CITY OF SAN DIEGO
FISCAL YEAR
2008 ANNUAL
BUDGET

Introduction

Capital Improvements Program Fiscal Year 2008 Summary

The Capital Improvements Program (CIP) budget supports construction projects, such as the development of park land, the construction of sewer pump plants, the acquisition of land for City use, the installation of traffic signals or street lighting systems, and the construction and remodeling of City facilities. These funds are derived from various sources, including sewer and water fees, a one half-cent local sales tax for transportation improvements (TransNet), development impact fees, and State and federal grants. The issuance of bonds is typically made for large and costly projects such as sewer treatment plants and pump stations.

The Fiscal Year 2008 Annual CIP Budget totals \$491.6 million. This is an increase of \$197.9 million or 67.4 percent from the Fiscal Year 2007 Annual CIP Budget of \$293.7 million. The increase in the Fiscal Year 2008 Annual CIP Budget is primarily due to an increase in water and sewer projects, which will fund State and federal mandates as well as other project needs. On February 26, 2007, the City Council approved water and sewer rate increases. The water rates will increase 6.5 percent in fiscal years 2008-2011. Sewer rates will increase 8.75 percent in May 2007, 8.75 percent in May 2008, 7 percent in May 2009, and 7 percent in May 2010. The revenues generated from these rate increases are projected to fund \$585.0 million worth of water and sewer projects over this period of time.

A second large increase to the total capital budget is due to the addition of \$10.0 million of new funding budgeted in CIP projects to meet the requirements for the Americans with Disabilities Act (ADA). ADA improvement projects may include architectural barrier removal (i.e., curb cuts), facility retrofitting, and sidewalk improvements.

Overview of the Fiscal Year 2008 Annual CIP Budget

The following chart and table show the total Fiscal Year 2008 Annual CIP Budget by department. The CIP Budget identifies \$4.3 billion in total projected CIP project costs through Fiscal Year 2018. In the Fiscal Year 2008 Annual CIP Budget, water and sewer projects account for 50.1 percent of the budget while Park and Recreation projects account for 6.2 percent of the total.

Capital Improvements Program

Fiscal Year 2008 Summary

The significant increases in the Fiscal Year 2008 Annual CIP Budget are in the Metropolitan Wastewater and Water Departments for water and sewer projects. The CIP budget is lower in Fiscal Year 2008 for the Engineering and Capital Projects Department since there is less grant funding of approximately \$26.1 million from Highways and Bridge Replacement and Congestion Mitigation and Air Quality grants. A reduction in Library Department projects is due to the City's inability to enter the public bond market as of the end of Fiscal Year 2007.

Fiscal Year 2008 Annual CIP Budget by Department Compared to Fiscal Year 2007

Department	FY 2007	FY 2008 FINAL	CHANGE BETWEEN FY07 - FY08
City Planning and Community Investment ⁽¹⁾	\$ 3,226,326	\$ 3,233,949	\$ 7,623
Development Services	\$ -	\$ 150,000	\$ 150,000
Engineering and Capital Projects	\$ 139,953,148	\$ 134,533,162	\$ (5,419,986)
Environmental Services	\$ 6,457,000	\$ 5,823,000	\$ (634,000)
Fire-Rescue	\$ 9,519,291	\$ 4,776,346	\$ (4,742,945)
General Services	\$ 1,950,000	\$ 44,020,774	\$ 42,070,774
Library	\$ 30,277,092	\$ -	\$ (30,277,092)
Metropolitan Wastewater	\$ 39,520,884	\$ 100,678,956	\$ 61,158,072
Office of the Chief Information Officer	\$ 1,250,000	\$ 19,624,548	\$ 18,374,548
Park and Recreation	\$ 28,715,645	\$ 30,670,251	\$ 1,954,606
Police	\$ -	\$ -	\$ -
Real Estate Assets ⁽²⁾	\$ 1,750,000	\$ 2,550,000	\$ 800,000
Water	<u>\$ 31,052,107</u>	<u>\$ 145,575,252</u>	<u>\$ 114,523,145</u>
TOTAL	\$ 293,671,493	\$ 491,636,238	\$ 197,964,745

⁽¹⁾ As a result of restructuring, the Fiscal Year 2007 CIP Budget for Community and Economic Development is now under the City Planning and Community Investments Department.

⁽²⁾ The budget for the Airports Division of the Real Estate Assets Department was included as part of the General Services Department's CIP budget in Fiscal Year 2007. In addition, QUALCOMM Stadium is now part of the Real Estate Assets Department.

Capital Improvements Program Fiscal Year 2008 Summary

Highlights of the Fiscal Year 2008 Annual CIP Budget by Department

For additional information on budgeted capital projects, please refer to the individual department sections in Volume III of the Fiscal Year 2008 Annual Budget.

City Planning and Community Investments

The Department's Fiscal Year 2008 Annual CIP Budget is \$3.2 million. Downtown parking projects account for \$1.5 million.

Engineering and Capital Projects

The Department's Fiscal Year 2008 Annual CIP Budget is \$134.5 million. This includes \$58.6 million from the Undergrounding Surcharge Fund. These funds are used in part for the utilities undergrounding of new projects, for underground conversion projects to augment the California Public Utilities Commission Rule 20A, and for projects that affect City-owned street lighting and resurfacing of roadways associated with the undergrounding of utilities. Other significant allocations of the Department's CIP budget include:

- \$7.7 million for improvements to the Palm Avenue/Interstate 805 Interchange
- \$6.0 million for Camino del Sur – Carmel Mountain Road
- \$4.5 million for Carroll Canyon Road – Sorrento Valley Road to Scranton Road

Environmental Services

The Department's Fiscal Year 2008 Annual CIP Budget is \$5.8 million. Overall, this budget has decreased \$634,000 from Fiscal Year 2007. The net decrease is related to a decrease of \$2.0 million in the West Miramar Phase II project due to the anticipated completion of the last module at the Miramar Landfill, an increase of \$916,000 in the Underground Hazardous Materials Storage Tanks project, and an increase of \$450,000 in the Citywide Energy Improvements project.

Fire-Rescue

The Department's Fiscal Year 2008 Annual CIP Budget is \$4.8 million. Projects funded in Fiscal Year 2008 include:

- \$4.0 million for Fire Station 47, which serves the Pacific Highlands Ranch community, funded by Facilities Benefit Assessments
- \$750,000 for a new fire station that will serve the Otay Mesa and Otay Mesa/Nestor communities funded by the Facilities Benefit Assessment

The Fire and Life Safety Services Facility Improvement Program, approved by Ordinance O-19054 and Resolution R-296359 in April 2002, is currently unfunded and is contingent upon the City's ability to enter the bond market. The remaining project costs are currently estimated at \$92.0 million, of which \$61.0 million is for fire projects and \$31.0 million is for lifeguard projects. For many of these projects, only planning and other preliminary activities have been performed to date. The total project cost for each fire and lifeguard facility will be revised and the schedule for design and construction will be established once the scope of work is approved and bonds are approved for issuance.

Capital Improvements Program

Fiscal Year 2008 Summary

General Services

The Department's Fiscal Year 2008 Annual CIP Budget is \$44.0 million. The significant allocations are listed below and the remaining budget is programmed for streets and drainage improvements.

- \$24.7 for deferred maintenance, including street resurfacing, storm drain repair and sidewalk repair
- \$12.3 million for ADA improvements
- \$5.3 million for City facilities improvements, including roof replacements and air conditioning and heating upgrades and replacements

Metropolitan Wastewater

The Department's Fiscal Year 2008 Annual CIP Budget is \$100.7 million. The funding for sewer projects is provided by private financing and the sewer rate increase. The Department's CIP budget includes the execution of Federal Consent Decree projects. The major projects for Fiscal Year 2008 include:

- \$42.4 million for pipeline repair, replacement, and rehabilitation
- \$19.8 million for repair and upgrade of pump stations
- \$18.6 million for replacement of trunk sewers
- \$7.6 million for repair and upgrade of treatment plants

Office of the CIO

The Department's Fiscal Year 2008 Annual CIP Budget is \$19.6 million. This allocation includes \$16.3 million for the Enterprise Resource Planning System (ERP) and \$3.3 million for the public safety communications project.

Park and Recreation

The Department's Fiscal Year 2008 Annual CIP Budget is \$30.7 million. Park and recreation projects are funded by a variety of sources, including Facilities Benefit Assessment Fees, Park Development Fees, Development Impact Fees, State and federal grants, and City funds. Projects for Fiscal Year 2008 include: play area upgrades, joint use fields, roof reconstruction, accessibility improvements, comfort stations, picnic shelters, Balboa Park and Mission Bay Park improvements, sports field and security lighting, and new park development.

Police

The Department has no new CIP project funding for Fiscal Year 2008. The construction of the Northwestern Area Station was completed in Fiscal Year 2007. The facility includes a police command and a light vehicle maintenance facility and will serve the northwest area of the City in Carmel Valley and adjacent community plan areas.

Water

The Department's Fiscal Year 2008 Annual CIP Budget is \$145.6 million and reflects the primary focus on the continued funding of the upgrade and expansion of the water system. The Department's CIP budget ensures a reliable water supply and includes projects contained in the Compliance Order from the California Department of Health Services. These projects

Capital Improvements Program

Fiscal Year 2008 Summary

will meet the requirements of the federal Safe Drinking Act and ensure the needed rehabilitation of aging infrastructure. The following are major projects for Fiscal Year 2008:

- \$44.6 million for the Miramar Water Treatment Plant
- \$31.2 million for Water Main Replacements
- \$19.2 million for the Otay Water Treatment Plant
- \$13.2 million for the Alvarado Water Treatment Plant Expansion
- \$5.8 million for the Rancho Peñasquitos Pump Station
- \$3.9 million for Security Upgrades

Future Outlook for the City's CIP

The Fiscal Year 2008 Annual CIP Budget increased by \$197.9 million or 67.4 percent over Fiscal Year 2007. In addition, the Mayor is committed to funding ADA improvements for City facilities and other infrastructure increasing the budget \$10 million over Fiscal Year 2007. An effort is currently underway to prioritize all CIP projects in order to use available funding to address the capital needs of communities within the City.

Capital Improvements Program Guide to the Budget

In order to showcase those projects that are funded and have work in progress, the Fiscal Year 2008 Annual Capital Improvements Program (CIP) Budget incorporates project pages for only those projects that have funding encumbered or expended, in continuing appropriations, or budget appropriations in the budget year. Because the CIP currently incorporates 11 fiscal years of data, there are many projects that are not scheduled to begin for several years. Many of these projects will undergo dramatic changes in scope before they begin, thus rendering schedule and cost data in the project pages obsolete. In addition, projects with no funding identified are listed in the departments' Unfunded Needs List.

CIP Schedule X shows a one-line summary of every current and future project, through Fiscal Year 2018, in the planned CIP. The projects are sorted by department and are shown in alphabetical order. Projects shown in bold have corresponding project pages, whereas those in regular font are future projects that will be published as funding is identified. This schedule reflects the entire capital budget and plan for expenditures, through Fiscal Year 2018, allowing for better prioritization of available resources.

Project Pages

The CIP project pages are designed to provide citizens and City officials with accurate and informative financial and logistical information for every CIP project currently in progress or scheduled for Fiscal Year 2008. A brief description of the components follows.

Department and Improvement Type

The department listed is the department contributing management resources toward the CIP project in conformance with Administrative Regulation 1.60. Each department's CIP may be broken down into improvement types. Improvement types are a more specific manner of categorizing the kinds of improvement offered by each capital improvement project. In the project pages, the improvement type is listed below the department name. In some cases, the improvement type may be the same as the department name. A few improvement types, such as Facilities, are used in several departments. Following is a list of improvement types found in the Fiscal Year 2008 Annual CIP Budget.

Improvement Types

Airports	Mission Bay
Balboa Park	Municipal Water
Bikeways	Other Parks
Centre City Development Corporation	Police
Communications	Police Decentralization
Community Services Program	QUALCOMM Stadium
Economic Development	Reclaimed Water
Energy Program	Refuse Disposal
Environmental Protection	Sewer - Metropolitan
Facilities	Sewer - Municipal
Fire	Storm Drains and Flood Control
Golf Course	Storm Water Program
Library	Streets and Bridges
Lifeguard Services	Traffic Control

Capital Improvements Program

Guide to the Budget

Project Number and Title

The first two digits of the CIP number represent the project type. The next digits represent the assigned project number.

Project Types

- 11 Storm Drains – Storm Drains
- 12 Flood Control – Flood Control
- 13 Flood Control – Annual Allocations
- 18 Storm Drains – Annual Allocations
- 20 Other Parks – Annual Allocations
- 21 Balboa Park
- 22 Mission Bay Park
- 25 Golf Course
- 29 Other Parks – Community Parks
- 31 Buildings and Land – Airports
- 32 Environmental Services – Refuse Disposal and Environmental Protection
- 33 Buildings and Land – Fire
- 34 Buildings and Land – Stadium
- 35 Buildings and Land – Libraries
- 36 Buildings and Land – Police
- 37 Buildings and Land – Miscellaneous Buildings
- 39 Building and Land – Economic Development and Redevelopment
- 40 Sewer – Mains and Trunk Sewers
- 41 Sewer – Pump Stations, Force Mains
- 42 Sewer – Treatment Plants, Labs and Disposal
- 44 Sewer – Existing
- 45 Sewer – Other
- 46 Sewer – Existing
- 52 Streets and Highways – Streets
- 53 Streets and Highways – Bridges
- 54 Streets and Highways – Pedestrian Bridges
- 58 Streets and Highways – Bikeways
- 59 Streets and Highways – Miscellaneous
- 61 Traffic Control – Street Lighting
- 62 Traffic Control – Traffic Signals
- 63 Traffic Control – Median Barriers, Miscellaneous
- 68 Traffic Control – Annual Allocations
- 70 Water – Mains and Transmission Pipelines
- 72 Water – Treatment/Filtration Plants
- 73 Water – Existing Facilities Improvements and Upgrades
- 74 Water – Storage, including Reservoirs and Standpipes
- 75 Water – Upgrades and Improvements to Other Water Facilities

Council District

This lists the City Council District (1-8) in which a project is located. Projects that have a Citywide impact or are outside the City limits are so noted.

Community Plan

This lists the affected Community Planning Area(s).

Description

This is a brief statement explaining the scope and boundaries of a project as well as defining its outcome in the surrounding neighborhood(s).

Justification

This explains why a project is needed and describes any legal requirements for the project including State or federal mandates.

Operating Budget Effect

This section describes any ongoing operating expenses anticipated upon completion of a project. An operating budget effect table may be included to provide more information. The table indicates the fiscal year of the impact; if the completion date of the project is unknown, the fiscal year will be listed as TBD (to be determined). Operating budget effects are displayed in three categories in the table: operating costs are the expenses for operating the building, facility, or park once it is opened; maintenance costs are the expenses for maintaining the new project, usually a building or facility; and other department are other expenses associated with the project that are not related to operating or maintaining the facility. Staffing refers to the number of full-time equivalent (FTE) positions required to operate and/or maintain the facility. The personnel expense (PE) represents the cost of positions or other personnel expense and the non-personnel expense (NPE) represents other costs associated with ongoing operations and maintenance. The operating budget effect table shows the estimated net impact of the new facility on the operating budget, since many projects involve upgrades to or expansions of existing facilities.

Relationship to General and Community Plans

This indicates whether a project is consistent with the affected community plans and is in conformance with the City's Progress Guide and General Plan. Additional information can be found in the Community Planning section.

Scheduling

This section provides the anticipated project schedule and includes the year(s) when design, construction, and other phases are expected to begin.

Summary of Project Changes

This provides a comparison between the Annual Fiscal Year 2007 Budget and the Fiscal Year 2008 Annual Budget. Changes may have resulted from modifications to the project scope, City Council action (resolutions and/or ordinances), changes to a community's Public Facilities Financing Plan, updated total project cost estimates, and/or revised revenue sources.

Expenditures by Revenue Source

This table lists the amounts and sources of funding (revenue sources) for the project through Fiscal Year 2018. Not all projects will have funding for the entire projected time. Descriptions of common funding sources can be found in the Revenue Sources section.

Capital Improvements Program Guide to the Budget

Total Estimated Project Cost

Projects typically extend beyond a given fiscal year. The 11-year CIP presents the total estimated project cost since project inception, including expenditures, encumbrances, continuing appropriations, Fiscal Year 2008 Annual Budget and projections of expenses in outlying years. Any project that was initiated prior to the current fiscal year will have expenditures, encumbrances, and/or continuing appropriations. These projects may be budgeted for additional funding in Fiscal Year 2008 as well as in outlying years, depending upon project scheduling. Any project budgeted to begin during Fiscal Year 2008 will have a budget for that year as well as any outlying years, depending upon project scheduling. The total estimated project cost for annual allocation projects only includes the current budgeted year.

Expended and Encumbered - Projects initiated prior to Fiscal Year 2008 typically have costs and encumbrances. This is shown on the project page as Expended and Encumbered and includes all funds that have been expended in the project as well as any contractual or other obligations shown as encumbrances. Expended and encumbered is a cumulative amount since project inception.

Continuing Appropriations - Appropriated funding approved in a prior year budget or by Council mid-year but not yet expended are reflected as continuing appropriation amounts. Continuing appropriations are a cumulative amount of unexpended and unencumbered appropriation since project inception. Approved funds for annual allocation projects that are not expended revert to fund balance in accordance with the annual appropriation ordinance.

Fiscal Year 2008 Annual Budget - The Fiscal Year 2008 Annual Budget is the programmed expenditure for the project for the upcoming budget year. This budget amount is included in the annual appropriation ordinance, which gives the City the authority to expend from that capital improvement project. The annual appropriation ordinance also provides guidance regarding the administration of the CIP during the course of the fiscal year. Modifications to the Annual Fiscal Year 2008 CIP Budget may occur during the course of the fiscal year through City Council action.

Outlying Fiscal Year Projected Cost Estimate - Projects that extend beyond Fiscal Year 2018 are projected based on project scheduling and funding availability. The City is not legally bound to any projections made in Fiscal Years 2009-2018 because they are not contained within the annual appropriation ordinance. Revisions and refinements of project scope, cost estimates, scheduling, and funding will affect the outlying year projections.

Capital Project Funding

In addition to traditional project funding, annual allocations, phased funding, and split funding methods are used in the CIP.

Annual Allocation - Annual allocations are programmed expenditures that allow the City to better plan for the expansion, renovation, relocation or replacement of facilities and equipment that have reached or exceeded their anticipated service life, provide for

Capital Improvements Program Guide to the Budget

emergency and accelerated construction needs, and provide for capital improvement project contingency needs. Annual allocations have many component tasks which are typically completed on an annual basis. Funding in annual allocation projects does not carry forward from year-to-year. Any amount not allocated to a component task is returned to the contributing fund. This type of financial planning has allowed the City to better address State and federal standards, such as those found within the Clean Drinking Water Act, as well as provide for implementation of City Council policies, such as traffic light and streetlight construction and replacement.

Phased Funding - Phased funding is a means by which large projects may be budgeted, appropriated, and contracted for in an efficient manner that maximizes the City's use of available funds. This method of funding allows the contract or project to be broken down into clearly defined portions, or phases, to fund on a contingent basis. A single large project may be considered as a series of component tasks and contracted for by phase, making pursuit of each phase contingent on the availability of funds.

Split Funding - Split funding is a method by which two different revenue sources are used to fund a capital project on a percentage basis. This approach is most commonly used in the Water, Metropolitan Wastewater, and Real Estate Assets - Airports to differentiate revenue sources that are frequently used for projects within these programs.

Work Codes

Work codes are required in all projects, except annual allocations, to identify the type of expenditure.

- A Apparatus, including fire engines and trucks
- C Construction costs, including construction, demolition, and project management
- D Design, including environmental analysis, project engineering and related costs
- F Furnishings for a completed new facility, such as furniture, modular equipment
- L Land acquisition
- M Mitigation for impacts to construction site
- P Preliminary design for a project prior to initial construction
- R Reimbursement to various entities or funds
- B Library books for proposed branch libraries
- T Telecommunications equipment such as telephones, computers, IT infrastructure
- S Reserve payments for future
- I Interest payments
- Y Debt payment for financed projects

Contact Information

This lists the contact person for the project including name, email address, and phone number. If a specific person has not been identified in connection with a project, a generic contact name is provided instead.

Capital Improvements Program Guide to the Budget

Unfunded Needs List

The Unfunded Needs List for each department provides a concise list of projects that are partially funded or not funded in the Fiscal Year 2008 Annual Budget. This list provides the project number, title, amount of funding required for the project to be initiated in Fiscal Years 2008 and 2009, and amount of funding required for the project to continue or be completed in Fiscal Years 2010 through 2018. If a project has a project sheet and also appears in the Unfunded Needs List, the amount of funding required will match the Unidentified Funding line in the Expenditures by Revenue Source table on the project page.

Financial Summaries - Schedules

The schedules summarize the funding sources and spending areas of the CIP. These are presented in the Financial Summaries - Schedules section.

Schedule VIII: Capital Improvements Program by Revenue Source

This schedule displays expended and/or encumbered funds, continuing appropriations, this fiscal year's budget, and ten years of projected expenditures by the revenue sources utilized.

Schedule IX: Capital Improvements Program by Improvement Type

This schedule displays expended and/or encumbered funds, continuing appropriations, this fiscal year's budget, and ten years of projected expenditures by department and improvement type.

Schedule X: Capital Improvement Project by Department

This schedule displays all projects that have expended/encumbered, continuing appropriations, or budgets in any fiscal year from 2008 to 2018. Projects are ordered by department and alphabetically by project title. Projects in bold have a project page. For specific project pages, refer to the Index by Number or Index by Project Title.

Capital Improvements Program Revenue Sources

The Capital Improvements Program (CIP) uses a variety of revenue sources to fund projects. This section outlines some of the more common revenue sources used in the Fiscal Year 2008 Annual CIP Budget. The CIP revenue source codes used in the project pages are listed at the end of this section.

Capital Outlay

The Capital Outlay Funds are used exclusively for the acquisition, construction and completion of permanent public improvements, replacement or reconstruction of public facilities, including buildings, real property, and other improvements of a permanent character. Repair or maintenance expenditures cannot be made from the Capital Outlay Funds. Revenue for the Capital Outlay Funds is derived primarily from Sales Tax but may also come from other sources per Section 77 of the San Diego City Charter.

City General Fund

Some allocations to the CIP budget are budgeted within the operating budget of General Fund departments.

Community Development Block Grants (CDBG)

Community Development Block Grant (CDBG) funding is programmed in accordance with Council Policy 700-2 (approved August 15, 1983). Capital Improvements Program priorities are developed irrespective of CDBG funding to be received by the City. CDBG funding is to be used to supplement the City's CIP program and not as a substitute for other City funding. Only projects with approved CDBG funding are submitted for inclusion in the CIP budget.

In addition, certain projects have allocations of Housing and Urban Development Section 108 loan funding. These loans are received during the fiscal year, and they are paid back in anticipation of future Community Development Block Grant receipts.

Development Impact Fees (DIF)

Within urbanized communities that are near buildout, Development Impact Fees (DIF) are collected to mitigate the impact of new development through provision of a portion of the financing needed for identified public facilities and to maintain existing levels of service for that community. Development Impact Fees levied in Planned Urbanizing Areas are known as Planned Urbanizing Development Impact Fees (PDIF).

Enterprise Funds

Enterprise Funds account for specific services that are funded directly by fees and charges to users. These include the services provided by the Water and Metropolitan Wastewater Departments, Development Services, Environmental Services, Airports, and Golf Course operations. Typically these funds are intended to be fully self-supporting and are not subsidized by any general revenue or taxes. Within each Enterprise Fund, budgets are developed which are sufficient to fund current year operations and maintenance expenses, as well as provide for current and future years' upgrade, replacement and expansion-related capital construction requirements.

Enterprise Fund budgets typically provide for the accumulation of revenues over several years to fund major capital projects or stabilize fees and charges. Current and anticipated user

Capital Improvements Program Revenue Sources

charges and other revenue streams are analyzed to determine whether they are sufficient to meet proposed funding requirements; if not, adjustments are required. Adjustments may take the form of rate increases, changes in anticipated use of debt, operating budget reductions and/or capital budget reductions or rescheduling.

Facilities Benefit Assessment

A Facilities Benefit Assessment (FBA) provides 100 percent of funds for public facilities projects that service a designated area of benefit and are identified in the Public Facilities Financing Plan (PFFP). The dollar amount of the assessment is based upon the cost of each public facility equitably distributed over a designated area of benefit in the community planning area. Liens are recorded with the County Assessor's Office.

At the time of building permit issuance, property being developed is assessed an amount determined by the type and size of the development for the permit to be issued. Monies collected are placed in a City revenue account, used solely for those major public facilities shown in the financing plan for the area of benefit. The same timing for collection of fees applies to both Facilities Benefit Assessments and to Development Impact Fees.

Gas Tax

The Gas Tax Fund is the result of a combination of laws that tax the use of gasoline. The current total tax on fuel is .18 cents per gallon. The City of San Diego's share of Gas Tax revenue is based on a formula using vehicle registration, assessed valuation, and population. The funding generated is used to perform citywide repairs and restoration to existing roadways, reduce congestion, improve safety and provide for the construction of needed facilities within the public rights-of-way.

Grants and Reimbursements

Some projects are totally or partially funded by grants and reimbursements from the federal and state government and other agencies. The receipts of certain grants and reimbursements follow the award of contracts; City funding is programmed for front-end financing of the total costs. Grant funding includes state and federal grants and grants from proceeds from state bond issuances. Specific grant sources of funding include: Congestion Mitigation Air Quality (CMAQ), Highway Bridge Replacement and Repair (HBRR), State and Local Partnership (S/L), Surface Transportation Program (STP), Proposition 14/State Library Bond Act, and other granting opportunities.

Infrastructure Improvement Fund

The Infrastructure Improvement Fund was allocated to the Mayor and eight Council Districts as part of the Annual Fiscal Year 2002 Budget. Funding is appropriated in various capital improvement projects for the purpose of funding capital improvements and major maintenance of streetlights, sidewalks, traffic signals, libraries, parks and recreation facilities, and roadways or other purposes as identified by the Mayor or individual Council District.

Private Contributions and Donations

Other projects may be funded by contributions and/or donations from private sources, such as residents, developers, private organizations, businesses, and others. Occasionally, contributions by developers and vendors may be reimbursed by City funds in future years.

Public/Private Partnerships

In addition, the City has an established donation matching funds program in the Park and Recreation Department that encourages the private sector to match City contributions to various capital improvement projects.

QUALCOMM Stadium

QUALCOMM Stadium, built in 1967, has hosted many entertainment and sporting events. The Stadium Operating Fund is based on receipts from these events.

Storm Drain

Storm Drain fees were implemented by the City of San Diego in 1990 and are included in the water and sewer utility bills. The revenue collected is expended for operation and maintenance of storm drains, construction of capital projects and the general management of the storm drain system, including monitoring the system for silt, toxic material and related pollutants.

Transient Occupancy Tax

Transient Occupancy Tax (TOT) is a tax levied on the hotel/motel room rent of visitors staying in San Diego for less than one month. A one and one-half cent rate increase became effective in August 1994, which increased the TOT rate to ten and one-half percent. The equivalent of five and one-half of the ten and one-half cents of TOT collected is allocated directly to the General Fund for general government-related purposes. An amount equivalent to five cents of TOT is allocated for various promotional and other purposes, as designated by the Municipal Code, through the Special Promotional Programs budget. Eligible organizations may submit TOT funding requests annually.

TransNet

Passed by voters in 1987, Proposition A (known as the San Diego Transportation Improvement Act, or “TransNet”) stipulates that one-half cent of the seven and three-fourths cent tax on each dollar of a purchase goes to countywide transportation and service improvements. The transportation tax expires in 2008. In November 2004, voters approved TransNet Extension which will continue the one-half cent sales tax through 2048. The ordinance regulating Proposition A includes a Maintenance of Effort Provision (MOE) to guarantee that the City spends a certain amount of discretionary funds on the maintenance and improvement of the public right-of-way.

The City utilizes TransNet cash for projects as much as possible in an attempt to minimize the issuance of bonds due to the high costs associated with debt service. In an attempt to further minimize debt service costs, the issuance of TransNet Commercial Paper is utilized when feasible. TransNet Commercial Paper is a borrowing tool used to raise cash needed to cover cash-flow deficits and is generally viewed as a lower-cost alternative to bank loans. TransNet Commercial Paper funding gives the City an opportunity to build projects and make improvements now versus waiting until sufficient cash is accumulated.

This also allows the City to build projects at current costs rather than escalated costs in the future. Because TransNet funding is projected to be available in future years, the issuance of TransNet Commercial Paper will not negatively impact other transportation projects.

Capital Improvements Program

Revenue Sources

TransNet Infrastructure Fund

The TransNet Infrastructure Fund was allocated to the Mayor and eight Council Districts as a result of the Fiscal Year 2003 Budget Deliberations. Funding is appropriated in various capital improvement projects for the purpose of funding capital improvements and major maintenance of streetlights, sidewalks, traffic signals, and roadways or other TransNet-eligible projects as identified by the Mayor or individual Council District.

TransNet – Other Funding

Some TransNet funding is restricted to specific uses. Some of the restricted funding is used for projects involving bikeways, the Walkable Communities Demonstration Program, older communities, and livable neighborhoods.

Unidentified Funding

Some projects may have funding identified for the budget fiscal year but none identified in the outlying fiscal years. These projects display an “unidentified funding” revenue source in the project pages. Each project with an unidentified amount is summarized in each department’s Unfunded Needs List.

Revenue Source Codes

The Expenditures by Revenue Source Table on each project page uses a coding system to identify funding and revenue sources. This table provides a brief description of each source and detail tag.

The City's Progress Guide and General Plan

Planning is critical to assist a city in its evolution, as well as to protect the health, safety, and welfare of its residents. Recognizing this, the State of California requires each city to have a General Plan to guide its future and mandates through the Government Code that the plan be periodically updated to ensure relevance and utility. In 1979, the City Council adopted the most recent Progress Guide and General Plan, with its basic goal of the “fostering of a physical environment in San Diego that will be most congenial to healthy human development.” The plan establishes an encompassing framework of policies that address Citywide issues of growth management and development, and offers a comprehensive strategy for major public concerns including housing, redevelopment, land conservation, parks, streets, libraries, public safety, and other public facilities.

In 1990 the “Guidelines for Future Development” were adopted as a new chapter of the Progress Guide and General Plan. This chapter established a “tier system” of growth management that primarily guided the development of new communities on vacant land and established redevelopment and reinvestment goals in the older, urbanized communities.

Community Plans

The City's community plans contain additional detailed planning guidance, and represent the Land Use Element of the Progress Guide and General Plan. Community plans establish specific recommendations and objectives in a given community for future land uses and public improvements. The community plan provides a long range physical development guideline for elected officials and citizens engaged in community development. Citizen involvement has been a long-standing concept in the City of San Diego. In the 1960s and 1970s, the City Council adopted policies that established and recognized community planning groups as formal mechanisms for community input in the decision making processes. Community planning groups provide citizens with an opportunity for involvement in advising the City Council, the Planning Commission, and other decision makers on development projects, community plan amendments, rezoning projects, and public facilities. The recommendations of the planning groups are integral components of the planning process, and are highly regarded by the City Council and staff.

The general and community plans are policy documents, which require regulatory tools and programs to help implement their goals and standards. The implementation tools for planning documents include the Municipal Code, the Multiple Species Conservation Program (MSCP), zoning, Neighborhood Code Compliance, facilities financing plans, and redevelopment plans. These regulations and programs help guide land use, development, and design.

The City of Villages and Strategic Framework Element

The Strategic Framework Element proposes a “City of Villages” strategy. The draft Strategic Framework Element is intended to replace the 1990 Guidelines for Future Development and to guide the update of the 1979 Progress Guide and General Plan as well as the City's community plans. The 1990 guidelines primarily addressed the development of vacant land and were largely successful in ensuring that new communities were built with adequate public facilities. However, the guidelines did not focus on an implementation program to provide public facilities upgrades concurrent with infill growth in the older communities. The guidelines are now largely out of date given that less than ten percent of the City's

Capital Improvements Program Community Planning

developable, vacant land remains, and new strategies are needed to address existing public facilities shortfalls and growth pressures. The draft Strategic Framework Element provides a new approach on how to meet housing and employment needs and to preserve and enhance San Diego's existing neighborhoods.

Through over a decade of public meetings focused on the future of San Diego and more than 150 public meetings held specifically to gather input to help formulate the vision and values incorporated in the Strategic Framework Element. The City of Villages is the strategy embodied in the draft element. This new chapter of the General Plan would set the City's long-term policy for growth and development. It calls for growth to occur in compact, mixed-use centers linked by transit. It encourages high quality, infill development to enhance existing neighborhoods and meet future needs.

The term "village" is defined as a community-oriented center where residential, commercial, employment and civic/education uses are integrated. Villages are intended to be unique to the community, pedestrian-friendly, and have elements to promote neighborhood or civic gatherings. The land use mix includes public spaces and a variety of housing types and densities. Villages would require upgraded public facilities and amenities to meet community needs. Increased transit services are essential in order to meet mobility goals. The element includes a City of Villages map that identifies a hierarchy of villages to be located throughout the City. Village categories include: Downtown San Diego, Subregional Districts, Urban Village Centers, Neighborhood Village Centers, and Transit Corridors.

The Strategic Framework Element would be accompanied by a Five-Year Action Plan. The Action Plan is the implementation program for updating the General Plan and executing the City of Villages growth strategy. In addition, three pilot villages will be selected to demonstrate how the City of Villages can be realized. A major challenge to implementing the plan will be to secure new financing sources to pay for needed public facilities in the older, urbanized communities.

CIP Conformance to the City's Progress Guide and General Plan and Community Plans

The vast majority of capital improvement projects are consistent with the relevant community plan(s) and public facilities financing plans. Most projects are also in conformance with the City's Progress Guide and General Plan of 1979. Those few projects that are not consistent with the relevant community plan(s) or the City's Progress Guide and General Plan will include a community plan amendment as part of the approval process.

The following maps show the community planning areas and Council Districts.

Community Planning Areas and Policing Neighborhoods

The City of San Diego has several neighborhood policing areas. Each community planning area consists of one or more neighborhoods under a Police Service Area. The following list shows the neighborhoods sorted by community planning area. Some policing neighborhoods extend beyond a single community planning area; in these cases, the neighborhood is listed more than once.

Department Capital Improvement Projects

City Planning and Community Investment

City Planning and Community Investment
Centre City Development Corporation
Annual Allocation - Downtown Parking Projects 39-803.0
Community Plan: Centre City

Council District: 2, 8

Description: This project provides funding to implement and facilitate projects and programs to maximize the use of existing parking resources. Parking management projects and programs include design and implementation of a "Wayfinding" program throughout downtown, implementation of residential parking permits, and payment of debt service. These projects have also been pledged for the payment of 6th and Market and 6th and K parking facilities.

Justification: The Redevelopment Plan of the Centre City Redevelopment Area calls for the elimination of blight in Centre City. The Redevelopment Plan was adopted on May 11, 1992, by Ordinance O-17767. The Parking Meter Revenue Allocation Policy (100-18) was adopted on March 4, 1997, and the Comprehensive Downtown Parking Plan was adopted on December 2, 1997.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Centre City Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Debt service payments on bonds are made in March and September.

Summary of Project Changes: The annual allocation for downtown parking projects is \$1,500,000 for Fiscal Year 2008. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Community Services Program

Cortez Hill Family Center 37-013.0

Council District: 2

Community Plan: Centre City

Description: This facility provides short-term transitional housing for homeless families.

Justification: The Cortez Hill Family Center project will provide year-round, short-term transitional housing for homeless families.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Centre City Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction of Phase 1 began in Fiscal Year 2002. Phase 2, which involves only construction will continue through Fiscal Year 2008, under the direction of the Centre City Development Corporation.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

25th Street Walkable Community Demonstration Project 39-236.0
Community Plan: Southeastern San Diego, Greater
Golden Hill

Council District: 8

Description: This project provides for public streetscape improvements on 25th Street from G Street in Golden Hill to Commercial Avenue in Sherman Heights. These improvements will slow down traffic, increase off-street parking, improve pedestrian safety and enhance the walkability of this main thoroughfare.

Justification: These public improvements will mitigate the negative effects of vehicular traffic and provide a more walkable streetscape.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Greater Golden Hill and Southeastern San Diego community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Project design was completed in Fiscal Year 2002, and construction for Phase I was completed in Fiscal Year 2003. Future phases are contingent upon identification of funding.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

Adams Avenue - Streetscape Improvements 39-205.0

Council District: 3

Community Plan: Greater North Park, Mid-City

Description: This project provides for public improvements such as sidewalk, curb, and gutter replacement along Adams Avenue. The improvements are part of other revitalization activities on Adams Avenue, where four demonstration projects have been completed.

Justification: The Adams Avenue Revitalization Project has been a part of the Mid-City Commercial Revitalization Program and was completed in phases. This project will continue the approved design concept on additional commercial blocks in the Normal Heights and Kensington-Talmadge areas.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Greater North Park and Mid-City Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Urban Forestry tree planting was completed in Fiscal Year 1997. The improvements between Interstate 805 and 33rd Street began in Fiscal Year 1996 and was completed phases. Construction on Adams Avenue between Interstate 805 and Wilson Avenue took place during Fiscal Year 2004. Construction between Texas and 30th Streets was completed in Fiscal Year 2007. Future projects will be phased in based on community priorities.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

Annual Allocation - Removal of Architectural Barriers - CDBG Funded 39-217.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for removal of architectural barriers that prevent access by persons with disabilities to City facilities, programs, and services.

Justification: The City is required by the federal Americans with Disabilities Act (ADA) to make its facilities, programs and services accessible to persons with disabilities. Several City facilities are identified annually to be brought into compliance with the ADA.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis according to the adopted City of San Diego's 1997 Federally Mandated Americans with Disabilities Act Transition Plan.

Border Infrastructure Study (SB 207) 39-235.0

Council District: 8

Community Plan: Otay Mesa

Description: The project provides for a vision and an implementation strategy for infrastructure development in Otay Mesa. This is the first phase in establishing a Border Development Zone (a 30-year designation) as authorized by State legislation (SB 207). The study will identify the needed public infrastructure to enhance economic development along the U.S./Mexico border.

Justification: The study will identify the public infrastructure needed to support future industrial development in Otay Mesa. This is the first and necessary step in creating an infrastructure financing plan.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The study began in Fiscal Year 2001 and will coincide with changes to the community plan. Future phases are contingent upon identification of funding.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

City Heights/University Avenue - Streetscape Improvements 39-210.0
Community Plan: Mid-City

Council District: 3

Description: This project provides for public improvements along University Avenue in City Heights.

Justification: Individual projects are important components of the Mid-City Commercial Revitalization Program and the City Heights Redevelopment Plan. The projects improve deteriorated infrastructure, provide visual enhancements and support commercial revitalization.

Operating Budget Effect: The operating budget effect will be determined upon completion of design of individual projects.

Relationship to General and Community Plans: This project is consistent with the Mid-City Communities Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Construction of Phase II from 50th Street to 54th Street was completed in Fiscal Year 1999. Construction improvements between Interstate 805 and Wilson Avenue were completed in Fiscal Year 2002. Construction of sidewalk and pedestrian ramp improvements at the 4500 block of University Avenue were completed in Fiscal Year 2006. Future phases are contingent upon identification of funding.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

El Cajon Boulevard Median Improvements 39-234.0

Council District: 7

Community Plan: College Area

Description: This project provides for median improvements on El Cajon Boulevard. Phase I provides for landscape improvements on El Cajon Boulevard between 54th Street and 73rd Street (the City boundary with La Mesa). It will replace substandard curbs and asphalt - surfaced raised medians with new curbs, and color stamped concrete. Phase II will install landscaping and irrigation. Enhancements may include street trees, shrubs, ground covers, automatic irrigation, enriched paving, signage and art work. The project also includes provisions for the installation of community area signs within the medians and a new traffic signal at the intersection of El Cajon Boulevard and Dayton Street.

Justification: Streetscape and landscape improvements on El Cajon Boulevard have been part of the commercial revitalization efforts of property owners, the business district and the City for more than ten years. The College Area Business Improvement District has adopted a Master Plan for their area that includes signage, public artwork, street trees, sidewalk replacements, enhanced paving, lighting and landscaping.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the College Area Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I construction is planned to begin upon identification of funds and establishment of maintenance district. Phase II is contingent upon identification of construction funds.

Summary of Project Changes: City Council Resolution 301825, dated August 8, 2006 authorized the transfer of \$160,000 in TransNet funds from CIP 68-010.0, Traffic Signals, to this project for the construction of a new traffic signal at the intersection of El Cajon Boulevard and Dayton Street. In addition, \$15,920 was contributed to the project by the College Area Economic Development Corporation for the community signs. The total project cost increased by \$2.6 million.

Hillcrest Streetscape Improvements - University Avenue and Normal Street 39-213.0

Council District: 3

Community Plan: Uptown

Description: This project provides for streetscape improvements in Hillcrest on University Avenue between Tenth Avenue and Park Boulevard and Normal Street between University Avenue and Washington Street. Improvements include medians, trees, landscape, automatic irrigation systems, enhanced paving, art work, and lighting.

Justification: This project is an important component of the Uptown Community Plan. The project will improve deteriorated infrastructure, provide visual enhancements and support commercial revitalization.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Uptown Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Construction of new sidewalk, curb and gutter between Vermont Street and Herbert Street on University Avenue was completed in Fiscal Year 2006.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

Linda Vista Community Center 39-085.0

Council District: 6

Community Plan: Linda Vista

Description: This project provides for acquisition and construction of the Linda Vista Community Center, including meeting rooms and office space for City services and community organizations.

Justification: This facility will serve as a community center in a low to moderate income community within a redevelopment project area.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Linda Vista Community Plan and Redevelopment Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: This project was changed to a community center and a different site was identified for acquisition. Land acquisition and construction are not scheduled at this time.

Summary of Project Changes: This project is being reconsidered for Fiscal Year 2008. A Request For Proposal is scheduled to be completed in Fiscal Year 2008 for development of the land.

Mid-City Transit Gateways 39-232.0

Council District: 3

Community Plan: Mid-City

Description: This project provides for streetscape enhancements on El Cajon Boulevard and University Avenue where they intersect with the State Route 15 freeway corridor. Streetscape enhancements will be added to the two freeway bridge overpasses where decks were built with pedestrian plaza areas. Improvements include trees and shrubs, public artwork, signage and bus shelters. The project also provides for median and sidewalk enhancements between Central Avenue and 43rd Street on El Cajon Boulevard. Improvements include trees, ground cover, automatic irrigation, enhanced paving and lighting. A traffic signal was installed at El Cajon Boulevard and Copeland Avenue to provide for increased safety.

Justification: This project enhances the commercial revitalization of El Cajon Boulevard and University Avenue near the State Route 15 freeway corridor.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project implements the Mid-City Communities Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design of Phase I, El Cajon Boulevard from Central Avenue to 43rd Street, began in Fiscal Year 2000. Construction began in Fiscal Year 2002 using continuing appropriations and was completed in Fiscal Year 2003. Phase II includes enhancement of the I-15 bridge decks on El Cajon Boulevard and University Avenue. Design of that phase began in Fiscal Year 2001. Construction began in Fiscal Year 2005 and was completed in Fiscal Year 2007.

Summary of Project Changes: This project received \$585,000 from Redevelopment and TransNet Funds in Fiscal Year 2007 per Resolution R-302235, adopted on December 8, 2006. The total project cost increased to \$5,774,000. This project is complete.

North Ocean Beach - Streetscape Enhancement 39-220.0

Council District: 2

Community Plan: Ocean Beach

Description: This project provides for streetscape improvements such as street trees, ornamental lighting, sidewalk repairs, bicycle facilities and signage. The first phase of improvements is focused on the area at and adjacent to the intersection of Sunset Cliffs Boulevard and West Point Loma Boulevard, one of the main entries into the Ocean Beach Community. Part of the North Ocean Beach Master Plan calls for widening Sunset Cliffs Boulevard, which is under CIP 52-698.0, Sunset Cliffs Boulevard Improvements, published under the Engineering and Capital Projects Department.

Justification: The North Ocean Beach entryway has been identified as a location for streetscape improvements by Council District Two and by the community. The goals are to increase safety and security, enhance the community image, and contribute positively to the commercial revitalization of the affected area.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Ocean Beach Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Development of a master plan was completed in Fiscal Year 1999. The Anthony's Pizza site, at the northwest corner of Sunset Cliffs and West Point Loma Boulevards, was acquired and street trees and other streetscape improvements were installed on Voltaire Street and Sunset Cliffs Boulevard in Fiscal Year 2000. A pedestrian plaza design was completed in Fiscal Year 2006 utilizing the Anthony's Pizza site under the management of the Park and Recreation Department. Environmental Documents are expected to be completed in Fiscal Year 2008. Future funding will be needed to complete construction of the plaza and pathways.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

North Park/University Avenue - Streetscape Improvements 39-207.0

Council District: 3

Community Plan: Greater North Park

Description: This project provides for neighborhood identification signage and public improvements along University Avenue and adjacent streets in North Park.

Justification: Public improvement and neighborhood identification are an important part of the revitalization project, which is a continuing effort to improve the economic base of the North Park community. This project will extend the existing demonstration block concept east and west of the completed phases at 30th Street and University Avenue.

Operating Budget Effect: Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project implements the Greater North Park Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Community sign construction was completed in Fiscal Year 1994. Construction of streetscape improvements on University Avenue west of 30th Street was completed in Fiscal Year 1998. The Gateway Project near Interstate 805 was completed in Fiscal Year 2000. Street trees were planted on University Avenue between Ohio Street and Interstate 805 in Fiscal Year 2001. Design of streetscape improvements between Idaho and Granada Streets were completed in Fiscal Year 2005 and is scheduled to be completed in Fiscal Year 2006. Construction will be scheduled upon indentification of funding.

Summary of Project Changes: The total project cost increased by \$60,000 due to inflation and construction cost escalation.

Ocean Beach Commercial Revitalization - Newport Avenue 39-013.0

Council District: 2

Community Plan: Ocean Beach

Description: This project provides for phased design and construction of drainage improvements, street grinding and resurfacing, installation of concrete gutters, additional surface drain inlets, enhanced crosswalks, curb pop-outs, hardscaping and tree planting along Newport Avenue from Sunset Cliffs Boulevard to Abbott Street.

Justification: The proposed improvements are necessary to satisfy the Americans with Disabilities Act (ADA) requirements by bringing the street surface areas up to standard. This project does not address bringing the area storm water system infrastructure up to standard, therefore, while some improvement may be observed with the surface drainage on Newport Avenue, elimination of flooding along Newport Avenue between Sunset Cliffs Boulevard and Abbott Street will not be achieved.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Ocean Beach Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Conceptual plans and initial cost estimates were completed in Fiscal Year 2003. Funds to complete the project are unidentified and the project will be phased as funding is secured. The initial phase was scheduled to include preparation of construction documents by the Engineering and Capital Projects Department and securing necessary permits.

Summary of Project Changes: This project received \$100,000 in CDBG funds in Fiscal Year 2007 as a result of City Council Action, R-301424 adopted on May 8, 2006.

Ray Street Improvements 39-084.0

Council District: 3

Community Plan: Greater North Park

Description: This project is on one block of Ray Street from University Avenue to North Park Way in the North Park Community. It provides for sidewalk, curb, and gutter replacement; trees and enhanced paving; street furniture; and identity signage.

Justification: This one-block area of Ray Street lies within the boundaries of the North Park Main Street Business Improvement District and the North Park Redevelopment Project Area. Due to the activism of the business owners on the street, this blighted area is being enhanced with facade improvements, a monthly gallery event and leasehold turnover consistent with the art-oriented theme of this small district. This project will add enhancements in the public right-of-way.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Greater North Park Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and installation of trees, grates, guards, benches, trash receptacles and signage began during Fiscal Year 2004 and was completed in Fiscal Year 2005. Future projects will be phased in based on community priorities as funding becomes available.

Summary of Project Changes: No significant changes have been made to this project Fiscal Year 2008.

Chollas Creek South Branch Phase One Implementation 37-446.0

Council District: 4, 8

Community Plan: Mid-City, Barrio Logan, Southeastern San Diego

Description: This project provides for the Chollas Creek Enhancement Program, which builds upon long-standing City Council adopted policies to create a greater level of design guidance for future development related to: wetland and upland restoration, channel reconstruction, trail systems and landscaping design, public art, an educational component and interpretive program, as well as long-term funding of improvements to the creek.

Justification: The Chollas Creek Enhancement Program began in the 1970s with the identification of the creek's potential and guidelines being added to several community plans. The creation of the Chollas Creek Enhancement Program puts various guidelines from the below mentioned community plans into one document for a better coordinated implementation. Long-term funding proposals relate to the six phases identified by the Enhancement Program with implementation to occur pursuant to funding availability.

Operating Budget Effect: The operating budget effect will be determined prior to the completion of each segment.

Relationship to General and Community Plans: This project is consistent with the Southeastern San Diego, Mid-City, and Barrio Logan Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The Chollas Creek Enhancement Program was approved by City Council on May 14, 2002 per Resolution R-296487. Implementation of the Phase I Pilot Projects is scheduled to be completed by December 2007. Implementation of subsequent phases will be conducted pursuant to funding availability.

