic events that draw thousands of visitors, bringing tourism revenue to local restaurants, hotels, and stores, all while boosting the local economy.

Many of Long Beach's parks and open spaces face aging infrastructure, and there is a significant effort to rehabilitate existing park assets and irrigation. Deferred critical repairs have resulted in necessary capital projects to rehabilitate various park sites. In FY 20, the fourth year of Measure A funding, Public Works delivered over 25 projects related to park playground, community centers, and park facilities. These projects included Park Sports Courts resurfacing, lighting upgrades, and the Houghton Park Community Center.

Projects to be completed in FY 21 include: upgrades at Bixby Park Parcel 1, a new neighborhood playground at Channel View Park and renovations of four restrooms at El Dorado Park.

Due to the significant revenue declines as a result of the COVID-19 pandemic, revenues anticipated to fund CIP projects were not realized. As a result, in FY 21, The Parks program did not receive any new funding.

Public Facilities

The City of Long Beach owns over 350 facilities throughout the City that continue to provide residents with public services, recreational opportunities, places to learn, and

public safety. These facilities include but are not limited to the following: Libraries, Health Facilities, Fire Stations, and Police Stations.

In FY 20, construction for Civic Center Phase II work continues which includes access to Lincoln Garage and demolition of the old Main Library Branch. This fiscal year the Project Management Bureau (PMB) completed three Library Branch circulation desks, numerous roof repairs, and the Police Department (PD) West Station Roof Restoration and HVAC upgrade projects. The Public Safety Garage project construction was started in FY 20 and is scheduled to be completed in FY 21.

The Department of Public Works is in its' final stages of the Citywide Facility Condition Assessment (FCA). All City-owned buildings have been assessed and final FCA reports will be completed by summer 2021. Once complete, the assessments form the basis of capital improvement programming and identify early action items for facility maintenance. The FCA will allow staff to identify and prioritize items in need of repair based on resources available at the time.

The FY 21 budget for Public Facilities includes \$5.4 million of which \$3.3 million is from Measure A, \$2 million from AB-32 funds, and \$100,000 of Civic Center funds. In total, \$5.4 million has been budgeted for facility improvements, energy efficiency and solar projects, improvements to the new Fire Station 9, and \$100,000 for improvements to the Civic Center

Harbor

The Harbor Department (Port), with its deep-water channels, rail access, and ongoing investment in state-of-the-art facilities, continues to be the preferred gateway for Asia-Pacific trade and an operational model for its environmental innovations and initiatives. The Port continues to implement a long-term capital improvement program designed to provide Port tenants with secure, state-of-the-art facilities capable of accommodating international trade and safeguarding regional economic benefits in a sustainable manner while ensuring economic vitality, ecological health, and community integrity.

The Port forecasts investing \$1.7 billion in capital projects over the next decade to increase cargo-handling efficiency and enhance competitiveness. This investment will also stimulate the economy by creating thousands of direct construction jobs along with indirect service and commercial opportunities.

In FY 21, the Port is forecasting to spend \$382 million on capital projects, most notably with an \$80 million investment in enhancing its rail infrastructure and \$86 million for the third phase of the Middle Harbor Redevelopment Project. When complete, the Middle Harbor Terminal will accommodate the largest (20,000+ Twenty-Foot Equivalent Unit) container ships and be the greenest major container terminal in North America due to its extensive use of on dock rail and cold-ironing infrastructure.

Utilities

The Utilities section is comprised of three services to Long Beach residents. These critical services are provided by the Long Beach Energy Resources Department, Long Beach Water Department, and the Public Works Stormwater/Environmental Compliance Division. In addition, these departments work closely to coordinate water, gas, and street improvement projects in the right-of-way, adhering to the City's "Dig Once" policy preventing any newly paved or slurried street from being torn up. In FY 21, the Utilities budget includes a total of \$45.2 million of new funding.

Long Beach Energy Resources Department

Long Beach Energy Resources (LBER) Department oversees approximately 1,900 miles of natural gas pipelines. The Department's objective is to safely deliver natural gas to over 150,000 businesses and households in the most cost-efficient manner. All operations are conducted in strict compliance with the U.S. Department of Transportation's (DOT) pipeline safety regulations, CFR 49 part 190-199. LBER is engaged in a long-term pipeline infrastructure replacement program focusing on pipelines identified in its Distribution Integrity Management Plan (DIMP). In the past five years, over 50 miles of distribution main and service pipelines have been installed or replaced, improving system integrity.

The CIP takes a system-wide approach and replaces pipelines targeting the worst risk pipes within the system. Numerous factors that affect which pipes are selected for replacement include age, material type, leakage history, etc. In addition to pipeline replacement, the CIP addresses capital needs to regulator stations, valves, and other gas facilities, and funds critically mandated programs such as cross bore inspections, meter

replacement, gas facility surveys, etc. LBER will continue to work closely with the Public Works Department to coordinate gas projects with street improvement projects.

In FY 21, a total of \$11.05 million was adopted for LBER projects including main and service pipeline replacement, gas meter replacement, facility work, gas control, and cathodic protection.

Stormwater/Environmental Compliance

The Stormwater/Environmental Compliance Division is responsible for maintaining the City's 300 miles of storm drain pipeline, pump stations, and monitoring stormwater quality within Long Beach. Water quality compliance is handled through the City's National Pollutant Discharge Elimination System (NPDES) permit. In 2016, an assessment of the City's 23 pump stations was completed and identified over \$35 million in necessary repairs and upgrades.

