# Capital Improvements Program

## Capital Budget Guide

In keeping with the City of San Diego's efforts to streamline the Capital Improvements Program processes and to provide greater transparency for the general public, elected officials, and other City departments, the budget document has been enhanced for Fiscal Year 2013. Information has been added and existing material reorganized to increase clarity and to aid in locating specific content. The budget document has been designed to provide the user with complete and accurate information for the 606 standalone and annual allocation type projects managed by 14 asset-owning departments.

The **Fiscal Year 2013 Adopted Budget Summary** (page 5) focuses on activity anticipated to occur in the upcoming fiscal year. The adopted budget is broken down by funding source with descriptions of the sources. Key points of the CIP streamlining measures for Fiscal Year 2013 are to include a list of projects eligible to receive savings from project closings (page 17) and to list those projects expecting to issue construction contracts in Fiscal Year 2013 (page 18).

The **Profile of the City of San Diego's CIP** (page 25) details the City's Budgeting Best Practices which provides an overview of the multi-year program in accordance with the City's budget policy; the CIP prioritization process; available funding options; operating budget impacts and project cost estimates; and the requirements of the City's Charter. The Profile highlights the effort put forth to streamline the CIP and to add transparency to the process by detailing the measures adopted in the new Council Policy and modifications made to the Municipal Code. A summary of new CIP performance measures that will be reported on in the future are also detailed. The classification of all projects into four progress categories has been added (page 56). The section also includes information on the multi-year CIP program (page 28) and includes a budget process timeline.

A **Fiscal Year 2012 Budget Update** (page 47) details changes made to the CIP since the Fiscal Year 2012 Adopted Budget was published. Of note are new projects added, projects closed and no longer published, a breakdown of expenditures by fiscal year, and contracts awarded.

New this year is a **Budget Narrative** providing an introduction to each department's CIP with highlights of accomplishments and goals. A list of the department's projects is provided. Project pages, detailing scope and funding for each project, follow the list. A **Guide to the Capital Improvement Projects** (page 89) details areas found on each project page. Each asset-owning department's Narrative and project pages follow the Guide.

To aid in understanding the development of the CIP budget, descriptions of the **Project Prioritization** (page 55) process, descriptions of **Project Types** (page 73), **Funding Sources** (page 77) utilized, and a **Glossary** (page 797) of terms have been included. The **Community Planning** section (page 85) provides added details and maps of the City's planning areas. Finally, **Indexes** (page 801) will help guide the user to specific projects.

# Capital Improvements Program

## Fiscal Year 2013 Adopted Budget Summary

The Fiscal Year 2013 Adopted Capital Improvements Program (CIP) Budget is \$214.9 million. This budget allocates existing funds and anticipated revenues to both new and continuing projects in the City's \$6.7 billion multi-year CIP. The allocation of funds is based upon an analysis of available funding sources as well as a review of project needs and priorities. The City's CIP needs often outweigh available resources; therefore the CIP budget is constrained by the availability of funds. The CIP budget, as summarized in **Table 1** below, is funded by a variety of sources, including water and sewer enterprise funds, TransNet, development impact fees and the City's General Fund. Further details on these funding sources and the specific projects included in the Adopted CIP Budget can be found later in this section, beginning on page 8.

**Table 1: FY 2013 Adopted CIP Budget**

| Funding Source                   | FY 2013 Proposed Budget | Percent of Budget |
|----------------------------------|-------------------------|-------------------|
| Airports Funds                   | \$ 2,400,000            | 1.1%              |
| Developer Funding                | 1,770,326               | 0.8%              |
| Development Impact Fees          | 9,308,500               | 4.3%              |
| Energy Conservation Program Fund | 1,800,000               | 0.8%              |
| General Fund                     | 11,550,000              | 5.4%              |
| Golf Course Enterprise Funds     | 1,000,000               | 0.5%              |
| Maintenance Assessment Districts | 590,000                 | 0.3%              |
| Mission Bay Improvements Fund    | 503,095                 | 0.2%              |
| OneSD/ERP Funding                | 1,100,000               | 0.5%              |
| Park Service District Funds      | 406,195                 | 0.2%              |
| Refuse Disposal Fund             | 2,778,000               | 1.3%              |
| Regional Park Improvements Fund  | 2,500,000               | 1.2%              |
| Sewer Funds                      | 70,737,117              | 32.9%             |
| TransNet - Extension             | 17,607,604              | 8.2%              |
| Water Fund                       | 90,866,506              | 42.3%             |
| <b>Total</b>                     | <b>\$ 214,917,343</b>   |                   |

An additional \$295.9 million of funding is anticipated to be received during Fiscal Year 2013. This anticipated funding is not included in the adopted budget amount of \$214.9 million because the funding sources either require additional City Council approval, such as debt financing and grants, or the funding sources are more tentative and staff will request City Council approval to appropriate when the funds have been received. This additional funding is reflected as Anticipated in the CIP project pages. Anticipated funding includes an additional \$75.0 million of bond proceeds that were approved by City Council in Fiscal Year 2012 and received early in Fiscal Year 2013 to fund deferred capital projects. The remaining anticipated funding includes a variety of other funding sources such as grants, donations for the new central library, facilities benefit assessments, and funds from planned future bond issuances.

# Capital Improvements Program

## Fiscal Year 2013 Adopted Budget Summary

The Fiscal Year 2013 Adopted CIP Budget of \$214.9 million will support various types of projects, as displayed in **Figure 1**, such as water and sewer facilities, buildings, and transportation projects. Because the allocation of resources is primarily driven by the availability of funds, the distribution of the Adopted CIP Budget is concentrated on those project types with dedicated funding sources. The Water and Sewer Funds account for the majority of the Adopted CIP Budget and support water and wastewater project types. In addition, nearly 90 percent of the CIP budget allocation for City buildings is for buildings that are maintained and operated by the Public Utilities Department and are funded by the Water and Sewer Funds. Transportation projects are primarily funded by TransNet, which may also fund transportation components of other project types in the right-of-way. Landfills, airports and golf project types are funded by enterprise funds. Parks, drainage and other building projects such as police, fire, and library buildings, compete for scarce resources, including development impact fees and the City's General Fund.

**Figure 1: Percent of Projects by Project Type**

The City's multi-year CIP includes assets which are maintained and operated by a variety of City departments, as shown below in **Table 2**. The largest funding allocation in the Fiscal Year 2013 Adopted CIP Budget is for the Public Utilities Department's projects, receiving \$161.6 million or 75.2 percent of the Adopted CIP Budget. The next largest portion is for the Transportation and Storm Water Department's projects, with \$30.0 million or 13.9 percent of the Adopted CIP Budget. This distribution of funding for each department's projects is primarily dependent upon the availability of funding for the types of assets maintained by each department, combined with the amount, size and condition of those assets. Project pages for each asset-owning department can be found later in this volume, beginning on page 95.

# Capital Improvements Program

## Fiscal Year 2013 Adopted Budget Summary

**Table 2: Multi-Year CIP**

| Department                            | Prior Years             | FY 2013<br>Adopted Budget | Future Years            | Total                   |
|---------------------------------------|-------------------------|---------------------------|-------------------------|-------------------------|
| Airports                              | \$ 13,709,609           | \$ 2,400,000              | \$ 15,840,140           | \$ 31,949,749           |
| Department of Information Technology  | 39,025,000              | 1,100,000                 | -                       | 40,125,000              |
| Environmental Services                | 94,469,077              | 4,578,000                 | 11,051,000              | 110,098,077             |
| Fire-Rescue                           | 40,005,712              | 1,000,000                 | 85,196,001              | 126,201,713             |
| Library                               | 209,691,066             | -                         | 126,667,650             | 336,358,716             |
| Office of the Chief Operating Officer | 1,000,000               | -                         | -                       | 1,000,000               |
| Park & Recreation                     | 230,466,116             | 10,655,030                | 416,905,024             | 658,026,170             |
| Police                                | 3,310,949               | -                         | 2,223,870               | 5,534,819               |
| Public Utilities                      | 1,264,244,305           | 161,603,623               | 1,237,937,206           | 2,663,785,134           |
| Public Works-General Services         | 60,800,888              | 3,629,086                 | 149,753,202             | 214,183,176             |
| QUALCOMM Stadium                      | 1,500,000               | -                         | 3,750,000               | 5,250,000               |
| Real Estate Assets                    | 550,000                 | -                         | -                       | 550,000                 |
| Special Promotions Programs           | 1,732,728               | -                         | -                       | 1,732,728               |
| Transportation & Storm Water          | 1,001,400,913           | 29,951,604                | 1,464,925,630           | 2,496,278,147           |
| <b>Total</b>                          | <b>\$ 2,961,906,362</b> | <b>\$ 214,917,343</b>     | <b>\$ 3,514,249,273</b> | <b>\$ 6,691,073,428</b> |

The Fiscal Year 2013 Adopted CIP Budget will add \$214.9 million to the City's \$6.7 billion multi-year CIP, as reflected in **Table 2**. City Council previously approved \$3.0 billion towards projects that are continuing from previous fiscal years. An estimated \$3.5 billion of additional funding will be needed in future years to complete the projects currently in the City's CIP and to fund annual ongoing capital expenses, such as road resurfacing and pipe replacements. The City's CIP does not include all of the City's unfunded CIP needs or new projects which may be added in future years. For more information about the City's multi-year CIP, please refer to the Profile of the City of San Diego's CIP section, beginning on page 25.

The Fiscal Year 2013 Adopted CIP Budget document includes new information. In order to streamline CIP project execution, the Public Works-Engineering and Capital Projects Department led an effort to modify various City Council processes in order to reduce the number of times projects must be heard before City Council. To further these efforts, two new project lists are provided at the end of this section. The first is a list of underfunded projects which may receive funding during Fiscal Year 2013 if other projects have savings at project completion, beginning on page 17. The second is a list of projects which will be entering into construction contracts during Fiscal Year 2013, beginning on page 18. Consistent with the CIP streamlining process approved by City Council, these projects will move forward without returning to City Council later in the fiscal year, which is estimated to reduce the project execution timeline by 3-12 months for each project.

# Capital Improvements Program

## Fiscal Year 2013 Adopted Budget Summary

### Funding Sources for the FY 2013 Adopted CIP Budget

The Fiscal Year 2013 Adopted CIP Budget of \$214.9 million was developed by evaluating available funding sources for new and continuing CIP projects. The following discussion identifies the funding sources allocated to projects for Fiscal Year 2013 and describes each funding source's purpose and constraints. Some funding sources are very flexible and can be used for a variety of projects while other funding sources are restricted, in some cases to certain types of projects or areas of the community. Further, funds to support capital projects are limited, requiring that project needs and priorities be evaluated within the requirements of the funding source. While projects are prioritized within project types, funding sources may be constrained by other factors, such as geographic region or specific contractual agreements. Therefore, projects with low priority scores may receive funding because they are the highest scoring projects that meet the requirements of a particular funding source.

The Fiscal Year 2013 Adopted CIP Budget includes funding for 143 projects, 13 of which are new this year. Most of the projects are standalones, limited to a single asset or set of assets with a clear scope for project completion, while others are annual allocation projects which receive funding each year to provide for ongoing repair and replacement of a certain asset type. Annual allocation projects and projects in construction are not scored. Refer to the Project Prioritization section on page 55 for more information on the scoring process.

Included with the description of each funding source is a list of the projects that received funding in Fiscal Year 2013. Projects are listed in alphabetical order along with the project's page number, an indication of whether the project is new for Fiscal Year 2013 or continuing from a prior year, the project's priority score and category, and the Fiscal Year 2013 Adopted Budget amount.

### Airports Funds

The Airports Funds are enterprise funds that support the Montgomery and Brown Field Airports. These funds receive revenue from the operations of the airports, which are in turn used to fund capital projects that improve and/or maintain the condition of the airports. Projects for both Montgomery and Brown Field received additional funding in Fiscal Year 2013, for a total Airports Funds allocation of \$2.4 million, **Table 3**.

**Table 3: Airports Funds**

| Fund and Project                                | Page No. | Status Category | Priority Score | Priority Category | FY2013 Adopted      |
|-------------------------------------------------|----------|-----------------|----------------|-------------------|---------------------|
| Brown Field / <b>AAA00002</b>                   | 103      | Continuing      | Annual         | Annual            | \$ 1,500,000        |
| Montgomery Field / <b>AAA00001</b>              | 104      | Continuing      | Annual         | Annual            | 600,000             |
| Montgomery Field Rehabilitation / <b>S00680</b> | 105      | Continuing      | 100            | Medium            | 300,000             |
| <b>Total</b>                                    |          |                 |                |                   | <b>\$ 2,400,000</b> |

### Developer Funding

Contributions may be received from developers to support City CIP projects. These funds are provided in order to satisfy conditions placed on development and are usually restricted to certain projects, or types of projects, in specific areas. For Fiscal Year 2013, \$1.8 million of developer funding has been added to the CIP budget for three new and two continuing projects, **Table 4**.

# Capital Improvements Program

## Fiscal Year 2013 Adopted Budget Summary

**Table 4: Developer Funding**

| Fund and Project                                                 | Page No. | Status Category | Priority Score | Priority Category | FY2013 Adopted      |
|------------------------------------------------------------------|----------|-----------------|----------------|-------------------|---------------------|
| Evans Pond Reclaimed Water Pipeline Installation / <b>S13010</b> | 260      | New             | 40             | Medium            | \$ 165,000          |
| Sunroad Neighborhood Park - Development / <b>S10048</b>          | 350      | Continuing      | 95             | High              | 105,326             |
| Tierrasanta Community Park Sports Field Lighting / <b>S11011</b> | 361      | Continuing      | 91             | High              | 450,000             |
| Torrey Hills Neighborhood Park Development / <b>S13007</b>       | 367      | New             | 47             | Low               | 1,000,000           |
| Trail for All People / <b>S13001</b>                             | 374      | New             | 54             | Medium            | 50,000              |
| <b>Total</b>                                                     |          |                 |                |                   | <b>\$ 1,770,326</b> |

### Development Impact Fees

Development impact fees (DIF) are assessed to mitigate the impacts of development on a community. These funds are then used to expand existing City facilities or build new facilities to support the increased population. DIFs are assessed within a specific community and must be used for expanded or new facilities within the same community. A total of \$9.3 million in DIF funding is to be added to CIP projects in Fiscal Year 2013. A summary of these amounts by community is provided in **Table 5**.

**Table 5: Development Impact Fees by Community**

| Community              | FY 2013 Adopted Budget |
|------------------------|------------------------|
| Barrio Logan           | \$ 860,000             |
| Clairemont Mesa        | 175,000                |
| College Area           | 390,000                |
| Greater North Park     | 300,000                |
| Greater North Park SPF | 122,500                |
| La Jolla               | 350,000                |

Available DIF funding is one of the most competitive funding sources in the CIP. The needs of most urbanized communities outweigh the availability of funds. A total of 17 projects, five new and 12

# Capital Improvements Program

## Fiscal Year 2013 Adopted Budget Summary

continuing, received DIF funding in Fiscal Year 2013, **Table 6**. The Americans with Disabilities Improvements and Traffic Signal Modifications annual allocation projects will provide improvements throughout many different communities and, as a result, will receive funding from the various DIF communities in which the projects are taking place. The other DIF funded projects are located within individual DIF communities

## Energy Conservation Program Fund

The Energy Conservation Program Fund is an internal service fund that receives funding from other City departments to support energy costs at City facilities and to implement conservation programs. The fund also receives grants and rebates to implement energy efficiency improvements at City facilities. For Fiscal Year 2013, \$1.8 million has been added, **Table 7**, for street lighting projects as a result of rebates/incentives from San Diego Gas and Electric.

**Table 7: Energy Conservation Program Fund**

| Fund and Project                               | Page No. | Status Category | Priority Score | Priority Category | FY2013 Adopted      |

| Citywide Energy Improvements / <b>ABT00003</b> | 122      | Continuing      | Annual         | Annual            | \$ 1,800,000        |
| <b>Total</b>                                   |          |                 |                |                   | <b>\$ 1,800,000</b> |

## General Fund

The City's General Fund supports core community services, such as public safety, parks, libraries, refuse collection and roadway maintenance. The largest funding sources for the General Fund are taxes, such as property, sales and transient occupancy taxes, and franchise fees. Because the General Fund is the primary funding source for basic City services and those funds are limited, General Fund monies are typically used only for the most urgent capital projects that do not have any

## Capital Improvements Program

### Fiscal Year 2013 Adopted Budget Summary

other available funding sources, such as storm water and sidewalk projects. The use of General Fund monies for CIP impacts the operational budgets of the departments requesting these funds. As a result of the Fiscal Year 2012 General Fund surplus, \$8.3 million has been added for deferred facilities, streets, and drainage projects in Fiscal Year 2013. For Fiscal Year 2013, a total of \$11.6 million has been allocated to capital projects from the General Fund, **Table 8**. It is also important to note that the Fiscal Year 2013 Adopted Budget for the General Fund includes \$8.9 million in debt service for deferred capital bonds which support CIP projects.

**Table 8: General Fund**

### Golf Course Enterprise Funds

The Golf Course Enterprise Funds support the City's three municipal golf courses: Balboa Park, Mission Bay and Torrey Pines. These funds receive revenue from the operations of the golf courses, which are in turn used to fund capital projects that improve and/or maintain the condition of the courses. Projects for Balboa Park and Mission Bay Golf Courses received additional funding in Fiscal Year 2013, for a total Golf Course Enterprise Funds allocation of \$1.0 million, **Table 9**.

**Table 9: Golf Course Enterprise Funds**

### Maintenance Assessment Districts

Property owners in Maintenance Assessment Districts (MADs) assess themselves in order to pay for enhanced improvements, maintenance, services and activities in their community. If those improvements are capital in nature, they are included in the CIP budget. Listed below are the \$590,000 of MAD funded projects, **Table 10**, requested by the respective districts for inclusion in the Fiscal Year 2013 Adopted CIP Budget.

**Table 10: Maintenance Assessment Districts**

### Mission Bay Improvements Fund

The Mission Bay Improvements Fund receives revenue from Mission Bay rents and concessions in accordance with San Diego City Charter Article V, Section 55.2. These funds may only be spent in the Mission Bay Park for capital improvements. The budget of \$503,095 is based on current projections of the revenue for Fiscal Year 2013. Once the revenue is received, the Park and Recreation Department will work with the Mission Bay Park Improvement Fund Oversight Committee to identify specific sub-projects based on the actual amount of available revenue. The Adopted CIP Budget of \$503,095 is placed in the Mission Bay Improvements annual allocation, **Table 11**, until such time as the funding is received and specific projects are identified.

**Table 11: Mission Bay Improvements Fund**

| Fund and Project                           | Page No. | Status Category | Priority Score | Priority Category | FY2013 Adopted |

| <b>Total</b>                               |          |                 |                | \$                | <b>503,095</b> |

### OneSD/ERP Funding

The OneSD Support Fund is a special revenue fund which receives revenue from other City departments in order to manage and maintain the City's Enterprise Resource Planning (ERP) system. While most of the funding is used to maintain the existing system, efforts are also underway to implement and/or integrate additional modules into the ERP system. The Fiscal Year 2013 Adopted CIP Budget includes \$1.1 million of OneSD Support Funds, **Table 12**, to establish a new project to consolidate and merge the Enterprise Asset Management system into the ERP platform.

**Table 12: OneSD/ERP Funding**

| <b>Total</b>                                      |          |                 |                | \$                | <b>1,100,000</b> |

### Park Service District Funds

Park Service District Funds were established to support park facilities. The funds must be used for capital improvements within the district in which the funds were collected. These funds are no longer earning revenue. Park service district funds have been replaced with development impact fees and facilities benefit assessments which include a park component in the fees. In an effort to allocate remaining funds, \$406,195 of park service district funds have been added to three new and 17 continuing projects for Fiscal Year 2013, **Table 13**.

### Refuse Disposal Fund

The Refuse Disposal Fund is an enterprise fund that is used to operate the City's active landfill, Miramar, and maintain the City's inactive landfills. Most of the capital projects supported by this fund are focused on ensuring regulatory compliance at these landfills. Projects are funded and prioritized based on deferred capital and regulatory requirements. The Adopted CIP Budget for Fiscal Year 2013 is \$2.8 million, **Table 14**.

**Table 14: Refuse Disposal Fund**

### Regional Park Improvements Fund

The Regional Park Improvements Fund receives revenue from Mission Bay rents and concessions in accordance with San Diego City Charter Article V, Section 55.2. These funds may only be spent on capital improvements in the City's regional parks, including Balboa Park, Chollas Lake Park, Mission

# Capital Improvements Program

## Fiscal Year 2013 Adopted Budget Summary

Trails Regional Park, Otay River Valley Park, Presidio Park, San Diego River Park, open space parks, and coastal beaches and contiguous coastal parks. The budget of \$2.5 million is based on current projections of the revenue for Fiscal Year 2013. Once the revenue is received, the Park and Recreation Department will work with the San Diego Regional Parks Improvement Fund Oversight Committee to identify specific sub-projects based on the actual amount of available revenue. The CIP Budget of \$2.5 million is placed in the Regional Park Improvements annual allocation, **Table 15**, until such time as the funding is received and specific projects are identified.

## Sewer Funds

The Sewer Funds are enterprise funds that support the Municipal and Metropolitan Sewer Systems. Funding for sewer capital projects is provided by a variety of sources, including sewer rates, bond financing, state revolving fund loans and grants. A total of \$70.7 million in Sewer Funds have been added for Fiscal Year 2013, **Table 16**. This funding will support Environmental Protection Agency (EPA) Consent Decree projects as well as projects to meet the requirements of the Clean Water Act and projects to replace and/or rehabilitate the aging sewer system infrastructure.

**Table 16: Sewer Funds**

## TransNet

TransNet is a one-half cent local sales tax that can only be used for projects in the City's right-of-way. The primary goal of TransNet funding is to reduce traffic congestion. In addition to roadway

# Capital Improvements Program

## Fiscal Year 2013 Adopted Budget Summary

improvements, the funds can be used for bicycle facilities, bridges, pedestrian facilities and traffic signals. The City's transportation needs greatly outweigh the availability of funds. Projects are considered for inclusion in the budget based on community needs and the individual project's priority score. Efforts are made to distribute funding among all transportation assets types, such as roadways, traffic signals and calming, and bike facilities. Priority scores vary among the transportation asset types which results in funding some projects that are scored lower within the overall transportation category but highest within the individual asset type. The Fiscal Year 2013 Adopted CIP Budget of \$17.6 million, **Table 17**, will add funding to 21 continuing projects and 11 annual allocation projects.

**Table 17: TransNet**

# Capital Improvements Program

## Fiscal Year 2013 Adopted Budget Summary

### Water Fund

The Water Fund is an enterprise fund that supports the City's Water System. Funding for water capital projects is provided by a variety of sources, including water rates, bond financing, state revolving fund loans and grants. The Fiscal Year 2013 Adopted CIP Budget of \$90.9 million from the Water Fund, **Table 18**, includes projects contained in the Compliance Order from the California Department of Public Health as well as projects to meet the requirements of the federal Safe Drinking Act and projects to replace and/or rehabilitate the aging water system infrastructure. This year's budget added three new projects including one to upgrade the Reclaimed or Recycled Water System.

**Table 18: Water Fund**

| Fund and Project                                                 | Page No. | Status Category | Priority Score | Priority Category | FY2013 Adopted       |
|------------------------------------------------------------------|----------|-----------------|----------------|-------------------|----------------------|
| 30th Street Pipeline Replacement / <b>S12010</b>                 | 409      | Continuing      | 27             | Low               | \$ 371,187           |
| Catalina 12inch Cast Iron Mains / <b>S12008</b>                  | 422      | Continuing      | 27             | Low               | 400,000              |
| Chollas Building / <b>S11025</b>                                 | 423      | Continuing      | 65             | Medium            | 3,700,000            |
| Cielo & Woodman Pump Station / <b>S12012</b>                     | 424      | Continuing      | 25             | Low               | 541,303              |

# Capital Improvements Program

## Fiscal Year 2013 Adopted Budget Summary

### Projects to Fund with Other Project Savings

Following, in **Table 19**, is a list of underfunded projects that are expected to receive funding during Fiscal Year 2013, pending availability of funds from other project closures. This list is organized in priority order by project and includes the project's page number and priority score along with the phase or activity that would be funded and the amount of funding needed for that phase of the project. As approved by City Council in the Fiscal Year 2013 Appropriation Ordinance, these projects are eligible to receive a budget increase without returning to City Council during the fiscal year. If another project is completed and closed with budget remaining, it may be transferred to the first eligible project on this list, rather than returning the unspent money to fund balance. By receiving City Council approval for these budget transfers in advance, these projects can be accelerated as soon as funding becomes available. If the first project is not eligible for the available funding source or if available funds exceed the amount requested for the project, the amount not allocated to the first project would move on to the next project on the list and so forth.

**Table 19: Underfunded Projects**

| Project                                                    | Page No. | Priority Score | Phase                 | Amount    |
|------------------------------------------------------------|----------|----------------|-----------------------|-----------|
| Windwood II Mini Park Play Area Upgrades / S11017          | 388      | 90             | Construction          | \$ 42,917 |
| Mission Trails Regional Pk Equest Comfort Station / S01073 | 303      | 85             | Construction          | 104,000   |
| Mission Bay Athletic Area Comfort Stn Modernize / S10021   | 292      | 84             | Construction          | 320,000   |
| North Pacific Beach Lifeguard Station / S10119             | 167      | 83             | Construction          | 4,185,444 |
| Fire Station No. 22 - Point Loma / S00787                  | 154      | 81             | Construction          | 4,679,839 |
| Fire Station No. 32 - Skyline North / S00687               | 155      | 81             | Construction          | 8,162,149 |
| Old Otay Mesa Road- Westerly / S00870                      | 706      | 66             | Construction          | 3,500,000 |
| Palm Avenue Roadway Improvements / S00913                  | 714      | 57             | Construction          | 3,200,000 |
| 34th Street Storm Drain / S11001                           | 558      | 48             | Design & Construction | 108,000   |

### Planned Construction Contracts

In late Fiscal Year 2012, City Council approved increases in the Mayor's CIP contract execution thresholds. As a result, most CIP projects are able to proceed with awarding construction contracts without returning to City Council for additional authorization, as long as City Council has approved the project's budget. This is estimated to reduce project execution timelines by 3-12 months. Since the individual contracts will no longer be brought before City Council prior to award, they are provided here. Following the conclusion is the list of projects anticipated to move forward to bid and award construction contracts during Fiscal Year 2013, **Table 20**. The list is organized by department and then alphabetical by project and includes the construction contract delivery method and estimated amount of the contract.

### Conclusion

The Fiscal Year 2013 Adopted CIP Budget provides a \$214.9 million increase to the City's multi-year CIP. This budget establishes 13 new projects (11 standalone and two annual allocations) and adds funding to 130 continuing projects (91 standalone and 39 annual allocations) spanning a variety of departments and project types. The Fiscal Year 2013 Adopted CIP Budget also includes a list of underfunded projects which are to receive funding if other projects have savings at project completion, and a list of projects which are anticipated to be entering into construction contracts during the fiscal year. City Council has reviewed and approved the \$214.9 million increase to the

(#) Project with the same number will be implemented under one construction contract award.

## Profile of the City of San Diego's CIP

### Budgeting Best Practices

The City of San Diego's Capital Improvements Program (CIP) is a multi-year forecast of capital needs which includes new construction projects and planned improvements of existing facilities. The CIP establishes structure and consistency by identifying, prioritizing, approving, and funding capital improvement projects through coordination of the participating City departments and the Mayor's Capital Improvements Program Review and Advisory Committee (CIPRAC). Implementation of CIP projects is based on the City's adopted General Plan and applicable community plans.

In accordance with the City's budget policy (City Council Policy 000-02), CIP descriptions clearly establish that a project is capital in nature. Projects include, but are not limited to, the construction, purchase, or major renovation of buildings, utility systems, and other facilities; in addition to land acquisition and roadway projects. Each capital project is represented by a City department and categorized by project type and improvement type. Project types provide a categorized breakdown of the type of facility being constructed or improved. Improvement types describe the project's impact on existing assets and may be identified as providing betterment, expansion, replacement or widening of an existing City asset or the project may result in a new asset to the City. Project types are discussed in greater detail beginning on page 73.

The City's CIP prioritization process establishes guidelines for project selection and an objective process for ranking projects which then allows decision-makers a basis for optimizing the use of available funding resources. City Council Policy 800-14 details the purpose, process and implementation of the City's prioritization process. For further information on priority scores and policies see the Project Prioritization section on page 55.

Funding for the CIP is programmed from a variety of sources, such as: sewer and water fees, a one half-cent local sales tax for transportation improvements, development impact fees, facility benefit assessments, private donations, the sale of City-owned property, and State and federal grants. Financing in the form of bonds may be utilized for large and/or costly projects, and deferred capital project needs.

Additionally, funding options utilizing the available resources are taken into consideration in the programming of projects. Annual allocations are budgeted each year and allow the City to better plan for the expansion, renovation, reallocation, or replacement of facilities, as well as providing for emergency and accelerated construction needs. This type of financial planning allows the City to better address State and federal standards. Phase funding provides a process by which large projects are budgeted in an efficient manner that maximizes the use of available funds. This method of funding allows the contract or project to be divided into clearly defined phases which are contracted for independently, allowing the funds to be phased into the project based on the timing of expenses.

Identification of unfunded needs, or unidentified funding, provides a method for communicating resource requirements of projects that are not fully funded and for which a fund source has not yet been identified. Some CIP project schedules indicate an undetermined timeline with unfunded needs as a mechanism to communicate intent or community support for improvements.

The operating budget impact included on most CIP projects provides a reasonable estimate of a capital project's effect on the operating budget of the asset-owning department. New or expanded capital projects can lead to increased programs which require additional personnel and non-personnel expenditures. Conversely, capital enhancements, such as energy efficiencies, may

# **Capital Improvements Program**

## **Profile of the City of San Diego's CIP**

reduce on-going operating or maintenance expenditures. Explanation of the operating budget impact establishes the connection between the construction of an asset and the required operational needs following project completion.

CIP project cost estimates are developed by City departments based on capital asset type and commonly accepted methodology to determine a project cost that is complete, reliable, attainable and easily verified. Project budgets consist of identified or potential funding sources and previously allocated funding. City departments are responsible for the regular monitoring of expenditures, encumbrances and continuing appropriations of authorized CIP budgets in order to ensure accuracy and accountability within each project. Financial data referenced in the budget includes total costs and fund allocations since project inception.

The CIP budget is the mechanism that implements the CIP and fulfills a requirement of the City Charter (Section 69). The City Council annually approves the CIP budget and the allocation of funds for the included projects via the appropriation ordinance (AO) which establishes capital spending limits for a given fiscal year. These limits include appropriations carried forward from prior years as authorized in the City Charter (Section 84). Although the budget includes a provision for current year anticipated funding, these funds are not included in the AO as they are either not certain to be received within the fiscal year or the appropriation of the funds will require additional legal authority. Spending limits, based on updated information, can be amended during the year through City Council action. For example, a grant may be shown as anticipated until all related documents are fully executed. The agreements must be accepted and the funding appropriated via an approved Council resolution.

## **CIP Streamlining and Transparency**

In order to streamline CIP execution, the Public Works-Engineering and Capital Projects Department, which manages and implements the majority of the City's CIP projects, led an effort to modify various City Council processes. These modifications required a number of municipal code changes that were negotiated through a series of Budget and Finance Committee and City Council meetings. These measures, approved by City Council in late Fiscal Year 2012 are accompanied by City Council Policy 000-31, Capital Improvements Program Transparency. These improvements will not only expedite the process of authorizing contracts and allocating resources, but will increase the transparency of the CIP process. Elements of the policy were defined to maintain public trust and confidence by providing adequate and timely information to the Council and increase oversight by the general public.

To further the streamlining and transparency efforts and to comply with Council Policy 000-31, the Fiscal Year 2013 Adopted CIP Budget document includes new and reorganized information for the public, and for City Council approval.

- A list of underfunded projects which may receive funding during Fiscal Year 2013 if other projects have savings at project completion is provided on Page 17.
- A list of projects entering into construction contracts is provided (Page 18), as reviewed by City Council during the budget process, rather than requiring a project to return to City Council later in the fiscal year.
- All projects in the 2013 Adopted CIP Budget have been organized into four progress categories. The list can be found at the end of this section on page 31. The progress categories are:
  - *New*: for those projects that are newly established as part of the Fiscal Year 2013 Adopted Budget

## Capital Improvements Program Profile of the City of San Diego's CIP

- *Continuing*: any project initiated in Fiscal Year 2012 or in a prior year and that is currently in progress
- *Completed/Warranty*: projects in-service but not yet closed
- *Unfunded/Underfunded*: any project that is on hold due to lack of funding
- Details of funding sources and Fiscal Year 2013 allocations for City Council approval can be found in the Fiscal Year 2013 Adopted CIP Budget Summary (page 5 through 23).
- Department narratives have been included for each asset-owning department in conjunction with a list of that department's projects and precede each department's project pages beginning on page 97.
- A CIP webpage (<http://www.sandiego.gov/cip/>) was recently launched by the Public Works-Engineering and Capital Projects Department which provides project information in a format that is readily available to the public.

### CIP Performance Measures

In order to evaluate the success of the execution of the City's entire Capital Improvements Program, the following performance measures will be tracked and reported to the Budget and Finance Committee every six months as part of the State of the CIP Report. These five measures were designed to give an accurate and transparent account of ongoing CIP activity.