Summary of Project Changes: This project was originally scheduled to be completed by December 2004 but will now be completed by December 2007 in order to complete additional improvements with available grant funding.

Multiple Species Conservation Program - Property Acquisition 37-443.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for acquiring property in support of the Multiple Species Conservation Program (MSCP).

Justification: The Multiple Species Conservation Program Implementing Agreement, Section 10(a), Take Authorization of the Endangered Species Act, mandates a statutory responsibility on the part of the City to assemble the MSCP preserve. This responsibility includes public land acquisition to be used for wildlife habitat.

Operating Budget Effect: The operating budget effect will be estimated as land is acquired.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Land acquisition began in Fiscal Year 2000 and will continue as funding becomes available.

Summary of Project Changes: This project has been extended to Fiscal Year 2018. The total project cost increased to \$2.1 million.

North Park Lighting Improvement Project 39-092.0

Council District: 3

Community Plan: Greater North Park

Description: This project provides for the installation of approximately 150 street lights within the boundaries of the North Park Maintenance Assessment District (MAD).

Justification: The North Park MAD was formed in 1996. The Assessment Engineer's report calls for the addition of approximately 150 new mid-block street lights and streetscape improvements.

Operating Budget Effect: The North Park MAD will provide for the maintenance and energy costs associated with the enhanced street lighting. Maintenance of the street lights is identified as an improvement in the North Park MAD Assessment Engineer's Report.

Relationship to General and Community Plans: This project is consistent with the Greater North Park Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Light installation began in Fiscal Year 2004 and will continue through Fiscal Year 2008.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

Annual Allocation - New Development 58-001.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for street and utility improvements along City-owned land and to reimburse an adjoining developer for installing such improvements.

Justification: The City is required to improve the right-of-way alongside its property, as must all property owners. The City Council may determine that it is more economical to have this work done by an adjoining developer rather than by a separate City contract.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the appropriate community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Scheduling is dependent upon the work program of the developer.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Bikeways

54th Street and Euclid Avenue Bike Lanes and Route 58-179.0

Community Plan: Southeastern San Diego, College Area

Council District: 4, 7

Description: This project provides for the installation of Class II Bike Lanes on 54th Street between Trojan and Euclid Avenues and for Class III Bike Route signage and pavement markings along Euclid Avenue between 54th Street and Market Street.

Justification: This project will close a gap in bicycle facilities between the College Area and Southeastern San Diego and its neighborhoods.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Southeastern and College Area Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2006. Construction was scheduled to begin in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Bikeways

Bayshore Bikeway 58-140.0

Council District: 8

Community Plan: Otay Mesa/Nestor

Description: This project provides for constructing a Class I bikeway from the northern end of 13th Street to Main Street at the Interstate 5 interchange at the southeast corner of San Diego Bay.

Justification: This project completes the missing segment of the planned bike path around San Diego Bay from Point Loma to Coronado.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa/Nestor Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2004 and was completed in Fiscal Year 2007. Construction is scheduled to begin in Fiscal Year 2008.

Summary of Project Changes: Funding has been revised to reflect the deletion of CMAQ funding from this project. The San Diego Association of Governments (SANDAG) has identified TransNet Major Corridor funds in the amount of \$3 million as replacement funding. This action was approved by the SANDAG Transportation Committee in July, 2007. It is anticipated that the TransNet Major Corridor funds will be received in Fiscal Year 2008; however, this amount is shown as unidentified funding until funds are received. TransNet Bikeway funding was moved from a non-CIP job order to this project in Fiscal Year 2007 per City Council Resolution R-302721, dated June 12, 2007, to consolidate funding and make the bikeway funds available for use in the CIP. With these actions, total estimated project cost is increased to \$4 million.

Beyer/East Beyer Boulevard Bikeway 58-182.0

Council District: 8

Community Plan: San Ysidro

Description: This project provides for the restriping of Beyer Boulevard to include bike lanes from Dairy Mart Road to Otay Mesa Boulevard/East Beyer Boulevard and a bike route on East Beyer Boulevard from Otay Mesa Road/Beyer Boulevard to the San Ysidro Trolley Station.

Justification: This project will provide a connection with the international border crossing through San Ysidro and connect to other proposed bikeway projects.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the San Ysidro Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction were scheduled to begin in Fiscal Year 2006. Construction was scheduled to be complete in Fiscal Year 2007 and has been rescheduled to Fiscal Year 2008.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Bicycle Safety and Commuting Education Program 58-167.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for a Bicycle Safety and Commuting Education Program. This program reaches out to school children, teachers, parents, law enforcement personnel and others through school workshops and hands-on training. This project is funded by SANDAG.

Justification: This project is needed to continue the Bicycle Safety and Commuting Education Program for another year.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase.

Relationship to General and Community Plans: This project is consistent with the affected Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: This program is scheduled to be complete in Fiscal Year 2008.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Camino del Rio North Bike Lanes 58-164.0

Council District: 6

Community Plan: Mission Valley

Description: This project provides for the widening of Camino Del Rio North from State Route 15 crossing to Mission City Parkway to accommodate new bike lanes.

Justification: This project is needed to complete the missing bike lane segment of Camino Del Rio North.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Mission Valley Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary engineering was scheduled in Fiscal Year 2003. Design and construction will be scheduled upon identification of funding.

Summary of Project Changes: It is proposed to reschedule design and construction upon identification of funding. Total project cost is estimated to be \$416,000; \$330,000 of this amount is unidentified.

Bikeways

Coastal Rail Trail 58-162.0

Council District: 1

Community Plan: Torrey Pines, University

Description: This project provides for a bicycle facility between the San Diego-Del Mar city limit and Gilman Drive, generally in the existing San Diego Northern Railway right-of-way.

Justification: This project is part of a larger multi-jurisdictional project, which proposes a bikeway along the coast in the cities of Oceanside, Encinitas, Solana Beach, Carlsbad, Del Mar, and San Diego. It is intended to provide regional connectivity for both commuting bicylists and recreational activities.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Torrey Pines and University Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary engineering and design occurred in Fiscal Years 2004 and 2005. Final design and construction will be scheduled as funding is identified.

Summary of Project Changes: The total estimated project cost increased to \$21.8 million due to construction cost increases.

Bikeways

Fairmont Avenue/Camino del Rio South Traffic Signal and Striping Modifications 58-181.0

Council District: 7

Community Plan: College Area

Description: This project provides for the addition of a bicycle signal at the existing signalized intersection of eastbound Interstate 8 on and off ramps at Fairmount Avenue. It will also add "bicycle box" striping and marking designations that will allow bicyclists to queue in front of motor vehicles. This will allow bicyclists improved access to the subsequent northbound left turn lane at Fairmount Avenue and Camino del Rio North.

Justification: The intersection of Fairmount Avenue and Camino del Rio North presents special access for northbound bicyclists wishing to turn left, westbound. They must cross two through lanes in the vicinity of the westbound Interstate 8 on-ramp.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the College Area Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design has been rescheduled for Fiscal Year 2008. Construction will be scheduled upon identification of funding.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Friars Road to Pacific Highway Bike Path 58-150.0

Council District: 6

Community Plan: Linda Vista, Mission Valley

Description: This project provides for designing and constructing a Class I bike path connecting Friars Road to Pacific Highway.

Justification: This project will provide a shortcut access between the one-way Class II eastbound bike paths on Friars Road to a one-way Class II bike path northbound on the Pacific Highway bridge.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Linda Vista and Mission Valley Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is complete. Construction will be scheduled when funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Kearny Villa Road Bike Lane Improvements 58-198.0

Council District: 6

Community Plan: Kearny Mesa

Description: This project provides for the resurfacing and repair of damaged bicycle lanes on Kearny Villa Road between Miramar Way and State Route 163.

Justification: The deteriorating asphalt in the bike lane causes bicyclists to ride close to the main travel lanes, where there are high volumes of high-speed traffic. This project will replace the existing bicycle lane with a newer, blue-colored asphalt that will be more durable and more visible.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Kearny Mesa Community Plan and is conformance with the City's Progress Guide and General Plan.

Scheduling: Construction was scheduled to begin in Fiscal Year 2007 and is scheduled be completed in Fiscal Year 2008.

Summary of Project Changes: This new project was authorized by City Council Resolution R-301870, dated September 12, 2006.

Minor Bicycle Facilities 58-204.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for the installation of signage and pavement markings for Class II bike lanes or Class III bike routes at various locations throughout the City on an as-needed basis

Justification: Minor bicycle projects are too low-cost to compete for regional grant funding and rely on funding from the General Fund for installation. This project will provide a funding source for small, low-cost bicycle projects.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: This project is new for Fiscal Year 2008.

Mission Trails Bike Path Study 58-160.0

Council District: 7

Community Plan: Mission Trails Regional Park, Navajo

Description: This project provides for a feasibility study of a Class I bike path between Zion Avenue and Princess View Drive along the San Diego River. The feasibility study will devise several alternative alignments for the bike path, analyze the cost, determine environmental impacts, solicit community input, and consider other factors associated with each alternative.

Justification: This bike path is needed for the continuity of the bikeway system along the San Diego River in accordance with Navajo Community Plan.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the Navajo Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I of the feasibility study began in Fiscal Year 2002 and phase II of the study in Fiscal Year 2005.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Ocean Beach Bike Path/Hotel Circle North Bikeway Design 58-156.0

Council District: 2, 6

Community Plan: Mission Valley, Ocean Beach

Description: This project provides for the design and environmental documentation of a Class I bike path to connect the existing Ocean Beach Bike Path (at its easterly end) to Hotel Circle North, along the south side of the San Diego River.

Justification: This bike path is needed as a critical connection for bicyclists in this area in accordance with the Mission Valley Community Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Mission Valley and Ocean Beach Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2004 and was completed in Fiscal Year 2006. Construction will be scheduled as funding becomes available.

Summary of Project Changes: The total estimated project cost increased by \$1.0 million to reflect the appropriation of a \$2.0 million River Parkways Grant authorized by City Council Resolution R-29939, dated December 7, 2006 and the removal of \$1.0 million in unidentified funds.

Pedestrian Master Plan Phase 3 58-200.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for the development of a comprehensive Pedestrian Master Plan to guide the way the City plans and implements pedestrian improvement projects to address safety, accessibility, connectivity, and walkability. The plan will identify and prioritize pedestrian improvement projects based on technical analysis and community input.

Justification: The plan will identify the City's pedestrian needs list, improve the City's ability to implement pedestrian projects using its limited resources as effectively as possible, and improve the City's position to receive grant funding to construct such projects.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with affected community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Earlier phases of the project have been completed. Phase III began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2008. Subsequent phases will be scheduled as funding is identified.

Summary of Project Changes: This new project was added to the Capital Improvements Program by City Council Resolution R-301870, dated September 12, 2006.

Rancho Bernardo Bikeway 58-199.0

Council District: 5

Community Plan: Rancho Bernardo

Description: This project provides for the installation of three miles of Class II bike lanes on West Bernardo Drive from Rancho Bernardo Road to Aguamiel Road and on Bernardo Center Drive from West Bernardo Drive to Rancho Bernardo Road.

Justification: This project completes gaps in the Rancho Bernardo community bicycle network, and connects to regional bicycle facilities. It also improves bicycle access to a number of community facilities, including a transit center, library, and schools.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Rancho Bernardo Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Construction was scheduled to begin in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: This new project was authorized by City Council Resolution R-301870, dated September 12, 2006.

Rose Creek Bikeway 58-147.0

Council District: 2, 6

Community Plan: Mission Bay Park, Pacific Beach

Description: This project provides for designing and constructing a pedestrian/bicycle bridge across Rose Creek and a paved Class I bike path to connect the westerly end of the new bridge to Pacific Beach Drive.

Justification: This project will close a gap in the existing network of bike paths and lanes in Mission Bay Park. It will allow pedestrians and bicyclists to circumvent a much longer existing route along Grand Avenue.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project implements the Pacific Beach Community Plan and the Mission Bay Park Master Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2001 and continued through Fiscal Year 2006, due to environmental delays. Construction will be scheduled pending identification of funding.

Summary of Project Changes: The total estimated project budget by \$500,000 in Bicycle Transportation Act (BTA) funds from Caltrans per City Council Resolution R-302057, dated November 14, 2006.

Safety in Traffic Education Program (STEP) 58-202.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for development of a public education campaign to promote safe use of streets by motorists, pedestrians, and bicyclists.

Justification: This project will result in a guide for a multi-media ad campaign to raise public awareness of the interactions of motorists, pedestrians, and bicyclists on City streets. Various aspects of the public education campaign will target specific elements of the traveling public. Additional funding will be sought for implementation of the campaign.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: This project was developed and implemented in Fiscal Year 2007 and will continue in Fiscal Year 2008.

Summary of Project Changes: This new project was authorized by City Council Resolution R-301870, dated September 12, 2006.

San Diego River Bike Path - Mission Valley 58-144.0

Council District: 6

Community Plan: Mission Valley

Description: This project provides for various bikeway projects in the Mission Valley community.

Justification: The implementation of bicycle facilities is in accordance with and supported by the Mission Valley Community Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Mission Valley Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2000 and was completed in Fiscal Year 2006. Construction will be scheduled when the scope of work is determined.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

San Diego River Multi-Use Bicycle and Pedestrian Path 58-191.0

Council District: 6

Community Plan: Mission Valley

Description: This project provides for a Class I bicycle and pedestrian path under State Route 163 from Hazard Center Drive to Fashion Valley Mall on the north side of the San Diego River. The project includes a paved bicycle and pedestrian path, grading, fill, striping, signage, bollards and lighting for the path including the State Route 163 undercrossing.

Justification: This project is part of the Bicycle Master Plan to guide the development and the creation of a firm foundation for a bicycle-friendly environment to serve bicyclists and pedestrians throughout the City. These improvements will benefit the community by increasing the mobility and safety through the enhancement of the bicycle path environment.

Operating Budget Effect: The operating budget effect will be determined upon the completion of the design.

Relationship to General and Community Plans: This project is consistent with the Mission Valley Community Plan and is in conformance with the City's Progress Guide and General Plan and with the Bicycle Master Plan.

Scheduling: Preliminary engineering began in Fiscal Year 2006. Design began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2008. Construction is scheduled to begin in Fiscal Year 2008.

Summary of Project Changes: This new project will provide for a Class I bicycle and pedestrian path under State Route 163 from Hazard Center Drive to Fashion Valley Mall on the north side of the San Diego River. Funding for the design and construction phases of the project has been identified through SANDAG and the SAFETU-LU project. These funds will be shown as unidentified until they are received.

Bikeways

State Route 15 Bikeway 58-127.0

Council District: 3

Community Plan: Mid-City, Mission Valley

Description: This project provides for the construction of a Class I bikeway along State Route 15 from Landis Street to Adams Avenue. This project description is preliminary and the amounts shown below only reflect the funding currently programmed. The total funding needs of the project will be determined, once a final scope of work is established.

Justification: This project provides the needed bikeway/bike path parallel with State Route 15 from Park de la Cruz to Camino del Rio South.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project implements the Mid-City Community Plan and in conformance with the City's Progress Guide and General Plan. The Mission Valley Community Plan is in the process of being updated, and this project will be incorporated into that update.

Scheduling: Since the project description is preliminary and the scope of work is not established, only planning and other preliminary activities have been performed to date. The project schedule for the design and construction will be established, once the scope of work is approved and the remaining funding received by the grantor.

Summary of Project Changes: This project reflects reduced scope by agreement with Caltrans. CMAQ funding previously identified for this project is no longer available. The total estimated project cost has been revised to \$1.3 million.

State Route 56 Bike Interchanges 58-171.0

Council District: 1

Community Plan: Rancho Penasquitos, Pacific Highlands Ranch, Del Mar Mesa, Torrey Highlands, Black Mountain Ranch

Description: This project provides at-grade or grade-separated bicycle path interchange facilities along State Route 56. A project study report will identify the actual locations and types of facilities needed.

Justification: Bicyclists and pedestrians traveling the SR-56 bicycle path and needing to cross through the interchange areas have to contend with high volumes of conflicting vehicular traffic. The bicycle path facilities to be proposed in the project study report will expedite the movements along the bicycle path through and connecting to the interchange areas.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Black Mountain Ranch, Del Mar Mesa, Pacific Highlands Ranch, Rancho Penasquitos, and Torrey Highlands Community Plans, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The project study report was scheduled for Fiscal Year 2006. Modifications requested by the Community will take project study report into Fiscal Year 2007. Construction is scheduled from Fiscal Year 2009 through Fiscal Year 2014 for various segments.

Summary of Project Changes: This project provides at-grade or grade-separated bicycle path interchange facilities along State Route 56. The total estimated project cost of \$9.9 million includes an unfunded amount of \$5.4 million.

Taylor Street - Bikeway 58-203.0

Council District: 2

Community Plan: Old San Diego

Description: This project provides for the replacement of a bicycle lane on Taylor Street between Presidio Drive and Hotel Circle South, adjacent to Presidio Park.

Justification: Erosion has caused the cliffside at this location to destabilize. Temporary barriers are in place to prevent additional rockslide onto Taylor Street; however, these barriers have eliminated the bicycle lane. This project will re-establish the bike lane.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Old San Diego Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to be complete in Fiscal Year 2009.

Summary of Project Changes: This project is new for Fiscal Year 2008.

Traffic Safety and Education Program 58-201.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for 100 classes in bicycle safety, specifically tailored for commuters.

Justification: This project builds on the City's Smart Cycling and Bike to Work commuter education programs. The classes will focus on bicycle safety and route selection and can include components relative to specific employment locations. The project's ultimate goal is to increase bicycling as a viable commuting option.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Classes will be conducted during Fiscal Years 2007 and 2008.

Summary of Project Changes: This new project was authorized by City Council Resolution R-307870, dated September 12, 2006.

University Avenue at Alabama Street Bicycle and Pedestrian Safety Improvements 58-196.0

Council District: 3

Community Plan: Greater North Park

Description: This project provides for the restriping of University Avenue from east of Florida Street to the west side of Mississippi Street, including the two intersections of University Avenue at Alabama Street to provide a center refuge median and wider travel lanes to improve bicycle and pedestrian safety.

Justification: This project will provide for the removal of parking on both sides of the street and eliminate left turns in and out of both intersections of University Avenue and Alabama Street.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Greater North Park Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design was scheduled to be complete in Fiscal Year 2007. Construction is scheduled to be complete in Fiscal Year 2008.

Summary of Project Changes: This new project was authorized by City Council Resolution R-301870, dated September 12, 2006.

Vista Sorrento Parkway Bike Lanes 58-157.0

Council District: 1, 5

Community Plan: Mira Mesa

Description: This project provides for the construction of bike lanes on Vista Sorrento Parkway between Sorrento Valley Boulevard and Lusk Boulevard by widening the existing roadway.

Justification: Currently, bicyclists along this section of Vista Sorrento Parkway must share narrow lanes with vehicular traffic and contend with heavy volumes and high speeds. The proposed bike lanes will provide a separate facility for bicyclists in accordance with the Torrey Pines and Mira Mesa Community Plans.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Torrey Pines and Mira Mesa Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2002 and continued in Fiscal Year 2007. Construction will be scheduled when funds become available.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Economic Development
Azalea Park Neighborhood Identification 39-086.0

Council District: 3

Community Plan: Mid-City

Description: This project is part of a community revitalization effort called the Azalea Park Neighborhood Identification Project, as outlined in the Azalea Park-Hollywood Park Revitalization Action Program. The specific location of this segment of the project is at the intersection of Poplar Street and Fairmount Avenue. The primary product of the Azalea Park Neighborhood Project is the construction of new vehicular and pedestrian improvements, including enhanced crosswalks and curb-extensions, which are to be funded by Development Impact Fees, and neighborhood identification signs, which are to be funded by Community Development Block Grants.

Justification: These improvements will benefit the community by increasing the safety and flow of traffic, enhancing pedestrian access, and promoting community identification.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project implements the recommendations found in the Mid-City Communities Plan and the Azalea Park-Hollywood Park Revitalization Action Program. It is in conformance with the City's Progress Guide and General Plan.

Scheduling: The preliminary design process for the neighborhood identification signs, which included neighborhood residents involvement, has been completed. With completion of the creative design phase work in early Fiscal Year 2006 work is in progress to complete construction design and actual construction.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Washington/Goldfinch Improvements 39-216.0
Council District: 2

Community Plan: Uptown

Description: This project provides for streetscape improvements on Washington Street between San Diego Avenue and Front Street, and on Goldfinch Street between University Avenue and Fort Stockton Drive.

Justification: The Mission Hills Community adopted the Washington Street Beautification Master Plan in Fiscal Year 1997. Streetscape improvements are being installed to revitalize the Mission Hills Business District.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project implements the Uptown Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Construction of Phase I was completed in Fiscal Year 1994. A community tree planting added 80 street trees to Washington Street in Fiscal Year 1998. Design of Phase IIa was completed in Fiscal Year 1999. Construction of Phase II, segment 1, which included upgrades and public artwork in two medians, was completed in Fiscal Year 2000. Improvements in the intersection of Washington Street and Goldfinch Street were designed in Fiscal Year 2003 and Fiscal Year 2004. Additional construction funding has been received and construction is scheduled for Fiscal Year 2007 using continuing appropriations. Median improvements on Washington Street between India Street and San Diego Avenue are scheduled to be completed in Fiscal Year 2007. Design and construction of future phases will be scheduled as funding is identified.

Summary of Project Changes: It is proposed to increase total project cost to \$1,700,500. SANDAG Smart Growth Funds in the amount of \$684,000 have been identified for this project (City Council Resolution R-300698, dated July 25, 2005) and will be shown as unidentified until the funds are received.

City Administration Building Fire Protection and Life Safety Improvement 37-900.0

Council District: 2

Community Plan: Centre City

Description: This project provides for the installation of a fire sprinkler system and for upgrading the existing fire alarm system at the City Administration Building located at 202 C Street in Centre City. One component of the project is asbestos spot abatement. All work will be performed during non-working hours allowing the facility to remain occupied and operational during construction. Phase I provided for the installation of fire sprinklers on the 10th, 14th, and 15th floors. Phase II provided for the installation of eight-inch stand pipes and eight-inch basement lateral. Phase III provided for the installation of sprinklers in the remaining basement and on the 11th and 13th floors and a fire alarm system in the basement and on the 10th, 11th, and 13th floors. Included in Phase III was abatement of amosite ceiling tile on the 11th floor. Phase IV will provide for the installation of sprinklers and alarm system for the 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, and 12th floors. Spot asbestos abatement is not required on the 6th and 7th floors due to prior asbestos abatement.

Justification: This facility does not comply with City Council Ordinance O-17172 requiring sprinkler retrofitting for high-rise buildings.

Operating Budget Effect: Operating budget effect is currently unknown.

Relationship to General and Community Plans: This project is consistent with the Centre City Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I, II and III are complete. Phase I was funded by the General Services Department, Facilities Maintenance's Division Operating Budget and was completed in Fiscal Year 2000. Phase II was completed in Fiscal Year 2002 and Phase III was completed in Fiscal Year 2003. Phase IV funds have not been identified. Phase IV construction will include completion of the fire sprinkler system (floors 1 through 9, and 12), emergency back-up power systems upgrades, fire alarm system upgrades, and architectural improvements to the main lobby ceiling, 12th floor ceilings, and all the elevator lobby ceilings to support the new systems. In addition, all visual and audio fire alarm components necessary to comply with the ADA will be installed. (See Manager's Report No. 03-249, dated December 3, 2003, titled "City Administration Building Fire Protection and Life Safety Improvements").

Summary of Project Changes: It is proposed to reschedule Phase IV construction for Fiscal Year 2009 due to the unavailability of funding.

Undergrounding of City Utilities 37-028.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for additional underground conversion projects to augment the California Public Utilities Commission (CPUC) Rule 20A projects as well as providing for the necessary administrative expenses, conversion of City-owned street lighting and resurfacing of roadways associated with the undergrounding of utilities.

Justification: The CPUC mandates that local utility companies allocate funding for undergrounding of utilities at the direction of the local municipality. Annually, San Diego Gas and Electric, Pacific Bell and the cable television companies spend several million dollars to underground overhead facilities. The City must provide the utility companies with a priority listing of projects, aid coordination, require underground utility districts and give informational support. Construction costs for undergrounding are paid by utility companies in accordance with Public Utilities Commission Decisions 73078, 820118 and Case 8209. If not provided with administrative support, millions of dollars of utility company construction money could go unused. Additional underground conversion projects are funded through the City Undergrounding Surcharge Fund. This fund is used solely for the undergrounding of utilities and cannot be used for other purposes.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the appropriate community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Undergrounding projects are scheduled each calendar year to correspond with the utility company programming and budgeting practices.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Storm Drains/Flood Control
San Diego River Flood Mitigation Plan 13-200.0

Council District: 6

Community Plan: Mission Valley

Description: This project will develop a mitigation plan along the San Diego River. Problematic areas along the San Diego River within the City limits that are at risk for repetitive loss due to flooding will be assessed. This project was authorized by City Council Resolution R-301244, dated February 21, 2006.

Justification: Due to the number of structures and river crossings within the flood zone surrounding the San Diego River that are subject to inundation by the 100 year flood, the Flood Mitigation Assistance Program (FMA) selected the City as a grant recipient.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Mission Valley Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The study is scheduled to begin in Fiscal Year 2007 and to be completed in Fiscal Year 2008.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Storm Drains/Flood Control
Famosa Slough Salt Marsh Restoration 12-152.0
Council District: 2

Community Plan: Peninsula

Description: This project proposes to create 0.64 acres of tidal salt marsh habitat and associated upland buffer as mitigation for impacts to 0.1 acres of coastal salt marsh by the Sorrento West channel clearing project resulting from the El Nino storms of 1997. The mitigation site is located on the tidal channel that is north of West Point Loma Boulevard. The high area adjacent to an access road will be graded to the elevation of the existing salt marsh habitat and be planted with salt marsh plant species.

Justification: The 0.64 acre mitigation project in Famosa Slough is required by the Army Corps of Engineers, Coastal Commission, and California Department of Fish and Game permits and agreements. The Famosa Slough was chosen as the mitigation site because opportunities for coastal salt marsh mitigation in the Los Penasquitos Lagoon have been exhausted. This option utilizes an available, City-owned site within the Coastal Zone and is consistent with the 1993 Famosa Slough Enhancement Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Peninsula Community Plan and the Famosa Slough Enhancement Plan. It is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2004 and was completed in Fiscal Year 2005. Construction was scheduled to begin and to be completed in Fiscal Year 2005. A five year maintenance and monitoring period began in Fiscal Year 2006.

Summary of Project Changes: It is proposed to allocate \$26,000 of TransNet funding to this project for Fiscal Year 2008 for mitigation purposes. Funding for mitigation in Fiscal Years 2009 and 2010 is unidentified. Total project cost is \$288,000; \$46,000 of this amount is unidentified.

Storm Drains/Flood Control
Fashion Valley Road River Crossing 13-502.0

Council District: 6

Community Plan: Mission Valley

Description: This project provides for the replacement of the failed corrugated metal pipes under the roadway at the San Diego River Crossing and for the restoration of the roadway.

Justification: The road collapsed on December 30, 2004 due to the failure of six corrugated metal pipes under the roadway. The road is located in the floodplain zone and is, therefore, subject to inundation during heavy flows in the river as a result of high intensity rainfall. The road was repaired and in operation before the end of October 2005. The project is eligible for FHWA reimbursement.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Mission Valley Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The road was repaired and in operation before the end of October 2005.

Summary of Project Changes: This newly published project provides for the replacement of the failed corrugated metal pipes under the roadway at the San Diego River Crossing and for the restoration of the roadway. The road was repaired and operational before the end of October 2005. This project is eligible for FHWA reimbursement.

Storm Station N Improvements 12-127.0

Council District: 2

Community Plan: Mission Beach

Description: This project provides for eliminating the submerged outfall and for relocating and/or modifying the existing control system at the storm water pumping station at Santa Clara Point in Mission Beach.

Justification: This station has not operated reliably. This project will improve the reliability of the pump station, thus preventing potential flooding of City streets.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with Mission Beach Precise Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction were scheduled to begin in Fiscal Year 1999 and will be rescheduled when funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Talbot Street Slope 13-501.0

Council District: 2

Community Plan: Peninsula

Description: This project will provide for the stabilization of the slope adjacent to Talbot Street at Martinez Street.

Justification: The winter storms of 2004 and 2005 eroded the steep slope adjacent to Talbot Street and threatened the houses at the top of the slope. This project is eligible for FHWA reimbursement.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Peninsula Community Plan and is in conformance with City's Progress Guide and General Plan.

Scheduling: Design and construction will be scheduled upon receipt of funding.

Summary of Project Changes: This newly published project provides for the stabilization of the failed slope adjacent to Talbot Street. This project is eligible for FHWA reimbursement. It is proposed to allocate \$250,000 in TransNet funding to this project in Fiscal Year 2008.

Tia Juana River Valley Channel Study 12-151.0
Council District: 8

Community Plan: Tia Juana River Valley

Description: This project provides for the feasibility study relating to the Tia Juana River Valley pilot channel and to eliminate ponding in the channel.

Justification: The study will investigate the feasibility of various improvements in the Tia Juana River Valley pilot channel, which will provide better accessibility to both pedestrians and equestrians. In addition, this study will examine the elimination of ponding in the channel.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Tia Juana River Valley Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The feasibility study is anticipated to be completed in Fiscal Year 2008, using continuing appropriations.

Summary of Project Changes: It is proposed to reschedule the feasibility study to Fiscal Year 2008.

Storm Water Program

Beach Area Sewage Interception/Low Flow Storm Drain Diversion 12-124.0

Council District: 1, 2

Community Plan: La Jolla, Pacific Beach

Description: This project provides for the beach area interception and diversion of sewer spills and storm drain low-flows. Federal grants are available for 55% of the construction costs for Phases II and III. Sewer funds are available as City match for the construction of Phase II and the design and construction of Phase III.

Justification: This project provides for returning dry weather sewer overflows and low flow storm runoff to the sewer, preventing pollution in the beach areas.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the La Jolla/La Jolla Shores and Pacific Beach Community Plans, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: For Phase I, which involved eight sites, construction was completed. For Phase II, which involves 18 sites, design was completed in Fiscal Year 2004. Construction was completed in early Fiscal Year 2005. For Phase III, which involves 11 sites, both design and construction will continue through Fiscal Year 2008.

Summary of Project Changes: This revision reflects a decrease of \$680,010 in Sewer Replacement funding and an increase of \$369,700 in State and Tribal Assistance Grants - Coastal Low Flow Storm Drain funding. This results in a net decrease of \$310,310 to total project cost.

Streets and Bridges

Laurel Street (Cabrillo) Bridge over Highway 163 - Structural Retrofit 53-061.0

Council District: 3

Community Plan: Balboa Park

Description: This project provides for the maintenance, rehabilitation, and seismic retrofitting of the Laurel Street (Cabrillo) Bridge over Highway 163.

Justification: This bridge has been identified by Caltrans as a bridge which requires maintenance, rehabilitation and is also seismically deficient.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Balboa Park Master Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The environmental process will begin in Fiscal Year 2007 and continue through Fiscal Year 2008. Maintenance and design are scheduled to begin in Fiscal Year 2008 and will continue through Fiscal Year 2009. Construction is scheduled to begin in Fiscal Year 2010. This work is contingent upon the identification of Federal/State funds as well as the required local agency matching funds.

Summary of Project Changes: It is proposed to allocate \$276,000 in TransNet funding to this project in Fiscal Year 2008.

Streets and Bridges

34th and 35th at Madison Avenue - Curb, Gutter and Sidewalk (CD3 Sidewalk Study) 52-774.0

Council District: 3

Community Plan: Mid-City, Uptown

Description: This project will provide for the reconstruction of the curb, gutter and sidewalk on 34th and 35th Streets from Adams Avenue to Madison Avenue, and on Madison Avenue from Felton Street to 35th Street.

Justification: This project is required in order to mitigate drainage problems and reduce flooding.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Mid-City Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled for Fiscal Year 2008. Construction is scheduled for in Fiscal Year 2009.

Summary of Project Changes: It is proposed to allocate \$60,000 in TransNet funding to this project in Fiscal Year 2008.

Streets and Bridges

38th Street Improvements 52-782.0

Council District: 3

Community Plan: Mid-City

Description: This project provides full street improvements on 38th Street from Dwight Street north to terminus. Improvements will include but not be limited to curb, gutter, driveways, sidewalk, pedestrian ramps, pavement, drainage facilities, angled on-street parking, etc. The improvements will comply with current local, state and federal safety and accessibility codes and regulations.

Justification: This portion of the road is currently unimproved. Street improvements are needed to comply with the City's design guides for improvement of public right of way.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: The project is consistent with the City Heights Community Plan, and it is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary Engineering and Feasibility Studies is scheduled to begin in Fiscal Year 2008. Design and construction will be scheduled upon completion of the Preliminary Engineering and Feasibility Studies.

Streets and Bridges

43rd Street and Logan/National Avenue Intersection 52-409.0

Council District: 4

Community Plan: Southeastern San Diego

Description: This project provides for realigning the intersection at 43rd Street and National Avenue. This project will make necessary traffic enhancements to handle the increased daily traffic associated with the residential, industrial and commercial development of the State Route 252 Corridor (approximately 66 acres).

Justification: This project is a major component in the development of the State Route 252 Corridor within the Southcrest Project. The street currently handles approximately 12,000 weekday trips. Once development on the corridor is complete, the number of trips will increase significantly. The Southeastern San Diego Community Plan recommends improvement to four lanes to handle the current capacity.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Southeastern San Diego Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and land acquisition began in Fiscal Year 2002 and were rescheduled for completion in Fiscal Year 2006 due to budget constraints. Construction will be scheduled when funding is identified.

Summary of Project Changes: It is proposed to allocate \$500,000 in TransNet funding to this project for Fiscal Year 2008. Total project cost is \$11,377,886; \$2,422,375 of this amount is unidentified.

Streets and Bridges

62nd to 65th Street Channel Improvements 52-778.0

Council District: 4

Community Plan: Southeastern San Diego

Description: This project will provide for the installation of chain link fence along the existing drainage channel between 62nd and 65th streets.

Justification: This project is required in order to prevent unauthorized access to the drainage channel.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Encanto Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled for Fiscal Year 2008. Construction is scheduled for in Fiscal Year 2009.

Summary of Project Changes: It is proposed to allocate \$75,000 in TransNet funding to this project in Fiscal Year 2008.

Streets and Bridges

Aldine Drive and Fairmount Avenue - Slope Restoration 52-592.0

Council District: 3

Community Plan: Mid-City

Description: This project provides for the evaluation, design and construction of slope stability improvements for two slope areas. The first area is Fairmount Avenue slope north of Meade Avenue and south of Aldine Drive. The second area is the Aldine Drive south slope between Fairmount Avenue and Adams Avenue.

Justification: The slope on the east side of Fairmount Avenue and south side of Aldine Drive is eroding and failing in some locations due to heavy winter rains.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project implements the Mid-City Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to begin in Fiscal Year 2006. Construction will begin when funding is identified.

Summary of Project Changes: Total project cost is \$1,650,556; \$1,065,767 of this amount is unidentified.

Streets and Bridges

Alvarado Canyon Road Realignment 52-713.0

Council District: 7

Community Plan: Navajo

Description: This project provides for the realignment of Alvarado Canyon Road from 380 feet east of the Fairmount Avenue and Camino Del Rio North intersection to the Fairmount Avenue and Mission Gorge Road intersection. Improvements for this two-lane collector street will include a structure over the existing concrete drainage channel, removal of some existing pavement, re-grading of affected private parcels and traffic signal modifications.

Justification: This project will improve the traffic flow at the Interstate 8, Fairmount Avenue and Mission Gorge Road interchange.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan. The proposed realignment requires an amendment to the Navajo Community Plan. This proposed change is being processed by the Metropolitan Transit Development Board (MTDB) as part of an amendment to identify the Mission Valley East Light Rail alignment through the corridor.

Scheduling: Land acquisition was scheduled to begin in Fiscal Year 2003 and continue in Fiscal Year 2004. The Metropolitan Transit Development Board (MTDB) funded a portion of the land acquisition through an in-kind donation. Design and construction will be rescheduled upon identification of funding.

Summary of Project Changes: It is proposed to remove funding, previously identified as MTDB contribution, in the amount of \$1,200,000 from continuing appropriations for this project. This funding has not been received and future contributions from MTDB may be by donation of land. Unidentified funding has been increased by a like amount. There is no net change to total project cost.

Streets and Bridges

Balboa Avenue Corridor Improvements 52-274.0

Council District: 6

Community Plan: Kearny Mesa, Clairemont Mesa

Description: This project provides for improvements to the former State Route 274, which is Balboa Avenue. This project is divided into two phases. Phase One begins at Interstate 5 and ends at Interstate 805. Phase Two begins at Interstate 805 and ends at Interstate 15. Improvements to both phases consist of roadway widening, construction of new curbs, gutters, and sidewalks, reconstruction of existing sidewalks, medians, installation of a new traffic signal(s), modification of existing traffic signals and new bicycle route facilities.

Justification: This project is funded by a state contribution agreement as part of the relinquishment of State Route 274 to the City of San Diego.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Clairemont Mesa and Kearny Mesa Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase One - Preliminary engineering was completed in Fiscal Year 2005. Design began in Fiscal Year 2005 and was completed in Fiscal Year 2006. Construction for Phase One was scheduled to begin in late Fiscal Year 2006 or early Fiscal Year 2007. Phase Two - Preliminary engineering was scheduled to begin in Fiscal Year 2006 and design is scheduled for Fiscal Year 2007, with construction expected to begin in Fiscal Year 2007 and continue to Fiscal Year 2008.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges

Balboa Avenue Streetscape Improvements 52-496.0

Council District: 6

Community Plan: Clairemont Mesa

Description: This project provides for median landscaping and hardscaping on Balboa Avenue between Interstate 5 and Interstate 805 in the Clairemont Mesa community. Additional improvements along the former State Route 274 corridor are budgeted in CIP 52-274.0, Balboa Avenue Corridor Improvements.

Justification: This project was initiated by the Clairemont Mesa community and the State of California as a Federal Transportation Enhancement Act (TEA) grant project and was transferred to the City upon relinquishment of Balboa Avenue as a state highway (State Route 274) by Caltrans. The local matching funds of \$282,000 were also transferred to the City from the State as part of the relinquishment process.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Clairemont Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design was completed in Fiscal Year 2005. Construction began in Fiscal Year 2006 and is scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Beach Access Reconstruction 52-338.0

Council District: 1, 2

Community Plan: La Jolla, Mission Beach, Ocean Beach,
Pacific Beach, Peninsula, Torrey Pines,
University

Description: This annual allocation provides for reconstructing and protecting stairs, walkways, bridges and walls located in non-park areas which provide beach access in the public right-of-way.

Justification: Winter storms erode areas adjacent to beach access improvements, making them unusable. Reconstruction of protective devices will provide continuing public access to beach areas.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project implements the appropriate community plans, and it is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: It is proposed to allocate \$30,000 to this project from Capital Outlay funds. The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Bird Rock Coastal Traffic Flow Improvements 52-717.0

Council District: 1

Community Plan: La Jolla

Description: This project is a comprehensive plan which includes traffic calming measures to reduce speed, improve safety and walkability on La Jolla Boulevard. The project includes 3 modern roundabouts on La Jolla Boulevard and 3 mini roundabouts on connecting residential streets. La Jolla Boulevard will be reduced from 4 lanes to 2 lanes. The plan also includes 20 additional traffic calming measures on connecting residential streets.

Justification: This project will reduce traffic speed, improve traffic flow and safety on La Jolla Boulevard. This project reduces speed and minimizes traffic on surrounding area streets. This project is in accordance with the La Jolla Public Facilities Financing Plan, Project T-13.

Operating Budget Effect: The operating budget effect will be determined upon completion of design. A Maintenance Assessment District was approved by City Council to maintain landscaping and other improvements.

Relationship to General and Community Plans: This project is consistent with the La Jolla Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2004 and was completed in Fiscal Year 2007 using continuing appropriations. Construction will be scheduled in two phases. Both phases began construction in Fiscal Year 2007.

Summary of Project Changes: It is proposed to revise project funding to reflect an increase of \$1,400,000 in DIF funds as authorized by City Council Resolution R-302013, dated October 24, 2006. Additionally, \$2,000,000 has been identified for this project through the SANDAG Pilot Smart Growth Incentive Program. This funding currently shows as unidentified. Total project cost is \$5,583,039.

Bridge Preventative Maintenance Assessment Program 53-062.0

Council District: Citywide

Community Plan: Citywide

Description: This project will provide for the development of bridge preventive maintenance assessments. It will provide an evaluation of 318 existing vehicular bridges, analyze current industry practices, and determine the cost benefits of program implementation.

Justification: Bridges identified in this assessment will be considered for participation in a future preventive maintenance construction contract.

Operating Budget Effect: None at this time.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: The program was scheduled to begin in Fiscal Year 2007 and will continue in Fiscal Year 2008.

Summary of Project Changes: This new project, authorized by City Council Resolution R-302021, dated November 3, 2006, will provide for the development of a bridge preventive maintenance assessment program.

Bridge Rails - Citywide 52-519.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for installing new and replacing old railing on bridges where the existing railing does not meet current standards.

Justification: This program maintains an ongoing program to promote safety within the public right-of-way. Funding is provided on an as-needed basis, installing new railing to meet current standards.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the appropriate community plans, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction are scheduled each year.

Project Scheduled in Fiscal Year: Fiscal Year 2007 funding was allocated to the Barnett Avenue over Pacific Highway Barrier Rail project.

Summary of Project Changes: It is proposed to allocate \$100,000 in TransNet funding to this project for Fiscal Year 2008. Anticipated State funding for Fiscal Year 2008 is estimated at \$400,000. The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Camino del Sur - Carmel Mountain Road to 1,600 Feet North of Park Village Road 52-653.0

Council District: 1

Community Plan: Rancho Penasquitos, Torrey Highlands

Description: This project provides for the construction of Camino del Sur (formerly Camino Ruiz) as a four-lane major street with Class II bicycle lanes from Carmel Mountain Road to 1,600 feet north of Park Village Road.

Justification: Camino del Sur is the major street connecting the southwest corner of Rancho Penasquitos to the future Carmel Mountain Road extension and to State Route 56.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Rancho Penasquitos Community Plan and the Torrey Highlands Subarea Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The environmental document (EIR) was completed in Fiscal Year 2006. Design was scheduled to begin in Fiscal Year 2007. Construction is projected to occur in conjunction with anticipated development in Fiscal Year 2008.

Summary of Project Changes: Total project cost is \$9,800,000. It is proposed to allocate \$5,999,000 to this project in Fiscal Year 2008, consistent with the most recent Torrey Highlands and Rancho Penasquitos Public Facilities Financing Plans.

Streets and Bridges

Camino del Sur - Widen to Six Lanes Northerly of State Route 56 52-725.0

Council District: 1

Community Plan: Torrey Highlands

Description: The project will provide for the construction of Camino del Sur between State Route 56 and Carmel Valley Road as a two-lane interim roadway (40' paved width) within the right-of-way for a future six-lane facility. Additional lanes may be required in the immediate vicinity of the interchange.

Justification: This project will accommodate the increase in vehicular traffic caused by development in the area, and will be funded by development within Torrey Highlands.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Torrey Highlands Subarea Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: This project is required with the first phase of development within Torrey Highlands and has been completed. Reimbursement to developers is pending.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges

Camino del Sur, San Dieguito Road to Carmel Valley Road - Street Improvements 52-403.0

Council District: 1

Community Plan: Torrey Highlands, Black Mountain Ranch

Description: This project provides for reimbursement to a developer for the design and construction of Camino del Sur between San Dieguito Road south to Carmel Valley Road as a two-lane interim facility within a six-lane right-of-way. It will also provide a wildlife undercrossing, traffic signals and intersection widening at San Dieguito Road, B Street and Carmel Valley Road. A second phase of the project will construct two additional lanes on Camino del Sur from San Dieguito Road southward to Carmel Valley Road and modify the traffic signals accordingly.

Justification: This project is in accordance with the Black Mountain Ranch Public Facilities Financing Plan, Project T-9 and Project T-10, and the Torrey Highlands Public Facilities Financing Plan, Project T-2.4.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Black Mountain Ranch Subarea Plan, the Torrey Highlands Public Facilities Financing Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Reimbursement to the developer is pending and will be made using continuing appropriations.

Summary of Project Changes: It is proposed to modify the project title and to revise funding to be consistent with the most recent Black Mountain Ranch Community Plan.

Streets and Bridges

Camino Ruiz - Gold Coast Drive to Jade Coast and Miralani Drive to Miramar Road 52-389.0

Council District: 5

Community Plan: Mira Mesa

Description: This project provides for widening Camino Ruiz from Gold Coast Drive to the east leg of Jade Coast Road and from the northern most boundaries of Miralani Business Park to Miramar Road, widening Camino Ruiz to a modified six-lane major street/primary arterial. The project includes Class II bike lanes between Mira Mesa Boulevard and Gold Coast Drive and within the project limits. See Project Number 10 in the Mira Mesa Public Facilities Financing Plan.

Justification: Widening this portion of Camino Ruiz will accommodate increased vehicular traffic generated by the Mira Mesa Community.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Mira Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary design was scheduled in Fiscal Year 2007. Design will begin in Fiscal Year 2008. Construction is scheduled to begin in Fiscal Year 2009. This schedule is contingent upon the rate of development and fees collected in the community.

Summary of Project Changes: It is proposed to revise project funding consistent with the most recent Mira Mesa Public Facilities Financing Plan.

Camino Ruiz, Santaluz to Camino del Norte - Street Improvements 52-401.0

Council District: 1

Community Plan: Black Mountain Ranch

Description: This project provides for reimbursement to a developer for the design and construction of Camino Ruiz between Santaluz and Camino del Norte.

Justification: This project is in accordance with the Black Mountain Ranch Public Facilities Financing Plan, Project T-5.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Black Mountain Ranch Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Reimbursement is scheduled for Fiscal Year 2007.

Summary of Project Changes: It is proposed to revise project cost consistent with the most recent Black Mountain Ranch Community Plan.

Camino Ruiz, Santaluz to Resort Street - Wildlife Crossing 52-402.0

Council District: 1

Community Plan: Black Mountain Ranch

Description: This project provides for reimbursement to a developer for the design and construction of wildlife crossings along Camino Ruiz between Santaluz and Resort Street.

Justification: This project is in accordance with the Black Mountain Ranch Public Facilities Financing Plan, Project T-7.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Black Mountain Ranch Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Reimbursement was scheduled in Fiscal Year 2006 and rescheduled for Fiscal Year 2007.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges

Carmel Mountain Road - Interstate 5 Interchange 52-424.0

Council District: 1

Community Plan: Carmel Valley

Description: This project provides for a diamond interchange at Interstate 5 and Carmel Mountain Road. Design and construction will be completed by Caltrans. The project will be City-funded by Council-approved agreement.

Justification: This interchange is needed to accommodate the increase in vehicular traffic created by development in the communities of Carmel Valley and Sorrento Hills. See Project Number 16 in the Carmel Valley Public Facilities Financing Plan.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Carmel Valley Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and land acquisition were scheduled to begin in Fiscal Year 1993. Additional land acquisition and design were scheduled in Fiscal Year 2000 and were scheduled again in Fiscal Year 2001. This project is being designed and constructed by the State in stages concurrent with the widening of Interstate 5. This schedule is contingent upon the rate of development and fees collected in the community.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges

Carmel Mountain Road - Neighborhood 10 Boundary to Del Mar Mesa Road 52-411.0

Council District: 1

Community Plan: Del Mar Mesa

Description: This project provides for the construction of Carmel Mountain Road as a two lane collector street from the Carmel Valley Neighborhood 10 easterly boundary to Little McGonigle Ranch Road (formerly Del Mar Mesa Road). The 4,050 linear feet of half-width road (FBA funded) which traverses open space will be 40'/62'. Also included as part of this project is a wildlife crossing under Carmel Mountain Road. The remainder (sub-divider funded) will be both 40'/62' and 50'/72' and will include left-turn lanes at intersections and major driveways as needed. A multi-use trail will be constructed as part of this project along the entire project length.

Justification: This project is required to accommodate the additional traffic generated as a result of development in Del Mar Mesa.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Del Mar Mesa Specific Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Sub-divider to complete land acquisition, design, and construction.

Summary of Project Changes: It is proposed to allocate \$900,000 to this project in Fiscal Year 2008, consistent with the most recent Del Mar Mesa Public Facilities Financing Plan.

Streets and Bridges

Carmel Valley Road - 300 Feet East of Portofino Drive to Del Mar 52-517.0

Council District: 1

Community Plan: Torrey Pines

Description: This project provides for improving Carmel Valley Road to a modified two-lane collector street from 300 feet east of Portofino Drive to the Del Mar city limits. The improvements include construction of curb, gutter, sidewalks and drainage improvements as well as construction of a Class II bicycle lane on both sides of Carmel Valley Road.

Justification: This project will improve traffic flow and turning movements on this roadway and provide bike paths on Carmel Valley Road.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Torrey Pines Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design of the project is complete. Construction began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: It is proposed to allocate \$1,500,000 in TransNet funding to this project for Fiscal Year 2008. Total project cost has been increased to \$8,849,641.