In FY 21, \$3 million of Measure W funding was adopted for the implementation of the Watershed Management Program, the Long Beach Municipal Urban Stormwater Treatment (LBMUST) Facility, low flow devices, trash capture devices, and other projects to keep Long Beach in compliance with its' NPDES permit.

Long Beach Water Department

Planned capital improvements to the City's water and sewer system encompass a wide range of projects. The Water Department will continue replacing aging infrastructure that is approaching the end of its useful life, including, but not limited to, water pipelines, valves and meters. The Department coordinates pipeline projects with the Measure A Street Rehabilitation projects. The Department established a \$60,000,000 Water Fund Line of Credit to facilitate an increased, multi-year, investment in its water infrastructure. Planned capital improvements include drilling new local water wells, refurbishing existing wells, and rehabilitating existing storage tanks.

These investments will improve the production, conveyance, treatment, storage, and distribution of water to its customers. The Sewer CIP budget reflects a sustained level of investment in infrastructure, as the Department follows

a programmatic CIP based on an updated Sewer Master Plan.

In FY 21, the Water Department is proposing \$31.1 million in Capital Projects. Of this amount, \$24.8 million is in the Water Fund and \$6.3 million is in the Sewer Fund.

BEACH FACILITY IMPROVEMENTS

3002020000

Project Description Funding for projects and project contingencies to address unforeseen expenses for existing projects. Design and construct safety and as-needed repairs at locations to be determined.

Estimated Operating and Maintenance Funds used to keep existing project facilities and improvements in good working condition, as well as for emergency repairs due to unforeseen circumstances. These funds are utilized to make operating and maintenance repairs and extend the longevity of these City-owned assets.

Project Timeline Design and Construction on a continuous as-needed basis.

ARTERIAL CORRIDOR ENHANCEMENTS

3003030000

Project Description Design and construct projects that focus on multiple modes of transportation. Improvements along major roadways include transportation facilities that will improve the level of safety for all who traverse the corridors. Vehicles, pedestrians, bicyclists, and transit users will experience an improved level of comfort that will proactively encourage multi-modal use.

- Anaheim St.: LA River to PCH
- Bellflower Blvd./Spring St. Improvements
- Atlantic Ave. Improvements: Market St. to South St.
- **Market St. Ped Improvements & Streetscape Enhancement**
- Artesia Great Boulevard
- Repair and maintenance to prolong the life of the improvements and reduce future infrastructure expense.

Estimated Operating and Maintenance

Project Timeline Design: 2021

ARTERIAL STREET REHABILITATION

3003040000

Project Description Reconstruction and resurfacing of city streets to extend useful life, provide incidental curb, gutter and sidewalk improvements, construct curb ramps, bus pads and replace pavement markings.
Work to be initiated in FY 21:

- Studebaker Road: Keynote Street to LCD
- Del Amo Blvd.: Atlantic Avenue to Orange Avenue
- Willow Street: Golden Avenue to Magnolia Avenue
- Willow Street: Pacific Avenue to Long Beach Blvd.
- Willow Street: San Vincent Avenue Studebaker Road
- 3rd Street: Alamitos Avenue to Junipero Avenue
- Atherton Street: Palo Verde Avenue to Knoxville Avenue
- Outer Traffic Circle: Hathaway Avenue to Lakewood Boulevard
- 4th Street: Elm Avenue to MLK Boulevard

Estimated Operating and Maintenance Repair and maintenance to prolong the life of arterial streets and reduce future infrastructure expenses.

Project Timeline Design: October 2020 - March 2021
Construction: April 2021 - September 2021

LIGHT RAIL TRANSIT IMPROVEMENTS

3003120000

Project Description Replace/upgrade aging traffic signal and train control computers to provide traffic signal priority and synchronization for the A (Blue) Line light rail transit throughout Long Beach and provide maintenance to prolong the life of the improvements and reduce future infrastructure expense.

Estimated Operating and Maintenance Maintenance to prolong the life of the improvements and reduce future infrastructure expense.

Project Timeline Ongoing

Department Contact Public Works - Transportation Mobility - Carl Hickman - (562) 570-6332

MEDIAN IMPROVEMENTS

3003130000

Project Description Improvements may include re-landscaping and turf conversion to reduce water requirements and installation of solar powered irrigation controllers.

- Traffic Circle Improvements

Estimated Operating and Maintenance Repair and maintenance to prolong the life of medians and reduce future infrastructure expenses.

Project Timeline Construction: 2022

STORM DRAIN SYSTEM IMPROVEMENTS

3006020000

Project Description Construct water quality and drainage improvements **Citywide**. Installation of connector pipe screens (CPS) in existing priority catch basins to meet trash requirements mandated by the State Regional Water Quality Control Board (SRWQCB) and required monitoring, modeling, and implantation actions associated with Total Maximum Daily Loads (TMDLs) as mandated by the State and Federal agencies.

Estimated Operating and Maintenance Repair and maintenance to modernize storm drain catch basins and mainline pipes to reduce future infrastructure expenses related to normal degradation and heavy usage.