- The percentage of CIP projects that are within 20 working days of their original Baseline Schedule. The program target is to have 85 percent of all CIP projects on schedule or no more than 20 working days behind schedule.
- The percentage of CIP projects that are within their initial total project cost estimate. The program target is to have 90 percent of all CIP projects within the initial estimated total project cost.
- The percentage of available budgeted CIP funds that have been expended.
- The average number of days from bid opening to contract award. The target is 60 working days.
- The percentage of all CIP funds awarded through construction and consultant contracts that are restricted to SLBE/ELBE certified firms. The program target is to have 15 percent of all such funds awarded to SLBE/ELBE certified firms.

### Multi-Year CIP Program

The City's multi-year CIP plan is a five-year program that incorporates five fiscal years of budget data. It includes all on-going projects with details of current budget-to-date and expended/encumbered funding, while also detailing future revenue estimates and forecasting future needs. The multi-year program serves as a planning tool for balancing anticipated funding with community needs and requests. The five-year CIP not only shows the current proposed budget but is a reflection of future intent. Projected budgets shown for the next four fiscal years are not a part of the annual appropriation ordinance adopted by City Council.

Future year funding is based upon estimated revenue from various sources. For example, Facilities Benefit Assessments (FBA) are dependent upon the rate of development in communities. Although current projections show that revenue should be received, in reality a certain portion of these fees may not be collected at the rate assumed in the five-year plan. FBA funded project budgets should mirror the project as represented in Public Facilities Financing Plans. TransNet revenue estimates are based upon sales tax projections provided by the San Diego Association of Governments

# Capital Improvements Program

## Profile of the City of San Diego's CIP

(SANDAG). These estimates are utilized in preparation of the TransNet five-year program of projects as required by SANDAG for compliance with the Regional Transportation Improvement Program. These and all other revenue sources are carefully monitored throughout the year and will be adjusted as needed. The City's enterprise funds are received directly from fees and charges to users. These funding sources are reflected in the Airports, Environmental Services, Park and Recreation, and Public Utilities Departments. Anticipated funding from these sources is based on revenue trends and fees or rate schedules. Other funding sources may be included in the multi-year program. For projects without sufficient identified funding, the balance required to fulfill the engineer's cost estimate is included on the unfunded needs list. It should also be noted that project cost estimates reflect uninflated dollars and are not adjusted for market volatility.

The following table provides expected revenues in major fund source categories for the current budget year and following four years of the multi-year.

**Table 1: Five-Year CIP by Funding Source (in thousands of dollars)**

| Funding Source                                | Fiscal Year 2013 | Fiscal Year 2013 Anticipated | Fiscal Year 2014 | Fiscal Year 2015 | Fiscal Year 2016 | Fiscal Year 2017 | Total by Source  |
|-----------------------------------------------|------------------|------------------------------|------------------|------------------|------------------|------------------|------------------|
| Bond Financing*                               | -                | \$151,276                    | \$81,000         | \$90,000         | \$89,420         | \$84,160         | <b>\$495,856</b> |

Note: This table does not include unidentified funding of \$1.2 billion or \$349.7 million of funding expected in Fiscal Year 2018 or beyond

# Capital Improvements Program

## Profile of the City of San Diego's CIP

\*Fiscal Year 2013 Anticipated Bond Financing includes \$75.0 million approved by City Council in Fiscal Year 2012 and issued in Fiscal Year 2013.

\*\*Public Utilities Enterprise funding has been separated from other enterprise fund sources due to the magnitude of the sewer and water programs.

Projects within the multi-year CIP are required to include estimates of the project's impact on the City's operating budget. Operating impacts are provided for the first year, or the annualized portion of the first year, an asset is anticipated to be put into service. Full year projections should be provided for the balance of years in the five-year plan. Operating impacts must include both personnel and non-personnel expenditures and are critical for departments proposing new facilities with ongoing staffing needs which will require increased expenditures in the City's General Fund.

Following is a sample of important projects in the five-year program with significant milestones expected in Fiscal Year 2013:

- The San Diego New Central Library will open as scheduled during the summer of 2013. This highly anticipated building will become a symbol of downtown's redevelopment and will serve the public for many years.
- The Memorial Community Park swimming pool will be enlarged to accommodate more aquatic recreation activities, including high school water polo. The project also includes a larger deck area and a splash play area for young children.
- The iconic California Tower in Balboa Park will begin the first phase of seismic retrofit construction. The California Tower is one of the most photographed structures in San Diego and has been standing for almost 100 years.
- The Fire Station Alerting project will replace the current 21-year old outdated system at all City fire stations.
- The Public Utilities Department will review the overall scope of the water pipeline replacement program. Concurrent with over 129 miles of cast iron water pipe remaining to be replaced, a condition assessment program of approximately 2,100 miles of asbestos cement water pipeline will be initiated to help determine the replacement rate for the next 10 years.
- On the wastewater side, the Public Utilities Department will assess 540 miles of sewer lines to determine the replacement mile-per-year rate.

Many programs will continue throughout the multi-year program, including:

- Resurfacing of the City's roadways
- Undergrounding of utilities
- Bond financing for deferred capital projects
- Improvements for compliance with the Americans with Disabilities Act

Identifying funding for the needed Mission Valley Fire Station is an on-going priority for the City. This fire station will be located in a neighborhood of increasing population and commercial activity and will house two engines, an aerial truck, paramedic ambulance, and required personnel.

The expansion of the San Diego Convention Center is a priority project which will enable San Diego to host events requiring larger space, increase attendance and provide significant economic benefits.

# Capital Improvements Program

## Profile of the City of San Diego's CIP

### Budget Process

The CIP budget is developed in conjunction with the City's operating budget and follows the timeline established by the City Charter. Development of the CIP budget begins earlier than that of the operating budget and is initiated by a review of project status and community needs conducted by Public Works - Engineering and Capital Projects in coordination with City asset-owning departments.

The CIP budget process considers project priorities and funding availability.

**October - January:** Budget development training on the budgeting system and the current CIP budget process is provided to City departments with CIP project responsibilities. Departments develop fiscal year needs based on community input and submit proposed CIP funding requests to Financial Management which are then brought to Capital Improvements Program Review and Advisory Committee (CIPRAC) for approval. During this timeframe, Financial Management also confirms the availability of funds to support the budget to be considered by CIPRAC. The CIP budget development and CIPRAC approval calendar is established by Financial Management and Public Works - Engineering and Capital Projects.

**January - March:** In coordination with asset-owning departments, Financial Management reviews all project pages and prepares the proposed budget publication.

**April:** The Mayor releases the Proposed Budget to the public on April 15th in compliance with the City Charter [Article XV, Section 265, Item (b) (15)].

**May:** During the month of May, the City Council holds a series of public budget hearings. Council members may recommend changes to the Proposed CIP Budget. Also in May, the Mayor's May Revision to the Proposed Budget is released. This report recommends changes to specific CIP projects' budgets based on updated information.

**June:** Council reviews final modifications and approves the budget in June. The Mayor's veto period follows Council's initial approval. Once the budget is approved, the final changes are implemented. The Change Letter will be created to summarize the May Revision and Council Action changes to the CIP Budget.

**July:** The annual Appropriation Ordinance is presented to the City Council and adopted in July authorizing expenditure of the budget.

# Capital Improvements Program

## Fiscal Year 2012 Budget Update

### Project Changes

The Fiscal Year 2012 Adopted CIP budget published 714 ongoing and new standalone and annual allocation projects. Since then, 148 of these projects have been closed or cancelled and 32 projects have been initiated. The Fiscal Year 2013 Adopted Budget includes 598 standalone and annual allocation projects. **Table 1** lists the 32 new projects, which includes the 13 new projects approved as part of the Fiscal Year 2013 Budget and other projects which were added via City Council resolution during Fiscal Year 2012.

**Table 1: Projects Added to Capital Improvements Program Since Fiscal Year 2012**

| Project                                                      | Budget Added |

| Water & Sewer Group Job 816 (W) / S13015*              | 500,000      |
| Water Treatment Plants / ABI00001*                     | 100,000      |

\* New projects for Fiscal Year 2013

\*\* Pending Council Approval

It is important to note that although the published number of projects is 598, the total number of active projects being managed is nearly 2,000. This number includes all active sublets of annual allocations in addition to all standalone projects.

## Project Progress

In accordance with Council Policy 000-31, Capital Improvements Program Transparency, all published projects in the CIP budget have been categorized by four progress categories - *New*, *Continuing*, *Completed/Warranty* or *Unfunded/Underfunded*. The complete list of categorized projects can be found in the Profile of the City of San Diego's CIP section on page 31. The current breakdown is shown below in **Figure 1**.

**Figure 1: Projects by Progress Status**

# Capital Improvements Program

## Fiscal Year 2012 Budget Update

In Fiscal Year 2012, 148 projects have been closed or cancelled. Approximately \$154.6 million in a variety of sources was returned to fund balances or transferred to other projects as a result of these closures. Not all projects resulted in completed assets, some of the projects were cancelled or had all of the budget removed. **Table 2** at the end of this section lists the projects that are no longer published.

### Project Expenditures

Since Fiscal Year 2010, \$1.1 billion dollars has been added to the Capital Improvements Program budget and \$995.1 million has been expended. The chart below shows a significant budget surplus in Fiscal Year 2010 due in part to the addition of deferred capital bond financing. Budget added annually supports the on-going needs of the CIP and multi-year life of projects. Expenditures of funds appropriated in one year may occur over a number of years. For Fiscal Year 2012, the largest portion of CIP dollars were spent on City buildings, transportation, water and wastewater projects. These four project types represent 92.9 percent of the \$363.0 million CIP expenditures during this time.

**Figure 2: Budget Added and Expended by Year**

\* Budget added includes the Fiscal Year 2012 Adopted CIP Budget of \$208 million which is offset by budget reductions from the 148 completed and closed projects.

### Contracts Awarded

Consultant and construction contracts account for a significant portion of annual CIP expenditures. The Public Works-Engineering and Capital Projects Department is responsible for the bid and award process for CIP contracts. For Fiscal Year 2012, 221 consultant and construction contracts, totaling \$300.8 million, were awarded.

One goal of City Council Policy 000-31, Capital Improvements Program Transparency, is the streamlining of the contract award process. By publishing a list of projects expecting to enter into contracts in the proposed budget, City Council has the opportunity to review the contracts as part of the budget process, rather than requiring a project to return to City Council later in the fiscal year. This is expected to reduce the project execution time by 3-12 months.

## Fiscal Year 2012 Budget Update

**Table 2: Projects Removed from Capital Improvements Program since Fiscal Year 2012**

| Project                                                             | Department                    |
|---------------------------------------------------------------------|-------------------------------|
| Euclid Avenue Corridor Improvements / S00904                        | Transportation & Storm Water  |
| Fiesta Island Causeway Parking Lot / S00622                         | Park & Recreation             |
| Florida Canyon Drainage & Trail Improvements / S00770               | Park & Recreation             |
| Friars Road-Pacific Highway Bicycle Path / S00947                   | Transportation & Storm Water  |
| Genesee Avenue-I-5 to Eastgate Mall / S00866                        | Transportation & Storm Water  |
| Genesee Avenue-I-5 to Regents Road / S00840                         | Transportation & Storm Water  |
| Grandee Pl & Pomerado Rd Traffic Signal / S11039                    | Transportation & Storm Water  |
| Harbor Drive Pipeline / S00019                                      | Public Utilities              |
| Hillcrest Corridor Mobility Study / S00908                          | Transportation & Storm Water  |
| Hilltop Community Park Development Phase I / S00634                 | Park & Recreation             |
| Hinson Place Storm Drain Replacement / S10057                       | Transportation & Storm Water  |
| I-15 Cut & Cover/Teralta Neighborhood Park / S00658                 | Park & Recreation             |
| Imperial Ave Bus & Trolley Station Enhancement / S00001             | Transportation & Storm Water  |
| Inspiration Point Precise Plan / S00615                             | Park & Recreation             |
| Kellogg Park Play Area Improvements / S00974                        | Park & Recreation             |
| Kumeyaay Lake Riparian Restoration / S01008                         | Park & Recreation             |
| La Jolla Parking Structure / S00897                                 | Public Works-General Services |
| La Jolla Village Drive/Torrey Pines-Villa La Jolla / S00850         | Transportation & Storm Water  |
| La Jolla/PB Trunk Sewer-Chelsea Street Relocation / S00327          | Public Utilities              |
| La Jolla/Riford Branch Library / S00803                             | Library                       |
| Labor Council Curb Ramps / S01028                                   | Transportation & Storm Water  |
| Lifeguard Tower/Grand Ave Restroom / S00641                         | Fire-Rescue                   |
| Mar Ave/Soledad Avenue Intersection Improvements / S10097           | Transportation & Storm Water  |
| Market St-Euclid Ave to 54th St-Improvements / S11043               | Transportation & Storm Water  |
| Marshall Elementary School Joint Use Improvements / S10080          | Park & Recreation             |
| Marston Point/Balboa Park Storm Drain Repair / S10085               | Park & Recreation             |
| Material Recovery Facility / S00817                                 | Environmental Services        |
| MBC Centrate Collection Upgrades / S00321                           | Public Utilities              |
| Memorial Skateboard Park / S00647                                   | Park & Recreation             |
| Meter Boxes / AKB00005                                              | Public Utilities              |
| Mid City Gateways / S00828                                          | Transportation & Storm Water  |
| Miramar Fee Booth Modifications / S00681                            | Environmental Services        |
| Miramar Road Trunk Sewer / S00330                                   | Public Utilities              |
| Mission Bay Golf Course Driving Range / S10043                      | Park & Recreation             |
| Mission Bay Golf Course & Practice Cntr Landscape / S01089          | Park & Recreation             |
| Mission Bay Golf Course newly closed Irrigation System / S00629     | Park & Recreation             |
| Mission Bay Golf Course newly closed Practice Area Upgrade / S00628 | Park & Recreation             |
| Mission Bay Landfill Site / S00780                                  | Environmental Services        |
| Mission Bay Park Security Lights / S01013                           | Park & Recreation             |
| Mission Trails Regional Park Fire Restoration / S01011              | Park & Recreation             |
| MLK Jr Community Park Rec Center Roof Repair / S00765               | Park & Recreation             |

# Capital Improvements Program

## Fiscal Year 2012 Budget Update

**Table 2: Projects Removed from Capital Improvements Program since Fiscal Year 2012**

| Project                                                      | Department                    |
|--------------------------------------------------------------|-------------------------------|
| MOC Building / S11023                                        | Public Utilities              |
| Montgomery Field NW Heliport / S00679                        | Airports                      |
| Murphy Canyon Road Storm Drain Repair / S01098               | Transportation & Storm Water  |
| Napa Street from Linda Vista Rd to Morena Blvd / S00849      | Transportation & Storm Water  |
| newly closed Developments / AID00009                         | Transportation & Storm Water  |
| Nobel Drive & I-805 Interchange / S00709                     | Transportation & Storm Water  |
| Normal Street Median-University to Blaine / S00918           | Transportation & Storm Water  |
| North City Raw Sludge & Water Cathodic Upgrade / S00318      | Public Utilities              |

| Westview Park Shade Structure / S01066                    | Park & Recreation             |

# Capital Improvements Program

## Project Prioritization

Priority Scores are given to projects as a way to compare them to other similar projects within the Capital Improvements Program (CIP). Since the implementation of the Prioritization Policy, it has been the goal of the CIP to refine and expand the method in which projects are scored and ranked.

## Prioritization Policy

A CIP prioritization policy (Council Policy 800-14) was adopted for transportation projects in Fiscal Year 2007. The Council Policy was then revised in Fiscal Year 2008 to incorporate the prioritization of all capital projects. Projects are scored in accordance with the detailed requirements of the Council Policy. This process for scoring projects continues to be a work-in-progress as the scoring method is refined.

The intent of the Prioritization Policy is to establish an objective process for ranking CIP projects to allow decision-makers to have a basis for choosing the most compelling projects for funding. It must be noted, however, that a low scoring project may proceed due to unique funding source restrictions.

Briefly, the policy states that:

- Projects within restricted funding categories will compete only with projects within the same funding category.
- Projects will compete only with projects within the same asset type (project type).
- Projects will compete only with projects within the same level of completion or project development phase (planning, design and construction).
- Projects scores will be updated as the condition of the project changes or other information becomes available.

In addition, projects that are in construction or have completed construction have not been scored. These projects are noted as not applicable (N/A). Annual allocation project types, funded yearly for ongoing repair and replacement of smaller projects, are not scored and are noted as Annual.

## Priority Scoring

The following table lists, in order of importance, the prioritization factors taken into consideration when projects are scored.

| Non-Transportation Projects                                       | Weight      | Transportation Projects                                           | Weight      |
|-------------------------------------------------------------------|-------------|-------------------------------------------------------------------|-------------|
| Health and Safety Effects                                         | 25%         | Health and Safety Effects                                         | 25%         |
| Regulatory or Mandated Requirements                               | 25%         | Capacity and Service (Mobility)                                   | 20%         |
| Implication of Deferring the Project                              | 15%         | Project Cost and Grant Funding Opportunity                        | 20%         |
| Annual Recurring Cost or Increased Longevity of the Capital Asset | 10%         | Revitalization, Community Support and Community Plan Compliance   | 15%         |
| Community Investment                                              | 10%         | Multiple Category Benefit                                         | 10%         |
| Implementation                                                    | 5%          | Annual Recurring Cost or Increased Longevity of the Capital Asset | 5%          |
| Project Cost and Grant Funding Opportunity                        | 5%          | Project Readiness                                                 | 5%          |
| Project Readiness                                                 | 5%          |                                                                   |             |
| <b>Total</b>                                                      | <b>100%</b> | <b>Total</b>                                                      | <b>100%</b> |

# Capital Improvements Program

## Project Prioritization

### Priority Categories

Priority scores for CIP projects, within each major asset category, have been grouped into the following priority categories. However, major asset types with six or fewer scored projects are defaulted to Medium.

- High: Priority scores in the upper third or the highest 33 percent of priority scores by major asset type category.
- Medium: Priority scores in the middle third or the middle 33 percent of all priority scores by major asset type category.
- Low: Priority scores in the lowest third or the lowest 33 percent of all priority scores by major asset type category.

The following table groups all active projects by major asset category. The projects are then listed by priority score.

### Capital Improvement Projects by Project Type and Priority Scores

| Project                                                           | Page No. | Status Category    | Priority Score | Priority Category |
|-------------------------------------------------------------------|----------|--------------------|----------------|-------------------|
| <b>Airport Assets</b>                                             |          |                    |                |                   |
| Montgomery Field Rehabilitation / <b>S00680</b>                   | 105      | Continuing         | 100            | Medium            |
| Brown Field / <b>AAA00002</b>                                     | 103      | Continuing         | Annual         | Annual            |
| Montgomery Field / <b>AAA00001</b>                                | 104      | Continuing         | Annual         | Annual            |
| <b>Buildings</b>                                                  |          |                    |                |                   |
| Children's Pool Lifeguard Station / <b>S00644</b>                 | 145      | Continuing         | 93             | High              |
| La Jolla Cove Lifeguard Station / <b>S00792</b>                   | 163      | Continuing         | 93             | High              |

# Capital Improvements Program

## Project Types

The Capital Improvements Program (CIP) uses a variety of project types, which are a more specific manner of categorizing the kind of improvement provided by each project. Below is a description of each of the major project types along with a summary schedule of their budgets.

### Airport Assets

Airport Assets include anything related to the two airports that the City of San Diego oversees, Montgomery and Brown Field Airports. These assets are managed by the Airports Department.

| Project Type                | Prior Fiscal Years   | FY2013 Adopted      | Future Fiscal Years  | Project Type Total   |
|-----------------------------|----------------------|---------------------|----------------------|----------------------|
| Airport Assets              | \$ 13,709,609        | \$ 2,400,000        | \$ 15,840,140        | \$ 31,949,749        |
| <b>Airport Assets Total</b> | <b>\$ 13,709,609</b> | <b>\$ 2,400,000</b> | <b>\$ 15,840,140</b> | <b>\$ 31,949,749</b> |

### Buildings

Buildings projects refer to the construction, expansion or capital upgrade of any building the city owns regardless of the department that operates it. They are further broken down into more descriptive asset types that often describe the department that manages the asset as well as a more specific building type. It is important to note that the Buildings project type often acts as a catch-all for projects that are not easily described by any other major project type.

| Project Type                            | Prior Fiscal Years    | FY2013 Adopted       | Future Fiscal Years   | Project Type Total     |
|-----------------------------------------|-----------------------|----------------------|-----------------------|------------------------|
| Bldg - Community Centers                | \$ 107,379            | \$ -                 | \$ -                  | \$ 107,379             |
| Bldg - Libraries                        | 209,691,066           | -                    | 126,667,650           | 336,358,716            |
| Bldg - MWWWD - Administration Struct    | 3,343,324             | -                    | 84,697,887            | 88,041,211             |
| Bldg - MWWWD - Laboratories             | 234,253               | 1,497,884            | 286,398               | 2,018,535              |
| Bldg - MWWWD - Pump Stations            | 78,137,937            | 10,693,502           | 36,778,697            | 125,610,136            |
| Bldg - MWWWD - Treatment Plants         | 57,611,698            | 20,079,011           | 44,616,268            | 122,306,977            |

# Capital Improvements Program

## Project Types

### Drainage

Drainage projects are related to the storm water system which consists of channels, pump stations, and storm drain piping. These assets are primarily managed by the Transportation and Storm Water Department.

| Project Type                         | Prior Fiscal Years   | FY2013 Adopted      | Future Fiscal Years   | Project Type Total    |
|--------------------------------------|----------------------|---------------------|-----------------------|-----------------------|
| Drainage - Best Mgt Practices (BMPs) | \$ 26,678,938        | \$ 4,290,000        | \$ 35,489,792         | \$ 66,458,730         |
| Drainage - Channels                  | 738,000              | 20,000              | 639,000               | 1,397,000             |
| Drainage - Storm Drain Pipes         | 27,870,259           | 1,107,000           | 226,613,600           | 255,590,859           |
| <b>Drainage Total</b>                | <b>\$ 55,287,197</b> | <b>\$ 5,417,000</b> | <b>\$ 262,742,392</b> | <b>\$ 323,446,589</b> |

### Flood Control

Flood Control projects protect against the negative effects of a flood. These assets are primarily managed by the Transportation and Storm Water Department.

| Project Type               | Prior Fiscal Years  | FY2013 Adopted | Future Fiscal Years | Project Type Total  |
|----------------------------|---------------------|----------------|---------------------|---------------------|
| Flood Control Systems      | \$ 1,876,519        | \$ -           | \$ -                | \$ 1,876,519        |
| <b>Flood Control Total</b> | <b>\$ 1,876,519</b> | <b>\$ -</b>    | <b>\$ -</b>         | <b>\$ 1,876,519</b> |

### Golf

Golf projects are related to the three golf courses owned by the City of San Diego which are: Torrey Pines Golf Course, Balboa Golf Course, and Mission Bay Golf Course and Practice Center. These assets are managed by the Park and Recreation Department.

| Project Type      | Prior Fiscal Years   | FY2013 Adopted      | Future Fiscal Years  | Project Type Total   |
|-------------------|----------------------|---------------------|----------------------|----------------------|
| Golf Courses      | \$ 12,260,827        | \$ 1,000,000        | \$ 10,440,000        | \$ 23,700,827        |
| <b>Golf Total</b> | <b>\$ 12,260,827</b> | <b>\$ 1,000,000</b> | <b>\$ 10,440,000</b> | <b>\$ 23,700,827</b> |

### Landfills

Landfill projects take place at landfills owned by the City of San Diego and are managed by the Environmental Services Department. Some typical projects include operations yard improvements, groundwater monitoring projects, and other landfill improvements to maintain regulatory compliance.

| Project Type                        | Prior Fiscal Years   | FY2013 Adopted      | Future Fiscal Years  | Project Type Total   |
|-------------------------------------|----------------------|---------------------|----------------------|----------------------|
| Landfills                           | \$ 48,394,157        | \$ 320,000          | \$ 1,765,000         | \$ 50,479,157        |
| Landfills - Supporting Fac / Struct | 29,959,044           | 2,458,000           | 9,086,000            | 41,503,044           |
| <b>Landfills Total</b>              | <b>\$ 78,353,201</b> | <b>\$ 2,778,000</b> | <b>\$ 10,851,000</b> | <b>\$ 91,982,201</b> |

# Capital Improvements Program

## Project Types

### Parks

The Park and Recreation Department manages a wide variety of park projects. They are further broken down into more descriptive asset types such as a mini park (1 to 3 acres without a comfort station) to a community park (at least 13 acres, meant to serve a population of 25,000 with comfort stations and parking).

| Project Type                | Prior Fiscal Years    | FY2013 Adopted      | Future Fiscal Years   | Project Type Total    |
|-----------------------------|-----------------------|---------------------|-----------------------|-----------------------|
| Parks - Community           | \$ 48,588,819         | \$ 746,663          | \$ 7,171,000          | \$ 56,506,482         |
| Parks - Mini Parks          | 5,392,719             | 289,274             | 6,327,917             | 12,009,910            |
| Parks - Miscellaneous Parks | 54,724,691            | 4,953,133           | 301,734,402           | 361,412,226           |
| Parks - Neighborhood        | 40,495,086            | 1,374,671           | 40,420,266            | 82,290,023            |
| Parks - Open Space          | 7,262,831             | 55,594              | 20,943,672            | 28,262,097            |
| Parks - Resource Based      | 10,921,295            | 20,695              | 26,343,967            | 37,285,957            |
| Parks - Trails              | 2,094,216             | -                   | 150,000               | 2,244,216             |
| <b>Parks Total</b>          | <b>\$ 169,479,658</b> | <b>\$ 7,440,030</b> | <b>\$ 403,091,224</b> | <b>\$ 580,010,912</b> |

### Reclaimed Water System

The Reclaimed Water System is made up of pipelines and reservoirs widely identified by their utilization of purple pipes that transports water that was once seen as waste and has undergone treatment to make the water useable for tasks such as landscaping. These assets are managed by the Public Utilities Department.

| Project Type                        | Prior Fiscal Years   | FY2013 Adopted      | Future Fiscal Years | Project Type Total   |
|-------------------------------------|----------------------|---------------------|---------------------|----------------------|
| Reclaimed Water System - Pipelines  | \$ 21,964,210        | \$ 3,140,355        | \$ 4,761,534        | \$ 29,866,099        |
| Reclaimed Water System - Reservoirs | 250,000              | 541,984             | 87,422              | 879,406              |
| <b>Reclaimed Water System Total</b> | <b>\$ 22,214,210</b> | <b>\$ 3,682,339</b> | <b>\$ 4,848,956</b> | <b>\$ 30,745,505</b> |

### Transportation

Transportation projects include a variety of different project subtypes. Some of these include: roadways, traffic signals, sidewalks, bridges and bicycle facilities. These assets are primarily managed by the Transportation and Storm Water Department.

| Project Type                            | Prior Fiscal Years | FY2013 Adopted | Future Fiscal Years | Project Type Total |
|-----------------------------------------|--------------------|----------------|---------------------|--------------------|
| Trans - Bicycle Facilities (All Class.) | \$ 28,495,454      | \$ 1,231,000   | \$ 33,972,083       | \$ 63,698,537      |
| Trans - Bridge - Pedestrian             | 3,069,380          | -              | -                   | 3,069,380          |

### Wastewater

Wastewater project types largely consist of mains and trunk sewers which are used to transport and treat waste for nearly 2.5 million customers in the City of San Diego and surrounding areas. The assets are managed by the Public Utilities Department.

| Project Type                            | Prior Fiscal Years    | FY2013 Adopted       | Future Fiscal Years   | Project Type Total    |
|-----------------------------------------|-----------------------|----------------------|-----------------------|-----------------------|
| Wastewater - Collection Sys - Main      | \$ 317,436,648        | \$ 18,000,000        | \$ 280,000,000        | \$ 615,436,648        |

### Water

Water project types include distribution and transmission systems that allow the City to provide water to approximately 1.3 million customers in the City of San Diego. These assets are managed by the Public Utilities Department.

| Project Type                            | Prior Fiscal Years    | FY2013 Adopted       | Future Fiscal Years   | Project Type Total    |

| Water - Distribution Sys - Transmission | 23,529,314            | 16,430,622           | 173,908,166           | 213,868,102           |
| <b>Water Total</b>                      | <b>\$ 270,027,707</b> | <b>\$ 60,925,945</b> | <b>\$ 523,232,896</b> | <b>\$ 854,186,548</b> |

# Capital Improvements Program

## Funding Sources

The Capital Improvements Program (CIP) uses a variety of funding sources to support projects. This section outlines some of the more common funding sources used in the CIP.

### Bond Financing

Bond financing is a long-term borrowing tool used to meet the City's cash flow needs and to provide funds for capital projects. In Fiscal Years 2009 and 2012, the City Council approved financing to provide funding for deferred capital projects throughout the City. The list of deferred capital projects includes improvements to City streets, buildings, and storm drains.

### Capital Outlay

Capital Outlay Funds are used exclusively for the acquisition, construction, and completion of permanent public improvements or real property; replacement or reconstruction of public facilities; and other improvements of a permanent character. Repair or maintenance expenditures cannot be made from the Capital Outlay Funds. Revenue for the Capital Outlay Fund is derived primarily from the sale of City-owned property but may also come from other sources per Section 77 of the San Diego City Charter. In addition, San Diego City Ordinance No. 12685 (New Series) further specifies that all proceeds from sales or leases of the Pueblo Lands of San Diego be utilized to finance police substations and other permanent improvements for police purposes.

### Development Impact Fees

Development Impact Fees (DIF) are collected to mitigate the impact of new development in urbanized communities that are near build-out. The amount of the DIF is based on a portion of the financing needed for identified public facilities. Property being developed is assessed the fee(s) at the time the building permit is issued.

### Donations and Developer Funding

Projects may be funded by contributions and/or donations from private sources, such as residents, developers, private organizations, and businesses. Contributions by developers and vendors may be reimbursed with City funds in future years.

### Enterprise Funds

Enterprise Funds account for specific services that are funded directly by fees and charges to users. These include the services provided by Public Utilities, Environmental Services, Airports and Golf Courses. These funds are intended to be fully self-supporting and are not typically subsidized by any general revenue or taxes. Within each Enterprise Fund, budgets are developed which are sufficient to fund current year operations and maintenance expenses, as well as provide for current and future years' upgrade, replacement, and expansion-related capital construction requirements.

### Facilities Benefit Assessments

Facilities benefit assessments (FBA) provide 100 percent of funding for public facilities projects that service a designated area of benefit and are identified in the public facilities financing plan. The dollar amount of the assessment is based upon the cost of each public facility equitably distributed over a designated area of benefit in the community planning area. Assessments are recorded as liens with the County Assessor's Office. Property being developed is assessed at the time the building permit is issued. The amount of the assessment is determined by the type and size of the development.

# **Capital Improvements Program**

## **Funding Sources**

### **General Fund**

The City's main operating fund that pays for basic City services that use most of the City's tax revenue, such as public safety, parks, and library services. The General Fund is also supported by fees from licenses and permits, fines, and investment earnings. Some allocations to the CIP budget are allocated from the operating budget of General Fund departments.

### **Grants**

Some projects are entirely or partially funded by grants and reimbursements from the State and federal government and other agencies. The receipts of certain grants and reimbursements typically follow the award of contracts; therefore, other City funding is programmed for front-end financing of the total estimated project costs. Grant funding includes State and federal grants and grants from proceeds from State bond issuances. For example, Community Development Block Grant (CDBG) funding is programmed in accordance with Council Policy 700-2 (amended November 24, 2009). CIP priorities are developed irrespective of whether or not CDBG funding is to be received by the City. CDBG funding is to be used to supplement the City's CIP program and not as a substitute for other City funding.

### **Internal Service Funds**

Internal Service Funds are established for the financing of goods or services provided by one City department to another City department on a cost-reimbursement basis. Examples of Internal Service Funds used in the CIP budget are the Energy Conservation Program Fund and the Fleet Services Internal Service Fund.

### **Maintenance Assessment Districts**

Maintenance Assessment Districts (MADs) are established by the City of San Diego as a means of providing property owners with the opportunity to assess themselves to pay for enhanced improvements, maintenance, services and activities. Certain projects requested by a district may be capital in nature and are funded by the specific MAD. MAD budgets are developed with sufficient funding for current year maintenance and capital projects.

### **Mission Bay and Regional Park Improvements Funds**

Mission Bay rents and concessions revenue is allocated to the Mission Bay and Regional Park Improvements Funds in accordance with the San Diego City Charter, Article V, Section 55.2. The funds in the Mission Bay Improvements Fund may only be expended in Mission Bay Park for permanent capital improvements and capital deferred maintenance of existing facilities, as well as to improve environmental conditions consistent with the Mission Bay Park Master Plan. The funds in the Regional Parks Improvements Fund may only be expended for capital improvements in San Diego's regional parks. The City of San Diego's regional parks include Chollas Lake Park, Balboa Park, Mission Trails Regional Park, Otay River Valley Park, Presidio Park, San Diego River Park, open space parks, and coastal beaches and parks.

### **Park Service District Funds**

Park Service District Funds were established by the City of San Diego for park and recreation purposes. Proceeds from these funds are to be used for park and recreational facilities within the district areas from which the funds were collected. Funds may be used for the purchase of land and construction of facilities; purchase of previously constructed facilities; rehabilitation of existing park facilities or purchase of new equipment when such rehabilitation or purchase allows for expanded uses and to reimburse those who have donated land or constructed improvements. Park Service District Funds no longer collect revenues and have been replaced by Facilities Benefit Assessments and Development Impact Fees which now include a park component.