Streets and Bridges

Carmel Valley Road - Four/Six lanes southerly of Street A 52-733.0

Council District: 1

Community Plan: Pacific Highlands Ranch, Torrey Highlands

Description: This project will design and construct Carmel Valley Road from the Camino Santa Fe Interchange to Pacific Highlands Ranch Parkway as a six-lane facility within a 146 foot right-of-way transitioning to a four lane facility within a 122 foot right-of-way (4,000 lf). The expanded right-of-way will permit widening of up to 24 additional feet for a future transit oriented facility. In the interim, these two lanes shall be landscaped and incorporated into the center median improvements. (See Project T-4.2 and Torrey Highlands Public Facilities Financing Plan Project T-4.5)

Justification: Due to anticipated traffic volumes on Carmel Valley Road, the reach between SR-56 and Del Mar Heights Road will be constructed as a six lane facility, in two phases, as required by the Transportation Phasing Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Pacific Highlands Ranch and Torrey Highlands Public Facilities Financing Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Developer (Pardee) advanced funding for this project and will be reimbursed from the Pacific Highlands Ranch Facilities Benefit Assessment under the terms of a reimbursement agreement.

Summary of Project Changes: It is proposed to allocate \$4,413,000 from Pacific Highlands Ranch Public Facilities Benefit Assessment funds in Fiscal Year 2008.

Streets and Bridges

Carmel Valley Road - Street A to Neighborhood Parkway 52-747.0

Council District: 1

Community Plan: Pacific Highlands Ranch

Description: This project will design and construct Carmel Valley Road from Street "A" to the Neighborhood Parkway as a four-lane facility within a 122 foot right-of-way that can accommodate six lanes in the future. The two internal lanes will be left unimproved for future expansion to accommodate six lanes of traffic or another transit oriented facility. In the interim, these two lanes shall be landscaped and incorporated into the center median improvements. This section of Carmel Valley Road includes the pedestrian undercrossing at the Neighborhood Parkway. See Project T-4.3 in the Pacific Highlands Ranch Public Facilities Financing Plan.

Justification: Due to anticipated traffic volumes on Carmel Valley Road, the reach between Street "A" and Neighborhood Parkway will be constructed as a four-lane facility that can be expanded to six lanes in the future.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Pacific Highland Ranch Subarea Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Completion is scheduled for Fiscal Year 2009.

Summary of Project Changes: It is proposed to allocate \$2,932,346 to this project in Fiscal Year 2008, consistent with the most recent Pacific Highlands Ranch Public Facilities Financing Plan.

Streets and Bridges

Carmel Valley Road - Via Albutura to Camino Del Sur 52-466.0

Council District: 1

Community Plan: Torrey Highlands

Description: This project provides for the reimbursement for the widening of the existing Carmel Valley Road between Via Albutura and Camino Ruiz into a four-lane street.

Justification: This project is in accordance with the Torrey Highlands Public Facilities Financing Plan, Project T-4.3.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Torrey Highlands Subarea Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Reimbursement is scheduled in Fiscal Years 2003, 2004, and 2008.

Summary of Project Changes: It is proposed to allocate \$5,825,333 to this project for Fiscal Year 2008, consistent with the the most recent Torrey Highlands Public Facilities Financing Plan.

Streets and Bridges

Carroll Canyon Road - Interstate 15 to Maya Linda Road 52-421.0

Council District: 5

Community Plan: Mira Mesa

Description: This project provides for widening the south side of Carroll Canyon Road from Interstate 15 to 150 feet east of Maya Linda Road to provide a right-turn lane with a Class II bike lane. See Project Number 7A in the Mira Mesa Public Facilities Financing Plan.

Justification: Traffic volumes will require an exclusive right-turn lane to southbound Interstate 15.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Mira Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Final design, land acquisition and construction will be scheduled upon identification of funding.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges

Carroll Canyon Road - Sorrento Valley Road to Scranton Road 52-392.0

Council District: 5

Community Plan: Mira Mesa

Description: This project provides for a modified four-lane collector street from Sorrento Valley Road, under Interstate 805 to Scranton Road. The street will include bike lanes.

Justification: Carroll Canyon Road will be a necessary street in accordance with the community plan. The horizon year average daily trip forecast is 25,000.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Mira Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Land acquisition was scheduled in Fiscal Year 2005 and rescheduled to Fiscal Year 2009, due to changes in scope and alignment. Design is scheduled to be complete in Fiscal Year 2009 using continuing appropriations. Construction will be scheduled upon identification of funding.

Summary of Project Changes: It is proposed to allocate \$4,500,000 inTransNet funding to this project for Fiscal Year 2008. Total project cost is \$46,500,000 due to revised scope which includes the construction of a bridge viaduct under Interstate 805. The bridge viaduct is required to be consistent with Caltrans' future plans to build direct access ramps for high occupancy vehicles at Carroll Canyon Road. \$29,254,000 of the total project cost is unidentified.

Clairemont Mesa Boulevard/SR-163 Improvements 52-745.0

Council District: 6

Community Plan: Kearny Mesa

Description: This project provides for improving Clairemont Mesa Boulevard/State Route 163 to six-lane prime arterial standards. Phase I of the project consists of bridge widening and ramp realignment on the eastern side of the interchange. Phase II consists of ramp realignment on the western side. The interchange will be re-configured to eliminate existing loop on-ramps. The ramps will be re-configured to intersect Clairemont Mesa Boulevard at standard signalized intersections. HOV/Bus bypass lanes will be incorporated on the on-ramps and preemption for emergency vehicles and bus priority will be included on the traffic signals.

Justification: These improvements will eliminate existing pedestrian/bike high-speed crossings and all vehicle, bike and pedestrian moves will be controlled thus improving safety. Transit movement through the interchange area will be greatly enhanced.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Kearny Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Construction was scheduled began in Fiscal Year 2006 and is scheduled for completion in Fiscal Year 2008.

Summary of Project Changes: It is proposed to allocate \$2,500,000 in TransNet funds to this project for Fiscal Year 2008.

Engineering & Capital Projects

Streets and Bridges

Consultant Services/Right-Of-Way Projects 37-200.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for miscellaneous engineering/architectural services by consultants for the improvement of streets.

Justification: Some projects require the services of a private consultant for minor design services or when the required level of expertise is not available from City staff.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the appropriate community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Project Scheduled in Fiscal Year: Fiscal Year 2007 funding was allocated to consultant services for sidewalk projects.

Summary of Project Changes: It is proposed to allocate \$20,000 of Capital Outlay funding to this project for Fiscal Year 2008. The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Debt Service for TransNet Bond Funded Projects 52-664.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for debt service on the TransNet Bond funded projects in the Engineering and Capital Projects Department.

Justification: Debt service payments for prior TransNet Bond issuances are required annually.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Bond issuance in various fiscal years requires annual payments through Fiscal Year 2008.

Summary of Project Changes: It is proposed to allocate \$2,350,340 in TransNet funding for Fiscal Year 2008 debt service obligation.

Streets and Bridges

Del Mar Heights Road - East of Old Carmel Valley Road 52-739.0

Council District: 1

Community Plan: Pacific Highlands Ranch

Description: This project will construct Del Mar Heights Road from Old Carmel Valley Road to the new alignment of Carmel Valley Road as a modified five-lane roadway within a 122 foot right-of-way for a future six-lane facility. The project will include an eastbound third lane as the roadway approaches Carmel Valley Road. This project includes the bridge crossing over the open space corridor. This is the second phase of the project and will provide local access to the central area of development. The developer will advance funding for this project and be reimbursed from the Pacific Highlands Ranch Facilities Benefit Assessment under the terms of a reimbursement agreement.

Justification: This facility is required to accommodate traffic being generated by new development in Pacific Highlands Ranch as well as by existing sub-regional traffic needs.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Pacific Highlands Ranch Community Plan (Project T-3.2) and is in conformance with the City's Progress Guide.

Scheduling: Completion of this project was scheduled in Fiscal Year 2004. The developer advanced funding for this project and will be reimbursed from the Pacific Highlands Ranch Facilities Benefit Assessment under the terms of a reimbursement agreement.

Summary of Project Changes: It is proposed to allocate \$861,000 to this project in Fiscal Year 2008, consistent with the most recent Pacific Highlands Ranch Public Facilities Financing Plan.

Streets and Bridges

Del Mar Heights Road - Westerly of Old Carmel Valley Road 52-731.0

Council District: 1

Community Plan: Pacific Highlands Ranch

Description: This project will provide for the construction of Del Mar Heights Road from the easterly limits of the Carmel Valley Community to Old Carmel Valley Road as a half width roadway within a 122 foot right-of-way for a future six lane facility (approximately 2,000 LF) including relocation of existing cable TV and communications facilities. (See Project T-3.1.)

Justification: This facility is required to accommodate traffic being generated by new development in Pacific Highlands Ranch as well as by existing sub-regional traffic needs.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Pacific Highlands Ranch Public Facilities Financing Plan and is consistent with the City's Progress Guide and General Plan.

Scheduling: The developer (Pardee) advanced the funding for this project and will be reimbursed from the Pacific Highlands Ranch Facilities Benefit Assessment under the terms of a reimbursement agreement

Del Mar Heights Road Median - Mango Drive to City Limits 52-686.0

Council District: 1

Community Plan: Torrey Pines

Description: This project is located on Del Mar Heights Road, between Mango Drive and San Diego city limits, and includes raised center decorative concrete medians, future landscaping area to be covered with landscape fabric and mulch above top soil, and irrigation sleeves under vehicular area. Landscaping and irrigation will be completed in a future phase pending identification of funding.

Justification: Construction of the median is required to control turning movements and reduce traffic conflicts.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Torrey Pines Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design was completed in Fiscal Year 2004. Construction will be scheduled when remaining funding is identified, and a new maintenance assessment district is created.

Summary of Project Changes: It is proposed to increase total project cost to \$2,455,000. Project scope has increased per Community request. It is anticipated that federal funding will be secured for this project. Current unidentified funds are \$2,000,000.

Streets and Bridges

Del Mar Heights Road North of Neighborhood #4 Park and School 52-478.0

Council District: 1

Community Plan: Carmel Valley

Description: This project provides for reimbursing the developer for constructing the half-width improvement of Del Mar Heights Road north of the proposed site of the neighborhood park (school in neighborhood #4) to a six-lane major arterial with Class II bike lanes.

Justification: The developer is required to build this road and will be reimbursed from Facilities Benefit Assessment funding by agreement. See Project Number 27 in the Carmel Valley Public Facilities Financing Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Carmel Valley Community Plan, and it is in conformance with the City's Progress Guide and General Plan.

Scheduling: This project was constructed in prior years by the developer. Reimbursement from FBA will be made through continuing appropriations.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges

Del Mar Mesa Road - Carmel Country Road to Carmel Mountain Road 52-712.0

Council District: 1

Community Plan: Del Mar Mesa

Description: This project provides for the construction of Del Mar Mesa Road as a two lane rural residential road from Carmel Country Road to the future Carmel Mountain Road. The improvements also include a 16-inch water line and a multi-use trail. This roadway will provide access to the east until other road improvements are in place. This project was formerly named Shaw Ridge Road. This project will be constructed by three developers under three separate reimbursement agreements.

Justification: The project is required to accommodate the additional traffic generated as a result of development in Del Mar Mesa. See Project Number 43-3 in the Del Mar Mesa Public Facilities Financing Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Del Mar Mesa Specific Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: This project was constructed by developers in Fiscal Years 1999 through 2003. Reimbursements will be made from the Del Mar Mesa Facilities Benefit Assessment fund as scheduled in the Public Facilities Financing Plan.

Summary of Project Changes: It is proposed to allocate \$1,059,986 to this project for Fiscal Year 2008, consistent with the Del Mar Mesa Public Facilities Financing Plan updates.

Streets and Bridges

Del Sol Boulevard - Central 52-492.0

Council District: 8

Community Plan: Otay Mesa

Description: This project provides for construction of the central section of Del Sol Boulevard from the eastern boundary of Palm Ridge through the Multiple Species Conservation Program (MSCP) open space and along the frontage of the proposed community park, elementary and middle school site. The roadway will consist of 800 linear feet of a two-lane collector and 2,000 linear feet of a four-lane collector street. See companion projects T-4.1 and T-4.2 in the Otay Mesa Public Facilities Financing Plan.

Justification: The transportation element of the Otay Mesa Community Plan suggests that an integrated transportation network will provide mobility and accessibility for the residents and business travelers to, from and through the community.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled in Fiscal Year 2008. Construction is scheduled in Fiscal Year 2009.

Summary of Project Changes: It is proposed to revise project funding to reflect the most recent Otay Mesa Public Facilities Financing Plan. It is proposed to allocate \$2,000,000 of Otay Mesa - West FBA funding to this project for Fiscal Year 2008. Funding from the Otay Mesa - East FBA has been removed. This project is fully funded. Total project cost is \$6,500,000.

Streets and Bridges

Division Street - Interstate 5 to 43rd Street 52-347.0

Council District: 8

Community Plan: Southeastern San Diego

Description: This project provides for widening Division Street to a modified four-lane roadway from Interstate 5 to 43rd Street. The project has been split into two phases. Phase I provided for signal additions, drainage rehabilitation and smaller scope street improvements. Phase II provides for widening the street. There will be further study of the feasibility of extending this project further east. This project description is preliminary and the amounts shown below only reflect the funding currently programmed. The total funding needs of the project will be determined, once a final scope of work is established.

Justification: The City is required to widen Division Street to mitigate the deletion of State Route 252 as part of an agreement with National City. The widening of Division Street will provide increased capacity and improve traffic flow in the same corridor.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Southeastern San Diego Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Since the project description for Phase II is preliminary and the scope of work is not established, only planning and other preliminary activities have been performed to date. The project schedule for design and construction will be established once the scope of work is approved and the remaining funding appropriated.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

East San Rafael Street Deceleration Lane 52-378.0

Council District: 1

Community Plan: Carmel Valley

Description: This project provides a right-hand deceleration lane to East San Raphael Drive into the San Raphael Development from El Camino Real.

Justification: This project is desired by the community to address safety concerns. See Project 21A-32 in the Carmel Valley Public Facilities Financing Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Carmel Valley Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design was scheduled to be complete in Fiscal Year 2005. Construction was scheduled to begin Fiscal Year 2006 and to be completed in Fiscal Year 2008.

Summary of Project Changes: It is proposed to allocate \$160,000 in FBA funds to this project for Fiscal Year 2008.

Eastgate Mall - Miramar Road to San Diego Gas and Electric (SDG&E) Easement 52-417.0

Council District: 1

Community Plan: University

Description: This project provides for widening Eastgate Mall to a four-lane collector street between Miramar Road and the San Diego Gas and Electric (SDG&E) easement. In addition, this project provides for Class II bicycle lanes. This project description is preliminary and the amounts shown below only reflect the funding currently programmed. The total funding needs of the project will be determined once a final scope of work is established.

Justification: These improvements will enhance traffic flow at this location. See project Number 34 in the North University City Public Facilities Financing Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Since the project description is preliminary and the scope of work is not established, only planning and other preliminary activities have been performed to date. The project schedule for the design and construction will be established, once the scope of work is approved and the remaining funding identified.

Summary of Project Changes: It is proposed to revise project funding to reflect the most current North University City Public Facilities Financing Plan authorized by City Council Resolution R-301465, dated May 31, 2006. Project cost has been increased to \$3,852,500.

Streets and Bridges

El Camino Real - San Dieguito Road to Via de la Valle 52-479.0

Council District: 1

Community Plan: Subarea II Future Urbanizing Area,
Fairbanks Ranch Country Club

Description: This project provides for reconstruction and widening of the existing two-lane bridge to a four-lane bridge. It provides for widening the existing two-lane roadway to a modified four-lane major road and includes improvements on eastbound Via de la Valle as far as northbound El Camino Real.

Justification: The Fairbanks Ranch Country Club and Via de la Valle Precise Plans identify El Camino Real as a four-lane major road.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Fairbanks Ranch Country Club Specific Plan and the North City Future Urbanizing Area Framework Plan. It is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary design was scheduled to begin in Fiscal Year 1992 and continued in Fiscal Year 1994 and Fiscal Year 1995. Design began in Fiscal Year 1998 and continued through Fiscal Year 2006. Land acquisition was scheduled in Fiscal Year 2006. Final Environmental Document is scheduled for early Fiscal Year 2008. Construction is scheduled to begin in Fiscal Year 2009 and to be completed in Fiscal Year 2010.

Summary of Project Changes: It is proposed to allocate \$300,000 in TransNet funding to this project for Fiscal Year 2008.

El Camino Real Acceleration Lane 52-746.0
Council District: 1

Community Plan: Subarea II Future Urbanizing Area

Description: This project will provide a 250 foot acceleration lane for residents making a left turn from Sea Country Lane onto El Camino Real.

Justification: This improvement will permit safer acceleration and merging into traffic on El Camino Real.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the North City Future Urbanizing Area Framework Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Since the project description is preliminary and the scope of work is not established, only planning and other preliminary activities have been performed to date. The project schedule for design and construction will be established once the scope of work is approved.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

El Camino Real Widening 52-767.0

Council District: 1

Community Plan: Pacific Highlands Ranch

Description: This project will complete the construction of existing El Camino Real between Half Mile Drive and San Dieguito Road as a 4-lane major street within the existing, graded right of way. The estimated cost includes environmental analysis and alignment studies for the entire length of El Camino Real (Half Mile Drive to Via de la Valle).

Justification: This project is required in order to accommodate the additional traffic generated as a result of development in the surrounding communities, including Pacific Highlands Ranch, as well as the existing sub-regional traffic needs.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Pacific Highlands Ranch Public Facility Financing Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: This project is scheduled to be complete in Fiscal Year 2014.

Summary of Project Changes: It is proposed to allocate \$100,000 to this project for Fiscal Year 2008 consistent with the most recent Pacific Highlands Ranch Public Facilities Financing Plan.

Streets and Bridges

Euclid Avenue Corridor Improvements 52-743.0

Council District: 3, 7

Community Plan: Mid-City, Southeastern San Diego

Description: This project provides improvements on Euclid Avenue from 300 feet north of Redwood Street to El Cajon Boulevard and will include curb, gutter, sidewalk, curb ramps, landscaping, roadway restoration, striping, and traffic calming installations.

Justification: Euclid Avenue carries a traffic volume in excess of its design capacity, resulting in significant congestion, which impacts neighboring properties. Traffic speed, volume, and deficiency in pedestrian infrastructure compromises pedestrian safety.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project implements the Mid City Communities Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary engineering began in Fiscal Year 2005. Design was scheduled for Fiscal Year 2006 and is rescheduled for Fiscal Year 2008, pending identification of funding. Construction will be scheduled when funds are identified.

Summary of Project Changes: It is proposed to allocate \$ 75,000 in TransNet funding to this project for Fiscal Year 2008.

Euclid Avenue Improvements - Home Avenue to Thorn Street 52-699.0

Council District: 3, 4, 7

Community Plan: Mid-City

Description: This project provides for the completion of street improvements recommended in the Euclid Avenue Revitalization Program and the Mid-City Communities Plan. Improvements will extend from Home Avenue to Thorn Street and will include curb, gutter, sidewalk, landscaping, paving, and traffic calming installations. See also CIP 52-743.0, Euclid Avenue Corridor Improvements.

Justification: Euclid Avenue carries a traffic volume in excess of its design capacity, resulting in significant congestion, which impacts neighboring properties. Traffic speed, volume, and a deficiency in pedestrian infrastructure compromise pedestrian safety.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project implements the Mid-City Communities Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary engineering was scheduled to begin in Fiscal Year 2001 and continued in Fiscal Year 2002. Design was completed in Fiscal Year 2004 and construction is expected to be completed in Fiscal Year 2008.

Summary of Project Changes: It is proposed to allocate \$70,000 in TransNet funding to this project for Fiscal Year 2008.

First Avenue Bridge over Maple Canyon - Rehabilitation 52-554.0

Council District: 3

Community Plan: Uptown

Description: This project provides for seismic retrofit to the abutments, expansion joints and bracing of the bridge, and for replacement of corroded rivets. Miscellaneous painting is required to prevent rusting.

Justification: This bridge needs extensive hardware restoration and replacement, miscellaneous painting, and seismic upgrades to prevent collapse during a catastrophic earthquake.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project implements the Uptown Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: An initial study was scheduled to begin in late Fiscal Year 1993. Design was scheduled to begin in Fiscal Year 1996 and was completed Fiscal Year 2006. Construction is scheduled to begin in Fiscal Year 2008.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Five Year CIP Programming 59-023.0

Council District: Citywide

Community Plan: Citywide

Description: This project will provide funding for the planning and preliminary design work for potential future transportation projects submitted by City Council, constituents, City departments and other agencies.

Justification: This project will funds for required work by City staff to evaluate, plan and perform preliminary design as requested.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: It is proposed to allocate \$600,000 in TransNet funding to this project for Fiscal Year 2008.

Streets and Bridges

Genesee Avenue - Interstate 5 to Campus Point Drive 52-373.0

Council District: 1

Community Plan: University

Description: This project provides for widening Genesee Avenue to a modified six-lane primary arterial from Interstate 5 to Campus Point Drive. The total project length is approximately 2,500 feet with Class II bicycle lanes. A separate project (CIP 52-372.0) is scheduled to redesign the freeway interchange and widen Genesee Avenue at Interstate 5.

Justification: This project is needed to improve traffic flow and is included in the Council-approved North University City Community Financing Plan and Facilities Benefit Assessment Document. See Project Number 3 in the North University City Public Facilities Financing Plan.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Land acquisition began in Fiscal Year 1995 and continued through Fiscal Year 2005. Design was scheduled in Fiscal Year 2002 and continued in Fiscal Year 2004. Construction was scheduled to begin in Fiscal Year 2006 and was rescheduled to Fiscal Year 2007.

Summary of Project Changes: It is proposed to increase total project budget to be consistent with the most current North University City Public Facilities Financing Plan authorized by City Council Resolution R-301465, dated May 31, 2006.

Streets and Bridges

Genesee Avenue - Interstate 5 to Eastgate Mall 52-594.0

Council District: 1

Community Plan: University

Description: This project provides for a median closure at Fez Street and dual left-turn lanes in the southbound direction at the Eastgate Mall intersection. See Project Number G in the North University City Public Facilities Financing Plan.

Justification: This project will improve traffic circulation in the University community.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary design was scheduled in Fiscal Year 2002. Design was scheduled in Fiscal Year 2003 and was completed in Fiscal Year 2005. Construction was scheduled in Fiscal Year 2004 and is rescheduled to Fiscal Year 2007, pending identification of funding. This schedule is contingent upon the rate of development and fees collected in the community.

Summary of Project Changes: It is proposed to increase total project budget to be consistent with the most current North University City Public Facilities Financing Plan authorized by City Council Resolution R-301465, dated May 31, 2006. As a result, unidentified funding in the project has been removed.

Streets and Bridges

Genesee Avenue - Nobel Drive to State Route 52 52-458.0

Council District: 1

Community Plan: University

Description: This project provides for widening Genesee Avenue from Nobel Drive to State Route 52 to a modified six-lane major street north of Decoro Street and a modified six-lane primary arterial south of Decoro Street. The project includes a right-turn lane, eastbound to southbound, at the Genesee Avenue/Nobel Drive intersection; additional left turn lane, including a traffic signal at State Route 52 interchange; and Class II bicycle lanes.

Justification: This project is needed to increase the capacity of this facility. See Project Number A in the North University City Public Facilities Financing Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to begin in Fiscal Year 2011, contingent upon Council approval of the project described in the University Community Plan. Land acquisition is scheduled in Fiscal Year 2011 and construction is scheduled to begin in Fiscal Year 2013.

Summary of Project Changes: It is proposed to revise project funding to reflect the most recent North University City Public Facilities Financing Plan. Total project cost is \$24,301,700.

Genesee Avenue - Northbound Dual Left Turn Lanes at Eastgate Mall 52-768.0

Council District: 1

Community Plan: University

Description: This project provides for the construction of northbound dual left-turn lanes on Genesee Avenue to Eastgate Mall. Additional right-of-way is also required. This project is NUC-52 in the North University City Public Facilities Financing Plan.

Justification: The future average daily traffic and turning volumes require dual left-turn lanes in order to maintain an acceptable level of service at the intersection.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and with the City's Progress Guide and General Plan.

Scheduling: Design was scheduled for Fiscal Year 2007. Construction is scheduled for Fiscal Year 2008.

Summary of Project Changes: It is proposed to allocate \$1,006,250 to this project in Fiscal Year 2008, consistent with the North University City Public Facilities Financing Plan.

Streets and Bridges

Genesee Avenue - Widen Interstate 5 Crossing 52-372.0

Council District: 1

Community Plan: University

Description: This project provides for widening Genesee Avenue to six lanes plus dual turn lanes with a 26-foot median (800 feet on each side of overcrossing); replacing the existing Genesee Avenue overcrossing with a higher, wider (124-foot) structure; and replacing the existing Voigt Drive bridge on the University of California San Diego campus with a longer, wider (60-foot) structure. The project also includes modification of existing ramps and auxiliary lanes on both sides of the freeway. Project scope has been increased to include Interstate 5 Corridor (freeway) improvements which will be constructed with regional funds. A separate project (CIP 52-373.0) is scheduled for widening Genesee Avenue from Interstate 5 to Campus Point Drive.

Justification: This project is needed to improve traffic flow. It is included in the Council-approved North University City Public Facilities Financing Plan as Project Number 24.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and land acquisition were scheduled to begin in Fiscal Year 1996. Land acquisition is rescheduled in Fiscal Year 2008 due to required environmental documentation. Design is scheduled to continue through Fiscal Year 2008 due to increased scope. Construction is rescheduled to Fiscal Year 2010 as a result of the increase in scope to include Interstate 5 Corridor Improvements. This schedule is contingent upon the rate of development and fees collected in the community.

Summary of Project Changes: It is proposed to increase project scope to include Interstate 5 Corridor (freeway) improvements which will be constructed with regional funds. As a result, total project cost has increased to \$390,000,000. Of this amount, \$365,700,000 is unidentified. Additionally, it is proposed to allocate \$3,200,000 to this project for Fiscal Year 2008, consistent with the North University City Public Facilities Financing Plan.

Streets and Bridges

Georgia Street Bridge/University Avenue Separation Replacement 52-555.0

Council District: 3

Community Plan: Greater North Park

Description: This project provides for replacing the bridge, the adjacent retaining walls and the corresponding guardrails along the bridge walls.

Justification: This bridge has severe spalling due to age and has severe height limitations which need to be corrected. Trucks continue to hit the low arches of the bridge. The retaining walls on either side are an integral part of the bridge and also need restoration or replacement. The guardrails of the bridge and adjacent walls are deteriorating.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project implements the Greater North Park Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design was scheduled to begin in Fiscal Year 1994 and is scheduled to continue through Fiscal Year 2008 due to environmental and funding delays. Construction will be scheduled following completion of the environmental process and final design.

Summary of Project Changes: It is proposed to allocate \$200,000 in TransNet funding to this project for Fiscal Year 2008.

Streets and Bridges

Interstate 5/State Route 56 North Freeway Connectors 52-311.0

Council District: 1

Community Plan: Carmel Valley

Description: This project provides for the preparation of a project report and environmental document (PR/ED) for northerly connections of the Interstate 5 and State Route 56 freeways. The improvements include the westerly State Route 56 to northerly Interstate 5, the southerly Interstate 5 to easterly State Route 56 connections.

Justification: State Route 56 opened to traffic in July of 2004 and provides a new east/west connection between Interstates 5 and 15. This will introduce a significantly new volume of traffic to the Interstate 5 corridor in Carmel Valley, some of which will need to go to or from the north. This project will provide the improvements necessary to make these moves most efficiently and avoid the heavy use of local streets.

Operating Budget Effect: None. These facilities are operated by the State of California.

Relationship to General and Community Plans: This project is consistent with both the Carmel Valley Community Plan and in conformance with the City's Progress Guide and General Plan.

Scheduling: Preparation of a PR/ED began in Fiscal Year 2004 and is scheduled to continue through Fiscal Year 2008.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges
Jackson Drive Median Replacement 52-760.0

Council District: 7

Community Plan: Navajo

Description: This project will remove the existing asphalt paved medians and replace them with new decorative stamped concrete medians.

Justification: The existing asphalt cover is deteriorated. This project will substantially upgrade the appearance of the medians.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Navajo Community Plan is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2008. Construction will be scheduled upon identification of funding.

Summary of Project Changes: It is proposed to reschedule design and construction due to reallocation of resources.

Streets and Bridges

Judicial Drive - Golden Haven Drive to Eastgate Mall 52-678.0

Council District: 1

Community Plan: University

Description: This project provides for constructing Judicial Drive from Golden Haven Drive to Eastgate Mall as a four-lane major street, including an undercrossing at La Jolla Village Drive. The undercrossing will be funded by Facilities Benefit Assessment (FBA) funding.

Justification: This project is needed to improve traffic flow, and it is included in the Council-approved North University City Community Financing Plan and Facilities Benefit Assessment Document. See Project Number 33 in the North University City Public Facilities Financing Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is complete. Reimbursement for construction costs will be made from continuing appropriations.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

La Jolla Mesa Drive Sidewalk 52-780.0

Council District: 1

Community Plan: La Jolla

Description: This project will provide for curb, gutter, and sidewalk on the east side of La Jolla Mesa south of Deer Hill Court.

Justification: This project is required in order to provide traffic safer pedestrian access.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the La Jolla Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled for Fiscal Year 2008. Construction is scheduled to begin in Fiscal Year 2009.

Summary of Project Changes: It is proposed to allocate \$115,000 in TransNet funding to this project for Fiscal Year 2008.

Streets and Bridges

La Jolla Museum Traffic Circle 52-776.0

Council District: 1

Community Plan: La Jolla

Description: This project will provide for intersection improvements at Prospect Street and Silverado Street.

Justification: The arrangement of the existing intersection does not meet current geometric standards. This makes effective traffic circulation and pedestrian usage difficult. This project would address these issues through the installation of a roundabout or similar improvements.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the La Jolla Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and environmental documentation are scheduled to be complete in Fiscal Year 2009.

Summary of Project Changes: It is proposed to allocate \$150,000 in TransNet funding to this project in Fiscal Year 2008.

Streets and Bridges

La Jolla Village Drive and Regents Road 52-595.0

Council District: 1

Community Plan: University

Description: This project provides for a southbound-to-westbound right-turn lane at the La Jolla Village Drive/Regents Road intersection. A Class II bike lane is included for southbound bicyclists. Additional right-of-way will be acquired from the University of California San Diego at no cost.

Justification: This project is needed to improve traffic flow at this intersection. See Project Number 41 in the North University City Public Facilities Financing Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary design was completed in Fiscal Year 1995. Design was scheduled to begin in Fiscal Year 1999 and continued through Fiscal Year 2000. Construction was rescheduled to begin in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: It is proposed to revise project funding to reflect the most recent North University City Public Facilities Financing Plan adopted by City Council Resolution R-301465, dated May 31, 2006.

La Jolla Village Drive/Interstate 805 Interchange Ramps 52-485.0

Council District: 1

Community Plan: University

Description: This project provides for converting the existing La Jolla Village Drive/Interstate 805 full cloverleaf interchange configuration to a partial cloverleaf configuration, including widening the overpass structure and approaches to provide three through lanes with an auxiliary lane in each direction. The project also provides for widening La Jolla Village Drive to eight lanes and for constructing three lanes to the southbound on-ramp. Bike lanes will be included.

Justification: This project is needed to improve traffic circulation and safety in the University community. See Project Number C in the North University City Public Facilities Financing Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and land acquisition were scheduled to begin in Fiscal Year 2001. Design continued in Fiscal Year 2004. Construction began in Fiscal Year 2007 and is scheduled to continue into Fiscal Year 2009. This schedule is contingent upon the rate of development and fees collected in the community.

Summary of Project Changes: It is proposed to revise project funding to reflect the most recent North University City Public Facilities Financing Plan adopted by City Council Resolution R-301465, dated May 31, 2006.

Streets and Bridges

Linda Vista Road at Genesee Avenue 52-754.0

Council District: 6

Community Plan: Linda Vista

Description: This project provides for the lengthening of the Genesee Avenue westbound left-turn lanes to 300 feet of vehicle storage and the re-striping of Genesee Avenue to provide an exclusive eastbound right-turn lane. It will also widen Linda Vista Road to provide an exclusive northbound right-turn lane.

Justification: This project will improve the traffic flow through the intersection.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Scheduling: Since the project description is preliminary and the scope of work is not established, only planning and other preliminary activities have been performed to date. The project schedule for design and construction will be established, once the scope of work is approved, and the remaining funding identified.

Summary of Project Changes: It is proposed to increase total project cost to \$795,000. \$742,000 of this amount is unidentified.

Streets and Bridges

Little McGonigle Ranch Road - Del Mar Mesa Road to State Route 56 52-723.0

Council District: 1

Community Plan: Del Mar Mesa

Description: This project will be completed in two phases. Phase I provides for the construction of Little McGonigle Ranch Road (formerly Camino Santa Fe) (45'/65') from the northerly terminus of Carmel Mountain Road at Del Vino Court, northwesterly to the easterly terminus of Del Mar Mesa Road. The project includes a multi-use trail adjacent to the roadway. Phase II provides for the construction of Little McGonigle Ranch Road (40'/62') from Del Mar Mesa Road to State Route 56. The project will include a 100' bridge structure. A multi-use trail will also be constructed adjacent to the roadway.

Justification: This project is required to accommodate additional traffic in Del Mar Mesa and will provide access from Del Mar Mesa to adjoining communities.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Del Mar Mesa Specific Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Land acquisition, design and construction are expected to be completed by the developer in Fiscal Year 2008. Reimbursement from the FBA will be made as funds become available.

Summary of Project Changes: It is proposed to allocate \$2,532,500 to this project in Fiscal Year 2008, consistent with the Del Mar Mesa Public Facilities Financing Plan.

Streets and Bridges

Mira Sorrento Place - Scranton Road to Vista Sorrento Parkway 52-676.0

Council District: 5

Community Plan: Mira Mesa

Description: This project provides for widening and extending Mira Sorrento Place to a four-lane collector street between Scranton Road and Vista Sorrento Parkway. It includes widening the Mira Sorrento Place/Scranton Road intersection.

Justification: This project is needed to improve traffic flow, and is included in the Council-approved Mira Mesa Community Financing Plan and Facilities Benefit Assessment Document. See Project Number 56 in the Mira Mesa Public Facilities Financing Plan.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the Mira Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and land acquisition were completed in Fiscal Year 2002. Construction began in Fiscal Year 2004 and is scheduled to be complete in Fiscal Year 2008.

Summary of Project Changes: : It is proposed to allocate \$60,000 in TransNet funding to this project for Fiscal Year 2008.

Streets and Bridges

Miramar Road - Interstate 805 Easterly Ramps to 300 Feet East of Eastgate Mall 52-679.0

Council District: 1

Community Plan: University

Description: This project provides for widening Miramar Road to eight lanes from the Interstate 805 easterly on and off ramps to 300 feet east of Eastgate Mall. It includes dual left-turn lanes at Eastgate Mall.

Justification: This project is needed to improve traffic flow, and is included in the Council-approved North University City Community Plan and Facilities Benefit Assessment Document. See Project Number 50 in the North University City Public Facilities Financing Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and land acquisition were scheduled to begin in Fiscal Year 2002 and continued through Fiscal Year 2005. Construction began in Fiscal Year 2006 and is scheduled to be complete in Fiscal Year 2008.

Summary of Project Changes: It is proposed to reschedule construction completion from Fiscal Year 2006 to Fiscal Year 2008 due to delays related to additional time required for processing stormwater protection plans, land acquisition, reclaimed water design, and environmental re-evaluation. Additionally, \$1,850,000 will be required for increases to land acquisition and construction costs. It is proposed to allocate \$925,000 in TransNet funding to this project for Fiscal Year 2008. The remaining \$2,200,000 is unidentified.

Streets and Bridges

Mission City Parkway Bridge over San Diego River 53-053.0

Council District: 6

Community Plan: Mission Valley

Description: This project provides for a new two-lane bridge extending Mission City Parkway from the intersection of Camino Del Rio North to the north over the San Diego River. Mission City Parkway would connect to Fenton Parkway, which was constructed by a developer as part of the Mission City Development. This project also provides for an additional entrance to QUALCOMM Stadium. This project description is preliminary and the amounts shown below only reflect the funding currently programmed. The total funding needs of the project will be determined once a final scope of work is established.

Justification: The bridge is part of the approved Mission City Plan, and is being constructed from funding provided by H. G. Fenton as part of the settlement with the City implementing the Mission City Development, specifically for the construction of the bridge and roadway.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Mission Valley Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Since the project description is preliminary and the scope of work is not established, only planning and other preliminary activities have been performed to date. The project schedule for the design and construction will be established, once the scope of work is approved and the remaining funding identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

MTS Station Improvement Project 52-737.0

Council District: 3

Community Plan: Southeastern San Diego

Description: This project will make improvements to various trolley stations including aesthetics and pedestrian access enhancements such as landscaping, irrigation, sidewalks, and related work. The trolley stations identified as potential sites are located at 47th Street, Euclid Avenue and Encanto/62nd Street.

Justification: This project will enhance and beautify trolley stations.

Operating Budget Effect: Maintenance will be provided by the Metropolitan Transit System (MTS).

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design was completed in Fiscal Year 2007. Construction began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Napa Street Traffic Improvements 52-430.0
Council District: 6

Community Plan: Linda Vista

Description: This project will improve traffic flow at the Napa Street/Linda Vista Road intersection. The project scope is now unidentified pending the completion of the feasibility study. This project description is preliminary and the amounts shown below only reflect the funding currently programmed. The total funding needs of the project will be determined once a final scope of work is established.

Justification: Napa Street is classified as a major street in the Linda Vista Community Plan. Current traffic volumes in excess of 19,000 average daily trips are beyond the desirable capacity of the existing facility. The proposed design would eliminate congestion by improving the intersection level of service.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project will be consistent with the Linda Vista Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Since the project description is preliminary and the scope of work is not established, only planning and other preliminary activities have been performed to date. The project schedule for the design and construction will be established once the scope of work is approved and the remaining funding identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges

National Avenue - State Route 15 to 43rd Street 52-436.0

Community Plan: Southeastern San Diego

Council District: 4, 8

Description: The first phase of this project provides for improving drainage systems at 36th Street and National Avenue and at 37th Street. The second phase of this project provides for widening National Avenue to a modified four-lane major street from State Route 15 to 43rd Street, which utilizes a 60/80 street width. This project does not include widening the bridge over South Chollas Creek.

Justification: National Avenue is classified as a major street in the Southeastern San Diego Community Plan. Current traffic volumes in excess of 13,500 average daily trips are beyond the desirable capacity of the existing facility, which is striped for two traffic lanes. Improvement of this facility to accommodate four traffic lanes is required to assure efficient movement of traffic.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Southeastern San Diego Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design of Phase I was completed in Fiscal Year 2001. Construction, to address the drainage issues, began in Fiscal Year 2003 and was completed in Fiscal Year 2004. Design and construction of the road improvement will be scheduled upon identification of funds.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges
Navajo Road Median Enhancement 52-668.0
Council District: 7

Community Plan: Navajo

Description: Phases I, II and III of the project which provided for the installation of landscaped medians are complete. New phases of work will include installing drainage in medians on Navajo Road and the renaming of Navajo Road to Mission Trails Parkway.

Justification: The existing asphalt cover is deteriorated. This project will substantially upgrade the appearance of the median.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Navajo Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Construction of Phase II and Phase III is complete. Drainage improvements were completed in Fiscal Year 2006. The new phases of work were scheduled to begin in Fiscal Year 2006, and will continue in Fiscal Year 2007 provided adequate funding exists once scope is determined.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges

Nobel Drive Extension and Interstate 805 Interchange 52-362.0

Council District: 1

Community Plan: University

Description: This project provides for construction of Nobel Drive as a six-lane primary arterial from Shoreline Drive to Interstate 805, and as a four-lane major street from Interstate 805 to Miramar Road. It includes construction of one-half of a diamond interchange with ramps to and from the south at Nobel Drive and Interstate 805. The new overcrossing will provide four through-lanes plus dual left-turn lanes, bike lanes, and sidewalk on both sides. Two traffic signals will be constructed at both ramp terminals with Nobel Drive. Auxiliary lanes will be constructed on Interstate 805 from north of Governor Drive to Nobel Drive. The existing bridge over the AT&SF railroad tracks will be widened to accommodate these two additional auxiliary lanes on Interstate 805.

Justification: This project will improve traffic circulation in the University Community. See Project Number 21 in the North University City Public Facilities Financing Plan.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The Nobel Drive extension was completed and opened for public use on February 1, 2002. The project will be closed out upon completion of the requisite five-year mitigation maintenance period.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges

North Harbor Drive Bridge over Navy Estuary 53-038.1

Council District: 2

Community Plan: Peninsula

Description: This project provides for the seismic retrofit of the North Harbor Drive Bridge, which will consist of stabilizing the existing piers and joining the paired piers together at the waterline to increase support during seismic events.

Justification: The North Harbor Drive Bridge over Navy Estuary has been identified as a seismically deficient bridge by Caltrans.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Peninsula Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design was completed in Fiscal Year 2007. Construction is scheduled for Fiscal Year 2008 pending receipt of Highway Bridge Replacement and Repair (HBRR) funding.

Summary of Project Changes: It is proposed to increase total project cost to \$17,906,743. State and HBRR funding in the amount of \$15,397,620 was identified for this project in Fiscal Year 2007. Upon receipt of funds, construction of the project can proceed.

Streets and Bridges

North Torrey Pines Road - Genesee Avenue to Torrey Pines Science Park 52-616.0

Council District: 1

Community Plan: University

Description: This project provides for median curb and gutter, drainage and landscaping improvements, from 600 feet north of Genesee Avenue to the northern boundary of the Torrey Pines Science Park subdivision.

Justification: This project will improve safety and drainage on North Torrey Pines Road. See Project Number D in the North University City Public Facilities Financing Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary design was completed in Fiscal Year 2004. Design is scheduled for Fiscal Year 2008 using continuing appropriations. Construction is scheduled for Fiscal Year 2009 pending identification of funding. Maintenance Assessment District has been formed.

Summary of Project Changes: It is proposed to revise project funding to reflect the most recent North University City Public Facilities Financing Plan adopted by City Council Resolution 301465, dated May 31, 2006. Construction funds have not yet been identified for this project. Total project cost of \$4,247,000 includes unidentified funding in the amount of \$3,010,750.

Streets and Bridges

North Torrey Pines Road Bridge over Los Penasquitos Creek 53-050.0

Council District: 1

Community Plan: Torrey Pines

Description: This project provides for demolishing and reconstructing this bridge, and for transitionally widening both road approaches from approximately 770 feet south of the bridge to 1,100 feet north of the bridge.

Justification: This project is needed to replace the structurally deficient and functionally obsolete bridge.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Torrey Pines Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Environmental review was completed in Fiscal Year 2000. Design began in Fiscal Year 2000 and was completed in Fiscal Year 2003. Construction was completed in Fiscal Year 2006. Environmental mitigation and monitoring began in Fiscal Year 2006 and will continue until Fiscal Year 2011.

Summary of Project Changes: It is proposed to allocate \$112,000 in TransNet funding to this project for Fiscal Year 2008.

Streets and Bridges

Ocean Front Walk Reconstruction - San Fernando Place to Ventura Place 52-671.0

Council District: 2

Community Plan: Mission Beach

Description: This project provides for the removal and replacement of the existing pile cap, parapet wall, lights, and walkway along Ocean Front Walk between San Fernando Place and Ventura Place to their original 1925 appearance in accordance with the Secretary of the Interior Standard for the Treatment of Historic Properties.

Justification: These structures are significant to the history of San Diego. They were constructed in 1925 to protect and complement John D. Spreckels Amusement Center, now named Belmont Park. Extensive patching of spalled concrete and asphalt overlay of the walkway have robbed these structures of their character. Patching is no longer an option to restore and preserve these structures.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Mission Beach Precise Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2001 and continued in Fiscal Year 2007 using continuing appropriations. Construction will be scheduled upon identification of funding.

Summary of Project Changes: It is proposed to increase total project cost to \$4,027,000 which reflects increases to construction costs including escalated costs of steel and concrete. \$3,437,000 of the total project cost is unidentified.

Streets and Bridges

Ocean View Hills Parkway Improvements 52-681.0

Council District: 8

Community Plan: Otay Mesa

Description: This project provides for reimbursing the developer for the City's share of the design and construction of Ocean View Hills Parkway (Phases II and III) from Dennery Road to Otay Mesa Road. The project includes approximately 5,200 lineal feet of a four-lane major street and 4,900 lineal feet of a six-lane major street. See projects T 2.1, T 2.2 and T 2.3 in the Otay Mesa Public Facilities Financing Plan.

Justification: The transportation element of the Otay Mesa Community Plan suggests that an integrated transportation network will provide mobility, accessibility and safety for the residences and businesses traveling to, from and through the community.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phases I and II were completed in previous years with reimbursements to date. Phase III design was scheduled in Fiscal Year 2005, and construction was scheduled in Fiscal Year 2006. This schedule is contingent upon the rate of development and fees collected in the community.

Summary of Project Changes: The revisions to project funding reflect the most recent Otay Mesa Public Facilities Financing Plan.

Streets and Bridges

Old Otay Mesa Road - Westerly 52-642.0

Council District: 8

Community Plan: Otay Mesa

Description: This project provides for design and construction of Old Otay Mesa Road from the intersection of B Street, as shown on the Remington Hills Tentative Map, easterly to the intersection with Otay Mesa Road (Town Center Drive Extension South) as 2,400 lineal feet of a two-lane collector street. See project T-50.2 in the Otay Mesa Public Facilities Financing Plan.

Justification: The transportation element of the Otay Mesa Community Plan suggests that an integrated transportation network will provide mobility, accessibility and safety for persons traveling to, from and through the community. This project is being funded with Facilities Benefit Assessment Fees funding because there is either no project fronting this roadway or the projects fronting the roadway are also public facility projects, e.g., school, park. Should the adjacent properties ever develop, these properties shall reimburse the Facilities Benefit Assessment Fees Fund for the actual cost of the project as a condition of approval of their developments.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is required in and consistent with the Otay Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled in Fiscal Year 2008. Construction is scheduled in Fiscal Year 2009. This schedule is contingent upon the rate of development and fees collected in the community.

Summary of Project Changes: It is proposed to allocate \$850,000 to this project for Fiscal Year 2008, consistent with the Otay Mesa Public Facilities Financing Plan.

Old Otay Mesa Road Sidewalk 52-775.0

Council District: 8

Community Plan: Otay Mesa

Description: This project will provide for asphalt sidewalk, berm and retaining walls from Hawkin Drive to 1,100 feet west of Crescent Bay Drive.

Justification: This project is required in order to provide a safe and effective route for pedestrian traffic.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled for Fiscal Year 2008. Construction is scheduled for Fiscal Year 2009.

Summary of Project Changes: It is proposed to allocate \$200,000 in TransNet funding to this project in Fiscal Year 2008.

Otay Truck Route Widening Phase III 52-682.1

Council District: 8

Community Plan: Otay Mesa

Description: The Otay Truck Route Widening project, Phase III, will construct an additional lane along the existing truck route from Drucker Lane to the Port of Entry in order to allow for emergency vehicle access.

Justification: The additional lane is needed for safety reasons.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design was completed in Fiscal Year 2005. Construction began in Fiscal Year 2006 and is scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: This project was awarded \$3,200,000 of Federal and State grant funding. Upon receipt of funds, the total project cost will be increased to \$4,635,000. Additionally, FBA funding in the project has been reduced to reflect the most current Otay Mesa Public Facilities Financing Plan.

Overhead/Other City Costs for Streets Projects 58-007.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the portion of the City overhead charges that a grantee does not allow to be charged to grant-funded street and right-of-way projects. This annual allocation also funds other costs incurred by City forces on grant-funded projects and other design streets projects.

Justification: Annually, the City Auditor and Comptroller calculate the overhead rate to be charged to each department.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the appropriate community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Project Scheduled in Fiscal Year: Fiscal Year 2007 funding was provided to the Bridge Maintenance program as grant matching funds.

Summary of Project Changes: It is proposed to allocate \$75,000 in Capital Outlay funding to this project for Fiscal Year 2008. The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Palm Avenue Roadway Improvements 52-764.0

Council District: 8

Community Plan: Otay Mesa/Nestor

Description: This project provides for vehicular and traffic safety improvements on Palm Avenue from Beyer Way to Interstate 805. The improvements include installation of raised center medians, turn pockets, traffic signal, pedestrian refuge area, crosswalks, landscaping, striping, signage and other roadway improvements within the project area. Subsequent phases of this project may include further analysis of the pedestrian and streetscape aspects of the project area.

Justification: These improvements will benefit the community by increasing the safety and flow of traffic.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa-Nestor Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary project planning was scheduled to begin in Fiscal Year 2007 and is scheduled to be completed by Fiscal Year 2008. Design is scheduled to begin in Fiscal Year 2008 and is scheduled to be completed in Fiscal Year 2009. Construction is scheduled for Fiscal Year 2009 pending identification of funding.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges

Palm Avenue/Interstate 805 Interchange 52-640.0

Council District: 8

Community Plan: Otay Mesa, Otay Mesa/Nestor

Description: This project provides for improving the Palm Avenue/Interstate 805 interchange in three phases. The first phase has been completed. The second phase consists of repairs to the bridge approaches and abutments, bridge widening to the south and installation of sidewalk, signal, restriping and signage modifications. The third stage consists of bridge widening to the north, relocation of north bound on ramp and off ramp; and widening of the two on-ramps.