Project Timeline Design: October 2020 - March 2021
Construction: April 2021 - April 2022

Harbor

The Harbor Department (Port), with its deep-water channels, rail access, and ongoing investment in state-of-the-art facilities, continues to be the preferred gateway for Asia-Pacific trade and an operational model for its environmental innovations and initiatives. The Port continues to implement a long-term capital improvement program designed to provide Port tenants with secure, state-of-the-art facilities capable of accommodating international trade and safeguarding regional economic benefits in a sustainable manner while ensuring economic vitality, ecological health, and community integrity.

The Port forecasts investing \$1.7 billion in capital projects over the next decade to increase cargo handling efficiency and enhance competitiveness. This investment will also stimulate the economy by creating thousands of direct construction jobs along with indirect service and commercial opportunities.

In FY 21, the Port is forecasting to spend \$382 million on capital projects, most notably with an \$80 million investment in enhancing its rail infrastructure and \$86 million for the third phase of the Middle Harbor Redevelopment Project. When complete, the Middle Harbor Terminal will accommodate the largest (20,000+ Twenty-Foot Equivalent Unit) container ships and be the greenest major container terminal in North America due to its extensive use of on-dock rail and cold-ironing infrastructure.

Total Miscellaneous Projects	\$872,251	\$306,502	\$58,270	\$102,771
Total Capital Projects	\$5,166,543	\$3,080,581	\$288,937	\$382,008

*All projects stated in thousands.

[1] Only projects with FY 2020 expenditures or an FY 2021 budgeted amount are shown above.

[2] Furniture, Fixtures, and Equipment category is part of Harbor Department's Non-Personnel Budget and is not tracked cumulatively for all years.

N/A (1) - This category is comprised of many smaller value projects. Expenditures are not tracked cumulatively since new projects will continue to be added and current ones completed.

Grant Funding Not Identified in CIP Book

FY 20 Approved Grant Funding

Please note this page represents grants that were appropriated 10/01/19 – 09/30/2020 and not considered new money (not appropriated during the annual budget preparation process).

<u>Project Name</u>	<u>Granting Agency</u>	<u>Award Amount</u>
14 th Street Park Improvements	LA County Measure A	\$ 270,000
Lincoln Park	LA County Measure A	754,947
Lincoln Park	Port of LB Community Infrastructure Grant Program	981,280
Bixby Park Parcel One Improvements	LA County Measure A	90,000
PE Right-of-Way Grand/10 th -Temple/8 th	LA County Measure A	282,642
Whaley Park HVAC	LA County Measure A	225,402
Wardlow Park Restroom ADA Improvements	LA County Measure A	225,402

Mid-City Signal Coordination	Metro	<u>2,600,000</u>
Potential Grant Funding Total:		\$ 33,320,000

Fiscal Year 2021 Unfunded Capital Needs

Unfunded Capital Improvements Projects

Although the FY 21 adopted Capital Improvement Program budget provides for vital infrastructure improvements throughout the City, additional high priority needs that have not been addressed remain. A few examples are listed below. The list below is not a complete listing and is not listed by priority order. Dollar amounts also listed below are estimates and subject to change.

Public Works has begun the process of identifying the City's unfunded capital needs. Projects identified where no current funding exists, are categorized as unfunded. To date, the City has completed assessments of its streets, alleys, sidewalks, pump stations, and City-owned facilities. While these assessments have been completed, funding to update the 2005 Drainage Master Plan has not yet been identified.

While funding has not yet been identified to address the needs outlined below, this document serves as a summary to provide guidance when funding becomes available.

Citywide Street Improvements

The City utilizes a Pavement Management Program (PMP) to plan, budget, fund, construct, maintain, and rehabilitate the City's pavement network to provide maximum effectiveness with available funds. The PMP is guided by regularly recurring evaluations of the conditions of the pavement network based on surveyed pavement structural integrity, roughness, and surface distress. Each surveyed roadway is assigned a Pavement Condition Index (PCI) score. Per the City's latest PMP updated in 2018, the City's roadways are in "fair to marginal" condition with an average (PCI) score of 58 out of a possible 100. The PMP also identified a 22% backlog for street reconstruction. A backlog of this magnitude indicates the need for a larger investment to stay ahead of the growing depreciation rate of the overall pavement network condition. Per the 2018 PMP, an investment of \$959 million over 5 years is required to increase the City's average PCI to 85 and address the backlog. At a minimum, a budget of \$106.4 million annually is required to maintain the existing backlog at its current level. Current FY 21 street funding is approximately \$42.7 million and includes Measure A, County funds and State Gas Tax funds including SB1.

Program Name	Recommended Annual Funding for 5 years
Major and Arterial Streets	\$30.8 million
Residential Streets	\$75.6 million
Unfunded Cost Estimate:	\$106.4 million

Alley Paving

Long Beach has 44 miles of asphalt and dirt/gravel alleys. Per the 2019 Alley Management Plan (AMP), 45% of the City's asphalt alleys are in poor or very poor condition. The current PCI is 55 for the Alley network with a backlog of 23%. The City's total alley deficiency is estimated at \$98 million. It is estimated that the cost to increase the average PCI to 85 is almost \$20 million annually over 5 years. At a minimum, a budget of \$4 million annually is required to maintain the existing backlog at its current level.