# Capital Improvements Program

## Funding Sources

### Redevelopment Funding

The Redevelopment Agency of the City of San Diego was created by the City Council in 1958 to alleviate conditions of urban blight in designated areas of the City. Recently, the State of California passed legislation that impacted Redevelopment Agencies. Any redevelopment funding in the CIP was approved prior to the State's actions. Please refer to the Executive Summary in Volume I for more information.

### Special Revenue Funds

Special Revenue Funds account for revenue received for specifically identified purposes. Examples of Special Revenue Funds used in the CIP budget are the Concourse & Parking Garages Operating, Environmental Growth, Fire/Emergency Medical Services Transport, QUALCOMM Stadium, and the OneSD Support funds.

### TransNet Funds

TransNet, a one-half cent local sales tax, is used for traffic congestion relief and transportation improvements. In addition to roadway enhancements, TransNet Funds are utilized for bikeway and pedestrian projects. TransNet includes a Maintenance of Effort (MOE) provision to guarantee that the City spends a certain amount of discretionary funds on the maintenance and improvement of the public right-of-way. The City utilizes TransNet cash for projects as much as possible in an attempt to minimize the issuance of bonds due to added costs of debt service. TransNet Commercial Paper is a borrowing tool that can be used to raise cash needed to cover cash-flow deficits and is generally viewed as a lower-cost alternative to bank loans. In an attempt to further minimize debt service costs, the issuance of TransNet Commercial Paper may be utilized when feasible.

### Utilities Undergrounding Program Fund

This fund provides for the undergrounding of City utilities. San Diego Gas & Electric (SDG&E) includes a surcharge for the undergrounding of utilities on electric bills. This amount is deposited with the City to be used solely for the undergrounding of electrical lines and associated activities.

A complete list of funding sources in the CIP and their budgets are provided below in **Table 1**.

**Table 1: Capital Improvements Program by Funding Source**

| Funding Source                                      | Prior Fiscal Years | FY2013 Adopted | Future Fiscal Years | Funding Source Total |
|-----------------------------------------------------|--------------------|----------------|---------------------|----------------------|
| Airport Funds                                       | 9,016,613          | 2,400,000      | 15,840,140          | 27,256,753           |
| Bond Financing                                      | 5,712,558          | -              | -                   | 5,712,558            |

# Capital Improvements Program

## Funding Sources

### Unidentified Funding

Some projects may lack sufficient identified funding to complete the project. These projects display an "unidentified funding" amount in the project pages. Each project with an unidentified amount is summarized in each department's Unfunded Needs List. A complete list of all projects with unidentified funding is provided below in **Table 2**.

**Table 2: Capital Improvement Projects Unfunded Needs**

| Project                                                            | Page No. | Priority Score | Priority Category | Unidentified Funding | Percent Unfunded |
|--------------------------------------------------------------------|----------|----------------|-------------------|----------------------|------------------|
| <b>New</b>                                                         |          |                |                   |                      |                  |
| University Village Park Tot Lot / <b>S13005</b>                    | 377      | 17             | Low               | \$ 150,000           | 33.3%            |

## Community Planning

### The City's General Plan

The City of San Diego General Plan (2008) sets out a long-range vision and policy framework for how the City should plan for projected growth and development, provide public services, and maintain the qualities that define San Diego over the next 20 to 30 years.

The General Plan provides guidance on how to design both infill and remaining new growth development, and emphasizes the need to reinvest in existing communities. It has a strong sustainability focus through policies addressing transit/land use coordination; climate change; healthy, walkable communities; green buildings; clean technology industries; water and energy conservation and management; and urban forestry. In addition, the General Plan features protections for prime industrial lands, strategies for providing urban parks, "toolboxes" to implement mobility strategies, and policies designed to further the preservation of San Diego's historical and cultural resources. The General Plan was structured to work in concert with the City's community plans.

The General Plan includes the City of Villages strategy to focus growth into mixed-use villages that are pedestrian-friendly districts, of different scales, linked to the transit system. Each village is envisioned as unique to the community in which it is located, yet all villages would be pedestrian-friendly and characterized by inviting, accessible and attractive streets and public spaces. Individual villages are intended to offer a variety of housing types and affordability levels. The strategy draws upon the character and strengths of San Diego's natural environment, distinctive neighborhoods, and activity centers that together form the City as a whole.

The General Plan is comprised of an introductory Strategic Framework section and the following elements: Land Use and Community Planning; Mobility; Economic Prosperity; Public Facilities, Services and Safety; Urban Design; Recreation; Historic Preservation; Conservation; and Noise. The Housing Element update was adopted separately in 2006 and is provided under separate cover from the rest of the 2008 General Plan. The policies within each element were developed with ten guiding principles in mind. These principles are to achieve:

- An open space network formed by parks, canyons, river valleys, habitats, beaches, and ocean;
- Diverse residential communities formed by the open space network;
- Compact and walkable mixed-use villages of different scales within communities;
- Employment centers for a strong economy;
- An integrated regional transportation network of walkways, bikeways, transit, roadways, and freeways that efficiently link communities and villages to each other and to employment centers;
- High quality, affordable, and well-maintained public facilities to serve the City's population, workers, and visitors;
- Historic districts and sites that respect our heritage;
- Balanced communities that offer opportunities for all San Diegans and share citywide responsibilities;
- A clean and sustainable environment; and,
- A high aesthetic standard.

# **Capital Improvements Program**

## **Community Planning**

The Public Facilities, Services and Safety Element of the General Plan includes policies on the prioritization and provision of public facilities and services, evaluation of new growth, guidelines for implementing a financing strategy, and guidelines for the provision of specific facilities. This element discusses City challenges, including a public facilities deficit, and recommends that facilities deficiencies be remedied through diverse funding strategies such as joint-use, more-efficient resource allocations, and fiscal reform efforts that provide equitable redistribution of revenues to the City from the state.

Implementation of the General Plan is being accomplished through a broad range of legislative and regulatory actions that influence private and public development. The General Plan Action Plan identifies measures and timeframes for implementing General Plan policies. The Action Plan highlights eight key initiatives which are critical to General Plan implementation, as follows: Community Plan Updates, Climate Change Initiatives, Water Supply and Conservation Efforts, Land Development Code (LDC) Amendments, Public Facilities Finance Strategy, Economic Development Strategic Plan, Parks Master Plan, and Historic Preservation Incentives. In addition, the General Plan is consistent with the Regional Comprehensive Plan prepared by the San Diego Association of Governments.

## **Community Plans**

The City's community plans contain additional detailed planning guidance and are a part of the General Plan. Community plans establish specific recommendations and objectives in a given community for future land uses and public improvements. The community plan provides a long range physical development guideline for elected officials and citizens engaged in community development. Citizen involvement has been a long-standing concept in the City of San Diego. In the 1960s and 1970s, the City Council adopted policies that established and recognized community planning groups as formal mechanisms for community input in the decision-making processes. Community planning groups provide citizens with an opportunity for involvement in advising the City Council, the Planning Commission, and other decision makers on development projects, community plan amendments, rezoning projects, and public facilities. The recommendations of the planning groups are integral components of the planning process.

The General and community plans are policy documents, which require regulatory tools and programs to help implement their goals and standards. The implementation tools for planning documents include the Municipal Code, the Multiple Species Conservation Program (MSCP), zoning, Neighborhood Code Compliance, facilities financing plans, and others. These regulations and programs help guide land use, development, and design.

## **CIP Conformance to the City's General Plan and Community Plans**

The capital improvement projects in the current budget were reviewed for conformance with the City's General Plan and community plans, as required by Council Policy 000-02 and General Plan Policy PF.A.4.a. These capital improvement projects were found to be consistent with the General Plan, relevant community plans, and facilities financing plans.

## Guide to the Capital Improvement Projects

The CIP project pages are designed to provide accurate and informative financial and logistical information for projects. All ongoing projects as of June 2012 are included in addition to new projects scheduled to begin in Fiscal Year 2013. Within the Capital Improvement Projects section, project pages are organized by asset-owning department then alphabetically by project title. Refer to the Indexes beginning on Page 805 to locate a specific project page.

Each asset-owning department section begins with a Budget Narrative which introduces the department and highlights Fiscal Year 2012 accomplishments and Fiscal Year 2013 goals. Following the narrative is an alphabetical list of the department's projects including budgeted amounts.

## Project Attributes

### Fire-Rescue

Fire Station No. 45 - East Mission Valley / S00688

Bldg - Pub Safety - Fire Fac / Struct

|                                |                                  |
|--------------------------------|----------------------------------|
| Council District: 8            | Priority Score: 92               |
| Community Plan: Mission Valley | Priority Category: High          |
| Project Status: Released       | Contact Information: Cetin, Elif |
| Duration: 1994 - 2017          | 619-533-4840                     |
| Improv Type: New               | ecetin@sandiego.gov              |

## Department, Project Title and Project Number

The department listed is the department that will be responsible for operating or maintaining the asset once complete. Each department's CIP is organized by project title. The project's title and unique identification number are listed below the department. The first character of the project number indicates the kind of project. The following list describes the characteristics of each kind of project:

**A: Annual Allocation** - These projects provide for ongoing repair and replacement requiring funding on an annual basis. Individual projects funded by an annual allocation are typically smaller projects that are expected to be completed in a short timeframe. The funding information provided for annual allocation projects aggregates all funding in existing sub-projects and will fluctuate as individual projects are completed and new projects are added.

**L: Large** - These projects are a combination of multiple assets into a single project in order to achieve efficiencies. Each individual asset will be capitalized as that portion of the project is completed. As a result, the total estimated project cost will be reduced as each asset is completed.

**S: Standalone** - These projects are typically limited to a single asset and may be of any size and duration.

**RD: Reimbursement to Developer** - These projects allocate funding to reimburse developers for projects privately constructed in accordance with approved financing plans or other regulatory documents.

# Capital Improvements Program

## Guide to the Capital Improvement Projects

### Project Type

Project types are a more specific manner of categorizing the kind of improvement provided by each project. A complete listing of project types is available on Page 73. On the project pages, the project type is listed to the right of the Project Title and Number. Some project types, such as Buildings, are used in several departments.

### Council District

This identifies the City Council District in which a project is located. Projects that have a Citywide impact or are outside the City limits are also noted. For this publication, City Council District 9 has not been included; however, this will be updated for the Fiscal Year 2014 Proposed Budget. For a map of all Council Districts, refer to the Community Planning section on page 85.

### Community Plan

This component lists affected community planning area(s). Projects that have a Citywide impact or are outside the City limits are also noted. For additional information on community planning areas, refer to the Community Planning section on page 85.

### Project Status

The project status serves as an indicator of project progress. Below is a description of these statuses:

*Created* - This indicates that the project has been identified and funding has been appropriated but activity has not begun on the project.

*Released* - The project is in progress.

*Technically Complete* - The project is primarily completed and the asset has been put into service.

### Duration

The estimated starting and ending fiscal years are provided for each project.

### Improvement Type

This component describes the project's impact on existing assets. A project may provide betterment, expansion, replacement or widening of an existing City asset or may result in a new asset to the City.

### Contact Information

This provides the name, phone number and e-mail address of the project manager or designated point of contact, at the time of publication.

### Priority Score

Projects are scored to establish an objective process for ranking CIP projects. Project scores range from 0-100. Projects that are in construction or have completed construction have not been scored and are noted as not applicable (N/A). Annual allocation projects are noted as Annual and are not scored. For additional information, refer to the Prioritization Policy section on page 55.

# Capital Improvements Program

## Guide to the Capital Improvement Projects

### Priority Category

The priority category indicates if the project is scored within the upper third (High), middle third (Medium), or lowest third (Low) of the priority scores within the same major asset type category. Projects that are in construction or have completed construction have not be categorized and are noted as not applicable (N/A). Annual allocation projects are categorized as Annual. For additional information, refer to the Prioritization Policy section on page 55.

### Project Description

**Description:** This project provides for an updated fire station in Mission Valley. The station will accommodate up to 17 personnel, two engines, one aerial truck, two hazardous material apparatus, one paramedic ambulance, and one Battalion Chief vehicle. This is one of 12 projects included in the Fire-Rescue Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

**Justification:** A fire station is needed to serve the Mission Valley community. This project is consistent with City Council policy to meet response time guidelines.

**Operating Budget Impact:** Staffing and maintenance costs for the temporary facility are reflected in the Fire-Rescue Department's Fiscal Year 2012 Adopted Budget. The operation of the permanent facility will require additional positions equivalent to \$1,864,889 per year if the facility is fully staffed in Fiscal Year 2014. Non-personnel costs to operate a new station are approximately \$300,000. These funds will need to be added permanently to the Fire-Rescue budget after the project is complete.

**Relationship to General and Community Plans:** This project is in conformance with the City's General Plan; however, the Mission Valley Community Plan does not currently provide for this project. An amendment to the Community Plan may be required prior to implementation of this project.

**Schedule:** Design is scheduled to be completed in Fiscal Year 2013. Construction is scheduled to begin when the remainder of funding is identified. A temporary facility for one engine company is located in the QUALCOMM Stadium parking lot. The construction schedule for the permanent facility will be revised when additional funding is identified.

**Summary of Project Changes:** No significant change to this project for Fiscal Year 2013.

### Description

This component provides a brief statement explaining what the project is, where it is located and its impact on the surrounding neighborhood(s).

### Justification

This component explains why a project is needed and describes any legal requirements for the project, including State or federal mandates.

### Operating Budget Impact

This component describes any ongoing operating expenses anticipated upon completion of the project and the impact on the City's operating budget. An Operating Budget Impact table may be included to provide additional detail. The Operating Budget Impact table is described later in this section. Operating budget impacts include additional funding requirements to support both the operation and maintenance of the building, facility, park, or other infrastructure once it is put in to service.

### Relationship to General and Community Plans

This component indicates whether a project is consistent with the affected community plan(s) and is in conformance with the City's General Plan. Additional information can be found in the Community Planning section on page 85.

# Capital Improvements Program

## Guide to the Capital Improvement Projects

### Schedule

This component describes the anticipated project timeline and includes the years when design, construction, and other phases are expected to begin and end.

### Summary of Project Changes

This component explains any changes that have occurred since publication of the Fiscal Year 2012 Adopted Budget. Changes may have resulted from modifications to the project scope, City Council action to modify funding (resolutions and/or ordinances), updated total project cost estimates and changes in project schedule.

### Project Funding

#### Expenditure by Funding Source Table

This table lists the amounts, funding sources, and estimated budget timeline through project completion. The total estimated project cost includes project activity since inception through current and future fiscal years. Descriptions of common funding sources for the CIP can be found in the Funding Sources section on page 78.

| Expenditure by Funding Source        |         |           |           |         |                     |         |         |         |         |           |                      |               |
|--------------------------------------|---------|-----------|-----------|---------|---------------------|---------|---------|---------|---------|-----------|----------------------|---------------|

| Mission Valley-Urban Comm.           | 400135  | 172,062   | 5,827,948 | 0       | 0                   | 0       | 0       | 0       | 0       | 0         | 0                    | 6,000,000     |
| PFFA-FLSF 2002B-Const.               | 400157  | 978,692   | 0         | 0       | 0                   | 0       | 0       | 0       | 0       | 0         | 0                    | 978,692       |
| Unidentified Funding                 | 9999    | 0         | 0         | 0       | 0                   | 0       | 0       | 0       | 0       | 0         | 4,877,708            | 4,877,708     |
| Total                                |         | 1,310,744 | 5,827,948 | 0       | 0                   | 0       | 0       | 0       | 0       | 0         | 4,877,708            | 12,016,400    |

**Expended and Encumbered (Exp/Enc)** - Projects initiated prior to Fiscal Year 2013 may have incurred expenditures and encumbrances in a prior fiscal year. Amounts shown include all funds that have been expended in the project as well as any contractual or other obligations, as of June 2012. The expended and encumbered amount is cumulative since project inception.

**Continuing Appropriations (Con Appn)** - Funding budgeted prior to Fiscal Year 2013 but not yet expended or encumbered is reflected as continuing appropriation amounts. Continuing appropriations are a cumulative amount of unexpended and unencumbered budget since project inception through June 2012.

**Fiscal Year 2013** - This is the amount of funding approved for the Fiscal Year 2013 Adopted CIP Budget. This amount, as approved by City Council, is included in the annual Appropriation Ordinance, which gives the City the authority to expend from the capital improvement project.

**Fiscal Year 2013 Anticipated** - Funding that is uncertain to be received during Fiscal Year 2013 is reflected as anticipated funding. Anticipated funding may include sources, such as grants, that require additional City Council approval prior to budgeting, or that are unpredictable revenue streams, such as land sale proceeds. The City is not legally bound to any Fiscal Year 2013 Anticipated funding because it is not included in the annual Appropriation Ordinance.

# Capital Improvements Program

## Guide to the Capital Improvement Projects

*Outlying Fiscal Years* - Projects that will extend beyond Fiscal Year 2013 may include future year cost estimates based on project scheduling and projected funding availability. The City is not legally bound to any projections made beyond Fiscal Year 2013 because they are not included in the annual Appropriation Ordinance. Revisions and refinements of project scope, cost estimates, scheduling, and funding availability may affect future year cost estimates.

*Unidentified Funding* - This reflects the portion of the total estimated project cost for which a funding source has not yet been identified. This amount is based upon the current estimated total project cost and funding schedule. Revisions and refinements of project scope, cost estimates, scheduling, and funding may affect the unidentified funding estimate.

*Project Total* - The project total by funding source is an estimate of the total project cost from project inception through the current and future fiscal years to project completion.

### Operating Budget Impact Table

This table provides estimated operational and maintenance costs that will be incurred upon completion of the project. This table supports the Operating Budget Impact description that was discussed earlier in this section. Not every published project will have an Operating Budget Impact table. This data is required for any project with anticipated impacts to the operating budget within the next five fiscal years. Amounts are provided for each impacted department and fund.

| Operating Budget Impact    |              |         |         |           |           |           |
|----------------------------|--------------|---------|---------|-----------|-----------|-----------|
| Department - Fund          |              | FY 2013 | FY 2014 | FY 2015   | FY 2016   | FY 2017   |
| Fire-Rescue - GENERAL FUND | FTEs         | 0.00    | 0.00    | 6.89      | 6.89      | 6.89      |
|                            | Total Impact | 0       | 0       | 2,164,889 | 2,164,889 | 2,164,891 |

*Full-time Equivalent (FTE)* - The decimal equivalent of the number of positions required to be added to the budget to operate and maintain the asset.

*Total Impact* - The estimated amount of personnel and non-personnel expenses required to be added to the budget to operate and maintain the asset upon completion, net of any additional anticipated revenue. Personnel expenses are expenditures related to employee compensation including wages and salaries, fringe benefits, retirement, and special pays such as shift differentials. Non-personnel expenses are expenditures related to supplies and services, information technology, energy, utilities, and outlay.

### Unfunded Needs List

The Unfunded Needs List for each department provides a summary of projects with insufficient funding to complete the project. Projects are listed alphabetically and include the total estimated project cost, unidentified funding amount, and the percent of the project that is unfunded. Also included is a brief description of the project and what components are unfunded. Unfunded Needs Lists follow the

# Capital Improvements Program

## Guide to the Capital Improvement Projects

project pages within each department's section. For a complete list of all projects with unfunded needs, refer to page 81.

# Airports

# Airports

The Airports Division manages Brown and Montgomery Fields with a combined 1,330 acres. These two general aviation airports contain nearly eight miles of runways and taxiways, which safely accommodate over 300,000 annual aircraft operations, including those of the: military, U.S. Border Patrol, San Diego Police, San Diego Fire-Rescue, Cal-Fire, Sheriff, Medi-Evacs, as well as business and recreation sectors. The most critical factor associated with airport management is maintaining safety. The Capital Improvements Program plays an important role by rehabilitating and repairing the pavement and lighting of its runways, taxiways and aircraft ramp areas. These capital improvements are funded by Federal Aviation Administration (FAA) grants and enterprise funds.

## 2012 CIP Accomplishments

The Airports Division had a number of accomplishments and successes in Fiscal Year 2012, including:

### Montgomery Field (KMYF)

- The Main Runway (10L/28R) Rehabilitation project was initiated by completing the design, accepting a \$3.86 million FAA grant, and awarding a contract for construction. The project will help to maintain a safe facility.
- Americans with Disabilities Act (ADA) improvements were made to the restaurant including an elevator, new restrooms, and a parking lot. These improvements have provided greater accessibility for the public.
- The design has been completed for the Cross Runway (5/23) and associated taxiway rehabilitation which is used when winds make the use of the Main Runway impractical. The completed design will ensure a future FAA grant for the construction which will enhance safety for the airport users and the surrounding communities.
- The design has been completed for the Taxiway C rehabilitation. As the second longest taxiway and the primary route to the Cross Runway, the rehabilitation of Taxiway C will enhance safety for the airport users and ease the workload of the control tower.

### Brown Field (KSDM)

- Airports completed electrical upgrades, which provided an array of improvements to airport's signs, runway, taxiway lights and the Precision Approach Path Indicators (PAPI), the latter of which is a visual aid that provides guidance information to help a pilot acquire and maintain the correct approach.
- Airports completed a perimeter fence and key-pad gate project which protects the public from inadvertent runway incursions, as well as aid law-enforcement to reduce illicit activities.

## 2013 CIP Goals

The CIP Goals of the Airports Division are the provision of safety, and compliance with federal, State, and local regulations and policies. To achieve this in Fiscal Year 2013, Airports Division is pursuing these goals by initiating the following projects:

# Airports

## Montgomery Field (KMYF)

- Airports will commence and complete the construction of the Main Runway Rehabilitation (10L/28R) in the autumn of this year, in order to accommodate the nesting season of the burrowing owl which begins in the spring.
- Airports will upgrade airport security through the installation of an electronic, computer-monitored access system. This project will enhance the airport's existing fence and gate system, and increase the protection of the public from inadvertent runway incursions, as well as augment aid to law-enforcement to reduce illicit activities.
- Airports will create vernal pools in a secure area of the airport in order to mitigate environmental impacts related to the localizer and maintain this FAA facility in accordance with the Grant Assurances.

## Brown Field (KSDM)

- Airports will design the rehabilitation project for Brown Field's Main Runway (8L/26R), which when constructed, will enhance safety for the airport users and the surrounding communities.
- Airports will complete construction of several ADA improvements to the terminal, restrooms, and parking lots, which will increase the airport's accessibility for a more diverse populace.

**Description:** The Brown Field Airport annual allocation provides for the following projects: A. Rehabilitation of Runway 8L/26R project - A design consultant will evaluate the current pavement, drainage, striping and signage conditions and to provide a rehabilitation design to meet current Federal Aviation Administration (FAA) standards. B. Brown Field Airport's Terminal building and parking lots ADA upgrades - A design/build firm will evaluate the current conditions; provide a design, as well as the needed construction to bring both the Airport terminal building and parking lots to compliance with ADA regulations. C. Rehabilitation of Curran Street and Sikorsky Street - A design/build firm will evaluate the current conditions and provide a design and construction to rehabilitate deteriorated pavement sections of Curran Street and Sikorsky Street. D. Rehabilitation of Pogo Road - A design/build firm will evaluate the current conditions and provide a design and construction to rehabilitate deteriorated pavement sections of Pogo Road.

**Justification:** A. Rehabilitation of Runway 8L/26R project - Maintaining the safe use of the runway as required by the FAA and Caltrans, Division of Aeronautics. B. Brown Field Airport's Terminal building and parking lots ADA upgrades - Compliance with ADA regulations. C. Rehabilitation of Curran Street and Sikorsky Street - The Rehabilitation of Glenn Curtis Road and Gibbs Drive will bring the streets' pavement section to current engineering and construction standards. D. Rehabilitation of Pogo Road - The Rehabilitation of Pogo Road will bring its' pavement section to current engineering and construction standards.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** A. Rehabilitation of Runway 8L/26R project - The design of the Rehabilitation of 8L/26R will begin in Fiscal Year 2012 and the construction is anticipated to start in Fiscal Year 2013. B. Brown Field Airport's Terminal building and parking lots ADA upgrades - The design and construction of the Brown Field Airport's Terminal building and parking lots ADA upgrades are scheduled to begin and be completed in Fiscal Year 2013. C. Rehabilitation of Curran Street and Sikorsky Street - The Rehabilitation of Curran Street and Sikorsky Street is scheduled to begin in Fiscal Year 2013. D. Rehabilitation of Pogo Road - The Rehabilitation of Pogo Road is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** Brown Field Special Aviation funds are allocated to this project annually.

**Description:** The Montgomery Field Airport annual allocation provides for the following projects: A. Rehabilitation of Runway 5/23 and Taxiway G project - This rehabilitation construction project brings Runway 5/23 and Taxiway G; pavement, drainage, striping and signage to current design and construction standards and to conformance with current Federal Aviation Administration (FAA) standards. B. Rehabilitation of Glenn Curtis Road and Gibbs Drive - A design/build firm will evaluate the current conditions and provide a design and construction to rehabilitate deteriorated pavement sections of Glenn Curtis Road and Gibbs Drive. C. Montgomery Field Airport Access Control Security Equipment - A design/build will design and install Access Control Security Equipment at Montgomery Field Airport.

**Justification:** A. Rehabilitation of Runway 5/23 and Taxiway G project - Maintaining the safe use of the Runway 5/23 and Taxiway G as required by the FAA and Caltrans, Division of Aeronautics. B. Rehabilitation of Glenn Curtis Road and Gibbs Drive - The Rehabilitation of Glenn Curtis Road and Gibbs Drive will bring the streets' pavement section to current engineering and construction standards. C. Montgomery Field Airport Access Control Security Equipment -This project enhances the Montgomery Field Airport security, preventing unauthorized access. Additionally, the FAA has programmed \$475,000 in grant funding for this project due to the high priority associated with enhancing the security of the airport.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Kearny Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** A. Rehabilitation of Runway 5/23 and Taxiway G project - The design of the Rehabilitation of 5/23 and Taxiway G will be completed in Fiscal Year 2012 and the construction is scheduled to start in Fiscal Year 2013. B. Rehabilitation of Glenn Curtis Road and Gibbs Drive - The Rehabilitation of Glenn Curtis Road and Gibbs Drive is scheduled to begin in Fiscal Year 2013. C. Montgomery Field Airport Access Control Security Equipment -This project is scheduled to begin and be completed in FY 2013.

**Summary of Project Changes:** Montgomery Field Special Aviation funds are allocated to this project annually.

**Description:** The Montgomery Field Airport (MYF) annual allocation will provide for design and construction to rehabilitate the pavement of Runway 10L/28R. A consultant will assess the current conditions of the runway and will present a design to make the runway comply with Federal Aviation Administration (FAA) guidelines and regulations.

**Justification:** This is a grant funded restoration project of a 40-year old runway pavement that is required to ensure safety, meet Federal Aviation Administration (FAA) standards, and diminish the possibility of aircraft accidents as well as City liability.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Kearny Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction is scheduled in Fiscal Year 2013.

**Summary of Project Changes:** Funding allocated in Fiscal Year 2013 will support construction activities.

# **Department of Information Technology**

## **Department of Information Technology**

The Department of Information Technology is responsible for providing technologies and applications to the City in support of citywide processes. The Department's Capital Improvement Program includes the replacement of many software systems with the integrated OneSD project, and the implementation of the City's Enterprise Resource Platform (ERP) Systems, Applications and Products (SAP) system.

### **2013 CIP Goals**

The Department will be implementing the Supplier Relationship Management module of ERP. This activity will provide for the simplification and automation of the procure-to-pay process. Additionally, the Enterprise Asset Management (EAM) SAP system will be merged into the Industry Solution for Public Sector (ISPS) SAP system. ISPS is used for Financials Materials Management, Funds/Grants Management, Human Capital Management, Procurement, Contracts Accounting and Project Systems.

**Description:** This project will consolidate and merge the Enterprise Asset Management (EAM) Systems, Applications and Products (SAP) system into the Industry Solution for Public Sector (ISPS) SAP system and allow for one managed instance and full integration with ISPS processes. ISPS is used for Financials (General Ledger, Accounts Payable, Cost Accounting, Accounts Receivables, Fixed Assets), Materials Management, Funds/Grants Management, Human Capital Management, Procurement, Contracts Accounting and Project Systems.

**Justification:** This project will reduce the size of the EAM technological infrastructure while providing full integration with the ISPS business processes in one SAP system.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** Not applicable.

**Schedule:** This project is scheduled to be completed by the end of Fiscal Year 2013.

**Summary of Project Changes:** This is a newly published project for Fiscal Year 2013 with an initial budget of \$1.1 million.

| <b>Project Status:</b>   | Technically completed  | <b>Contact Information:</b> | Walker, Bill        |
| <b>Duration:</b>         | 2008 - 2010            |                             | 619-533-6360        |
| <b>Improv Type:</b>      | New                    |                             | walkerw@saniego.gov |

**Description:** The OneSD project provides for the replacement of many legacy software systems currently in use by City departments with the business center of the Office of the Chief Financial Officer (CFO) and Business and Support Services. The System will replace the following major systems: AMRIS (General Ledger), ALVA (Financial Reporting), APIS (Accounts Payable), ARIS (Accounts Receivable), FMIS (Budgeting and Financial Management), FAMIS (Fixed Asset Management), OPIS (Purchasing), CAPPs (Payroll), and PATS (Applicant Tracking). Additionally, this integrated application will be used by all City departments for day-to-day business operations and human resource needs and is expected to support the City's information technology (IT) needs for the next 15 years.

**Justification:** Recommendations contained in the Kroll Report stated that due to their antiquated state, the City's major software systems require updating. The applications that support the departments under the Office of the Chief Financial Officer (CFO) and Business and Support Services no longer meet the requirements for responsible financial management, efficient human resources management, and IT operational efficiency.

**Operating Budget Impact:** The expenses to support ongoing operating of the OneSD project are currently budgeted in the Enterprise Resource Planning (ERP) Department.

**Relationship to General and Community Plans:** Not applicable.

**Schedule:** This project is complete and awaiting closure and capitalization.

**Summary of Project Changes:** This project is complete and awaiting closure and capitalization.

## **Environmental Services**

## Environmental Services

The Environmental Services Department ensures that all residents of San Diego are provided with a clean, safe, and ecologically-sound environment. The Department operates a full-service landfill and maintains eight closed landfills and eight inactive burn sites, all of which require sustained improvements related to landfill gas systems, groundwater monitoring networks, and grading and slope work. The Department also manages the City's energy use and a variety of programs focused on implementing innovative alternatives to increase energy efficiency at City facilities. Through the Capital Improvements Program, the Department identifies and dedicates Refuse Disposal Fund resources to projects that focus on providing reliable solid waste management, and State and federal energy grants to projects that focus on resource conservation and environmental protection to preserve public health and ensure sustainable communities for future generations.

## 2012 CIP Accomplishments

The Department has continued to dedicate capital improvement resources towards its mission of providing reliable solid waste management, resource conservation and environmental protection to preserve public health and ensure sustainable communities for future generations.

The Department's Energy, Sustainability and Environmental Protection Division completed projects for Fiscal Year 2012 included:

- "Installation of a Solar Photovoltaic generation system with an integrated Advanced Energy Storage System (Battery) at Scripps Ranch Recreation Center. This project provides a secure location with electrical power for emergency responders in case of a major wildfire or other emergency.
- "The City Administration Building (CAB) Boiler project replaced the existing steam boilers, controls and associated equipment with energy efficient equipment at the CAB Central Plant which serves five municipal buildings.
- "Broad Spectrum Street Lighting project was started and replaced 20,000 of 36,000 street lights with induction lights and will reduce energy consumption.

The Department also conducted improvements at landfills throughout the City.

- Arizona Street and South Chollas inactive landfills:
  - Grading and drainage improvement plans were prepared.
  - Gas collection and monitoring systems were evaluated for upgrades.
  - Engineering plans and specifications will be prepared in compliance with regulatory agency requirements.
- Storm Water Pollution Prevention Plans incorporating Best Management Practices (BMPs) were prepared. Many new BMPs have been implemented including a practice to mitigate runoff from the Miramar greenery processing facility. These BMPs will provide significant improvement in controlling runoff to prevent silt and other pollutants from leaving the site.

## Environmental Services

### 2013 CIP Goals

The Department will continue to promote sustainability and public health through its effective delivery of capital improvement projects. Most of the Department's capital improvement projects are focused on ensuring regulatory compliance at the Miramar Landfill and inactive landfills throughout the City. The following are the Department's goals for Fiscal Year 2013:

- Finalize the Long Term Waste Management Options Strategic Plan and begin the permitting and regulatory process for the options that are most favorable for extending the life of the Miramar Landfill.
- Continue construction on energy improvements to City facilities which will result in the installation of more efficient technologies such as lighting and air conditioning in order to reduce energy consumption.
- Improve the existing groundwater monitoring network at inactive landfills which includes the installation of infrastructure at various sites to monitor groundwater and ensure regulatory compliance.
- Provide improvements to existing landfill gas collection systems and drainage infrastructure at the inactive Arizona Street and South Chollas Landfills in order to enhance operations, ensure regulatory compliance, and protect public health and safety.
- Complete installation of the Broad Spectrum Street Lighting project to replace 16,000 of 36,000 street lights with induction lights which will reduce energy consumption.

| <b>Improv Type:</b> New            | rpurtee@sandiego.gov                    |

**Description:** This project provides for modifications to the existing landfill gas collection system and cover at the Arizona Landfill to enhance operations and maintain regulatory compliance.

**Justification:** Federal and State waste disposal legislation requires proper environmental safeguards to control landfill gas.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Balboa Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction began in Fiscal Year 1995 and will continue through each phase of the project which is scheduled to be completed in Fiscal Year 2017.

