Guide to the Capital Improvement Program (CIP)

Capital Program Overview

Note: Street improvements do not appear on map.

Guide to the Capital Improvement Program (CIP)

Capital Improvement Planning Process

The Public Works Department is responsible for developing and implementing the Fiscal Year 2022 (FY 22) CIP. Public Works, in conjunction with other Departments, reviewed the City's capital needs and prioritized project submittals based on established criteria:

- The ability of the project to meet health, safety and legal concerns and mandates;
- The value of the project to prolong the life of City assets or avoid/minimize future repair costs;
- The benefit the project will provide the community in support of the goals articulated in the Strategic Plan;
- The potential for the project to generate savings or increase productivity; and
- The extent to which the project will secure future funds through program planning or grant eligibility.

The CIP reflects the financial challenges currently faced by the City. As the City begins the transition to post-pandemic business and its' significant impact on revenue sources, the Financial Management Department continues to provide revenue projections to determine resources available to finance capital projects. Specifically, Financial Management monitors fiscal trends at both the local and state levels. Analyses of property, sales, and user tax revenues and County, State and Federal information contribute to their economic forecast. However, given the significance of our ongoing investment in the City's capital assets, we continue to look for opportunities to augment the CIP.

This Document

The CIP identifies the adopted budget for each program receiving funding in FY 22, including estimated revenues for FY 23 and FY 24. The CIP's multi-year character is reflected in the historical summaries to show the fiscal activity for each program.

Carryover Balances

The Financial Summaries and individual Program pages include a FY 22 Budget Balance column. These budget balance amounts may be currently planned for projects in the design stage, pending contract award, or committed to an approved contract. Therefore, estimated budget balance amounts are not necessarily available for new projects. Carryover balances are based on estimated fiscal-year ending September 2021 data and calculated totals may reflect rounding.

Operating and Maintenance Costs/Operating Budget Impacts

One of the many issues evaluated through the CIP process is the impact new infrastructure projects and assets may have on departmental operating budgets. As capital improvement projects are considered by the City Council, the operating and maintenance (O & M) costs for these facilities should be estimated so that the City Manager and City Council can assess whether adequate budget is available to operate and maintain these facilities after construction.

Guide to the Capital Improvement Program (CIP)

(continued)

Although some additional costs may be absorbed within a department's existing budget, future resources often will be required and requested as part of the budget process for operational expenses associated with capital projects. As part of the Capital Improvement Program Budget process, the Public Works Department coordinated with the Financial Management Department and end user department staff to describe and quantify any anticipated O & M costs associated with each new capital project.

O & M costs are addressed at the outset of the process and, if needed, included in proposed adjustments to the operating budgets as part of the Annual Budget Process. As a result, the City Manager and the City Council can prioritize these additional costs, along with other budget requests, based on available funding.

Implementation Criteria

O & M costs are not applied to upgrades and renovations (e.g., major street maintenance projects) since they tend to lower long-term maintenance costs.

Calculating FY 22 Operating and Maintenance Costs

The Public Works Department assists partner departments to quantify potential O & M costs.

- FTE (Full Time Equivalent) impacts;
- Utility (water, sewer, refuse, electrical and gas) costs in a facility;
- Maintenance, including HVAC, plumbing, electrical and structural repairs, landscaping services;
- Custodial services;
- New operating equipment/supplies; and
- Annual technology replacement contribution.

Dig Once Policy

The Dig Once Policy was established to minimize the number and scale of excavations within the City's right-of-way infrastructure. The Dig Once Policy reduces the costs of infrastructure projects when completed in conjunction with other right-of-way improvements while also facilitating integration of utility projects within the right-of-way. A moratorium is in effect for excavations in the right-of-way that have undergone construction, reconstruction or resurfacing within the previous sixty (60) months, or slurry sealed within the previous twenty-four (24) months. To ensure the most efficient and cost prohibitive delivery of infrastructure projects in the right-of-way, staff from lead departments (Public Works, Technology and Innovation, Long Beach Energy Resources, and Water) meet periodically to discuss and coordinate current and future projects within the right-of-way.

Fiscal Year 2022 Capital Improvement Program

Adopted Funding Summary

Total Adopted FY 22 Capital Funding: \$146,517,088

Fiscal Year 2022 - 2024 Capital Improvement Program

Estimated Funding Summary

Airport Capital - \$3,000,000	General Capital Projects - \$31,002,000
Gas Fund - \$33,150,000	Gasoline Tax Street Improvement - \$44,903,000
Measure A - \$47,532,502	Tidelands Fund - \$4,300,000
Transportation - \$73,415,000	Water Fund - \$123,228,861
Sewer Fund - \$17,037,897	

Total Estimated FY 22 - FY 24 Capital Funding: \$377,569,260

Program Title: This summarizes the description of the Program. The City's diverse programs range from Sustainable Transportation to Park Infrastructure to Major Arterial Improvements.

Program Number: The reference number used to identify the specific Capital Investment Program.

Program Budget for FY 22: The beginning balance plus adopted new funding for FY 22 Budget, the funding source shows the different funds making up the total program budget.

FY 22 and Future Years Totals: The total amount of new funding allocated to the program in the current fiscal year and estimated amounts for future fiscal years.

Strategic Investments

Adopted Capital Projects

Provided below is a summary of adopted capital improvement projects for FY 22. These projects are funded through a variety of sources. Additional detail can be found in the FY 22 program pages.

Title	Description	Estimated Cost
Airport		\$1,000,000
AIRPORT LANDSIDE IMPROVEMENTS	Post-security areas such as the concourse facility and the pre-security areas such as the historic terminal building and adjacent roadways are heavily used on a daily basis. The upkeep of these facilities and infrastructure are critical to support air travel operations and maintaining an award-winning travel experience.	\$500,000
AIRPORT AIRFIELD IMPROVEMENTS	Repairs and improvements necessary to comply with Part 139 Certification requirements. Improvements are emergency repairs and unforeseen maintenance on utility, pavement, crack sealing, slurry sealing, signage, lighting replacement, and paving.	\$500,000
Beaches and Marinas		\$1,750,000
BEACH AMENITY IMPROVEMENTS	New play structures and equipment and/or upgrades to existing play structures and equipment. Includes improvements to facilities/infrastructure needed in conjunction with the use of the play areas.	\$400,000
BEACH FACILITY IMPROVEMENTS	Design and construct safety repairs at locations to be determined.	\$200,000
LAGOON AND WETLANDS IMPROVEMENTS	Construct water quality and drainage improvements in the wetlands, Colorado Lagoon and surrounding area to meet water quality requirements.	\$250,000
BEACH LIGHTING	Improvements to beach and marina lighting for efficiency and to reduce the amount of energy required to provide a safe environment.	\$900,000
Mobility		\$59,759,000
CIP ADMINISTRATION	Direct administration associated with managing local return programs or projects.	\$4,810,301
ADA RAPID RESPONSE	Construct and/or improve verified requests for right-of-way access and investigate new requests when received.	\$500,000
ALLEY IMPROVEMENTS	Ongoing repair and/or replacement of existing alleys identified in the Alley Management Plan.	\$400,000
ARTERIAL CORRIDOR ENHANCEMENTS	Design and construct multi-modal and complete street improvements along major roadway corridors. Enhancements include transportation facilities that benefit vehicles, pedestrians, bicyclists and transit users.	\$7,660,000
ARTERIAL STREET REHABILITATION	Reconstruction and resurfacing of city streets to extend useful life, provide incidental curb, gutter and sidewalk improvements, construct curb ramps and bus pads, and replace pavement markings.	\$14,149,599
BIKEWAY AND PEDESTRIAN IMPROVEMENTS	Design, construct and implement projects and programs to enhance the safety and viability of the City's bicycle and pedestrian network.	\$1,440,100
BRIDGE IMPROVEMENTS	Perform maintenance to prolong the life of bridges and reduce future infrastructure expenses related to infrastructure degradation and heavy vehicular usage.	\$500,000