Program Name	Recommended Estimated Annual Funding for 5 years
Alley	\$20 million
Unfunded Cost Estimate:	\$100 Million

Stormwater Protection System

The City is working to identify funding to address its aging stormwater management system. In 2018, LA County residents passed the stormwater parcel tax Measure W which provides almost \$5 million annually. This additional funding helps the City reduce pollution and bacteria in storm water, but Measure W will not fund replacement of our aging pump station and stormwater infrastructure. The estimated funding needed to address the City's pump stations per the 2015 Pump Station Assessment is \$63 million over 30 years and \$229 million for storm water infrastructure per the City's 2005 Stormwater Master Plan and Management System. In FY 21, the total investment has been adjusted per the consumer price index (CPI) for a total investment of \$384.8 million.

Program Name	Recommended Funding
Pump Station	\$70.6 million
Stormwater infrastructure	\$314.2 million
Unfunded Cost Estimate:	\$384.8 Million

Citywide Facility Repairs

The City is in the process of completing a Citywide Facility Condition Assessment by measuring the Facility Condition Index (FCI) of each facility. The FCI will help prioritize funding for repairs that will address leaking roofs, HVAC, energy efficiencies, structural repairs, maintenance, and other deficiencies. The City has over 350 facilities in total which will be assessed as the Citywide Facility Condition Assessment continues. Thus far, the Facilities Investment Plan has assessed 60 facilities. The City has 200+ facilities, which will be assessed as the Facilities Investment Plan continues. Total replacement need could exceed \$500 million.

Program Name	Recommended Funding
General City Building Refurbishment	\$500 Million
Total Unfunded Cost Estimate:	\$500 Million

Sidewalk Management Plan

The City recently completed a comprehensive review of the City's sidewalk infrastructure. This plan evaluated all pedestrian facilities, including sidewalks and curb ramps, to determine the extent to which individuals with disabilities may be restricted movement throughout the City's right-of-way. This information allowed the City to update its ADA Transition Plan and further the City's ongoing commitment to all residents, employers, businesses, and visitors for creating an inclusive and accessible place to live, work, and play. This plan found a need of \$631 million for investment in the City's sidewalks and ADA curb ramps.

Program Name	Recommended Funding
Sidewalk	\$479 Million
ADA Curb Ramps	\$152 Million
Unfunded Cost Estimate:	\$631 Million

Total Estimate CIP Unfunded Need: \$1.722 Billion

Fiscal Year 2021 Capital Improvement Program

Glossary

AB2766 (Air Quality): This funding source was enacted to support programs that reduce air pollution from motor vehicles. Funds are collected by the Department of Motor Vehicles (DMV) and distributed by the South Coast Air Quality Management District (AQMD). The City receives these funds to implement programs and measures that reduce air pollution from motor vehicles mandated by the requirements of federal and state Clean Air Acts and the Air Quality Management Plan (AQMP).

AB2928 (Traffic Congestion Relief): The State Assembly Bill that established legislation for the Traffic Congestion Relief Fund in the State Treasury for allocation of street and road funds to cities and counties for maintenance and reconstruction. This funding source was replaced in 2002 by the Transportation Congestion Improvement Act. See State Proposition 42.

AB32 (California Global Warming Solutions Act of 2006): AB32 authorizes the collection of a fee from sources of Green House Gas (GHG). This fee is collected annually by the LBER Department that captures auction proceeds from credits the City receives as a natural gas provider. 25 percent of available monies in the fund are to be used on projects that reduce GHG emissions in disadvantaged and low-income communities.

Americans with Disabilities Act of 1990 (ADA): A Federal law enacted to provide for the protection of individuals with disabilities. This protection ranges from prohibitions against discrimination in employment to specific requirements for modifications of public facilities and transportation systems.

Airport Area Assessment District: The assessment district was formed for the purpose of constructing upgrades in the airport area to improve traffic flow. The upgrades include street widening, grade separation, dedicated turn lanes, traffic signals, and signage. See Assessment District.

Airport Capital: A sub-fund of the Airport Fund. The non-grant portion of the Airport Fund capital expenditures. See Airport Fund.

Airport COPS: Certificates of Participation issued by the Long Beach Airport to fund capital improvements. See Certificates of Participation.

Airport Fund: The fund designation is used to account for revenues and expenditures applicable to the operation and maintenance of the Long Beach Airport and its leaseholds. The major revenue sources consist of revenues related to airport operations leases and grants. The Airport Fund is an Enterprise Fund. See Enterprise Fund.

Airport Customer Facility Charges: A fee is charged by car rental agencies on each rental transaction and passed on to the Airport to expend on a car rental facility or transportation system between the rental facility and the terminal.

Airport Passenger Facility Charges: The amount added to the passenger airline ticket to provide a funding source for airport improvements.

Appropriation: An authorization granted by the City Council that permits officials to make expenditures and incur obligations for specific purposes.

Assessment District: A separate local government entity was formed to provide specific local public services. Assessment districts can be established to provide a single service such as sewage treatment or to provide multiple services such as police and fire protection, parks and recreation facilities, and water distribution systems. Property owners within the assessment district's boundary pay into the district in direct proportion to the benefits or services they receive.

Beginning Balance: Unspent funds carried over from prior fiscal years that become part of the FY 21 appropriation.

Bond: A method of financing long-term debt, issued by a government or private corporation, which bears interest.

Budget: A plan of anticipated expenditures and revenue for a certain period.

California Energy Commission: California's primary energy policy and planning agency.