**Summary of Project Changes:** This project was allocated \$65,000 for Fiscal Year 2013. Total project cost was decreased by \$1,335,000 from Fiscal Year 2012 estimates due to revised project estimates.

| <b>Improv Type:</b> Betterment    | creddy@sandiego.gov                        |

**Description:** This project will provide for energy efficiency improvements in City facilities. Projects typically address lighting, air conditioning, chiller, pumping and fan systems, invertors and City owned solar systems. Newer, more efficient technologies greatly reduce energy consumption.

**Justification:** Energy efficiency improvements repay capital costs in one to nine years, depending upon the project. The energy savings continue each year thereafter. Energy audits are performed in a variety of City-owned facilities to identify opportunities for energy savings.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** These projects are consistent with applicable community plans and are in conformance with the City's General Plan.

**Schedule:** Design evaluation will be completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** \$1.8 million in San Diego Gas & Electric rebates and incentives are anticipated to fund energy efficiency projects.

**Description:** This project provides needed energy improvements to various City facilities.

**Justification:** This project will provide energy improvements at various City facilities located throughout the City of San Diego in all Council Districts.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Currently there are 50 sublet projects in progress. This project will close when the California Energy Commission loan expires and administrative tasks are completed.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for needed facility improvements for the Environmental Services Department. Facilities include the Ridgehaven building, Miramar Operations Station, and facilities at the Miramar Landfill.

**Justification:** The Ridgehaven Facility is overdue for scheduled heating, ventilation and air conditioning (HVAC) system replacement. These systems are past their useful lives. No capital upgrades are required at this time for the Miramar Operations Station or facilities at the Miramar Landfill. The Ridgehaven facility is also in need of ADA upgrades.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Kearny Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project began in Fiscal Year 2009 and continued upgrades are scheduled for Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides for operational yard improvements necessary to support heavy equipment and other upgrades related to yard security, safety and stormwater runoff to the Environmental Services Operations Station (ESOS) Yard.

**Justification:** Operational yard improvements are required to support heavy equipment. Other upgrades will improve yard security, safety and ensure regulatory compliance with stormwater runoff.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mira Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** No change has been made to this project for Fiscal Year 2013.

**Justification:** This project provides for operational yard improvements necessary to support heavy equipment and other upgrades related to yard security, safety and stormwater runoff.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mira Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction of the ESOS Manual Wash and Storm Drain Projects, replacement of concrete at the Marindustry Road entrance to the Operations Yard, replacement of heaters in the Motive Equipment Repair Building, and installation of permanent patio canopies occurred Fiscal Year 2004 through 2009.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

**Description:** This project provides for the development and construction of solid waste disposal and processing facilities. Strategic planning, design, construction, environmental review and potential purchase of mitigation property are all within the scope of the project.

**Justification:** The City must continue to have adequate disposal or processing facilities for the solid waste it generates each year. Technology to recover and/or convert portions of refuse material is being explored and developed. It appears that there will always be a need for landfilling part of the generated waste stream and residue from other solid waste disposal facilities.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Ongoing efforts are being made to identify solid waste processing and disposal options. The project is scheduled to continue through Fiscal Year 2017.

**Summary of Project Changes:** This project was allocated \$1.75 million in Refuse Disposal funding for Fiscal Year 2013.

**Description:** This annual allocation provides for minor improvements to existing Groundwater Monitoring Networks at all closed and operating landfills managed by the City. Such improvements may include new facilities to monitor groundwater, preparation of reports necessary to modify the groundwater monitoring programs, or potential groundwater mitigation measures.

**Justification:** This project provides the flexibility necessary to respond to operational issues and possible changes in the Groundwater Monitoring Program required by Title 23, Chapter 15, Article 5 of the California Code of Regulations.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis to meet regulatory requirements. Projects scheduled for Fiscal Year 2013 include construction of one groundwater well with an investigational report and procurement and installation of one low flow sampling pump.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides for minor improvements to existing sanitary landfills to comply with operating permits and regulatory requirements. Such improvements may include fencing, access roads, drains, small structures, and environmental protection projects.

**Justification:** This project provides the flexibility for timely initiation of minor improvements and construction needed to meet operational and solid waste regulatory mandates such as drainage and grading improvements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis to meet regulatory requirements. Projects scheduled for Fiscal Year 2013 include the continued design and construction of multiple down drains, perimeter drainage channels, and minor grading to promote positive drainage.

**Summary of Project Changes:** Refuse Disposal CIP funding in the amount of \$320,000 has been allocated to this project for Fiscal Year 2013. A total of \$1,630,000 has been allocated to this project through Fiscal Year 2017.

**Description:** This project provides for the expansion of the existing Miramar Greenery currently located at the Miramar Landfill. The expansion of curbside greens collection to additional neighborhoods in the City will increase the tonnage coming into the facility, requiring additional acreage and equipment.

**Justification:** Expansion of curbside greens collection will increase the diversion of solid waste required by the State of California. A larger facility is required to process the increased tonnage expected as a result of expanded curbside pickup.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is located on federal property and there is no community planning area. This project is in conformance with the City's General Plan.

**Schedule:** The project began in Fiscal Year 2010 and is expected to be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New            | creddy@sandiego.gov                        |

**Description:** This project provides for the installation of th emergency backup generator and associated equipment at the Ridgehaven Court facility and will be used as Homeland Security alternate Emergency Operations Center. The generator has been purchased and is on-site waiting to be installed..

**Justification:** This project will serve the requirements of Homeland Security Emergency Operations.

**Operating Budget Impact:** The operating budget impact is approximately \$10,000, annually for fuel and maintenance costs.

**Relationship to General and Community Plans:** This project is consistent with the Kearny Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Installation was scheduled for completion in Fiscal Year 2012, but will continue into Fiscal Year 2013.

**Summary of Project Changes:** As a result of the Fiscal Year 2012 Mid-year Appropriation Adjustments, City Resolution R-307312 approved on March 14, 2012, this project will receive an additional \$200,000 from the following sources: \$130,040 from CIP Contributions from General Fund, \$26,763 from the Water Utility CIP Fund, \$27,927 from the Sewer Utility CIP Fund, \$6,509 from the Development Services Fund, \$3,575 from the Refuse Disposal Fund and \$2,186 from the Recycling CIP Fund.

**Description:** This project provides for modifying the existing landfill gas collection system to enhance operations and maintain regulatory compliance.

**Justification:** Federal and State waste disposal legislation require proper environmental safeguards to control landfill gas.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: Eastern Area Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction began in Fiscal Year 2000 and are scheduled to continue through Fiscal Year 2017.

**Summary of Project Changes:** This project was allocated \$43,000 for Fiscal Year 2013. Funding for this project will allocated through Fiscal Year 2017.

**Description:** This project provides for cover material, grading, drainage, and site improvements at the inactive South Chollas Landfill.

**Justification:** This project is required to maintain compliance with various State and federal regulatory requirements and to avoid code violations.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: Eastern Area Community Plan and it is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis to meet regulatory requirements. This includes the evaluation of existing landfill cover, the construction of drainage systems and utilities and the preliminary design and engineering of approximately 5 separate areas of the landfill including Chollas Operations Yard.

**Summary of Project Changes:** This project was allocated \$600,000 for Fiscal Year 2013. The total project budget has decreased by \$4.0 million from Fiscal Year 2012 as a result of revised project estimates.

| <b>Duration:</b> 2010 - 2020      | 858-627-3311                                 |
| <b>Improv Type:</b> New           | cfergusson@sandiego.gov                      |

**Description:** This project provides for implementation of the Citywide Underground Hazardous Materials Storage Tank Master Plan. The plan addresses the removal, installation, closure, site assessment and mitigation, replacement, testing, and rehabilitation of the 69 City-owned underground storage tanks (USTs). Site assessment and mitigation activities related to 26 unauthorized releases are ongoing to maintain regulatory compliance, eligibility for State reimbursement, protection of groundwater and public health and safety.

**Justification:** The State Underground Storage of Hazardous Substances Law (Sher Bill AB 1362) and SB989 established guidelines and regulations for the design, installation, rehabilitation, testing and maintenance, and monthly facility inspections by a Designated UST Operator. Non-compliance with UST laws or site assessment and mitigation (SA/M) requirements may make the City ineligible for reimbursement of an estimated \$4.0 million in current and future SA/M costs as well as liable for civil penalties of up to \$25,000 per day per site.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** There are no regulatory mandate-driven projects foreseen in Fiscal Year 2013. Future funding needs will be identified as new regulatory mandates arise.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for a landfill gas collection system for the West Miramar Phase II Landfill. Bio-degradation of buried waste produces landfill gas. The landfill gas collection system consists of a network of gas extraction wells connected by piping.

**Justification:** This improvement is required to maintain compliance with various State and federal regulatory requirements. It will also prevent code violations and enhance public health and safety.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is located on federal property and there is no community planning area. This project is in conformance with the City's General Plan.

**Schedule:** Design and construction began in Fiscal Year 1996 and will continue through the life of the landfill. The landfill is anticipated to close in Fiscal Year 2022.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for continuing development of the West Miramar Landfill, located southwest of Marine Corps Air Station Miramar. The facility will accommodate over 35 million cubic yards of refuse on 807 acres. Phase II will develop the second half of the facility, including design and construction of entry roads and drainage systems, excavation, federally-mandated liner systems, and stockpiling and spreading of earthen materials. This project also includes development of the General Development Plan elements for the entire site.

**Justification:** Improvements are required in order to ensure compliance with conditions set forth by the operations permit issued by the California Integrated Waste Management Board and the Regional Water Quality Control Board. In addition, the funding will provide for improvements related to drainage and stormwater runoff to ensure National Pollutant Discharge Elimination System regulatory compliance.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is located on federal property and there is no community planning area. This project is in conformance with the City's General Plan.

**Schedule:** Engineering design and construction will continue through Fiscal Year 2016 in order to facilitate modular development as additional capacity is required.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

## **Fire-Rescue**

## Fire-Rescue

The City of San Diego's Fire-Rescue Department is committed to replacing and rehabilitating Fire-Rescue facilities in order to serve 1.3 million people in a 331 square mile area. The Capital Improvements Program plays a vital role in providing the much needed infrastructure for fire and lifeguard station facilities, while addressing the ongoing capital needs of the existing facilities. These facilities and the associated infrastructure are an important component in providing emergency responses throughout the City. The Department has 47 fire stations, a fire communications center, an air rescue facility, a training facility, 9 lifeguard stations, a boat dock, and 48 seasonal lifeguard towers. These facilities are designed and maintained for the use of our firefighters and lifeguards who in turn benefit the public by responding to emergencies. Fire-Rescue CIPs include aesthetics to ensure that older stations' appearance are maintained and new stations have good quality design that enhances the overall urban design of the community, and extends the life of the facility for long term cost savings. The Department continually seeks funding for capital improvements to preserve and extend the life-cycle of the 24/7 facilities, including roof and HVAC replacements, driveway repairs and other necessary facility maintenance projects, that affect health and safety. Funding for the department's projects come from a variety of sources such as development impact fees, facilities benefit assessments, developer reimbursement agreements, deferred capital project bond financing, grants and from the General Fund.

### 2012 CIP Accomplishments

In Fiscal Year 2012, the Fire-Rescue Department completed many capital improvements that included:

- Fire Station 1 was remodeled to accommodate fire, medics, hazmat, and bomb squad crews. The three apparatus doors were not functioning adequately to allow fire apparatus to enter and exit the fire station.
- Signage and landmark identification were provided for Fire Station 4's (Petco Park National Registry of Historic Places) - Citizens and visitors to San Diego can now enjoy and appreciate a part of San Diego's history with this restoration.
- Fire Station 25 (Bay Park) & 36 (Clairemont) were re-plumbed in order to accommodate adequate living environment for the fire crews. The re-plumbing extends the life of the building, bringing it up to current code for health & safety.
- HVAC replacement and electrical systems upgrade at the Fire Communications Center (FCC) with the assistance of state and federal grants, was integral in providing adequate cooling temperatures so that the computer and electrical systems maintain levels of operability.
- Fire Station 33 (Rancho Bernardo) was fully remodeled for its interior and exterior upgrades to bring the facility up-to-date, providing current staff amenities while complementing the surrounding community.
- Construction of fuel containment pad for Air Ops facility at Montgomery Field was completed to comply with current regulations and avoid violation fines.
- Development & Environmental Permits for Design/Build of Children's Pool Lifeguard Station Project Construction were obtained. This project is expected to begin October 2012. The condemned station will make room for a new state-of-the-art facility which will provide water emergency response & public restrooms.
- Council approved a 5-year Implementation Plan for long term facilities planning. This plan identifies ways to implement the need to design and construct additional fire stations throughout the City, as identified in the CityGate Study.

## Fire-Rescue

- A remodel design for Fire Station 3 (Little Italy) was completed. It includes ADA access, kitchen remodel and partial expansion of the living quarters to accommodate the growing population of the community.
- Underground fuel tank mitigation for future fire station site at Skyline North was completed to make room for the future site of a fire station.
- Lifeguard Headquarters located at Quivira was not ADA compliant which posed challenges to public citizens visiting the facility. It is now equipped with ADA ramps, access and restrooms.
- The Intercom system at Pacific Beach Lifeguard Station's was replaced to provide for lifeguards' operational needs and public announcement (PA) system for public health and safety.

### 2013 CIP Goals

The San Diego Fire-Rescue Department is looking forward to capital improvement projects slated for construction and those that will begin design:

- Project design of Fire Station 15 (Ocean Beach) will include the design and construction of the facility's ready room and dining room to meet functional and operational needs.
- Project design of Fire Station 8 (Mission Hills) will include the design and construction of the facility's living quarters which currently does not provide the full functionality of the fire station requirements.
- The Station Alerting project will provide for the replacement of the current Fire In-Station Alerting System at fire stations Citywide. The current alerting system technology is 21 years old and is currently relying on a back-up system. The design-build contract is anticipated to be awarded in Fiscal Year 2013.
- This project will provide for the demolition of Fire Station 5 (Hillcrest) as well as design and construction of a new station.
- The reconstruction of Fire Station 17 (Mid-City) to accommodate up to 10 personnel, two fire apparatus and one paramedic unit
- Design of La Jolla Cove Lifeguard Station is anticipated to be completed. The facility was constructed in the 1950's with an observation tower added in 1980. In its current state, the facility is inadequate to accommodate staff or provide adequate water safety protection.
- La Jolla Shores Lifeguard Station was built in 1981 and will be replaced by a new facility.
- The redesign and reconstruction of Fire Station 22 (Pt. Loma) will be completed. The existing fire station was built in the early 1940's and is now too small to accommodate new fire engines.
- The reconstruction of Fire Station 38, located in Mira Mesa is anticipated to be completed.
- South Mission Beach Lifeguard Station will complete its design phase in FY13. The existing facility was constructed in 1974 and was intended to be a temporary lifeguard station. The structure will include an observation tower, first aid room, reception area, kitchen, locker room/restroom areas, and a separate facility for rescue vehicles and emergency equipment.

| <b>Improv Type:</b> Replacement | ecetin@sandiego.gov                     |

**Description:** This project provides for a new lifeguard station and family restroom at the Children's Pool in La Jolla. This is one of ten lifeguard projects included in the Fire-Rescue Facility Improvement Program approved by the City Council on April 16, 2002, per Council Resolution R-296359 and Ordinance O-19054.

**Justification:** The existing Lifeguard Tower structure is no longer safe and has been abandoned. It does not meet the current or future needs of Lifeguard Services. The existing facility does not provide adequate safety to the employees, and can no longer keep up with the growing community of La Jolla and the larger number of visitors every year. The scope of this project is also to remodel the existing public restrooms facilities.

**Operating Budget Impact:** Personnel expenses are expected to increase by approximately \$161,000 during construction only. Maintenance costs for the new facility are expected to increase by approximately \$5,000 annually due to the increased square footage of the new facility.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** Conceptual design is completed and approved. Building contract documents are currently in progress. A design-build contract is scheduled to be issued in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2015.

**Summary of Project Changes:** No significant change to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Replacement - Rehab | agarcia@sandiego.gov                    |

**Description:** This project provides for the replacement and/or rehabilitation of major structural and construction components in older fire facilities throughout the City. Included are electrical service upgrades, heating, ventilating and air-conditioning (HVAC), roofs, dormitory remodels, kitchen remodels, driveway and parking paving, exterior finishes and miscellaneous renovations. This is one of 12 projects included in the Fire-Rescue Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

**Justification:** The San Diego Fire-Rescue Department currently maintains 50 fire facilities. Over half of these facilities have been in service for more than 25 years. Many of the major components have exceeded their expected service life and must be replaced. The needs of modern technology and a diversified workforce also require changes in fire facility configuration, HVAC systems distribution and energy capacity.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Project Status:</b> Released    | <b>Contact Information:</b> Cetin, Elif |
| <b>Duration:</b> 2009 - 2017       | 619-533-4640                            |
| <b>Improv Type:</b> Replacement    | ecetin@sandiego.gov                     |

**Description:** This project provides for the design and construction of modifications to rehabilitate Fire Station 1 which include different floor layouts, new electrical plans, ventilation and exhaust extraction system, new roll up doors, modified asbestos abatement plans to include only portions to be disturbed as part of other improvements, modified mechanical/ventilation system designed for the new configuration, kitchen area remodel and a new accessible restroom. On March 27, 2007, the City Council approved (R-302472 and 302473) a cooperation agreement with the Redevelopment Agency for funding improvements and authorizing the expenditure of funds needed to rehabilitate Fire Station 1 in an amount not to exceed \$1.5 million. A more extensive rehabilitation will be required if the station is not replaced.

**Justification:** This 29-year-old fire station is in need of repair and renovation in order to maintain a safe and livable facility. Many of the major components have exceeded their expected service life. The needs of modern technology and a diversified workforce also require changes in fire facility configuration.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Centre City Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project was redesigned and construction started in Fiscal Year 2010. The remodeling (phase 1) is complete. Phase 2 consists of reconstruction of the portion of the station that was not remodeled. Schedule for phase 2 will be established when funding is identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

## Fire-Rescue

Fire Station No. 05 - Hillcrest / S00788

Bldg - Pub Safety - Fire Fac / Struct

|                                 |                                         |
|---------------------------------|-----------------------------------------|
| <b>Council District:</b> 3      | <b>Priority Score:</b> 80               |
| <b>Community Plan:</b> Uptown   | <b>Priority Category:</b> Medium        |
| <b>Project Status:</b> Released | <b>Contact Information:</b> Cetin, Elif |
| <b>Duration:</b> 2009 - 2015    | 619-533-4640                            |
| <b>Improv Type:</b> New         | ecetin@sandiego.gov                     |

**Description:** This project provides for an approximate 10,500 square foot fire station located at 3902 9th Avenue. The existing fire station will be demolished and replaced by a new, modern fire station. This station will house a crew of eight and one Battalion Chief. It will accommodate one engine, one aerial truck, and one Battalion Chief vehicle. This is one of 12 projects included in the Fire-Rescue Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

**Justification:** The current station is 48 years old. The water and sewer service to the existing station is deteriorating and requires immediate repairs. The station is too small to accommodate a new style fire engine and the larger type of aerial ladder truck. The current station is inadequate to serve future population growth.

**Operating Budget Impact:** Once built, the operation of the Hillcrest Fire Station will require additional positions estimated at \$1,945,937 per year. The square footage increase of this fire station will also result in increased maintenance costs estimated at \$5,000 annually. The cost of the project includes the purchase of a new Fire Engine valued at \$800,000.

**Relationship to General and Community Plans:** This project is consistent with the Uptown Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and was scheduled to be completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2015 when funding is identified

**Summary of Project Changes:** This project is anticipated to be allocated \$50,000 in Deferred Capital Bond financing from a Fiscal Year 2012 Council action which is currently routing for approval.

| <b>Project Status:</b> Created     | <b>Contact Information:</b> Cetin, Elif |
| <b>Duration:</b> 2013 - 2014       | (619) 533-4640                          |
| <b>Improv Type:</b> Expansion      | ecetin@sandiego.gov                     |

**Description:** The project provides for the expansion of the existing fire station facility to meet current department standards and operational needs (meeting room or dorm rooms) to serve the growing population. Fire Station 15 serves the community of Ocean Beach and surrounding areas and it is located at 4711 Voltaire Street.

**Justification:** Expansion of the existing station is needed to keep up with increased operational activity over the years. The project provides for the expansion of the existing fire station facility to meet current department standards and operational requirements to serve the needs of the community.

**Operating Budget Impact:** There is no anticipated impact on the existing operating budget.

**Relationship to General and Community Plans:** This project is consistent with applicable Ocean Beach plans and is in conformance with the City's General Plan.

**Schedule:** Project is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2014.

**Summary of Project Changes:** This is a newly published project in Fiscal Year 2013. This project has been allocated \$400,000 in Developer Impact Fees (DIF) funding for Fiscal Year 2013

| <b>Project Status:</b> Released                | <b>Contact Information:</b> Cetin, Elif |
| <b>Duration:</b> 2009 - 2015                   | 619-533-4640                            |
| <b>Improv Type:</b> Replacement                | ecetin@sandiego.gov                     |

**Description:** This project provides for reconstructing the 50-year-old fire station at 4206 Chamoune Avenue in the Mid-City area. The station will accommodate up to ten personnel, two fire apparatus' and one paramedic unit. This is one of 12 projects included in the Fire Rescue Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

**Justification:** Fire Station 17 is one of the busiest engine companies in the United States and is currently in a state of deterioration. Reconstruction of Fire Station 17 will allow for assignment of one additional fire crew to divide emergency response between two units.

**Operating Budget Impact:** The square footage increase of this fire station will result in increased maintenance cost of \$5,000. The cost of one additional fire engine is included in the project cost estimate. Also, the cost of one crew estimated at \$1,879,636 annually will need to be included as an operating impact.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: City Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** The project is scheduled to complete design in Fiscal Year 2013. Construction will be scheduled when funding is identified.

**Summary of Project Changes:** This project is anticipated to be allocated \$50,000 in Deferred Capital Bond financing in Fiscal Year 2013. Funding for the construction of this project is contingent upon future bond financing. The project cost and schedule will be revised when funding is identified for construction.

| <b>Duration:</b> 2009 - 2015     | 619-533-4640                            |
| <b>Improv Type:</b> Replacement  | ecetin@sandiego.gov                     |

**Description:** This project provides for the demolition of existing and reconstruction of a new station located at 1055 Catalina Boulevard in Point Loma. This is one of 12 projects included in the Fire Rescue Services Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

**Justification:** The existing fire station was built in the early 1940's and is now too small to accommodate new fire engines. Many of the major components have exceeded their expected service life. The needs of modern technology and a diversified workforce also require changes in fire facility configuration.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

**Schedule:** The project design is scheduled to be completed in Fiscal Year 2013. Construction will be scheduled upon allocation of funding.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

## Fire-Rescue

### Fire Station No. 32 - Skyline North / S00687

### Bldg - Pub Safety - Fire Fac / Struct

|                                                 |                                         |
|-------------------------------------------------|-----------------------------------------|
| <b>Council District:</b> 4                      | <b>Priority Score:</b> 81               |
| <b>Community Plan:</b> Skyline - Paradise Hills | <b>Priority Category:</b> High          |
| <b>Project Status:</b> Released                 | <b>Contact Information:</b> Cetin, Elif |
| <b>Duration:</b> 2002 - 2013                    | 619-533-4640                            |
| <b>Improv Type:</b> Betterment                  | ecetin@sandiego.gov                     |

**Description:** This project provides for an additional station, to be located at 7180 Skyline Drive, to better serve the growing community of Skyline/Paradise Hills. This is one of 12 projects included in the Fire Rescue Facility Improvement Program approved by the City Council on February 27, 2001 per Council Resolution R-294609 and amended by the City Council on April 16, 2002 per Council Ordinance O-19054. Designation for this fire station will be issued upon completion of the project.

**Justification:** An additional fire station is needed in this area to meet General Plan recommended revisions according to which: To treat medical patients and control small fires, the first-due unit should arrive within 7.5 minutes, 90 percent of the time from the receipt of the 911 call in fire dispatch.

**Operating Budget Impact:** Once built, the operation of the Skyline North Fire Station will require additional positions equivalent to \$1,864,889 per year. Non-personnel costs to operate a new station are approximately \$300,000. These funds will need to be added permanently to the Fire-Rescue budget after the project is complete.

**Relationship to General and Community Plans:** This project is consistent with the Skyline/Paradise Hills Community Plan and is in conformance with the City's General Plan.

**Schedule:** Land acquisition was completed in Fiscal Year 2010. Underground tank assessment is completed. The project is currently on hold and the schedule will be revised when funding is identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This station is located at 16966 Bernardo Center Drive at Rancho Bernardo Road. It serves the Rancho Bernardo and adjacent community areas. This project brought a major restructuring of an existing aging facility and was successfully completed during Fiscal Year 2010.

**Justification:** The existing facility was old and inadequate to accommodate staff and equipment and to serve the community efficiently. This project helps to address the General Plan recommendation according to which: to treat medical patients and control small fires, the first-due unit should arrive within 7.5 minutes, 90 percent of the time from the receipt of the 911 call in fire dispatch.

**Operating Budget Impact:** Project enhancements will result in increased maintenance cost estimated at \$5,000 annually. Funds have been identified within the existing budget

**Relationship to General and Community Plans:** This project is consistent with the Rancho Bernardo Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design was initiated and completed during Fiscal Year 2009. Fire Station enhancements were completed during Fiscal Year 2010. This project will remain open through Fiscal Year 2012 to fulfill potential warranty obligations.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

**Description:** This project provides for design and construction of approximately 500 square feet to expand the existing fire station to accommodate Emergency Medical Services (EMS) staff living quarters and increased operational needs.

**Justification:** The existing facility does not accomodate staff adequately. This project will provide for the housing of two medics who are currently housed in a rented trailer/modular building. This project will help address the General Plan recommendation according to which: to treat medical patients and control small fires, the first-due unit should arrive within 7.5 minutes, 90 percent of the time from the receipt of the 911 call in fire dispatch.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Mira Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to be completed in Fiscal Year 2012 and construction is projected to begin in Fiscal Year 2013 and finish in Fiscal Year 2015.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project is for Fire Station 42 located in Carmel Mountain Ranch Community and serves both Carmel Mountain Ranch and Sabre Springs. It was constructed in 1988 and the construction materials used for the exterior of the fire station require replacement.

**Justification:** The original construction materials used for station siding is an inferior product and the exterior of the station has worn down compromising the structure of the building.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Mountain Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction of the station was completed during Fiscal Year 1988. Repair of the siding is scheduled to begin in Fiscal Year 2012 and is anticipated to be completed in Fiscal Year 2014.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

## Fire-Rescue

Fire Station No. 45 - East Mission Valley / S00688

Bldg - Pub Safety - Fire Fac / Struct

|                                       |                                         |
|---------------------------------------|-----------------------------------------|
| <b>Council District:</b> 6            | <b>Priority Score:</b> 92               |
| <b>Community Plan:</b> Mission Valley | <b>Priority Category:</b> High          |
| <b>Project Status:</b> Released       | <b>Contact Information:</b> Cetin, Elif |
| <b>Duration:</b> 1994 - 2017          | 619-533-4640                            |
| <b>Improv Type:</b> New               | ecetin@sandiego.gov                     |

**Description:** This project provides for an updated fire station in Mission Valley. The station will accommodate up to 17 personnel, two engines, one aerial truck, two hazardous material apparatus, one paramedic ambulance, and one Battalion Chief vehicle. This is one of 12 projects included in the Fire-Rescue Facility Improvement Program approved by the Mayor and City Council on February 27, 2001 per Council Resolution R-294609 and amended by the Mayor and City Council on April 16, 2002 per Council Ordinance O-19054.

**Justification:** A fire station is needed to serve the Mission Valley community. This project is consistent with City Council policy to meet response time guidelines.

**Operating Budget Impact:** Staffing and maintenance costs for the temporary facility are reflected in the Fire-Rescue Department's Fiscal Year 2012 Adopted Budget. The operation of the permanent facility will require additional positions equivalent to \$1,864,889 per year if the facility is fully staffed in Fiscal Year 2014. Non-personnel costs to operate a new station are approximately \$300,000. These funds will need to be added permanently to the Fire-Rescue budget after the project is complete.

**Relationship to General and Community Plans:** This project is in conformance with the City's General Plan; however, the Mission Valley Community Plan does not currently provide for this project. An amendment to the Community Plan may be required prior to implementation of this project.

**Schedule:** Design is scheduled to be completed in Fiscal Year 2013. Construction is scheduled to begin when the remainder of funding is identified. A temporary facility for one engine company is located in the QUAL-COMM Stadium parking lot. The construction schedule for the permanent facility will be revised when additional funding is identified.

**Summary of Project Changes:** No significant change to this project for Fiscal Year 2013.

| <b>Project Status:</b> Technically completed   | <b>Contact Information:</b> Cetin, Elif |
| <b>Duration:</b> 2005 - 2011                   | 619-533-4640                            |
| <b>Improv Type:</b> New                        | ecetin@sandiego.gov                     |

**Description:** This project provides for a 10,500 square foot fire station to serve the Pacific Highlands Ranch community. This station has an engine and an aerial ladder truck. The project budget and funding reflect the Pacific Highlands Ranch Public Facilities Financing Plan for Fiscal Year 2006 as approved by the Mayor and City Council on December 7, 2004, per Resolution R-299980.

**Justification:** This is the second of three fire stations providing fire protection and emergency medical response in accordance with the requirements of the North City Planned Urbanizing Area.

**Operating Budget Impact:** The operation of Fire Station 47 requires additional positions to staff the station equivalent to \$1,864,889 for the first year of operation and every year thereafter. These funds will need to be added permanently to the Fire-Rescue budget. Non-personnel costs to operate a new station are approximately \$300,000 and have been identified within the Department's operating budget.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Highlands Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction of Fire Station 47 was completed in Fiscal Year 2010. Project will remain open until the developer is reimbursed which is expected to happen during Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Community Plan:</b> Otay Mesa - Nestor, Otay Mesa | <b>Priority Category:</b> High          |
| <b>Project Status:</b> Released                      | <b>Contact Information:</b> Cetin, Elif |
| <b>Duration:</b> 2002 - 2011                         | 619-533-4640                            |
| <b>Improv Type:</b> New                              | ecetin@sandiego.gov                     |

**Description:** This project provides for an approximate 10,500 square foot double-house fire station to serve the Otay Mesa and Otay Mesa/Nestor Communities. The fire station will be located across the intersection of Ocean View Hills Parkway and Sea Fire Point. and will serve the community in addition to Fire Station 6 located at 693 Twining Avenue. The fire station or facility will accommodate two fire apparatus and a paramedic ambulance.

**Justification:** A second fire station is needed to serve the Otay Mesa Community and is consistent with City Council policy to provide five minute response times to all residential areas. Funding is included in the Otay Mesa Public Facilities Financing Plan.

**Operating Budget Impact:** The operation of the Otay Mesa/Nestor Communities Fire Station will require additional positions equivalent to \$1,864,889 beginning in the first year of operation. Non-personnel costs to operate a new station are approximately \$300,000. These funds will need to be added permanently to the Fire-Rescue budget after the project is complete. Additionally, the one-time cost of one fire engine (\$1,200,000) is included in the first year operating expenses shown below.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa and Otay Mesa/Nestor Community Plans and is in conformance with the City's General Plan.

**Schedule:** Land acquisition, design, construction and acquisition of furnishings and apparatus will be scheduled once developer funding is identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for a new station in the Paradise Hills area to serve the Paradise Hills/Skyline area of San Diego. The site for this project has not been identified.

**Justification:** This station is needed to serve the Paradise Hills/Skyline community and is consistent with City Council policy to provide five-minute response times to all residential areas.

**Operating Budget Impact:** The operation of the Paradise Hills/Skyline double-house station will require additional positions equivalent to \$3,715,138 starting in Fiscal Year 2015 for the first year of operation. Also a new truck as well as a new apparatus will need to be purchased in FY2015 for a total of \$2,000,000. Non-personnel costs to operate a new double-house station are approximately \$600,000.

**Relationship to General and Community Plans:** This project is consistent with the Skyline/Paradise Hills Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction will be scheduled when funding is identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the La Jolla Cove Lifeguard Station, located at 1100 Coast Boulevard, which will be a year-round facility replacing the current station. The structure will include an observation tower, first aid room, and locker room/restroom areas for males and females. This project will also provide for an accessible ramp for the mid-landing. This is one of ten lifeguard projects included in the Fire Rescue Facility Improvement Program approved by the City Council on April 16, 2002, per Council Resolution R-296359 and Ordinance O-19054.

**Justification:** The existing facility consists of a station constructed in the 1950s and an observation tower added in 1980. It is inadequate to accommodate staff or provide adequate water safety protection.

**Operating Budget Impact:** Personnel expenses are not expected to increase; however, non-personnel expenses for utilities and on-going maintenance are estimated to increase by approximately \$5,000 per year due to an expanded facility area.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is currently in progress and scheduled to be completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 and anticipated to be completed in Fiscal Year 2015, contingent upon allocation of funding.

**Summary of Project Changes:** Deferred Capital Bond financing in the amount of \$1,320,279 will be allocated to this project for Fiscal Year 2013.

**Description:** This project provides for the La Jolla Shores Lifeguard Station located at 8100 Camino del Oro, which will be a year-round facility replacing the current station. The structure will include an observation tower, first aid room, reception area, kitchen, locker room/restroom areas for males and females, and a separate facility for rescue vehicles and emergency equipment. This is one of ten lifeguard projects included in the Fire-Rescue and Life Safety Services Facility Improvement Program approved by the Mayor and City Council on April 16, 2002, per Council Resolution R-296359 and Ordinance O-19054.