Strategic Investments

Adopted Capital Projects (continued)

Title	Description	Estimated Cost
ADA CURB RAMP IMPROVEMENTS	Construct sidewalk curb ramp improvements.	\$15,000,000
RESIDENTIAL STREET IMPROVEMENTS	Repair residential streets and alleys through pavement sealing, asphalt overlays, and full reconstruction.	\$13,099,000
CITYWIDE SINKHOLES	Apply permanent repair or temporary patching of sinkholes and subsidence in the public right-of-way.	\$250,000
CITYWIDE STRIPING & SIGNAGE PROGRAM	Install and replace street name signs and traffic control signs at various locations throughout the City.	\$250,000
TRAFFIC SIGNAL IMPROVEMENTS	Construct pedestrian related safety improvements and high priority traffic signal safety improvements.	\$1,700,000
Parks		\$1,600,000
PARK AMENITY IMPROVEMENTS	Repair and maintenance to prolong the life of park amenity infrastructure and reduce future expenses related to heavy usage.	\$700,000
PARK FACILITY IMPROVEMENTS	Repair and maintenance to prolong the life of municipal park buildings and reduce ongoing infrastructure expenses.	\$500,000
PARK IRRIGATION IMPROVEMENTS	Upgrade and replacement of park irrigation systems.	\$400,000
Public Facilities		\$21,602,502
FACILITY IMPROVEMENTS	Improvements to City buildings to minimize structural deficiencies, extend the useful life of facilities, and improve energy efficiency.	\$18,232,502
ENERGY EFFICIENCY IMPROVEMENTS	Improvements to public facilities to reduce the amount of energy required to provide services.	\$3,370,000
Utilities		\$60,805,586
STORM DRAIN SYSTEM IMPROVEMENTS	Construct water quality and drainage improvements Citywide.	\$3,000,000
LB ENERGY RESOURCES MAIN PIPELINE REPLACEMENT	Long Beach Energy Resources - Main Pipeline Replacement	\$8,050,000
LB ENERGY RESOURCES GAS METER REPLACEMENT	Long Beach Energy Resources - Gas Meter Replacement	\$500,000
COMPLIANCE-TELEMETRY, SCADA, REGS, VALVS & LEAK SURVY	LBER - Compliance - Telemetry, SCADA, Regs, Valves, & Leak Survey	\$2,000,000
SEWER LATERAL INSPECTIONS (CROSSBORES)	Long Beach Energy Resources - Sewer Lateral Inspections (Crossbores)	\$500,000
SEWER FUND	Upgrades and improvements to the City's sewer infrastructure.	\$5,679,299
WATER FUND	Upgrades and improvements to the City's potable and reclaimed water infrastructure.	\$41,076,287

Section Summaries

The purpose of the Capital Improvement Program (CIP) is to provide a comprehensive infrastructure investment program to plan, design, construct, maintain, and repair City facilities and its infrastructure. The size, age, and diverse infrastructure of the City along with limited funding require significant consideration to determine the best investments to make, in order to realize the most cost-effective returns for the future. The CIP serves as a financial tool to identify funds for a wide variety of capital projects as well as a planning tool to ensure capital projects are consistent with the City's General Plan.

The economic vitality and quality of life in the community is enhanced through CIP projects. Capital improvements require a major initial investment, a significant ongoing financial commitment for maintenance and eventual replacement. The following pages provide a summary of each section with a dollar amount that represents the adopted funding for Fiscal Year (FY) 22.

As the State of California and County of Los Angeles further loosen restrictions on local business operations, tourism, conferences, and events, we look forward to beginning the transition to post-pandemic life and City business. However, in this time of transition, the City still faces significant financial challenges. The City's CIP needs often outweigh available resources; therefore, the Adopted Budget is constrained by the availability of funds.

How this Document is Organized

The CIP budget is comprised of seven sections of capital improvement programs defined by the type of capital investment. The Public Works Department manages the following sections: Beaches and Marinas, Mobility, Parks, and Public Facilities. The Airport and Harbor Departments manage their respective sections of the CIP, while the Utilities section is split between Public Works, Long Beach Energy Resources Department and the Water Department.

Airport

Beaches and Marinas

Harbor

Mobility

Parks

Public Facilities

Utilities

Program Section Overviews

Airport

Long Beach Airport (LGB) offers a variety of services to air carriers, commercial and general aviation users, as well as the traveling public. Funding for Airport Capital Improvement Projects is derived from several sources including: Federal Aviation Administration (FAA), Airport Improvement Program grants (AIP), Transportation Security Administration (TSA) grants, Passenger Facility Charges (PFC), Customer Facility Charges (CFC), Airport fees, and operating revenues. The focus of the Airport Capital Improvement Program is to continue improving the safety, security, and operations of the Airport to meet the mandates of the FAA and TSA.

In FY 21, the Airport completed the \$6.9M rehabilitation of Taxiway D. The project consisted of the rehabilitation of certain sections of Taxiways B, D, and G with primarily asphalt concrete pavement mill-and-overlay of the existing pavement sections and limited pavement removal of former Runway 16R-34L.

As a result, the \$9.9M construction of Taxiway B was completed in FY 21, consistent with the recommendations of the Airfield Geometry Study. The project consisted of the conversion of the closed asphalt Runway 16R-34L pavement to a new AC concrete comprised primarily of the removal of existing asphalt concrete surfaces, performing necessary excavation and grading, recompacting existing soil, constructing storm drain improvements,

installing pavement markings and striping, taxiway edge lighting and signs, runway guard lights, and hydroseeding.

The Terminal Area Improvements Program Phase II continues to progress, with the first two facilities, the Checked Baggage Inspection System (CBIS) and the Ticketing Building, being prioritized. The CBIS building is approximately 85% complete with most of the baggage handling system installed. The underground infrastructure, foundations, and structural steel installation were completed for the Ticketing Building in early 2021. The building was weathered in summer 2021 and the interior work will be ongoing for the rest of the calendar year. Both facilities are on schedule to open for operation in the 1st quarter of 2022. Other projects on the airfield include the \$34M reconstruction of Taxiway L, with construction scheduled for the beginning of FY 22.

The Airport's budget includes a total of \$1,000,000 for FY 22. These improvements include \$500,000 for Airfield Pavement Rehabilitation and \$500,000 for Airport Terminal Area Improvements.

Beaches and Marinas

Two assets that help make Long Beach unique are its beaches and marinas. These City-operated and maintained assets provide recreational enjoyment to both residents and visitors. In FY 21, the City completed the Junipero concession and play area, Granada concession and play area, installation of wading bird rookeries, installation of the Puff of Wind sculpture, and the Belmont Pier visioning project.

Construction is underway on the Colorado Lagoon Open Channel and major milestones were accomplished for the Belmont Beach Aquatic Center and Davies Launch Ramp projects. Most Tidelands Capital Improvement Projects are subject to State Lands Commission approval prior to implementation.

The Marinas, Beaches & Waterways budget includes a total of \$1,750,000 of new funding for FY 22, of which \$850,000 is Tidelands funding and \$900,000 is AB32 funding for energy efficiency LED lighting.