Justification: This project is required to accommodate the additional traffic generated as a result of development in the Otay Mesa Community. Improvements to this interchange will also help to reduce traffic volumes on State Route 905.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa and Otay Mesa/Nestor Community Plans. This project is in conformance with the City's Progress Guide and General Plan. See Projects T1.1, 1.2, 1.3 and 1.4 in the Otay Mesa Public Facilities Financing Plan.

Scheduling: Phase I was completed. Phase II design was completed in Fiscal Year 2006 and construction is scheduled in Fiscal Year 2009. Phase III environmental study is scheduled in Fiscal Year 2008, with design scheduled in Fiscal Year 2011. Construction for Phase III is scheduled to begin in Fiscal Year 2013 pending identification of funding. This schedule is contingent upon the rate of development and fees collected in the community.

Summary of Project Changes: It is proposed to allocate \$1,669,500 in FBA funding and \$50,000 in TransNet funding to this project for Fiscal Year 2008.

Streets and Bridges

Pershing Drive/Redwood Street Intersection 52-696.0

Council District: 3

Community Plan: Greater North Park

Description: This project originally proposed to reconfigure the intersection of Pershing Drive and Redwood Street to a "T" configuration. A roundabout was the preferred Community and Council District improvement. An interim striping plan was implemented. The total funding needs of the project are reflective of a permanent roundabout improvement.

Justification: The re-configuration of this intersection will improve traffic control and safety.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: The project implements the East Mesa Precise Plan and the Greater North Park Community Plan. It is in conformance with the City's Progress Guide and General Plan.

Scheduling: Since the project description is preliminary and the scope of work is not established, only planning and other preliminary activities have been performed to date. The project schedule for the design and construction will be established once the scope of work is approved and the remaining funding identified.

Summary of Project Changes: It is proposed to increase continuing appropriations by \$150,000 to reflect funding received from a Community-Based Transportation Planning Grant, authorized in Fiscal Year 2007. Unidentified funding in the project has been reduced by a like amount.

Potomac Street Improvements 52-777.0

Council District: 4

Community Plan: Skyline/Paradise Hills

Description: This project will install concrete sidewalk with curb and gutter on Potomac Street along the west side of the road adjacent to the Paradise Hills Community Park.

Justification: The surrounding streets to the Paradise Hills Community Park, Potomac Street and Paradise Valley Road, have existing sidewalk, except for the segment in front of the park site. The concrete sidewalk will improve pedestrian access to the park.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Skyline/Paradise Hills Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction are scheduled for Fiscal Year 2008.

Summary of Project Changes: It is proposed to allocate \$380,000 in TransNet funding to this project for Fiscal Year 2008.

Rancho Bernardo Street and Sidewalk Improvements 52-700.0

Council District: 5

Community Plan: Rancho Bernardo

Description: This project provides for improvements to streets and sidewalks throughout the community as needed. Other improvements may include, but are not limited to, installation of landscaping and irrigation systems and construction of retaining and sound walls.

Justification: This project will provide funding for the needed street and sidewalk improvements.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Rancho Bernardo Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction will begin when funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges

Regents Road - Executive Drive to Genesee Avenue 52-680.0

Council District: 1

Community Plan: University

Description: This project provides for widening Regents Road to a modified four-lane major street from Genesee Avenue to Executive Drive. Also included is the relocation of the Genesee Avenue/Regents Road intersection to the east. The project will include bike lanes. This project description is preliminary and the amounts shown below only reflect the funding currently programmed. The total funding needs of the project will be determined once a final scope of work is established.

Justification: This project is needed to improve traffic flow, and it is included in the Council-approved North University City Community Financing Plan and Facilities Benefit Assessment Document. See Project Number 13 in the North University Public Facilities Financing Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Since the project description is preliminary and the scope of work is not established, only planning and preliminary activities have been performed to date. The project schedule for the design and construction will be established, once the scope of work is approved and the remaining costs identified.

Summary of Project Changes: It is proposed to increase total project cost by \$2,445,000 per North University City Public Facilities Financing Plan adopted by City Council Resolution number R-301465, dated May 31, 2006.

Streets and Bridges

Regents Road Bridge 53-044.0

Council District: 1

Community Plan: University

Description: This project provides for an 870-foot long bridge spanning the AT&SF Railroad and a portion of the flood plain. Additionally, this project will provide for a four-lane major street with Class II bike lanes on Regents Road from the AT&SF railroad bridge to 100 feet north of Lahitte Court as well as widening the existing half width street to a four-lane major street from 100 feet north of Lahitte Court to Governor Drive, including Class II bike lanes. The project includes the Limited Roadway Changes which are: the widening of westbound Governor Drive to provide an additional left-turn lane to southbound, and a right-turn lane to northbound Regents Road; the widening of the southbound portion of Regents Road at the State Route 52 eastbound entrance ramp; an additional left-turn lane for traffic entering the eastbound ramp; an additional right-turn lane from the park access to the ramp; the widening of the southbound portion of Genesee Avenue at the State Route 52 eastbound ramp to provide an additional left-turn lane for traffic entering the eastbound ramp.

Justification: This project will complete Regents Road and provide continuous access to northern communities. This project is included in the Council-approved North University City Financing Plan and Facilities Benefit Assessment Plan as Project Number NUC-18.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to begin in Fiscal Year 2007. Land acquisition is scheduled for Fiscal Year 2008 and construction is scheduled to begin in Fiscal Year 2009.

Summary of Project Changes: Per City Council direction, this project will be combined with CIP 52-368.0, Regents Road - 100 Feet North of Lahitte Court to Governor Drive, and CIP 52-302.0, Regents Road - AT&SF Railroad Bridge to 100 Feet North of Lahitte.

Reo Drive Streetscape 39-233.0

Council District: 4

Community Plan: Skyline/Paradise Hills

Description: This project provides for a vision and implementation strategy for rehabilitating an older commercial strip development on Reo Drive between Albemarle Street and Cumberland Street in the heart of Paradise Hills. Phase I added crosswalks, pop-outs, and surface improvements on Reo Drive between Albemarle Street and Cumberland Drive. Phase II will widen Reo Drive from 60 to 80 feet, including diagonal parking, and surface improvements between Albemarle Street and Cumberland Drive.

Justification: Revitalization of this strip will encourage commercial opportunities in this underserved community.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Skyline/Paradise Hills Community Plan, and it is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I design and construction have been completed. Land acquisition was dedicated to the City. Phase II design has been completed and construction will be scheduled when funding and maintenance assessment district are identified.

Summary of Project Changes: It is proposed to allocate \$650,000 in TransNet funding to this project for Fiscal Year 2008.

Rosecrans Street Corridor Improvements 52-209.0

Council District: 2

Community Plan: Midway/Pacific Highway Corridor,
Peninsula

Description: This project provides for improvements to the former State Route 209, which includes all or parts of Camino del Rio West, Rosecrans Street, Canon Street, Catalina Boulevard, and Cabrillo Memorial Drive. Improvements include widening Camino del Rio West from an existing six-lane major street between Sports Arena Boulevard and Interstate 5 to an eight-lane primary arterial. Other improvements consist of upgrading the sidewalk facilities, including installation of pedestrian ramps where none currently exist and traffic signal modifications.

Justification: This project is funded with State cooperative agreement funding as part of the relinquishment of State Route 209 to the City of San Diego.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Peninsula and Midway Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Since the project description is preliminary and the scope of work is not established, only planning and other preliminary activities have been performed to date. The project schedule for the design and construction will be established once the scope of work is approved and the remaining funding identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

San Diego River Path Study 52-781.0

Council District: 6, 7

Community Plan: Mission Valley, Navajo

Description: This project will provide for a study to complete the bicycle facility along the San Diego River through Mission Valley to Mission Trails Park.

Justification: This project will provide an alternate to Friars Road and Mission Gorge Road for bicycles and pedestrians along the San Diego River.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Mission Valley and Navajo Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary engineering is scheduled to be complete in Fiscal Year 2009.

Summary of Project Changes: It is proposed to allocate \$75,000 in TransNet funding to this project in Fiscal Year 2008.

Streets and Bridges

Saturn Boulevard - Palm Avenue to Coronado Avenue 52-553.0

Council District: 8

Community Plan: Otay Mesa/Nestor

Description: This project provides for widening the west side of Saturn Boulevard to a four-lane collector street from Palm Avenue to Coronado Avenue. Improvements include construction of concrete curb, gutter, sidewalk, drainage facilities, asphalt concrete pavement, and landscaping as necessary.

Justification: This project is needed to widen the existing southbound traffic lanes to a four-lane collector and to standardize the street width to accommodate the increase in traffic volume.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa/Nestor Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary design was scheduled in Fiscal Year 1994 and Fiscal Year 1995. Design was completed in Fiscal Year 2002. Construction is scheduled to begin upon identification of funding.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges

Scripps Ranch Boulevard - Carroll Canyon Road to Aviary Drive 52-357.0

Council District: 5

Community Plan: Scripps Miramar Ranch

Description: This project provides for constructing a fourteen-foot landscaped center median with left-turn pockets and additional pavement in the unimproved median area from Carroll Canyon Road to Aviary Drive. The street will be striped to include bike lanes and parking on both sides.

Justification: Scripps Ranch Boulevard is classified as a four-lane major street. This project will complete this section of roadway. See Project Number 34-1 in the Scripps Miramar Ranch Public Facilities Financing Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary design occurred in previous years. Design was completed in Fiscal Year 2006. Construction was scheduled to begin in Fiscal Year 2006 and to be completed in Fiscal Year 2008.

Summary of Project Changes: It is proposed to increase total project cost by \$500,000 due to escalating construction costs. Total project cost is \$1,500,000. The additional funding is currently unidentified.

Scripps Ranch/Mira Mesa Boulevard Medians 52-358.0

Council District: 5

Community Plan: Scripps Miramar Ranch

Description: This project provides for median improvements, including landscaping, on Scripps Ranch Boulevard between Hibert Street and Mira Mesa Boulevard and on Mira Mesa Boulevard from Interstate 15 to Scripps Ranch Boulevard.

Justification: This portion of Scripps Ranch Boulevard and Mira Mesa Boulevard is classified as a four-lane major street. The median improvement will improve vehicle access and operations. See Project Number 34 - 2A in the Scripps Miramar Ranch Public Facilities Financing Plan.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2004 and continued into Fiscal Year 2007. Construction is scheduled to begin in Fiscal Year 2008. This schedule is contingent upon the rate of development and fees collected in the community.

Summary of Project Changes: It is proposed to revise project funding to be consistent with the most recent Scripps Miramar Ranch Public Facilities Financing Plan.

Shirley Ann Place Sidewalks and Lighting 39-087.0

Council District: 3

Community Plan: Greater North Park

Description: The Shirley Ann Place Historical District Pedestrian-Oriented Street Lighting and Improvements provides for installation of four pedestrian-oriented street lights, construction of pop-outs and reconstruction of sidewalks within the Shirley Ann Place Historical District in the University Heights Community. Recommendations made by the Shirley Ann Place Historic Designation and Revitalization Committee were developed in recognition of the need for lighting improvements, community identifying landmarks and pedestrian safety. The comprehensive program that was developed by Shirley Ann Place residents and City staff relate to improving the character and visual quality of the street.

Justification: Recommendations made by the Shirley Ann Place Historic Designation and Revitalization Committee were developed in recognition of the need for lighting improvements, community identifying landmarks and pedestrian safety.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Greater North Park Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction of sidewalk improvements began in Fiscal Year 2006 and were completed in Fiscal Year 2007. It is anticipated additional funds may be received for future needs.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streets and Bridges

Shoal Creek Pedestrian Bridge 54-012.0

Council District: 5

Community Plan: Carmel Mountain Ranch

Description: This project will provide for the construction of a pedestrian bridge along Shoal Creek Drive to facilitate crossing Ted Williams Parkway. This phase of the project includes design and environmental studies.

Justification: The intersection is in close proximity to Shoal Creek Elementary School and has a high volume of children crossing Ted Williams Parkway. This project will increase pedestrian safety and was requested by City Council and the community.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Carmel Mountain Ranch Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to begin in Fiscal Year 2007. Construction will be scheduled upon identification of funding.

Summary of Project Changes: It is proposed to allocate \$50,000 in TransNet funding to this project for Fiscal Year 2008.

Skyline at Cardiff Improvements 52-779.0

Council District: 4

Community Plan: Skyline/Paradise Hills

Description: This project will provide for a pop-out on the northwest corner of Skyline and Cardiff.

Justification: This project is required in order to provide traffic calming and safer pedestrian crossing.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Skyline Paradise Hills Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled for Fiscal Year 2008. Construction is scheduled for in Fiscal Year 2009.

Summary of Project Changes: It is proposed to allocate \$25,000 in TransNet funding to this project in Fiscal Year 2008.

Streets and Bridges

Skyline Drive Median & Parkway Improvements 52-763.0

Council District: 4

Community Plan: Skyline/Paradise Hills

Description: This project will provide for improvements along Skyline Drive from Sears Avenue to 58th Street. These improvements include landscaped medians, trees, pavement enhancements, street lights, bus stops, pedestrian crossing improvements, traffic calming, and community signs.

Justification: This project will provide for median and parkway improvements along Skyline Drive.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Skyline/Paradise Hills Community Plan and is in conformance with the City's General Plan and Progress Guide.

Scheduling: The project is in the preliminary planning phase and the project schedule for design and construction will be established once the scope of work is identified.

Summary of Project Changes: It is proposed to increase TransNet funding by \$250,000 per City Council Resolution R-301959, dated October 10, 2006. Additionally, it is anticipated that \$800,000 in SAFETEA-LU funding will be available for this project. This amount is reflected as unidentified funds pending receipt of grant agreements.

Streets and Bridges

Sorrento Valley Road & Interstate 5 Interchange 52-765.0

Community Plan: Torrey Pines

Council District: 1

Description: This project will provide for a new freeway interchange to address traffic congestion. The project will be constructed in coordination with Caltrans and FHWA. Land acquisition will be required.

Justification: Traffic is at Level of Service I and is severely impacted by stoppage for trains at the Coaster Station.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Torrey Pines Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary Design began in Fiscal Year 2007. Design and land acquisition are scheduled in Fiscal Year 2010 and construction is scheduled for Fiscal Year 2011 contingent upon receipt of funding.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Engineering & Capital Projects

Streets and Bridges

Sports Arena Boulevard - Rosecrans Street to Midway Drive 52-503.0

Council District: 2

Community Plan: Midway/Pacific Highway Corridor

Description: This project provides for modifying the intersection of Sports Arena Boulevard, Rosecrans Street, and Camino del Rio West and widening Sports Arena Boulevard to a six-lane major street between Midway Drive and Rosecrans Street by modifying the median and restriping the street. This project description is preliminary and the amounts shown below only reflect the funding currently programmed. The total funding needs of the project will be determined, once a final scope of work is established.

Justification: The eastbound traffic on Sports Arena Boulevard will be able to continue eastbound through the intersection of Sports Arena Boulevard/Rosecrans Street/Camino del Rio. Widening Sports Arena Boulevard will improve the traffic circulation. The average number of daily trips forecast for this segment of Sports Arena Boulevard is 50,000.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Midway/Pacific Highway Corridor Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Since the project description is preliminary and the scope of work is not established, only planning and other preliminary activities have been performed to date. The project schedule for the design and construction will be established, once the scope of work is approved and the remaining funding identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Engineering & Capital Projects

Streets and Bridges

Spring Canyon Road between Scripps Ranch Boulevard and Pomerado Road 52-307.0

Council District: 5

Community Plan: Scripps Miramar Ranch

Description: This project provides for the installation of traffic signals at three locations and the construction of raised medians at a number of intersections to reduce cut-through traffic on local collector streets. The project includes interconnection of the traffic signals in the segment. Specific locations to be determined by a traffic study which is included in this scope of work.

Justification: The traffic signals would allow pedestrians to cross at controlled intersections. The raised medians at the three intersections would provide additional control of the traffic movements. The additional raised medians at specific intersections would reduce cut-through traffic on local collector streets. Interconnecting the traffic signals would be an effective means of controlling traffic speeds without sacrificing roadway capacity.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Rancho Encantada Precise Plan and Scripps Miramar Ranch Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Traffic study is scheduled for Fiscal Year 2008. Design is scheduled for Fiscal Year 2009 and construction is scheduled for Fiscal Year 2010. These improvements will be assured by the City Engineer concurrent with the construction of the first residential units in Rancho Encantada.

Summary of Project Changes: Project schedule and cost have been revised to reflect the most recent Rancho Encantada Precise Plan.

Streets and Bridges

State Route 163 and Friars Road 52-455.0

Council District: 6

Community Plan: Mission Valley

Description: This project provides for construction of a new southbound State Route 163 to westbound Friars Road off-ramp, widening of the Friars Road overcrossing structure to eight lanes extending to Frazee Road, construction of a third westbound lane on Friars Road to Fashion Valley Road, an exclusive right-turn lane on southbound Frazee Road to westbound Friars Road, and other modifications to the existing on and off-ramps and improvements to the existing State Route 163 southbound travel lanes to improve the weaving problems. This project also includes an auxiliary lane on southbound State Route 163 from Genesee Avenue to westbound Interstate 8, which requires major structural work to widen the bridge over the San Diego River. Additionally, over 5,300 feet of retaining walls will need to be constructed along State Route 163 and Friars Road, including one that is over 30 feet high.

Justification: This project will alleviate some of the severe traffic delays along Friars Road due to new development in Mission Valley and the backup that occurs on the existing southbound off-ramp because of the weaving situation with the southbound on-ramp.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Mission Valley Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary engineering was scheduled in Fiscal Year 1996. Design began in Fiscal Year 2002 and will continue through Fiscal Year 2009 pending identification of funds. Land acquisition and construction are scheduled to begin in Fiscal Year 2010 pending identification of funding.

Summary of Project Changes: It is proposed to allocate \$4,000,000 in TransNet funding to this project for Fiscal Year 2008.

Engineering & Capital Projects

Streets and Bridges

State Route 56/Interstate 15 Interchange Improvements 52-771.0

Council District: 1

Community Plan: Pacific Highlands Ranch

Description: This project provides for the design and construction of the missing loop ramp in the southeast quadrant of SR-56 at I-15 in Rancho Penasquitos for eastbound to northbound movements to eliminate the need for making left turns at the existing traffic signal. It will also widen the southbound to westbound ramp and the eastbound to southbound ramp. (See Project T-1.6 and Black Mountain Ranch PFFP Project T-56.)

Justification: This facility is required to accommodate the additional traffic generated as a result of development in the I-15 Corridor, with Pacific Highlands Ranch contributing its fair share based on percentage of increased traffic.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Pacific Highlands Ranch Public Facility Financing Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Construction is scheduled to be complete in Fiscal Year 2008.

Summary of Project Changes: It is proposed to allocate \$580,000 from the Pacific Highlands Ranch FBA in Fiscal Year 2008.

Streets and Bridges

State Route 905 52-697.0

Council District: 8

Community Plan: Otay Mesa

Description: This project provides the debt service for TransNet funding used for the City's contribution to the State Route 905 project.

Justification: From Fiscal Year 2003 through Fiscal Year 2007, the two Facilities Benefit Assessments within the State Route 905 Corridor and the Otay Mesa community planning area will reimburse the TransNet funding utilized in prior fiscal years.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa Community Plan, and it is in conformance with the City's Progress Guide and General Plan.

Scheduling: In each fiscal year between Fiscal Year 2003 and Fiscal Year 2007, interest and/or interest plus principal payments are required from the two Otay Mesa Facilities Benefit Assessment funds.

Summary of Project Changes: Project funding has been revised to reflect the most current Otay Mesa Public Facilities Financing Plan.

Streets and Bridges

State Route 905 - Right-of-Way Acquisition/Protection 52-396.0

Community Plan: Otay Mesa

Council District: 8

Description: This project provides for a portion of the right-of-way acquisition for State Route 905 from Interstate 805 to the border and for the proposed State Route 125/State Route 905 interchange within the City of San Diego in those cases involving financial hardship and for the purpose of right-of-way protection. This project also provides for the City's share of funding for a Joint Environmental Impact Report with Chula Vista, the County, San Diego Association of Governments (SANDAG) and Caltrans.

Justification: This project provides for right-of-way acquisition only in those cases involving hardship or protection. It does not provide all required rights-of-way.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Right-of-way acquisition is scheduled annually as needed. The schedule is contingent upon the rate of development and fees collected in the community and availability of State and federal funding and is pending a future vote of the California Transportation Commission.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Streamview Drive Improvement - 54th Street to College Avenue 52-588.0

Council District: 7

Community Plan: Mid-City

Description: This project provides for street improvements to reduce excessive speeds, increase safety and reduce visual impacts with landscaping. The project limits are from 54th Street to College Avenue.

Justification: A study is required to determine solutions to several problems on Streamview Drive. Design solutions and construction, predicated on the study, will address these problems.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project implements the Mid-City Communities Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to begin in Fiscal Year 2008. Construction is scheduled in Fiscal Year 2009. This schedule is contingent upon the availability of TransNet funding in future years.

Summary of Project Changes: It is proposed to allocate \$100,000 in TransNet funding to this project for Fiscal Year 2008.

Thorn Street Median Improvements 52-406.0

Council District: 3

Community Plan: Greater North Park

Description: This project provides for construction of a landscaped median along Thorn Street between 33rd Street and Felton Street in Greater North Park.

Justification: This project provides for installation of a raised, paved median with landscaping where none currently exists.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project implements the Greater North Park Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2005. Construction is contingent upon identification of funds for both construction and landscape maintenance.

Summary of Project Changes: It is proposed to adjust project funding sources to reflect actual appropriations available for this project.

Council District: 1

Community Plan: La Jolla

Description: This project provides for reconstructing a 350-foot section of earthen slope along the south side of Torrey Pines Road between Lookout Drive and Roseland Drive.

Justification: The existing slope is eroding. This project will eliminate the possibility of soil slough landing in the travel lane of a primary arterial street.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the La Jolla Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design has been completed. Construction will be scheduled upon identification of funding.

Summary of Project Changes: It is proposed to increase total project cost to \$1,256,220 as a result of increasing construction costs and revised project cost estimate. Construction funding in the amount of \$930,000 is unidentified.

Transportation Grant Matches 59-021.0

Council District: Citywide

Community Plan: Citywide

Description: This project will provide funding for matching fund obligations for various types of transportation grants. Grants may require City matching funds as a condition of approval.

Justification: In order to qualify for future additional grant funds, it may be required to ensure City matching funds are available.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: It is proposed to allocate \$3,296,086 in TransNet funding to this project for Fiscal Year 2008.

Streets and Bridges

University Avenue and Front Street Pop-Out 52-759.0

Council District: 3

Community Plan: Uptown

Description: This project will provide for pedestrian improvements at the corner of University Avenue and Front Street and will include the construction of a pop-out on the southwest corner and a new curb ramp on the north side of the intersection.

Justification: Installation of the pop-out will shorten the crossing distance on both University Avenue and Front Street, and make pedestrians more visible to vehicular traffic travelling east on University Avenue. The pop-out will also sharpen the angle at the southwest corner of the intersection, which should result in slower speeds for eastbound right turning vehicles and provide a safer walking environment for the community.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Uptown Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction was scheduled to begin in Fiscal Year 2007 and rescheduled for Fiscal Year 2008.

Summary of Project Changes: This new project, authorized by City Council Resolution R-301958, dated October 10, 2006, will provide for pedestrian improvements at the corner of University Avenue and Front Street and will include the construction of a pop-out on the southwest corner and a new curb ramp on the north side of the intersection.

University Avenue Mobility Project 52-766.0

Council District: 3

Community Plan: Greater North Park

Description: This project provides for multi-modal improvements along University Avenue from Florida Street to Boundary Street. The project will include the installation of landscaped and painted medians, the restriping of University Avenue, and the installation of pedestrian pop-outs. Additional improvements will include the removal of one, and installation of two, new traffic signals, three enhanced pedestrian crossings with in-pavement flashers, 110 pedestrian countdown signal heads, eastbound and westbound transit/right-turn only lanes, and new bicycle racks.

Justification: This project will significantly improve safety and mobility along the corridor for pedestrians, bicyclists and transit and automobile traffic.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Greater North Park Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary design began in Fiscal Year 2007. Design was scheduled to begin in Fiscal Year 2007 and continue into Fiscal Year 2008. Construction is scheduled to begin in Fiscal Year 2008 and is scheduled to be completed in Fiscal Year 2009.

Summary of Project Changes: This project is scheduled to receive \$2,000,000 from a Smart Growth grant per City Council Resolution R-300698, dated July 25, 2005. This funding is shown as unidentified pending receipt of grant agreements.

Streets and Bridges

Village Loop Road - Carmel Valley Road East to Property Line 52-770.0

Council District: 1

Community Plan: Pacific Highlands Ranch

Description: This project will construct Village Loop Drive from the intersection of Del Mar Heights Road and Carmel Valley Road easterly to the property line (approximately 2,000 linear feet) as a four-lane collector roadway within a 108 foot right of way to provide access to the high school site and the core residential areas.

Justification: This project is dependent upon the development of the high school, community park, and core residential area as well as the village area of the community.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Pacific Highlands Ranch Public Facility Financing Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Developer (Pardee) advanced funding for this project and will be reimbursed from the Pacific Highlands Ranch Facilities Benefit Assessment under the terms of a reimbursement agreement. Reimbursement is programmed from Fiscal Year 2006 through Fiscal Year 2009.

Summary of Project Changes: It is proposed to allocate \$1,000,000 from Pacific Highlands Ranch Facilities Benefit Assessment funds in Fiscal Year 2008.

Streets and Bridges

West Mission Bay Drive Bridge over San Diego River 52-643.0

Council District: 2

Community Plan: Midway/Pacific Highway Corridor,
Mission Bay Park, Peninsula

Description: This project provides for replacing the existing four-lane bridge with an eight-lane bridge, of which two are dedicated bus lanes.

Justification: An eight-lane facility is needed to accommodate both the existing and the projected future traffic volumes. It was determined that a bridge replacement was more cost effective than widening the existing bridge.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Mission Bay Park Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary engineering was scheduled to begin in Fiscal Year 1998, however the scope changed from bridge widening to bridge replacement. Feasibility and environmental studies began in Fiscal Year 2001. Environmental clearance requirements are scheduled to continue through Fiscal Year 2009. Design is scheduled to begin in Fiscal Year 2009 and is scheduled to continue through Fiscal Year 2011. Construction is scheduled to begin in Fiscal Year 2012. This schedule is contingent upon availability of funding.

Summary of Project Changes: It is proposed to revise project funding for Fiscal Year 2008. It is proposed to allocate \$650,000 in TransNet funding to this project. Also, HBRR funds previously identified in continuing appropriations of \$9,600,000 have been reduced to \$2,200,000 to reflect actual funding authorized by City Council Resolution R-301872, dated September 12, 2006. Additionally, it is proposed to revise project schedule to accommodate environmental work which is anticipated to continue through Fiscal Year 2009.

Traffic Control

Ash Street at 2nd Avenue, 3rd Avenue, 7th Avenue, and 9th Avenue 62-210.0

Council District: 2

Community Plan: Centre City

Description: This project provides for modifying existing traffic signals on Ash Street at Second Avenue, Third Avenue, Seventh Avenue, and Ninth Avenue.

Justification: These intersections meet the requirements of Council Policy 200-06, Criteria for Installation of Traffic Signals.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Centre City Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2003. Construction was scheduled for Fiscal Year 2004, but due to State budget constraints, has been postponed until funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Traffic Control

Del Mar Heights Road Traffic Signal Interconnect 62-328.0

Community Plan: Carmel Valley, Torrey Pines

Council District: 1

Description: This project provides for the installation of traffic signal interconnect systems on Del Mar Heights Road from Mango Drive to Carmel Canyon Road, El Camino Real from Half Mile Drive to High Bluff Drive and Carmel Country Road from Del Mar Heights Road to Townsgate Drive, and will provide central communication to 16 traffic signals.

Justification: This project will accommodate the need to centrally control heavily-traveled arterials and provide constant surveillance for efficient traffic signal operation and maintenance. The benefits include reduced stops, delays, fuel consumption and emissions.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Carmel Valley and Torrey Pines Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2006. Construction is scheduled to begin in Fiscal Year 2007 and completed in Fiscal Year 2008.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Traffic Control

Guard Rails 68-006.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for installing new and replacing old guard rails along streets where needed.

Justification: The City maintains an ongoing program to promote safety within the public right-of-way. Analysis of accident patterns at a particular location will occasionally show that some minor improvements in the area will help to reduce the number and/or severity of accidents. This annual allocation provides the flexibility necessary for timely initiation of such improvements.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the appropriate community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Project Scheduled in Fiscal Year: Funding in Fiscal Year 2007 was allocated to guard rail projects at the following locations:

60th Street - Upland to Weaver and Broadway to Radio

Leghorn Drive at Skyline Drive

Bernardo Center Drive at Escala Drive

San Pasqual Road - west of Viento Valle

Camino Ruiz - Calle Morelos to Capricorn

Carmel Country Road - Shaw Valley to Sagamore

Canon Street - Talbot to Udall

28th Street - north of Treat Street

Linbrook Drive - Ulric to Acari

Summary of Project Changes: It is proposed to allocate \$300,000 of TransNet funding to this project for Fiscal Year 2008. The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Traffic Control

Navajo Road Traffic Signal Interconnect 62-329.0

Council District: 7

Community Plan: Navajo

Description: This project provides for traffic signal communication between 7 traffic signals on Navajo Road from Park Ridge Boulevard to Lake Murray Boulevard. Wireless interconnect systems will be used in order to avoid trenching on City streets.

Justification: This project will accommodate the need to centrally control heavily-traveled arterials and provide constant surveillance for efficient traffic signal operation and maintenance. The benefits include reduced stops, delays, fuel consumption and emissions.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Scheduling: Design began in Fiscal Year 2006. Construction began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Traffic Control

Pacific Highlands Ranch Traffic Signals 68-020.0

Council District: 1

Community Plan: Pacific Highlands Ranch

Description: This project provides for traffic signal installation within the community. As many as 16 different traffic signals may be required.

Justification: These signals will be installed as a part of the traffic control system for the Pacific Highlands Ranch community. They are needed to accommodate the increase in traffic generated by this community.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Pacific Highlands Ranch Subarea Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Traffic signal installation will be scheduled as the community develops.

Project Scheduled in Fiscal Year: Potential Locations:

Del Mar Heights Road at Old Carmel Valley Road

Del Mar Heights Road at Carmel Valley Road

Carmel Valley Road, nine locations

Village Loop Drive, three locations

Del Mar Heights Road at private high school entrance

El Camino Real at Derby Downs (developer/completed)

Carmel Valley Road at Village Loop Drive

Summary of Project Changes: It is proposed to revise project funding consistent with the most recent Pacific Highlands Ranch Public Facilities Financing Plan.

Safe Routes to School - Central Elementary School 62-267.0

Community Plan: Mid-City

Council District: 3

Description: This project will provide for pedestrian improvements in the vicinity of Central Elementary School. Proposed improvements include curb extensions and enhanced paved crosswalks.

Justification: Improvements in the vicinity of Central Elementary school will provide traffic calming elements to reduce traffic.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Mid-City Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design was scheduled to begin in Fiscal Year 2007. Construction is scheduled to begin in Fiscal Year 2008, using continuing appropriations.

Summary of Project Changes: This new project, authorized by City Council Resolution R-301961, dated October 10, 2006, will provide for pedestrian improvements in the vicinity of Central Elementary School.

Safe Routes To School Program - Rosa Parks Elementary School 62-265.0

Council District: 3

Community Plan: Mid-City

Description: This project provides for pedestrian safety in the vicinity of Rosa Parks Elementary School. This project involves installing school crossing signs, enhancing crosswalks, installing curb pop-outs, raised medians, street lights, and providing outreach and educational materials to parents of school children attending Rosa Parks Elementary School.

Justification: This project is the result of applications submitted to the State (Caltrans) for projects providing bicycle, pedestrian and traffic calming improvements, using federal funding provided for the Safe Routes to School (SRS) program.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project implements the Mid-City Communities Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design was scheduled to begin in Fiscal Year 2005 and completed in Fiscal Year 2006. Construction is scheduled to begin in Fiscal Year 2007 and completed in Fiscal Year 2008.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Safe Routes to School Program - Willow Elementary School 62-266.0

Council District: 8

Community Plan: San Ysidro

Description: This project provides for improved pedestrian safety around Willow Elementary school. Scope includes the construction of new sidewalks, retaining walls where needed, curb ramps, curb extensions, an enhanced school entry crosswalk, and solar flashing beacon crossing equipment.

Justification: The area surrounding Willow Elementary School has high automobile, bicycle, and pedestrian injury rates. This project will provide a safer walking environment for both students and members of the community.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the San Ysidro Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began and was completed in Fiscal Year 2006. Construction began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Traffic Control

Street Lights - Citywide 52-293.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for installing City-owned safety street lights where needed.

Justification: Additional street lights will increase the level of lighting for motorists, bicyclists and pedestrians on public streets. Transit users are especially reliant on adequate street lighting. Street lights are required at all intersections. Mid-block street light spacing has been reduced in recent years from 800 feet to 150 feet within one-quarter mile of transit stops and to 300 feet in other areas. Previous funding has not kept pace with requests for additional street lights. Locations on all streets in census tracts in which the crime rate is 1.5 times greater than the Citywide average for two or more consecutive years receive priority funding.

Operating Budget Effect: None.

Relationship to General and Community Plans: This annual allocation is consistent with the appropriate community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: It is proposed to allocate \$300,000 of TransNet funding to this project for Fiscal Year 2008. The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Traffic Control

Traffic Control/Calming Measures 61-001.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for installing traffic control measures at locations to be identified on an as-needed basis where sudden changes in the character of traffic, such as increased volumes and new route patterns, make it necessary to provide positive traffic control measures on an accelerated time schedule and respond to a variety of traffic concerns in residential neighborhoods, ranging from speeding motorists and shortcutting traffic to pedestrian safety and education. Solutions used include the construction of flashing beacons and geometric design features such as road humps and traffic islands.

Justification: This annual allocation is needed to mitigate many of the traffic problems that exist today on residential streets such as speeding, shortcutting traffic, and pedestrian safety, and to react to sudden changes in traffic characteristics.

Operating Budget Effect: None.

Relationship to General and Community Plans: This annual allocation is consistent with the appropriate community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Project Scheduled in Fiscal Year: Fiscal Year 2007 funds allocated to the following:

Road Humps at Various Locations

Driver Feedback Signs at Various Locations

Flashing Beacons at Various Locations

Summary of Project Changes: It is proposed to allocate \$600,000 of TransNet funding to this project for Fiscal Year 2008. The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Traffic Control

Traffic Signals - Citywide 68-010.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for installing traffic signals at high-priority locations and the City's share of the costs of traffic signals undertaken in cooperation with others.

Justification: The City maintains an inventory of candidate intersections which are periodically surveyed for significant changes in operating conditions. This annual allocation provides for installing traffic signals when and where needed to provide for the orderly movement of traffic, increase the traffic handling capacity of the intersection, reduce the frequency of certain types of accidents, provide for continuous movement of traffic, and to permit vehicles and pedestrians from a minor street to enter or cross continuous traffic on the major street. Cost-sharing opportunities arise at intersections of a City street with a state highway, a county road, or a street that is the responsibility of another city. The criteria for installing traffic signals are governed by Council Policy 200-6.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This annual allocation is consistent with the appropriate community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis, and as funding is identified.

Project Scheduled in Fiscal Year: Fiscal Year 2007 funding was allocated to traffic signal installations at the following locations:

47th & T

29th & Ocean View

Summary of Project Changes: It is proposed to allocate \$400,000 of TransNet funding to this project for Fiscal Year 2008. The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Traffic Control

Traffic Signals - Cooperative Projects 68-001.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the City's share of the costs of traffic signal improvements undertaken in cooperation with others.

Justification: It is often beneficial for the City to share in the cost of traffic signal improvements undertaken in cooperation with other parties. The most common situation involves the intersection of a City street with a state highway, a county road, or a street that is the responsibility of another city. This annual allocation provides the flexibility necessary for timely initiation of these improvements.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the appropriate community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: It is proposed to allocate \$200,000 in TransNet funding to this project for Fiscal Year 2008. The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Traffic Control

Traffic Signals - Modifications/Modernization 68-011.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for upgrading existing traffic signals as necessary to improve traffic flow and promote safety. Improvements may include conversion from post-mounted to mast-arm-mounted indicators, addition of pedestrian signals, and additional phases to accommodate separate turning moves.

Justification: The City maintains an ongoing program to promote safety within the public right-of-way. Analysis of accident patterns at a particular location often shows that some minor improvement would help to reduce the number and/or severity of accidents. Increasing traffic volumes and changing traffic patterns typically reduce the effectiveness and efficiency of traffic signal controls at certain intersections.

Operating Budget Effect: None.

Relationship to General and Community Plans: This annual allocation is consistent with the appropriate community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Project Scheduled in Fiscal Year: Fiscal Year 2007 funding provided for four new groups of traffic signal mods, as well as mods at 1st Avenue, Camino Santa Fe, and Harbor Drive.

Summary of Project Changes: It is proposed to allocate \$850,000 of TransNet funding to this project for Fiscal Year 2008. The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Traffic Control

Traffic Signals - Modifications/Modernization - Development Impact Fee Funded 62-290.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for upgrading existing traffic signals as necessary to improve traffic flow and promote safety. Improvements may include the addition of mast-arm-mounted signal heads, the addition of pedestrian signals, and the modification of medians to accommodate separate turning moves.

Justification: Increasing traffic volumes and changing traffic patterns typically reduce the effectiveness and efficiency of traffic signal controls at certain intersections. This allocation funds modification to traffic signals in various urbanized communities.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled based on expected Development Impact Fee revenues.

Summary of Project Changes: It is proposed to revise funding to reflect actual appropriations available for the project.

Traffic Control

Traffic Signals - Otay Mesa 68-013.0

Council District: 8

Community Plan: Otay Mesa

Description: This project provides for installing seven traffic signals at various locations within the Otay Mesa community.

Justification: These signals will be installed as a part of the traffic control system for the Otay Mesa community. They are needed to accommodate the increase in traffic generated by this community.

Operating Budget Effect: The operating budget effect will be determined upon completion of the design phase. Operating budget effect estimate can be provided concurrently with the City Council action authorizing the construction contract.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: This project includes completed traffic signals at Otay Mesa Road and Corporate Center Drive, Otay Mesa Road and Caliente Boulevard, Otay Mesa Road and Heritage Road, Otay Mesa Road and Cactus Road, Otay Mesa Road and Britannia Road, and Otay Mesa Road and La Media Road. The traffic signal at Otay Mesa Road and Piper Ranch Road will be constructed in Fiscal Year 2012.

Summary of Project Changes: It is proposed to revise funding to reflect actual funds available for the project in accordance with the Otay Mesa Public Facilities Financing plan.

Unfunded Needs List

Engineering & Capital Projects

CIP Number	Project Title	Bikeways	
		Funding Required in FY2008-2009	Funding Required in FY2010-2018
58-140.0	Bayshore Bikeway	\$ 2,977,000	\$ -
	This project provides for constructing a Class I bikeway to complete the path around San Diego Bay. It is anticipated that the Regional Surface Transportation Program funds of \$3.0 million will be received in Fiscal Year 2008; however, this amount is shown as unidentified funding until funds are received.		
58-164.0	Camino del Rio North Bike Lanes	\$ 330,000	\$ -
	This project provides for the widening of Camino Del Rio North from State Route 15 crossing to Mission City Parkway to accommodate new bike lanes. The total project cost of \$416,000 includes an unfunded amount of \$330,000.		
58-162.0	Coastal Rail Trail	\$ 2,087,100	\$ 19,000,000
	This project provides for construction of a bicycle facility between the San Diego-Del Mar city limit and Downtown San Diego, generally in the existing San Diego Northern Railway right-of-way. The total estimated project cost of \$21.8 million includes an unfunded amount of \$21.1 million.		
58-150.0	Friars Road to Pacific Highway Bike Path	\$ 500,000	\$ -
	This project provides for designing and constructing a Class I bike path connecting Friars Road to Pacific Highway. The total estimated project cost of \$589,518 includes an unfunded amount of \$500,000.		
58-147.0	Rose Creek Bikeway	\$ 3,050,000	\$ -
	This project provides for a pedestrian/bicycle bridge across Rose Creek and a paved Class I bike path to connect the westerly end of the new bridge to Pacific Beach Drive. The total estimated project cost of \$5.1 million includes an unfunded amount of \$3.0 million.		
58-191.0	San Diego River Multi-Use Bicycle and Pedestrian Path	\$ 773,000	\$ -
	This project provides for a Class I bicycle and pedestrian path from Hazard Center Drive to Fashion Valley Mall has been identified through SANDAG and the SAFETU-LU project. The total estimated project cost of \$800,000 includes an unfunded amount of \$773,000.		
58-127.0	State Route 15 Bikeway	\$ 150,000	\$ -
	This project provides for the construction of a Class I bikeway along State Route 15 from Landis Street to Adams Avenue. The total estimated project cost of \$1.3 million includes an unfunded amount of \$150,000.		
58-171.0	State Route 56 Bike Interchanges	\$ 5,395,940	\$ -
	Total project cost is \$9,850,000; \$5,395,000 of this amount is unidentified.		
58-157.0	Vista Sorrento Parkway Bike Lanes	\$ 349,500	\$ -
	This project provides for the construction of bike lanes on Vista Sorrento Parkway. The total estimated project cost of \$699,000 includes an unfunded amount of \$349,500. The developer, Terrabrook, had agreed to provide 50% of total project cost. This amount, previously budgeted as private donations, is now shown as unidentified and is increased to \$349,500.

Streets and Bridges

CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
53-061.0	Laurel Street (Cabrillo) Bridge over Highway 163 - Structural Retrofit	\$ 276,000	\$ -
	Total project cost for design is estimated to be \$420,000; \$276,000 of this amount is unidentified. Construction costs will be estimated as design progresses.		
52-409.0	43rd Street and Logan/National Avenue Intersection	\$ 2,422,375	\$ -
	This project requires funding for construction. Total project cost is \$11,377,886; \$2,422,375 of this amount is unidentified.		
52-592.0	Aldine Drive and Fairmount Avenue - Slope Restoration	\$ 1,065,767	\$ -
	Total project cost has been increased due to revised construction cost estimates, and the need for additional environmental studies and consultant services. Total project cost is \$1,650,000; \$1,065,767 of this amount is unidentified.		
52-713.0	Alvarado Canyon Road Realignment	\$ 4,190,000	\$ -
	It is proposed to remove funding previously identified as MTDB contribution, in the amount of \$1,200,000 from continuing appropriations for this project. This funding has not been received and future contributions from MTDB may be by donation of land. Unidentified funding has been increased by a like amount. There is no net change to total project cost.		
52-717.0	Bird Rock Coastal Traffic Flow Improvements	\$ 2,000,000	\$ -
	It is proposed to revise project funding to reflect an increase of \$1,400,000 in DIF funds as authorized by City Council Resolution R-302013, dated October 24, 2006. Additionally, \$2,000,000 has been identified for this project through the SANDAG Pilot Smart Growth Incentive Program. This funding currently shows as unidentified. Total project cost is \$5,583,039.		
52-519.0	Bridge Rails - Citywide	\$ 500,000	\$ 3,500,000
	An annual appropriation of \$500,000 in Fiscal Years 2009 through 2016 would provide for maintaining the current level of service. These funds have not been identified. This annual allocation provides for installing new and replacing old railing on bridges where the existing railing does not meet current standards.		
52-392.0	Carroll Canyon Road - Sorrento Valley Road to Scranton Road	\$ 29,254,000	\$ -
	It is proposed to increase total project cost to \$46,500,000 due to revised scope which includes the construction of a bridge viaduct under Interstate 805. The bridge viaduct is required to be consistent with Caltrans' future plans to build direct access ramps for high occupancy vehicles at Carroll Canyon Road. \$29,254,000 of the total project cost is unidentified.		
52-545.0	Coastal Erosion Affecting City Streets	\$ 500,000	\$ 4,000,000
	An annual increase of \$200,000 in Fiscal Year 2008 and \$500,000 in Fiscal Years 2009 through 2016 would provide for maintaining the current level of service. This annual allocation provides for corrections of miscellaneous erosion problems along the shorelines that affect City streets. This project is unfunded.		
52-686.0	Del Mar Heights Road Median - Mango Drive to City Limits	\$ 2,000,000	\$ -
	It is proposed to increase total project cost to \$2,455,000. Project scope has increased per Community request. It is anticipated that federal funding will be secured for this project. Current unidentified funds are \$2,000,000.		

Unfunded Needs List

Streets and Bridges		Engineering & Capital Projects	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
52-347.0	Division Street - Interstate 5 to 43rd Street	\$ 1,200,000	\$ -
Funds are needed for design, land acquisition and construction of this project. This project provides for widening Division Street to a modified four-lane roadway from Interstate 5 to 43rd Street. The project has been split into two phases. There will be an additional study of the feasibility of extending this project further east. \$1,200,000 of funding is unidentified.			
53-037.0	Earthquake Restrainers for Bridges	\$ 290,000	\$ 2,030,000
An annual increase of \$290,000 in Fiscal Years 2009 through 2016 would provide for maintaining the current level of service. This annual allocation provides for seismic restraining units on City bridges that are susceptible to damage during strong earthquakes. These amounts are unidentified.			
52-479.0	El Camino Real - San Dieguito Road to Via de la Valle	\$ 6,299,310	\$ -
Funds are needed for design and construction of this project. This project provides for rehabilitating and widening the existing two-lane bridge to a four-lane bridge. It also provides for widening the existing two-lane facility to a modified four-lane major road. Total project cost is \$20,300,000 of which \$6,299,310 is unidentified.			
52-743.0	Euclid Avenue Corridor Improvements	\$ 466,000	\$ 1,265,531
Total project cost is estimated at \$2,075,000; \$1,731,531 of this amount is unidentified.			
52-372.0	Genesee Avenue - Widen Interstate 5 Crossing	\$ -	\$ 365,700,000
Project scope has been increased to include Interstate 5 Corridor (freeway) improvements which will be constructed with regional funds. As a result, total project cost has increased to \$390,000,000. Of this amount, \$365,700,000 is unidentified.			
52-349.0	Interstate 8/Fairmount Avenue/Mission Gorge Road Interchange Improvements	\$ 750,000	\$ -
Total project cost of \$750,000 is unidentified.			
52-729.0	Juan Street Reconstruction	\$ 3,000,000	\$ -
This project provides for the replacement of the existing concrete pavement, curb, gutter and sidewalk on Juan Street from Taylor Street to Sunset Road. Reconstruction will be done in two phases. Phase I (Taylor Street to Harney Street) will provide new AC and cement treated base pavement. Phase II (Harney Street to Sunset Road) will provide new PCC pavement. The total project cost of \$3,000,000 is unidentified.			
52-754.0	Linda Vista Road at Genesee Avenue	\$ 742,000	\$ -
Total project cost is \$795,000; \$742,000 is unidentified.			
52-679.0	Miramar Road - Interstate 805 Easterly Ramps to 300 Feet East of Eastgate Mall	\$ 2,200,000	\$ -
\$1,850,000 will be required for increases to land acquisition and construction costs. \$2,200,000 of funding is unidentified.			

Unfunded Needs List

Engineering & Capital Projects

Streets and Bridges

CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
---------------	---------------	---------------------------------------	---------------------------------------

53-053.0	Mission City Parkway Bridge over San Diego River	\$ 7,106,553	\$ -
-----------------	---	---------------------	-------------

Funds are needed for construction and environmental mitigation of this project. This project provides for a new two-lane bridge extending Mission City Parkway from the intersection of Camino Del Rio North, to the north over the San Diego River, and connecting to the extension of Mission City Parkway being constructed (by others) as part of the Mission City Development. This project also provides for an additional stadium entrance. The total project cost of \$10,057,812 includes an unidentified amount of \$7,106,553.

52-430.0	Napa Street Traffic Improvements	\$ 100,000	\$ 3,804,260
-----------------	---	-------------------	---------------------

Total project cost of \$5,500,000 includes an unidentified amount of \$3,904,260.

52-436.0	National Avenue - State Route 15 to 43rd Street	\$ 508,000	\$ -
-----------------	--	-------------------	-------------

Funding is needed for design and construction of the roadway portion of this project.

52-616.0	North Torrey Pines Road - Genesee Avenue to Torrey Pines Science Park	\$ 3,010,750	\$ -
-----------------	--	---------------------	-------------

Construction funds have not yet been identified for this project. Total project cost of \$4,247,000 includes unidentified funding in the amount of \$3,010,750.

52-671.0	Ocean Front Walk Reconstruction - San Fernando Place to Ventura Place	\$ 3,437,000	\$ -
-----------------	--	---------------------	-------------

Funds are needed for construction of this project. This project provides for the removal and replacement of the existing pile cap, parapet wall, lights, and walkway to their original 1925 appearance in accordance with the Secretary of the Interior Standard for the Treatment of Historic Properties. Total project cost has been increased to \$4,027,000 which reflects increases to construction costs including escalated costs of steel and concrete. \$3,437,000 of the total project cost is unidentified.