Caltrans: The State of California Department of Transportation. Caltrans administers both U.S. Department of Transportation grants and its own grants for improvements to streets and highways.

Caltrans Construction Cooperative Grant: A grant issued by Caltrans for the City of Long Beach

to provide various services in connection with the State's Interstate 710 construction project.

Capital: Assets that add to the long-term net worth of the City.

Capital Improvement: Construction or major repair of City-owned buildings and infrastructure which helps meet health, safety, legal concerns and mandates, prolongs the life of City assets, avoids or minimizes future repair costs, benefits the community, supports goals articulated in the City of Long Beach Strategic Plan, has potential to generate operating savings or increase productivity, and is consistent with the City's General Plan.

Certificates of Participation (COPS): Interest-bearing debt instruments sold to investors by a non-profit agency to finance construction. The agency then leases the facility and uses the revenues to repay the debt.

CFD No. 5 Bond: See Community Facilities District (CFD) No. 5 Bond.

CFO: Chief Financial Officer.

CIP Category: A group of similar programs organized into a major section of the CIP budget document.

Civic Center 1997A Bond: A bond issued in 1997 by the Long Beach Finance Authority to fund various capital improvement projects in the Civic Center Complex.

Civic Center Capital: A sub-fund of the Civic Center Fund. The non-bond portion of the Civic Center Fund capital expenditures. The major ongoing revenue source to the Fund is rental payments from the departments occupying the facilities.

Civic Center Fund: The fund designation used to account for revenues and expenditures applicable to the operation and maintenance of the City Hall Complex and the Main Library Complex. The major ongoing revenue source to the Fund is rental payments from the departments occupying the facilities.

Coastal Conservancy Grant: State bond proceeds used to provide grants that protect coastal or ocean resources from development, natural, or economic conditions. Established in 1976, the California Coastal Conservancy is funded largely by State bonds.

Community Development Block Grant (CDBG): Federal entitlement funds (based on various criteria)

received by the City of Long Beach from the U.S. Department of Housing and Urban Development (HUD) for the purpose of benefiting low and moderate-income areas and disabled residents.

Community Facilities District (CFD) No. 5 Bond: The 2000 Special Tax Bonds issued to finance the acquisition and construction of certain street and other public improvements for the Long Beach Towne Center.

Construction Support: Engineering work during the construction process, which ensures that projects are constructed in accordance with design parameters and specifications. Primary construction engineering functions include construction, inspection, laboratory services, field surveys, and design plan updates or interpretation.

Contract Award Process: Procurement preparation for Council award and all pertinent contract documentation prior to the initiation of construction.

Debt Service: The principal and interest payment on borrowed money according to a predetermined schedule.

Department of Boating and Waterways (DBAW): A State agency that provides grants and loans for improvements in the Tidelands areas of the City.

Design: The process of identifying project options, developing a project scope, conducting feasibility analyses, and creating plans, specifications, and estimates for a capital improvement. Primary design engineering functions include drafting, design, development of specifications, and traffic engineering.

Economic Development Administration (EDA): Created by Congress pursuant to the Public Works and Economic Development Act of 1965 to generate new jobs, retain existing jobs, and stimulate industrial and commercial growth in economically distressed areas of the United States.

Edison Grant: A grant received from Edison International under the LED Traffic Signal Rebate Program to provide for more energy efficient traffic signals.

Environmental Enhancement and Mitigation Program (EEMP) Grant: Annually, the EEMP offers grants for projects to mitigate the environmental impacts caused by new or modified state transportation facilities. These grants are offered to local, state, and federal governmental agencies. The EEMP was established in 1989.

El Dorado Regional Park Development Grant: A National Park Service federal grant administered by the State Department of Parks and Recreation to upgrade the El Dorado Park campsites.

Enterprise Fund: The fund designation used to account for City operations that are financed and operated in a manner similar to private business enterprises. The intent of the City in using this type of fund is to determine that the costs (expenses, including depreciation) of providing these services to the general public on a continued basis are financed or recovered primarily through user charges. The City's Enterprise Funds include Airport, Development Services, Gas, Refuse/Recycling, Sewer, Towing, Water, and SERRF.

Environmental Protection Agency (EPA) Grant: Federal funds used to address environmental issues for pre-approved projects.

FAA: Federal Aviation Administration.

FAA AIP Program Grant: An Airport Improvement Program (AIP) grant from the FAA to construct capital improvements for pre-approved projects at the Long Beach Airport.

FEMA: Federal Emergency Management Agency. Provides funds, services, hiring, and post-disaster assistance for response and recovery in the event of natural disasters.

FEMA HMGP: The FEMA Hazard Mitigation Grant Program. The Governor's Office of Emergency Services (OES) administers this program in California.

Fiscal Year (FY): A designated time frame that identifies the beginning and ending dates for recording an entity's financial transactions. The fiscal year for the City of Long Beach is from October 1 through September 30.

Fleet Capital: A sub-fund of the Fleet Fund. It is comprised of the non-grant and non-bond portion of the Fleet Fund capital expenditures. See Fleet Fund.

Fleet Fund: The fund designation used to account for revenues and expenditures applicable to the City's operation, maintenance, and timely replacement of the City's fleet of vehicles and equipment. There are two major sources of ongoing revenue for the Fund, Fleet Services charges to the City departments and land rental payments.

Fund: An accounting entity with a self-balancing set of accounts recording financial resources and transactions for specific activities.