Mobility

The Mobility section contains programs designed to meet the increased needs for mobility

resulting from economic growth, utilizing a combination of different funding sources. Funding sources include the City of Long Beach Measure A, Proposition A and C, Gas Tax Street Improvement Capital, Transportation Improvement Fees, Los Angeles County Measure M and R, State Road Maintenance and Rehabilitation Act, along with, Federal, State, and County grants.

Mobility improvements include roadway rehabilitation, complete streets and corridor improvements, traffic signal system and intersection upgrades, transit improvements, replacement parking and traffic lane striping, neighborhood traffic management, and mobility enhancements in the right-of-way. This section also includes programs that evaluate traffic congestion throughout the City while responding with projects to relieve congestion and enhance traffic safety.

When designing arterial and local streets, each location is addressed using the complete streets design framework. When designing a roadway, several factors are considered such as the conditions for people who walk, bicycle, and those who use public transportation. The program delivers improvements including reconstructing and resurfacing of major, secondary, and residential streets, upgrading accessibility of curb ramps to comply with current American Disabilities Act (ADA) regulations, installing bicycle facilities, replacement of street signs, repairing neighborhood

sidewalks, curbs, and gutters, and rehabilitating bridges to repair deficiencies identified by the bridge inspection reports.

The paving program is guided by the City's Infrastructure Investment Plan (IIP) and Pavement Management Program (PMP), which is updated biannually. Staff also plan projects to coordinate with Development Services projects and projects from other departments and agencies. The program is developed to make the best use of our limited funds. This is not a "worst first" methodology as the City uses a balanced approach between maintaining "good" streets in good condition, while also spending some funding to eliminate the backlog of streets in "poor" condition. There are several factors that are taken into consideration when the City evaluates the selection of streets, such as surface conditions, utility work (pipeline construction), future developments in the area, and potential conflicts with other projects. The goal is to rehabilitate a roadway when it is in "good" condition versus delaying repairs to a state in which the street is in a "poor" condition, significantly increasing the costs of repairs.

The following grant funded projects were awarded in Mid-2021 and they will move into the design phase in early 2022: Pacific Ave Cycle Track between Ocean Blvd to Anaheim,

Pine Ave Bike Blvd North of 11th St, Downtown Walkable Street Corners Project, and Traffic Signal Improvements at 8 Signalized Intersections throughout the City.

The City started the design phases in FY 21 of the following Complete Streets Projects: Studebaker Road Improvements between 2nd Street to Carson Avenue, Artesia Great Blvd between Eastern City Limit to Western City Limit, and the Shoreline Dr Improvement Project West of Golden Shore. These projects are estimated to start construction mid FY 22.

The following Complete Streets Projects will have completed design phases in FY 21 and will start the construction phase in FY 22: Anaheim Street Improvements between LA River to PCH, Market Street Improvements between LA River to Cherry Avenue, South Street Improvements between Dairy Avenue to Atlantic Avenue, Santa Fe Avenue Traffic Signal Improvements, and the Mid-City Traffic Signal Improvements – area bordered by Alamitos/7th/Redondo/Ocean.

The adopted Mobility budget includes \$59.8 million of new funding in FY 22, of which \$34.3 million has been budgeted for street rehabilitation and arterial corridor enhancements throughout the City. The budget also includes Measure A funds totaling \$6.3 million, of which \$1.1 million is for Arterial Street Improvements, \$4.8 million for ADA Curb Ramp Improvements and \$400,000 for Citywide Alley Improvements.

In addition to Measure A funding, Mobility also receives local, state and federal funding. This includes improvements to sidewalks, bridge rehabilitation and seismic retrofit, sustainable transportation, traffic mitigation, traffic and pedestrian signal improvements, and administration.

Parks

Long Beach has over 170 parks and over 3,000 acres of open space that are used daily by residents and visitors. Parks contribute greatly to the livability of Long Beach, host festivals, concerts and athletic events that draw thousands of visitors, bringing tourism revenue to local restaurants, hotels, and stores, all while

boosting the local economy.

Many of Long Beach's parks and open spaces face aging infrastructure, and there is a significant effort to rehabilitate existing park assets and irrigation. Deferred critical repairs have resulted in necessary capital projects to rehabilitate various park sites. In FY 21, the

fifth year of Measure A funding, Public Works delivered over 25 projects related to park playgrounds, community centers, and park facilities. These projects included upgrades at Bixby Park Parcel 1, a new neighborhood playground at Channel View Park, renovations of four restrooms in El Dorado Park, the Drake Park Field Connector, and the El Dorado Park Golden Grove Event Area and playground.

In FY 21 the Public Works Project Management Bureau also completed construction of the Cherry Park Playground (pictured above), El Dorado Park Artificial Turf, MacArthur Park Restroom Improvements, and Stearns Park Irrigation. In FY 22, the Davenport Park Expansion project will begin construction while the Colorado Lagoon and Recreation Park Playgrounds and the new Lincoln Park are currently under construction with completion anticipated in FY 22.

The FY 22 budget for Parks includes \$1.6 million of which \$1.2 million is from Measure A and \$400,000 is Tidelands funding for irrigation system improvements within the Tidelands area.

Public Facilities

The City of Long Beach owns over 250 facilities throughout the City that continue to provide residents with public services, recreational opportunities, places to learn, and public safety. These facilities include but are not limited to the following: Libraries, Health Facilities, Fire Stations, and Police Stations.

In FY 21 the Department of Public Works completed the Citywide Facility Condition Assessment (FCA). All city-owned buildings have been assessed and final FCA reports completed. The assessments form the basis of capital improvement programming and identify early action items for facility maintenance. The FCA will allow staff to identify and prioritize items in need of repair based on resources available at the time. In FY 21 the new Public Safety

Garage and Fire Station 1 façade projects were completed. In addition, Brewitt, Burnett, Dana and other branch libraries were improved in FY 21. Upgrades to the Main Health Department lobby were also completed, providing better security, ADA accessibility, and an improved user experience.

In FY 22, improvements to the Emergency Communication and Operations Center, Bay

Shore Library Façade, and North Health Facility are anticipated to be completed.

The FY 22 budget for Public Facilities includes \$21.6 million of which \$14.1 million is from Measure A, \$4.4 million from AB-32 funds, and \$3.1 million of Tidelands funds. \$2.5 million has been budgeted for the design phase of critical repairs for the Queen Mary and \$11.3 million for the Fire Department and Police Department Academy Building improvements.

Harbor

The Harbor Department (Port), with its deep-water channels, rail access, and ongoing investment in state-of-the-art facilities, continues to be the preferred gateway for Asia-Pacific trade and an operational model for its environmental innovations and initiatives. The Port continues to implement a

long-term capital improvement program designed to provide Port tenants with secure, state-of-the-art facilities capable of accommodating international trade and safeguarding regional economic benefits in a sustainable manner while ensuring economic vitality, ecological health, and community integrity.

The Port forecasts investing \$1.6 billion in capital projects over the next decade to increase cargo-handling efficiency and enhance competitiveness. This investment will also stimulate the economy by creating thousands of direct construction jobs along with indirect service and commercial opportunities.

In FY 22, the Port is forecasting to spend \$331.5 million on capital projects, most notably with a \$77.0 million investment in enhancing its rail infrastructure, \$53.2 million for the remaining phases to complete the Gerald Desmond Bridge Replacement Project and \$38.4 million for the Pier G Wharf Improvement Project.

Utilities

The Utilities section is comprised of three services to Long Beach residents. These critical services are provided by the Long Beach Energy Resources Department, Long Beach Water Department and the Public Works Stormwater/Environmental Compliance Division. In addition, these departments work closely to coordinate water, gas, and street improvement projects in the right-of-way, adhering to the City's "Dig Once" policy preventing any newly paved or slurried street from being torn up. In FY 22, the Utilities budget includes a total of \$60.8 million of new funding.