52-764.0	Palm Avenue Roadway Improvements	\$ 4,435,000	\$ -
-----------------	---	---------------------	-------------

Funds in the amount of \$4,435,000 are needed for the design and construction of this project.

52-696.0	Pershing Drive/Redwood Street Intersection	\$ 872,516	\$ -
-----------------	---	-------------------	-------------

Total project cost is \$1,100,000; \$872,516 is unidentified.

52-700.0	Rancho Bernardo Street and Sidewalk Improvements	\$ 65,800	\$ -
-----------------	---	------------------	-------------

Funds are needed for construction of this project. This project provides for improvements to streets and sidewalks, installation of landscaping and irrigation systems and construction of retaining and sound walls. The total project cost of \$358,800 includes an unidentified amount of \$65,800.

52-368.0	Regents Road - 100 Feet North of Lahitte Court to Governor Drive	\$ 991,460	\$ -
-----------------	---	-------------------	-------------

Funds are needed for the construction of this project. Total project cost is \$1,172,612. \$991,460 of this amount is unidentified.

52-302.0	Regents Road - AT&SF Railroad Bridge to 100 Feet North of Lahitte	\$ 3,212,922	\$ -
-----------------	--	---------------------	-------------

Funds are needed for the construction of this project. Total project cost is \$3,789,000. \$3,212,922 of this amount is unidentified.

Unfunded Needs List

Streets and Bridges		Engineering & Capital Projects	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
52-680.0	Regents Road - Executive Drive to Genesee Avenue	\$ 1,100,000	\$ -
Total project cost has been increased to \$6,721,820 and reflects the most recent reconciliation to the North University City Public Facilities Financing Plan. \$1,100,000 of the total cost is unidentified.			
53-044.0	Regents Road Bridge	\$ 15,725,000	\$ -
Total project cost is \$46,609,949; \$15,725,000 of this amount is unidentified.			
39-233.0	Reo Drive Streetscape	\$ 656,000	\$ -
Funds are needed to complete construction of Phase II of the project. It is proposed to increase total project cost to \$2,307,338 due to escalated construction costs. \$656,000 of the total is unidentified.			
52-553.0	Saturn Boulevard - Palm Avenue to Coronado Avenue	\$ 1,115,955	\$ -
Funds are needed for design and construction of this project. This project provides for widening the west side of Saturn Boulevard to a four-lane collector street from Palm Avenue to Coronado Avenue. The improvement will include the construction of concrete curb, gutter, sidewalk, and asphalt concrete pavement as necessary. The total project cost of \$1,431,178 includes an unidentified amount of \$1,115,955.			
52-706.0	Sea World Drive Widening and Interstate 5 Interchange Improvements	\$ 5,505,800	\$ 6,227,400
This project would provide for interchange improvements at Interstate 5 and Sea World Drive. Improvements would include vehicle storage within the northbound and southbound on-ramps, additional eastbound and northbound approach lanes to the freeway and signal coordination along Sea World Drive between Friars Road and Interstate 5. In addition, Sea World Drive would be widened to six lanes between Sea World Way and Interstate 5. The total project cost of \$11,733,200 is unidentified.			
52-715.0	Sidewalks - Citywide	\$ 550,000	\$ 4,400,000
An annual appropriation of \$200,000 in Fiscal Years 2007 and 2008 and \$350,000 in Fiscal Years 2009 through Fiscal Year 2016 would maintain the current level of service. This annual allocation provides for the construction of walkways at locations where none exist in order to provide safe routes for pedestrians and in the vicinity of school areas. These funds have not been identified.			
52-763.0	Skyline Drive Median & Parkway Improvements	\$ 480,000	\$ 320,000
It is anticipated that \$800,000 in SAFETEA-LU funding will be available for this project. This amount is reflected as unidentified funds pending receipt of grant agreements.			
52-765.0	Sorrento Valley Road & Interstate 5 Interchange	\$ 3,340,000	\$ 47,000,000
Total project cost is estimated to be \$50,500,000. It is anticipated that State and/or Federal funds will become available for this project.			
52-503.0	Sports Arena Boulevard - Rosecrans Street to Midway Drive	\$ 1,063,879	\$ -
Funds are needed for construction of this project. This project provides for modifying the intersection of Sports Arena Boulevard, Rosecrans Street, and Camino del Rio West and widening Sports Arena Boulevard to a six-lane major street between Midway Drive and Rosecrans Street by modifying the median and restriping the street. The total project cost of \$1,442,520 includes an unidentified amount of \$1,063,879.			

Unfunded Needs List

Engineering & Capital Projects

Streets and Bridges

CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
52-455.0	State Route 163 and Friars Road	\$ 7,712,098	\$ 123,180,000

Total project cost increased to \$135,913,936. Additional funding is needed due to inflation and an expanded project footprint. Funding source is unidentified at this time but it is anticipated that Federal funds will be available. \$130,892,098 of the total cost is unidentified.

52-588.0	Streamview Drive Improvement - 54th Street to College Avenue	\$ 1,083,000	\$ -
----------	--	--------------	------

Total project cost is \$1,570,000; \$1,083,000 of this amount is unidentified.

52-406.0	Thorn Street Median Improvements	\$ 130,000	\$ -
----------	----------------------------------	------------	------

Construction is contingent upon identification of funds for both construction and landscape maintenance. Total project cost is estimated to be \$351,200; \$130,000 of this amount is unidentified.

52-674.0	Torrey Pines Road - Slope Reconstruction	\$ 930,000	\$ -
----------	--	------------	------

It is proposed to increase total project cost to \$1,256,220 as a result of increasing construction costs and revised project cost estimate. Construction funding in the amount of \$930,000 is unidentified.

52-766.0	University Avenue Mobility Project	\$ 2,000,000	\$ -
----------	------------------------------------	--------------	------

This project is scheduled to receive \$2,000,000 from a Smart Growth grant per City Council Resolution R-300698, dated July 25, 2005. This funding is shown as unidentified pending receipt of grant agreements.

52-643.0	West Mission Bay Drive Bridge over San Diego River	\$ 55,643,003	\$ -
----------	--	---------------	------

Funds will be required for the construction of this project; \$55,643,003 is currently unidentified.

Streets and Bridges Subtotal \$177,930,188 \$561,427,191

Engineering & Capital Projects

Traffic Control

CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
62-210.0	Ash Street at 2nd Avenue, 3rd Avenue, 7th Avenue, and 9th Avenue	\$ 100,000	\$ -

Funds are needed for construction of this project, which would provide for modifying existing traffic signals on Ash Street at Second Avenue, Third Avenue, Seventh Avenue, and Ninth Avenue. It was anticipated that sufficient funding would be obtained from Caltrans. However, due to State budget constraints, no additional funding will be forthcoming at this time. The total project cost of \$120,000 includes an unidentified amount of \$100,000.

52-293.0	Street Lights - Citywide	\$ 1,000,000	\$ 8,000,000
----------	--------------------------	--------------	--------------

Funds are needed for installing City-owned safety street lights where needed. An annual allocation of \$700,000 in Fiscal Year 2007 and Fiscal Year 2008 and an annual allocation of \$1,000,000 in Fiscal Year 2009 through Fiscal Year 2017 would maintain the current level of service. These funds have not been identified.

Unfunded Needs List

Traffic Control		Engineering & Capital Projects	
		Funding	Funding
		Required in	Required in
CIP			
Number	Project Title	FY2008-2009	FY2010-2018
61-001.0	Traffic Control/Calming Measures	\$ 500,000	\$ 4,000,000
This annual allocation provides for installing traffic control measures at locations to be identified on an as-needed basis where sudden changes in the character of traffic, such as increased volumes and new route patterns, make it necessary to provide positive traffic control measures on an accelerated time schedule. An appropriation of \$150,000 in Fiscal Years 2007, \$50,000 in Fiscal Year 2008, and an appropriation of \$500,000 in Fiscal Years 2009 through 2017 would maintain the current level of service. These funds have not been identified.			
63-001.0	Traffic Count Stations	\$ 60,000	\$ 420,000
An annual increase of \$60,000 in Fiscal Years 2009 through 2016 would maintain the current level of service. This annual allocation provides for permanent traffic count stations. These funds have not been identified.			
68-010.0	Traffic Signals - Citywide	\$ 1,400,000	\$ 11,200,000
An increase of \$1,230,000 in Fiscal Year 2007 and Fiscal Year 2008 and an annual increase of \$1,400,000 Fiscal Years 2009 through 2017 would maintain the current level of service. This annual allocation provides for installing traffic signals at high-priority locations, for the City's share of the cost of traffic signals in cooperation with others and for installing privately funded traffic signals. The criteria for installing traffic signals are governed by Council Policy 200-6. These funds have not been identified.			
68-011.0	Traffic Signals - Modifications/Modernization	\$ 1,150,000	\$ 9,200,000
Funds are needed for construction of this project. This annual allocation project provides for upgrading existing traffic signals as necessary to improve traffic flow and promote safety. An increase of \$550,000 in Fiscal Year 2007, \$400,000 in Fiscal Year 2008, and an annual increase of \$1,150,000 in Fiscal Year 2009 through Fiscal Year 2017 would maintain the current level of service. These funds have not been identified.

Environmental Services

Energy Program

Citywide Energy Improvements 37-041.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for Energy Efficiency projects typically addressing lighting, air conditioning, chiller, pumping and fan systems. Newer, more efficient technologies greatly reduce energy consumption.

Justification: Energy efficiency improvements repay capital costs in one to nine years, depending upon the project. The energy savings continue each year. The first project will be to repair the cogeneration units at Police Headquarters, which have failed due to poor design. Additional projects will be scheduled as funding and priorities permit.

Operating Budget Effect: None

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: The first project is anticipated to enter the design phase in Fiscal Year 2008.

Summary of Project Changes: This is a new capital project for Fiscal Year 2008.

Underground Hazardous Materials Storage Tanks 33-084.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for implementing the Citywide Underground Hazardous Materials Storage Tank Master Plan. The Master Plan addresses the removal, installation, closure, site assessment and mitigation, replacement, testing, and rehabilitation of the 69 City-owned underground storage tanks (USTs). Site assessment and mitigation activities related to 32 unauthorized releases are ongoing to maintain regulatory compliance, eligibility for State reimbursement, protection of groundwater and public health and safety. In addition, 12 USTs are required to have Phase II Enhanced Vapor Recovery (EVR) systems in place by April 2009 per the State of California.

Justification: The State Underground Storage of Hazardous Substances Law (Sher Bill AB 1362) and SB989 establish guidelines and regulations for the design, installation, rehabilitation, testing and maintenance, triennial integrity testing of secondary containment components, and monthly facility inspections by a "Designated UST Operator". Non-compliance with UST laws or site assessment and mitigation (SA/M) requirements may make the City ineligible for reimbursement of an estimated \$4.0 million in current and future SA/M costs as well as liable for civil penalties of up to \$25,000 per day per site.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction occurred in Fiscal Years 1991 through 2006. UST work scheduled in Fiscal Year 2008 includes design or construction to upgrade 12 sites to the Phase II EVR System, in addition to other SA/M work.

Summary of Project Changes: This project has been extended through Fiscal Year 2017.

Annual Allocation - Groundwater Monitoring Network 32-017.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for minor improvements to existing Groundwater Monitoring Networks at all closed and operating landfills managed by the City of San Diego. Such improvements may include new facilities to monitor groundwater, preparation of reports necessary to modify the groundwater monitoring programs, or potential groundwater mitigation measures.

Justification: This annual allocation provides the flexibility necessary to respond to operational issues and possible changes in the Groundwater Monitoring Program required by Title 23, Chapter 15, Article 5 of the California Code of Regulations.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Annual Allocation - Minor Landfill Requirements 37-004.0

Community Plan: Citywide

Council District: Citywide

Description: This annual allocation provides for minor improvements to existing sanitary landfills to comply with operating permits and regulatory requirements. Such improvements may include fencing, access roads, drains, small structures, and environmental protection projects.

Justification: This project provides the flexibility for timely initiation of minor improvements and construction needed to meet operational and regulatory requirements.

Operating Budget Effect: The operating budget effect will be determined upon identification of specific projects.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Arizona Landfill - Closure 32-011.0

Council District: 3

Community Plan: Balboa Park

Description: This project provides for modifications to the existing landfill gas collection system to enhance operations and maintain regulatory compliance.

Justification: Federal and State waste disposal legislation require proper environmental safeguards to control landfill gas.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Balboa Park Master Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction began in Fiscal Year 1995 and will continue through each phase of the project, which is expected to be completed in Fiscal Year 2016.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Arizona Landfill Gas Utilization 32-022.0

Council District: 3

Community Plan: Balboa Park

Description: This project provides for design and construction of improvements necessary to make beneficial use of the landfill gas currently being flared at this site.

Justification: This project will demonstrate the use of renewable energy resources and will reduce the amount of energy consumed from the local utility company at park facilities in the vicinity.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is in conformance with the Balboa Park Master Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2007 and construction is scheduled through Fiscal Year 2009.

Summary of Project Changes: This project has been extended through Fiscal Year 2009.

Future Waste Management Disposal and Processing Facilities 37-254.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for the development and construction of solid waste disposal and processing options, which may include a new landfill or transfer facility. Strategic Planning, potential land acquisition, design, construction, environmental review and potential purchase of mitigation property are all within the scope of the project.

Justification: The City must continue to have adequate disposal or processing facilities for the solid waste it generates each year. Technology to recover and/or convert portions of refuse material into an energy base is being explored and developed. However, it appears that there will always be a need for landfilling part of the generated waste stream and residue from other solid waste disposal facilities.

Operating Budget Effect: None.

Relationship to General and Community Plans: The City's Progress Guide and General Plan and the community plans do not provide for this project. An amendment to these plans will be required prior to implementation.

Scheduling: Ongoing efforts are being made to identify potential sites and funding for future landfill and transfer facilities and are scheduled to continue through Fiscal Year 2016.

Summary of Project Changes: The title of this project changed from "Future Landfill and Transfer Facility" to "Future Waste Management Disposal and Processing Facilities".

South Chollas Landfill - Gas Upgrades 32-018.0

Council District: 4

Community Plan: Mid-City

Description: This project provides for modifying the existing landfill gas collection system to enhance operations and maintain regulatory compliance.

Justification: Federal and State waste disposal legislation require proper environmental safeguards to control landfill gas.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project implements the Mid-City Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction began in Fiscal Year 2000 and are scheduled to be completed in Fiscal Year 2016.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

South Miramar Landfill Slopes 32-024.0

Council District: 7

Community Plan: No Community Planning Area

Description: This project provides cover material, grading, drainage, and site improvements at the inactive South Miramar Landfill.

Justification: This project is required in order to maintain compliance with various State and federal regulatory requirements.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to begin in Fiscal Year 2008 with construction continuing through Fiscal Year 2010.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

Refuse Disposal

Unclassified Disposal/Burn Site Closures 32-010.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for preliminary assessments and remediation of various burn sites and unclassified disposal sites. These sites have been identified as potential health or environmental risks.

Justification: Assessments are required to determine potential impacts to public health and the environment. Sites that are determined to pose potential impacts must be remediated to prevent any impacts.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: It is anticipated that known burn sites will be addressed over the next five years, and future allocations are for potential improvement to these sites.

Summary of Project Changes: This project has been changed from an annual allocation to regular funding. Burn Site remediation efforts at closed landfills did not begin in Fiscal Year 2007 as anticipated, resulting in the estimated budget for Fiscal Year 2008 to be reduced by \$100,000. This reduction decreased the total project cost to \$2.3 million.

West Miramar Phase II - Landfill Gas System 32-014.0

Council District: 7

Community Plan: No Community Planning Area

Description: This project provides for a landfill gas collection system for the West Miramar Phase II Landfill.

Justification: This improvement is required in order to maintain compliance with various State and federal regulatory requirements.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction began in Fiscal Year 1996 and will continue through the life of the Landfill. Loan obligations will be repaid in Fiscal Years 2009 and 2010 with the remainder of the design and construction to begin in Fiscal Year 2011.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

Refuse Disposal

West Miramar Refuse Disposal Facility - Phase II 37-056.0

Council District: 7

Community Plan: No Community Planning Area

Description: This project provides for continuing development of the West Miramar Landfill, located southwest of Marine Corps Air Station Miramar. The facility will accommodate over 35 million cubic yards of refuse fill on 807 acres. Phase II will develop the second half of the facility, including design and construction of entry roads and drainage systems, excavation, federally-mandated liner systems, and stockpiling and spreading of earthen materials. This project also includes development of the General Development Plan elements for the entire site.

Justification: These improvements are required in order to ensure compliance with conditions set forth in the operations permit issued by the California Integrated Waste Management Board and the Regional Water Quality Control Board.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Engineering design and construction will continue through Fiscal Year 2016 in order to facilitate modular development as additional capacity is required.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Fire-Rescue

Fire-Rescue**Fire****Fire Station 1 - Downtown Asbestos Removal and Renovation 33-093.0****Council District:** 2**Community Plan:** Centre City

Description: This project provides for design and construction at the station located at 1222 First Avenue, Downtown. This includes replacement of roll-up doors, removal of asbestos in limited areas, encapsulation of lead paint for new paint, renovation of dormitory, kitchen, laundry, and watch room, installation of a new public/ADA restroom, exhaust extraction system in apparatus area, carpet, and air handler to mitigate odor transmission. This is one of 12 projects included in the Fire and Life Safety Services Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

Justification: This 29-year-old fire station is in need of repair and renovation in order to maintain a safe and livable facility.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the City's Progress Guide and General Plan.

Scheduling: This project is being redesigned and construction will be scheduled when funds are identified.

Summary of Project Changes: The project budget reflects revised estimates as of November 2005. The revenue source for this project is unidentified, contingent upon future bond financing. The project cost and schedule will be revised when funding is identified.

Fire Station 17 - Mid-City 33-080.0

Council District: 3

Community Plan: Mid-City

Description: This project provides for reconstructing the 50-year-old fire station at 4206 Chamoune Avenue in the Mid-City area. The station will accommodate up to ten personnel, two fire apparatus and one paramedic unit. This is one of 12 projects included in the Fire Services Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

Justification: This is the sixth busiest engine company in the United States. The present station, which has been in continuous service for the last 35 years, is in a state of deterioration.

Operating Budget Effect: The square footage increase of this fire station will result in increased maintenance costs.

Relationship to General and Community Plans: This project is consistent with the Mid-City Communities Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The project is currently on hold and the schedule will be revised once funding is identified.

Summary of Project Changes: The project budget reflects estimates as of November 2005. The revenue source for this project is unidentified, contingent upon future bond financing. The project cost and schedule will be revised when funding is identified.

Fire-Rescue**Fire****Fire Station 22 - Point Loma Reconstruction 33-102.0****Council District:** 2**Community Plan:** Peninsula

Description: This project, located at 1055 Catalina Boulevard, provides for the expansion of Fire Station 22 in Point Loma. This is one of 12 projects included in the Fire and Life Safety Services Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

Justification: The existing fire station was built in the early 1940s and is now too small to accommodate new fire engines.

Operating Budget Effect: The square footage increase of this fire station will result in increased maintenance costs.

Relationship to General and Community Plans: This project is consistent with the Peninsula Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The project design is scheduled to be completed in Fiscal Year 2008. Construction will be scheduled when funding is identified.

Summary of Project Changes: The project budget reflects revised estimates as of November 2005. The revenue source for this project is unidentified contingent upon future bond financing. The project cost and schedule will be revised when funding is identified.

Fire Station 45 - Mission Valley 33-090.0

Council District: 6

Community Plan: Mission Valley

Description: This project provides for a new station in Mission Valley (formerly named Fire Station 2). The station will accommodate up to 17 personnel, two engines, one aerial truck, two hazardous material apparatus, one paramedic ambulance and one Battalion Chief vehicle. In addition, this project provides for a mini-park adjacent to Fire Station 45. This is one of 12 projects included in the Fire and Life Safety Services Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

Justification: A fire station is needed to serve the Mission Valley community. This project is consistent with City Council policy to meet response time guidelines.

Operating Budget Effect: The temporary facility staffing and maintenance costs are reflected in the San Diego Fire-Rescue Department's Fiscal Year 2008 Annual Budget. Additional staffing and maintenance are needed for the permanent facility.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan; however, the Mission Valley Community Plan does not currently provide for this project. An amendment to the Community Plan may be required prior to implementation of this project.

Scheduling: Design was completed in Fiscal Year 2005. A temporary facility for one engine company is located in the Qualcomm Stadium parking lot. The construction schedule for the permanent facility will be revised when funding is identified.

Summary of Project Changes: The project budget reflects the San Diego Fire-Rescue Facilities Financing estimates as of November 2003. The revenue source for construction of the permanent facility is unidentified, contingent upon future bond financing. The project cost and schedule will be revised when funding is identified.

Fire-Rescue**Fire****Fire Station 47 - Pacific Highlands Ranch 33-105.0****Council District:** 1**Community Plan:** Pacific Highlands Ranch, Del Mar
Mesa, Black Mountain Ranch

Description: This project provides for a 10,500 square foot fire station to serve the Pacific Highlands Ranch community. This station will have an engine and an aerial ladder truck. The project budget and funding reflect the Pacific Highlands Ranch Public Facilities Financing Plan for Fiscal Year 2006 as approved by the Mayor and City Council on December 7, 2004, per Resolution R-299980.

Justification: This is the second of three fire stations required to provide fire protection to the North City Planned Urbanizing Area.

Operating Budget Effect: The operation of Fire Station 47 will require an additional 25.94 positions to staff the station. The Fiscal Year 2008 Annual Budget includes an increase of 7.56 positions and \$84,410 in non-personnel support.

Relationship to General and Community Plans: This project is consistent with the Pacific Highlands Ranch Subarea Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Land acquisition was completed in Fiscal Year 2005. Design, construction, and apparatus acquisition began in Fiscal Year 2006 and are scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Fire Station 48 - Black Mountain Ranch North 33-106.0

Council District: 1

Community Plan: Rancho Penasquitos, Black Mountain Ranch

Description: The project provides for a new fire station in the northern portion of the Black Mountain Ranch subdivision. The station will have one engine, one brush apparatus, and one ambulance.

Justification: The fire station is needed to provide fire protection to the North City Future Urbanizing area. It is consistent with City Council policy to provide five minute response times to all areas.

Operating Budget Effect: See Operating Budget Effect Table.

Relationship to General and Community Plans: This project is consistent with the Black Mountain Ranch Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Land acquisition is in progress. Design is scheduled to begin in Fiscal Year 2008. Construction is scheduled to begin in Fiscal Year 2009.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Fire-Rescue**Fire****Fire Station 5 - Hillcrest 33-104.0****Council District:** 3**Community Plan:** Uptown

Description: This project provides for an approximate 10,200 square foot fire station located at 3902 9th Avenue. The existing fire station will be demolished and replaced by a new, modern fire station. This station will house a crew of eight and one Battalion Chief. It will accommodate one engine, one aerial truck, and one Battalion Chief vehicle. This is one of 12 projects included in the Fire and Life Safety Services Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

Justification: The current station is 48 years old. The water and sewer service to the existing station is deteriorating and requires immediate repairs. The station is too small to accommodate a new style fire engine and the larger type of aerial ladder truck.

Operating Budget Effect: The square footage increase of this fire station will result in increased maintenance costs.

Relationship to General and Community Plans: This project is consistent with the Uptown Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The project is currently on hold and the schedule will be revised when funding is identified.

Summary of Project Changes: The project budget reflects the San Diego Fire-Rescue Facilities Financing estimates as of November 2003. The budget includes \$50,500 which was allocated from the Uptown Development Impact Fee fund mid-year Fiscal Year 2007 per Council Resolution R-294609. The revenue source for this project is unidentified, contingent upon future bond financing. The project cost and schedule will be revised when funding is identified.

Fire-Rescue

Fire

Fire Station 8 - Mission Hills 33-108.0

Council District: 2

Community Plan: Uptown

Description: This project provides for the conversion of the living quarters into individual dormitory rooms with central heating, ventilating, and air conditioning (HVAC) at Fire Station 8, located at 3974 Goldfinch Street in Mission Hills.

Justification: The station, built in 1964, was not designed to accommodate male and female crew members nor the increased amount of equipment and furnishings.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the Mission Hills Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Construction was completed in Fiscal Year 2007.

Summary of Project Changes: The project budget includes \$46,000 allocated from the Uptown Development Impact Fees fund mid-year Fiscal Year 2007.

Fire-Rescue**Fire****Fire Station Major Component Replacement and Rehabilitation 33-098.0****Council District:** Citywide**Community Plan:** Citywide

Description: This project provides for the replacement and/or rehabilitation of major structural and construction components in older fire facilities throughout the City. Included are electrical service upgrades, HVAC, roofs, dormitory remodels, kitchen remodels, driveway and parking paving, exterior finishes and miscellaneous renovations. This is one of 12 projects included in the Fire and Life Safety Services Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

Justification: The San Diego Fire-Rescue Department currently maintains 50 fire facilities. Over half of these facilities have been in service for more than 25 years. Many of the major components have exceeded their expected service life and must be replaced. The needs of modern technology and a diversified work force also require changes in fire facility configuration, HVAC systems distribution and energy capacity.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Construction began in Fiscal Year 2007 and will continue when funding is identified.

Summary of Project Changes: The project budget reflects the San Diego Fire-Rescue Facilities Financing estimates as of November 2003. The revenue source for this project is unidentified, contingent upon future bond financing. The project cost and schedule will be revised when funding is identified.

Fire-Rescue

Fire

Otay Mesa and Otay Mesa/Nestor Fire Station 33-086.0

Council District: 8

Community Plan: Otay Mesa, Otay Mesa/Nestor

Description: This project provides for an approximate 11,000 square foot fire station to serve the Otay Mesa and Otay Mesa/Nestor communities. It will be located near the intersection of Palm Avenue and Del Sol Boulevard and will serve the community in addition to Fire Station 6 located at 693 Twining Avenue. It will accommodate two fire apparatus and a paramedic ambulance.

Justification: A second fire station is needed to serve the Otay Mesa community. It is consistent with City Council policy to provide five minute response times to all residential areas. Funding is included in the Otay Mesa Public Facilities Financing Plan.

Operating Budget Effect: See Operating Budget Effect Table.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa and Otay Mesa/Nestor Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Land acquisition is in progress. Design, construction, and acquisition of furnishings and apparatus are scheduled to be begin in Fiscal Year 2008. This station is scheduled to be operational in Fiscal Year 2010.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Fire-Rescue**Fire****Paradise Hills/South Bay Terrace Fire Station 33-091.0****Council District:** 4**Community Plan:** Skyline/Paradise Hills

Description: This project provides for a new station in the Paradise Hills area to serve the Paradise Hills/South Bay Terrace area of San Diego.

Justification: This station is needed to serve the Paradise Hills/South Bay Terrace community and is consistent with City Council policy to provide five-minute response times to all residential areas.

Operating Budget Effect: See Operating Budget Effect Table.

Relationship to General and Community Plans: This project is consistent with the Skyline/Paradise Hills Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The schedule will be revised when funding is identified.

Summary of Project Changes: The project budget reflects estimates as of November 2005. The revenue source for completion of this project is unidentified, contingent upon future bond financing. The project cost and schedule will be revised when funding is identified.

Skyline North Fire Stations 33-089.0

Council District: 4

Community Plan: Skyline/Paradise Hills

Description: This project provides for an additional station to be located at 7180 Skyline Drive to better serve the growing community of Skyline/Paradise Hills. This is one of 12 projects included in the Fire and Life Safety Services Facility Improvement Program approved by the City Council on February 27, 2001 per Council Resolution R-294609 and amended by the City Council on April 16, 2002 per Council Ordinance O-19054.

Justification: An additional fire station is needed in this area to meet response time guidelines in this growing community.

Operating Budget Effect: See Operating Budget Effect Table.

Relationship to General and Community Plans: This project is consistent with the Skyline/Paradise Hills Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Land acquisition is complete. The project is currently on hold and the schedule will be revised with funding is identified.

Summary of Project Changes: The project budget reflects estimates as of December 2005. The revenue source for completion of this project is unidentified, contingent upon future bond financing. The project cost and schedule will be revised when funding is identified.

Children's Pool - Lifeguard Station and Restroom Improvements 29-494.0

Council District: 1

Community Plan: La Jolla

Description: This project provides for a new lifeguard station and family restroom. This is one of ten lifeguard projects included in the Fire and Life Safety Services Facility Improvement Program approved by the City Council on April 16, 2002, per Council Resolution R-296359 and Ordinance O-19054.

Justification: The existing structure is deteriorating and does not meet the current or future needs of Lifeguard Services.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the La Jolla Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is in progress. The project schedule will be revised when funding is identified.

Summary of Project Changes: The project budget reflects the San Diego Fire-Rescue Facilities Financing estimates as of December 2005. The revenue source for completion of this project is unidentified, contingent upon future bond financing. The project cost and schedule will be revised when funding is identified.

La Jolla Cove Lifeguard Station 33-505.0

Council District: 1

Community Plan: La Jolla

Description: This project provides for the La Jolla Cove Station, located at 100 Coast Boulevard, which will be a year-round facility replacing the current station. The structure will include an observation tower, first aid room, and locker room/restroom areas for males and females. This project will also provide for an accessible ramp for the motlanding from the City right-of-way. This is one of ten lifeguard projects included in the Fire and Life Safety Services Facility Improvement Program approved by the City Council on April 16, 2002, per Council Resolution R-296359 and Ordinance O-19054.

Justification: The existing facility consists of a station constructed in the 1950s and an observation tower added in 1980. It is inadequate to accommodate staff or provide adequate water safety protection.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the La Jolla Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is in progress and the schedule will be revised when funding is identified.

Summary of Project Changes: The project budget reflects the San Diego Fire-Rescue Facilities Financing estimates as of December 2005. The revenue source for this project is unidentified, contingent upon future bond financing. The project cost and schedule will be revised when funding is identified.

Fire-Rescue**Lifeguard Services****La Jolla Shores Lifeguard Station 33-503.0****Council District:** 1**Community Plan:** La Jolla

Description: This project provides for the La Jolla Shores Lifeguard Station located at 8100 Camino del Oro, which will be a year-round facility replacing the current station. The structure will include an observation tower, first aid room, reception area, kitchen, locker room/restroom areas for males and females, and a separate facility for rescue vehicles and emergency equipment. This is one of ten lifeguard projects included in the Fire and Life Safety Services Facility Improvement Program approved by the Mayor and City Council on April 16, 2002, per Council Resolution R-296359 and Ordinance O-19054.

Justification: The existing facility was built in 1981 and is inadequate to accommodate current and future staff and to allow for adequate water safety protection to the public.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the La Jolla Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Community approval, project design and permitting are complete. Construction will be scheduled when funds are identified. Delays in project funding will require the City to reapply for permits causing further project delays.

Summary of Project Changes: The project budget reflects the San Diego Fire-Rescue Facilities Financing estimates as of December 2005. The revenue source for the completion of this project is unidentified, contingent upon future bond financing. The project cost and schedule will be revised when funding is identified.

Lifeguard Services

Lifeguard Headquarters and Boating Safety Unit Dock 33-508.0

Council District: 2

Community Plan: Mission Bay Park

Description: This project provides for the Lifeguard Headquarters Boating Safety Unit Dock located at 2581 Quivira Court. The replacement facility will house lifeguards, including 24-hour staff, administrative and training staff, mechanics, and will provide an operation yard and storage for the rescue fleet. Construction of this lifeguard facility will occur in two phases. This is one of ten lifeguard projects included in the Fire and Life Safety Services Facility Improvement Program approved by the City Council on April 16, 2002, per Council Resolution R-296359 and Ordinance O-19054.

Justification: The existing facility and dock were constructed in 1956. They are inadequate to accommodate staff and equipment. During the January 2005 storms, the dock was damaged making it necessary for the Department to rent space at Driscoll Pier to accommodate the boating equipment.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the Mission Bay Park Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The design of the Boating Safety Unit Dock is underway and construction began in Fiscal Year 2007. The Lifeguard Headquarters facility has been deferred due to lack of funds.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008, however an additional \$715,000 in reimbursements from the Federal Emergency Management Agency is anticipated for Fiscal Year 2008.

Fire-Rescue**Lifeguard Services****Mission Beach Lifeguard Station 33-507.0****Council District:** 2**Community Plan:** Mission Bay Park

Description: This project provides for remodeling the existing Mission Beach Station located at 3141 Oceanfront Walk. This is one of ten lifeguard projects included in the Fire and Life Safety Services Facility Improvement Program approved by the Mayor and City Council on April 16, 2002 per Council Resolution R-296359 and Ordinance O-19054.

Justification: The existing facility consists of a station constructed in 1974 and does not accommodate changing workforce demographics.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the Mission Bay Park Master Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is in progress and the schedule will be revised when funding is identified.

Summary of Project Changes: The project budget reflects the San Diego Fire-Rescue Facilities Financing estimates as of December 2005. The revenue source for completion of this project is unidentified, contingent upon future bond financing. The project cost and schedule will be revised when funding is identified.

Community Plan: Pacific Beach

Description: This project provides for the North Pacific Beach Lifeguard Station located at the foot of Diamond Street, which will be a year-round facility replacing the current station (seasonal towers). The structure will include an observation tower, first aid room, reception area, kitchen, locker room and restroom areas for males and females, and a rescue vehicle and emergency equipment facility. This is one of ten lifeguard projects included in the Fire and Life Safety Services Facility Improvement Program approved by the Mayor and City Council on April 16, 2002 per Council Resolution R-296359 and Ordinance O-19054.

Justification: The current facility (a mobile storage unit) is inadequate to accommodate staff or provide adequate water safety protection to the public.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the Pacific Beach Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The project schedule will be revised when funding is identified.

Summary of Project Changes: The project budget reflects the San Diego Fire-Rescue Facilities Financing estimates as of December 2005. The revenue source for completion of this project is unidentified, contingent upon future bond financing. The project cost and schedule will be revised when funding is identified.

Pacific Beach Lifeguard Tower and Grand Avenue Restroom 29-473.0

Council District: 2

Community Plan: Pacific Beach

Description: This project provides for the design of a permanent lifeguard tower, restroom and changing room facility, demolishing the existing 1968 combination structure, and constructing replacement facilities, separately, on the Pacific Beach oceanfront at the foot of Grand Avenue. This project has been consolidated with CIP 33-501.0, South Pacific Beach Lifeguard Station. This is one of ten lifeguard projects included in the Fire and Life Safety Services Facility Improvement Project approved by the Mayor and City Council on April 16, 2002 per Council Resolution R-296359 and Ordinance O-19054.

Justification: This combination facility was constructed at the foot of Grand Avenue in Pacific Beach in 1968 and is deteriorated, undersized, and not compliant with the Americans with Disabilities Act. The garage is not large enough to fit modern lifeguard vehicles.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the Pacific Beach Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Construction is scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: No change has been made to this project for Fiscal Year 2008.

South Mission Beach Lifeguard Station 33-504.0

Council District: 2

Community Plan: Mission Beach

Description: This project provides for the South Mission Beach Station located at 700 North Jetty Road, which will be a year-round facility replacing the current station. The structure will include an observation tower, first aid room, reception area, kitchen, locker room, and restroom areas for males and females, and a rescue vehicle and emergency equipment facility. This is one of ten lifeguard projects included in the Fire and Life Safety Services Facility Improvement Program approved by the Mayor and City Council on April 16, 2002 per Council Resolution R-296359 and Ordinance O-19054.

Justification: The existing facility was constructed in 1974 and was intended to be a temporary lifeguard station. It is inadequate to accommodate staff or to provide adequate water safety protection.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the Mission Beach Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The project schedule will be revised when funding is identified.

Summary of Project Changes: The project budget reflects the San Diego Fire-Rescue Facilities Financing estimates as of December 2005. The revenue source for this project is unidentified, contingent upon future bond financing. The project cost and schedule will be revised when funding is identified.

Unfunded Needs List

Fire		Fire-Rescue	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
33-066.0	Annual Allocation - Opticom Emergency Vehicle Preemption Svstem	\$ 75,000	\$ 175,000
	This project would provide for retrofitting signalized intersections with Opticom Emergency Vehicle Preemption System equipment. The total estimated project cost of \$250,000 is entirely unfunded.		
33-093.0	Fire Station 1 - Downtown Asbestos Removal and Renovation	\$ 3,478,902	\$ 2,347,086
	This project provides for asbestos removal, dormitory remodel and a new exhaust extraction system at the fire station located at 1222 First Avenue in Downtown. The total estimated project cost of \$6.4 million includes an unfunded amount of \$5.8 million.		
33-080.0	Fire Station 17 - Mid-City	\$ 5,287,264	\$ -
	This project provides for reconstructing the 50-year-old fire station at 4206 Chamoune Avenue in the Mid-City area. The total estimated project cost of \$5.3 million includes an unfunded amount of nearly \$5.3 million.		
33-102.0	Fire Station 22 - Point Loma Reconstruction	\$ 4,058,535	\$ -
	This project provides for the expansion of the fire station located at 1055 Catalina Boulevard in Point Loma. The total estimated project cost of \$4.5 million includes an unfunded amount of \$4.1 million.		
33-116.0	Fire Station 28 - Kearny Mesa Relocation and New Construction	\$ 1,440,000	\$ 4,800,000
	This project would provide for the relocation and new construction of the existing fire station located at 3880 Kearny Villa Road in Kearny Mesa. This fire station was built in 1958 and is too small and outdated to accommodate the growing needs of the community. The total estimated project cost of \$6.2 million is entirely unfunded.		
33-059.0	Fire Station 39 - Tierrasanta Relocation and New Construction	\$ 196,965	\$ 5,701,022
	This project would provide for the relocation and new construction of a fire station replacing the existing station located at 4949 La Cuenta Drive in Tierrasanta. The fire station is too small and outdated to accommodate the growing needs of this community. The total estimated project cost of \$5.9 million is entirely unfunded.		
33-090.0	Fire Station 45 - Mission Valley	\$ 6,386,423	\$ 3,322,655
	This project provides for a new station in central Mission Valley and provides for a mini-park adjacent to the fire station. The total estimated project cost of \$10.6 million includes an unfunded amount of \$9.7 million.		
33-104.0	Fire Station 5 - Hillcrest	\$ 5,766,101	\$ 3,178,639
	This project provides for the construction of a new 10,200 square foot fire station replacing the existing station located at 3902 9th Avenue in Hillcrest. The total estimated project cost of \$9.1 million includes an unfunded amount of \$8.9 million.		
33-098.0	Fire Station Major Component Replacement and Rehabilitation	\$ 1,718,722	\$ -
	This project provides for the replacement and/or rehabilitation of major structural and construction components in older fire facilities throughout the City. The total estimated project cost of \$1.9 million includes an unfunded amount of \$1.7 million.		

Unfunded Needs List

Fire-Rescue

CIP Number	Project Title	Fire	
		Funding Required in FY2008-2009	Funding Required in FY2010-2018
33-069.0	Kearny Mesa Maintenance and Material Complex	\$ 152,989	\$ 459,543
	This project would provide for the repair and upgrade of the San Diego Fire-Rescue Department's Apparatus Repair Facility at 3870 Kearny Villa Road. This is one of 12 projects included in the Fire and Life Safety Services Facility Improvement Program. The total estimated project cost of \$612,532 is entirely unfunded.		
33-111.0	North Park/Golden Hill Fire Station	\$ 2,000,000	\$ -
	This project would provide for a new fire station in the Southern Greater North Park and Greater Golden Hill communities. The total estimated project cost of \$2.0 million is entirely unfunded.		
33-091.0	Paradise Hills/South Bay Terrace Fire Station	\$ 6,265,388	\$ 3,535,225
	This project provides for a new station in the Paradise Hills area to serve the Paradise Hills/South Bay Terrace area of San Diego. The total estimated project cost of \$9.9 million includes an unfunded amount of \$9.8 million.		
33-089.0	Skyline North Fire Stations	\$ 4,353,324	\$ 3,911,147
	This project provides for a new station, in addition to the existing Fire Station 32 located at 484 Briarwood Road, to better serve the growing community of Skyline/Paradise Hills. The total estimated project cost of \$9.1 million includes an unfunded amount of \$8.3 million.		
33-101.0	Western Mission Valley Fire Station	\$ 7,600,000	\$ 3,040,000
	This project would provide for a new fire station to serve the Western Mission Valley community. The delay in construction of new facilities challenges emergency personnel to meet response time guidelines consistent with City Council policy. The total estimated project cost of \$10.6 million is entirely unfunded.		
Fire Subtotal		\$ 48,779,613	\$ 30,470,317

Facilities

Annual Allocation - ADA Improvements 37-064.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for City facilities improvements related to the Americans with Disability Act (ADA).

Justification: City facilities improvements related to ADA will allow greater access to City facilities for citizens with disabilities.

Operating Budget Effect: The operating budget effect will be determined upon completion of each project.

Relationship to General and Community Plans: Improvements will be limited to those that are in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: This project is new for Fiscal Year 2008. A significant portion, \$10.0 million, of Fiscal Year 2008 funding is contingent upon land sales.

Facilities

Annual Allocation - City Facilities Improvements 37-068.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for capital improvements at all City facilities. Potential improvements include roof; heating, ventilation, and air conditioning; and elevator replacements.

Justification: Several City owned facilities are aged and inadequate. The funding for this annual allocation will establish safe and updated structures.

Operating Budget Effect: The operating budget effect will be determined upon completion of each project.

Relationship to General and Community Plans: Improvements will be limited to those that are in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: This project is new for Fiscal Year 2008. Fiscal Year 2008 funding is contingent upon land sales.

Storm Drains/Flood Control
Annual Allocation - Emergency Drainage Projects 13-005.0
Community Plan: Citywide

Council District: Citywide

Description: This annual allocation provides for reconstructing or replacing failed drainage facilities Citywide by use of an as-needed construction contract.

Justification: Drainage facilities are found to be in deteriorated condition periodically. An annual as-needed construction contract allows the City to be responsive to unanticipated reconstruction work that is beyond the capabilities of City forces.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the appropriate community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction are scheduled each year.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Storm Drains/Flood Control

Campanile Way Storm Drain 12-090.0

Council District: 7

Community Plan: College Area

Description: This project provides for installing and extending a storm drain system on Campanile Way.

Justification: Extending the existing storm drain system will prevent accumulation of silt in the public right-of-way.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the College Area Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and land acquisition are complete. Construction has been put on hold until further notice.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

Description: This project provides for reconstructing and replacing sidewalks, curbs, gutters, and pavement on Copeland Avenue between Meade Avenue and El Cajon Boulevard.

Justification: This project will correct localized street flooding problems at a low point in the street which resulted from settlement of the existing curb and gutter.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the Mid-City Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design was scheduled in Fiscal Year 1997. Construction was originally scheduled to begin in Fiscal Year 1998 but has been put on hold until further notice.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

Storm Drains/Flood Control

Walnut Avenue Drain - Brant Street to Albatross Street 11-264.0

Council District: 3

Community Plan: Uptown

Description: This project provides for a storm drain system at the intersection of Walnut Avenue and Albatross Street. The storm drain system consists of a curb inlet, 250 feet of 30-inch reinforced concrete pipe, 200 feet of pipe connecting to Curlew Street, and stabilization of eroded slopes at the cliff. An archeological study is required with a negative declaration.

Justification: The existing drainage system is not adequate to accept the volume of water from rainfall runoff.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the Uptown Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary design was scheduled in Fiscal Year 1992. Final design was scheduled in Fiscal Year 1995. Construction was scheduled in Fiscal Year 1996. This project has been put on hold until further notice.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

General Services**Storm Water Program****Chollas Creek Water Quality Protection and Habitat Enhancement Project 32-054.0****Council District:** 4**Community Plan:** Southeastern San Diego

Description: This project provides for the removal of concrete sections of the channel, the widening of the floodplain, and the creation and restoration of wetland and transitional upland habitats. These improvements will be designed to re-establish the natural structure, dynamics, and hydrologic functions within applicable creek segments and restore affected beneficial uses.

Justification: This project will implement portions of the Chollas Creek Enhancement Program, as adopted by the City Council on May 14, 2002, and will help achieve Municipal Storm Water Permit compliance through improved water quality in Chollas Creek.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Southeastern San Diego Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2005 and was completed in Fiscal Year 2006. Construction is scheduled to occur between May and September in calendar year 2007.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

Storm Water Program

Rose and Tecolote Creeks Water Quality Improvements 32-050.0

Council District: 1, 2, 6, 7

Community Plan: Linda Vista, Pacific Beach, University,
Clairemont Mesa

Description: This project provides for improvements to the water quality in the Rose and Tecolote Creek watersheds. With existing storm water monitoring data, best management practices (BMPs) will be developed to address pollutants of concern within these watersheds. Best management practices are structural controls, such as vegetated swales and strips, infiltration basins, wet ponds, constructed wetlands, and filtration systems. Initially, entire watersheds will be evaluated to identify potential areas for water quality enhancement. These areas will then be prioritized and a few locations will be selected for implementation of structural controls, including baseline and post-construction water quality monitoring. The City completed the construction of the first BMP in Fiscal Year 2006 and a baffle-box was installed in the Tecolote Creek sub-watershed. The remaining State funds will be used for BMPs in Rose Creek and/or Tecolote Creek watersheds in future fiscal years.

Justification: This project addresses pollutants of concern within the Rose and Tecolote Creek watersheds.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Clairemont Mesa, Linda Vista, Pacific Beach and University Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Construction of the first BMP was completed in Fiscal Year 2006. Design of the second BMP is scheduled to begin in Fiscal Year 2008 and construction is scheduled to be completed in Fiscal Year 2009.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

General Services**Storm Water Program****San Diego River Water Quality Improvement 32-053.0****Council District:** 6, 7**Community Plan:** Mission Valley, Navajo

Description: This project will reduce beach postings and closures at Ocean Beach by improving water quality in the San Diego River, which is the largest contributor of urban runoff to Ocean Beach. The major objectives of Phase I include: investigating the potential sources of bacterial contamination along the San Diego River; establishing a water quality baseline against which to measure best management practice (BMP) effectiveness; and recommending actions (based upon source investigation) to abate bacteria contamination in the San Diego River, including BMPs. Phase II of this project consists of the installation of 1,870 linear feet of reinforced concrete pipe (RCP) storm drain, thirteen cleanouts, and the replacement of flap gate valves at the outfall point in the San Diego River, just north of West Point Loma Boulevard. The storm drain will be installed along Abbott Street between Newport Avenue and West Point Loma Boulevard.

Justification: Improving the water quality in the San Diego River will reduce beach postings and closures at Ocean Beach.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Mission Valley and Navajo Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I, which included the identification of sources of bacteria, was completed in Fiscal Year 2003. Construction for Phase II began in Fiscal Year 2005 and is scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

Streets and Bridges

Resurfacing of City Streets 59-001.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for street resurfacing, in addition to resurfacing funded by Gas Tax funds.

Justification: Resurfacing of City streets is necessary to maintain the streets in serviceable condition and prevent deterioration of the roadway.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the appropriate community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis and as funding is identified.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Traffic Control

Conversion of City Street Lights from Low to High Pressure Sodium 61-201.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for the conversion of 23,967 light fixtures from low pressure sodium (LPS) to high pressure sodium (HPS) outside of a 30-mile radius from Mount Palomar Observatory.

Justification: Per Council Resolution R-296141 dated February 26, 2002, the policy for street lighting expanded the use of "white-light" broad spectrum lamps to areas north of Interstate 8 outside a 30-mile radius from Mount Palomar Observatory while retaining the use of low-pressure sodium lighting within the radius. Per Council Resolution R-297392 dated November 25, 2002, this conversion was to be completed in five years, beginning in Fiscal Year 2003.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction began in Fiscal Year 2003. A total of 13,843 light fixtures have been converted as of July 1, 2007. Further conversion of light fixtures is contingent upon identification of funding.

Summary of Project Changes: No changes have been made to this project for Fiscal Year 2008.

General Services**Traffic Control****Traffic Signals - Replace Obsolete Controllers 63-002.0****Council District:** Citywide**Community Plan:** Citywide

Description: This annual allocation provides for replacing obsolete and/or out-of-production traffic signal controller units.

Justification: Present day requirements for coordinated signal operation, protected left turns, and emergency vehicle preemption are increasingly difficult or impossible to incorporate into some older controller units now in service. Older units function with moving parts and electrical contacts, both of which are subject to wear. Maintenance costs are increasing and parts are becoming difficult to find. The new controllers are solid-state, less costly to maintain, and more adaptable to today's needs.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the appropriate community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis and as funding is identified.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Library

Library**Library****Balboa Branch Library (Clairemont Mesa) 35-102.0****Council District:** 6**Community Plan:** Clairemont Mesa

Description: This project provides for a new 15,000 square foot branch library on the current site to replace the existing facility at 4255 Mount Abernathy. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

Justification: The existing undersized facility provides inadequate library services to the community. There are no meeting room facilities, computer lab, or adequate seating and collection space.

Operating Budget Effect: The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council. The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

Relationship to General and Community Plans: This project is consistent with the Clairemont Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Schematic design began in Fiscal Year 2003 and is being completed. The cost estimate and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Library

Kensington-Normal Heights Library 35-065.0

Council District: 3

Community Plan: Mid-City

Description: This project provides for a 2,000 square foot expansion of the existing building at 4121 Adams Avenue.