**Justification:** The existing facility was built in 1981 and is inadequate to accommodate current and future staff and to allow for adequate water safety protection to the public.

**Operating Budget Impact:** Personnel expenses are not expected to increase; however, non-personnel expenses for utilities and on-going maintenance are estimated to increase by approximately \$5,000 annually due to increased footage in the new facility.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** Final design was completed during Fiscal Year 2010. Construction began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2013

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013

| <b>Duration:</b> 2009 - 2015                 | 619-533-4640                             |
| <b>Improv Type:</b> Replacement              | agarcia@sandiego.gov                     |

**Description:** This project provides for construction of the Lifeguard Headquarters located at 2581 Quivira Court. The replacement facility will house lifeguards 24-hour-year-round, mechanics, administrative and training staff and will provide an operation yard and storage for the rescue fleet. Construction of this lifeguard facility will occur in two phases. Phase I to replace the emergency dock has been completed. This is one of ten lifeguard projects included in the Fire Rescue Facility Improvement Program approved by the City Council on April 16, 2002, per Council Resolution R-296359 and Ordinance O-19054.

**Justification:** The existing facility was constructed in 1956 and is inadequate to accommodate staff and equipment. Many of the major components have exceeded their expected service life. The needs of modern technology and a diversified workforce also require changes in fire facility configuration.

**Operating Budget Impact:** Personnel expenses are not expected to increase; however, non-personnel expenses for utilities and on-going maintenance are estimated to increase by approximately \$8,000.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction of the Lifeguard Headquarters facility have been deferred due to lack of funds.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

**Description:** This project provides for remodeling the existing Mission Beach Station located at 3141 Oceanfront Walk. This is one of ten lifeguard projects included in the Fire-Rescue Facility Improvement Program approved by the Mayor and City Council on April 16, 2002 per Council Resolution R-296359 and Ordinance O-19054.

**Justification:** The existing facility consists of a station constructed in 1974 and does not accommodate changing workforce demographics. This is the beach that historically gets the highest attendance within the City of San Diego and a remodeling is necessary to accommodate the large and growing community.

**Operating Budget Impact:** Personnel expenses are not expected to increase; however, non-personnel expenses for utilities or on-going maintenance are estimated to increase by approximately \$5,000 annually due to new and expanded facilities

**Relationship to General and Community Plans:** This project is consistent with the Mission Beach Precise Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 and to be completed during Fiscal Year 2015.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Project Status:</b> Released      | <b>Contact Information:</b> Cetin, Elif |
| <b>Duration:</b> 2011 - 2016         | 619-533-4640                            |
| <b>Improv Type:</b> Replacement      | ecetin@sandiego.gov                     |

**Description:** This project provides for the North Pacific Beach Lifeguard Station located at the foot of Chalcidony Street, which will be a year-round facility replacing the current seasonal station. The structure will include an observation tower, first aid room, reception area, kitchen, locker room/restroom areas for males and females, and a garage for rescue vehicles and emergency equipment.

**Justification:** North Pacific Beach has become a highly frequented beach over the years and new facilities will benefit both the public and the employees. Lifeguards are currently operating from a seasonal tower structure supported by a container-type of facility where medical aids and other daily activities like food preparation take place. This can create health issues for both the public and the employees.

**Operating Budget Impact:** Added maintenance costs for this facility are estimated at \$8,000 per year.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Beach Community Plan and is in conformance with the City's General Plan

**Schedule:** Design was scheduled to begin in Fiscal Year 2012. Construction will be scheduled upon identification of funding.

**Summary of Project Changes:** City Council Resolution R-307095, dated November 17, 2011, authorized the reallocation of bond financing and resulted in the decrease of \$400,000 from this project. Funding will be reallocated when construction is initiated.

**Description:** This project provides for the Ocean Beach Station located at 1950 Abbott Street. This will be a year-round facility replacing the current station. The structure will include an observation tower, first aid room, reception area, kitchen, locker room/restroom areas for males and females, and a garage for rescue vehicles and emergency equipment.

**Justification:** The existing facility consists of a station constructed in 1980. Since that time, the beach has become a very popular area for swimming and surfing. The existing station is inadequate to accommodate staff and equipment. This project will result in a more effective deployment of Lifeguard personnel and equipment therefore improving the safety of the public and the community

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Ocean Beach Community Plan and is in conformance with the City's General Plan

**Schedule:** Project is temporarily on hold. A revised design and construction schedule will be determined once funding is identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project will provide for the replacement of the Fire In-Station Alerting System at fire stations Citywide. The current alerting system technology is 21 years old and is no longer in service forcing the department to rely upon a back-up system.

**Justification:** The current in-station alerting system is 21 years old and no longer in service. This project will help address revisions in the General Plan according to which: to treat medical patients and control small fires, the first-due unit should arrive within 7.5 minutes, 90 percent of the time from the receipt of the 911 call in fire dispatch.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Replacement of the system Citywide is estimated to begin in Fiscal Year 2012 and to be completed in Fiscal Year 2014.

**Summary of Project Changes:** As a result of the Fiscal Year 2012 Mid-year Appropriation Adjustments, this project will be fully funded by CIP Contributions from General Fund. Total project cost increased by \$2.7 million per City Resolution R-307312 approved on March 14, 2012.

**Description:** The project provides for the South Mission Beach Station located at 700 North Jetty Road which will be a year-round facility replacing the current station. The new structure will include an observation tower, first aid room, reception area, kitchen, locker room and restroom areas for males and females, and a rescue vehicle and emergency equipment facility. This is one of ten lifeguard projects included in the Fire-Rescue Facility Improvement Program approved by the Mayor and City Council on April 16, 2002 per Council Resolution R-296359 and Ordinance O-19054.

**Justification:** The existing facility was constructed in 1974 and was intended to be a temporary lifeguard station. It is inadequate to accommodate staff or to provide adequate water safety protection.

**Operating Budget Impact:** Personnel expenses are not expected to increase; however, non-personnel expenses for utilities and on-going maintenance are estimated to increase by approximately \$5,000 annually due to increased area in the new facility.

**Relationship to General and Community Plans:** This project is consistent with the Mission Beach Precise Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to be completed in Fiscal Year 2012. Construction will be scheduled once funding is identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| Fire Station No. 01 - Downtown / S00786            | 6,317,116     | 5,800,000            | 91.8%            | This project provides for asbestos removal, dormitory remodel and a new exhaust extraction system at the fire station located at 1222 First Avenue in Downtown. The total estimated project cost of \$6.3 million includes an unfunded amount of \$5.8 million that would be used for reconstruction. Modified/Reduced remodel scope has been completed for Phase 1 and unidentified funds still needed for a full phase 2 remodel unless a new fire station is constructed as part of new Civic Center. |
| Fire Station No. 05 - Hillcrest / S00788           | 9,020,000     | 8,128,077            | 90.1%            | This project provides for an approximate 10,500 square foot fire station located at 3902 9th Avenue. The existing fire station will be demolished and replaced by a new, modern fire station. Construction funding for this project has not yet been identified.                                                                                                                                                                                                                                         |
| Fire Station No. 17 - Mid-City / S00783            | 8,670,000     | 7,886,376            | 91.0%            | This project provides for reconstructing the 50-year-old fire station at 4206 Chamoune Avenue in the Mid-City area. Construction funding for this project has not yet been identified.                                                                                                                                                                                                                                                                                                                   |
| Fire Station No. 22 - Point Loma / S00787          | 5,638,000     | 4,679,839            | 83.0%            | This project provides for the reconstruction of Fire Station 22, located at 1055 Catalina Boulevard in Point Loma. Construction funding for this project has not been identified.                                                                                                                                                                                                                                                                                                                        |
| Fire Station No. 32 - Skyline North / S00687       | 9,153,325     | 8,162,149            | 89.2%            | This project provides for a new station, in addition to the existing Fire Station 32 located at 484 Briarwood Road, to better serve the growing community of Skyline/Paradise Hills. Design and construction phases are currently unfunded.                                                                                                                                                                                                                                                              |
| Fire Station No. 45 - East Mission Valley / S00688 | 12,016,400    | 4,877,708            | 40.6%            | This project provides for a new fire station in Mission Valley. The station will accommodate up to 17 personnel, two engines, one aerial truck, two hazardous material apparatus, one paramedic ambulance, and one Battalion Chief vehicle. Cost shown includes \$1.2M needed to purchase one Fire Truck.                                                                                                                                                                                                |
| Fire Station No. 54 - Paradise Hills / S00785      | 10,295,000    | 10,211,065           | 99.2%            | This project provides for a new station in the Paradise Hills area to serve the Paradise Hills/Skyline area of San Diego. Design and construction phases are currently unfunded.                                                                                                                                                                                                                                                                                                                         |
| Lifeguard Station Headquarters / S00794            | 12,411,286    | 10,000,000           | 80.6%            | This project provides for the replacement of the Lifeguard Headquarters and Boating Safety Unit Dock located at 2581 Quivira Court. Design and construction phases are currently unfunded.                                                                                                                                                                                                                                                                                                               |
| North Pacific Beach Lifeguard Station / S10119     | 4,675,444     | 4,185,444            | 89.5%            | This project provides for the North Pacific Beach Lifeguard Station located at the foot of Chalcedony Street, which will be a year-round facility replacing the current seasonal station. Construction phase is currently unfunded.                                                                                                                                                                                                                                                                      |
| Ocean Beach Lifeguard Station / S10121             | 4,560,000     | 4,550,000            | 99.8%            | This project provides for the Ocean Beach Station located at 1950 Abbott Street. Funding for design and construction of the facility is unidentified.                                                                                                                                                                                                                                                                                                                                                    |

# Library

The Library Department serves a population of over 1.3 million residents of the City of San Diego. Creating and maintaining facilities that are valued for their accessibility, comfort, and beauty is a high priority of the Department. The Capital Improvements Program plays an important role in providing new facilities and addressing the capital needs of existing facilities. The Library System includes the Central Library and 35 branch libraries. The premier project for the Library Department is the San Diego New Central Library. This will be an iconic facility, large enough to accommodate the needs of the citizens of San Diego for 20 years, with space to accommodate an additional 30 years of growth.

## 2012 CIP Accomplishments

With its focus on the San Diego New Central Library, the Department has kept close track of milestones for the project which include:

- August 2011 - The construction of the deck for the third floor was complete, along with mechanical, electrical and plumbing work for the two parking levels.
- September 2011 - The concrete for the vertical columns on the fourth floor were poured and work on the elevators began, along with mechanical, electrical and plumbing work for the first floor.
- October 2011 - Construction of the fifth floor of the library was completed and concrete was being poured on level six. Framing for walls on level one was also completed.
- November 2011 - The final concrete pour for level six of the library was completed, interior walls were framed on level two, and glass installation was initiated.
- December 2011 - Concrete was poured on the library's eighth floor.
- February 2012 - "E-Day" was the beginning of the dome erection. Structural operations included pouring the special events columns on the ninth floor, and placing the steel for the three story glass reading room.
- March 2012 - The first rib of the library dome was set, fire sprinklers were installed up to the fifth floor, and grand beams were set on upper floors.
- April 2012 - The first dome sail was set and 57.6% of the building construction was complete.
- May 2012 - The interior construction was fully underway, with the beginning of drywall installation. Dome sails were set on schedule.
- June 2012 - Interior construction work through the eighth floor was 85% complete for mechanical, electrical and plumbing systems, and 80% complete on the ninth floor. The south and final sail was set on the iconic dome of the Central Library.

## 2013 CIP Goals

The Library Department is looking forward to Fiscal Year 2013 with the following goals:

- The San Diego New Central Library will open as scheduled during the summer of 2013 thanks to an additional \$10 million in private funds that have been donated to cover additional operating costs.
- With the funding for the San Diego New Central Library secure, the Library Department will shift its focus to identifying funding for projects at branch libraries including the Skyline Hills Branch Library expansion project and the new San Ysidro Branch Library project which will both provide needed resources to their respective communities.

**Description:** This project provides for a new 15,000 square-foot branch library on the current site to replace the existing facility at 4255 Mount Abernathy. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

**Justification:** The existing undersized facility has no meeting room, computer lab, nor adequate seating to provide adequate library services to the community.

**Operating Budget Impact:** The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council. The non-personnel expense increase is required to fund ongoing maintenance and contractual services for the additional square footage.

**Relationship to General and Community Plans:** This project is consistent with the Clairemont Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Schematic design began in Fiscal Year 2003 and ended in Fiscal Year 2011. Construction is estimated to begin when funding is identified. The estimated cost and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding becomes available.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides the needed upgrades and Americans with Disabilities Act (ADA) improvements to the curb ramps, entrance ramps, entry doors and access from the parking lot.

**Justification:** These improvements are necessary to comply with ADA accessibility to the libraries.

**Operating Budget Impact:** Operation and maintenance funding for this facility was previously included in the Library Department budget.

**Relationship to General and Community Plans:** This project is consistent with the Clairemont Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** ADA improvements were completed in Fiscal Year 2010.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

**Description:** This project provides for a 2,000 square-foot expansion of the existing building at 4121 Adams Avenue. This project will benefit the Kensington/Normal Heights residents.

**Justification:** The expansion is to provide adequate library services to the community. The Kensington/Normal Heights Branch Library is the smallest branch in the Library System. The community has expressed a desire for the library to remain at the same location.

**Operating Budget Impact:** The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

**Relationship to General and Community Plans:** This project is consistent with the Kensington-Talmadge (Mid-City) Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary design and site studies were performed in Fiscal Years 2002 through 2005. The estimated cost and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for re-labeling all library materials with Radio Frequency Identification (RFID) tags, purchasing self checks and security gates that will detect the RFID tags/signals and where cost effective, modify existing equipment to detect the RFID tag/signal.

**Justification:** All library materials that are checked out to the public are currently labeled with barcodes. RFID technology offers enhanced security, ergonomic benefits, and lends itself better to automation and self service in libraries; all critical considerations for the Library. Barcodes were once the industry standard for labeling items, however increasingly libraries are adding RFID tags/signals. Increased efficiency and better customer service are primary reasons for adopting RFID technology. RFID increases the speed of circulation as multiple items can be checked out/checked in simultaneously, rather than one by one as in barcode technology. Hand-held RFID readers can also assist staff in the stacks allowing for faster processing of holds, weeding the collection, and performing materials inventory tasks. RFID technology coupled with materials handling systems enhances the speed with which items are back on the shelf and available for check-out.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** There are no design and construction schedules associated with this project. Phase 1 will involve conversion of the Central Library and Centralized Services, and is anticipated to be completed in Fiscal Year 2013. Phase 2 will involve the conversion of the Branch Library collection, and is scheduled to begin in Fiscal Year 2014 for completion in Fiscal Year 2016. The Library will start the formal procurement process for ordering the equipment/supplies necessary to start the RFID project and complete the purchase by the end of Fiscal Year 2012. Once the equipment and supplies arrive, the Library will begin tagging the library materials. This labor intensive task should be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Betterment                | agarcia@sandiego.gov                     |

**Description:** This project provides for a new 25,000 square-foot library at 28th Street and Ocean View Boulevard to serve the Logan Heights Community between the elementary school and the Memorial Charter Middle School. This project was awarded a grant under the State Library Bond Act.

**Justification:** The Logan Heights Branch Library, located at 811 South 28th Street in the heart of Logan Heights, was built in 1927 and serves a community of 28,883. The 3,967 square foot building has no meeting rooms or a computer lab for its residents and work spaces for staff are very constrained. Updating the existing telecommunications infrastructure is not feasible in the existing facility due to its age and inadequate size. In addition, there is no on-site parking.

**Operating Budget Impact:** Operation and maintenance funding for this facility was previously included in the Library Department budget.

**Relationship to General and Community Plans:** This project is consistent with the Southeastern San Diego Community Plan and is in conformance with the City's General Plan.

**Schedule:** Project was initiated in Fiscal Year 2001. Design started in Fiscal Year 2002 and was completed in Fiscal Year 2007. Phase I construction started in Fiscal Year 2005 and was completed in Fiscal Year 2006. Phase II construction started in Fiscal Year 2007 and was completed in Fiscal Year 2009.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

| <b>Project Status:</b> Technically completed | <b>Contact Information:</b> Cetin, Elif |
| <b>Duration:</b> 2009 - 2017                 | 619-533-4640                            |
| <b>Improv Type:</b> Replacement              | ecetin@sandiego.gov                     |

**Description:** This project provides for a 20,000 square-foot library at a site adjacent to the Florence Elementary School, on a block bounded by Front Street, Washington Street, Albatross Street and University Avenue. This project will serve the Mission Hills and Hillcrest neighborhoods and is part of the 21st Century Library System/Library Department Facility Improvements Program.

**Justification:** The existing facility has no meeting room, computer lab, nor adequate seating and collection space to provide adequate library services to the community.

**Operating Budget Impact:** The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council (R-296900). The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

**Relationship to General and Community Plans:** The project is consistent with the Uptown Community Plan for promoting a high level of library services, but will require a technical amendment to re-designate the site from Commercial-Mixed use to Institutional-Library. This will be included during the Uptown Community Plan Update process.

**Schedule:** Preliminary studies and design concepts began in Fiscal Year 2001. Land acquisition was completed in Fiscal Year 2004 and design work began in Fiscal Year 2006. The estimated cost and schedule for this project was developed in Fiscal Year 2003 and will be revised when funding is identified.

**Summary of Project Changes:** No significant change to this project for Fiscal Year 2013.

**Description:** This project provides the needed upgrades and Americans with Disabilities Act (ADA) improvements to the curb ramps, entrances, door replacements and the access route from the parking lot to ensure accessibility.

**Justification:** These improvements are necessary to comply with ADA accessibility to the libraries.

**Operating Budget Impact:** Operation and maintenance funding for this facility was previously included in the Library Department budget.

**Relationship to General and Community Plans:** This project is consistent with the Clairemont Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** The design began in Fiscal Year 2008 and construction was completed in Fiscal Year 2010.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

**Description:** This project provides for a new 25,000 square-foot library to replace the existing facility at 3795 31st Street. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

**Justification:** The existing facility has no meeting room, computer lab, nor adequate seating and collection space to provide adequate library services to the community.

**Operating Budget Impact:** The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council. The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

**Relationship to General and Community Plans:** This project is consistent with the Greater North Park Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary studies and meetings with the community were completed in Fiscal Year 2004. A Request for Proposal process was completed in Fiscal Year 2005, but did not result in a redevelopment agreement. The estimated cost and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

**Summary of Project Changes:** A City Council action will be routed in Fiscal Year 2012 in order to close this project, and merge into S00798, North Park Library. It is anticipated that this project page will no longer be published for Fiscal Year 2014 and beyond.

**Description:** This project provides for a 15,000 square-foot library using the current site and adjacent property to serve the Ocean Beach community. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

**Justification:** The existing facility was originally built in 1927 and has no meeting room, computer lab, nor adequate seating and collection space to provide adequate library services to the community.

**Operating Budget Impact:** The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council (R-296900). The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

**Relationship to General and Community Plans:** This project is consistent with the Ocean Beach Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary studies and design concepts began in Fiscal Year 2001. Property acquisition and design were completed in Fiscal Year 2005. Revision of the design documents is in progress. \$75,000 of Development Impact Funds were added in Fiscal Year 2010. The estimated cost and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New          | cmeinhardt@sandiego.gov                        |

**Description:** This project provides for a 15,000 square foot branch library on a three acre site to serve the Otay Mesa/East Community.

**Justification:** This project will provide branch library service to the Otay Mesa/East Community for future development and population.

**Operating Budget Impact:** The personnel operating budget impact is based on the increase in staffing necessary to bring the staffing level up to the standard set in the Branch Facilities Report approved by Council. The non-personnel operating budget impact is based on an average amount per increased square footage necessary to fund ongoing maintenance and contractual services required to operate the facility.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** The project schedule will be developed once Facilities Benefit Assessment (FBA) funding has been identified and received.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for a 2,500 square-foot expansion to the existing branch library at 17110 Bernardo Center Drive. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

**Justification:** The existing facility does not have a computer lab and additional seating and collection space would enhance service to the community.

**Operating Budget Impact:** The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Bernardo Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary studies and design concepts took place in Fiscal Years 2004 and 2005. The estimated construction cost and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Project Status:</b> Released    | <b>Contact Information:</b> Meinhardt, Cynthia |
| <b>Duration:</b> 1996 - 2014       | 619-533-5259                                   |
| <b>Improv Type:</b> Betterment     | cmeinhardt@sandiego.gov                        |

**Description:** This project provides for the design and construction of a new Central Library of approximately 500,000 square feet, with approximately 250 underground parking spaces dedicated to library patrons. It will be large enough to accommodate library needs for 20 years and contain expansion space to accommodate growth for an additional 30 years. The expansion space will be leased for 40 years by San Diego Unified School District for a Charter High School. The lobby will be open to the courtyard, which will contain an outdoor café, and there will be a 350-seat auditorium adjacent to the lobby. The top floor will house special collections and provide public amenities including an airy reading room, a 400-seat multi-purpose room, an art gallery, a small public meeting room, and a series of open terraces.

**Justification:** The existing library is too small to provide adequate library and informational services to the library system and the region, and cannot support the technological and programmatic needs of the future.

**Operating Budget Impact:** The operating budget impact has been estimated. One additional staff is requested as a result of organizational changes, efficiencies and technologies that can be implemented in the new facility. However, the non-personnel costs (NPE) show an increase to maintain a larger building. In fiscal year 2014 an additional \$2.7 million will be needed to cover the NPE costs of the larger building, over 200,000 square feet more than the current Central Library. These operating costs will be offset in part by project-related revenue, which is incorporated in the cost of the project in the amount of \$825,000 per year bringing the revenue to a total of \$2,825,000 a year. Also, the Library Foundation will contribute \$2.0 million per year for the first five years of operation.

**Relationship to General and Community Plans:** This project is consistent with the Centre City Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2001 and was completed in Fiscal Year 2010. Library construction began August 2, 2010 and is scheduled to be completed in Fiscal Year 2013 pending receipt of private donations for Phase II. The library is scheduled to open early Fiscal Year 2014.

**Summary of Project Changes:** Private donations in the amount of \$32,512,092 were received and appropriated to this project in Fiscal Year 2012, per City Council Resolution R-305941. No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for a 15,000 square-foot facility to serve the San Ysidro Community. This project is part of the 21st Century System/Library Department Facility Improvements Program.

**Justification:** The existing 4,089 square foot library was built in 1924 and was remodeled in 1983. It contains no meeting rooms or computer lab, no on-site parking, and no separation of the children's area and quiet study areas to serve the current and projected needs of the community.

**Operating Budget Impact:** The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council (R-296900). The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

**Relationship to General and Community Plans:** This project is consistent with the San Ysidro Community Plan and is in conformance with the City's General Plan.

**Schedule:** The preliminary study began in Fiscal Year 2010. The estimated construction cost and schedule for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

**Summary of Project Changes:** This project will receive \$1.8 million in Deferred Capital Bond financing from a Fiscal Year 2012 Council action.

**Description:** This project provides for an expansion of the Scripps Ranch Branch Library parking lot located at 10301 Scripps Lake Drive. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

**Justification:** The current facility is fully occupied and the current parking lot does not have the capacity to serve the needs of the community.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary inquiries were made of available properties in Fiscal Year 2004. The estimated construction cost and schedule for this project were developed in Fiscal Year 2003 and will continue once funding is received.

**Summary of Project Changes:** This project is one and the same as S01035-Scripps Miramar Ranch Parking. A City Council action will be routed in Fiscal Year 2012 in order to close S01035, and merge into this project, S00811-Scripps Miramar Ranch Library. No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for a 15,000 square-foot library on City-owned property located on the 8900 block of Aero Drive to serve the Serra Mesa and Kearny Mesa communities. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

**Justification:** The existing library is too small to provide adequate library services to this community. It contains no meeting room facilities and computer lab, inadequate parking, and no separation for the children's area and quiet study areas.

**Operating Budget Impact:** None. Operation and maintenance funding for this project was previously included in the Library Department budget.

**Relationship to General and Community Plans:** This project is consistent with the Serra Mesa and Kearny Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 1998 and was completed in Fiscal Year 2004. Construction began and was completed in Fiscal Year 2005. The library opened in the summer of 2006.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

**Description:** This project provides for a 15,000 square-foot library expansion to the existing facility located at 480 South Meadowbrook Drive. This project is part of the 21st Century Library System/Library Department Facility Improvements Program.

**Justification:** The existing facility is too small to provide adequate library services to the community. There are no meeting room facilities or computer lab, and limited collection space and patron seating.

**Operating Budget Impact:** The personnel increase reflects the staffing necessary to meet the standard set in the Branch Facilities Report approved by City Council. The non-personnel increase is required to fund ongoing maintenance and contractual services for the additional square footage.

**Relationship to General and Community Plans:** This project is consistent with the Skyline/Paradise Hills Community Plan and is in conformance with the City's General Plan.

**Schedule:** Land acquisition was completed in Fiscal Year 2004. Design and construction schedules for this project were developed in Fiscal Year 2003 and will be revised when funding is identified.

**Summary of Project Changes:** This project will receive \$5.0 million in Deferred Capital Bond financing from City Council action in Fiscal Year 2012.

**Description:** This project provides the needed upgrades and ADA compliance improvements to the curb ramps, entrances, door replacements and access route from the parking lot to ensure accessibility under the Americans with Disabilities Act (ADA).

**Justification:** These improvements are necessary to provide ADA accessibility to the libraries. The existing entry doors did not have electrical door openers, the ramps did not meet with the ADA specifications and requirements and the path from the parking lot also does not meet all of the current ADA requirements.

**Operating Budget Impact:** Operation and maintenance funding for this facility was previously included in the Library Department budget.

**Relationship to General and Community Plans:** This project is consistent with the Skyline Paradise Hills Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2008, and construction was completed in Fiscal Year 2010.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

## **Office of the Chief Operating Officer**

## **Office of the Chief Operating Officer**

The Capital Improvements Program Emergency Reserve annual allocation provides an immediate source of funding for public works contracts in order to respond quickly to an emergency or natural disaster.

Emergency Project funding is under the purview of the Chief Operating Officer who must approve use of the funds.

## **2012 CIP Accomplishments**

As a result of the Fiscal Year 2012 Mid-Year Appropriation Adjustments, per City Resolution R-307312 approved on March 14, 2012, this project was funded by the General Fund.

**Description:** This annual allocation provides funding for urgent repairs due to an emergency or natural disaster.

**Justification:** This annual allocation provides an immediate source of funding for public works contracts in order to respond quickly to an emergency or natural disaster.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled as-needed.

**Summary of Project Changes:** As a result of the Fiscal Year 2012 Mid-Year Appropriation Adjustments, per City Resolution R-307312 approved on March 14, 2012, this project has received \$1,000,000 in CIP Contributions from General Fund.

## **Park & Recreation**

## Park & Recreation

The Park and Recreation Department oversees more than 39,000 acres of developed parks, open space and aquatic areas throughout the City. These facilities provide a wide-range of recreational opportunities for San Diego citizens and visitors alike. The Capital Improvement Program plays an important role in providing new facilities and addressing deferred maintenance of existing facilities. In order to meet our goal of providing quality parks and programs, it is important to continually invest in capital improvements to keep park facilities available for recreational activities and safe to use. With 55 recreation centers, 13 aquatic centers, 250 playgrounds in approximately 300 developed parks, the Department continually seeks funding for capital improvements ranging from roof replacements to playground upgrades. Department projects are funded by a variety of sources, including facilities benefit assessments, park development fees, development impact fees, maintenance assessment district fees, Mission Bay lease revenue, golf course enterprise funds, private donations and State and federal grants.

## 2012 CIP Accomplishments

In Fiscal Year 2012, the Park and Recreation Department completed many capital improvements within the overall park system. These improvements included:

- The Balboa Park Golf Course received a new state of the art irrigation system. While the irrigation system itself is not highly visible to golf course patrons, it has had a positive impact on the course. The new irrigation system has reduced the amount of water needed to maintain the course, eased maintenance of the course, enhanced playability and improved the appearance of the entire golf course. This important capital improvement will encourage more people to play Balboa Park Golf Course and opens up future tournament opportunities.
- Capital improvements have addressed needed roof and HVAC system repairs at seven park buildings, including the iconic, historic domed roof at the Museum of Man in Balboa Park.
- The Martin Luther King, Jr., swimming pool and building received ADA upgrades making the facility easily accessible for pool patrons with physical disabilities.
- A new joint use facility with the San Diego Unified School District opened which includes a 1.3 acre synthetic turf field. This facility will serve the children of the Language Academy during school hours and will be opened to the public for recreational use on weekends and non-school hours.
- Two mini parks were completed, one in Mission Hills and one in Ocean Beach. The Ocean Beach Gateway mini park is located at the intersection of Sunset Cliffs Boulevard and West Point Loma Boulevard and acts as an enhanced gateway into the community of Ocean Beach. Eventually, the Ocean Beach Gateway mini park will connect to the Ocean Beach Athletic Area, Robb Field. The Mission Hills Mini Park is located in a very dense residential neighborhood and will offer a small pocket of useable open space at the top of a neighborhood canyon. It includes interpretive signage on the history of Mission Hills and of the wild-life which frequent the adjacent canyon.

## Park & Recreation

### 2013 CIP Goals

The Park and Recreation Department is looking forward to Fiscal Year 2013 which include a number and variety of capital improvement projects slated for construction and those which will begin design.

- The Memorial Community Park swimming pool will be completely reconstructed in Fiscal Year 2013. The size of the pool will be enlarged to accommodate more aquatic recreation activities, including high school water polo. The project also includes a larger deck area and a splash play area for young children.
- The iconic California Tower in Balboa Park will begin the first phase of its seismic retrofit construction. The California Tower is one of the most photographed structures in San Diego and has been standing for almost 100 years.
- The new Ocean Beach comfort station will be open for summer beach goers in 2013. The original comfort station had to be demolished because it had become unsafe due to structural deterioration. The new comfort station will be open, airy and designed to fit the unique character of Ocean Beach.
- Eight children's playgrounds will be upgraded to meet current accessibility and safety standards. One of these will be at Lake Murray Community Park. The community has been heavily involved in the design of the playground and has been fund raising for several years in a collaboration between the City and the Navajo community.
- Four park facilities will receive ADA upgrades to make them easily accessible to park users with physical disabilities. These include Silver Wing Neighborhood Park, View West Neighborhood Park, Colina del Sol Community Park and the Vista Terrace Pool.
- The elevators in several Balboa Park buildings will receive elevator upgrades enhancing accessibility and reliability.
- Mission Trails Regional Park will receive a new equestrian staging area with a comfort station.
- The design of new sports field lighting will be completed for Rancho Bernardo Community Park and San Ysidro Athletic Area (Larsen Field). When installed, the lights will extend the hours of use for athletic activities at each of these heavily-used parks.
- Joint use facilities at Wegeforth Elementary and Angier Elementary in Linda Vista will complete the design phase in Fiscal Year 2013 while the construction of joint use facilities will be completed at Roosevelt Jr. High School.

**Description:** This project provides for upgrades to the Mid City Community Gym facility in accordance with the Americans with Disabilities Act (ADA) standards, including replacing sidewalks and curb ramps, replacing restroom doors, office doors, door handles, repaving existing lot and repainting parking stalls for Americans with Disabilities Act (ADA) parking.

**Justification:** Accessibility upgrades are necessary to meet Americans with Disabilities Act (ADA) and Title 24 requirements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: City Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction were completed in Fiscal Year 2011.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

**Description:** This project provides for the design and construction of 3.95 acres at Angier Elementary School for joint use facilities to supplement existing park acreage in the Serra Mesa Community. Improvements may include turfed multi-purpose sports fields, multi-purpose courts, walkways, landscaping, and accessibility upgrades.

**Justification:** This project will contribute to satisfying the population-based park acreage requirements set forth in the City's General Plan in an area that is park deficient. The project will provide multi-purpose sports fields and associated infrastructure that will provide the community with safer park conditions.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$46,200 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as all amenities and unique site characteristics are refined.

**Relationship to General and Community Plans:** This project is consistent with the Serra Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design of the project is 60% complete. Construction is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** Serra Mesa Developer Impact Fees in the amount of \$477,000 were authorized via Council Resolution #307069 and will be allocated to this project in Fiscal Year 2013.

**Description:** This annual allocation provides for the reconstruction of historic structures in Balboa Park. Projects within this annual allocation include: reconstructing the historic West Arcade along the north side of El Prado between the Museum of Man and Museum of Art; restoring the historic ornamentation on the Museum of Man frontpiece and California Tower; restoring the historic ornamentation on the Museum of Art frontpiece and ten window surrounds; minor repairs to the reconstructed ornamentation on the Casa del Prado building and theater; construction of Phase 1 of the Veterans Memorial Garden on approximately one acre of park land adjacent to the Veterans Museum and Memorial Center; and conducting a study of the California Tower for seismic resistance, including construction documents, specifications, and cost estimates for construction.

**Justification:** This project will provide for the reconstruction of historic structures in Balboa Park which will enhance the structures and will increase park user experience.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** These projects are consistent with the Balboa Park Master Plan, Central Mesa Precise Plan and are in conformance with the City's General Plan.

**Schedule:** The West Arcade Reconstruction, Museum of Man/California Tower Ornamentation, Museum of Art Ornamentation, Veteran's Memorial Garden, and California Tower Seismic Retrofit Study projects are complete. The Casa del Prado Ornamentation Project still has some outstanding jobs and is in progress.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides for unexpected replacement of minor capital assets on an as-needed basis at the City's Municipal Golf Course - Balboa Park which may include minor replacements of existing golf course building structures and golf course fairway and green systems.