Long Beach Energy Resources Department

Long Beach Energy Resources (LBER) Department oversees approximately 1,900 miles of natural gas pipelines. The Department's objective is to provide safe and reliable natural gas service to over 150,000 businesses and households in the most cost-efficient manner. All operations are conducted in strict compliance with the U.S. Department of Transportation (DOT) pipeline safety regulations - 49 CFR Part 190-199, and local government codes.

LBER is engaged in a long-term pipeline infrastructure replacement program focusing on pipelines and facilities identified in its Distribution Integrity Management Plan (DIMP) and gas facilities master plan. In the past five years, over 50 miles of distribution main and service pipelines have been installed or replaced to improve overall system integrity.

The Capital Improvement Program (CIP) takes a system-wide approach to find patterns and targets pipeline replacement in areas of high risk or consequence within the system. There are numerous factors that affect which pipes are selected for replacement including age, material type, leakage history, etc. In addition to pipeline replacement, the CIP addresses capital needs to maintain and operate regulator stations, valves, rectifiers, and other gas facilities. The CIP funds mandated critical programs such as cross bore inspections, meter replacement, gas facility surveys, cathodic protection, and equipment inspections. LBER continues to work closely with the Public Works Department to coordinate gas pipeline projects with street improvement projects.

In FY 22, a total of \$11.05 million was adopted for LBER projects including main and service pipeline replacement, gas meter replacement, compliance work, and sewer lateral inspections (cross bores).

Stormwater/Environmental Compliance

The Stormwater/Environmental Compliance Division is responsible for maintaining the City's 300 miles of storm drain pipeline, pump stations and monitoring stormwater quality within Long Beach. Water quality compliance is handled through the City's National Pollutant Discharge Elimination System (NPDES) permit. In 2016, an assessment of the City's 23 pump stations was completed and identified over \$35 million in necessary repairs and upgrades.

In FY 22, \$3 million of Measure W funding was adopted for the

implementation of the Watershed Management Program, the Long Beach Municipal Urban Stormwater Treatment (LBMUST) Facility, low flow devices, trash capture devices, and other projects to keep Long Beach in compliance with its NPDES permit.

Long Beach Water Department

Planned capital improvements to the City's water and sewer system encompasses a wide range of projects. The Water Department will continue replacing aging infrastructure that is approaching the end of its useful life, including, but not limited to, water pipelines, valves and meters. The Department coordinates pipeline projects with the Measure A Street Rehabilitation projects. The Department established a \$60,000,000 Water Fund Line of Credit to facilitate an increased, multi-year, investment in its water infrastructure. Planned capital improvements include drilling new local water wells, refurbishing existing wells, and rehabilitating existing storage tanks. These investments will improve production, conveyance, treatment, storage, and distribution of water to its customers.

The Sewer CIP budget reflects a sustained level of investment in infrastructure, as the Department follows a programmatic CIP based on an updated Sewer Master Plan.

In FY 22, the Water Department is proposing \$46.8 million in Capital Projects. Of this amount, \$41.1 million is in the Water Fund and \$5.7 million is in the Sewer Fund.

AIRPORT AIRFIELD IMPROVEMENTS

3701020000

Project Description To comply with Part 139 Certification requirements, the Airport is required to rehabilitate airfield pavement and make repairs and improvements on an as-needed basis. Repairs and improvements include emergency repairs, unforeseen maintenance on utilities, pavement improvements, crack sealing, slurry sealing, signage and lighting replacement and pavement marking modifications.

Estimated Operating and Maintenance Repair and maintenance intended to prolong the life of the airport pavement and reduce future infrastructure expenses while increasing the safety of the pavement.

Project Timeline Design and Construction on a continuous basis.

BEACH AMENITY IMPROVEMENTS

3002010000

Project Description New play structures and equipment and/or upgrades to existing play structures and equipment. Includes improvements to facilities/infrastructure needed in conjunction with the use of the play areas.

- Alamitos Beach Water Play Area
- Mobility Mats
- Basketball/Skating Area

Estimated Operating and Maintenance Repair and maintenance to prolong the life of playground equipment and reduce future infrastructure expense.

Project Timeline TBD

ARTERIAL CORRIDOR ENHANCEMENTS

3003030000

Project Description Design and construct projects that focus on multiple modes of transportation. Improvements along major roadways include transportation facilities that will improve the level of safety for all who traverse the corridors. Vehicles, pedestrians, bicyclist and transit users will experience an improved level of comfort that will proactively encourage multi-modal use.

- Anaheim Corridor Safety Improvements
- Artesia Great Boulevard
- Studebaker Safety Improvements
- Market Street Pedestrian Improvements & Streetscape Enhancements

Estimated Operating and Maintenance Repair and maintenance to prolong the life of the improvements and reduce future infrastructure expense.

Project Timeline Design: 2022

BIKEWAY AND PEDESTRIAN IMPROVEMENTS

3003060000

Project Description Design, construct, implement projects and programs to enhance the safety and viability of pedestrian and bicycle routes.

- Orange Avenue Backbone Bikeway
- Pine Avenue Bike Blvd.
- Pacific Avenue Cycle Track
- Downtown Walkable Streets
- Atherton Pedestrian Bridge
- Liveability Initiatives
- Grant Matching Funds

Estimated Operating and Maintenance Repair and maintenance to prolong the life of bike corridors and reduce future infrastructure expenses.

Project Timeline Design: October 2020– February 2021
Construction: October 2020 – September 2021

Department Contact Public Works - Transportation Mobility - Carl Hickman - (562) 570-6332

STORM DRAIN SYSTEM IMPROVEMENTS

3006020000

Project Description Construct water quality and drainage improvements citywide. Installation of connector pipe screens (CPS) in existing priority catch basins to meet trash requirements mandated by the State Regional Water Quality Control Board (SRWQCB) and required monitoring, modeling, and implantation actions associated with Total Maximum Daily Loads (TMDLs) as mandated by the State and Federal agencies.

Estimated Operating and Maintenance Repair and maintenance to modernize storm drain catch basins and mainline pipes to reduce future infrastructure expenses related to normal degradation and heavy usage.

Project Timeline Design: October 2021 - March 2022
Construction: April 2022 - September 2022

Department Contact Public Works - Engineering - Melissa You - (562) 570-5524

Harbor

The Harbor Department (Port), with its deep-water channels, rail access, and ongoing investment in state-of-the-art facilities, continues to be the preferred gateway for Asia-Pacific trade and an operational model for its environmental innovations and initiatives. The Port continues to implement a

long-term capital improvement program designed to provide Port tenants with secure, state-of-the-art facilities capable of accommodating international trade and safeguarding regional economic benefits in a sustainable manner while ensuring economic vitality, ecological health, and community integrity.

The Port forecasts investing \$1.6 billion in capital projects over the next decade to increase cargo-handling efficiency and enhance competitiveness. This investment will also stimulate the economy by creating thousands of direct construction jobs along with indirect service and commercial opportunities.

In FY 22, the Port is forecasting to spend \$329.1 million on capital projects, most notably with a \$77.0 million investment in enhancing its rail infrastructure, \$53.2 million for the remaining phases to complete the Gerald Desmond Bridge Replacement Project and \$38.4 million for the Pier G Wharf Improvement Project.