Justification: The Kensington/Normal Heights Branch Library is the smallest branch in the Library System. The community has expressed a desire for the library to remain at the same location.

Operating Budget Effect: The personnel increase reflect the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council. The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

Relationship to General and Community Plans: This project is consistent with the Mid-City Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary design and site studies were performed in Fiscal Years 2002 through 2005. The cost estimate and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Library

Logan Heights Branch Library 35-101.0

Council District: 8

Community Plan: Southeastern San Diego

Description: This project provides for a new 25,000 square foot library at 28th Street and Ocean View Boulevard to serve the Logan Heights Community between the elementary school and the Memorial Charter Middle School. This project was awarded a grant under the State Library Bond Act.

Justification: The Logan Heights Branch Library, located at 811 South 28th Street in the heart of Logan Heights, was built in 1927 and serves a community of 28,883. The 3,967 square foot building has no meeting rooms or a computer lab for its residents and work spaces for staff are very constrained. Updating the existing telecommunications infrastructure is not feasible in the existing facility due to its age and inadequate size. In addition, there is no on-site parking.

Operating Budget Effect: The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council. The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

Relationship to General and Community Plans: This project is consistent with the Southeastern San Diego Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary studies and design concepts began in Fiscal Year 2002. Design was completed in Fiscal Year 2006. The first phase of construction was completed in Fiscal Year 2006 and the second phase construction documents and construction bid were completed in Fiscal Year 2007. Construction of the second phase is scheduled for Fiscal Years 2008 through 2010.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Library

Mission Hills Branch Library 35-096.0

Council District: 3

Community Plan: Uptown

Description: This project provides for a 15,000 square foot library at a site adjacent to the Florence Elementary School, on a block bounded by Front Street, Washington Street, Albatross Street and University Avenue, to better serve the Mission Hills and Hillcrest neighborhoods. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

Justification: The current facility is too small to provide adequate library services to the community. There are no meeting room facilities, computer lab or adequate seating space.

Operating Budget Effect: The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council. The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

Relationship to General and Community Plans: This project is consistent with the Uptown Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary studies and design concepts began in Fiscal Year 2001. Land acquisition was completed in Fiscal Year 2004 and design work began in Fiscal Year 2006. The cost estimate and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Library**Library****North Park Branch Library 35-104.0****Council District:** 3**Community Plan:** Greater North Park

Description: This project provides for a new 25,000 square foot library at an unspecified site to replace the existing facility at 3795 31st Street. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

Justification: The existing facility is too small to provide adequate library services to the community. There are no meeting room facilities, computer lab or adequate seating and collection space.

Operating Budget Effect: The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council. The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

Relationship to General and Community Plans: This project is consistent with the Greater North Park Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary studies and meetings with the community were completed in Fiscal Year 2004. A Request for Proposal process was completed in Fiscal Year 2005 but did not result in a redevelopment agreement. The cost estimate and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Library

Ocean Beach Branch Library 35-100.0

Council District: 2

Community Plan: Ocean Beach

Description: This project provides for a 15,000 square foot library using the current site and adjacent property to serve the Ocean Beach community. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

Justification: The current facility, originally built in 1927, is too small to provide adequate library services to the community. There are no meeting room facilities, computer lab or adequate seating space.

Operating Budget Effect: The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council. The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

Relationship to General and Community Plans: The project is consistent with the Ocean Beach Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary studies and design concepts began in Fiscal Year 2001. Property acquisition and design were completed in Fiscal Year 2005. Revision of the design documents is in progress. The cost estimate and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Rancho Bernardo Library 35-114.0

Council District: 5

Community Plan: Rancho Bernardo

Description: This project provides for a 2,500 square foot expansion to the existing branch library at 17110 Bernardo Center Drive. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

Justification: The existing facility does not have a computer lab and additional seating and collection space would enhance service to the community.

Operating Budget Effect: The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council. The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

Relationship to General and Community Plans: This project is consistent with the Rancho Bernardo Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary studies and design concepts took place in Fiscal Years 2004 and 2005. The cost estimate and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

San Carlos Branch Library Expansion 35-088.0

Council District: 7

Community Plan: Navajo

Description: This project provides for acquiring a lot adjoining the existing branch library located at 7265 Jackson Drive and building a new 25,000 square foot library. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

Justification: The existing library is too small to provide adequate library services. It does not have a computer lab and the meeting room, public seating and collection space are inadequate.

Operating Budget Effect: The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council. The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

Relationship to General and Community Plans: This project is consistent with the Navajo Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary design began in Fiscal Year 2004 and design is scheduled to be completed in Fiscal Year 2008. The cost estimate and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Library

Library

San Diego Main Library 35-082.0

Council District: 2

Community Plan: Centre City

Description: This project provides for the design and construction of a new main library of approximately 500,000 square feet, with approximately 250 underground parking spaces dedicated to library patrons. It will be large enough to accommodate library needs for 20 years and contain expansion space to accommodate growth for another 30 years. The expansion space will be leased as office space until required for library purposes. The lobby will open into a courtyard, which will contain an outdoor cafe, and there will be a 350-seat auditorium adjacent to the lobby. The top floor will house special collections and provide public amenities including an airy reading room, a 400-seat multi-purpose room, an art gallery, a small public meeting room, and a series of open terraces.

Justification: The existing library is too small to provide adequate library and informational services to the region, and cannot support the technological and programmatic needs of the future.

Operating Budget Effect: The operating budget effect has been estimated, but will be refined as the design is further developed. This need will be partially addressed by project-related revenue, which is incorporated in the costs of the project in the amount of \$1.8 million in Fiscal Year 2012, the first full year of operation. In Fiscal Year 2012, the minimum annual operating and maintenance cost is estimated to be \$13.3 million based upon 64 weekly service hours. This is a net increase of approximately \$6.3 million (including 50.28 positions, \$3.2 million in personnel expense, and \$3 million in non-personnel expense) over the operating and maintenance costs for the existing Central Library.

Relationship to General and Community Plans: This project is consistent with the Centre City Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2001. Construction is scheduled to begin in Fiscal Year 2009 and to be completed in Fiscal Year 2012. The cost estimate and schedule for this project were developed in Fiscal Year 2005 and will be revised when funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Library

San Ysidro Branch Library 35-093.0

Council District: 8

Community Plan: San Ysidro

Description: This project provides for a 15,000 square foot facility to serve the San Ysidro Community. Discussions are currently underway with the Redevelopment Agency of the City of San Diego to build the new library as part of a Redevelopment project currently planned along San Ysidro Blvd.

Justification: The existing library, built in 1924 and remodeled in 1983, is only 4,089 square feet. It contains no meeting rooms or computer lab, no on-site parking, and no separation of the children's area and quiet study areas.

Operating Budget Effect: The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council. The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

Relationship to General and Community Plans: This project is consistent with the San Ysidro Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The preliminary study, including siting a new library, is scheduled to be completed in Fiscal Year 2007. The cost estimate and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Library**Library****Scripps Ranch Branch Library 35-112.0****Council District:** 5**Community Plan:** Scripps Miramar Ranch

Description: This project provides for an expansion of the Scripps Ranch Branch Library parking lot located at 10301 Scripps Lake Drive. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

Justification: The current facility is fully occupied and the current parking lot does not have the capacity to serve the needs of the community.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Some preliminary inquiries were made of available properties in Fiscal Year 2004. The cost estimate and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

Summary of Project Changes: No significant change has been made to this project for fiscal year 2008.

Skyline Hills Branch Library 35-107.0

Council District: 4

Community Plan: Skyline/Paradise Hills

Description: This project provides for a 15,000 square foot library expansion to the existing facility located at 480 South Meadowbrook Drive. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

Justification: The existing facility is too small to provide adequate library services to the community. There are no meeting room facilities or computer lab, and limited collection space and patron seating.

Operating Budget Effect: The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council. The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

Relationship to General and Community Plans: This project is consistent with the Skyline/Paradise Hills Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Land acquisition was completed in Fiscal Year 2004. Bridging documents have been completed. The cost estimate and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Unfunded Needs List

Library		Library	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
35-102.0	Balboa Branch Library (Clairemont Mesa)	\$ -	\$ 6,955,947
	This project provides for a new 15,000 square foot branch library on the current site to replace the existing facility at 4255 Mount Abernathy. The total estimated project cost of \$7.3 million includes an unfunded amount of \$7.0 million.		
35-111.0	Carmel Mountain Ranch Branch Library	\$ -	\$ 2,221,000
	This project would provide for a 2,000 square foot expansion of the existing branch library located at 12095 World Trade Drive to better serve the Carmel Mountain Ranch community. This project is part of the 21st Century Library System/Library Department Facility Improvements Program. The total estimated project cost of \$2.2 million is entirely unfunded. The cost estimate and schedule for this project was developed in Fiscal Year 2003 and will be revised when funding is identified.		
35-065.0	Kensington-Normal Heights Library	\$ -	\$ 2,471,530
	This project provides for a 2,000 square foot expansion of the existing building at 4121 Adams Avenue. The total estimated project cost of \$2.5 million includes an unfunded amount of nearly \$2.5 million.		
35-103.0	Linda Vista Branch Library	\$ -	\$ 2,275,000
	This project would expand the existing 10,000 square foot facility located at 2160 Ulric Street by 5,000 square feet, adding a computer lab and additional patron and collection space. The total estimated project cost of \$2.3 million is entirely unfunded. The cost estimate was developed in Fiscal Year 2003 and will be revised when funding is identified.		
35-096.0	Mission Hills Branch Library	\$ -	\$ 6,955,500
	This project provides for a 15,000 square foot library at a site adjacent to the Florence Elementary School to better serve the Mission Hills and Hillcrest neighborhoods. The total estimated project cost of \$9.9 million includes an unfunded amount of \$7.0 million.		
35-104.0	North Park Branch Library	\$ -	\$ 13,563,291
	This project provides for a new 25,000 square foot library at an unspecified site to replace the existing facility at 3795 31st Street. The total estimated project cost of \$14.1 million includes an unfunded amount of \$13.6 million.		
35-100.0	Ocean Beach Branch Library	\$ -	\$ 7,114,860
	This project provides for a 15,000 square foot library using the current site and adjacent property to serve the Ocean Beach community. The total estimated project cost of \$10.1 million includes an unfunded amount of \$7.1 million.		
35-236.0	Pacific Highlands Ranch Library	\$ -	\$ 5,213,168
	This project provides for an 18,000 square foot branch library on a three-acre site in Pacific Highlands Ranch to serve the Pacific Highlands Ranch, Torrey Highlands, Black Mountain Ranch and Del Mar Mesa communities. The total estimated project cost of \$17.0 million includes an unfunded amount of \$5.2 million.		
35-106.0	Paradise Hills Branch Library	\$ -	\$ 8,867,517

Unfunded Needs List

Library		Library	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
	This project provides for a new 15,000 square foot library at an unspecified site to replace the existing facility located at 5922 Rancho Hills Drive. The total estimated project cost of \$8.9 million includes an unfunded amount of nearly \$8.9 million.		
35-114.0	Rancho Bernardo Library	\$ -	\$ 3,468,751
	This project provides for a 2,500 square foot expansion to the existing branch library at 17110 Bernardo Center Drive. The total estimated project cost of \$3.5 million includes an unfunded amount of nearly \$3.5 million.		
35-088.0	San Carlos Branch Library Expansion	\$ -	\$ 8,494,805
	This project provides for acquiring a lot adjoining the existing branch library located at 7265 Jackson Drive and building a new 25,000 square foot library. The total estimated project cost of \$9.3 million includes an unfunded amount of nearly \$8.5 million.		
35-093.0	San Ysidro Branch Library	\$ -	\$ 12,740,900
	This project provides for a 15,000 square foot facility to serve the San Ysidro Community. The total estimated project cost of \$14.7 million includes an unfunded amount of \$12.7 million.		
35-112.0	Scripps Ranch Branch Library	\$ -	\$ 1,090,400
	This project provides for an expansion of the Scripps Ranch Branch Library parking lot located at 10301 Scripps Lake Drive. The total estimated project cost of \$1.1 million includes an unfunded amount of nearly \$1.1 million.		
35-107.0	Skyline Hills Branch Library	\$ -	\$ 3,364,748
	This project provides for a 15,000 square foot library expansion to the existing facility located at 480 South Meadowbrook Drive. The total estimated project cost of \$11.6 million includes an unfunded amount of \$3.4 million.		
35-113.0	South University Community Branch Library	\$ -	\$ 5,972,000
	This new project provides for a 5,000 square foot expansion of the existing facility at 4155 Governor Drive. This project is part of the 21st Century Library System/Library Department Facility Improvements Program. The cost estimate and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.		
35-108.0	Tierrasanta Branch Library	\$ -	\$ 4,382,000
	This project provides for a 6,234 square foot expansion to the existing branch library at 4985 La Cuenta Drive. The project is part of the 21st Century Library System/Library Department Facility Improvements Program. The total estimated project cost of \$4.4 million is entirely unfunded. The cost estimate was developed in Fiscal Year 2003 and will be revised when funding is identified.

Annual Allocation - Clean Water Program Pooled Contingencies 46-502.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for Capital Improvements Program contingency needs for Metropolitan Sewer projects, fund 41509.

Justification: This annual allocation will provide better Capital Improvements Program budget control. Project contingency needs (except annual allocation projects) will be met by this annual allocation.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Pooled contingencies began in Fiscal Year 1997 and are scheduled through Fiscal Year 2020.

Summary of Project Changes: The total project cost decreased in the Sewer Expansion funding by \$257,319 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - Metro Biosolids Center 42-913.0

Council District: 7

Community Plan: No Community Planning Area

Description: This annual allocation provides for major renovation or replacement of facilities at the treatment plant and associated facilities.

Justification: The Metro Biosolids Center became operational in 1999. It is anticipated that after the start-up period, several projects will be required within this facility to enhance or maintain operation. This annual allocation will be considered an enhancement to the facility and does not include operation and maintenance.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is located on federal property and there is no community planning area. This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled each year on a priority basis.

Summary of Project Changes: The total project cost increased in the Sewer Expansion funding by \$716,000 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - Metro Operations Center 45-956.0

Community Plan: Kearny Mesa

Council District: 6

Description: This annual allocation provides for minor renovations or upgrades to the Metropolitan Operations Center (MOC) facilities.

Justification: This annual allocation will provide for renovation/upgrades to the various facilities that comprise the MOC. The MOC facilities are used to house Metropolitan Wastewater Department (MWWD) employees, as well as warehouse/storage space for MWWD assets and vehicles.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Kearny Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost increased in the Sewer Replacement funding by \$141,887 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - Metropolitan System Pump Stations 41-926.0

Council District: 2, 8

Community Plan: Midway/Pacific Highway Corridor,
Barrio Logan

Description: This annual allocation for Metropolitan System Pump Stations provides for comprehensive upgrades, design modifications, and major renovations or replacement of major equipment, such as pumps, valves, tanks, controls, odor control systems, etc. at the pump stations. The allocation also provides for the addition of an office/shop/storage building.

Justification: These improvements will allow the pump stations to be run more efficiently and increase the reliability of the Metropolitan Wastewater System.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Midway Pacific Highway Corridor and Barrio Logan Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost increased in the Sewer Expansion and Replacement funding by \$4.3 million due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - North City Water Reclamation Plant 42-926.0

Council District: 1

Community Plan: University

Description: This annual allocation provides for major renovation or replacement of facilities at the North City Water Reclamation Plant (NCWRP) and associated facilities.

Justification: The NCWRP became operational in mid-1997. It is anticipated that during or after the start-up period, several projects will be required within this facility to enhance or maintain operation. This annual allocation will be considered as an enhancement to the facility and does not include budgeting for operation and maintenance.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: The total project cost increased in the Sewer Expansion funding by \$714,360 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the Annual Budget.

Annual Allocation - Point Loma Treatment Plant/Related Facilities 46-119.0

Council District: 2

Community Plan: Peninsula

Description: This annual allocation provides for minor renovation or replacement of facilities at the treatment plant, pump stations, and associated facilities.

Justification: Various facilities require replacement due to increasing wastewater flows and higher required levels of treatment.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Peninsula Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost increased in the Sewer Replacement funding by \$989,085 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - South Bay Water Reclamation Plant 45-932.0

Council District: 8

Community Plan: Tia Juana River Valley

Description: This annual allocation provides for minor renovation or replacement of facilities at the South Bay Water Reclamation Plant, pump station, and associated facilities.

Justification: Various facilities require replacement or modification due to changing and improved technology.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Tia Juana River Valley Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost increased in the Sewer Replacement funding by \$5,824 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Environmental Monitoring and Tech Services Lab Boat Dock 45-965.0
Community Plan: Peninsula

Council District: 2

Description: This project provides for a new boat dock to be constructed in the former Naval Training Center (NTC) boat channel. This dock will moor two ocean-going vessels assigned to the new Environmental Monitoring and Technical Services Laboratory recently constructed adjacent to the NTC channel.

Justification: A new 40,000 square foot ocean monitoring laboratory was recently constructed and is now in operation. As a condition of our National Pollutant Discharge Elimination System (NPDES) Permit, the Metropolitan Wastewater Department (MWWD) is required to conduct daily ocean monitoring activities associated with the two outfalls. MWWD has two vessels used for this purpose that need to be docked adjacent to the facility to transport samples and equipment.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Peninsula Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2006 and will be completed in Fiscal Year 2008. Land acquisition and construction are scheduled in Fiscal Year 2008.

Summary of Project Changes: The total project cost increased in the Sewer Expansion funding by \$114,695 due to a decrease of \$4,634 for land, an increase of \$30,948 for design and an increase of \$88,381 for inflation.

MBC Biosolids Storage Silos 45-984.0
Council District: 7

Community Plan: No Community Planning Area

Description: This project will add two additional storage silos (Nos. 9 and 10).

Justification: When a silo is out of service, silo storage capacity is frequently exceeded. In order to accommodate such events and to restore adequate silo capacity, it is essential to build two more storage silos.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is located on federal property and there is no community planning area. This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2011. Construction is scheduled to begin in Fiscal Year 2009 and will be completed in Fiscal Year 2011.

Summary of Project Changes: The total project cost increased in the Sewer Expansion funding by \$436,800 due to an increase of \$9,360 for design, an increase of \$98,800 for construction, and an increase of \$328,640 for inflation.

MBC Centrate Collection Upgrades 45-982.0

Council District: 7

Community Plan: No Community Planning Area

Description: This project will convert the existing foul air ducting into dual-use headers for centrate and foul air collection and will upsize the existing centrate collection headers.

Justification: This project replaces the foul air header ducts at the centrifuges to a material that will handle both centrate and foul air. These improvements will provide a bypass pipeline for the centrate flow during additional improvements. The additional improvements will upgrade the undersized centrate collection headers for future larger centrate flows and prevent on-going centrate backups into the foul-air duct headers and damage to the centrifuges.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is located on federal property and there is no community planning area. This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to begin in Fiscal Year 2008 and be completed in Fiscal Year 2010. Construction is scheduled to begin in Fiscal Year 2008 and be completed in Fiscal Year 2010.

Summary of Project Changes: The total estimated project cost increased in the Sewer Expansion and Replacement funding by \$74,600 due to an increase of \$48,392 for design, a decrease of \$56,992 for construction, and an increase of \$83,200 for inflation.

MBC Odor Control Facility Upgrades 45-989.0
Council District: 7

Community Plan: No Community Planning Area

Description: This project will upgrade the Odor Control System fans and ducting to reduce system headlosses and improve overall foul air collection efficiency at the various process areas. Access platforms will also be installed at monitoring instruments and damper locations.

Justification: Several areas at MBC have been identified to cause significant odor problems due to foul air collection deficiencies because of insufficient fan capacity and high headlosses, including poorly located foul air collection registers. This project will improve the foul air collection system ducting, upgrade the odor fans, review locations of and add or remove air registers as needed to better capture the odorous air and to eliminate these hazardous areas. Installing access platforms at the monitoring instruments and air volume control dampers will provide safe and timely access for operation and maintenance needs.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is located on federal property and there is no community planning area. This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2009. Construction is scheduled to begin in Fiscal Year 2008 and estimated be completed in Fiscal Year 2009.

Summary of Project Changes: The total estimated project cost increased in the Sewer Expansion and Replacement funding by \$55,320 due to a decrease of \$189,080 for design, an increase of \$69,680 for construction, and an increase of \$174,720 for inflation.

MBC Standby Centrifuge Feed Facilities 45-981.0

Council District: 7

Community Plan: No Community Planning Area

Description: This project will provide for the addition of two standby centrifuge feed pumps and two standby polymer feed pumps. One set (consisting of a sludge pump and a polymer pump) will be dedicated to each of the two sets of 4-unit dewatering centrifuges to provide the true standby redundancy capability that was intended by the initial design.

Justification: Due to a high frequency of repairs and maintenance on these centrifuges, the standby centrifuge set, including its sludge pump and chemical feed pump, is called to duty for significant amounts of time. During these duty times for the standby set, the sludge and chemical feed pumps are no longer available for standby service for a normal duty set. Therefore, the failure of a sludge or polymer feed pump in a normal duty set gravely hampers biosolids production. By providing two dedicated standby centrifuge feed pumps and two polymer feed pumps, true redundancy will be provided.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is located on federal property and there is no community planning area. This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2010. Construction is scheduled to begin in Fiscal Year 2009 and estimated to be completed in Fiscal Year 2010.

Summary of Project Changes: The total estimated project cost increased in the Sewer Expansion funding by \$56,680 due to an increase of \$43,368 for design, a decrease of \$44,928 for construction, and an increase of \$58,240 for inflation.

MBC Wastewater Forcemain Extension 45-988.0

Council District: 7

Community Plan: No Community Planning Area

Description: This project will upgrade the wastewater pumps to by-pass the capacity-limited Muni System Pump Station 86 and will extend Metro Biosolids Center's discharge pipeline past System Pump Station 86 and discharge directly to a gravity trunk sewer.

Justification: Discharge flow rate from the MBC wastewater pumps is restricted because of capacity issues at the downstream pump station, Muni SPS 86. Restricting MBC's discharge flow causes wastewater to overflow to the centrate pump station which impacts OPRA emissions. To prevent overflows and thus comply with OPRA requirements, the wastewater pumps must be upgraded, and flows diverted past SPS 86 via a forcemain extension which discharges directly into a gravity trunk sewer.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is located on federal property and there is no community planning area. This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2010. Construction is scheduled to begin in Fiscal Year 2009 and estimated be completed in Fiscal Year 2010.

Summary of Project Changes: The total estimated project cost increased in the Sewer Expansion and Replacement funding by \$44,840 due to a decrease of \$95,352 for design, an increase of \$94,432 for construction, and an increase of \$45,760 for inflation.

Metro Facilities Control System Upgrade 45-966.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for replacement and upgrade of existing control systems at various Metropolitan Wastewater treatment and pump station facilities. These include the Metro Biosolids Center, North City Water Reclamation Plant, Point Loma Treatment Plant, and South Bay Water Reclamation Plant.

Justification: This project is needed to provide replacement of existing control systems at various facilities. The existing control system is a microprocessor/computer based system. The life cycle of this system is seven to ten years. The control systems at these facilities are entering into this life cycle replacement phase, starting in Fiscal Year 2007. This replacement also provides for an upgrade in technology. The rapid changes in technologies also provide the facilities with greater control system capabilities and are essential for future facility expansion.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: The design began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2016. Construction began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2016.

Summary of Project Changes: The total estimated project cost increased in the Sewer Expansion and Replacement funding by \$470,649 due to inflation.

NCWRP Effluent Pump Station Upgrade 41-944.0

Council District: 1

Community Plan: University

Description: This project will correct a corrosion situation caused by chlorine fumes.

Justification: The NCWRP Effluent Pump Station Upgrade project is needed to minimize maintenance costs and avoid early replacement of the equipment due to corrosion.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to begin in Fiscal Year 2008 and be completed in Fiscal Year 2010. Construction is scheduled in Fiscal Year 2010.

Summary of Project Changes: The total estimated project cost increased in the Sewer Expansion and Replacement funding by \$31,201 due to a decrease of \$32,723 for design, an increase of \$35,844 for construction, and an increase of \$28,080 for inflation.

NCWRP Sludge Pump Station Upgrade 41-942.0

Council District: 1

Community Plan: University

Description: This project provides for correction of a vibration problem at the North City Water Reclamation Plant (NCWRP) Sludge Pump Station.

Justification: Excessive vibration of the pump and flywheel contribute to wear and tear of equipment. The vibration also generates tremendous heat. The excessive vibration and heat can cause premature failure of equipment, impact operational efficiency and have structural impacts at the facility.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to begin in Fiscal Year 2008 and be completed in Fiscal Year 2011. Construction is scheduled to begin in Fiscal Year 2009 and be completed in Fiscal Year 2011.

Summary of Project Changes: The total estimated project cost decreased in the Sewer Replacement funding by \$821,601 due to a decrease of \$277,418 for design, a decrease of \$591,607 for construction, and an increase of \$47,424 for inflation.

North City Raw Sludge / Point Loma Cathodic Protection 45-964.0

Council District: 1, 2, 7

Community Plan: University

Description: This project provides for a new impressed current cathodic protection system to prevent external corrosion on the 36-inch reclaimed water pipeline, the 16-inch blended sludge pipeline, and the 20-inch centrate pipeline, between the North City Water Reclamation Plant and the Metro Biosolids Center. The new system will replace an existing galvanic anode cathodic protection system.

Justification: The existing cathodic protection system for these pipelines is inadequate and does not provide satisfactory corrosion protection to the pipelines. The new system will fully protect the pipelines and prevent any corrosion related sewer spills.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the University City Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2005 and will be completed in Fiscal Year 2008. Construction began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: The total estimated project cost increased in the Sewer Replacement funding by \$24,491 due to an increase of \$24,491 for design.

Point Loma - Grit Processing Improvements 45-943.0

Council District: 2

Community Plan: Peninsula

Description: This project will upgrade the existing grit aeration systems at the Point Loma plant. The original project scope provided for reconstructing the south grit tanks and the adjacent pump gallery, replacing the 1962 headworks building, and constructing a drive-through facility, which includes new grit processing equipment. The scope also included replacing the grit agitation air blowers and piping, expanding Odor Removal System #1, and installing a sixth screen channel and additional overhead ducts to treat foul air from the grit facilities. Currently, the original design has been postponed and the project scope reduced pending the results of the pilot testing of the Biological Aerated Filter (BAF) Technology at the Point Loma Wastewater Treatment Plant. The revised project scope will upgrade the existing grit aeration systems at the plant which will include new grit agitation blowers enclosed in a sound dampening facility and the associated air piping.

Justification: The Point Loma Wastewater Treatment Plant has six aerated grit removal tanks. Grit removal from influent flows was found to be more efficient when the two south grit tanks were not used. Currently, the plant is not achieving desirable grit removal; the existing grit processing equipment is unable to extract fine sand or silt. The grit accumulated downstream of the grit tanks reduces the efficiency of processing equipment and minimizes the biosolid treatment in the digesters.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Peninsula Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2001 and is scheduled to be completed in Fiscal Year 2012. Construction began in Fiscal Year 2006 and is scheduled to be completed in Fiscal Year 2012.

Summary of Project Changes: The total estimated project cost increased in the Sewer Replacement funding by \$1.4 million due to a decrease of \$23,000 for design, an increase of \$25,256 for construction, and an increase of \$1.4 million for inflation.

Point Loma - South Access Road Protection Project 45-960.0

Council District: 2

Community Plan: Peninsula

Description: This project provides for continued access to the Point Loma Wastewater Treatment Plant and investigates, and may implement, options to mitigate erosion at two sea coves adjacent to the plant's access road.

Justification: The treatment plant has only one access road as granted by the federal government and this project is needed to ensure continued access.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Peninsula Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I design began in Fiscal Year 2002 and was completed in Fiscal Year 2007. Land acquisition is scheduled in Fiscal Year 2019. Phase II design is scheduled to begin in Fiscal Year 2018 and be completed in Fiscal Year 2019. Construction is scheduled to begin in Fiscal Year 2018 and be completed in Fiscal Year 2020.

Summary of Project Changes: The total estimated project cost increased in the Sewer Replacement funding by \$267,758 due to an increase of \$50,000 for design, and an increase of \$217,758 for inflation.

Pump Station 2 Onsite Standby Power 45-915.0

Council District: 2

Community Plan: Midway/Pacific Highway Corridor

Description: This project would replace two of the existing on-site substation transformers to 10 Million Volt-Amp (MVA) capacity and replace existing two engine pumps with two 3-megawatt engine generators. This will provide the station with four 50% utility feeds to comply with Environmental Protection Agency (EPA) power requirements.

Justification: The current utility power system does not meet the required EPA power requirements. Two of the existing utility feeds are only rated at 5 MVA with the third rated at 10 MVA. All feeds are limited to two pumps, except during emergency conditions, which provide less than 50% of the possible demand. By upgrading the two 5 MVA feeds to 10 MVA and installing a fourth 10 MVA feed, the station will have four 50% feeds which would comply with the EPA required two 100% feeds. This will also enhance station reliability by allowing any pump to be powered by the engine generators instead of pumps #4 and #5 as currently configured.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Midway Pacific Highway Corridor Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2006 and is scheduled to be completed in Fiscal Year 2008. Land acquisition is scheduled to begin in Fiscal Year 2008 and be completed in Fiscal Year 2008. Construction is scheduled to begin in Fiscal Year 2008 and is scheduled to be completed in Fiscal Year 2009.

Summary of Project Changes: The total estimated project cost increased in the Sewer Expansion funding by \$380,305 due to a decrease of \$2,163 for land, an increase of \$39,101 for design, and an increase of \$343,367 for inflation.

SBWRP Demineralization Facility Phases 1&2 42-930.0

Council District: 8

Community Plan: Tia Juana River Valley

Description: This project provides for demineralization of reclaimed water. Phase I would construct a demineralization facility to provide 7.5 million gallons a day (mgd) of reclaimed water for conveyance to the users. Phase II will expand the facility to provide 15 mgd of reclaimed water.

Justification: A majority of reclaimed water use is for irrigation purposes. Too high a level of total dissolved solids (TDS) in the reclaimed water can affect agronomic conditions. Demineralization will reduce the level of TDS in the reclaimed water.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Tia Juana River Valley Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I design is scheduled to begin in Fiscal Year 2008 and be completed in Fiscal Year 2011. Phase I construction is scheduled to begin in Fiscal Year 2011 and be completed in Fiscal Year 2012. Phase II design is scheduled to begin in Fiscal Year 2013 and be completed in Fiscal Year 2016. Phase II construction is scheduled to begin in Fiscal Year 2015 and be completed in Fiscal Year 2016.

Summary of Project Changes: The total estimated project cost increased in the Sewer Expansion funding by \$965,619 due to an increase for inflation.

South Metro Sewer Rehabilitation, Phase 3B 45-961.0

Council District: 8

Community Plan: Barrio Logan, Centre City

Description: This project provides for the rehabilitation of existing sections of the South Metro Interceptor (SMI) that have been discovered and scoped as part of the South Metro Downtown Tunnel Rehabilitation project. The sections of the SMI to be repaired include force main and gravity sections between Pump Station #1 and Pump Station #2. Rehabilitation efforts include one pair of deteriorated and/or delaminated liner sections in the pipe.

Justification: The unlined and/or lined intersections of the South Metro Interceptor have deteriorated significantly due to the corrosive effects of sewer gases over 40 years.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Barrio Logan and Centre City Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to begin in Fiscal Year 2008 and be completed in Fiscal Year 2014. Construction is scheduled in Fiscal Year 2014.

Summary of Project Changes: The total estimated project cost increased in the Sewer Replacement funding by \$335,494 due to inflation.

Wet Weather Storage Facility - Phase 1 45-940.0
Council District: Citywide

Community Plan: Citywide

Description: This project provides a 16 million gallon per day storage facility to intercept peak wet-weather flows generated in the Metropolitan Sewage System.

Justification: The facility will reduce the risk of potential wet weather overflows, which may be caused by the capacity limitation of the existing collection system during rainfall events.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: A feasibility study was conducted in Fiscal Year 1999 and was completed in Fiscal Year 1999. Land acquisition began in Fiscal Year 2000 and was completed in Fiscal Year 2005. Design began in Fiscal Year 2001 and is scheduled to be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2010 and be completed in Fiscal Year 2019.

Summary of Project Changes: The total estimated project cost increased in the Sewer Expansion funding by \$17 million due to a decrease of \$108,895 for land, a decrease of \$18.4 million for design, an increase of \$32.8 million for construction, and an increase of \$2.7 million for inflation.

Annual Allocation - Accelerated Projects 46-206.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation will provide for the accelerated construction of the Municipal Sewer System.

Justification: This annual allocation will provide for the replacement of sewer mains that are in imminent danger of failing.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: The total project cost decreased in the Sewer Replacement funding by \$980,000 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - CIP Contingencies 46-193.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for Capital Improvements Program contingency needs for Municipal Sewer projects.

Justification: This annual allocation will provide better Capital Improvements Program budget control. Project contingency needs (except annual allocation projects) will be met by this annual allocation.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Pooled contingencies began in Fiscal Year 1997 and are scheduled through Fiscal Year 2012.

Summary of Project Changes: The total project cost increased in the Sewer Expansion and Sewer Replacement funding by \$2,077,571 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - Developer Projects 45-975.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the City's share of costs to upgrade sewers at new developments at various locations within the City.

Justification: This annual allocation will provide for the upgrading of sewers that are required of new developments in which the City of San Diego will share in financing, design and construction. The City funds the cost related to existing conditions and the developer pays for upgrades to capacity to accommodate their flows.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: The total project cost increased in the Sewer Replacement funding by \$60,800 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - MWWD Trunk Sewers 40-933.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the replacement of trunk sewers at various locations, including canyons, within the City.

Justification: This annual allocation will provide for the upgrading of trunk sewers, which are approaching maximum capacity, to improve the level of service to the residents of San Diego, and to comply with the regulatory agencies by reducing the impact of sewer spills.

Operating Budget Effect: None

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: The total project cost increased in the Sewer Replacement funding by \$8,048,600 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - Pipeline Rehabilitation 46-050.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the rehabilitation and repair of sewers and manholes at various locations within the City.

Justification: This annual allocation will provide for the extension of the useful life of sewers and manholes, improvements in the level of service to the residents of San Diego, and compliance with regulatory agencies' standards by reducing the impact of sewer spills.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: The total project cost increased in the Sewer Replacement funding by \$16,258,400 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - Pump Stations 64, 65, Penasquitos and East Mission Gorge 41-927.0

Council District: 1, 7

Community Plan: Navajo, University

Description: This annual allocation provides for the comprehensive upgrades, design modifications, and major renovations or replacement of major equipment, such as pumps, valves, tanks, controls, and odor control systems at the pump stations.

Justification: These improvements will allow the pump stations to run more efficiently and increase the reliability of the Municipal Wastewater System.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Navajo and University Community Plans and the Mission Trails Regional Park Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: The total project cost increased in the Sewer Expansion and Replacement funding by \$1,563,600 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - Sewer Main Replacements 44-001.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the replacement of sewer mains at various locations within the City.

Justification: This annual allocation will provide for the replacement of sewer mains that are in a deteriorated condition or are undersized.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: The total project cost increased Sewer Expansion and Replacement funding by \$2,693,980 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - Sewer Pump Station Restorations 46-106.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the replacement of deteriorated pumping equipment and/or pipeline appurtenances.

Justification: Many existing sewer pump stations have reached or exceeded their anticipated service life of 40 years. However, because of the widely varying actual lengths of service life, the scheduling for pump station restorations is difficult. This annual allocation allows more flexibility in replacing deteriorated pumping equipment.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: The total project cost increased in the Sewer Expansion and Sewer Replacement funding by \$699,822 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - Trunk Sewer Rehabilitations 46-194.0

Community Plan: Citywide

Council District: Citywide

Description: This annual allocation provides for the replacement of trunk sewer portions at various locations within the City.

Justification: Various trunk sewer breaches often require immediate attention that cannot be accommodated by the more conventional Capital Improvements Program rehabilitation procedures.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: The total project cost increased in the Sewer Expansion and Sewer Replacement funding by \$8,303,881 due to revised requirements. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the annual budget.

East Mission Gorge Force Main Rehabilitations 46-169.0

Council District: 7

Community Plan: Mission Trails Regional Park

Description: This project provides for the replacement of various sections of the East Mission Gorge force main due to deterioration of the pipeline concrete lining from sulfuric acid build up.

Justification: This project will provide for the rehabilitation of the force main in order to prevent breakage of the force main and prevent potential sewage spills.

Operating Budget Effect: The operating budget will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Mission Trails Regional Park Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2004 and is scheduled to be completed in Fiscal Year 2011. Construction is scheduled to begin in Fiscal Year 2008 and be completed in Fiscal Year 2012.

Summary of Project Changes: The total estimated project cost increased in the Sewer Replacement funding by \$184,782 due to a decrease of \$2,163 for design, a decrease of \$37,968 for construction, and an increase of \$224,913 for inflation.

East Point Loma Trunk Sewer 46-195.6

Council District: 2

Community Plan: Peninsula

Description: This project provides for an additional 848 linear feet of pipe and the replacement of existing 27-inch and 30-inch vitrified clay trunk sewer with 8-inch, 10-inch, 15-inch, 36-inch, and 39-inch pipe in Cushing Road between Barnett and Nimitz.

Justification: This project will provide for the replacement of a trunk sewer with a larger trunk sewer to accommodate additional flow in the future.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Peninsula Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2004 but was not completed. Design is scheduled to begin again in Fiscal Year 2009 and be completed in Fiscal Year 2010. Construction is scheduled to begin upon completion of design phase.

Summary of Project Changes: The total estimated project cost increased in the Sewer Expansion and Sewer Replacement funding by \$710,763 due to a decrease of \$8,733 for design, a decrease of \$18,935 for construction, and an increase of \$738,431 for inflation.

Harbor Drive Trunk Sewer Replacement 46-205.0

Council District: 2, 8

Community Plan: Centre City

Description: This project provides for upgrading and replacing existing portions of Harbor Drive trunk sewer with 15-inch, 18-inch, 48-inch, and 54-inch pipelines.

Justification: The existing trunk sewer has a portion constructed of techite pipeline, which has been prone to structural failure.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Centre City Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2002 but was not completed. Design is scheduled to begin in Fiscal Year 2008 and will be completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2011 and be completed in Fiscal Year 2012.

Summary of Project Changes: The total estimated project cost increased in the Sewer Replacement funding by \$757,158 due to inflation.

Lake Murray Trunk Sewer - In Canyon 46-197.9

Council District: 7

Community Plan: Navajo

Description: This project provides for the replacement of three miles of existing trunk sewer and installation of maintenance access pathways.

Justification: This project provides for the rehabilitation of the trunk sewer to meet buildout capacity.

Operating Budget Effect: None

Relationship to General and Community Plans: This project is consistent with the Navajo Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2003 and is scheduled to be completed in Fiscal Year 2010. Construction and environmental mitigation are scheduled in Fiscal Year 2010.

Summary of Project Changes: The total estimated project cost increased in the Sewer Replacement funding by \$1 million due to an increase of \$10,498 for mitigation, an increase of \$68,454 for design, an increase of \$441,892 for construction, and an increase of \$492,607 for inflation.

Miramar Road Trunk Sewer 46-195.8
Council District: 7

Community Plan: Mira Mesa, University

Description: This project provides for the replacement and upgrade of the Miramar Trunk Sewer.

Justification: This project provides for upgrading of the existing 15-inch diameter pipe to 18-inch diameter pipe in order to accommodate the flow from the Marine Corps Air Station, Miramar.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the University and Mira Mesa Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2001 and is scheduled to be completed in Fiscal Year 2009. Construction began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2008. Environmental mitigation is scheduled in Fiscal Year 2009.

Summary of Project Changes: The total estimated project cost increased in the Sewer Replacement funding by \$492,068 due to a decrease of \$11,249 for mitigation, an increase of \$500,720 for construction, and an increase of \$2,597 for inflation.

Montezuma Trunk Sewer 46-196.9

Council District: 7

Community Plan: College Area

Description: This project provides for the replacement and upgrade of the Montezuma Trunk Sewer. The trunk sewer begins at Camino Del Rio South/Fairmount Avenue, continues south on Fairmount Avenue to Montezuma Road, and ends on Collwood Blvd, just past Collwood Way.

Justification: A portion of this trunk sewer will be abandoned in the canyon and will be upgraded with a larger pipe placed in the right-of-way, which will increase flow capacity.

Operating Budget Effect: None

Relationship to General and Community Plans: This project is consistent with the College Area Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2004 and is scheduled to be completed in Fiscal Year 2011. Construction is scheduled in Fiscal Year 2011.

Summary of Project Changes: The total estimated project cost decreased in the Sewer Expansion and Sewer Replacement funding by \$9.7 million due to a decrease of \$32,225 for land, an increase of \$551,503 for design, a decrease of \$10.8 million for construction, and an increase of \$554,897 for inflation.

Otay Mesa Trunk Sewer 40-930.0
Council District: 8

Community Plan: Otay Mesa

Description: This project provides for the Otay Mesa Sewer system to be constructed east of Interstate 805 as depicted on the map in the Master Plan prepared by Rick Engineering Company dated April 9, 1984. The alignment consists of approximately 7,780 lineal feet (LF) of 51-inch pipe, 2,860 LF of 45-inch pipe, 5,160 LF of 39-inch pipe, 4,060 LF of 36-inch pipe, 4,560 LF of 21-inch pipe, 4,580 LF of 18-inch pipe, 2,200 LF of 15-inch pipe, and 2,000 LF of 6-inch force main pipe. The majority of the proposed alignment is located in an open space area known as Wruck Canyon.

Justification: The project will provide service for the future wastewater flows in the Otay Mesa Area.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2001 and is scheduled to be completed in Fiscal Year 2009. Construction began in Fiscal Year 2004 and is scheduled to be completed in Fiscal Year 2009.

Summary of Project Changes: The total estimated project cost decreased in the Sewer Expansion funding by \$10.1 million due to a decrease of \$312,832 for design, a decrease of \$10.8 million for construction, and an increase of \$992,368 for inflation.

Pump Station 64 Electrical System Upgrades 41-936.0

Council District: 1

Community Plan: University

Description: This project provides modifications to the existing 2400 volt electrical distribution equipment to improve reliability of the pump station operations. This project will replace/upgrade key switchgear equipment and provide power monitoring equipment to better control station electrical demand and respond to electrical system emergencies.

Justification: Recent electrical system failures have indicated problems with the current electrical system. An investigation will determine what upgrades are needed to improve the overall reliability of the electrical system.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the University Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction are scheduled in Fiscal Year 2008.

Summary of Project Changes: The total estimated project cost decreased in the Sewer Replacement funding by \$1.1 million due to a decrease of \$356,071 for design, a decrease of \$754,566 for construction, and an increase of \$51,917 for inflation.

Pump Station 79 46-602.6

Council District: 1

Community Plan: Los Penasquitos Canyon Preserve,
Fairbanks Ranch Country Club

Description: This project will provide for the upgrade of Pump Station 79 in the Fairbanks Country Club Area.

Justification: This project will provide for upgrading the pump station to City standards.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Rancho Penasquitos Community Plan, Fairbanks Country Club Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2000 and is scheduled to be completed in Fiscal Year 2008. Construction began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: The total estimated project cost decreased in the Sewer Expansion and Sewer Replacement funding by \$4.9 million due to a decrease of \$1.7 million for design, a decrease of \$3.4 million for construction, and an increase of \$211,224 for inflation.

Pump Station Upgrades 41-929.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for the upgrade of 23 pump stations, divided into four groups, located throughout San Diego. The upgrades involve providing new and backup pumps and motors, new control panels, new generators, redundant force mains, underground storage tanks, and miscellaneous civil work.

Justification: This project will provide for the upgrading of deteriorated pump stations, improvement of the level of service to the residents of San Diego, and compliance with regulatory agencies by reducing the impact of sewer spills.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: For Group I, design began in Fiscal Year 2003 and is scheduled to be completed in Fiscal Year 2010. Construction is scheduled to begin in Fiscal Year 2009 and is scheduled to be completed in Fiscal Year 2010.

For Group II, design began in Fiscal Year 2005 and is scheduled to be completed in Fiscal Year 2011. Construction is scheduled to begin in Fiscal Year 2010 and is scheduled to be completed in Fiscal Year 2011.

For Group III, design began in Fiscal Year 2005 and is scheduled to be completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2012.

For Group IV, design began in Fiscal Year 2005 and is scheduled to be completed in Fiscal Year 2008. Construction is scheduled to begin in Fiscal Year 2008 and is scheduled to be completed in Fiscal Year 2008.

Summary of Project Changes: The total estimated project cost increased in the Sewer Replacement funding by \$670,709 due to a decrease of \$4,410 for design and an increase of \$675,119 for inflation.

South Mission Valley Trunk Sewer 40-931.0

Council District: 6

Community Plan: Mission Valley

Description: This project provides for Phase I replacement of the existing trunk sewer and installing a larger trunk sewer between Fairmount Avenue and Morena Boulevard along Camino Del Rio South.

Justification: This project will increase the flow capacity of the South Mission Valley Trunk Sewer.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Mission Valley Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2002 and is scheduled to be completed in Fiscal Year 2010. Construction is scheduled to begin in Fiscal Year 2009 and be completed in Fiscal Year 2010.

Summary of Project Changes: The total estimated project cost increased in the Sewer Expansion and Replacement funding by \$500,154 due to a decrease of \$1.3 million for design, an increase of \$1.4 million for construction, and an increase of \$453,918 for inflation.

USIU Trunk Sewer 46-197.6

Council District: 7

Community Plan: Scripps Miramar Ranch

Description: This project provides for the replacement of the existing 2.2-mile trunk sewer and installation of maintenance access pathways and a junction structure. The trunk sewer starts on the west side of I-15, proceeds east through Horse Ranch Canyon, and continues east on the edge of Pomerado Road to 400 feet east of Avenida Magnifica.

Justification: This project will provide for the rehabilitation of the trunk sewer to meet buildout capacity.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2002 and is scheduled to be completed in Fiscal Year 2011. Land acquisition is scheduled for Fiscal Year 2008 and construction is scheduled in Fiscal Year 2011.

Summary of Project Changes: The total estimated project cost decreased in the Sewer Replacement funding by \$6.5 million due to a decrease of \$199,766 for mitigation, a decrease of \$177,268 for land, a decrease of \$244,295 for design, a decrease of \$6.4 million for construction, and an increase of \$541,445 for inflation.

Office of the CIO

Office of the CIO**Communications****Enterprise Resource Planning System Core Project 92-000.0****Community Plan:** Citywide**Council District:** Citywide

Description: This project provides for replacement of legacy software systems currently in use by the City's Departments of Finance and Business and Support Services. The Enterprise Resource Planning (ERP) System will be used by all City departments for day-to-day business operations and human resource needs and is expected to support the City's information technology (IT) needs for the next 15 years.

Justification: As identified in the Audit Committee's recommendation (Kroll Report), the major software systems being used by the Departments of Finance and Business and Support Services no longer meet the City's requirements for responsible financial management, efficient human resources management, and IT operational efficiency. This includes the following major systems: AMRIS (General Ledger), ALVA (Financial Reporting), APIS (Accounts Payable), ARIS (Accounts Receivable), FMIS (Budgeting and Financial Management), FAMIS (Fixed Asset Management), OPIS (Purchasing), CAPPs (Payroll), and PATS (Applicant Tracking).

Operating Budget Effect: None.

Scheduling: Planning and acquisition began in Fiscal Year 2007. Design is scheduled to be completed in Fiscal Year 2008. Implementation is scheduled to begin in Fiscal Year 2008 and to be completed in Fiscal Year 2009.

Summary of Project Changes: This project was added by Council Resolution R-302710 in Fiscal Year 2007. No significant changes have been made to this project for Fiscal Year 2008.

Communications

Public Safety Communications Project 37-508.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for replacing the City's wireless communications infrastructure including the City's microwave network, 800 MHZ radio network, Mobile Data Terminal System, public safety dispatch systems, Police and Fire-Rescue Computer Aided Dispatch, and prime and remote site facilities used to support these networks and systems.

Justification: The City's current wireless communications infrastructure was placed in service as part of the original Public Safety Communications Project in the early 1990s. These critical public networks are now reaching the end of the useful life cycle, and the City has developed a Wireless Communications Long Range Plan to provide for replacing these networks. Without this infrastructure replacement, Police and Fire-Rescue would not be able to provide the level of response needed for their critical life saving missions.

Operating Budget Effect: See Operating Budget Effect Table.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2003. Construction is scheduled to be completed in Fiscal Year 2014.

Summary of Project Changes: The primary funding source has been revised from the A-List Fund to the Information Technology Fund. Projections of future yearly costs have been revised to reflect the actual contract costs and the costs for staffing the project.

Balboa Park

Balboa Park Improvements 21-865.0

Council District: 3

Community Plan: Balboa Park

Description: This project provides for permanent public capital improvements and deferred maintenance of existing facilities in Balboa Park in accordance with Ordinance 0-19113 and Municipal Code section 22.0229.

Justification: Balboa Park, as well as open spaces and coastal beaches, helps define the City's identity, enriches quality of life and serves as a visitor attraction that strengthens the local economy. This regional treasure is threatened by increasing use and a backlog of needed improvements. This project provides funding for some of these improvements.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Balboa Park Master Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction will be scheduled in accordance with the scope of the various sub-projects.