**Justification:** This annual allocation will provide for a capital assets cost-avoidance program allowing for timely replacement of unanticipated failure of golf capital assets.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Balboa Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design and replacement of minor capital assets will be implemented on an as-needed basis.

**Summary of Project Changes:** The Balboa Park Golf Course will receive \$700,000 in funding for Fiscal Year 2013. Annual allocation funding for future fiscal years will be determined in Fiscal Year 2013 based on actual expenditures information and assessment of future capital infrastructure needs.

**Description:** This project provides for revisions to the existing Balboa Park Master Plan to accommodate the design and construction of a new clubhouse, restoration of the existing historic clubhouse, and a new parking lot at the Balboa Park Golf Course.

**Justification:** Currently the clubhouse is inadequate and there is insufficient parking available to serve users of the golf course.

**Operating Budget Impact:** The operating budget impact for the additional parking, the restored clubhouse, and the new clubhouse will be determined as the design is finalized.

**Relationship to General and Community Plans:** This project is consistent with the Balboa Park Master Plan, East Mesa Precise Plan, and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for a new irrigation system for the 18-hole and 9-hole golf courses at Balboa Park.

**Justification:** The existing irrigation system is antiquated, deteriorated, and inefficient.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Balboa Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2011. Construction began in Fiscal Year 2011 and was completed in Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Duration:</b> 2002 - 2011                      | 619-236-6488                                       |
| <b>Improv Type:</b> New                           | amhiggs@sanidiego.gov                              |

**Description:** This project provides for a new open-air, multiple-use baseball facility in downtown San Diego with approximately 42,000 fixed seats and an Outfield Park, and for the associated infrastructure improvements. Infrastructure improvements include parking, new realigned and repaved roadways, relocation of utilities, storm drain improvements, and streetscape and landscape improvements. The ballpark site is bounded by 7th Avenue, J Street, 10th Avenue, and Harbor Drive. This project is part of a larger redevelopment effort.

**Justification:** On November 3, 1998, San Diego voters approved a proposition allowing the City to enter into an agreement with the San Diego Padres to redevelop the eastern area of downtown with a multiple-use ballpark as the anchor tenant. Subject to the provisions of this agreement, the City shall provide not more than \$225,000,000 toward the construction of the Ballpark Project. The City's contribution will be made from the proceeds from a lease revenue bond type financing and cash.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Centre City Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and land acquisition began in Fiscal Year 1999. Construction began in Fiscal Year 2000, was suspended in October 2000 due to certain outstanding litigation related to the project, and re-commenced in February 2002. The project was completed in April 2004.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

| <b>Duration:</b> 2002 - 2014                 | 619-525-8233                                   |
| <b>Improv Type:</b> Replacement              | hgreenstein@sandiego.gov                       |

**Description:** This project provides for the acquisition, design, and construction of approximately 12.6 useable acres, out of approximately 43 total acres, for a community and neighborhood park on Beyer Boulevard.

**Justification:** This project provides population-based park acreage in accordance with the City's General Plan standards to accommodate the park and recreational needs of the residents within the Otay Mesa and San Ysidro Communities.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The project's final design has not been approved, therefore, the current cost estimate of \$147,000 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the San Ysidro Community Plan and will be included in the Otay Mesa Community Plan as part of the community plan update process. The project is in conformance with the City's General Plan.

**Schedule:** Land acquisition was completed in Fiscal Year 2002. Preliminary design was completed in Fiscal Year 2008, however this project will not be completed within the next five years. Design and construction schedules are dependent upon the actual rate of development within the Otay Mesa and San Ysidro Communities. Design and construction will be scheduled and completed when funding is available.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project will provide for the lighting of medians located within the Bird Rock Maintenance Assessment District.

**Justification:** Median street lighting will provide illumination of planting and trees within Bird Rock along La Jolla Boulevard. Street lighting within the boundaries of the Bird Rock Maintenance Assessment District is an identified improvement in accordance with the Assessment Engineer's Report.

**Operating Budget Impact:** The Bird Rock Maintenance Assessment District will provide for maintenance and energy costs associated with the enhanced street lighting. The operating budget impact to the Maintenance Assessment District will be estimated when design is complete.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and it is in conformance with the City's General Plan.

**Schedule:** Construction began and was completed in Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for preparation of a cultural and historical resources survey and management plan in Black Mountain Open Space Park.

**Justification:** The survey and management plan will be used to guide the management and interpretation of Black Mountain Open Space Park's cultural and historical resources.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Penasquitos Community Plan, and is in conformance with the City's General Plan.

**Schedule:** The survey and management plan was completed in Fiscal Year 2007.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

**Description:** This project provides for improvements at Cabrillo Heights Neighborhood Park. Improvements will provide additional active and passive recreational opportunities. Proposed improvements may include: accessible tot lot play equipment, picnic shade structure, picnic tables, drinking fountains, trees and barrier fencing along north fence of ball fields.

**Justification:** This project will contribute to satisfying the population-based park acreage requirements set forth in the City's General Plan. The project will enhance the quality of the Cabrillo Heights Neighborhood Park through a variety of improvements providing the community with a more pleasing park-like atmosphere.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$3,750 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as all amenities and unique site characteristics are considered.

**Relationship to General and Community Plans:** This project is consistent with the Serra Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2009 and was completed in Fiscal Year 2012. Construction will begin in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the renovation and replacement of existing asphalt medians with stamped concrete medians.

**Justification:** This project is an identified improvement in the Camino Santa Fe Maintenance Assessment District (MAD). The existing medians are old and damaged and in need of renovation or replacement.

**Operating Budget Impact:** The Camino Santa Fe Maintenance Assessment District will be responsible for maintenance associated with the medians. No operating budget impact is anticipated as current sweeping and cleaning schedules would continue.

**Relationship to General and Community Plans:** This project is consistent with the Mira Mesa Community Plan and it is in conformance with the City's General Plan.

**Schedule:** Design and construction are scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** An additional \$30,000 of Camino Santa Fe MAD funding has been allocated to this project in Fiscal Year 2013.

| <b>Improv Type:</b> Betterment            | koliver@sandiego.gov                      |

**Description:** This project provides for miscellaneous improvements to serve park users, such as accessibility upgrades to the children's play area, drainage repair at the rear parking lot, and creation of a parking area in the northwest corner to accommodate overflow parking needs at the Canyonside Community Park.

**Justification:** This project will provide upgraded and additional recreation amenities to serve the residents of Rancho Penasquitos which is park-deficient by General Plan standards.

**Operating Budget Impact:** This project provides for upgrades and expansion for an existing facility. These upgrades will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$11,700 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as all amenities and unique site characteristics are considered.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Penasquitos Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design was scheduled to begin in Fiscal Year 2012 and construction is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013. A Request for Council Action (1472) will be processed to appropriate and expend \$350,000 from Rancho Penasquitos Facilities Benefit Assessment funds, Fund No.400083, for the purpose of children's play area upgrades consistent with the Rancho Penasquitos Public Facilities Financing Plan.

**Description:** This project provides for the installation of landscaping and accompanying stamped concrete to an unimproved median along Carmel Country Road.

**Justification:** The benefit of this project is to improve the visual quality and integrity of the street medians through street and landscaping improvements.

**Operating Budget Impact:** The existing unimproved median is currently maintained for trash and weed removal by the Carmel Valley Maintenance Assessment District. Once the project is completed, the additional landscape maintenance services will be funded by the District.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction began and was completed in Fiscal Year 2012.

**Summary of Project Changes:** This project is complete and will be closed by the end of the Fiscal Year 2013

**Description:** This project provides for Americans with Disabilities Act upgrades and improvements to the children's play area in Carmel Grove Mini-Park. Improvements will include new children's play equipment and surfacing, site furnishings, path of travel and street parking with ramp in compliance with State and federal safety and accessibility guidelines.

**Justification:** This project is needed to upgrade existing site improvements of play area facilities to meet current State and federal safety and accessibility regulations.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley Neighborhood 1 Precise Plan, the Carmel Valley Community Plan, and is in conformance with the City's General Plan.

**Schedule:** Design began and was scheduled to be completed in Fiscal Year 2011. Construction is scheduled to begin in Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the upgrade and replacement of playground equipment at the Carmel Mountain Ranch Community Park, which includes Americans with Disabilities Act (ADA) upgrades such as new walkways, accessible parking spaces, and accessible walkways to existing picnic tables. The new play equipment and rubberized safety surfacing will meet current accessibility and safety standards.

**Justification:** This project will provide much needed playground improvements to meet current code requirements and provide safety for users of the park.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Mountain Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction began and was completed in Fiscal Year 2011.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

| <b>Improv Type:</b> New              | jwinter@sandiego.gov                      |

**Description:** This project provides for acquiring and developing a four useable acre neighborhood park in Carmel Valley. Amenities may include a play area, picnic facilities, open turf area, and landscaping. Frontage road improvement will be provided by another project.

**Justification:** This project will provide the community with additional recreational opportunities as well enhance the visual quality of the area.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$46,800 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as all amenities and unique site characteristics are considered.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley Community Plan, the Carmel Valley Neighborhood 8 Precise Plan, and is in conformance with the City's General Plan.

**Schedule:** The land was acquired as part of the Carmel Valley Restoration and Enhancement Project. Design and construction will be scheduled contingent upon the actual rate of development fees collected within the community and the identification of funding. Design began in Fiscal Year 2009, and will continue once access to the park site is secured/acquired through the adjacent private property. Construction will be scheduled thereafter.

**Summary of Project Changes:** This project will be on hold until access to the park site has been obtained.

**Description:** This project provides for the improvement of approximately 1.8 acres of existing fields at Carson Elementary School for joint use purposes. The improvements include turfing for multi-use ball fields and back stops.

**Justification:** This project will contribute to satisfying the population-based park acreage requirements set forth in the City's General Plan.

**Operating Budget Impact:** Operation and maintenance funding for this facility was previously included in the Park and Recreation budget.

**Relationship to General and Community Plans:** This project is consistent with the Linda Vista Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2007. Construction was completed in Fiscal Year 2010.

**Summary of Project Changes:** This project is complete and will be closed at the end of the fiscal year.

**Description:** This project provides for the acquisition of an approximate 16,000 square foot parcel, remaining from the construction of the Interstate 15 freeway through Mid-City at the corner of Central Avenue and Landis Street, to be developed as a mini park. Amenities may include an open turf area, children's play area, skate park, seating areas, walkways, and security lighting.

**Justification:** This project will contribute to satisfying the population-based park acreage requirements set forth in the City's General Plan to serve residents in this park-deficient community.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The project's final design has not been approved, therefore, the current cost estimate of \$4,000 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: City Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** Land acquisition was completed in Fiscal Year 2008. Design began in Fiscal Year 2011 and was completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

**Description:** This project provides for accessibility upgrades to accommodate persons with disabilities while respecting the park's cultural significance and attributes. Accessibility upgrades may include parking areas and walkways to address path of travel requirements, children's play area, drinking fountains, and park furniture.

**Justification:** This project will contribute to satisfying population-based park acreage requirements set forth in the General Plan to serve residents in this park-deficient community.

**Operating Budget Impact:** Operational costs will not change significantly because the proposed improvements replace existing facilities. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the Barrio Logan Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2014.

**Summary of Project Changes:** This is a newly published project for Fiscal Year 2013.

**Description:** This project provides for the design and development of North Chollas Community Park, located on College Grove Drive midway between 54th Street and College Avenue. Phase I improvements consist of a sports field, parking area, access road, tot lot, and comfort station with concession area. Future phases may include additional sports and multi-purpose fields, a play area, basketball courts, picnic areas, additional parking areas, creek enhancement, trails, a gymnasium, and a dog off-leash area.

**Justification:** This project will provide a park and athletic facility to serve the greater community. The surrounding area is not currently served by a community park and the region is deficient in sports facilities and open park areas.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$84,000 is based upon the Park and Recreation Department's estimated cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined and all amenities and unique site characteristics are considered.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: Eastern Area Community Plan and is in conformance with the City's General Plan.

**Schedule:** The multi-purpose ballfield was completed. Phase II design and Construction documents are complete and the project is ready to be advertised for bidding. Phase II was funded by Redevelopment funds however the Redevelopment funds are on hold at this time. Therefore, the project is on hold until funds are available.

**Summary of Project Changes:** No significant change to this project for Fiscal Year 2013.

**Description:** This project provides for the removal of concrete sections of the channel, the widening of the floodplain, and the creation and restoration of wetland and transitional upland habitats. These improvements will be designed to re-establish the natural structure, dynamics, and hydrologic functions within applicable creek segments and restore affected beneficial uses.

**Justification:** This project will implement portions of the Chollas Creek Enhancement Program, as adopted by the City Council on May 14, 2002, and will help achieve Municipal Storm Water Permit compliance through improved water quality in Chollas Creek.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Southeastern San Diego Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2005 and was completed in Fiscal Year 2006. Construction was completed in calendar year 2007.

**Summary of Project Changes:** Construction on this project is completed but environmental monitoring is required until Fiscal Year 2014.

| <b>Improv Type:</b> Replacement                | smahmalji@sandiego.gov                      |

**Description:** This project provides for the replacement of one new accessible fishing pier and the installation of a new accessible trail and improvements to the Lend-A-Rod Station and the new pier from the existing parking lot at Chollas Lake Community Park. The park is located at 6350 College Grove Way in the Mid City-Eastern Area.

**Justification:** The heavily used park currently does not have a convenient path from the parking lot to the lake for people with disabilities. This project will provide a convenient path and an accessible fishing pier out into the lake.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: Eastern Area Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2010 and was completed in Fiscal Year 2011. Construction began and was completed in Fiscal Year 2011.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

**Description:** This project provides for the design and construction of an approximately 5,348 square foot (0.123 acre) public mini-park, in the City Heights area of the Mid City Community. Improvements will include amenities such as seating, walkways, picnic areas, landscaping, irrigation, and security lighting.

**Justification:** This project will contribute to satisfying population-based park acreage requirements set forth in the City's General Plan in a community currently deficient in population-based parks per General Plan guidelines.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: City Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** Project design began in Fiscal Year 2010 and was completed in Fiscal Year 2011. Construction was scheduled for Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides the needed upgrades for the Cliffridge Park comfort station to ensure accessibility under the Americans with Disabilities Act (ADA). Improvements will include an accessible path of travel in addition to new drinking fountains and exterior sinks which will conform to the disabled access requirements and will be mounted on the outside of the comfort station.

**Justification:** These improvements are necessary to provide Americans with Disabilities Act (ADA) accessibility to the comfort station which does not meet all of the current Americans with Disabilities Act (ADA) requirements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** Close out activities were completed in Fiscal Year 2012.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

**Description:** This project provides partial funding for coastal infrastructure improvements at 71 sites, from Sunset Cliffs Park to Torrey Pines State Beach, that were identified and prioritized in a 2003 Coastal Erosion Assessment Survey. High priority sites are those that present potential public hazards.

**Justification:** This project provides improvements to coastal erosion sites that present potential public hazards.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Beach access to Shell Beach and at Sea Ridge Avenue were completed in Fiscal Year 2008. Design for the next six locations began in Fiscal Year 2008 and was completed in Fiscal Year 2009. Future design and construction will be scheduled as funding becomes available.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013. Funding is allocated to this project as it becomes available.

| <b>Improv Type:</b> Replacement        | apalaseyed@sanidiego.gov                   |

**Description:** This project provides for the conversion of asphalt medians to concrete medians along various roadways in the Rancho Bernardo community. Initial locations include medians along Pomerado Road near the intersection with Rancho Bernardo Road.

**Justification:** The community has requested streetscape improvements to major arterial corridors within Rancho Bernardo. This project allows certain medians to be enhanced by replacing deteriorating asphalt with decorative stamped concrete.

**Operating Budget Impact:** The existing hardscape medians are maintained by the Rancho Bernardo Maintenance Assessment District (sweeping, litter removal, and weed removal). There is no anticipated increase in maintenance costs as a result of this project.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Bernardo Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction for the first and second phases of this project began and were completed in Fiscal Year 2012. Locations for median conversion in Phases One and Two include: Pomerado Road Median #S-2 - Rios Road to South Entrance, Pomerado Village Shopping Center; Pomerado Road Median #S-1 - South Entrance, Pomerado Village Shopping Center to Rancho Bernardo Road; and Pomerado Road Median #N-1 - Rancho Bernardo Road to Caminito de la Gallarda. Additional locations will be scheduled contingent upon funding availability.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

**Description:** This project provides for creating a salt marsh in the newly-constructed wetland habitat area of Crown Point adjacent to the Northern Wildlife Preserve. The project will entail some minor regrading, site preparation and planting of upland habitat in the recently created five-acre wetland habitat area on North Crown Point Shores.

**Justification:** This project is partial mitigation for the shoreline treatment project; remaining balance to be saved for future projects as outlined in the Natural Resource Management Plan adopted by Council in May 1990.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Master Plan, and is in conformance with the City's Progress Guide and General Plan.

**Schedule:** Construction was completed in Fiscal Year 2010.

**Summary of Project Changes:** Project is complete and will be closed at the end of the fiscal year.

| <b>Improv Type:</b> Betterment       | mnassar@sandiego.gov                     |

**Description:** This project will provide for the evaluation of the overall condition of the pier which is located in Pacific Beach and to make recommendations for repairs to ensure public safety. The pier was originally constructed in 1927. A storm demolished 240 feet of the pier in 1983 and this portion was reconstructed in 1987.

**Justification:** The purpose of this study is to evaluate the overall condition of the pier and recommend needed repairs. This will include an investigation of the structural integrity of the pier below the surface of the ocean.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Beach Community Plan and it is in conformance with the City's General Plan.

**Schedule:** The study was scheduled to begin in Fiscal Year 2012. Project schedule and cost estimate will be determined following completion of the evaluation.

**Summary of Project Changes:** As a result of the Fiscal Year 2012 Mid-year Appropriation Adjustments, per City Resolution R-307312 approved on March 14, 2012, this project received funding of \$300,000 from the Capital Outlay Fund to conduct a study to determine what repairs are needed. Additional funding for the repairs will be requested once the full scope has been determined.

**Description:** This project provides for the construction of a trail undercrossing beneath Del Mar Heights Road as part of the hiking and riding trail system for Pacific Highlands Ranch.

**Justification:** This project will allow pedestrian and equestrian activities to pass Underneath Del Mar Heights road near the westerly boundary of the community without impacting the roadway or imposing a safety risk for those engaged in equestrian Activities. In addition, the project provides a connection of regional trails between Penasquitos Canyon and the San Dieguito River Valley.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Highlands Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** The project was completed in Fiscal Year 2007 with reimbursement scheduled for Fiscal Year 2013.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New             | hgreenstein@sandiego.gov                       |

**Description:** This project provides for land acquisition in the Del Mar Mesa community planning area and surrounding future urbanizing area for the Multiple Species Conservation Program (MSCP).

**Justification:** The MSCP Implementing Agreement, Section 10(a), Take Authorization of the Endangered Species Act, mandates a statutory responsibility on the part of the City to assemble the MSCP preserve. This responsibility includes acquisition of public land to be used for wildlife habitat.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Del Mar Mesa Specific Plan and is in conformance with the City's General Plan.

**Schedule:** Land acquisition in Del Mar Mesa began in Fiscal Year 2002 and was substantially completed in Fiscal Year 2007 with available funding. Additional land acquisition will continue in Fiscal Year 2013 using remaining and additional funding for land acquisitions in Del Mar Mesa and future urbanizing area.

**Summary of Project Changes:** Funds for management and monitoring of Del Mar Mesa Open Space will not be reallocated. Land acquisition will be pursued using remaining and new funding from Proposition C. A Request for Council Action (1472) will be processed to appropriate and expend the funds for this purpose.

**Description:** This project provides for the construction of a four-foot wide, one mile long multi-use trail, extending easterly from the northerly section of Carmel Mountain Road through the Lorenz Parcel, then south-erly into Penasquitos Canyon.

**Justification:** This project provides additional recreational opportunities in Del Mar Mesa.

**Operating Budget Impact:** This project will require an on-going operational budget for non-personnel expenses. The current cost estimate of \$2,000 is based upon the Park and Recreation Department's current cost to maintain trails.

**Relationship to General and Community Plans:** This project is consistent with the Del Mar Mesa Specific Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2005. This project is being completed in segments and is dependent upon the actual rate of development within the community.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for an eight-foot wide hiking and equestrian trail, 8,000 feet long, extending northerly from the Carmel Mountain Road and Del Mar Mesa Road intersection area, then westerly in the developable area along open space. The trail will continue to the westerly end of Del Mar Mesa Road. This project also includes improvements to a 1,000-foot long existing trail that extends northerly into Carmel Valley Neighborhood 8.

**Justification:** This project provides additional recreational opportunities in Del Mar Mesa.

**Operating Budget Impact:** This project will require an on-going operational budget for non-personnel expenses. The current cost estimate of \$3,030 is based upon the Park and Recreation Department's current cost to maintain trails.

**Relationship to General and Community Plans:** This project is consistent with the Del Mar Mesa Specific Plan and is in conformance with the City's General Plan.

**Schedule:** Land acquisition and design began in Fiscal Year 2004. Construction began in Fiscal Year 2005. However, this project is being completed in segments and is dependent upon the actual rate of development within the community.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for a surfaced eight-foot wide multi-use trail, 2,000 feet long, extending southerly from the end of Del Mar Mesa Road, crossing the Meadows Del Mar entry road. The trail will branch westerly to connect to the wildlife crossing under Carmel Country Road, and easterly to connect to the Shaw Valley and Neighborhood 10 trails in Carmel Valley.

**Justification:** This project provides additional recreational opportunities.

**Operating Budget Impact:** This project will require an on-going operational budget for non-personnel expenses. The current cost estimate of \$1,000 is based upon the Park and Recreation Department's current cost to maintain trails.

**Relationship to General and Community Plans:** This project is consistent with the Del Mar Mesa Specific Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2007. Construction began in Fiscal Year 2007 and is scheduled to be completed when funding is identified. This project is being completed in segments and is dependent upon the actual rate of development within the community.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project will provide for the resurfacing and slurry sealing of residential streets within the Del Mar Terrace Maintenance Assessment District (MAD). Additional improvements may include upgrades to asphalt berms and curb and gutter installation where needed.

**Justification:** This project is an identified improvement in the Del Mar Terrace Maintenance Assessment District which includes slurry seal maintenance every five years and resurfacing every 15 years.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Torrey Pines Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project addresses on-going maintenance requirements. Project schedule is dependent upon funding availability.

**Summary of Project Changes:** An additional \$65,000 of Del Mar Terrace MAD funding has been allocated to this project in Fiscal Year 2013.

**Description:** This project provides for Americans with Disabilities Act (ADA) upgrades and improvements to the children's play area and path of travel within the park to comply with State and federal safety and accessibility guidelines. This project includes an accessible on-street parking space, curb ramp, site furniture, and accessible play area equipment and surfacing.

**Justification:** This project is needed to upgrade existing site improvements and play area facilities to meet current State and federal safety and accessibility regulations.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley (North City West) Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction began in Fiscal Year 2012.

**Summary of Project Changes:** No significant changes have been made to this project in Fiscal Year 2013.

| <b>Improv Type:</b> New          | hgreenstein@sandiego.gov                       |

**Description:** This project provides for acquisition, design, and construction of a nine useable acre park site in the Otay Mesa Community Plan and the Dennery Ranch Precise Plan areas. The park may include a multi-purpose court, restroom, children's play area, picnic area and facilities, open turf area, staging area, and trail with connectivity to the Otay Valley Regional Park.

**Justification:** This project provides population-based park acreage in accordance with the City's General Plan standards to accommodate the park and recreational needs of the residents within the Dennery Ranch Subdivision.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The project's final design has not been approved, therefore, the current cost estimate of \$105,000 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa Community Plan and the Dennery Ranch Precise Plan, and is in conformance with the City's General Plan.

**Schedule:** Acquisition, design and construction will be scheduled contingent upon the rate of development and fees collected in the community.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

**Description:** This project provides for streetscape improvements which include the installation of street lights and replacement of sidewalks, curbs, and gutters along El Cajon Boulevard from Louisiana Street east to 54th Street.

**Justification:** The El Cajon Boulevard revitalization project began as a part of the Mid-City Commercial Revitalization Program which was originally funded by a Community Development Block Grant and TransNet. This project will continue the approved design along additional commercial blocks using funding from the El Cajon Boulevard Maintenance Assessment District (MAD). The MAD Assessment Engineer's Report identifies streetscape improvements including street lighting as an improvement within the project area.

**Operating Budget Impact:** Those projects that are identified as improvements in the North Park MAD Assessment Engineer's Report and the El Cajon Boulevard MAD Assessment Engineer's Report will be maintained by each respective MAD. Each MAD will fund the maintenance and energy costs associated with the special benefit street lighting installed by this project. Since design of all phases of the street light element has not been completed, the actual number of street lights to be installed by this project and resultant operating budget effect is not known.

**Relationship to General and Community Plans:** This project implements the Mid-City and Greater North Park Communities' Plans and is in conformance with the City's General Plan.

**Schedule:** The project is divided into several subprojects. Design and construction of decorative lights within utility undergrounding blocks 3EE and 3FF (in coordination with the Talmadge Lighting Project S00820) began in Fiscal Year 2010 and continues in Fiscal Year 2012. Design and construction of the installation of street lighting along several side streets (Euclid, 46th, 44th, and 35th Streets) is scheduled in Fiscal Year 2012. Design of a project to install double acorn, teal streetlights along El Cajon Boulevard is scheduled to begin in Fiscal Year 2012. Design and construction of decorative lights within utility undergrounding block 3HH is scheduled to begin in Fiscal Year 2013. Additional street lights and curb, sidewalk, and gutter improvements are planned when funding becomes available.

**Summary of Project Changes:** The federal grant of \$310,000 was not received, so that funding is removed from the project. Resolution R-307041 dated October 11, 2011, during Fiscal Year 2012, authorized funding from City Heights Redevelopment Project Area 2010 Tax Exempt Bond proceeds and North Park Redevelopment Project Area 2009 Tax Exempt Bond proceeds, however this funding has been placed on hold and is not shown in the project. An additional \$50,000 in El Cajon Boulevard MAD funding is allocated to this project in Fiscal Year 2013.

| <b>Improv Type:</b> Betterment               | afield@sandiego.gov                     |

**Description:** This project would provide for the installation of a reclaimed water pipeline and meter to service Evans Pond, a small pond located adjacent to Scripps Ranch Library (at 10301 Scripps Lake Drive). The reclaimed water pipe would connect an existing reclaimed water reservoir located in Meanley Park (just south of the Library) and extend northeast to the pond. An additive alternative would be to connect existing landscape irrigation systems surrounding the Library to reclaimed water. Total cost would be \$165,000, to be funded by Fund 400257. Scripps Ranch Maintenance Assessment District (MAD) maintains this pond via a Memorandum of Understanding (MOU) with the Library Department.

**Justification:** Evans Pond is currently fed by natural rainwater and runoff, but during summer months it loses depth and becomes shallow. Despite annual transfers of raw water from the nearby San Diego Aqueduct, there is insufficient water to maintain Evans Pond at an acceptable depth. The pond is home to a variety of plant and animal species, including water plants, turtles, ducks, and fish. This project would allow for a stable water source to keep the pond at an acceptable level throughout the year. A health/safety concern would be the use of reclaimed water in a pond environment, which has been accomplished at Torrey Pines Golf Course.

**Operating Budget Impact:** Currently, the Scripps Ranch Maintenance Assessment District funds a transfer of raw water from the San Diego Aqueduct once a year at a cost of approximately \$18,500. If this project is implemented, water costs are expected to be much lower (approximately \$2,000 annually) and under the reclaimed water rate rather than the potable water rate.

**Relationship to General and Community Plans:** This project is in compliance with the Scripps-Miramar Ranch Community Plan and in conformance with the City's General Plan.

**Schedule:** Design and construction are scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** This is a newly published project for Fiscal Year 2013.

**Description:** This project provides for land acquisition of approximately three useable acres for a neighborhood park south of Pomerado Road in the Scripps Miramar Ranch area.

**Justification:** This project provides population-based park acreage in accordance with the City's General Plan standards to accommodate the park and recreational needs of the residents within the Fairbrook Subdivision.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Scheduling is contingent upon development of the subdivision, which had been deferred by the property owner, San Diego Unified School District. The School District has sold the subdivision entitlements to a private developer and assigned the park project to the new property owner. The City will acquire property for the park subsequent to completion of public infrastructure improvements pursuant to a development agreement.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

**Description:** This project provides for development of an approximately three useable acre neighborhood park south of Pomerado Road in the Scripps Miramar Ranch area, adjacent half-width street improvements, and utilities to serve the park.

**Justification:** This project provides population-based park acreage in accordance with the City's General Plan standards to accommodate the park and recreational needs of the residents within the Fairbrook Subdivision.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The project's final design has not been approved, therefore, the current cost estimate of \$35,100 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Scheduling is contingent upon acquisition of the site, which has been deferred by the San Diego Unified School District. The City will acquire property for the park subsequent to completion of public infrastructure improvements pursuant to a development agreement.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

| <b>Project Status:</b> Released  | <b>Contact Information:</b> Deangelis, Jeannette |
| <b>Duration:</b> 2003 - 2014     | 619-533-5497                                     |
| <b>Improv Type:</b> Betterment   | jdeangelis@sandiego.gov                          |

**Description:** The 0.64 acre mitigation project in Famosa Slough is required by the Army Corps of Engineers, Coastal Commission, and California Department of Fish and Game permits and agreements. The mitigation is a required component of the Storm Water Department's channel clearing efforts to prevent flooding in the Sorrento Valley area, and restoration of this site will enhance the functions and values of this important biological resource consistent with a variety of City policies and objectives.

**Justification:** The 0.64 acre mitigation project in Famosa Slough is required by the Army Corps of Engineers, Coastal Commission, and California Department of Fish and Game permits and agreements. The Famosa Slough was chosen as the mitigation site because opportunities for coastal salt marsh mitigation in the Los Penasquitos Lagoon have been exhausted. This option utilizes an available, City-owned site within the Coastal Zone and is consistent with the 1993 Famosa Slough Enhancement Plan.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula Community Plan and the Famosa Slough Enhancement Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2004 and was completed in Fiscal Year 2005. Construction was completed in Fiscal Year 2005. The five year maintenance and monitoring period began in Fiscal Year 2006 and ended in Fiscal Year 2011. In order to obtain site approval from the Resource Agencies, a two additional years of maintenance and monitoring will be required due to soil conditions and below average rainfall.

**Summary of Project Changes:** TransNet funding has been allocated to this project for Fiscal Year 2013 for the second additional year of monitoring.

**Description:** This project provides for design and construction of recreational improvements at Fiesta Island consistent with the general development plan and Mission Bay Park Master Plan, including an expanded causeway that has been identified as a high priority, turfed multi-purpose areas, parking lots, playgrounds, comfort stations, walkways, a personal watercraft launching and service area, relocation of the sand area, south beach jetty, coastal landscaping, and additional utilities infrastructure.

**Justification:** This project will provide infrastructure necessary to support future recreational facilities.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction will be scheduled in phases as funding is identified and upon completion of the Mission Bay-Fiesta Island General Development Plan.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the acquisition, design and construction of a five useable acre neighborhood park adjacent to a planned elementary school in the Gonzales Canyon area of the Pacific Highlands Ranch Community. Park amenities will include a multi-purpose turf sports field, a children's play area, multi-purpose courts, picnic facilities, security lighting, landscape, and a comfort station.

**Justification:** This project provides population-based park acreage in accordance with the City's General Plan standards to accommodate the park and recreational needs of the residents within the Gonzales Canyon area of Pacific Highlands Ranch Subdivision.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The project's final design has not been approved, therefore, the current cost estimate of \$58,500 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Highlands Ranch Sub Area Plan and is in conformance with the City's General Plan.

**Schedule:** Land Acquisition was completed in Fiscal Year 2011. The schedule of design and construction of the project is pending agreement with developer for this turn-key project.

**Summary of Project Changes:** No significant changes have been made to this project in Fiscal Year 2013.

**Description:** This project provides for the completion of an existing biology report, a literature review, data collection, and formulation of Area Specific Management Directives to manage the Multiple Species Conservation Program (MSCP) covered species within Gonzales Canyon.

**Justification:** This project will provide a management framework for sensitive resources within the plan area and ensure the City's compliance with MSCP.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Highlands Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2014.

**Summary of Project Changes:** The total estimated project cost decreased by \$140,000 due to an expected non-profit partnership.

**Description:** This project provides for preparation of a General Development Plan Amendment to enlarge the proposed recreation center and to include an aquatic complex, and to implement Phase I infrastructure improvements, such as irrigation and parking lot upgrades, on a 44-acre athletic area to serve residents within the Kearny Mesa, Clairemont Mesa and Serra Mesa Communities. All Phase I improvements shall be in compliance with federal, State and local accessibility guidelines and regulations.

**Justification:** This project provides park and recreational facilities to serve the needs of existing and proposed residents within the Kearny Mesa, Clairemont Mesa and Serra Mesa Communities in accordance with the City's General Plan Guidelines.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Kearny Mesa, Serra Mesa, and Clairemont Mesa Community Plans and is in conformance with the City's General Plan.

**Schedule:** Phase I design began in Fiscal Year 2010. Phase I construction will be determined upon completion of the General Development Plan Amendment in Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New              | lball@sandiego.gov                      |

**Description:** This project provides for a multi-use trail connection from Del Mar Mesa to Carmel Valley.

**Justification:** The construction of the identified trails or trail connections will contribute to completion of connectivity with the existing City and regional trail system, providing benefits to the community, including increased recreational opportunities, protection of sensitive natural resources, and alternate transportation opportunities to residents and visitors.