Fiscal Year 2022 Capital Improvement Program

Summary of Harbor Department Projects^{*[1]}

	Project Forecast at Completion	Inception Through FY 20 Actuals	Estimated FY 21 Expenditures	Adopted FY 22 Budget
Terminal Projects				
Pier G Wharf Improvement Project	\$50,591	\$3,935	\$3,205	\$38,444
Middle Harbor (Piers D/E/F)	\$1,473,385	\$1,371,181	\$74,295	\$17,945
Other Terminal Projects	\$6,973	\$929	\$1,076	\$715
Total Terminal Projects	\$1,530,949	\$1,376,045	\$78,576	\$57,104
New Fire Stations/Port-wide Security and Safety Projects

Mid-City Signal Coordination	Metro	2,600,000
Potential Grant Funding Total:		\$ 31,620,000

Fiscal Year 2022 Unfunded Capital Needs

Unfunded Capital Improvements Projects

Although the FY 22 adopted Capital Improvement Program budget provides for vital infrastructure improvements throughout the City, additional high priority needs that have not been addressed remain. Identification of unfunded needs, or unidentified funding, provides a method for communicating resource requirements of projects that are not fully funded and for which a fund source has not yet been identified.

Projects identified where no current funding exists, are categorized as unfunded. To date, the City has completed assessments of its streets, alleys, sidewalks, pump stations and City owned facilities. While these assessments have been completed, funding to update the 2005 Drainage Master Plan has not yet been identified. The list below is not a complete listing and is not listed by priority order. Dollar amounts also listed below are estimates and subject to change.

Unfunded Projects are tracked for consideration in future funding cycles. In some cases, these are still high priority projects, but they may need to be deferred for a number of reasons such as exploring opportunities to leverage City funds with external funding, or to acknowledge workload considerations where existing staffing capacity is fully committed to other urgent projects. In some cases, staff is able to continue preliminary or related work until it is possible to fully fund a broader effort.

Citywide Street Improvements

The City utilizes a Pavement Management Program (PMP) to plan, budget, fund, construct, maintain, and rehabilitate the City's pavement network to provide maximum effectiveness with available funds. The PMP is guided by regularly recurring evaluations of the conditions of the pavement network based on surveyed pavement structural integrity, roughness, and surface distress. Each surveyed roadway is assigned a Pavement Condition Index (PCI) score. Per the City's latest PMP updated in 2018, the City's roadways are in "fair to marginal" condition with an average (PCI) score of 58 out of a possible 100. The PMP also identified a 22% backlog for street reconstruction. A backlog of this magnitude indicates the need for a larger investment to stay ahead of the growing depreciation rate of the overall pavement network condition. Per the 2018 PMP, an investment of \$959 million over 5 years is required to fix all the City's major and minor street deficiencies. At a minimum, a budget of \$53.5 million annually is required to maintain the City's major and minor street networks average PCI at its 2018 score level of 58 and \$191.8 million is required annually to fix all deficiencies. Current proposed FY 22 street funding is approximately \$34.3 million and includes Measure A, County funds and State Gas Tax funds including SB1.

Program Name	Recommended Annual Funding for 5 years
Major and Arterial Streets	\$64.2 million
Residential Streets	\$127.6 million
Unfunded Cost Estimate:	\$191.8 million

Alley Paving

Long Beach has over 215 miles of alleys which includes an estimated 0.5 miles of remaining dirt/gravel alleys. The City's latest Alley Management Plan (AMP) updated in 2018 identified an average PCI score of 55 with a backlog of 23% for the paved alleys and an estimated total alley deficiency of \$98 million for paved alleys. The estimated cost to pave the remaining 0.5 miles of dirt/gravel alleys is \$600,000. At a minimum, a budget of \$4 million annually is required to maintain the City's alley network average PCI at its 2018 score level of 55 or \$19.6 million is required annually to fix all deficiencies.

Program Name	Recommended Estimated Annual Funding for 5 years
Alley	\$19.6 million
Unfunded Cost Estimate:	\$19.6 million

Stormwater Protection System

The City is working to identify funding to address its aging stormwater management system. In 2018, LA County residents passed the stormwater parcel tax Measure W which provides almost \$5 million annually. This additional funding helps the City reduce pollution and bacteria in storm water, but Measure W will not fund replacement of our aging pump station and stormwater infrastructure. The estimated funding needed to address the City's pump stations per the 2015 Pump Station Assessment is \$63 million over 30 years and \$229 million for storm water infrastructure per the City's 2005 Stormwater Master Plan and Management System. In FY 22, the total investment has been adjusted per the consumer price index (CPI) for a total investment of \$394 million.

Program Name	Recommended Funding
Pump Station	\$72.3 million
Stormwater infrastructure	\$321.7 million
Unfunded Cost Estimate:	\$394 million

Citywide Facility Repairs

In FY 21 the City completed the Citywide Facility Condition Assessment, which measures the Facility Condition Index (FCI) of each facility. The FCI helps prioritize funding for repairs that will address leaking roofs, HVAC, energy efficiencies, structural repairs, maintenance and other deficiencies. The City has evaluated over 250 city-owned facilities with \$647 million of potential maintenance or replacement cost.

Program Name	Recommended Funding
General City Building Refurbishment	\$647 million
Total Unfunded Cost Estimate:	\$647 million

Sidewalk Management Plan

The City completed a comprehensive review of the City's sidewalk infrastructure. This plan evaluated all pedestrian facilities, including sidewalks and curb ramps, to determine the extent to which individuals with disabilities may have restricted movement throughout the City's right-of-way. This information allowed the City to update its ADA Transition Plan and further the City's ongoing commitment to all residents, employers, businesses and visitors for creating an inclusive and accessible place to live, work, and play. This plan found a need of \$631 million for investment in the City's sidewalks and ADA curb ramps.

Program Name	Recommended Funding
Sidewalk	\$479 million
ADA Curb Ramps	\$152 million
Unfunded Cost Estimate:	\$631 million

Total Estimate CIP Unfunded Need: \$1.883 Billion

Fiscal Year 2022 Capital Improvement Program

Glossary

AB2766 (Air Quality): This funding source was enacted to support programs that reduce air pollution from motor vehicles. Funds are collected by the Department of Motor Vehicles (DMV) and subvended to the South Coast Air Quality Management District (AQMD) for disbursement. The City receives these funds to implement programs and measures that reduce air pollution from motor vehicles mandated by the requirements of federal and state Clean Air Acts and the Air Quality Management Plan (AQMP).

AB2928 (Traffic Congestion Relief): The State Assembly Bill that established legislation for the Traffic Congestion Relief Fund in the State Treasury for allocation of street and road funds to cities and counties for maintenance and reconstruction. This funding source was replaced in 2002 by the Transportation Congestion Improvement Act. See State Proposition 42.

AB32 (California Global Warming Solutions Act of 2006): AB32 authorizes the collection of a fee from sources of Green House Gas (GHG). This fee is collected annually by the LBER Department that captures auction proceeds from credits the City receives as a natural gas provider. 25 percent of available monies in the fund are to be used on projects that reduce GHG emissions in disadvantaged and low-income communities.

Americans with Disabilities Act of 1990 (ADA): A Federal law enacted to provide for the protection of individuals with disabilities. This protection ranges from prohibitions against discrimination in employment to specific requirements for modifications of public facilities and transportation systems.

Airport Area Assessment District: The assessment district formed for the purpose of constructing upgrades in the airport area to improve traffic flow. The upgrades include street widening, grade separation, dedicated turn lanes, traffic signals, and signage. See Assessment District.

Airport Capital: A sub-fund of the Airport Fund. This is the non-grant portion of the Airport Fund capital expenditures. See Airport Fund.

Airport COPS: Certificates of Participation issued by the Long Beach Airport to fund capital improvements. See Certificates of Participation.