Summary of Project Changes: The name of this project is changed from Sewer Lateral Replacement for Balboa Park to Balboa Park Improvements due to a change in project scope to include other needed improvements within Balboa Park in addition to the sewer lateral replacements.

Balboa Park

Balboa Park - Bird Park 21-861.0

Council District: 3

Community Plan: Balboa Park

Description: This project provides for approximately seven art elements and accessibility upgrades to the existing Bird Park of Balboa Park. The project is located in the northeast corner of Balboa Park, on the corner of 28th Street and Upas Street.

Justification: This project will enhance Bird Park with new artistic features.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Balboa Park Master Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is complete. Construction will be scheduled when funding is identified.

Summary of Project Changes: The total estimated project cost increased by \$30,000 to \$1.0 million due to a revised project cost estimate. Funding for this increase is unidentified.

Balboa Park Historical/Cultural Projects 21-855.0

Council District: 3

Community Plan: Balboa Park

Description: This project provides for Balboa Park historical and cultural projects, including reconstruction of the West Arcade; construction of the Veterans Memorial Garden; and improvements to the Museum of Art front facade, Casa del Prado east and south facades, and the California Tower.

Justification: The Historical and Cultural Resources Preservation Opportunity Grant Program provides State funding to restore several Balboa Park facilities and construct a Veterans Memorial Garden in the park.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Balboa Park Master Plan and Central Mesa Precise Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction are scheduled based on individual project requirements.

Summary of Project Changes: No major changes are anticipated for this project.

Park & Recreation**Economic Development****El Cajon Boulevard Commercial Revitalization - Interstate 805 to 54th Street 39-209.0****Council District:** 3, 7**Community Plan:** Mid-City

Description: This project provides for streetscape improvements, which include sidewalk replacement, curb and gutter replacement, and the installation of street lights, along El Cajon Boulevard from Interstate 805 east to 54th Street.

Justification: The El Cajon Boulevard revitalization project has been a part of the Mid-City Commercial Revitalization Program as a Community Development Block Grant and TransNet funded activity. This project will continue the approved design along additional commercial blocks. The El Cajon Boulevard Maintenance Assessment District (MAD) Assessment Engineer's Report also identifies lighting as an improvement within the project area.

Operating Budget Effect: Those projects that are identified as improvements in the El Cajon Boulevard MAD Assessment Engineer's Report will be maintained by the El Cajon Boulevard MAD. The MAD will fund the maintenance and energy costs associated with the special benefit street lighting installed by this project.

Relationship to General and Community Plans: This project implements the Greater North Park and Mid-City Communities Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Street lighting along El Cajon Boulevard between Interstate 805 and 54th Street will be installed in Fiscal Years 2005 through 2009 using funding from the El Cajon Boulevard MAD. Curb, sidewalk and gutter improvements are planned when funding becomes available.

Summary of Project Changes: The total estimated project cost increased by \$2,808 to \$2.8 million due to a revised project cost estimate.

Economic Development

Switzer Canyon/30th Street Bridge Enhancement Program 39-011.0

Council District: 3

Community Plan: Greater North Park

Description: This project provides for bridge landscaping, hardscape, tree planting, signage, sidewalk, median, design of traffic calming devices, and pedestrian safety features.

Justification: This project provides for bridge landscaping, hardscape, tree planting, signage, sidewalk, median, design of traffic calming devices and pedestrian safety features within the boundaries of the North Park Maintenance Assessment District (MAD).

Operating Budget Effect: The North Park Maintenance Assessment District (MAD) will maintain this enhanced area after the required developer maintenance period is completed. Maintenance of this area is identified as an improvement in the North Park MAD Assessment Engineer's Report.

Relationship to General and Community Plans: This project implements the Greater North Park Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Scheduling is contingent upon identification of funding.

Summary of Project Changes: The total estimated project cost increased by \$10,000 to \$298,586 due to a revised project cost estimate.

Description: This project provides for historic metal gate restoration and replacement; the landscaping of the existing traffic circle located at 49th Street and Lorraine Drive; lighting improvements, which will be installed within the boundaries of the Talmadge Maintenance Assessment District (MAD); and new signage, sidewalk, curb, and gutter upgrades as applicable.

Justification: This project provides for a variety of improvements within the boundaries of the Talmadge MAD which will provide visual neighborhood enhancements and support commercial revitalization.

Operating Budget Effect: The Talmadge (MAD) will maintain the enhanced street lights and other improvements installed through this project. Maintenance of this area is identified as an improvement in the Talmadge MAD Assessment Engineer's Report and the Talmadge Master Plan.

Relationship to General and Community Plans: This project implements the Mid-City Communities Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Initial restoration and replacement of the historic gates has been completed. Additional landscaping and lighting improvements, new signage, sidewalk, curb, and gutter upgrades are ongoing.

Summary of Project Changes: The total estimated project cost decreased by \$90,000 to \$808,050 due to a revised project cost estimate.

Balboa Park Golf Course - Clubhouse and Parking Lot 21-843.0

Council District: 3

Community Plan: Balboa Park

Description: This project provides for a master plan, design and construction of a new clubhouse, and a parking lot at the Balboa Park Golf Course.

Justification: Currently the clubhouse is inadequate and there is insufficient parking available to serve users of the golf course.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Balboa Park Master Plan and the East Mesa Precise Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Preliminary assessments are complete. Design of the clubhouse and construction will be scheduled when the remaining funding is identified.

Summary of Project Changes: The total estimated project cost increased by \$234,120 to \$8.0 million due to a revised project cost estimate.

Golf Course

Mission Bay Golf Course and Practice Center - New Practice Area Upgrade 25-016.0

Council District: 6

Community Plan: Mission Bay Park

Description: This project provides for the demolition of existing, dilapidated miniature golf facilities and the construction of additional practice areas.

Justification: The proposed area is in a state of disrepair, does not meet current code requirements and poses a potential safety hazard.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to begin in Fiscal Year 2008.

Summary of Project Changes: This project was added mid-year Fiscal Year 2007 per City Council Resolution R-302101. Golf Course Enterprise Funding in the amount of \$200,000 has been allocated to this project for Fiscal Year 2008 budget process.

Golf Course

Torrey Pines Golf Course - North Course Reconstruction of Eighteen Holes 25-005.0

Council District: 1

Community Plan: University

Description: This project provides for course improvements at the Torrey Pines Municipal Golf Course (North Course).

Justification: This project provides needed reconstruction and improvements of 18 golf course holes.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the University City Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Construction is scheduled to begin in Fiscal Year 2009.

Summary of Project Changes: This project has been updated to reflect changes in funding availability. Funding in the amount of \$1.0 million was transferred mid-year Fiscal Year 2007 from this project to CIP 25-012.0, Torrey Pines Golf Course - South Course Improvements per City Council R - 302101. The total estimated project cost has been reduced to \$2.6 million.

Golf Course

Torrey Pines Golf Course Clubhouse and Parking Lot 25-009.0

Community Plan: University

Council District: 1

Description: This project provides for the construction of a new 27,000 square foot clubhouse facility at Torrey Pines Golf Course, including a golf shop and associated office space, City administration offices, food and beverage services, restrooms, storage areas, utility rooms and a cart barn. The surrounding improvements include reconfiguration of existing parking and addition of new parking areas, a bag drop area, a pedestrian plaza and courtyard, walkways, practice putting greens, cart staging areas, seat and screen walls, landscaping, and demolition of the existing clubhouse.

Justification: The existing clubhouse and parking lot are inadequate to address the long-term facility needs.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the University City Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2006.

Summary of Project Changes: This project has been updated to reflect changes in funding availability. Golf Course Enterprise funding in the amount of \$2.0 million, was allocated to this project mid-year Fiscal Year 2007 per City Council Resolution R- 302101. Unidentified funding has been reduced by a corresponding amount. The total project cost of \$14 million includes an unfunded amount of \$9.5 million.

Park & Recreation

Mission Bay

Annual Allocation Mission Bay Improvements 22-965.0

Council District: 2, 6

Community Plan: Mission Bay Park

Description: This project provides for permanent public capital improvements and deferred maintenance of existing facilities in Mission Bay Park pursuant to the Mission Bay Park Master Plan and in accordance with Ordinance 0-19113 and Municipal Code section 22.0229.

Justification: Mission Bay Park, as well as other regional parks, open spaces and coastal beaches, helps define the City's identity, enriches quality of life and serves as visitor attraction that strengthens the local economy. This regional treasure is threatened by increasing use and a backlog of needed improvements. This project provides funding for some of these improvements

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Mission Bay Park Master Plan Update and in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction will be scheduled in accordance with the scope of various sub-projects.

Summary of Project Changes: Funding is allocated annually in accordance with the Mission Bay Ordinance.

Park & Recreation

Mission Bay

Fiesta Island Infrastructure Improvements 22-960.0

Council District: 6

Community Plan: Mission Bay Park

Description: This project provides for design and construction of recreational improvements consistent with the general development plan and Mission Bay Park Master Plan, including an expanded causeway that has been identified as a high priority, turfed multi-purpose areas, parking lots, playgrounds, comfort stations, walkways, a personal watercraft launching and service area, relocation of the sand area, south beach jetty, coastal landscaping, and additional utilities infrastructure.

Justification: This project provides infrastructure necessary to support future recreational facilities.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Mission Bay Master Plan Update and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction will be scheduled in phases as funding is identified and upon completion of the Mission Bay-Fiesta Island General Development Plan (CIP 22-959.0).

Summary of Project Changes: The total estimated project cost increased by \$38,921 to \$253.1 million due to a revised project cost estimate. COP 1A RFD-1996B Surety Policy funding has been allocated in the amount of \$38,921 for this project through the Fiscal Year 2008 budget process.

Mission Bay

Mission Bay - Fiesta Island General Development Plan 22-959.0

Council District: 6

Community Plan: Mission Bay Park

Description: This project provides for the refinement and design development of the general development plan for Fiesta Island as proposed in the Mission Bay Master Plan Update.

Justification: General development plan refinement and design development will provide the next necessary step, prior to preparation of construction documents, for Fiesta Island development, which will implement the recommendations of the Mission Bay Master Plan Update.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project implements the recommendations found in the Mission Bay Master Plan Update, approved by the California Coastal Commission, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2006 and is scheduled to be complete in Fiscal Year 2008.

Summary of Project Changes: No major changes are anticipated for this project.

Mission Bay

Santa Clara Recreation Center - Replacement 22-948.0

Council District: 2

Community Plan: Mission Bay Park

Description: This project provides for the replacement of Santa Clara Recreation Center. Phase I provided for an independent study to identify areas within the general footprint of the Santa Clara Recreation Center, including the parking lot, comfort station, play area and junior lifeguard training facility, that would need replacement in order to meet current City standards. Phase II provides for construction of the new upgraded facility.

Justification: This project will contribute to satisfying the population-based park requirements set forth in the City of San Diego's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Mission Bay Park Master Plan Update and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I was completed in Fiscal Year 2003. Phase II will be scheduled as funding is identified.

Summary of Project Changes: No major changes are anticipated for this project.

Angier Elementary School - Joint Use Improvements 29-901.0

Community Plan: Serra Mesa

Council District: 6

Description: This project provides for the design and construction of approximately 3.95 acres at Angier Elementary School for joint use facilities to supplement existing park acreage in the Serra Mesa Community. Improvements may include turf multi-purpose sports fields, multi-purpose courts, walkways, landscaping, a comfort station, and accessibility upgrades.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Kearny Mesa and Serra Mesa Community Plans, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to begin in Fiscal Year 2008. Construction is scheduled to begin in Fiscal Year 2008 and be completed in Fiscal Year 2009.

Summary of Project Changes: The project cost and schedule have been updated to reflect the most recent Kearny Mesa and Serra Mesa Communities Public Facilities Financing Plan.

Annual Allocation - Resource-Based Open Space Parks 20-010.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for developing public facilities within the City's resource-based (Parks to Population Ratio - approximately 20 acres/1,000 people, Population Based: 2.8 acres, Resource Based/Open Space: 16.0 acres, Athletic Areas/Mini Parks: 1.6 acres) open space parks, including Los Penasquitos Canyon Preserve, Mission Trails Regional Park, Marian Bear Memorial Park, Tecolote Canyon Natural Park, Otay Valley Regional Park, Rose Canyon and other open space parks such as Black Mountain. Other open space systems may be included as additional acquisitions are completed.

Justification: The City's open space acquisitions have resulted in increased interest by citizens, elected representatives and State/federal agencies in commencing development of open space public facilities, which are consistent with open space concepts such as trails, signs, historic site improvements, picnic facilities, and entry points.

Operating Budget Effect: The operating budget effect will be determined upon completion of sub-projects.

Relationship to General and Community Plans: This annual allocation implements the recommendations found in the community plan requirements for open space parks and the concepts relative to specific open space systems, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction will be phased in accordance with the scope of various sub-projects.

Summary of Project Changes: No major changes are anticipated for this project. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Park & Recreation**Other Parks****Beyer Community Park 29-852.0****Council District:** 8**Community Plan:** Otay Mesa, San Ysidro

Description: This project provides for the acquisition, design and construction of approximately 12.6 useable acres for a community and neighborhood park.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City's Progress Guide and General Plan and population-based needs for a neighborhood park in San Ysidro and a community park in Otay Mesa.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Otay Mesa and San Ysidro Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Land acquisition was completed in Fiscal Year 2002. Design and construction schedules are dependent upon the actual rate of development within the Otay Mesa and San Ysidro communities.

Summary of Project Changes: The project cost and schedule have been updated to reflect the most recent Otay Mesa Public Facilities Financing Plan.

Black Mountain Ranch Community Park - Acquisition and Development 29-427.0

Council District: 1

Community Plan: Black Mountain Ranch

Description: This project provides for the acquisition, design and construction of a 30 useable-acre community park serving the Black Mountain Ranch and Torrey Highlands communities. Phase I includes the construction of 13 acres, including the athletic fields and a parking lot. Phase II will complete the remaining 17 acres and its associated amenities. The project costs are dependent upon all developments within Black Mountain Ranch and Torrey Highlands communities providing their fair share toward the costs of the park.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Black Mountain Ranch and Torrey Highlands Subarea Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I construction is complete. Phase II will begin when funding becomes available.

Summary of Project Changes: The project cost and schedule have been updated to reflect the most recent Black Mountain Ranch Public Facilities Financing Plan.

Cabrillo Heights Neighborhood Park - Improvements 29-902.0

Community Plan: Serra Mesa

Council District: 6

Description: This project provides for improvements at Cabrillo Heights Neighborhood Park. Phase I improvements may consist of development of an off-leash dog area on a .32 acre portion of the park; paving of approximately 700 feet of the road located along the north property line; tree planting or landscape buffering along the entire 1,200-foot length of the north road; ballfield area furnishings, including benches and drinking fountains; and accessibility upgrades. Phase II improvements may include a picnic shelter.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Serra Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design will begin in Fiscal Year 2008. Construction is scheduled to begin in Fiscal Year 2008 and be completed in Fiscal Year 2009.

Summary of Project Changes: The project cost and schedule have been updated to reflect the most recent Kearny Mesa and Serra Mesa Community Public Facilities Financing Plans.

Camino Ruiz Neighborhood Park - Development 29-756.0

Council District: 5

Community Plan: Mira Mesa

Description: This project provides for development and construction of the Camino Ruiz Neighborhood Park. Phase I of this project is complete and provided for the development of an approximately 10 useable-acre neighborhood park located south of Penasquitos Canyon at the intersection of Camino Ruiz and Calle Cristobal, including a comfort station, parking lot and other park amenities. Phase II provides for the development of a multi-use trail from the park to Los Penasquitos Canyon Preserve. A trail head located within the park will provide an information kiosk for users since the trail will be located within the County's Multiple Species Conservation Program (MSCP) and the City's Multiple Habitat Protection Area (MHPA). Phase III provides for remediation of ballfields after relocation of the Mira Mesa Little League to the future Carroll School Park.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Mira Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design was complete in Fiscal Year 2005. Phase I of the park improvements were completed in Fiscal Year 2007. Phase II trail improvements are expected to be completed in Fiscal Year 2008. Phase III improvements are dependent on the development of Carroll School Park in the Mira Mesa community. It is anticipated that Carroll School Park will be completed in Fiscal Year 2010.

Summary of Project Changes: The project cost and schedule have been updated to reflect the most recent Mira Mesa Public Facilities Financing Plan. Regional Park Improvement funding in the amount of \$157,000 has been allocated to this project for Fiscal Year 2008.

Carmel Grove Mini-Park - Play Area Upgrade 29-689.0

Council District: 1

Community Plan: Carmel Valley, Clairemont Mesa

Description: This project provides for the upgrade and replacement of playground equipment to meet State and federal safety and accessibility requirements and provides an accessible path of travel from the public right-of-way to the playground, an accessible drinking fountain and picnic table.

Justification: This project will provide a play area that is fully compliant with State and federal safety and accessibility regulations.

Operating Budget Effect: The operating budget effect will be determined upon the completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Carmel Valley Neighborhood 1 Precise Plan and the Carmel Valley Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction will be scheduled when funds become available.

Summary of Project Changes: The total estimated project cost increased by \$34,923 to \$150,288 due to revised project cost estimate.

Coastal Bluff Erosion and Access 29-913.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides partial funding for coastal infrastructure improvements at 71 sites, from Sunset Cliffs Park to Torrey Pines State Beach, that were identified and prioritized in a 2003 Coastal Erosion Assessment Survey. High priority sites are those that present potential public hazards.

Justification: This project provides funding for improvements to coastal erosion sites that present potential public hazards.

Operating Budget Effect: The operating budget effect will be determined upon completion of individual sub-projects.

Relationship to General and Community Plans: This project implements the recommendations found in the relevant community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be designed and completed in phases as funding becomes available.

Summary of Project Changes: This project has been updated to reflect changes in funding availability. Funding in the amount of \$200,000 was transferred from this project to CIP 29-424.0, Beyer Boulevard Local Staging Area and Trail, within the Environmental Growth Fund mid-year Fiscal Year 2007 per City Council Resolution R-301826. In addition, allocate Regional Park Improvement funding in the amount of \$150,000 has been allocated to this project for Fiscal Year 2008.

Encanto Community Park - Development 29-489.0

Council District: 4

Community Plan: Southeastern San Diego

Description: This project provides for development of the Encanto Community Park and will be completed in two phases. Phase I of this project provided for updating the existing General Development Plan by including 0.77 acres of undeveloped park property and a community swimming pool complex. Phase II provides for design and construction of the proposed improvements.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the objectives and recommendations of the Southeastern San Diego Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The draft of the General Development Plan was completed in Fiscal Year 2003. Design and construction of the pool complex will be scheduled when funding is identified.

Summary of Project Changes: No major changes are anticipated for this project.

Council District: 1

Community Plan: Rancho Penasquitos

Description: This project provides for the development of a community park on approximately 34 acres, of which approximately 14 are useable-acres. Phase I comprised approximately 12 acres of improvements including a recreation building, basketball courts, open play areas, picnic areas, a comfort station and utilities. Phase II will provide for the development of the remaining two acres and will potentially include additional parking, children's play area, open grass area, irrigation system, picnic area, security lighting, concrete walkways and shade structures. Phase III will include a soccer and roller hockey arena.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Rancho Penasquitos Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I construction of Hilltop Community Park is complete. Construction of phase II is scheduled to begin in Fiscal Year 2008. Phase III will be scheduled when funding becomes available.

Summary of Project Changes: Project cost and schedule have been updated to reflect the most recent Rancho Penasquitos Community Public Facilities Financing Plan.

Home Avenue Neighborhood Park - Development 29-865.0

Community Plan: Mid-City

Council District: 4

Description: This project provides for the construction of a new six acre neighborhood park with approximately two useable-acres, enhancements to Chollas Creek, and traffic improvements on Home Avenue.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Mid-City Communities Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to be completed in Fiscal Year 2008. The construction schedule is contingent upon funding availability.

Summary of Project Changes: TransNet funds of \$250,000 have been allocated to this project in Fiscal Year 2008.

Joint Use Improvements - Citywide 29-889.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for design and construction of miscellaneous improvements on joint use facilities throughout the city, such as replacement and upgrades to turf, irrigation, fencing and disabled access.

Justification: This project will provide necessary improvements which have been identified through the joint use agreement renewal process, derived from individual, on-site inspections and cost estimates, in order to upgrade the joint use facilities to meet current codes, regulations and standards, and to endure another 25 years of use pursuant to the terms of the joint use agreements.

Operating Budget Effect: The operating budget effect will be determined for each individual sub-project.

Relationship to General and Community Plans: This project implements the recommendations found in the appropriate community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Sub-projects will be scheduled individually based on priority, school schedules and league use of the fields.

Summary of Project Changes: No major changes are anticipated for this project.

Kumeyaay Lakes Berm Restoration and Dredging 29-671.0

Community Plan: Mission Trails Regional Park

Council District: 7

Description: This project provides for the dredging of two lakes and reconstruction of a lake berm within the Kumeyaay Lake system at Mission Trails Regional Park.

Justification: A berm that surrounds the lakes was breached during the 1995-96 rainy season. Since that time, the San Diego River's flow has been redirected through the Kumeyaay Lakes, to the detriment of the lakes. Impacts include sedimentation of the lakes, the introduction of exotic invasive aquatic plants and the decline of an adjacent state wetland mitigation site through which the river once flowed.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Mission Trails Regional Park Master Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Planning began in Fiscal Year 2003. Design and construction will be scheduled upon identification of funding.

Summary of Project Changes: The total estimated project cost increased by \$6.2 million to \$10.0 million due to significant environmental issues.

La Jolla Valley Bike Path 29-904.0

Council District: 1

Community Plan: Black Mountain Ranch

Description: This project provides for construction of 1.7 miles of bike path along the south side of La Jolla Valley, between Carmel Valley Road and Camino del Sur, within the area of Black Mountain Ranch to be dedicated for public use.

Justification: Trail and bike access is a requirement of the Subarea plan for Black Mountain Ranch.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Black Mountain Ranch Community Plan and the Black Mountain Ranch Development Agreement, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The project schedule is dependent upon the actual rate of development within the Black Mountain Ranch Community.

Summary of Project Changes: The project cost and schedule have been updated to reflect the most recent Black Mountain Ranch Public Facilities Financing Plan.

La Jolla Valley Trail 29-536.0

Council District: 1

Community Plan: Black Mountain Ranch

Description: This project provides for the design and construction of a 3.6-mile multi-use unpaved trail, meeting City trail standards, within the open space to be granted to the City by the Black Mountain Ranch community. The trail will extend from the City limits to Black Mountain Park.

Justification: The trail is required by the Black Mountain Ranch Development Agreement under terms of extraordinary benefits.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Black Mountain Ranch Community Plan and the Carmel Mountain Ranch Master Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: This trail will be designed and constructed during construction of phase I of the Black Mountain Ranch development.

Summary of Project Changes: The project cost and schedule have been updated to reflect the most recent Black Mountain Ranch Public Facilities Financing Plan.

La Mirada Elementary School - Joint Use Improvements 29-657.0

Council District: 8

Community Plan: San Ysidro

Description: This project provides for the turfing of approximately two acres in Phase I, and 1.7 acres in Phase II, of undeveloped fields. Improvements include a running track, a softball field, an accessible ramp to San Ysidro Activity Center, and relocation of the existing school garden, for joint-use purposes.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the San Ysidro Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Construction of Phase I is complete. Phase II design began in Fiscal Year 2007 and construction is scheduled to begin in Fiscal Year 2008.

Summary of Project Changes: This project has been updated to reflect changes in funding availability. San Ysidro Developer Impact Fee funding in the amount of \$110,000 was allocated to this project mid-year Fiscal Year 2007 per City Council Resolution R-302363.

Mira Mesa Community Park - Expansion (Carroll Neighborhood Park - Development) 29-757.0

Council District: 5

Community Plan: Mira Mesa

Description: This project provides for developing approximately 11 useable-acres of the former Carroll School parksite across the street from Mira Mesa Community Park. Amenities include a comfort station and ballfields. The Mira Mesa Community Park will also be upgraded to include a pool complex, improved recreation center and skate plaza. The street between the two sites will include parking and street calming. This project will be phased as funding becomes available. Phase I includes the ballfields and street calming. Phase II includes the pool complex and skate plaza. Phase III includes recreation center improvements.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City of San Diego's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Mira Mesa Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Park design is scheduled to be completed in Fiscal Year 2008. Construction is scheduled to begin in Fiscal Year 2010.

Summary of Project Changes: The total estimated project cost increased by \$2,700,000 to \$21,200,000 due to a revised project cost estimate.

Mission Beach - Boardwalk Widening 52-533.0

Council District: 2

Community Plan: Mission Beach, Pacific Beach

Description: This project increases public accessibility of the beach area s in Pacific and Mission Beach. Phase I of this project completed the widening of 1.34 miles of boardwalk along Oceanfront Walk and Ocean Boulevard from Ventura Place to Santa Rita Place. This included widening of the existing concrete boardwalk by nine feet and the creation of a three foot wide landscape buffer zone immediately to the east of, and adjacent to, the boardwalk. Phase II, which is complete, included a safety study. Phase III provides for the acquisition of the right-of-way at Santa Rita Place and from Pacific Beach Drive to Oliver Avenue. Phase IV will complete the widening from Santa Rita Place to Thomas Avenue.

Justification: This project will enhance public access to this section of beach.

Operating Budget Effect: The operating budget effect for this project will be determined upon completion of each phase.

Relationship to General and Community Plans: This project implements the recommendations found in the Mission Beach Precise Plan and Pacific Beach Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I was completed in Fiscal Year 2004 and the phase II follow-up safety study is complete. Additional phases will be scheduled when funding is identified.

Summary of Project Changes: No major changes are anticipated for this project.

Park & Recreation**Other Parks****Mission Beach Bulkhead Preservation 52-719.0****Council District:** 2**Community Plan:** Mission Beach, Pacific Beach

Description: This project provides for preserving the life of the historic Mission Beach bulkhead from Balboa Court to Pacific Beach Drive. This project includes replacing the concrete deck, restoring the wall backfill and replacing the parapet.

Justification: This project will preserve the life of the 1928 bulkhead.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Mission Beach Precise Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: This project is being completed in phases, contingent upon availability of funding.

Summary of Project Changes: The total estimated project cost increased by \$5,129,725 to \$8,969,725 due to a revised project cost estimate.

Mission Trails Regional Park Resource Mgmt Plan 29-943.0

Council District: 7

Community Plan: Mission Trails Regional Park

Description: This project provides for a Natural Resource Management Plan that will help the City address challenges and issues by providing City Park Rangers with information and tools to manage Mission Trails Regional Park's (MTRP) sensitive resources. MTRP faces numerous issues, especially due to the high number of visitors and the park's location within a densely populated area. Extensive recreational use, illegal off-road vehicle activity, erosion, urban runoff and invasive, non-native plants are potential threats to the continued health of the park's natural resources.

Justification: The MTRP Natural Resource Management Plan is a part of the implementation task of the City of San Diego's Multiple Species Conservation Program (MSCP). San Diego officially adopted the MSCP on March 18, 1997, with the United States Fish and Wildlife Service and the California Department of Fish and Game approving the plan on July 17, 1997.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project implements the recommendations found in the MSCP.

Scheduling: Design will begin in Fiscal Year 2008.

Summary of Project Changes: It is proposed to allocate Regional Park Improvement funding in the amount of \$148,000 to this new project through the Fiscal Year 2008 budget process.

Park & Recreation**Other Parks****Montgomery-Waller Community Park Sports Field Lighting and Parking Improvements 29-866.0****Council District:** 8**Community Plan:** Otay Mesa/Nestor

Description: Phase I of this project provides for the addition of lighting to the existing multi-purpose softball, soccer and football field. Phase II will develop additional parking for the park.

Justification: This project will meet the community needs for a lighted multi-purpose ball field.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Otay Mesa/Nestor Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I is complete. Phase II design is scheduled to begin in Fiscal Year 2007 and will be completed in Fiscal Year 2008.

Summary of Project Changes: No major changes are anticipated for this project.

Other Parks

Normal Heights Community Park/39th Street Park Development 29-702.0

Council District: 3

Community Plan: Mid-City

Description: This project provides for the Phase I development of an approximately 5-acre park. Park amenities include an open turf play area, children's play area, picnic and seating facilities, and a basketball court. Phase II provides for a comfort station and the purchase of additional land adjacent to the park. Future phases will include the development of approximately two acres of City owned property and a community center.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City of San Diego's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Mid-City Communities Plan, and it is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I construction was completed in Fiscal Year 2003. Phase II design began in Fiscal Year 2007 and will be completed in Fiscal Year 2008. Future phases will be scheduled when funding is identified.

Summary of Project Changes: No major changes are anticipated for this project.

North Chollas Community Park - Improvements 29-667.0

Community Plan: Mid-City

Council District: 4

Description: This project provides for the design and development of North Chollas Community Park, located on College Grove Drive midway between 54th Street and College Avenue. Phase I improvements consist of a sports field, parking area, access road, tot lot and comfort station with concession area. Future phases may include additional sports and multi-purpose fields, a play area, basketball courts, picnic areas, additional parking areas, creek enhancement, trails, a gymnasium and a dog off-leash area.

Justification: This project will provide for development of a park and athletic facility to serve the greater community. The surrounding area is not currently served by a community park and the region is deficient in sports facilities and open park areas based on General Plan Guidelines.

Operating Budget Effect: The operating budget effect will be determined upon completion of each phase.

Relationship to General and Community Plans: This project implements the recommendations found in the Mid-City Communities Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Portions of phase I are complete. Remaining phase II improvements will be scheduled as funding is identified. Additional phases will be scheduled when funding is identified.

Summary of Project Changes: The total estimated project cost increased by \$3,159,967 to \$22,800,000 due to a revised project cost estimate.

Ocean Beach Fishing Pier Preservation 29-675.0

Council District: 2

Community Plan: Ocean Beach

Description: This project provides for a comprehensive preservation effort to prolong the overall life of the historic Ocean Beach Fishing Pier. Phase I includes completion of a structural survey to determine the stability of the pier. Phase II includes upgrade and restoration efforts to extend the life of the pier.

Justification: The structural survey required inspecting the pier above and below the waterline to determine its stability and provided engineering recommendations for pier improvements. The pier, built in 1965, requires upgrades and restoration to extend and preserve its useful life.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Ocean Beach Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The phase I survey was completed in Fiscal Year 2005. Phase II scheduling is contingent upon identification of funding.

Summary of Project Changes: The total estimated project cost increased by \$8,455,000 to \$12,205,000 due to a revised project scope.

Park & Recreation**Other Parks****Old Mission Dam Preservation 20-100.3****Council District:** 7**Community Plan:** Mission Trails Regional Park

Description: This project provides for dredging behind the Old Mission Dam for the purpose of removing silt buildup.

Justification: This project will protect the structural integrity of the historic dam and improve water quality.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Mission Trails Regional Park Master Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Construction is scheduled in FY 2008 contingent upon agency permit approvals and successful land acquisition for wetland mitigation.

Summary of Project Changes: The total project cost increased by \$250,000 to \$1,302,527 due to a revised project cost estimate. It is proposed to allocate Regional Park Improvement funding in the amount of \$250,000 to this project through the Fiscal Year 2008 budget process.

Open Space Improvements 29-910.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for developing public facilities within the City's resource-based open space parks. Improvements may include: rehabilitation of Cowles Mountain Trail, drainage improvements within Tecolote Open Space, San Diego River improvements, Arizona Landfill reclamation test plot and North Chollas Open Space enhancement.

Justification: This project will provide funding to preserve and enhance the City's open space areas.

Operating Budget Effect: The operating budget effect will be determined upon completion of the sub-project.

Relationship to General and Community Plans: This project implements the recommendations found in the community plan requirements for open space parks and the concepts relative to specific open space systems and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction will be scheduled in accordance with the scope of various sub-projects.

Summary of Project Changes: This project has been updated to reflect changes in funding availability. It is proposed to allocate Regional Park Improvement funding in the amount of \$200,000 to this project and to transfer \$30,000 of Regional Park Improvement funding from CIP 29-796.0, Tecolote Canyon Natural Park Resource Management Plan, to this project through the Fiscal Year 2008 budget process.

In addition, it is proposed to transfer \$260,000 of Environmental Growth funds from this project to CIP 29-944.0, Florida Canyon Drainage and Trail Improvements and Exotic Plant Removal Fund, through the Fiscal Year 2008 budget process.

Pacific Breezes Community Park (Ocean View Hills Community Park) 29-541.0

Council District: 8

Community Plan: Otay Mesa

Description: This project will provide for the acquisition, design and construction of the Pacific Breezes community park. This park will be 15 acres with an additional five acres of joint-use with the school. Amenities may include tennis courts, lighted ballfields, a comfort station, a children's play area and other improvements. A recreation center and pool complex may also be developed.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City of San Diego's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Otay Mesa Community Plan, and is in conformance with the City's Progress Guide and General Plan and the California Terraces Precise Plan.

Scheduling: Design will be completed in Fiscal Year 2007. Construction is scheduled to begin in Fiscal Year 2008, dependent upon the actual rate of development within the residential community.

Summary of Project Changes: Project cost and schedule have been updated to reflect the most recent Otay Mesa Public Facilities Financing Plan.

Pacific Highlands Community Park Acquisition and Development 29-543.0

Council District: 1

Community Plan: Pacific Highlands Ranch

Description: This project will provide for the acquisition, design and construction of a 20 useable-acre community park to serve the residents of Pacific Highlands Ranch and Del Mar Mesa. The proposed location, in Pacific Highlands Ranch, is immediately east and adjacent to the proposed senior high/middle school.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City of San Diego's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Pacific Highlands Ranch Subarea Plan and the Del Mar Mesa Specific Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The schedule of this project is dependent upon the actual rate of development in the Pacific Highlands Ranch community.

Summary of Project Changes: Project cost and schedule have been updated to reflect the most recent Pacific Highlands Ranch Public Facilities Financing Plan.

Pacific Highlands Ranch Hiking and Biking Trails 29-928.0

Community Plan: Pacific Highlands Ranch

Council District: 1

Description: This project provides for the design and construction of approximately 80,000 linear feet (15 miles) of hiking, equestrian, and biking trails to be located throughout the community in accordance with the Pacific Highlands Ranch Subarea Plan. The trail system will provide access into the multiple habitat planning area of McGonigle Canyon; provide pathways along Del Mar Heights Road, Little McGonigle Ranch Road, Pacific Highlands Ranch Parkway, Lopelia Meadows Place, Old Carmel Valley Road crossing under SR-56, and Carmel Valley Road; and provide access into the Rancho Penasquitos Community.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Pacific Highlands Ranch Subarea Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: This project is to be completed in segments between Fiscal Years 2005 and 2013.

Summary of Project Changes: Project cost and schedule have been updated to reflect the most recent Pacific Highlands Ranch Public Facilities Financing Plan.

Park and Recreation Grant Match Funding 20-013.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for assistance with matching fund requirements and other unfunded needs for projects funded with alternative financing, which includes grants and private donations.

Justification: Grant match funding greatly enhances the Department's ability to secure grants and donations to provide funding for projects.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: All projects funded by this project will implement the recommendations found in the relevant community plan, and they will be in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled individually.

Summary of Project Changes: No major changes are anticipated for this project.

Park de la Cruz/38th Street Canyon and Future Phases 29-684.0

Council District: 3

Community Plan: Mid-City

Description: This project provides for an approximately 7.16 total useable acres park as the result of the State Route 15 freeway expansion. Phase I improvements are complete and include a children's play area, a play field, paved walkways, landscaping and site furnishings on 5.16 acres. Phase II of the project will provide for the design and construction of 2.0 acres of passive park facilities in the 38th Street canyon area of the park. Future phases will include a monument sign, community identification theme element/art, bollards, additional parking on south 38th Street, curb, gutter and sidewalk and various park amenities. The improvements will comply with current local, state and federal safety and accessibility codes and regulations.

Justification: This project is in conformance with the City's Progress Guide and General Plan guidelines for population-based park acreage, and implements the Mid-City Community Plan recommendations.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Mid-City Communities Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I is complete. Phase II design began in Fiscal Year 2005. Phase II construction is scheduled to begin in Fiscal Year 2008 and be completed in Fiscal Year 2008. Future phases will be scheduled as funding is identified.

Summary of Project Changes: The total project cost decreased by \$926,000 to \$1,872,166 due to change in project scope. The total project cost is \$1,872,166. This project is funded.

Pershing Middle School - Joint Use Turfing 29-531.0

Council District: 7

Community Plan: Navajo

Description: This project provides for artificial turfing of approximately 10 acres of school district-owned, multi-purpose fields for athletic and recreational activities pursuant to a joint-use agreement, including a comfort station, two shade structures, and entry monumentation. This project will be completed in phases as funding is available. Phase I provided the first 5 acres of artificial turf.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Navajo Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The first phase of construction was completed in Fiscal Year 2006. Phase II design and construction will continue as funding is identified.

Summary of Project Changes: No major changes are anticipated for this project.

Park & Recreation**Other Parks****Presidio Park Master Plan 29-477.0****Council District:** 2**Community Plan:** Old San Diego

Description: This project provides for preparation of a master plan to restore, enhance and manage the archaeological and historical resources at Presidio Park. Phase I provided for consultant services to oversee a task force of selected professional archaeologists, geologists and historians who studied the park site and developed a program that will become the basis for the master plan. Phase II completes the master plan effort.

Justification: This master plan will guide the restoration, enhancement and management of the archaeological and historical resources over a 20-year period.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project implements the recommendations found in the Old San Diego Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I is complete. Phase II will be scheduled upon identification of funding.

Summary of Project Changes: No major changes are anticipated for this project.

Park & Recreation**Other Parks****Rancho Encantada Bicycle, Pedestrian, and Equestrian Trail System 29-611.0****Council District:** 7**Community Plan:** Rancho Encantada

Description: This project provides for design and construction of approximately 6.5 miles of hiking and riding trails to be located throughout the community in accordance with the precise plan. The trail system will consist of a network of paved (8,000 lf), improved multi-purpose (13,000 lf) and unpaved (14,000 lf) trails, and will provide access into the Multiple Species Conservation Program preserve area of Sycamore Canyon.

Justification: The system of trails has been incorporated as an integral component of the Rancho Encantada Precise Plan and provides linkage to existing, adjacent trail systems.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Rancho Encantada Precise Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Funding for this project has been phased to coincide with the acquisition and or development of the right-of-way and open space parcels in which the trails will be located. The system of trails will be completed by developer prior to buildout of the community.

Summary of Project Changes: Project cost and schedule have been updated to reflect the most recent Rancho Encantada Public Facilities Financing Plan.

Regional Park Improvements 29-909.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides funding for permanent public capital improvements, planning, deferred maintenance and land acquisitions for San Diego regional parks in accordance with Ordinance O-19113 and Municipal Code section 22.0229.

Justification: San Diego's regional park system contains recreation resources unique to our City. Parks such as Balboa Park, Mission Bay Park, Mission Trails Regional Park, Otay River Valley Park and San Diego River Park, as well as open spaces and coastal beaches, help define the City's identity, enrich quality of life and serve as visitor attractions that strengthen the local economy. These regional treasures are threatened by increasing use and a backlog of needed improvements.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the relevant plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction will be scheduled in accordance with the scope of the various sub-projects.

Summary of Project Changes: No major changes are anticipated for this project.

Riviera Del Sol Neighborhood Park - Acquisition and Development 29-651.0

Council District: 8

Community Plan: Otay Mesa

Description: This project provides for land acquisition and development of a 4.9 useable-acre neighborhood park at a site located in the Riviera del Sol subdivision.

Justification: This project contributes to satisfying the population-based park acreage requirements set forth in the City of San Diego's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Otay Mesa Community Plan and Riviera del Sol Precise Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Land acquisition is scheduled to be complete in Fiscal Year 2007. Design is scheduled to begin in Fiscal Year 2009. This schedule is dependent upon the actual rate of development within the community.

Summary of Project Changes: Project cost and schedule have been updated to reflect the most recent Otay Mesa Public Facilities Financing Plan.

Park & Recreation**Other Parks****Roosevelt Junior High School - Joint Use Improvements 29-896.0****Council District:** 3**Community Plan:** Uptown

Description: This project provides for the design and construction of joint-use athletic fields at Roosevelt Junior High School. Phase I of the project provides for 1.8 useable acres of joint use and decomposed granite path surrounding the field area. Future phases will provide an additional 1.9 useable acres of joint use artificial turf, joint use parking, a comfort station, overhead shade structures and other amenities.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Uptown Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I design began in Fiscal Year 2007 and construction is scheduled to begin in Fiscal Year 2008. Future phases will be scheduled when funding is identified.

Summary of Project Changes: No major changes are anticipated for this project.

San Diego River Park Master Plan 29-666.0

Council District: 6

Community Plan: Mission Bay Park, Navajo, Tierrasanta, East Elliott

Description: This project provides for the development of a Master Plan including preparation of an environmental document and an economic analysis for approximately 17 miles of the San Diego River within the City of San Diego.

Justification: This project will provide a policy document to guide development, preservation, enhancement and recreation along the river over the next 20 years.

Operating Budget Effect: None.

Relationship to General and Community Plans: Once the Master Plan is developed the relationship to the Community Plan and City's Progress Guide and General Plan will be determined.

Scheduling: The project began in Fiscal Year 2004 and will be completed in Fiscal Year 2009.

Summary of Project Changes: The total project cost increased by \$507,000 due to a revised project cost estimate. It is proposed to allocate Regional Park Improvement funding in the amount of \$507,000 to this project through the Fiscal Year 2008 budget process.

Park & Recreation**Other Parks****Sefton Field Neighborhood Park (San Diego River Improvements) 29-911.0****Council District:** 2, 6**Community Plan:** Mission Valley, Navajo

Description: This project provides design and construction of improvements to enhance the 11 acre site currently maintained by the Presidio Little League. The improvements may include walkways, an entry monument, picnic areas, paved parking lots and roadways, landscaping, a comfort station and irrigation upgrades for the existing athletic fields.

Justification: This project will preserve and enhance the areas along the San Diego River as set forth in the City's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Mission Valley Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The design commenced in Fiscal Year 2007. Construction of the improvements will be scheduled as funding is identified.

Summary of Project Changes: The name of this project is changed from San Diego River Improvements to Sefton Field Neighborhood Park. The total project cost increased by \$1,000,000 to \$1,500,000 due to a revised project scope.

Sunshine Berardini Fields Development 29-890.0

Council District: 4

Community Plan: Mid-City

Description: This project provides for a general development plan and design and development of the Sunshine Berardini Fields. The proposed improvements may include a comfort station, playground area, a picnic area and amenities, landscaping, security lighting, accessible parking, driveway access, and habitat restorations as part of the Chollas Creek Enhancement Program.

Justification: This project contributes to satisfying the population-based park acreage requirement set forth in the City's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Mid-City Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The general development plan began in Fiscal Year 2007. Additional phases will be scheduled contingent upon identification of funding.

Summary of Project Changes: The total project cost increased by \$1,250,000 to \$8,774,000 due to a revised project scope. Park and Recreation Grant Match funds in the amount of \$80,000 were transferred from CIP 29-479.0, Martin Luther King Junior Community Park-George L. Stevens Senior Center, to CIP 29-890.0, Sunshine Berardini Fields Development within Fund 630221, Park and Recreation Grant Match per City Council Resolution R-302051. The total project cost of \$8,774,000 includes an unfunded amount of \$8,514,000.

Taylor Street Slope Reconstruction 29-905.0

Council District: 3

Community Plan: Old San Diego

Description: This project provides for the reconstruction of a failed slope at the northeastern end of Presidio Park along Taylor Street.

Justification: This project is needed to stabilize the slope to prevent further deterioration and damage to Taylor Street. State and federal grants have been authorized for this project and will reimburse the General Fund upon completion of construction.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Old San Diego Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2007 and will be completed in Fiscal Year 2008. Construction is scheduled to begin in Fiscal Year 2008.

Summary of Project Changes: This project was added, mid-year, to the Fiscal Year 2007 budget per City Council Resolution R-301630 and provides for reconstruction of the failed slope along Taylor Street.

Teralta Neighborhood Park - Development 29-685.0

Council District: 3

Community Plan: Mid-City

Description: This project provides for the development of the 5-acre park including a children's play area, basketball courts, paved walkways, landscaping and site furnishings. Phase I is complete. Phase II of the project will include the addition of a comfort station to the park and the development of Central Avenue as a pedestrian and bicycle corridor from the park to University Avenue (History Lane).

Justification: The approved general development plan for Teralta Park includes a comfort station to serve park users. History Lane will contribute to the north/south bike route through the Mid-City community. Children's Mall will contribute toward the community goal of establishing Polk Avenue as a pedestrian corridor.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Mid-City Communities Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I is complete. Phase II design began in Fiscal Year 2005 and construction will begin in Fiscal Year 2008.

Summary of Project Changes: The total estimated project cost decreased by \$666,000 to \$1,444,991 due to a change in project scope.

Torrey Highlands Trail System 29-548.0

Council District: 1

Community Plan: Pacific Highlands Ranch, Torrey Highlands

Description: This project provides for the design and construction of over six and a half miles of bicycle, pedestrian, and equestrian trails throughout the Pacific Highlands Ranch Subdivision. The trail system, which will meet City standards, will consist of paved, improved, multi-purpose and unpaved trails providing access from Black Mountain Park to Penasquitos Canyon and Torrey Pines Lagoon, including a footbridge at the bottom of McGonigle Canyon.

Justification: The trail system has been incorporated as a critical component of the Torrey Highlands Community Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Torrey Highlands Subarea Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Funding has been scheduled to be phased with the acquisition and development of the right-of-way and open space parcels in which the trails will be located.

Summary of Project Changes: Project cost and schedule have been updated to reflect the most recent Torrey Highlands Community Public Facilities Financing Plan.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City's Progress Guide and General Plan.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the Uptown Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2007. Construction is scheduled to begin in Fiscal Year 2009.

Summary of Project Changes: No major changes are anticipated for this project.

Windansea Improvements 29-680.0

Council District: 1

Community Plan: La Jolla

Description: This project provides for beach access and parking lot improvements and protection of cliffs and beaches through storm drain erosion control at Windansea Beach. The improvements will be done in phases as funding becomes available. Phase I includes construction of three sets of stairs. Phase II includes parking lot and drainage improvements. Future phases may be necessary to address protection of cliffs and beaches through storm drain erosion control.

Justification: This project will provide stairs to the beach, coastal bluff stability, and improve storm water protection through upgrades to the existing storm drain systems.

Operating Budget Effect: The operating budget effect will be determined upon completion of the project.

Relationship to General and Community Plans: This project implements the recommendations found in the La Jolla Community Plan and Local Coastal Program Land Use Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Phase I construction, which included three sets of stairs, was completed in Fiscal Year 2004. Phase II design which includes parking lot improvements is scheduled to be complete in Fiscal Year 2008. Phase II construction is contingent upon identification of funding. Design and construction of future phases are contingent upon identification of funding.

Summary of Project Changes: No major changes are anticipated for this project.

Storm Drains/Flood Control

San Diego River Dredging, Qualcomm Way to State Route 163 - Phase One 12-157.0

Council District: 6

Community Plan: Mission Valley

Description: This project provides for the first phase of dredging within the San Diego River between Qualcomm Way and State Route 163. The first phase will remove a small island of sediment located at the Murray Creek outfall near the western end of Hazard Center Drive. Other phases of dredging within the project area may be required in the future, pending funding identification.

Justification: This project will protect adjacent property from potential flooding during rain events.

Operating Budget Effect: Soundings of the river and other ancillary costs related to dredging are part of the maintenance obligations of the First San Diego River Improvement Project Maintenance Assessment District.

Relationship to General and Community Plans: This project implements the recommendations found in the Mission Valley Master Plan and the First San Diego River Improvement Project Natural Resource Management Plan (adopted by the City Council on February 2, 2004 per Resolution R-298839), and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and environmental studies for the removal of sediment from the Murray Creek outfall in the San Diego River are scheduled for completion in Fiscal Year 2008. Dredging of this area is scheduled to begin in Fiscal Year 2008.

Summary of Project Changes: No major changes are anticipated for this project.

Unfunded Needs List

Park & Recreation		Balboa Park	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
21-861.0	Balboa Park - Bird Park	\$ 1,000,000	\$ -
This project provides for approximately seven art elements and accessibility upgrades to the existing Bird Park of Balboa Park. The total estimated project cost of just over \$1.0 million including an unfunded amount of \$1 million.			
21-870.0	Balboa Park - Myrtle Way Pergola	\$ 350,000	\$ -
This project provides for reconstruction of the Myrtle Way Pergola in Balboa Park. The total estimated project cost of \$400,000 includes an unfunded amount of \$350,000.			
21-868.0	Balboa Park Parking, Circulation and Land Use Study - Phase II	\$ 3,000,000	\$ -
This project would provide for Phase II of the Balboa Park - Parking, Circulation and Land Use Study to evaluate parking alternatives and traffic circulation in Balboa Park to improve traffic issues. Phase II will include plan amendments and environmental documents. The total estimated project cost of \$3 million is entirely unfunded.			
Balboa Park Subtotal		\$ 4,350,000	\$ -

Park & Recreation		Economic Development	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
39-209.0	El Cajon Boulevard Commercial Revitalization - Interstate 805 to 54th Street	\$ 477,192	\$ -
This project provides for streetscape improvements, which include sidewalk replacement, curb and gutter replacement and the installation of street lights, along El Cajon Boulevard from Interstate 805 east to 54th Street. The total estimated project cost of \$2.8 million includes an unfunded amount of \$477,192.			
39-011.0	Switzer Canyon/30th Street Bridge Enhancement Program	\$ 225,000	\$ -
This project provides for bridge landscaping, hardscape, tree planting, signage, sidewalk, median, design of traffic calming devices, and pedestrian safety features. The total project cost of \$298,586 includes an unfunded amount of \$225,000.			
Economic Development Subtotal		\$ 702,192	\$ -

Park & Recreation		Golf Course	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
21-843.0	Balboa Park Golf Course - Clubhouse and Parking Lot	\$ -	\$ 7,534,120

This project provides for a master plan, design and construction of a new clubhouse, and a parking lot at the Balboa Park Golf Course. The total estimated project cost of \$8.0 million includes an unfunded amount of \$7.5 million.