Fund Type: A classification term used to group funding sources into specific categories of government functions or services.

Funding Source: The specific source of appropriated funds.

FY 21 New Budget: The new allocation of monies that is part of the FY 21 budget appropriation.

Gas Capital: A sub-fund of the Gas Fund. This is the non-grant portion of the Gas Fund capital expenditures. See Gas Fund.

Gas Fund: The fund designation used to account for revenues and expenditures applicable to activities associated with the transmission and distribution of natural gas to the City's users. The Gas Fund is an Enterprise Fund. See Enterprise Fund.

Gasoline Tax Street Improvement Capital: A sub-fund of the Gasoline Tax Street Improvement Fund. This is the non-grant portion of the Gasoline Tax Street Improvement Fund.

Gasoline Tax Street Improvement Fund: The fund designation used to account for revenues and expenditures of gasoline tax funds apportioned under the State Streets and Highways Code, as well as other sources dedicated to transportation improvements. Expenditures may be made for any street-related purpose on the City's system of streets, including maintenance. In addition to the gasoline tax revenue from the State of California, other transportation-related revenue sources include funding from the Federal Transportation Equity Act for the Twenty-First Century (TEA-21) and the State Traffic Congestion Relief Fund and State Proposition 42 (AB2928).

General Capital Projects Fund: The fund designation used to account for the all-years Capital Improvement Program with multiple funding sources, including the General Fund that pays for the City's general projects.

General Fund: The fund designation used to account for financial resources applicable to the general governmental operations of the City of Long Beach. The largest sources of revenue for the General Fund are property taxes, sales taxes, utility user's taxes, and motor vehicle license fees.

Grants: Disbursement of assets from another government agency or entity to be expended for a pre-approved purpose, activity, or facility.

Highways-Through-Cities Grant (HTC): A Los Angeles County financial aid program to assist Cities

with their major and secondary highway rehabilitation projects. This is a discretionary program based on each Supervisor's decision regarding which projects to assist in the cities within their district. Financing is provided by each County Supervisor District's Road Construction program allocation of State gas tax funding.

HBRR: Highway Bridge Rehabilitation and Replacement Program. See TEA-21 HBRR.

Health Fund: The fund designation used to account for revenues and expenditures applicable to the support of the operations of the Department of Health and Human Services.

HVAC: Heating, ventilation, and air conditioning.

Internal Service Fund: The fund designation used to account for the finance of goods and services provided by one City department to another on a cost-reimbursement basis, e.g., computer services, fleet services, etc., including depreciation.

ISTEA: Intermodal Surface Transportation Efficiency Act (of 1991). The Transportation Equity Act for the Twenty-First Century (TEA-21) superseded this funding source in 1998. The Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) superseded TEA-21 in 2005. The Moving Ahead for Progress in the 21st (MAP-21) Century Act supersedes SAFETY-LU in 2012.

LED: Light Emitting Diode. A component of an electronic display.

Long Beach and Los Angeles Harbor Contributions: Monies received from the Long Beach and Los Angeles Harbors to fund various street improvements to improve the traffic flow out of the Long Beach and Los Angeles harbor areas.

Los Angeles County Grant: Grants issued by the County of Los Angeles to the City of Long Beach to fund various capital improvement projects.

Los Angeles County Measure A - The Los Angeles County Regional Park and Open Space District (RPOSD) is responsible for implementing the Safe, Clean Neighborhood Parks and Beaches Measure of 2016 (Measure A). Measure A was approved by Los Angeles County voters in November 2016 and provides dedicated, local funding for parks, recreation, beaches, open space, trails, cultural facilities, and related projects throughout LA County. It is financed by an annual parcel tax of 1.5 cents per square foot of development.

MAP-21: The authorized bill that governed United

States federal surface transportation spending. The bill was signed into law by President Bush on August 10, 2005 and expired on September 30, 2009 but Congress renewed its funding formulas ten times after its expiration date, until replacing the bill with Moving Ahead for Progress in the 21st (MAP-21) Century Act in 2012. The \$286.4 billion measure contained a host of provisions and earmarks intended to improve and maintain the surface transportation infrastructure in the United States, including interstate highway system, transit systems around the country, bicycling and pedestrian facilities, and freight rail operations.

Marina Capital: A sub-fund of the Marina Fund. The non-grant and non-loan portion of the Marina Fund capital expenditures. See Marina Fund.

Marina Fund: The fund designation used to account for the revenues and expenditures applicable to the operation, maintenance, and development of the City's marinas in the Tidelands area.

Measure A: In June 2016, Long Beach voters approved Measure A for a 10-year period and was extended indefinitely by voters in 2020. Measure A is a Transaction and Use Tax, which added a transactions and use (sales) tax on the sale and/or use of all tangible personal property sold at retail in the City.

Measure D: In November 2010, Long Beach voters approved Measure D, a City Charter amendment that removed control of oil properties and all oil operations in the Port of Long Beach from the Long Beach Board of Harbor Commissioners, giving the authority instead to the Long Beach City Council. Measure D transfers 5% of the port's gross earnings to Tidelands Operating Fund.

Measure M: A sales tax ballot measure passed by voters on November 8, 2016. Voters authorized a Los Angeles County Traffic Improvement Plan through a half-cent sales tax and continue the existing half-cent traffic relief tax improving transportation and easing traffic congestion.