Airport Fund: The fund designation is used to account for revenues and expenditures applicable to the operation and maintenance of the Long Beach Airport and its leaseholds. The major revenue sources consist of revenues related to airport operations leases and grants. The Airport Fund is an Enterprise Fund. See Enterprise Fund.

Airport Customer Facility Charges: A fee is charged by car rental agencies on each rental transaction and passed on to the Airport to expend on a car rental facility or transportation system between the rental facility and the terminal.

Airport Passenger Facility Charges: The amount added to the passenger airline ticket to provide a funding source for airport improvements.

Appropriation: An authorization granted by the City Council that permits officials to make expenditures and incur obligations for specific purposes.

Assessment District: A separate local government entity was formed to provide specific local public services. Assessment districts can be established to provide a single service such as sewage treatment or to provide multiple services such as police and fire protection, parks and recreation facilities, and water distribution systems. Property owners within the assessment district's boundary pay into the district in direct proportion to the benefits or services they receive.

Beginning Balance: Unspent funds carried over from prior fiscal years that become part of the FY 22 appropriation.

Bond: A method of financing long-term debt, issued by a government or private corporation, which bears interest.

Budget: A plan of anticipated expenditures and revenue for a certain period.

California Energy Commission: California's primary energy policy and planning agency.

Caltrans: The State of California Department of Transportation. Caltrans administers both U.S. Department of Transportation grants and its own grants for improvements to streets and highways.

Caltrans Construction Cooperative Grant: A grant issued by Caltrans for the City of Long Beach

to provide various services in connection with the State's Interstate 710 construction project.

Capital: Assets that add to the long-term net worth of the City.

Capital Improvement: Construction or major repair of City-owned buildings and infrastructure which helps meet health, safety, legal concerns and mandates, prolongs the life of City assets, avoids or minimizes future repair costs, benefits the community, supports goals articulated in the City of Long Beach Strategic Plan, has the potential to generate operating savings or increase productivity, and is consistent with the City's General Plan.

Certificates of Participation (COPS): Interest-bearing debt instruments sold to investors by a non-profit agency to finance construction. The agency then leases the facility and uses the revenues to repay the debt.

CFD No. 5 Bond: See Community Facilities District (CFD) No. 5 Bond.

CFO: Chief Financial Officer.

CIP Category: A group of similar programs organized into a major section of the CIP budget document.

Civic Center 1997A Bond: A bond issued in 1997 by the Long Beach Finance Authority to fund various capital improvement projects in the Civic Center Complex.

Civic Center Capital: A sub-fund of the Civic Center Fund. The non-bond portion of the Civic Center Fund capital expenditures. The major ongoing revenue source to the Fund is rental payments from the departments occupying the facilities.

Civic Center Fund: The fund designation used to account for revenues and expenditures applicable to the operation and maintenance of the City Hall Complex and the Main Library Complex. The major ongoing revenue source to the Fund is rental payments from the departments occupying the facilities.

Coastal Conservancy Grant: State bond proceeds used to provide grants that protect coastal or ocean resources from development, natural, or economic conditions. Established in 1976, the California Coastal Conservancy is funded largely by State bonds.

Community Development Block Grant (CDBG): Federal entitlement funds (based on various criteria)

received by the City of Long Beach from the U.S. Department of Housing and Urban Development (HUD) for the purpose of benefiting low and moderate-income areas and disabled residents.

Community Facilities District (CFD) No. 5 Bond: The 2000 Special Tax Bonds issued to finance the acquisition and construction of certain street and other public improvements for the Long Beach Towne Center.

Construction Support: Engineering work during the construction process, which ensures that projects are constructed in accordance with design parameters and specifications. Primary construction engineering functions include construction, inspection, laboratory services, field surveys, and design plan updates or interpretation.

Contract Award Process: Procurement preparation for Council award and all pertinent contract documentation prior to the initiation of construction.

Debt Service: The principal and interest payment on borrowed money according to a predetermined schedule.

Department of Boating and Waterways (DBAW): A State agency that provides grants and loans for improvements in the Tidelands areas of the City.

Design: The process of identifying project options, developing a project scope, conducting feasibility analyses, and creating plans, specifications, and estimates for a capital improvement. Primary design engineering functions include drafting, design, development of specifications, and traffic engineering.

Economic Development Administration (EDA): Created by Congress pursuant to the Public Works and Economic Development Act of 1965 to generate new jobs, retain existing jobs, and stimulate industrial and commercial growth in economically distressed areas of the United States.

Edison Grant: A grant received from Edison International under the LED Traffic Signal Rebate Program to provide for more energy efficient traffic signals.

Environmental Enhancement and Mitigation Program (EEMP) Grant: Annually, the EEMP offers grants for projects to mitigate the environmental impacts caused by new or modified state transportation facilities. These grants are offered to local, state, and federal governmental agencies. The EEMP was established in 1989.

El Dorado Regional Park Development Grant: A National Park Service federal grant administered by the State Department of Parks and Recreation to upgrade the El Dorado Park campsites.

Enterprise Fund: The fund designation used to account for City operations that are financed and operated in a manner similar to private business enterprises. The intent of the City in using this type of fund is to determine that the costs (expenses, including depreciation) of providing these services to the general public on a continued basis are financed or recovered primarily through user charges. The City's Enterprise Funds include Airport, Development Services, Gas, Refuse/ Recycling, Sewer, Towing, Water, and SERRF.

Environmental Protection Agency (EPA) Grant: Federal funds used to address environmental issues for pre-approved projects.

FAA: Federal Aviation Administration.

FAA AIP Program Grant: An Airport Improvement Program (AIP) grant from the FAA to construct capital improvements for pre-approved projects at the Long Beach Airport.

FEMA: Federal Emergency Management Agency. Provides funds, services, hiring, and post-disaster assistance for response and recovery in the event of natural disasters.

FEMA HMGP: The FEMA Hazard Mitigation Grant Program. The Governor's Office of Emergency Services (OES) administers this program in California.

Fiscal Year (FY): A designated time frame that identifies the beginning and ending dates for recording an entity's financial transactions. The fiscal year for the City of Long Beach is from October 1 through September 30.

Fleet Capital: A sub-fund of the Fleet Fund. It is comprised of the non-grant and non-bond portion of the Fleet Fund capital expenditures. See Fleet Fund.

Fleet Fund: The fund designation used to account for revenues and expenditures applicable to the City's operation, maintenance, and timely replacement of the City's fleet of vehicles and equipment. There are two major sources of ongoing revenue for the Fund, Fleet Services charges to the City departments and land rental payments.

Fund: An accounting entity with a self-balancing set of accounts recording financial resources and transactions for specific activities.

Fund Type: A classification term used to group funding sources into specific categories of government functions or services.

Funding Source: The specific source of appropriated funds.

FY 22 New Budget: The new allocation of monies that is part of the FY 22 budget appropriation.

Gas Capital: A sub-fund of the Gas Fund. This is the non-grant portion of the Gas Fund capital expenditures. See Gas Fund.

Gas Fund: The fund designation used to account for revenues and expenditures applicable to activities associated with the transmission and distribution of natural gas to the City's users. The Gas Fund is an Enterprise Fund. See Enterprise Fund.

Gasoline Tax Street Improvement Capital: A sub-fund of the Gasoline Tax Street Improvement Fund. This is the non-grant portion of the Gasoline Tax Street Improvement Fund.

Gasoline Tax Street Improvement Fund: The fund designation used to account for revenues and expenditures of gasoline tax funds apportioned under the State Streets and Highways Code, as well as other sources dedicated to transportation improvements. Expenditures may be made for any street-related purpose on the City's system of streets, including maintenance. In addition to the gasoline tax revenue from the State of California, other transportation-related revenue sources include funding from the Federal Transportation Equity Act for the Twenty-First Century (TEA-21) and the State Traffic Congestion Relief Fund and State Proposition 42 (AB2928).