Unfunded Needs List

Golf Course		Park & Recreation	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018

25-009.0 Torrey Pines Golf Course Clubhouse and Parking Lot	\$ 500,000	\$ 9,000,000
--	-------------------	---------------------

This project provides for replacement of the clubhouse and parking lot improvements at Torrey Pines Golf Course. The amount currently unfunded would provide for the construction of this project. The total estimated project cost of \$14,000,000 includes an unfunded amount of \$9,500,000.

25-006.0 Torrey Pines Golf Course: North Maintenance Building Improvements	\$ -	\$ 3,000,000
---	-------------	---------------------

This project would provide for a new maintenance facility for the Torrey Pines North Golf Course to include amenities such as men's and women's shower and locker facilities, wash racks and a storage area. The total estimated project cost of \$3,000,000 is entirely unfunded.

Golf Course Subtotal	\$ 500,000	\$ 19,534,120
-----------------------------	-------------------	----------------------

Mission Bay		Park & Recreation	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018

22-956.0 Fiesta Island Improvements	\$ 25,000,000	\$ 114,557,949
--	----------------------	-----------------------

This project would provide for construction of recreational improvements consistent with the general development plan and Mission Bay Park Master Plan, including an expanded causeway, turf ed multi-purpose areas, parking lots, playgrounds, comfort stations, walkways, a personal watercraft launching and service area, sand area relocation, south beach jetty, coastal landscaping, and additional utilities infrastructure. Total estimated project cost is \$189,557,949. Funding is unidentified.

22-960.0 Fiesta Island Infrastructure Improvements	\$ 25,000,000	\$ 225,000,000
---	----------------------	-----------------------

This project would provide for design and construction of recreational improvements consistent with the general development plan and Mission Bay Park Master Plan, including an expanded causeway which has been identified as a high priority, turf ed multi-purpose areas, parking lots, playgrounds, comfort stations, walkways, a personal watercraft launching and service area, sand area relocation, south beach jetty, coastal landscaping, and additional utilities infrastructure. The total project cost of \$253,117,273 includes an unfunded amount of \$250,000,000.

22-958.0 Mission Bay - Fiesta Island Access Road	\$ 533,423	\$ -
---	-------------------	-------------

This project would provide for improvements to the existing access road across the Fiesta Island causeway. Improvements may include road widening, utility stub outs and the addition of a small parking lot on the east side of the causeway. The estimate project cost of \$2,833,423 is entirely unfunded.

22-955.0 Mission Bay Marshes - Phase II	\$ 3,830,000	\$ -
--	---------------------	-------------

This project would provide for construction of filtration marshes at the mouth of Tecolote Creek. An existing project, CIP 22-945.0, Mission Bay Marshes - Phase I, provides for designing and permitting these improvements. Total estimated project cost is \$3,830,000. Funding is unidentified.

22-948.0 Santa Clara Recreation Center - Replacement	\$ 8,698,214	\$ -
---	---------------------	-------------

Unfunded Needs List

Park & Recreation		Mission Bay	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
	This project provides for the replacement of the Santa Clara Recreation Center. The total estimated project cost of \$8.9 million includes an unfunded amount of \$8.7 million.		
22-954.0	South Shores Improvements	\$ 10,600,000	\$ 52,000,000
	This project would provide for construction of recreational improvements in the remaining undeveloped portion of South Shores in Mission Bay Park consistent with the general development plan. The total estimated project cost of \$62.6 million is entirely unfunded.		
Mission Bay Subtotal		\$ 73,661,637	\$ 391,557,949
Park & Recreation		Other Parks	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
29-873.0	Alice Birney Elementary School - Joint Use Improvements	\$ 770,000	\$ -
	This project would provide for the design and construction of joint-use athletic fields at Alice Birney Elementary School and would include 1.6 acres of natural turf. The total estimated project cost of \$770,000 is entirely unfunded.		
29-884.0	Allied Gardens Recreation Center Expansion	\$ 4,063,280	\$ -
	This project would provide for the design and construction of an approximately 7,814 square foot expansion of the existing Allied Gardens Community Park Recreation Center, from 9,186 square feet to 17,000 square feet, to serve future residents within the Navajo community at projected build-out in 2030. The total estimated project cost of \$4.1million is entirely unfunded.		
29-694.0	Annual Allocation - Park Storm Drains	\$ 500,000	\$ 4,500,000
	This project would provide for park storm drain replacement and repair citywide, including coastal areas where loss of improvements could occur if storm drain issues are not addressed. The requested annual allocation amount of \$500,000 is unfunded.		
20-105.0	Annual Allocation - Coastal Infrastructure	\$ 350,000	\$ 3,150,000
	This project would provide for coastal infrastructure improvements citywide. The requested annual allocation amount of \$350,000 is unfunded.		
29-691.0	Annual Allocation - Court Resurfacing	\$ 60,000	\$ 540,000
	This project would provide for resurfacing of the athletic courts within the City's parks. The requested annual allocation amount of \$60,000 is unfunded.		
20-103.0	Annual Allocation - Dedications of Park Land	\$ 382,000	\$ 1,528,000
	This project would provide for park and open space dedications in compliance with Council Policy. The requested annual allocation amount of \$382,000 is unfunded.		
29-603.0	Annual Allocation - Park Irrigation System Upgrades	\$ 100,000	\$ 900,000
	This project would provide for park irrigation system upgrades citywide. The requested annual allocation amount of \$100,000 is unfunded.		

Unfunded Needs List

Other Parks		Park & Recreation	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
20-102.0	Annual Allocation - Seismic Retrofit	\$ 200,000	\$ 1,800,000
	This project would provide for the study of historic park buildings to determine their seismic capacities and plan for upgrades. The requested annual allocation amount of \$200,000 is unfunded.		
29-693.0	Annual Allocation - Structural Surveys and Emergency Consultants	\$ 100,000	\$ 900,000
	This project would provide funding for structural surveys and emergency consultants for city park facilities. The requested annual allocation amount of \$100,000 is unfunded.		
29-581.0	Barnard Elementary School Joint Use Park Improvements	\$ 415,000	\$ -
	This project provides 2.2 acres of joint use turf fields at Barnard Elementary School. Recreational facilities may include turf irrigation, multi-purpose fields, walkways, fencing and other amenities. The amount currently unfunded would fully fund the cost of construction. The total estimated project cost of \$1,000,000 includes an unfunded amount of \$415,000.		
29-927.0	Bay Terraces Community Center and Joint Use Improvements - Phase II	\$ 1,633,000	\$ -
	This project would provide for construction of a 3,200 square foot community and senior center at Bay Terraces Community Park. The total estimated project cost of \$ 1.6 million is entirely unfunded.		
29-427.0	Black Mountain Ranch Community Park - Acquisition and Development	\$ 350,000	\$ -
	This project provides for the acquisition, design and construction of a 30 useable-acre community park. The total estimated project cost of \$17.4 million includes an unfunded amount of \$350,000.		
29-429.0	Black Mountain Ranch Community Park Swimming Pool	\$ -	\$ 339,000
	This project will provide for the design and construction of a 25 meter by 25 yard swimming pool and related facilities to serve the North City Future Urbanizing Area. The total estimated project cost of \$4.5 million includes an unfunded amount of \$339,000.		
29-532.0	Capehart Open Space Park - Improvements	\$ 2,000,000	\$ -
	This project provides for a leash-free dog park including parking lot and street improvements, children's play area and comfort station. The total estimated project cost of \$2.6 million includes an unfunded amount of \$2.0 million.		
29-689.0	Carmel Grove Mini-Park - Play Area Upgrade	\$ 75,000	\$ -
	This project provides for the upgrade and replacement of playground equipment to meet State and federal safety and accessibility requirements. The total estimated project cost of \$150,288 includes an unfunded amount of \$75,000.		
29-482.0	Carmel Valley Neighborhood Park - Neighborhood #8	\$ 350,000	\$ -
	This project provides for acquiring and developing a 4 useable-acre neighborhood park, including a play area, picnic facilities, open turf area and landscaping. The total estimated project cost of \$3.1 million includes an unfunded amount of \$350,000.		

Unfunded Needs List

Park & Recreation		Other Parks	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
29-002.0	Central Avenue Mini Park-Acquisition and Development	\$ 671,200	\$ -
	This project provides for the acquisition of an approximately 16,000 square foot parcel, remaining from the construction of the I-15 freeway through Mid-City at the corner of Central Avenue and Landis Street, to be developed as a mini park. Amenities may include an open turf area, children's play area, seating areas, walkways and security lighting. The total estimated project cost of \$800,000 includes an unfunded amount of \$671,200.		
29-913.0	Coastal Bluff Erosion and Access	\$ 459,879	\$ 2,242,523
	This project provides partial funding for coastal infrastructure improvements at 71 sites, from Sunset Cliffs Park to Torrey Pines State Beach, that were identified and prioritized in a 2003 Coastal Erosion Assessment Survey. High priority sites are those that present potential public hazards. The total estimated project cost of \$4.2 million includes an unfunded amount of \$2.7 million.		
29-489.0	Encanto Community Park - Development	\$ 4,605,914	\$ -
	This project provides for updating the existing General Development Plan and design and construction of 0.77 acres of undeveloped park property and a community swimming pool complex. The total estimated project cost of \$4.7 million includes an unfunded amount of \$4.6 million.		
29-409.0	Field Elementary School Joint-Use Improvements	\$ 2,340,000	\$ -
	This project would provide for design and construction of a 3.35 acre turfed, multi-sports field on the existing joint-use area of Field Elementary School. The total estimated project cost of \$2.3 million is entirely unfunded.		
29-596.0	Fox Canyon Park - Acquisition and Development	\$ 1,372,000	\$ -
	This project will provide for the acquisition and development of an approximately 1.9 gross-acre park, creek enhancements, street improvements and other recreational amenities in the Mid-City neighborhoods of Fox Canyon and Chollas Creek. The total estimated project cost of \$4.8 million includes an unfunded amount of \$1.4 million.		
29-795.0	Hickman Fields	\$ 500,000	\$ 30,000,000
	This project would provide for a 44-acre athletic area in the Kearny Mesa Community Planning Area to include multi-purpose fields, a recreation building and a swimming pool. The total estimated project cost of \$30.5 million is entirely unfunded.		
29-282.1	Hilltop Community Park - Development, Phase I, II & III	\$ -	\$ 450,614
	This project provides for development of the Hilltop Community Park, including a soccer and roller hockey arena. The total estimated project cost of \$6.3 million includes an unfunded amount of \$450,614.		
29-865.0	Home Avenue Neighborhood Park - Development	\$ 2,400,000	\$ -
	This project provides for the construction of a new six acre neighborhood park with approximately two useable-acres, enhancements to Chollas Creek, and traffic improvements on Home Avenue. The total estimated project cost of \$3.0 million includes an unfunded amount of \$2.4 million.		
29-521.0	John F. Kennedy Neighborhood Park - Play Area Upgrade	\$ 464,618	\$ -

Other Parks		Unfunded Needs List	
		Park & Recreation	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
	This project will provide for the upgrade of the play area and existing comfort station at John F. Kennedy Neighborhood Park. The total estimated project cost of \$500,000 includes an unfunded amount of \$464,618.		
29-889.0	Joint Use Improvements - Citywide	\$ 1,672,295	\$ -
	This project provides for design and construction of miscellaneous improvements on joint use facilities throughout the city, such as replacement and upgrades to turf, irrigation, fencing and/or disabled access. The total estimated project cost of \$2.4 million includes an unfunded amount of \$1.7 million.		
29-671.0	Kumeyaay Lakes Berm Restoration and Dredging	\$ 9,840,000	\$ -
	This project provides for the dredging of two lakes and reconstruction of a lake berm within the Kumeyaay Lake system at Mission Trails Regional Park. The total estimated project cost of \$10.0 million includes an unfunded amount of \$9.8 million.		
29-872.0	La Jolla Children's Pool - Joint Use	\$ 480,000	\$ -
	This project provides for sand removal at Children's Pool in order to provide a bathing pool for children. The total estimated project cost of \$500,000 includes an unfunded amount of \$480,000.		
29-536.0	La Jolla Valley Trail	\$ 115,000	\$ -
	This project provides for the design and construction of a 3.6-mile multi-use unpaved trail, meeting City trail standards, within the open space to be granted to the City by the Black Mountain Ranch community. The trail will extend from the City limits to Black Mountain Park. The total estimated project cost of \$500,000 includes an unfunded amount of \$115,000.		
29-538.0	La Jolla Valley Trail - North Loop	\$ 278,000	\$ -
	This project will provides for the design and construction of a 6.6-mile trail, meeting City standards, located along the northern and western City boundary and southerly to the La Jolla Valley Trail. The total estimated project cost of \$916,000 includes an unfunded amount of \$278,000.		
29-892.0	Lake Murray Community Park - Artificial Turf Field	\$ 1,340,000	\$ -
	This project provides for the addition of an approximately 1.7 acre artificial turf ball field south of the existing ball fields at Cowles Point, including two accessible parking spaces and an accessible path of travel. The total estimated project cost of \$1.4 million includes an unfunded amount of \$1.3 million.		
29-518.0	Martin Luther King Community Park - Play Area Upgrade	\$ 1,150,000	\$ -
	This project would provide for a universally accessible children's play area, adjacent to the existing swimming pool at the north end of Martin Luther King Community Park, including ramps and surfacing. Ramps of varying elevation would allow access to all playground equipment within the playground. The total estimated project cost of \$1.2 is entirely unfunded.		
29-893.0	Memorial Community Park - Miscellaneous Pool Improvements	\$ 16,463	\$ -
	This project provides for the repair and replacement of the pool decking and piping at Memorial Pool. The total estimated project cost of \$338,500 includes an unfunded amount of \$16,463.		
29-757.0	Mira Mesa Community Park - Expansion (Carroll Neighborhood Park - Development)	\$ 100,000	\$ 100,000

Unfunded Needs List

Park & Recreation

Other Parks

CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
---------------	---------------	---------------------------------------	---------------------------------------

This project provides for developing approximately 11 useable-acres of the former Carroll School parksite across the street from Mira Mesa Community Park. Amenities include a comfort station and ballfields. The total estimated project cost of \$21.2 million includes an unfunded amount of \$200,000.

52-533.0 Mission Beach - Boardwalk Widening \$ 1,853,725 \$ -

This project increase public accesablity of the beach areas in Pacific and Mission Beach, including the acquisition of the right-of-way at Santa Rita Place and from Pacific Beach Drive to Oliver Avenue and the widening of the boardwalk from Santa Rita Place to Thomas Avenue. The total estimated project cost of \$3.8 million, includes an unfunded amount of \$1.9 million.

52-719.0 Mission Beach Bulkhead Preservation \$ 8,128,000 \$ -

This project provides for preserving the life of the Mission Beach bulkhead from Balboa Court to Pacific Beach Drive. The amount currently unfunded would provide for replacing the concrete deck, restoring the wall backfill and replacing the parapet. The total estimated project cost of \$9.2 million includes an unfunded amount of \$8.1 million.

29-668.0 Mission Valley Preserve - Geological Impact Report \$ 50,000 \$ -

This project would provide for an evaluation and recommend solutions regarding a former burn site within Mission Valley Preserve. The total estimated project cost of \$50,000 is entirely unfunded.

29-771.0 Mt Hope Cemetery - Division 14 Development \$ 2,600,000 \$ -

This project would provide for development of approximately three acres for burial sites at Mt. Hope Cemetery. The total estimated project cost of \$2.6 million is entirely unfunded.

29-707.0 Mt. Hope Cemetery Southern Storm Flood Channel \$ 150,000 \$ -

This project would provide for a storm flood channel to be dredged and cleared, allowing for proper water drainage at Mt. Hope Cemetery. The total estimated project cost of \$150,000 is entirely unfunded.

29-702.0 Normal Heights Community Park/39th Street Park Development \$ 2,004,088 \$ -

This project provides for development of the Normal Heights Community Park/39th Street Park. The amount currently unfunded would provide for future phases to include the development of approximately two acres of City owned property and a community center. The total estimated project cost of \$4,436,296 includes an unfunded amount of \$2,004,088.

29-667.0 North Chollas Community Park - Improvements \$ 19,503,967 \$ -

This project provides for design and development of North Chollas Community Park. The amount currently unfunded would provide for additional development that may include a comfort station with concession area, additional sports and multi-purpose fields, play area, basketball courts, picnic areas, additional parking areas, creek enhancement, trails, a gymnasium and a dog off-leash area. The total estimated project cost of \$22,800,000 includes an unfunded amount of \$19,503,967.

29-675.0 Ocean Beach Fishing Pier Preservation \$ 12,000,000 \$ -

The amount currently unfunded would provide for upgrade and restoration of the Ocean Beach Fishing Pier. The total estimated project cost of \$12,205,000, includes an unfunded amount of \$12,000,000.

Unfunded Needs List

Other Parks		Park & Recreation	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
29-910.0	Open Space Improvements	\$ 730,000	\$ -
	This project provides for developing public facilities within the City's resource-based open space parks. Improvements may include: rehabilitation of Cowles Mountain Trail, drainage improvements within Tecolote Open Space, San Diego River improvements, Arizona Landfill reclamation test plot and North Chollas Open Space enhancement. The amount currently unfunded would fund construction improvements. The total estimate project cost of \$2,000,000 includes an unfunded amount of \$730,000.		
29-550.0	Otay Valley Athletic Complex	\$ 21,800,000	\$ -
	This project would provide for an approximately 14 useable-acre athletic complex. Amenities may include a recreation center, athletic fields, a comfort station, parking areas and other improvements to be determined. The total estimated project cost of \$22,000,000 includes an unfunded amount of \$21,800,000.		
29-942.0	Otay Valley Regional Park-Beyer Way Equestrian & Regional Staging Area & Trail	\$ 2,550,000	\$ -
	This project provides for the design of the regional staging area in Otay Valley Regional Park and will include grading, drainage, utilities, restroom, security lights, interpretive kiosk, a project sign, drinking fountain and trails. The total estimated project cost of \$2,750,000 includes an unfunded amount of \$2,550,000.		
29-543.0	Pacific Highlands Community Park Acquisition and Development	\$ 125,000	\$ -
	This project will provide for the acquisition, design and construction of a 20 useable-acre community park to serve the residents of Pacific Highlands Ranch and Del Mar Mesa. The amount currently unfunded would provide for construction. The total estimated project cost of \$19,300,000 includes an unfunded amount of \$125,000.		
29-709.0	Park System Work Plan	\$ 914,000	\$ 3,178,000
	This project would provide for a Citywide parks work plan that would define and guide long-range planning and policy for acquiring, preserving, developing and managing parks and open space in San Diego. The total estimated project cost of \$4,092,000 is entirely unfunded.		
20-013.0	Park and Recreation Grant Match Funding	\$ 1,600,000	\$ -
	This project provides for assistance with matching fund requirements and other unfunded needs for projects funded with alternative financing, which includes grants and private donations. The total estimated project cost of \$2,046,955 includes an unfunded amount of \$1,600,000.		
29-923.0	Parkdale Neighborhood Park - Acquisition and Development	\$ -	\$ 500,000
	This project provides for the acquisition, design and construction of a 5 useable-acre neighborhood park located at the south end of Parkdale Avenue in the vicinity of Osgood Way and Backer Road. Park amenities may include multi-purpose turf areas, children's play areas, multi-purpose courts, picnic facilities, walkways, security lighting and landscaping. The park will also include an approximately 1,000 square foot interpretive center for an adjoining seven-acre vernal pool site. The total estimated project cost of \$6,350,000 includes an unfunded amount of \$500,000.		
29-582.0	Penasquitos Creek Restoration	\$ 296,000	\$ -

Unfunded Needs List

Park & Recreation		Other Parks	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018
	This project would provide for a drainage and engineering study plus the removal of sedimentation from Penasquitos Creek and two drainage swales. It would also include the reengineering and/or extension of the drainage pipe just east of the Black Mountain Road bridge. The total estimated project cost of \$296,000 is entirely unfunded.		
29-531.0	Pershing Middle School - Joint Use Turfing	\$ 5,600,000	\$ -
	Phase I of this project, which is complete, provided for artificially turfing 5 acres of school district-owned, multi-purpose fields for athletic and recreational activities pursuant to a joint-use agreement. The amount currently unfunded would provide for artificially turfing an additional 5 acres, including a comfort station, two shade structures, and entry monumentation. The total estimated project cost of \$6,704,380 includes an unfunded amount of \$5,600,000.		
29-669.0	Playground Equipment Upgrades	\$ 2,100,125	\$ 6,300,375
	This project would provide for replacement and upgrade of playground equipment at various park sites Citywide that have been affected by equipment removals as a result of playground safety audits. The total estimated project cost of \$8,400,500 is entirely unfunded.		
29-477.0	Presidio Park Master Plan	\$ 475,000	\$ -
	This project provides for preparation of a master plan to restore, enhance and manage the archaeological and historical resources at Presidio Park. Phase I provided for consultant services to oversee a task force of selected professional archaeologists, geologists and historians who studied the park site and developed a program that will become the basis for the master plan. The amount currently unfunded would provide funding for Phase II to complete the master plan effort. The total estimated project cost of \$500,000 includes an unfunded amount of \$475,000.		
29-692.0	Public Roads Supporting Park Access	\$ 500,000	\$ 4,500,000
	This project would provide funding for public roads that support access to City parks. The requested annual allocation amount of \$500,000 is unfunded.		
29-864.0	Rancho Penasquitos Parks - Playground Upgrades	\$ 550,000	\$ -
	This project provides for upgrades of play area and replacement of playground equipment. New playground equipment will comply with State and federal safety and accessibility requirements. The total estimated project cost of \$2,450,000 includes an unfunded amount of \$850,000.		
29-922.0	Rattlesnake Canyon Neighborhood Park	\$ -	\$ 1,050,000
	This project provides for the design and construction of a 10 useable-acre neighborhood park, including a trail connection to Maddox Neighborhood Park. Park amenities may include multi-purpose sports fields, sports field lighting, multi-purpose turfing areas, children's play areas, multi-purpose courts, picnic facilities, walkways, security lighting, a comfort station and concessions facility, and landscaping. The amount currently unfunded would provide for construction improvements. The total estimated project cost of \$5,700,000 includes an unfunded amount of \$1,050,000.		
29-651.0	Riviera Del Sol Neighborhood Park - Acquisition and Development	\$ -	\$ 1,360,000
	This project provides for land acquisition and development of a 4.9 useable-acre neighborhood park at a site located in the Riviera Del Sol subdivision. The amount currently unfunded would provide for the construction of the neighborhood park. The total estimated project cost of \$4,910,000 includes an unfunded amount of \$1,360,000.

29-896.0	Roosevelt Junior High School - Joint Use Improvements	\$ 4,200,000	\$ -
	This project provides for the design and construction of joint-use athletic fields at Roosevelt Junior High School. Phase I of the project provides for 1.8 useable acres of joint use and decomposed granite path surrounding the field area. Future phases will provide an additional 1.9 useable acres of joint use artificial turf, joint use parking, a comfort station, overhead shade structures and other amenities. The amount currently unfunded would provide for future phases of construction. The total estimated project cost of \$4,600,000 includes an unfunded amount of \$4,200,000.		
29-911.0	Sefton Field Neighborhood Park (San Diego River Improvements)	\$ 1,000,000	\$ -
	This project provides design and construction of improvements to enhance the 11 acre site currently maintained by the Presidio Little League. The improvements may include walkways, an entry monument, picnic areas, paved parking lots and roadways, landscaping, a comfort station and irrigation upgrades for the existing athletic fields. The amount currently unfunded would provide for the design and construction improvements. The total estimated project cost of \$1,500,000 includes an unfunded amount of \$1,000,000.		
29-871.0	Sunset Cliffs Natural Park - Drainage Study	\$ 90,000	\$ -
	This project provides for a study to identify and analyze drainage and erosion issues, recommend solutions, and provide environmental review of the recommendations. The amount currently unfunded would provide for the design of this project. The total estimated project cost of \$395,000 includes an unfunded amount of \$90,000.		
29-890.0	Sunshine Berardini Fields Development	\$ 3,373,200	\$ 5,140,800
	This project provides for a general development plan and design and development of the Sunshine Berardini Fields. The proposed improvements may include a comfort station, playground area, a picnic area and amenities, landscaping, security lighting, accessible parking, driveway access, and habitat restorations as part of the Chollas Creek Enhancement Program. The amount currently unfunded would provide for construction of additional phases of the project. The total estimated project cost of \$8,774,000 includes an unfunded amount of \$8,514,000.		
29-613.0	Tierrasanta Skate Park	\$ 5,000,000	\$ -
	This project would provide for the design and construction of a skateboard park within the Tierrasanta Community Planning area at a location to be determined. The total estimated project cost of \$5,000,000 is entirely unfunded.		
29-437.0	Torrey Pines Pocket Park - Acquisition and Development	\$ 1,662,000	\$ -
	This project would provide for acquisition, design and construction of a pocket park in the Torrey Pines Community Planning area. The total estimated project cost of \$1,662,000 is entirely unfunded.		
29-859.0	University Village Play Area Upgrade and Improvements	\$ 310,200	\$ -
	This project would provide for the installation of a new play area and other improvements in University Village. The total estimated project cost of \$330,650 includes an unfunded amount of \$310,200.		
29-680.0	Windansea Improvements	\$ 275,000	\$ -

Police

Police**Police****Northwestern Area Station 36-059.0****Council District:** 1**Community Plan:** Subarea II Future Urbanizing Area,
Carmel Valley, Torrey Hills, Via de la
Valle, Fairbanks Ranch Country Club

Description: This project provides for the acquisition of a four-acre site and construction of facilities to house a police command and light vehicle maintenance facility. The site was acquired by the City in September 2002 and is located on El Camino Real at Elijah Court. These facilities will serve the northwest area of the City in the Carmel Valley and adjacent community plan.

Operating Budget Effect: The operation of the Northwestern Area Police Station will require an additional 23.50 positions to staff the new division. The Fiscal Year 2008 Annual Budget reflects an increase of approximately \$321,000 in personnel costs and \$1.2 million in non-personnel expenditures for this police station.

Relationship to General and Community Plans: This project is consistent with most affected community plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The land acquisition process was completed in Fiscal Year 2003. Design began in Fiscal Year 2003 and was completed in Fiscal Year 2004. Construction began in Fiscal Year 2006 and was completed in January of 2007. This project will be closed in Fiscal Year 2008, pending any incidental costs.

Summary of Project Changes: Construction was completed in January of 2007 and the facility is operational.

Police and Fire Training Facility (Regional Public Safety Training Institute) 36-064.0

Council District: 2

Community Plan: Peninsula

Description: This project provides for the City's proposed Regional Police and Fire Training Facility (Regional Public Safety Training Institute [RPSTI]) in the Camp Nimitz area of the former Naval Training Center, as well as for a Regional Emergency Vehicle Operations Course, which will be located at a site yet to be identified. Currently, law enforcement training takes place at Miramar College and Fire-Rescue training takes place in the aging existing buildings at Camp Nimitz. The Naval Training Center reuse plan, approved by the Navy and the City Council, set aside 24.7 acres for this purpose. The City Council has also approved a Joint Powers Authority between the City of San Diego, County of San Diego, and San Diego Community College District for the development, financing and administration of the RPSTI. The City's projected share of the total cost of the project will be funded jointly by the San Diego Fire-Rescue and Police Departments.

Justification: The expansion of the campus at Miramar College will require the relocation of law enforcement training to the Camp Nimitz site. Construction of a regional state-of-the-art facility will satisfy current Peace Officer Standards for Training, State Fire Marshal's Office, and Standards for Corrections Training requirements and provide for consistent training of all emergency responders countywide. RPSTI will also provide a venue for training of private security and allow for training of local agencies by State and federal entities.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Schedule will be determined upon completion of design, which is expected to be complete by Fiscal Year 2010. Preliminary construction has been rescheduled for Fiscal Year 2009, contingent upon identification of funding.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Unfunded Needs List

Police		Police	
CIP Number	Project Title	Funding Required in FY2008-2009	Funding Required in FY2010-2018

36-068.0 Otay Mesa Police Facility	\$	-	\$ 30,000,000
---	----	---	---------------

This project would provide for acquisition of land and construction of a police facility to serve the east Otay Mesa area. This facility would accommodate the anticipated need for increased police services due to population growth and development in this area. The total funding needs of the project, currently estimated at \$30.0 million, will be determined once a final scope of work is established.

36-069.0 Permanent Canine and SWAT Facility	\$	5,500,000	\$ -
--	----	-----------	------

In Fiscal Year 2006, the Police Vehicle Maintenance Facility was relocated to Federal Boulevard. As a result, the Canine and SWAT Units were relocated east of the Pistol Range. Because of a shortage of funding, the initial project only included funding for temporary modular office space for the two units. This project would include public right-of-way improvements on the south side of Federal Boulevard, as directed by the Mayor and City Council. The total funding needs of the project, currently estimated at \$5.5 million, will be determined once a final scope of work is established.

36-077.0 Police Mounted Enforcement Facility	\$	-	\$ 5,500,000
---	----	---	--------------

This project would provide for a replacement facility for the Police Mounted Enforcement Unit. The current Mounted Enforcement Unit is housed in a double-wide trailer that was relocated from the old Canine Unit site. While serviceable, the trailer is aging and will need to be replaced. The total funding needs of the project, currently estimated at \$5.5 million, will be determined once a final scope of work is established.

36-074.0 Police Pistol Range Improvements	\$	8,000,000	\$ -
--	----	-----------	------

This project would provide for improvements to the Police Pistol Range. The existing Pistol Range at 4000 Federal Boulevard has been in operation since the 1930s. While the range has not changed significantly over the years, the surrounding community has, with developments and freeways now surrounding the complex. Many modifications are needed to enhance its safety and usability, as well as comply with existing codes, while still maintaining the historic significance of the structures. This range is used by multiple law enforcement agencies, the training academy, the Community College District, and is open to the public through the Revolver Club. The total funding needs of the project, currently estimated at \$8.0 million, will be determined once a final scope of work is established.

36-055.0 Police Property Storage Facility	\$	5,000,000	\$ -
--	----	-----------	------

This project would provide for additional evidence storage space in anticipation of future storage needs. An estimated 50,000 square feet of space would house property and evidence and eliminate the need to lease property storage space. The total funding needs of this project, currently estimated at \$5.0 million, will be determined once a final scope of work is established.

36-075.0 Police Tactical Training Facility	\$	1,700,000	\$ -
---	----	-----------	------

This project would provide for a facility to train for tactical situations using all types of weapons. The existing Pistol Range at 4000 Federal Boulevard is inadequate to properly train law enforcement officers in all aspects of firearms safety and proficiency. The size and configuration of the existing range, coupled with the addition of adjacent developments over the years, limits the size and type of weapons and ammunition that may be used there. While this range could remain in use for training with smaller arms, an additional firearms range should be constructed to provide the ability to train with weapons of larger caliber and greater velocity. The ability to train for tactical situations and the safe and proficient use of all types of weapons is critical to both the officers who work for the Department and the citizens they serve. The total funding needs of the project, currently estimated at \$1.7 million will be determined once a final scope of work is established.

Annual Allocation - Brown Field 31-300.0

Council District: 8

Community Plan: Otay Mesa

Description: This annual allocation provides for capital improvements at Brown Field. The improvements are financed by the Airports Enterprise Fund, which may receive federal and State grants. Individual projects are recommended to the City Council based on the Master Plan for the airport and on the availability of funding. These projects will not be impacted by the Brown Field development project.

Justification: This project may be used to provide matching local funds for capital improvement projects which are supported by State or federal grants and require local financial participation, and to provide permanent public improvements for which no State and/or federal grant funding is available.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

Annual Allocation - Montgomery Field 31-001.0

Council District: 6

Community Plan: Kearny Mesa

Description: This annual allocation provides for capital improvements at Montgomery Field. The improvements are financed by the Airports Enterprise Fund, which may receive federal and State grants. Individual projects are recommended to the City Council based on the Master Plan for the airport and on the availability of funding.

Justification: This project may be used to provide matching local funds for capital improvement projects which are supported by State or federal grants and require local financial participation, and to provide permanent public improvements for which no State or federal grant funding is available.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Kearny Mesa Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects will be scheduled on a priority basis.

Summary of Project Changes: No major changes are anticipated for this project. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

QUALCOMM Stadium

Annual Allocation - QUALCOMM Stadium Improvements 34-200.0

Council District: 6

Community Plan: Mission Valley

Description: This annual allocation provides for needed improvements at QUALCOMM Stadium, including the electrical system, parking lot, and working press area.

Justification: As the stadium ages, regular upgrades and renovations are required for various components.

Operating Budget Effect: The operating budget effect will be determined upon completion of individual projects.

Relationship to General and Community Plans: This project is consistent with the Mission Valley Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction will be phased in accordance with the scope of various projects.

Summary of Project Changes: This project received \$750,000 in Qualcomm Stadium funds in Fiscal Year 2008. This provides funding to repair key elements of the stadium, which include the electrical system, parking lot and working press area. The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the Annual Budget.

Water

Alvarado Water Treatment Plant -Upgrade and Expansion 73-261.3

Council District: 7

Community Plan: Mission Trails Regional Park, Navajo

Description: This project increases the treatment capacity of the plant from 150 million gallons of water per day (mgd) to 200 mgd and upgrades the existing treatment plant facilities to replace aged equipment and comply with new drinking water regulations. This project is split into multiple construction projects and will be phase funded. The major project components consist of the construction of two new sedimentation basins, rehabilitating the existing 1950 era sedimentation basins, rehabilitating the mechanical equipment and controls on the existing 1950 era filters, ozone generation and treatment facilities, and various site and landscaping improvements.

Justification: The Safe Drinking Water Act, Environmental Protection Agency regulations, and a Department of Health Services Compliance Order dictate the need to upgrade the treatment plant process and equipment. Anticipated future demands within the Alvarado Water Service Area also require the plant to be expanded to 200 mgd. The rehabilitated plant will better utilize the raw water storage in the San Vicente and El Capitan Reservoirs.

Operating Budget Effect: The upgrade from chlorine to ozone as the primary disinfectant will have a significant impact on the electrical and chemical consumption of the plant, an increase of approximately of \$1.6 million annually. The increase in treated water capacity and the technical aspect of the equipment will also impact the cost for maintaining and operating the plant.

Relationship to General and Community Plans: This project is consistent with the Mission Trails Regional Park Plan and the Navajo Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 1999 and is continuing through subsequent phases of work. Construction began on the initial phase of work in Fiscal Year 2004 and is scheduled to be completed in Fiscal Year 2013.

Summary of Project Changes: No changes have been made to this project for Fiscal Year 2008.

Annual Allocation - Air Valve Adjustments and Relocations 73-333.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the raising or rehabilitating of existing air and vacuum release vents and air release valves from below grade to above grade, and enclosing the vents in 3/16-inch steel cylinders mounted on concrete pads.

Justification: Below-grade valves are subject to flooding which could allow for cross-connections and maintenance is easier on above-ground valves.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 Proposed Budget. In addition, annual allocations do not show prior year appropriations in the annual budget.

Annual Allocation - CIP Contingencies 73-331.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the Water Department's Municipal Water Capital Improvements Program contingency needs.

Justification: To provide better project budget control, project contingency needs (except for annual allocation projects) will be met by this annual allocation.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 proposed budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Annual Allocation - Corrosion Control 73-310.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for renovating or replacing deteriorating corrosion control and monitoring systems throughout the City.

Justification: Deteriorating corrosion control and monitoring systems are in need of rehabilitation. This annual allocation provides for an ongoing program to rehabilitate over 600 existing corrosion protection stations.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocations is reflective of the Fiscal Year 2008 proposed budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Annual Allocation - Dams and Reservoirs 74-925.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for rehabilitating and reconstructing improvements at reservoirs and dams, such as resurfacing access roads, reconstructing berms, installing lighting around dams, and sandblasting and shotcreting all exposed surfaces of the dams.

Justification: The rehabilitation and reconstruction of access roads and upgrading of berms, lighting, and all exposed surfaces of the dams are necessary to maintain access to and safety in the dam area. These improvements will also serve to satisfy a portion of the Division of Safety of Dams, which is a State requirement.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Annual Allocation - Freeway Relocation 73-024.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for relocating water lines in conflict with the State Department of Transportation's highway construction projects.

Justification: Waterline relocation is necessitated by the State Department of Transportation's effort to expand the State Highway System. Relocation projects are accomplished in conjunction with highway projects scheduled by the State Department of Transportation.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Annual Allocation - Pressure Reduction Facility Upgrades 73-900.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for replacing existing pressure reducing stations, or expanding pressure capacities to meet present and future water demands.

Justification: Increasing demands for water throughout the City dictate the need to better control water pressure throughout the City's system. This annual allocation will fund continued replacement and expansion of these facilities.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocations is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Annual Allocation - Standpipe and Reservoir Rehabilitations 73-277.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for reconstructing standpipes and reservoirs to improve operations and extend their useful life.

Justification: Many existing standpipes and reservoirs in the water system have deteriorated to a point where they must be reconstructed or replaced to meet the current Occupational Safety and Health Act and Environmental Protection Agency safety and water quality standards.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Annual Allocation - Water Main Replacements 73-083.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the replacement of water mains at various locations throughout the City.

Justification: Water mains need to be replaced due to their deteriorated condition or size limitation. The existing cast-iron system is either approaching or has exceeded its expected life of 40 years. Breaks are now occurring at the rate of over 200 annually.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition annual allocations do not show prior year appropriations in the budget.

Annual Allocation - Water Pump Station Rehabilitations 73-263.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for replacing deteriorated pumping equipment and appurtenances or expanding pumping capacities to meet present and future water demands.

Justification: Many existing water pump stations have reached or exceeded their anticipated service life or demands have exceeded their maximum pumping capacity. However, because of the widely varying actual lengths of service life, scheduling for pump station restoration is difficult.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Barrett Reservoir Outlet Tower Upgrade 73-317.0

Council District: None

Community Plan: No Community Planning Area

Description: This project provides for upgrading the electrical system and replacing the outlet tower ladders, valves and platforms.

Justification: The aging outlet tower components are in need of replacement for safety and ease of operation. The electrical system needs to be upgraded to meet current standards, provide better control, and provide safety and better accessibility.

Operating Budget Effect: This project is schedule to be completed in Fiscal Year 2008.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2001 and was completed in Fiscal Year 2006. Construction began in Fiscal Year 2007 and will be completed in Fiscal Year 2008.

Summary of Project Changes: Total estimated project cost decreased by \$2.9 million to \$3.6 million.

Groundwater Asset Development Program 75-932.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for investigation work related to legal, technical, regulatory, and water quality issues; and planning, design, and construction of groundwater facilities to increase the local water supply.

Justification: The City imports 90 percent of its water from the Colorado River and the State Water Project. The City has access to nine under-utilized groundwater assets that could be developed to supply new yield, seasonal storage or carryover storage.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Research, design, and development began in Fiscal Year 2001 and will continue through Fiscal Year 2017. Exploration, design, and construction will be accomplished as specific sub-projects are defined.

Summary of Project Changes: The scope and schedule of this project are still preliminary.

Harbor Drive Pipeline 70-957.0

Council District: 2, 8

Community Plan: Ocean Beach, Old San Diego,
Peninsula, Centre City

Description: This project will replace 1.5 miles of pipeline along Harbor Drive.

Justification: These improvements are necessary to prevent water pipe breaks and to ensure a continuous water supply to the Ocean Beach and Peninsula community planning areas.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is consistent with the affected community planning areas and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Proposed construction would begin in Fiscal Year 2014.

Summary of Project Changes: The scope and schedule of this project are still preliminary. Changes to project cost and schedule reflect changes to initial estimates.

Miramar Pipeline Improvements - Phase III & IV 70-910.5

Community Plan: Mira Mesa

Council District: 5

Description: This project provides for replacing or rehabilitating 26,870 linear feet of existing 51-inch diameter pre-stressed concrete cylinder pipe on Mira Mesa Boulevard between Stadium Street and I-15. A pipeline condition assessment will be performed prior to initiating design.

Justification: These improvements are necessary to prevent water pipe breaks and to assure a continuous water supply to the Mira Mesa Community.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Mira Mesa Community Plan, and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Major pipeline inspections began in Fiscal Year 2005 and are scheduled to be completed in Fiscal Year 2008 following construction of the Black Mountain Road pipeline projects (CIP 70-945.0 and CIP 73-341.0). Miramar pipeline will be reinspected starting in Fiscal Year 2009 and scheduled to be completed in Fiscal Year 2012.

Summary of Project Changes: The total project cost decreased by \$13.7 million due to design scope revisions. This project now includes Phase IV.

Miramar Water Treatment Plant - Upgrade and Expansion 73-284.0

Council District: 5

Community Plan: Scripps Miramar Ranch

Description: This project provides for the upgrades and expansion of the Miramar Water Treatment Plant, including construction of new state-of-the-art filters, new rapid mix and de-aeration facilities, new chlorine and chemical facilities, four new flocculation and sedimentation basins, an ozone structure with generation equipment, site paving, landscaping and a new administration building.

Justification: The Safe Drinking Water Act, mandated by the Environmental Protection Agency, dictates the need to upgrade the existing treatment plant. Also, increasing demands on the plant by the rapidly growing North City area necessitate its expansion. This project is a Department of Health Services compliance order.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 1997 and will continue through subsequent phases of work. Construction began on the initial phase of work in Fiscal Year 2001 and is scheduled to be completed in Fiscal Year 2012.

Summary of Project Changes: \$15.8 million increase in Fiscal Year 2008 budget. Contracts B and C construction are initiating.

Otay Second Pipeline Improvements 73-286.0

Council District: 4, 8

Community Plan: Skyline/Paradise Hills, Southeastern
San Diego

Description: This project provides for evaluating the condition of existing pipelines and for making appropriate upgrades and replacements to the pipeline south of State Route 94.

Justification: This pipeline was originally installed in 1928 and has exceeded its useful life expectancy of 60 years. Breaks in the pipeline have revealed severe pipe corrosion in certain locations.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Skyline/Paradise Hills and Southeastern San Diego Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Engineering studies and design began in Fiscal Year 1999 and were completed in Fiscal Year 2007. Construction will begin in Fiscal Year 2008 and is scheduled to be completed in Fiscal Year 2015. However, this scheduling is contingent on the assessed condition of the pipeline.

Summary of Project Changes: It is proposed to decrease the total project cost to \$18.8 million in the Water Replacement funding to reflect changes to the total cost estimates and project scope.

Otay Water Treatment Plant - Upgrade and Expansion 73-285.0

Council District: None

Community Plan: No Community Planning Area

Description: This project provides for upgrading the treatment processes at the Otay Water Treatment Plant to comply with the Safe Drinking Water Act standards.

Justification: New standards required by the Safe Drinking Water Act dictate the need to upgrade the existing water treatment plant standards.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2001 and will continue through subsequent phases of work. Construction will begin on the initial phase of work in Fiscal Year 2009 and is scheduled to be completed in Fiscal Year 2017.

Summary of Project Changes: The scope and schedule of this project are still preliminary. Changes to project cost and schedule reflect changes to initial estimates.

Program Management 73-347.1**

Council District: Citywide

Community Plan: Citywide

Description: This project provides for activities performed by consultants relating to the preparation and management of the Water Department's Capital Improvements Program, value engineering, and program management. This project also provides for specialized studies and activities relating to financing, organization and management structure, scheduling, engineering, cost estimation, bond funding, and project impacts on operations and maintenance.

Justification: These activities are required to plan and continue the Water Department Capital Improvements Program, which is in excess of \$1 billion, in conformance with the Strategic Plan for Water Supply.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Summary of Project Changes: This project replaces CIP 73-347.0, due to end of contract with previous vendor. A new CIP program management consultant will be selected via the competitive bid process.

Rancho Bernardo Reservoir Rehabilitation 73-328.0

Council District: 5

Community Plan: Rancho Bernardo

Description: This project will rehabilitate the ten million gallon concrete reservoir to better meet operational needs and seismic codes.

Justification: This rehabilitation project will extend the service life of the existing reservoir and reduce the maintenance required to keep it in safe operating condition.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Rancho Bernardo Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2000 and was completed in Fiscal Year 2007. Construction is scheduled to begin in Fiscal Year 2008.

Summary of Project Changes: Changes to project cost and schedule reflect changes to initial estimates.

Rancho Penasquitos Pump Station 73-342.0

Council District: 1, 5

Community Plan: Mira Mesa, Rancho Penasquitos

Description: This project provides for the construction of a new water pump station.

Justification: This plant is required to deliver treated water from the Miramar Water Treatment Plant to the service area. This delivery of Miramar Water Treatment Plant water will reduce dependency on imported filtered water and will support future development and growth.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is consistent with the Rancho Penasquitos and Mira Mesa Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: The planning phase started in Fiscal Year 2001. The project was then put on hold due to budget issues. Presently, the project will be designed and built under a Design-Build delivery process. It is estimated that the Design-Build project will start in Fiscal Year 2008 and will be completed in Fiscal Year 2010.

Summary of Project Changes: No significant changes.

San Diego 17 Flow Control Facility and Pump Station 73-314.0

Council District: 3, 7

Community Plan: Mid-City, Navajo, College Area

Description: This project provides for the installation of a new water pump station at the Alvarado Water Treatment Plant to pump potable water into the County Water Authority's pipeline.

Justification: This pump station will supply the Mid-City Pipeline project, serving the College Area and Mid-City communities.

Operating Budget Effect: The operating budget effect will be determine upon completion of design.

Relationship to General and Community Plans: This project is consistent with the College Area, Mid-City and Navajo Community Plans and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 1999, it is 90 percent completed and is scheduled to be completed in Fiscal Year 2008. Construction will begin in Fiscal Year 2009 and scheduled to be completed in Fiscal Year 2011.

Summary of Project Changes: The total estimated project cost reflects an increase of \$7.6 million in Water Replacement funding to reflect changes to the initial cost estimates and project scope.

Phone: 619-533-4186

Council District: Citywide

Description: This is phase II of a two-phase program to install a modern Supervisory Control and Data Acquisition (SCADA) system. The SCADA system monitors and controls all critical water distribution sites. Phase I included the central control and operations component as well as Remote Control Panels (RCPs) at 42 of the water distribution sites. Due to additional work that had been identified, phase II was divided into five parts, phases IIa, IIb, IIc, IId, and IIe. Phase IIa included the installation of RCPs to control 60 additional water distribution sites. Phase IIb included remediation work at 36 existing sites. Phase IIc included installation of RCPs at 29 large meter sites. Phase IId included installation of RCPs at 72 sites, an operating efficiency assessment, a communication network upgrade, and intranet functionality for data access. Phase IIe included the work identified in the Water Operations Optimization plan.

Justification: Although electronic monitoring systems are currently in operation, City crews have no ability to remotely control the water system, and crews must still personally visit various system locations to turn valves and control pumps manually in emergencies. With recent technological advances, new telemetry installations can provide versatility and flexibility. The new SCADA system will upgrade and centralize all telemetry controls into one location to facilitate the control, monitoring and tracking of data. Improved service and quick emergency control over the entire water system will be the ultimate result.

Operating Budget Effect: Design was completed in Fiscal Year 2001.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2000 and was completed in Fiscal Year 2001. Construction began in Fiscal Year 2000 and is scheduled to be completed in Fiscal Year 2009.

Summary of Project Changes: Project deferred to Fiscal Year 2009.

Annual Allocation - CIP Contingencies - Reclaimed Water Distribution System/RWDS 70-942.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for the Water Department's Reclaimed Water Capital Improvements Program project contingency needs.

Justification: To provide better project budget control, project contingency needs (except for annual allocation projects) will be met by this annual allocation.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: The total project cost for annual allocation projects is reflective of the Fiscal Year 2008 budget only. In addition, annual allocations do not show prior year appropriations in the budget.

Water

Reclaimed Water

North City Reclamation System 70-954.0

Council District: 1

Community Plan: Rancho Penasquitos

Description: This project provides for extending the recycled water system within the northern areas of the City, including a pipeline that will service the Olivenhain Municipal Water District. There are potential Proposition 50 grant funds in the future for identified facilities.

Justification: This system of recycled water pipelines, reservoirs, and pump stations will serve the northern portions of the City, including two golf courses at Black Mountain Ranch, and the Olivenhain Municipal Water District.

Operating Budget Effect: The operating budget effect will be determined upon completion of design.

Relationship to General and Community Plans: This project is consistent with the Rancho Penasquitos Community Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Planning, design and construction began in Fiscal Year 2001 and will continue throughout the life of the project as facility needs are identified.