Measure R: A ballot measure proposed by Los Angeles County that was passed in 2008. This increases the county sales tax by one half-cent to fund transportation projects. Collection of Measure R sales tax revenue commenced on July 1, 2009.

Measure W: Approved by voters in the November 2018 election, Measure W is funded by a parcel tax of 2.5 cents per square foot of impermeable areas (like concrete) within the County. The parcel tax will increase Los Angeles County's local water supply, improve water quality. The

tax was imposed beginning in the County's fiscal year, July 1, 2019.

MTA Grant: State and Federal funding awarded to the City of Long Beach through the Metropolitan Transportation Authority (MTA) "Call for Projects".

Non-Point Source Pollution (NPS): Water pollution originates from many different sources rather than one specific, identifiable source. NPS occurs when rainfall, irrigation waters, and water habits (washing cars/pets) create a flow over land and impervious surfaces and are deposited into the receiving waters via the storm drain system.

Park Impact Fees: Fees collected on new residential development to mitigate the impact on Parks, Recreation, and Marine facilities for the purpose of assuring that the parkland and recreational facility standards established by the City of Long Beach are met considering the additional needs created by such development.

Program: A specific undertaking for the delivery of a capital improvement including procurement, construction or installation of facilities or related equipment.

Proposition A: A source of funding from the Los Angeles County sales tax of one-half cent used exclusively to construct, improve, and maintain mass transit services and facilities. See Transportation Fund.

Proposition 1B (Transportation Bond): Funding derived from Budget Bill: SB78 and Trailer Bill: SB88 and implemented as "The Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006" passed by the voters in November 2006. This authorized the state to sell approximately \$20 billion of general obligation bonds to fund transportation projects to relieve congestion, improve the movement of goods, improve air quality, and enhance the safety and security of the transportation system.

Proposition C: A source of funding from the Los Angeles County sales tax of one-half cent used to construct, improve, and maintain mass transit services and facilities. This funding also provides an expanded list of eligible project expenditures including: congestion management programs, bikeways and bike lanes, street improvements supporting public transit service, and pavement management system projects. See Transportation Fund.

Proposition C MTA Grant: See MTA Grant.

Proposition 42: See State Proposition 42.

Public Safety Facilities Capital Improvements Lease Revenue Bond: The 2002 bond issued by the Long Beach Finance Authority to finance public safety facility capital improvement projects.

Rainbow Harbor Area Fund: The fund designation used to account for revenues and expenditures applicable to the operation, maintenance, and development of the City's Rainbow Harbor area.

Rainbow Harbor Capital: A sub-fund of the Rainbow Harbor Area Fund. The non-grant and non-loan portion of the Rainbow Harbor Area Fund capital expenditures.

Road Maintenance and Rehabilitation Act (RMRA): Senate Bill (SB) 1, a source of funding from the State of California which increases the per gallon fuel excise taxes, increases diesel fuel sales taxes, and vehicle registration fees. The state controller started depositing new funding into the RMRA account on November 1, 2017.

Safe Routes to School Program: Administered by Caltrans, this 2003 program provides state and federal funds for projects that protect the safety of children traveling to and from school. Projects were developed through collaboration with the Long Beach Unified School District.

SERRF Refunding 03 Bonds: The 2003 refunding bonds for the finance of the construction of the Southeast Resource Recovery Facility (SERRF).

Senate Bill (SB) 1: See Road Maintenance and Rehabilitation Act (RMRA).

Sewer Capital: A sub-fund of the Sewer Fund. The non-grant portion of the Sewer Fund capital expenditures. See Sewer Fund.

Sewer Fund: The fund designation used to account for revenues and expenditures applicable to the operation, maintenance, and replacement of the City's sewer system in a cost-effective manner. The major sources of revenue include a water usage charge based on water that will enter the sewer system and a service charge based on the size of the customer's water meter. The Sewer Fund is an Enterprise Fund.

Skylinks Golf Course 03 Bonds: The 2003 bond issued by the Long Beach Finance Authority to finance improvements to the Skylinks Golf Course.

South Coast Air Quality Management District (SCAQMD): Agency responsible for preparation of the state implementation plan (SIP) applicable within its boundaries, adoption of control regulations for

stationary sources, and implementation of indirect source and transportation control measures.

State Bond Act of 1988: The 1988 bond issued by the State of California to fund various parks and recreation projects.

State Grant – California Endowment Fund: State funding awarded to the City of Long Beach to establish a Latino Diabetes Prevention and Management Program.

State Grant – Energy Commission: Funding authorized by Assembly Bill 970 and administered by the California Energy Commission (CEC). These funds were used to purchase and install light-emitting diode (LED) traffic signals and battery backup systems.

State Grant – Public Libraries: Funding for new library facilities provided under the California Reading and Literacy Improvement and Public Library Construction and Renovation Bond Act of 2000.

State Implementation Plan (SIP): The 1970 Clean Air Act requires each state to develop a state implementation plan to attain National Ambient Air Quality Standards (NAAQS) by the applicable attainment deadlines. SIPs must be approved by the Federal Environmental Protection Agency.

State Library Bond: California Reading and Literacy Improvement and Public Library Construction and Renovation Bond Act of 2000 (Proposition 14). The bond proceeds are designated for site acquisition, new building construction, remodeling, renovation, and upgrading electrical and telecommunications systems.