General Capital Projects Fund: The fund designation used to account for the all-years Capital Improvement Program with multiple funding sources, including the General Fund that pays for the City's general projects.

General Fund: The fund designation used to account for financial resources applicable to the general governmental operations of the City of Long Beach. The largest sources of revenue for the General Fund are property taxes, sales taxes, utility user's taxes, and motor vehicle license fees.

Grants: Disbursement of assets from another government agency or entity to be expended for a pre-approved purpose, activity, or facility.

Highways-Through-Cities Grant (HTC): A Los Angeles County financial aid program to assist cities

with their major and secondary highway rehabilitation projects. This is a discretionary program based on each Supervisor's decision regarding which projects to assist in the cities within their district. Financing is provided by each County Supervisor District's Road Construction program allocation of State gas tax funding.

HBRR: Highway Bridge Rehabilitation and Replacement Program. See TEA-21 HBRR.

Health Fund: The fund designation used to account for revenues and expenditures applicable to the support of the operations of the Department of Health and Human Services.

HVAC: Heating, ventilation, and air conditioning.

Internal Service Fund: The fund designation used to account for the finance of goods and services provided by one City department to another on a cost-reimbursement basis, e.g., computer services, fleet services, etc., including depreciation.

ISTEA: Intermodal Surface Transportation Efficiency Act (of 1991). The Transportation Equity Act for the Twenty-First Century (TEA-21) superseded this funding source in 1998. The Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) superseded TEA-21 in 2005. The Moving Ahead for Progress in the 21st (MAP-21) Century Act supersedes SAFETY-LU in 2012.

LED: Light Emitting Diode. A component of an electronic display.

Long Beach and Los Angeles Harbor Contributions: Monies received from the Long Beach and Los Angeles Harbors to fund various street improvements to improve the traffic flow out of the Long Beach and Los Angeles harbor areas.

Los Angeles County Grant: Grants issued by the County of Los Angeles to the City of Long Beach to fund various capital improvement projects.

Los Angeles County Measure A - The Los Angeles County Regional Park and Open Space District (RPOSD) is responsible for implementing the Safe, Clean Neighborhood Parks and Beaches Measure of 2016 (Measure A). Measure A was approved by Los Angeles County voters in November 2016 and provides dedicated, local funding for parks, recreation, beaches, open space, trails, cultural facilities, and related projects throughout LA County. It is financed by an annual parcel tax of 1.5 cents per square foot of development.

MAP-21: The authorized bill that governed United

States federal surface transportation spending. The bill was signed into law by President Bush on August 10, 2005 and expired on September 30, 2009 but Congress renewed its funding formulas ten times after its expiration date, until replacing the bill with Moving Ahead for Progress in the 21st (MAP-21) Century Act in 2012. The \$286.4 billion measure contained a host of provisions and earmarks intended to improve and maintain the surface transportation infrastructure in the United States, including interstate highway system, transit systems around the country, bicycling and pedestrian facilities, and freight rail operations.

Marina Capital: A sub-fund of the Marina Fund. The non-grant and non-loan portion of the Marina Fund capital expenditures. See Marina Fund.

Marina Fund: The fund designation used to account for the revenues and expenditures applicable to the operation, maintenance, and development of the City's marinas in the Tidelands area.

Measure A: In June 2016, Long Beach voters approved Measure A for a 10-year period and was extended indefinitely by voters in 2020. Measure A is a Transaction and Use Tax, which added a transactions and use (sales) tax on the sale and/or use of all tangible personal property sold at retail in the City.

Measure D: In November 2010, Long Beach voters approved Measure D, a City Charter amendment that removed control of oil properties and all oil operations in the Port of Long Beach from the Long Beach Board of Harbor Commissioners, giving the authority instead to the Long Beach City Council. Measure D transfers 5% of the port's gross earnings to Tidelands Operating Fund.

Measure M: A sales tax ballot measure passed by voters on November 8, 2016. Voters authorized a Los Angeles County Traffic Improvement Plan through a half-cent sales tax and continue the existing half-cent traffic relief tax improving transportation and easing traffic congestion.

Measure R: A ballot measure proposed by Los Angeles County that was passed in 2008. This increases the county sales tax by one half-cent to fund transportation projects. Collection of Measure R sales tax revenue commenced on July 1, 2009.

Measure W: Approved by voters in the November 2018 election, Measure W is funded by a parcel tax of 2.5 cents per square foot of impermeable areas (like concrete) within the County. The parcel tax will increase Los Angeles County's

local water supply and improve water quality. The tax was imposed beginning in the county's fiscal year, July 1, 2019.

Mobile Source Air Pollution Reduction Review Committee (MSRC): The MSRC was created in 1990 by the California State Legislature as part of AB 2766 that authorizes the Department of Motor Vehicles (DMV) to collect a \$4 surcharge on vehicle registration fees. Under AB 2766, 30% of the \$4 is part of a "discretionary" fund overseen by the MSRC, 30% is distributed to the SCAQMD, and 40% is distributed to local cities and counties in the South Coast Air District to be used for clean air projects.

MTA Grant: State and Federal funding awarded to the City of Long Beach through the Metropolitan Transportation Authority (MTA) "Call for Projects".

Non-Point Source Pollution (NPS): Water pollution originates from many different sources rather than one specific, identifiable source. NPS occurs when rainfall, irrigation waters, and water habits (washing cars/pets) create a flow over land and impervious surfaces and are deposited into the receiving waters via the storm drain system.

Park Impact Fees: Fees collected on new residential development to mitigate the impact on Parks, Recreation, and Marine facilities for the purpose of assuring that the parkland and recreational facility standards established by the City of Long Beach are met considering the additional needs created by such development.

Program: A specific undertaking for the delivery of a capital improvement including procurement, construction or installation of facilities or related equipment.

Proposition A: A source of funding from the Los Angeles County sales tax of one-half cent used exclusively to construct, improve, and maintain mass transit services and facilities. See Transportation Fund.

Proposition 1B (Transportation Bond): Funding derived from Budget Bill SB78 and Trailer Bill SB88 and implemented as "The Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006" passed by the voters in November 2006. This authorized the state to sell approximately \$20 billion of general obligation bonds to fund transportation projects to relieve congestion, improve the movement of goods, improve air quality, and enhance the safety and security of the transportation system.

Proposition C: A source of funding from the Los Angeles County sales tax of one-half cent used to

construct, improve, and maintain mass transit services and facilities. This funding also provides an expanded list of eligible project expenditures including congestion management programs, bikeways and bike lanes, street improvements supporting public transit service, and pavement management system projects. See Transportation Fund.

Proposition C MTA Grant: See MTA Grant.

Proposition 42: See State Proposition 42.

Public Safety Facilities Capital Improvements Lease Revenue Bond: The 2002 bond issued by the Long Beach Finance Authority to finance public safety facility capital improvement projects.

Rainbow Harbor Area Fund: The fund designation used to account for revenues and expenditures applicable to the operation, maintenance, and development of the City's Rainbow Harbor area.

Rainbow Harbor Capital: A sub-fund of the Rainbow Harbor Area Fund. The non-grant and non-loan portion of the Rainbow Harbor Area Fund capital expenditures.

Road Maintenance and Rehabilitation Act (RMRA): Senate Bill (SB) 1, a source of funding from the State of California which increases the per gallon fuel excise taxes, increases diesel fuel sales taxes, and vehicle registration fees. The state controller started depositing new funding into the RMRA account on November 1, 2017.