**Operating Budget Impact:** This project will require an on-going operational budget for non-personnel expenses. The current cost estimate of \$2,200 per year is based upon the Park and Recreation Department's current cost to maintain trails.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley Community Plan and the Carmel Valley Neighborhood 10 Precise Plan, and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2007. Construction began in Fiscal Year 2009 in segments. The schedule is contingent upon the rate of development and fees collected in the community.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the construction of an unimproved multi-use trail, 8,000 feet long extending easterly from the end of Z Street to the San Diego Gas and Electric (SDG&E) easement. The trail will continue southerly within the easement into Penasquitos Canyon.

**Justification:** This project provides additional recreational opportunities in Del Mar Mesa.

**Operating Budget Impact:** Maintenance of the site will be the responsibility of SDG&E.

**Relationship to General and Community Plans:** This project is consistent with the Del Mar Mesa Specific Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2007. Construction began in Fiscal Year 2008 and is ongoing. Major trail segments are complete, however, construction of additional segments is dependent upon the actual rate of development within the community. The location is in an SDG&E easement corridor and work must be coordinated with SDG&E.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the design and construction of a new neighborhood park, enhancements to Chollas Creek, and associated traffic improvements on Home Avenue for pedestrian crossing.

**Justification:** This project will contribute to satisfying the population-based park acreage requirements set forth in the City's General Plan.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The project's final design has not been approved, therefore, the current cost estimate of \$18,000 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: City Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design completion is anticipated in early Fiscal Year 2013. Construction is scheduled for completion in Fiscal Year 2014 pending allocation of remaining funds.

**Summary of Project Changes:** The project cost has increased due to additional scope which includes design and construction of additional park amenities, a new comfort station and environmental mitigations. TransNet funding has been allocated to this project in Fiscal Year 2013 for the traffic improvements on Home Avenue.

**Description:** This project provides for reimbursment to the San Diego Community College District for constructing parking areas for public use for visitors to the Hourglass Field House, a joint-use facility with San Diego Miramar College.

**Justification:** This project will contribute to satisfying the population-based park acreage requirements set forth in the City's General Plan.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mira Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction began in Fiscal Year 2008 and was completed in Fiscal Year 2010. Reimbursement to the San Diego College District was scheduled for Fiscal Year 2012.

**Summary of Project Changes:** Public Facilities Financing Plan for Mira Mesa is being updated and will reflect a reduction in final project cost.

| <b>Improv Type:</b> New           | koliver@sandiego.gov                      |

**Description:** This project provides for design and construction of miscellaneous improvements to existing irrigation systems of joint use facilities throughout the City.

**Justification:** This project will provide necessary improvements per the joint use agreement renewal process. In order to upgrade the joint use facilities to meet current codes, regulations and standards, and to endure another 25 years of use pursuant to the terms of the joint use agreements, improvements have been identified by individual, on-site inspections and cost estimates.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Sub-projects will be scheduled individually based on priority, school schedules, and league use of the fields. Design of some projects was completed in Fiscal Year 2009 and construction was completed in Fiscal Year 2011.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Project Status:</b> Released | <b>Contact Information:</b> Harkness, Jeffrey |
| <b>Duration:</b> 2002 - 2014    | 619-533-6595                                  |
| <b>Improv Type:</b> Betterment  | jharkness@sandiego.gov                        |

**Description:** This project provides for the dredging of two lakes and reconstruction of a lake berm within the Kumeyaay Lake system at Mission Trails Regional Park.

**Justification:** A berm that surrounds the lakes was breached during the 1995-96 rainy season. Since that time, the San Diego River's flow has been redirected through the Kumeyaay Lakes, to the detriment of the lakes. Impacts include sedimentation of the lakes, the introduction of exotic invasive aquatic plants and the decline of an adjacent state wetland mitigation site through which the river once flowed. Dredging of the lakes to remove accumulated sediments and unwanted plant materials will restore the health and vitality of the lakes and the adjacent mitigation site, which depends upon a flowing water source.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Trails Regional Park Master Development Plan, the Navajo Community Plan, and is in conformance with the City's General Plan.

**Schedule:** Planning began in Fiscal Year 2003. Design and construction will be scheduled upon identification of funding.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

**Description:** This project provides for the turfing of approximately two acres in Phase I and 1.7 acres in Phase II of undeveloped fields at La Mirada Elementary School. Improvements include a running track, a softball field, an accessible ramp to San Ysidro Activity Center, and relocation of the existing school garden for joint-use purposes.

**Justification:** This project will contribute to satisfying the population-based park acreage requirements set forth in the City's General Plan.

**Operating Budget Impact:** Operation and maintenance funding for this facility was previously included in the Park and Recreation budget.

**Relationship to General and Community Plans:** This project is consistent with the San Ysidro Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction of Phase I is complete. Phase II design began in Fiscal Year 2007 and construction was completed in Fiscal Year 2010.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

**Description:** This project provides for accessibility upgrades and expansion of the children's play area and path of travel within the park. The project will include universal design concepts in compliance with state and federal safety and accessibility guidelines.

**Justification:** This project is needed to upgrade existing site improvements and play area facilities to meet current State and federal safety and accessibility regulations.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Navajo Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction will be phased and scheduled as additional funding is identified.

**Summary of Project Changes:** Navajo DIF Fees in the amount of \$150,000 will be allocated to this project in Fiscal Year 2012 via a 1472 process. This DIF allocation will leverage grant funding of \$15,000 and private donations of approximately \$130,000.

**Description:** This project provides for design and construction of approximately 1.5 acres at the Language Academy (formerly Montezuma Elementary School) for joint use facilities to supplement existing park acreage in the College Area Community. Improvements may include artificially-turfed multi-purpose sports fields, multi-purpose courts, walkways, landscaping and Americans with Disabilities Act (ADA) accessibility upgrades.

**Justification:** This project will contribute to satisfying population-based park acreage requirements set forth in the City's General Plan.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$12,000 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the College Area Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction began and was completed Fiscal Year 2012.

**Summary of Project Changes:** The project is complete and will be closed by the end of the fiscal year.

**Description:** This project provides for a children's play area and associated path of travel upgrades to meet current accessibility requirements at Larsen Field.

**Justification:** This project is needed to expand the hours of facility use and its capacity to serve the community's residential growth.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the San Ysidro Community Plan and is conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013. Construction will be phased as funding is identified.

**Summary of Project Changes:** This is a newly published project for Fiscal Year 2013.

| <b>Improv Type:</b> New            | koliver@sandiego.gov                      |

**Description:** This project provides for a new picnic shelter for the users of the Linda Vista Community Park.

**Justification:** The picnic shelter was identified by the community as an amenity they wanted to add to the park. Park and Recreation staff secured a grant for partial funding.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Linda Vista Community Plan and is consistent with the City's General Plan.

**Schedule:** Design of the project is complete. Additional CDBG funding will be added to the project in Fiscal Year 2013. Construction will begin in Fiscal Year 2013.

**Summary of Project Changes:** Developer Impact Fee (DIF) funding was allocated to this project for Fiscal Year 2013. It is also anticipated that the project will receive \$100,000 in Community Development Block Grants in Fiscal Year 2013.

**Description:** This project provides for design and construction of park improvements at McAuliffe Community Park, located at the west end of Winterwood Lane in the Mira Mesa Community Plan area, formerly known as Winterwood Lane Community Park. Due to environmental constraints, this site will not provide adequate acreage to support community park activities. Approximately 12 of the total 25 undeveloped acres will be conveyed to the School District as a vernal pool habitat mitigation site in exchange for approximately six usable acres of School District-owned property adjacent to Salk Elementary School and Maddox Neighborhood park for the development of park and joint use facilities. The recreational uses and design of any remaining developable acres (approximately 7.5 acres) on the McAuliffe park site will be determined through the community input process. Park improvements could include an open turf area, children's play area, scenic overlook, walkways, off-leash dog area, comfort station, security lighting and landscaping.

**Justification:** This project provides population-based park acreage in accordance with the City's General Plan standards to accommodate the park and recreational needs of the residents of subdivisions within a 1.5 mile radius from the park.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$87,750 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as all amenities and unique site characteristics are considered.

**Relationship to General and Community Plans:** This project is consistent with the Mira Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Completion of design has been delayed due to environmental constraints. Conveyance of the mitigation site to the School District is scheduled to occur in late Fiscal Year 2012 or early FY 2013. Design and construction of the remaining usable park acreage will be scheduled as funding becomes available.

**Summary of Project Changes:** Project funding schedule has been updated per current Mira Mesa Public Facilities Financing Plan.

**Description:** This project provides for design and construction of approximately 1.2 acres of joint use facilities at McKinley Elementary School to supplement existing park acreage in the Greater North Park Community. Improvements will include natural or synthetic turf multi-purpose sportsfields, multi-purpose courts, walkways, landscaping and Americans with Disabilities Act (ADA)/accessibility upgrades.

**Justification:** This project will contribute to satisfying population-based park acreage requirements set forth in the General Plan to serve residents in this park-deficient community.

**Operating Budget Impact:** This facility will require an on-going budget for personnel and non-personnel expenses. The project's final design has not been approved, therefore, the current cost estimate of \$14,000 is based on the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the Greater North Park Community Plan and is in conformance with the City's General Plan.

**Schedule:** The design for this project began to begin in Fiscal Year 2012.

**Summary of Project Changes:** Park Development funding in the amount of \$72,500 has been allocated to this project for Fiscal Year 2013.

**Description:** This project provides for American with Disabilities Act (ADA) improvements to the pool complex which include providing a path of travel from public transportation and parking lot to the main building and site amenities, improvements to interior and exterior women's and men's restrooms including dressing rooms, lavatories, toilets, urinals, showers, and to the spectator area.

**Justification:** These improvements are necessary to meet Americans with Disabilities Act (ADA) and Title 24 requirements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Southeastern San Diego Community Plan and is in conformance with the City's General Plan.

**Schedule:** The project construction started in Fiscal Year 2010 and was completed in Fiscal Year 2011.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

**Description:** This project provides for the demolition of an existing pool and the design and construction of a new pool. The existing 40 year old pool suffers from deferred maintenance, cracked decking, outdated mechanical systems, and doesn't meet Americans with Disabilities Act (ADA) standards. It will be replaced with a larger pool that meets ADA standards.

**Justification:** This project will address deterioration of the existing pool decking and piping due to age.

**Operating Budget Impact:** It is anticipated that any additional non-personnel operating expenses will be offset by greater efficiency of new equipment.

**Relationship to General and Community Plans:** This project is consistent with the Southeastern San Diego Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2010 and was completed in Fiscal Year 2011. Construction was scheduled to begin in Fiscal Year 2012.

**Summary of Project Changes:** It is anticipated that the project will receive \$1,661,000 in Community Development Block Grants in Fiscal Year 2013.

| <b>Improv Type:</b> Betterment   | koliver@sandiego.gov                      |

**Description:** This project provides for developing approximately 11 usable acres of the former Carroll School park site across the street from Mira Mesa Community Park. Amenities include a comfort station and ballfields. The Mira Mesa Community Park will also be upgraded to include a pool complex, improved recreation center, and skate plaza. The street between the two sites will include parking and street calming. This project will be phased as funding becomes available. Phase I includes the ballfields and street calming. Phase II includes the pool complex and skate plaza. Phase III includes recreation center improvements.

**Justification:** This project will contribute to satisfying the population-based park acreage requirements set forth in the City's General Plan.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$128,700 for Phase I is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project implements the recommendations found in the Mira Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Park design was completed in Fiscal Year 2008. The scheduling of construction is contingent upon the rate of development and Facilities Benefit Assessment (FBA) fees collected in the community.

**Summary of Project Changes:** Project funding schedule has been updated per current Mira Mesa Public Facilities Financing Plan.

| <b>Improv Type:</b> Replacement         | adarvishi@sandiego.gov                    |

**Description:** This project provides for the removal and replacement of the existing comfort station/concession stand at the Mission Bay Athletic Area. It will also provide an accessible path of travel from Grand Avenue to the comfort station and the center of the ball field complex.

**Justification:** These improvements are necessary to provide Americans with Disability Act (ADA) accessibility to the comfort station and concession stand which are not currently accessible.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2010 and was completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 pending identification of funding.

**Summary of Project Changes:** Total project cost has been estimated at \$720,000 per the latest engineer's estimate. In Fiscal Year 2013, the department is planning to route a City Council Action to reflect a transfer of \$200,000 from Americans with Disabilities Improvements (ABE00001), Capital Outlay Fund (400002), which was committed to the project in previous years. The unidentified funding amount is currently \$320,000.

**Description:** This project provides for the demolition of the existing, antiquated practice center and clubhouse buildings, and installation of temporary trailers at the Mission Bay Golf Course. The design and construction of a new practice center, parking lot, and clubhouse, which were originally part of this project, will be completed separately in the future, in conjunction with other projects proposed for the golf course.

**Justification:** These improvements are necessary to comply with current codes, address maintenance needs, and increase the viability of identifying potential future lessees.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Demolition of the existing facilities is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** Golf Course funding in the amount of \$300,000 has been allocated to this project for Fiscal Year 2013.

**Description:** This project provides for the design and construction of various improvements within Mission Bay Golf Course. Work will include renovation and reconstruction of the existing course and will consist of new landscaping and irrigation, upgraded electrical and lighting system, drainage improvements, installation of cart paths near tee boxes, upgraded tee boxes, improvements to signage, as well as other improvements relevant to the conditions of play will also be included.

**Justification:** This project is needed to provide the long awaited improvements to the 18-hole golf course. For example, the new computerized irrigation system will replace a system that is outdated, inefficient and wasteful and does not meet current or future water restriction requirements. These improvements will help bring the golf course to within industry standards for municipal golf courses.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013. Project is ongoing. Golf course master planning, which was originally part of this project, will be completed as a separate CIP in the future.

**Description:** This annual allocation provides for the unexpected replacement of minor capital assets on an as-needed basis at the City's Municipal Golf Course - Mission Bay.

**Justification:** This annual allocation will provide a capital assets cost-avoidance program allowing for the timely replacement of unanticipated failure of golf capital assets.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design and replacement of minor capital assets will be implemented on an as-needed basis.

**Summary of Project Changes:** Future funding to be allocated upon identification of need. No significant change is anticipated for Fiscal Year 2013.

| <b>Improv Type:</b> New                 | jwinter@sandiego.gov                    |

**Description:** This annual allocation provides for permanent public capital improvements and deferred maintenance of existing facilities in accordance with City Charter, Article V, Section 55.2.

**Justification:** Mission Bay Park, as well as other regional parks, open spaces and coastal beaches, helps define the City's identity, enriches quality of life and serves as a visitor attraction that strengthens the local economy. This regional treasure is threatened by increasing use and a backlog of needed improvements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction will be scheduled in accordance with the scope of various sublet projects.

**Summary of Project Changes:** Funding has been allocated to this project for Fiscal Year 2013. Revenue for the Mission Bay Improvement Fund may be received when total Mission Bay Park lease revenues exceed a specified threshold (\$23M through Fiscal Year 2014 and \$20M thereafter).

**Description:** This project provides for the refinement and design development of the general development plan for Fiesta Island as proposed in the Mission Bay Park Master Plan Update.

**Justification:** General development plan refinement and design development prior to preparation of construction documents for Fiesta Island development, which will implement the recommendations of the Mission Bay Master Plan Update.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** The project began in Fiscal Year 2006 and is scheduled to be complete in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the procurement and installation of decorative, acorn style, street lighting within the Mission Hills Historic Street Lighting Maintenance Assessment District.

**Justification:** This project is an identified improvement in the Mission Hills Historic Street Lighting Maintenance Assessment District and will be conducted in conjunction with an underground utility project.

**Operating Budget Impact:** The Mission Hills Historic Street Lighting Maintenance Assessment District will provide for the special benefit of maintenance and energy costs associated with the enhanced street lighting.

**Relationship to General and Community Plans:** This project is consistent with the Uptown Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction began in Fiscal Year 2012.

**Summary of Project Changes:** No changes are anticipated for Fiscal Year 2013.

**Description:** This project provides for design, engineering, construction, and installation of structures, as well as the rehabilitation and installation of appropriate material to re-establish approximately 2,000 linear feet of existing trail. This project will supplement the existing and increasing recreational activities of hikers and the increase of sensitive resource impacts caused by hikers leaving the official trail. When completed, this trail rehabilitation will improve safety and reduce or eliminate loss of sensitive natural resources due to visitor use and erosion. Improvements will include minimal pruning and hand crew installation of materials. No grading will be done; however, some hand tool manipulation of existing soils may occur.

**Justification:** This project will benefit the community by increasing safety for hikers and protect sensitive natural and cultural resources.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Trails Regional Park Master Plan, the Navajo and Tierrasanta Community Plans, and is in conformance with the City's General Plan.

**Schedule:** Construction began in Fiscal Year 2012 and will continue in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for an update to the 1985 Mission Trails Regional Park (MTRP) Master Development Plan to identify completed capital projects and to guide future expansion, development and preservation of the park, as well as to provide an environmental document to determine potential impacts. A Natural Resource Management Plan will also be prepared and incorporated into the master plan document to provide park rangers with information and tools to manage the Park's sensitive resources.

**Justification:** MTRP faces numerous challenges and issues due to the high number of visitors and the Park's location within a densely populated area. Extensive recreational use, illegal off-road vehicle activity, erosion, urban runoff, and invasive non-native plants are potential threats to the continued health of the Park's natural resources. The MTRP Natural Resource Management Plan is a part of the implementation task of the City of San Diego's Multiple Species Conservation Program (MSCP). The MSCP was officially adopted on March 18, 1997; The United States Fish and Wildlife Service and the California Department of Fish and Game approved the plan on July 17, 1997.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Navajo, Tierrasanta, Rancho Encantada, and East Elliott Community Plans and is in conformance with the City's General Plan.

**Schedule:** Planning began in Fiscal Year 2008 and completion of the document is scheduled for Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New                    | lball@sandiego.gov                      |

**Description:** This project provides for design, engineering and construction of approximately 5,000 linear feet of new (realignment) trail and rehabilitation of approximately 3,500 linear feet of existing trail. This is to supplement existing and increased recreational activity of all visitor user groups (hikers, bikes, equestrian) and to stabilize and protect sensitive habitat and natural resources currently impacted by poor trail alignment. Improvements will include vegetation pruning and trimming, as well as hand crew manipulation of soils for best location of trails that will meet City Trail Standards (safety and sustainability). Locations of these trail realignments have been roughly engineered on-site but will require environmental review and approval. No grading is anticipated. No trails in this area are Americans with Disabilities Act (ADA) accessible and this realignment would not provide (ADA) opportunities due to lack of access.

**Justification:** New realignment will provide for improved safety to visitors and protection of sensitive resources.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Trails Regional Park Master Plan, the Navajo and Tierrasanta Community Plans, and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2009. Construction began in 2012 and is scheduled to be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

**Description:** This project provides for a comfort station/service building at the Mission Trails Regional Park Equestrian Staging Area.

**Justification:** The project will provide a needed comfort station at the Mission Trails Regional Park Equestrian Staging Area where one does not currently exist.

**Operating Budget Impact:** Operation and maintenance funding for this project is included in the Park and Recreation budget.

**Relationship to General and Community Plans:** This project is consistent with the Navajo Community Plan, the Mission Trails Regional Park Master Development Plan, and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2011 and construction was completed in Fiscal Year 2012.

**Summary of Project Changes:** Total project cost has increased \$173,000 per the latest engineer's estimate. An increase of \$69,000 in Regional Park Fund in Fiscal Year 2012 reflects Council action R-307278. The remaining \$104,000 is currently unfunded.

**Description:** This project provides for the enhancement of 4.22 acres within the Mission Valley Preserve by eradicating non-native vegetation and replanting native plants. The project area is located west of Interstate 5, west of the trolley line, north of Interstate 8 and south of the San Diego River.

**Justification:** This project will enhance the riparian habitat of the San Diego River for native flora and fauna preservation and public enjoyment.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Valley Community Plan and is in conformance with the City's General Plan.

**Schedule:** Implementation of the project was completed in Fiscal Year 2010. Plant establishment was completed in Fiscal Year 2011.

**Summary of Project Changes:** This project is completed and will be closed by the end of the fiscal year.

| <b>Improv Type:</b> New            | koliver@sandiego.gov                      |

**Description:** This project provides for the construction of approximately three acres of joint use play fields at the Montgomery Academy and associated Americans with Disabilities Act (ADA) improvements to comply with all State and federal accessibility guidelines and City standards. Phase I amenities may include a turfed multi-purpose sports field, security lighting, decomposed granite running track, accessibility improvements, signage, site furnishings and miscellaneous landscaping. Phase II amenities may include picnic shelters, site furnishings, accent plantings and enhanced gateway treatments.

**Justification:** Development of this project is a Site Development Permit condition of the Pacific Ridge Apartment Homes to satisfy population-based park acreage requirements in accordance with the City's General Plan standards for the anticipated population generated by the residential development. Additionally, it provides joint-use recreational facilities in a community deficient in population-based park and recreation facilities.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$26,000 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as all amenities and unique site characteristics are considered.

**Relationship to General and Community Plans:** This project is consistent with the Linda Vista Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2011. Construction began in Fiscal Year 2011 and will be completed in Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for lighting and park improvements at the Montgomery-Waller Community Park. Phase I of this project provides for the addition of lighting to the existing multi-purpose softball, soccer, and football field. Phase II will replace the comfort station.

**Justification:** This project will provide needed facilities to expand the hours of use at the park and provide safer access for park users.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa-Nestor Community Plan and is in conformance with the City's General Plan.

**Schedule:** Phase I was completed in Fiscal Year 2006. Phase II design began in Fiscal Year 2007 and was completed in Fiscal Year 2011. Phase II construction was completed in Fiscal Year 2012.

**Summary of Project Changes:** The scope of the project for Phase II has changed from constructing additional parking to replacing the comfort station because street parking was identified to accommodate additional vehicles. The comfort station was completed in Fiscal Year 2012.

| <b>Improv Type:</b> New         | jtracanna@sandiego.gov                     |

**Description:** This project provides for acquiring property in support of the Multiple Species Conservation Program (MSCP).

**Justification:** The Multiple Species Conservation Program (MSCP) Implementing Agreement, Section 10(a), Take Authorization of the Endangered Species Act, mandates a statutory responsibility on the part of the City to assemble the MSCP preserve. This responsibility includes public land acquisition to be used for wildlife habitat.

**Operating Budget Impact:** Operating Budget Impact to be determined as property is acquired.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Land acquisitions began in Fiscal Year 2000 and will continue as funding becomes available through Fiscal Year 2047. Per the City's MSCP Implementing Agreement (I.A.), preservation of 52,727 acres is to occur within the Multi-Habitat Planning Area (MHPA). To date, 49,004 acres (93%) have been conserved or obligated. The remaining 3,723 acres will be conserved through various means including mitigation, exactions, and acquisitions. Funding necessary to purchase the remaining 3,723 acres is estimated to be \$130.3 million without contributions through mitigation and exactions. It is anticipated that approximately one third of this obligation will be met through mitigation and exactions as part of the development process. Grant funding will be activity pursued as a future funding source for acquisitions. The total project cost has been updated to reflect future property acquisitions pursuant to the MSCP established by Council Resolution R-28455 on March 19, 1997.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project is intended to restore the integrity of the museum, stop the roof leakages, fix the museum ornamentation, restore the historic carports, protect the the public safety and minimize costly maintenance. The scope of work includes the following: re-roof the Administration Building, re-roof the clay tile roof on the south side of the quadrangle (re-use existing tile), re-roof and partially reconstruct the carport between the north wing and the administration building (re-use existing tiles), re-roof the north wing of the main museum including the built-up roof, restore ornamentation, restore windows, repair and/or reseal tile domes, replace finial on western quadrangle entrance, and other miscellaneous restoration items including the replacement of two curb ramps.

**Justification:** This project will restore the integrity of the museum, stop the roof leakages, fix the museum ornamentation, restore the historic carports, protect the public safety and minimize costly maintenance.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Balboa Park Plan and is in conformance with the City's General Plan.

**Schedule:** Construction was scheduled to be completed in Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project will provide for the planning and design of a new aquatic facility center at Naval Training Center Park. The proposed facility will include, but will not be limited to, two competitive and recreational pools, a leisure pool with water playground features, spectator seating deck, bath house facility, and associated site improvements.

**Justification:** This project will contribute to satisfying the recreation facility requirement set forth in the City's General Plan.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The project's design has not been completed or approved. Therefore, operational cost estimate will be available upon completion of the conceptual design.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design will begin in Fiscal Year 2013.

**Summary of Project Changes:** Developer Impact Fees in the amount of \$1,040,000 are being allocated to this project in Fiscal Year 2013.

**Description:** This project provides for developing approximately 24 additional acres of this community park located in the vicinity of the easterly extension of Nobel Drive and Interstate 805. Improvements will include sports fields, comfort station, 10,300 square-foot recreation center, play area, off-leash dog area, parking and passive areas.

**Justification:** This project will contribute to satisfying the population-based park acreage requirements set forth in the City's General Plan.

**Operating Budget Impact:** Operation and maintenance funding for this facility was previously included in the Park and Recreation budget.

**Relationship to General and Community Plans:** This project implements the recommendations found in the University Community Plan, and is in conformance with the City's General Plan.

**Schedule:** Park design began in Fiscal Year 1999. A pilot program Focus Group developed a General Development Plan (GDP) in Fiscal Year 2002. Design was completed in Fiscal Year 2004. Construction of the park, recreation center and library began in Fiscal Year 2005 and was completed in Fiscal Year 2008.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

**Description:** This project will provide for the amendment of the General Development Plan to expand the current five acre park site to an approximately six acre site located at 39th Street and Ward Canyon.

**Justification:** This project will provide the community with additional recreational opportunities as well as enhance the visual quality in an area that is park deficient.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: Normal Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** Phase I construction was completed in Fiscal Year 2003. This phase will complete the General Development Plan by the end of Fiscal Year 2012.

**Summary of Project Changes:** Construction document and construction phase will begin when funding has been identified.

| <b>Community Plan:</b> Greater North Park | <b>Priority Category:</b> Low             |
| <b>Project Status:</b> Released           | <b>Contact Information:</b> Oliver, Kevin |
| <b>Duration:</b> 2010 - 2020              | 619-533-5139                              |
| <b>Improv Type:</b> New                   | koliver@sandiego.gov                      |

**Description:** This project provides for the design and construction of an approximately 0.50 useable acre, urban mini-park to be located behind the recently renovated North Park Theatre. The project may include public art, plaza areas, specialty/enhanced paving areas for performances and events, an amphitheater or audience seating area, a gazebo/shade structure, a water feature, unique site furniture, walkways, seat walls, security and decorative lighting, and landscape and irrigation. This project also provides for the design and construction of approximately 1,800 linear feet of streetscape which may include enhanced street/pedestrian paving and walkways, street trees with tree grates, landscaping, irrigation, unique street furniture including benches and trash receptacles, security and decorative lighting, pedestrian ramps, curbs and gutters.

**Justification:** The community is currently deficient in population-based park requirements set forth in the City's General Plan. This project will add population-based park acreage to the community, thus contributing to satisfying population-based park requirements. The project will also create an urban park/plaza and streetscape system for the benefit of pedestrians, automobiles and community members.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The project's final design has not been approved, therefore, the current cost estimate to maintain the mini-park of \$5,700 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined. The streetscape improvements are anticipated to be maintained by the North Park Maintenance Assessment District.

**Relationship to General and Community Plans:** This project is consistent with the Greater North Park Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and will be completed in Fiscal Year 2012. Construction will be scheduled as funding becomes available.

**Summary of Project Changes:** Park Development Funds have been allocated to this project for Fiscal Year 2013.

**Description:** The project provides for the replacement of existing red sidewalk and decorative tile pavement along 30th Street and University Avenue near the Main Street area of North Park.

**Justification:** The project will replace existing red sidewalk and decorative tiles that are cracked, deteriorated, and missing.

**Operating Budget Impact:** Cleaning activities along the sidewalk including litter pick-up, sweeping, and steam cleaning will continue after the project is completed. Maintenance is funded by the North Park Maintenance Assessment District; no additional operating budget impact as a result of this project is anticipated.

**Relationship to General and Community Plans:** This project is consistent with the Greater North Park Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2012 and is expected to continue in Fiscal Year 2013. Construction would follow in conjunction with Project S00915, University Avenue Mobility Plan.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for streetscape improvements such as hardscape plaza, street trees, ornamental lighting, landscaping, sidewalk repairs, bicycle facilities, signage, and Americans with Disabilities Act (ADA) improvements. The first phase of improvements is focused on the area at and adjacent to the intersection of Sunset Cliffs Boulevard and West Point Loma Boulevard, one of the main entries into the Ocean Beach community.

**Justification:** The North Ocean Beach entryway has been identified as a location for streetscape improvements by Council District 2 and by the community. The goals are to increase safety and security, enhance the community image, and contribute positively to the commercial revitalization of the affected area.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Ocean Beach Community Plan and is in conformance with the City's General Plan.

**Schedule:** The project's design was completed in Fiscal Year 2010. Construction of Phase I improvements began and was completed in Fiscal Year 2012. Phase II improvements will be scheduled upon identification of funding.

**Summary of Project Changes:** Community Development Block Grant funding for Phase II improvements may become available for this project in the future.

**Description:** This project provides for the upgrade of the recreational facility located at 4726 Santa Monica Boulevard to comply with Americans with Disabilities Act (ADA) standards, including replacing sidewalks and curb ramps, replacing restroom stall doors and door handles, repaving existing lots and repainting parking stalls for Americans with Disabilities Act (ADA) parking.

**Justification:** Accessibility upgrades are necessary to meet Americans with Disabilities Act (ADA) and Title 24 requirements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Ocean Beach Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction were completed in Fiscal Year 2011.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

**Description:** This project provides for dredging behind the Old Mission Dam for the purpose of removing silt buildup, the required mitigation and monitoring program, and obtaining the necessary permits for long term preservation measures.

**Justification:** This project will protect the structural integrity of the historic dam and improve water quality within the San Diego River.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with Mission Trails Regional Park Master Plan, the Navajo Community Plan, and is in conformance with the City's General Plan.

**Schedule:** Construction was completed in Fiscal Year 2008. Wetland mitigation began in Fiscal Year 2008 and will continue in Fiscal Year 2013 with mitigation and monitoring scheduled through Fiscal Year 2016.

**Summary of Project Changes:** No changes are anticipated for the project in Fiscal Year 2013.

| <b>Improv Type:</b> New         | koliver@sandiego.gov                      |

**Description:** This project provides for the acquisition, design, and construction of approximately 0.36 acre of unimproved property contiguous with the south end of the existing Olive Street Park. The project will expand useable park acreage in the Uptown Community. Improvements may include amenities, such as multi-purpose turf areas, a children's play area, seating, walkways, landscaping, and security lighting.

**Justification:** This project will contribute to satisfying population-based park acreage requirements set forth in the City's General Plan in a community currently deficient in population-based parks per General Plan guidelines.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The project's final design has not been approved; therefore the current cost estimate of \$5,000 is based upon the Park and Recreation Department's current cost to maintain various landscape areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the Uptown Community Plan and is in conformance with the City's General Plan.

**Schedule:** Property acquisition has been completed. Design and construction will be scheduled when funding becomes available.

**Summary of Project Changes:** No significant changes has been made to this project for Fiscal Year 2013.

**Description:** This project provides funding for developing various public facilities within the City's resource-based open space parks. Improvements may include, but not be limited to, rehabilitation of Cowles Mountain Trail, drainage improvements within Tecolote Open Space, San Diego River improvements, Arizona Landfill reclamation test plot, and North Chollas Open Space enhancement.

**Justification:** This project is needed to preserve and enhance the City's open space areas. Enhancement may include removal of exotic, invasive and non-native plant material and re-vegetation with native plants of the areas susceptible to erosion.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and the concepts relative to specific open space systems, and is in conformance with the City's General Plan.

**Schedule:** The Arizona Landfill is currently in design. North Chollas Open Space enhancement is ongoing. Florida Canyon Riparian Restoration is currently in the plant establishment and monitoring period.

**Summary of Project Changes:** Deferred Capital Bond financing in the amount of \$550,000 has been allocated to this project for Fiscal Year 2013.

**Description:** This project provides for an accessible trail in Otay Valley Regional Park from the Beyer Staging Area around Fenton Pond.

**Justification:** This project will provide for increased recreational opportunities in Otay Valley Regional Park.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction of the project were completed in Fiscal Year 2010. Mitigation monitoring will continue through Fiscal Year 2013.

**Summary of Project Changes:** No Significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the first staging area in Otay Valley Regional Park and will include hiking trails, a ranger station and related amenities.

**Justification:** This project will provide access to the Otay Valley Regional Park.

**Operating Budget Impact:** Operation and maintenance funding for this facility was previously included in the Park and Recreation budget.