State Proposition 12 Bond: Funding derived from Assembly Bill 18 and Senate Bill 1147 and implemented as the Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Act of 2000. The program includes entitlement (funding for cities based on population) and competitive grants for improvement of park land and facilities.

State Proposition 13 (Costa-Machado Water Act of 2000) - Coastal Non-Point Source Program: A source of funding from the State Water Resources Control Board (SWRCB) for the Los Angeles River and Colorado Lagoon California Beaches Initiative projects.

State Proposition 40 Bond: Funding derived from the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Act of 2002. Proposition 40 provides both entitlement and

competitive grant programs to California cities for improvement of community recreation areas.

State Proposition 40 Water Board Grant: Funding derived from the SWRCB from the Clean Beaches Initiative. This grant was obtained for the remediation of the Colorado Lagoon.

State Proposition 42: Funding derived from Assembly Bill 2928 and implemented as State Transportation Congestion Improvement Act, passed in 2002. This requires sales and user taxes on motor fuels to be used for public transportation, city and county road repairs and improvements, and state highway improvements.

State Proposition 46 Jobs Housing Balance Incentive Grant: The Housing and Emergency Shelter Trust Fund Act of 2002. This authorized the award of a one-time \$25 million grant for cities and counties meeting the terms and conditions of the program for the 2001 calendar year. The City obtained this grant as part of the matching fund requirement for the MacArthur Park Branch Library project.

State Transportation Improvement Grant: Federal funds from the Department of Transportation given to the State of California for major transportation projects. This funding has been used primarily for Citywide street repair and improvements.

State Water Bond 2000: Funding derived from the Safe Drinking Water, Clean Water, Watershed Protection, and Flood Protection Act of 2000. The funds are administered by the SWRCB for non-point source pollution control, watershed management plan development and implementation, wastewater recycling, and the protection of various targeted watersheds.

TDA-SB821: Transportation Development Act funding from sales tax receipts as specified in the California Streets and Highways Code. The TDA SB-821 is the Senate Bill that established legislation for the Transportation Development Act.

Transportation Equity Act for the Twenty-First Century (TEA-21): Enacted on June 9, 1998, this federal legislation authorizes the Federal surface transportation programs for highways, highway safety, and transit. TEA-21 provides states with the flexibility to set their own transportation priorities and to explore creative financing mechanisms within certain guidelines. TEA-21 supersedes the 1991 ISTEA program.

TEA-21 HBRR: Highway Bridge Replacement and Rehabilitation funds used specifically for bridges within the city limits. See TEA-21.

TEA-21 MTA Grant: See MTA Grant.

Temple/Willow Bond: Bonds issued by the City to fund the construction of the new Fleet and Towing facility located at the corner of Temple Avenue and Willow Street.

Tidelands Operations Capital: A sub-fund of the Tidelands Operations Fund. The non-grant and loan portion of the Tidelands Operations Fund capital expenditures. See Tidelands Operations Fund.

Tidelands Operations Fund: The fund designation used to account for revenues and expenditures applicable to the operations, maintenance, and development of the Convention Center and beaches in the Tidelands area.

Traffic Improvement Fee: Fees collected from land developers to mitigate cumulative traffic impacts. Sometimes referred to as Transportation Development Fees. The goal of the Traffic Improvement Fee is to relieve arterial congestion, accommodate planned growth, and implement specific programs. Traffic Improvement Fee monies are appropriated in the Capital Projects Fund.

Transactions and Use Tax (Measure A): additional sales tax added for transactions on the sale of all tangible personal property sold at retail; in the City for a 10-year period starting in January of 2017.

Transportation Development Act: The Transportation Development Act TDA SB-821 of 1971, the law provides funding to be allocated to transit and non-transit related purposes that comply with regional transportation plans. Funding comes from sales tax receipts as specified in the California Streets and Highways Code.

Transportation Fund: The fund designation which accounts for revenues and expenditures applicable to the City's share of an additional one and a half percent sales tax. The tax is collected by the County of Los Angeles to finance transportation projects: Propositions A, 1B, C, and Measure R.

TSM-State Grant: Traffic System Management funds administered by the California Department of Transportation (Caltrans) for traffic-related improvements. Receipt of the grant funds is contingent upon Caltrans's approval of the proposed projects.

Upland Oil Revenue Fund: An oil fund used to account for proceeds from oil operations north of the mean high tide in Long Beach, oil fields of working interest of Signal Hill east and west, Recreation Park on the north side of 7th Street and Marine Stadium.

Revenues are used to spur investment opportunities in one-time capital improvements, budget requirements, and essential needs. The Upland Oil fund will allow for important contributions to public safety, infrastructure, libraries, parks, recreation, and technology.

Urban Area Security Initiative (UASI): A grant awarded by the U.S. Department of Homeland Security to the City of Long Beach to fund planning, equipment, training, and personnel costs associated with the protection of critical infrastructure in and around the Long Beach Urban Area.

Water Fund: The fund designation used to account for revenues and expenditures used to meet the water needs of the citizens of Long Beach with a dependable supply of high-quality water at a reasonable cost. The major sources of revenue include a volumetric charge for water used by customers and a service charge based on the size of the customer's water meter. The Water Fund is an Enterprise Fund. See Enterprise Fund.

West Long Beach Business Park Assessment District: The assessment district established to fund various street improvements in the West Long Beach area. See Assessment District.