Safe Routes to School Program: Administered by Caltrans, this 2003 program provides state and federal funds for projects that protect the safety of children traveling to and from school. Projects were developed through collaboration with the Long Beach Unified School District.

SERRF Refunding 03 Bonds: The 2003 refunding bonds for the finance of the construction of the Southeast Resource Recovery Facility (SERRF).

Senate Bill (SB) 1: See Road Maintenance and Rehabilitation Act (RMRA).

Sewer Capital: A sub-fund of the Sewer Fund. The non-grant portion of the Sewer Fund capital expenditures. See Sewer Fund.

Sewer Fund: The fund designation used to account for revenues and expenditures applicable to the operation, maintenance, and replacement of the City's sewer system in a cost-effective manner. The major sources of revenue include a water usage charge based on water that will enter the sewer

system and a service charge based on the size of the customer's water meter. The Sewer Fund is an Enterprise Fund.

Skylinks Golf Course 03 Bonds: The 2003 bond issued by the Long Beach Finance Authority to finance improvements to the Skylinks Golf Course.

South Coast Air Quality Management District (SCAQMD): Agency responsible for preparation of the state implementation plan (SIP) applicable within its boundaries, adoption of control regulations for stationary sources, and implementation of indirect source and transportation control measures.

State Bond Act of 1988: The 1988 bond issued by the State of California to fund various parks and recreation projects.

State Grant – California Endowment Fund: State funding awarded to the City of Long Beach to establish a Latino Diabetes Prevention and Management Program.

State Grant – Energy Commission: Funding authorized by Assembly Bill 970 and administered by the California Energy Commission (CEC). These funds were used to purchase and install light-emitting diode (LED) traffic signals and battery back up systems.

State Grant – Public Libraries: Funding for new library facilities provided under the California Reading and Literacy Improvement and Public Library Construction and Renovation Bond Act of 2000.

State Implementation Plan (SIP): The 1970 Clean Air Act requires each state to develop a state implementation plan to attain National Ambient Air Quality Standards (NAAQS) by the applicable attainment deadlines. SIPs must be approved by the Federal Environmental Protection Agency.

State Library Bond: California Reading and Literacy Improvement and Public Library Construction and Renovation Bond Act of 2000 (Proposition 14). The bond proceeds are designated for site acquisition, new building construction, remodeling, renovation, and upgrading electrical and telecommunications systems.

State Proposition 12 Bond: Funding derived from Assembly Bill 18 and Senate Bill 1147 and implemented as the Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Act of 2000. The program includes entitlement (funding for cities based on population) and competitive grants for improvement of park land and facilities.

State Proposition 13 (Costa-Machado Water Act of 2000) - Coastal Non-Point Source Program: A source of funding from the State Water Resources Control Board (SWRCB) for the Los Angeles River and Colorado Lagoon California Beaches Initiative projects.

State Proposition 40 Bond: Funding derived from the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Act of 2002. Proposition 40 provides both entitlement and competitive grant programs to California cities for improvement of community recreation areas.

State Proposition 40 Water Board Grant: Funding derived from the SWRCB from the Clean Beaches Initiative. This grant was obtained for the remediation of the Colorado Lagoon.

State Proposition 42: Funding derived from Assembly Bill 2928 and implemented as State Transportation Congestion Improvement Act, passed in 2002. This requires sales and user taxes on motor fuels to be used for public transportation, city and county road repairs and improvements, and state highway improvements.

State Proposition 46 Jobs Housing Balance Incentive Grant: The Housing and Emergency Shelter Trust Fund Act of 2002. This authorized the award of a one-time \$25 million grant for cities and counties meeting the terms and conditions of the program for the 2001 calendar year. The City obtained this grant as part of the matching fund requirement for the MacArthur Park Branch Library project.

State Transportation Improvement Grant: Federal funds from the Department of Transportation given to the State of California for major transportation projects. This funding has been used primarily for Citywide street repair and improvements.

State Water Bond 2000: Funding derived from the Safe Drinking Water, Clean Water, Watershed Protection, and Flood Protection Act of 2000. The funds are administered by the SWRCB for non-point source pollution control, watershed management plan development and implementation, wastewater recycling, and the protection of various targeted watersheds.

TDA-SB821: Transportation Development Act funding from sales tax receipts as specified in the California Streets and Highways Code. The TDA SB-821 is the Senate Bill that established legislation for the Transportation Development Act.

Transportation Equity Act for the Twenty-First Century (TEA-21): Enacted on June 9, 1998, this federal legislation authorizes the Federal surface transportation programs for highways, highway safety, and transit. TEA-21 provides states with the flexibility to set their own transportation priorities and to explore creative financing mechanisms within certain guidelines. TEA-21 supersedes the 1991 ISTEA program.

TEA-21 HBRR: Highway Bridge Replacement and Rehabilitation funds used specifically for bridges within the city limits. See TEA-21.

TEA-21 MTA Grant: See MTA Grant.

Temple/Willow Bond: Bonds issued by the City to fund the construction of the new Fleet and Towing facility located on the corner of Temple Avenue and Willow Street.

Tidelands Operations Capital: A sub-fund of the Tidelands Operations Fund. The non-grant and loan portion of the Tidelands Operations Fund capital expenditures. See Tidelands Operations Fund.

Tidelands Operations Fund: The fund designation used to account for revenues and expenditures applicable to the operations, maintenance, and development of the convention center and beaches in the Tidelands area.

Traffic Improvement Fee: Fees collected from land developers to mitigate cumulative traffic impacts. Sometimes referred to as Transportation Development Fees. The goal of the Traffic Improvement Fee is to relieve arterial congestion, accommodate planned growth, and implement specific programs. Traffic Improvement Fee monies are appropriated in the Capital Projects Fund.

Transactions and Use Tax (Measure A): additional sales tax added for transactions on the sale of all tangible personal property sold at retail in the City for a 10-year period starting in January of 2017.

Transportation Development Act: The Transportation Development Act TDA SB-821 of 1971, the law provides funding to be allocated to transit and non-transit related purposes that comply with regional transportation plans. Funding comes from sales tax receipts as specified in the California Streets and Highways Code.

Transportation Fund: The fund designation which accounts for revenues and expenditures applicable to the City's share of an additional one and a half percent sales tax. The tax is collected by the County

of Los Angeles to finance transportation projects: Propositions A, 1B, C, and Measure R.

TSM-State Grant: Traffic System Management funds administered by the California Department of Transportation (Caltrans) for traffic-related improvements. Receipt of the grant funds is contingent upon Caltrans's approval of the proposed projects.

Upland Oil Revenue Fund: An oil fund used to account for proceeds from oil operations north of the mean high tide in Long Beach, oil fields of working interest of Signal Hill east and west, and Recreation Park on the north side of 7th Street and Marine Stadium. Revenues are used to spur investment opportunities in one-time capital improvements, budget requirements, and essential needs. The Upland Oil fund will allow for important contributions to public safety, infrastructure, libraries, parks, recreation, and technology.

Urban Area Security Initiative (UASI): A grant awarded by the U.S. Department of Homeland Security to the City of Long Beach to fund planning, equipment, training, and personnel costs associated with the protection of critical infrastructure in and around the Long Beach Urban Area.

Water Fund: The fund designation used to account for revenues and expenditures used to meet the water needs of the citizens of Long Beach with a dependable supply of high-quality water at a reasonable cost. The major sources of revenue include a volumetric charge for water used by customers and a service charge based on the size of the customer's water meter. The Water Fund is an Enterprise Fund. See Enterprise Fund.

West Long Beach Business Park Assessment District: The assessment district established to fund various street improvements in the West Long Beach area. See Assessment District.