**Relationship to General and Community Plans:** This project implements the recommendations found in the Otay River Valley Natural Resource Management Plan and the Otay Mesa-Nestor Community Plan, and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2006. Construction was completed in Fiscal Year 2007. Mitigation monitoring will continue through Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

## Park & Recreation

### Pacific Breezes (Ocean View Hills) Community Park / S00649

### Parks - Community

|                                  |                                             |
|----------------------------------|---------------------------------------------|
| <b>Council District:</b> 8       | <b>Priority Score:</b> 62                   |
| <b>Community Plan:</b> Otay Mesa | <b>Priority Category:</b> Medium            |
| <b>Project Status:</b> Released  | <b>Contact Information:</b> Mahmalji, Samir |
| <b>Duration:</b> 2003 - 2017     | 619-533-5301                                |
| <b>Improv Type:</b> Betterment   | smahmalji@sandiego.gov                      |

**Description:** This project provides for the acquisition, design and construction of the Pacific Breezes Community Park. This park will be 15 acres with an additional five acres of joint-use with the adjacent Ocean View Hills Elementary School. Amenities may include lighted ball fields, a comfort station, a children's play area, picnic areas, and other improvements. A recreation center and pool complex are also scheduled to be developed at this site as separate future projects.

**Justification:** This project will provide the community with additional recreational opportunities and will enhance the visual quality of the area.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$218,400 is based upon the Park and Recreation Department's current cost to maintain various park areas.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa Community Plan and the California Terraces Precise Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary design was completed in Fiscal Year 2007. Final design and construction began in Fiscal Year 2008 and were dependent upon the actual rate of development within the residential community. Final design and construction were delayed due to pending property acquisition and a reimbursement agreement. Property acquisition was completed in Fiscal Year 2010. Final design began and was completed in Fiscal Year 2011. Construction is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2014.

**Summary of Project Changes:** Schedule has been delayed due to issues with water supply to the park site.

| <b>Improv Type:</b> Replacement      | adarvishi@sanidiego.gov                   |

**Description:** This project provides for the removal and replacement of the existing comfort station at Palisades Park at the foot of Law Street in Pacific Beach. Minor grading outside the limits of the building footprint is anticipated due to the improvement of the accessible path from the accessible parking to the comfort station. Major excavations will be carried out for the new retaining walls and building foundations. Because of the limited work areas, traffic control plans will be required during construction activities which will impact Ocean Boulevard.

**Justification:** These improvements are necessary to provide Americans with Disabilities Act (ADA) accessibility to the comfort station which is not currently accessible and to provide an accessible path of travel from the public way to the new facility.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Beach Community Plan, and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2010 and was completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 pending identification of funding.

**Summary of Project Changes:** An increase of \$285,000 in Community Development Block Grant reflects prior Council action. In Fiscal Year 2013, the department is planning to process a City Council action to authorize a transfer of \$45,000 from Americans with Disabilities Improvements, Capital Outlay Fund.

**Description:** This project provides for a new picnic shelter near the skate park within Paradise Hills Community Park. The Americans with Disabilities Act (ADA) accessible path of travel from the existing parking lot to the new picnic shelter will also be upgraded.

**Justification:** The picnic shelter was identified by the community as an amenity to add to the park by utilizing the telecom site access fee (Antenna Lease Revenue) funds when additional funds were available to supplement the telecom site access fee fund.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Skyline/Paradise Hills community plan and is consistent with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2010. Construction was completed in Fiscal Year 2011.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

**Description:** This annual allocation provides for matching fund requirements and other unfunded needs for projects funded with alternative financing, which includes grants and private donations.

**Justification:** Grant match funding greatly enhances the Park and Recreation Department's ability to secure grants and donations to provide funding for projects.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Funds will be used as grants and alternative financing are identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the renovation and replacement of existing asphalt medians along Pomerado Road north of Rancho Bernardo Road with landscape improvements and accompanying stamped concrete at various locations.

**Justification:** This project will enhance the appearance of the corridor through the replacement of deteriorating medians.

**Operating Budget Impact:** Newly planted medians will require additional maintenance which will be funded from the Rancho Bernardo Maintenance Assessment District. The estimated cost to maintain the enhanced medians will become known once design is completed.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Bernardo Community Plan and it is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013, with construction to follow after design is completed.

**Summary of Project Changes:** An additional \$250,000 of Rancho Bernardo Maintenance Assessment District funding has been allocated to this project in Fiscal Year 2013. The project scope includes medians north of Rancho Bernardo Road.

**Description:** This project provides for preparation of a master plan to restore, enhance, and manage the archaeological and historical resources at Presidio Park. Phase I provided for consultant services to oversee a task force of selected professional archaeologists, geologists, and historians who studied the park site and developed a program that will become the basis for the master plan. Phase II completes the master plan effort.

**Justification:** This master plan will guide the restoration, enhancement, and management of the archaeological and historical resources over a 20-year period.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Old San Diego Community Plan and is in conformance with the City's General Plan.

**Schedule:** Phase I of this project is complete. Phase II will be scheduled as funding is identified and becomes available.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

**Description:** This project provides for accessibility improvements to the facility to meet Americans with Disabilities Act (ADA) and Title 24 requirements. Upgrades will include the replacement of sidewalks and curb ramps, repaving the existing parking lot and painting parking stalls for ADA parking requirements, and replacing restroom doors and door handles, office doors and thresholds.

**Justification:** These improvements are necessary to meet Americans with Disabilities Act (ADA) and Title 24 requirements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Bernardo Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction were completed in Fiscal Year 2011.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

**Description:** This project provides for streetscape improvements along arterial roadways within the Rancho Bernardo Maintenance Assessment District, including but not limited to the installation of decorative brick pavers, synthetic turf, decorative paving, and low water use demonstration planting projects.

**Justification:** The medians along arterial roadways in Rancho Bernardo Maintenance Assessment District were built in the late 1960's and are in need of refreshing. An existing brick median along Pomerado Road near Highland Valley Road is deteriorating. Existing turf medians may use more water than other landscaping applications; this project intends to reduce water usage.

**Operating Budget Impact:** These medians are currently maintained by the Rancho Bernardo Maintenance Assessment District (MAD). Any increased maintenance that results from a change in design to these medians will be funded by the Rancho Bernardo MAD.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Bernardo Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary design and community input began in Fiscal Year 2012. Design and construction are likely to begin in Fiscal Year 2013.

**Summary of Project Changes:** An additional \$25,000 is allocated to this project for Fiscal Year 2013.

**Description:** This project provides for landscape infrastructure to irrigate native plant material within the north public right-of-way along Rancho Bernardo Road from west of West Bernardo Drive to just north of Matinal Road near an existing soundwall. This project may also include landscape enhancements.

**Justification:** Installation of a landscape infrastructure would provide for a permanent water source to ensure the viability of native plants.

**Operating Budget Impact:** This area is an identified area of maintenance for the Rancho Bernardo Maintenance Assessment District.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Bernardo Community Plan and is in conformance with the City's General Plan.

**Schedule:** Water meter and irrigation system installation were scheduled for Fiscal Year 2012.

**Summary of Project Changes:** No major changes are anticipated for this project in Fiscal Year 2013.

| <b>Improv Type:</b> New                 | smahmalji@sandiego.gov                      |

**Description:** This project provides for development of approximately six acres for a neighborhood park to include active and passive uses, parking lot, playground, comfort station and lighted ball fields.

**Justification:** This park will provide additional amenities above the the population-based park acreage requirements set forth in the City's General Plan due to an extraordinary benefits agreement.

**Operating Budget Impact:** Maintenance and operations will be administered by a Maintenance Assessment District set up Fiscal Year 2007 specifically established for this park.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Encantada Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2008. This is a turn-key park built by the Developer team per a reimbursement agreement. Construction is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** An increase of \$13,000 of Facilities Benefit Assessment Funds is anticipated for Fiscal Year 2013.

| <b>Improv Type:</b> New                   | apalaseyed@sandiego.gov                    |

**Description:** This project provides for five permanent monument signs to be located in center medians throughout the Rancho Penasquitos community. The monument signs will read Welcome to Rancho De Los Penasquitos and may include faux rocks and solar lighting.

**Justification:** The existing monument signs need to be replaced because the signs have been destroyed or damaged by vehicle accidents.

**Operating Budget Impact:** The signs will be installed in locations already maintained by the Park Village Maintenance Assessment District and Penasquitos East Maintenance Assessment District.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Penasquitos Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction began and was completed in Fiscal Year 2012.

**Summary of Project Changes:** No changes are anticipated for this project in Fiscal Year 2013.

**Description:** This project provides for the replacement and upgrade of previously existing wooden skateboard ramps and structures, and installation of shade structures for park users.

**Justification:** This project will provide upgraded and additional recreation amenities to serve the residents of Rancho Penasquitos which is park-deficient by General Plan standards.

**Operating Budget Impact:** Operation and maintenance funding for this facility is included in the Park and Recreation budget.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Penasquitos Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2012 and construction is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Duration:</b> 2010 - 2020      | 619-235-5257                            |
| <b>Improv Type:</b> New           | jwinter@sandiego.gov                    |

**Description:** This annual allocation provides funding for planning and implementation of permanent public capital improvements, including land acquisitions for San Diego regional parks in accordance with City Charter, Article V, Section 55.2.

**Justification:** San Diego's regional park system contains recreation resources unique to the City. Parks such as Balboa Park, Mission Bay Park, Mission Trails Regional Park, Otay River Valley Park, and San Diego River Park, as well as open spaces and coastal beaches, help define the City's identity, enrich the quality of life for residents, and serve as visitor attractions that strengthen the local economy. These regional treasures are threatened by increasing use and a backlog of needed improvements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community and park master plans and is in conformance with the City's General Plan.

**Schedule:** Design and construction will be scheduled in accordance with the scope of the various sublet projects and as funds become available. Revenue for the Regional Park Improvement Fund would be received when total Mission Bay Park lease revenues fall over a specified threshold (\$23M through FY 2014 and \$20M thereafter). Revenue in excess of these thresholds would be allocated to the Mission Bay Improvements Fund.

**Summary of Project Changes:** Regional park funding is allocated to this project on an annual basis.

| <b>Improv Type:</b> New           | sharwell@sandiego.gov                      |

**Description:** This annual allocation provides for developing public facilities within the City's resource-based (Parks to Population Ratio - approximately 20 acres/1,000 people, Population Based: 2.8 acres, Resource Based/Open Space: 16.0 acres, Athletic Areas/Mini Parks: 1.6 acres) open space parks, including Los Penasquitos Canyon Preserve, Mission Trails Regional Park, Marian Bear Memorial Park, Tecolote Canyon Natural Park, Otay Valley Regional Park, Rose Canyon and other open space parks such as Black Mountain. Other open space systems may be included as additional acquisitions are completed.

**Justification:** The City's open space acquisitions have resulted in increased interest by citizens, elected representatives, and government agencies in commencing development of open space public facilities, which are consistent with open space concepts such as trails, signs, historic site improvements, picnic facilities, and entry points.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Design and construction will be phased in accordance with the scope of various sub-projects.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for land acquisition and development of a 4.9 useable acre neighborhood park at a site located in the Riviera del Sol Subdivision.

**Justification:** This project provides population-based park acreage in accordance with the City's General Plan standards to accommodate the park and recreational needs of the residents within the Riviera del Sol Subdivision.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$60,000 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa Community Plan, the Riviera del Sol Precise Plan, and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and is ongoing.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the design and construction of joint-use athletic fields at Roosevelt Junior High School. Phase I of the project provides for 1.8 useable acres of joint-use and paved walking path surrounding the field area. Future phases will provide an additional 1.9 useable acres of joint-use artificial turf, joint-use parking, a comfort station, overhead shade structures, and other amenities.

**Justification:** This project will contribute to satisfying the population-based park acreage requirements set forth in the City's General Plan.

**Operating Budget Impact:** Operation and maintenance funding for Phase I of this facility was previously included in the Park and Recreation budget.

**Relationship to General and Community Plans:** This project is consistent with the Balboa Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2011. Construction is scheduled to begin and anticipated to be completed in Fiscal Year 2013. Future phases will be scheduled upon identification of funding.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for removal of a small island of sediment within the San Diego River near the Murray Creek outfall at the western end of Hazard Center Drive.

**Justification:** This project will protect adjacent property from potential flooding during rain events.

**Operating Budget Impact:** Soundings of the river and other ancillary costs related to maintaining the San Diego River channel between State Route 163 and Qualcomm Way are part of the maintenance obligations of the First San Diego River Improvement Project Maintenance Assessment District.

**Relationship to General and Community Plans:** This project is consistent with the Mission Valley Community Plan and the First San Diego River Improvement Project Natural Resource Management Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2010 and construction is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** This project will receive \$639,000 in Deferred Capital Bond financing from a Fiscal Year 2012 Council action.

**Description:** This project provides for the design and construction of lighting systems for the two multi-purpose sports fields at the San Ysidro Athletic Area/Larsen Field.

**Justification:** This project is needed to expand the hours of facility use and its capacity to serve the community's residential growth.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The project's final design has not been approved, therefore, the current cost estimate of \$7,300 is based upon the Park and Recreation Department's current cost to maintain sports field lighting in various parks.

**Relationship to General and Community Plans:** This project is consistent with the San Ysidro Community Plan and is conformance with the City's General Plan.

**Schedule:** Construction is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** Developer Impact Fees (DIF) have been allocated to this project for Fiscal Year 2013.

**Description:** This project provides design and construction of improvements to enhance the 19.3 acre site currently maintained by the Presidio Little League. The improvements may include walkways, an entry monument, picnic areas, paved parking lots and roadways, landscaping, and irrigation upgrades for the existing athletic fields.

**Justification:** This project will contribute to satisfying population-based park acreage requirements set forth in the City's General Plan in a community currently deficient in population-based parks per General Plan Guidelines.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Valley Community Plan and is in conformance with the City's General Plan. During preparation of the General Development Plan, the community expressed a concern regarding approval of the park plan without finalization of the draft San Diego River Master Plan. Therefore, approval of the Park General Development Plan was put on hold pending approval of the River Park Master Plan, at which time compliance with the document can be determined.

**Schedule:** Design began in Fiscal Year 2007 and is currently on hold. Approval of the Park General Development Plan is on hold pending approval of the River Park Master Plan. Construction will be scheduled as funding is identified.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Replacement - Rehab | adarvishi@sandiego.gov                    |

**Description:** This project provides for permanent public capital improvements and deferred maintenance of existing facilities in Balboa Park in accordance with Ordinance 0-19113 and Municipal Code section 22.0229.

**Justification:** Balboa Park, as well as open spaces and coastal beaches, helps define the City's identity, enriches quality of life and serves as a visitor attraction that strengthens the local economy. This regional treasure is threatened by increasing use and a backlog of needed improvements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Balboa Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Phase I of this project provided for televising, repair, and replacement of sewer laterals in 20 build-ings. Future phases were not necessary as no additional clogging of the sewer lines have been reported. This project is now deemed complete.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

**Description:** This project provides for the design and construction of multi-purpose sports fields and security lighting systems at the Silver Wing Neighborhood Park. The project will be phased with Phase I consisting of the lighting systems' design. Subsequent phases will be implemented as funding becomes available.

**Justification:** This project is needed to expand the hours of facility use and its capacity to serve the community's residential growth, and will provide a more secure facility.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa Nestor Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2012. Construction will be phased as funding is identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Replacement    | hgreenstein@sandiego.gov                       |

**Description:** This project will replace an existing playground within Balboa Park's West Mesa along Sixth Avenue. It will include necessary improvements to comply with the American's with Disabilities Act, including upgrade or replacement of the existing comfort station, replacement of drinking fountains and improvements to the paths of travel.

**Justification:** The existing playground equipment has reached the end of its useful life and needs to be replaced. A majority of the existing playground is not accessible to people with disabilities. This project will bring the playground into conformance with current accessibility standards.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project complies with the Balboa Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design is complete. Construction will be scheduled when funding is identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Betterment               | jmontoya@sanidiego.gov                    |

**Description:** This project will remove accessible barriers and bring the kitchen within the South Clairemont Recreation Center into compliance with the American's with Disabilities Act (ADA). The project includes the replacement of all kitchen cabinets, sink and plumbing, electrical components, counter tops and a pass through between the kitchen and the adjacent activity room. New flooring will be installed and the entire kitchen area repainted.

**Justification:** The project will remove accessible barriers and make the kitchen fully ADA compliant, enabling citizens with disabilities to utilize the kitchen facilities within the recreation center.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Clairemont Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Project was completed in Fiscal Year 2012.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

**Description:** This project provides for design and construction of an approximate 5.8 gross acre, 2.0 usable acre, neighborhood park in the Southcrest Neighborhood of the Southeastern Community Plan Area. Improvements may include picnic shelters, children's play area, hardcourts, walkways, fencing, amphitheater, open turf areas, security lighting, and site furnishings.

**Justification:** This project provides for additional park land in an extremely park deficient area.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The project's final design has not been approved, therefore, the current cost estimate of \$13,390 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the Southeastern Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2010 and is scheduled to be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013 and is scheduled to be completed in Fiscal Year 2014.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Duration:</b> 2010 - 2013       | 619-533-5139                              |
| <b>Improv Type:</b> New            | koliver@sandiego.gov                      |

**Description:** This project provides for the design and construction of an approximately two acre public neighborhood park within the Kearny Mesa Community. Improvements may include amenities such as children's play area, open turf area, walkways, picnic facilities, site furnishings, landscaping and security lighting and all associated Americans with Disabilities Act (ADA)/Title 24 requirements to comply with all State and federal accessibility guidelines and City standards.

**Justification:** This project will contribute to satisfying population-based park acreage requirements set forth in the City's General Plan and the Site Development Permit to serve the new residents to be generated by the Sunroad Centrum residential development. This project is a turn-key project to be implemented by the Sunroad developer pursuant to an approved park development agreement.

**Operating Budget Impact:** This facility will be maintained by the developer.

**Relationship to General and Community Plans:** This project is consistent with the Kearny Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction began in Fiscal Year 2012.

**Summary of Project Changes:** It is anticipated that funding will be contributed to the project in increments as provided for in the agreement until the project is complete.

**Description:** This project provides for a study to identify and analyze drainage and erosion issues at Sunset Cliffs National Park, recommend solutions, and provide environmental review of the recommendations.

**Justification:** Drainage and erosion improvements to the park are recommended in the Peninsula Community Plan and the Sunset Cliffs Natural Park Master Plan.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

**Schedule:** The study began in Fiscal Year 2006 and will continue through Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Betterment   | adarvishi@sandiego.gov                    |

**Description:** This project will complete improvements to the hillside portion of the Sunset Cliffs Natural Park, consisting of final project design documents, environmental review and construction documents. Future phases of this project may include construction of trails, habitat restoration, erosion control, removal of houses within the park, and the removal and return to natural vegetation of the softball field.

**Justification:** This project is needed to preserve and enhance the Sunset Cliffs Natural Park, one of the unique coastal environments in San Diego County. The project begins the implementation of the Sunset Cliffs Natural Park Master Plan which was approved in 2005.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2010 and is scheduled to be completed in Fiscal Year 2013. Construction will be scheduled when the project and funding is fully identified.

**Summary of Project Changes:** A project cost increase of \$120,000 reflects a revised engineer's estimate. An increase of \$120,000 in Regional Park Fund in Fiscal Year 2012 reflects Council R#307278.

**Description:** This project provides for Americans with Disabilities Act (ADA) improvements to the Swanson Standley Pool and includes providing a path of travel from public transportation and parking lot to the main building. Site amenities include improvements to the spectator area and to the interior and exterior women's and men's restrooms which will include dressing rooms, lavatories, toilets, urinals, and showers.

**Justification:** These improvements are necessary to meet ADA and Title 24 requirements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction began in Fiscal Year 2010 and was completed in Fiscal Year 2011.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

**Description:** This project provides for bridge landscaping, hardscape, tree planting, signage, sidewalk, median, design of traffic calming devices, and pedestrian safety features for the Switzer Canyon/30th Street Bridge.

**Justification:** This project provides for a variety of improvements within the boundaries of the Greater North Park Maintenance Assessment District (MAD), which will provide visual neighborhood enhancements and support commercial revitalization.

**Operating Budget Impact:** The North Park MAD will maintain this enhanced area. The operating budget impact of the improvement will become known after the project is designed. Maintenance of this area is identified as an improvement in the North Park MAD Assessment Engineer's Report.

**Relationship to General and Community Plans:** This project is consistent with the Greater North Park Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary design began in Fiscal Year 2010. Design and construction will be scheduled as funding becomes available.

**Summary of Project Changes:** An additional \$45,000 has been allocated to this project in Fiscal Year 2013.

**Description:** This project provides for upgrades and improvements to the existing lighting infrastructure in Zone 2 (West) of the Talmadge Maintenance Assessment District.

**Justification:** This project provides for improvements within the boundaries of the Talmadge Maintenance Assessment District which will provide visual neighborhood enhancements.

**Operating Budget Impact:** The Talmadge Maintenance Assessment District will maintain the enhanced street lights. Maintenance of this area is identified as an improvement in the Talmadge MAD Assessment Engineer's Report and the Talmadge Master Plan. The operating budget impact will be known after the completion of design.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: Kensington-Talmadge Community Plan and is in conformance with the City's General Plan.

**Schedule:** Street lighting installation is scheduled to completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the restoration of existing Talmadge Historic Gates and installation of new gates along sidewalks in the Talmadge neighborhood. Initial funding provides for restoration of existing gates only; additional funds in future years will provide for installation of new gates at other locations throughout the neighborhood.

**Justification:** The neighborhood of Talmadge is defined by historic gates located along the south side of Monroe Avenue at intersecting streets. These gates have been in existence for decades and are in need of restoration. Some are in danger of failing due to corrosion and decay. The budgeted allocations will provide for the restoration of these existing gates. Future phases in upcoming years will provide for installation of new gates that have been removed over the years or never were installed.

**Operating Budget Impact:** Talmadge Maintenance Assessment District (MAD) funds the maintenance of these gates.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: Kensington-Talmadge Community Plan and is in conformance with the City's General Plan.

**Schedule:** Restoration of existing gates is scheduled to begin in Fiscal Year 2013. Future phases, including installation of new gates, will occur as funding is identified.

**Summary of Project Changes:** An additional \$125,000 is allocated toward this project for Fiscal Year 2013.

**Description:** This project provides for streetscape and lighting improvements within the Talmadge Maintenance Assessment District (MAD). A prior phase of this project landscaped the traffic circle located at 49th Street, Adams Street, and Lorraine Drive. The current phase will install decorative street lighting throughout the neighborhood in conjunction with a utility undergrounding project. The MAD is divided into two zones (east and west). Ornamental lighting improvements are planned for Zone 1 (east). Upgrades and improvements to the existing lighting infrastructure are planned for Zone 2 (west). Companion projects are S00976, S00977, and S00978.

**Justification:** This project will enhance nighttime illumination, which should increase resident safety in Talmadge. Decorative elements in the lights will increase neighborhood identification and pride.

**Operating Budget Impact:** The Talmadge MAD will maintain the enhanced street lights and other improvements installed through this project. Maintenance of this area is identified as an improvement in the Talmadge MAD Assessment Engineer's Report and the Talmadge Master Plan. The estimated budget impact will be known after completion of design.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: Kensington-Talmadge Community Plan and is in conformance with the City's General Plan.

**Schedule:** Street lighting installation is scheduled to be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant changes has been made to this project in Fiscal Year 2013.

**Description:** This project provides for the reconstruction of a failed slope at the northeastern end of Presidio Park along Taylor Street.

**Justification:** This project is needed to stabilize the slope to prevent further deterioration and damage to Taylor Street. State and federal grants have been authorized for this project and will reimburse the General Fund upon completion of construction.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Old San Diego Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2007 and was completed in Fiscal Year 2008. Construction was completed in Fiscal Year 2010.

**Summary of Project Changes:** This project is complete and will be closed at the end of the fiscal year.

| <b>Project Status:</b> Released    | <b>Contact Information:</b> Mahmalji, Samir |
| <b>Duration:</b> 2011 - 2014       | 619-533-5301                                |
| <b>Improv Type:</b> New            | smahmalji@sandiego.gov                      |

**Description:** This project provides for the design and construction of a lighting system for the multi-purpose sports fields at the Tierrasanta Community Park.

**Justification:** This project is needed to expand the hours of facility use and its capacity to serve the community's residential growth.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The project's final design has not been approved, therefore, the current cost estimate of \$7,500 is based upon the Park and Recreation Department's current cost to maintain sports field lighting in various parks. Operational costs for the project will be revised as the project is refined. This park is maintained by the Tierrasanta Maintenance Assessment District with a standard contribution from the General Fund based on useable park acreage.

**Relationship to General and Community Plans:** This project is consistent with the Tierrasanta Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011. Construction will begin in Fiscal Year 2013.

**Summary of Project Changes:** The total project cost has been revised to \$600,000. The Tierrasanta Townhomes Tentative map approved by City Council in October 2006 requires a developer contribution of \$300,000 to be paid at the issuance of the building permits specifically for lighting at Tierrasanta Community Park. This developer contribution is expected to be paid in Fiscal Year 2013 and is added to the Fiscal Year 2013 anticipated budget. Additional funds that are eligible for this project include Stonecrest Open Space Funds 400219 and 400220 and Regency Hills Endowment Fund 400216. With the inclusion of these funds, the project is now fully funded.

**Description:** This project provides for the design and construction of a skateboard park within the Tierrasanta Community Planning Area at a location to be determined later.

**Justification:** This project provides for additional recreational opportunities in the community.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$25,000 - \$50,000 is based upon the Park and Recreation Department's estimated cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined and all amenities and unique site characteristics are considered.

**Relationship to General and Community Plans:** This project is consistent with the Tierrasanta Community Plan, and is in conformance with the City's General Plan.

**Schedule:** Design and construction will be scheduled when funding is identified.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

**Description:** This project provides for community identification signage and enhancements within the Torrey Highlands Maintenance Assessment District (MAD).

**Justification:** This project is consistent with the Torrey Highlands Maintenance Assessment District Assessment Engineer's Report and will provide signage to identify the boundaries of the community.

**Operating Budget Impact:** Signs will be located in landscaped areas already maintained by the Torrey Highlands Maintenance Assessment District (MAD). The additional maintenance impact should be minimal, although the design process may result in some minor increased cost associated with ongoing maintenance (such as sign lighting or focal landscaping around the sign). All additional costs will be funded by the Torrey Highlands MAD.

**Relationship to General and Community Plans:** This project is consistent with the Torrey Highlands Subarea Plan and it is in conformance with the City's General Plan.

**Schedule:** Community input and preliminary design began in Fiscal Year 2011 and is expected to be completed by the end of Fiscal Year 2012. Design and construction are scheduled to begin in Fiscal Year 2012 and to be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New                 | koliver@sandiego.gov                      |

**Description:** This project provides for the acquisition, design and construction of a five useable acre neighborhood park in Torrey Highlands adjacent to a proposed elementary school, including half-width street improvements and a comfort station.

**Justification:** This project will contribute to satisfying the population-based park acreage requirements set forth in the City's General Plan.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The project's final design has not been approved, therefore, the current cost estimate of \$58,500 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the Torrey Highlands Community Plan and is in conformance with the City's General Plan.

**Schedule:** Land Acquisition has been completed. Design and construction will be scheduled when funds become available. This schedule is dependent upon the actual rate of development within the Torrey Highlands Community.

**Summary of Project Changes:** It is anticipated that \$3,333,611 in Facilities Benefit Assessment (FBA) funding will be available for this project in Fiscal Year 2013.

**Description:** This project provides for Americans with Disabilities Act upgrades and improvements to the children's play area and path of travel within the park to comply with State and federal safety and accessibility guidelines. This project includes accessible parking, accessible site furnishings, accessible play area equipment and surfacing, accessible paths of travel as required and accessibility upgrades to existing comfort station.

**Justification:** This project is needed to upgrade existing site improvements and play area facilities to meet current State and federal safety and accessibility regulations.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley (North City West) Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction will be phased as funding is identified.

**Summary of Project Changes:** Accessibility upgrades to existing comfort station and path of travel upgrades from parking and playground area to existing comfort station will be included in scope of work.

**Description:** Design and construction of approximately 35,000 linear feet (6.5 miles) of bicycle, hiking and equestrian trails to be located throughout the community in accordance with the Torrey Highlands Subarea Plan. The System will consist of a network of paved (8,000 L.F.) improved multi-use (13,000 L.F.) and unpaved (14,000 L.F.) trails, together with a footbridge in the bottom of McGonigle Canyon.

**Justification:** The system of trails has been incorporated as a critical component of the Torrey Highlands Subarea Plan.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Torrey Highlands Subarea Plan and is in conformance with the City's General Plan.

**Schedule:** Funding has been phased to coincide with the acquisition and development of the right-of-way and open space parcels in which the trails will be located. Completion of this project will be concurrent with development build-out.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

**Description:** This project provides for recreational improvements on four undeveloped acres within the Torrey Hills Neighborhood Park. Improvements may include a recreation center, parking area, and/or other park amenities as determined through a community input process.

**Justification:** This project will contribute to satisfying population-based park requirements set forth in the General Plan to serve residents in this park-deficient community.

**Operating Budget Impact:** This facility will require an on-going budget for personnel and non-personnel expenses. The project's final design has not been approved; therefore, the current cost estimate of \$46,800 is based on the Park and Recreation Department's current cost to maintain various developed park areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the Torrey Hills/Sorrento Hills Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled in Fiscal Year 2013. Construction will be scheduled subsequent to General Development Plan completion.

**Summary of Project Changes:** This is a newly published project for Fiscal Year 2013.

| <b>Improv Type:</b> New             | lkuzminsky@sanidiego.gov                     |

**Description:** This project will provide for an enhancement of an easement area located under San Diego Gas and Electric (SDG&E) power transmission lines at the southwest corner of East Ocean Air Drive and Corte Mar Asombrosa within the Torrey Hills Maintenance Assessment District.

**Justification:** The community desires enhanced, natural planting at this location that would be similar to the other planted areas in Torrey Hills.

**Operating Budget Impact:** The Torrey Hills Maintenance Assessment District will provide for maintenance costs associated with this project. The operating budget impact will be determined upon completion of design.

**Relationship to General and Community Plans:** This project is consistent with the Torrey Hills Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** No major changes are anticipated for Fiscal Year 2013.

| <b>Improv Type:</b> Betterment    | jharkness@sandiego.gov                        |

**Description:** This project provides for the preparation of a General Development Plan and associated environmental review for 44.0 acres of the 447.0 gross acre park located off North Torrey Pines Road. The General Development Plan will incorporate the Glider Port Leasehold and will provide guidance for the development and protection of the park's sensitive habitat and historic attributes. Amenities may include passive use areas, viewing platforms, access road, public parking lot, trail, beach access and accessibility improvements, two new public comfort stations and park signage.

**Justification:** This project is required pursuant to a settlement agreement between the City and the Coastal Law Enforcement Action Network for violations resulting from unapproved on-site grading activities by the Lessee. Additionally, the park site is located in a community deficient in parks and recreational facilities per the City's General Plan.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2009 and will be completed in Fiscal Year 2013. Construction will be scheduled pending funding availability.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides for the unexpected replacement of minor capital assets on an as-needed basis at the City's Municipal Golf Course - Torrey Pines.

**Justification:** This annual allocation will provide a capital assets cost-avoidance program allowing for the timely replacement of unanticipated failure of golf capital assets.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and replacement of minor capital assets will be implemented on an as-needed basis.

**Summary of Project Changes:** Future funding to be allocated upon identification of need. No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for permit issuance, and design and construction of a 1,300 linear foot paved trail to accommodate people of all physical abilities. The trail will be located on an existing unpaved trail alignment within the Black Mountain Open Space Park off of Miner's Ridge Loop staging area. Associated amenities and support facilities may include a shaded viewing pavilion, wayfinding and interpretive signage/exhibits, information kiosks, and benches.

**Justification:** This project will provide a unique trail experience for park users, specifically persons with disabilities and is a high priority for the Black Mountain Ranch Open Space Park Citizen's Advisory Committee, as well as the Rancho Penasquitos Community Planning Group.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. Operational costs will be determined subsequent to design development.

**Relationship to General and Community Plans:** The project is consistent with the Black Mountain Open Space Natural Resource Management Plan, and is in conformance with the City's General Plan.

**Schedule:** Site design and permitting is scheduled in Fiscal Year 2013. Construction is scheduled in Fiscal Year 2014.

**Summary of Project Changes:** This is a newly published project for Fiscal Year 2013.

**Description:** This project provides for the design and construction of 7.0 acres of lighted multi-sports fields at a location west of Trenea Street on San Diego Unified School District-owned property. This project will require a joint-use agreement between the City of San Diego and the San Diego Unified School District.

**Justification:** This project will contribute to satisfying the population-based park acreage requirements set forth in the City's General Plan.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$81,900 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as all amenities and unique site characteristics are refined.

**Relationship to General and Community Plans:** This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** The scheduling of construction is dependent on the negotiation of a joint-use agreement with the school district and contingent upon the rate of development and Facilities Benefit Assessment (FBA) fees collected in the community.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for design and construction of approximately 1.2 acres of joint use facilities at Tubman Charter School to supplement existing park acreage in the College Area Community. Improvements may include synthetic turf multi-purpose fields, multi-purpose hardcourts, walkways, landscaping and accessibility upgrades.

**Justification:** This project will contribute to satisfying population-based park acreage requirements set forth in the General Plan to serve residents in this park-deficient community.

**Operating Budget Impact:** This facility will require an on-going budget for personnel and non-personnel expenses. The project's final design has not been approved, therefore, the current operating cost estimate of \$14,040 is based on the Park and Recreation Department's current cost to maintain various similar facilities.

**Relationship to General and Community Plans:** This project is consistent with the College Area Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013. Construction will be scheduled when funding is received from developer contributions.

**Summary of Project Changes:** This is a newly published project for Fiscal Year 2013.

| <b>Improv Type:</b> New           | jharkness@sandiego.gov                        |

**Description:** This project provides for a new children's play area where no playground currently exists. The new play area would be geared toward children between 2 and 5 years of age, including path of travel accessibility improvements.

**Justification:** This project will contribute to satisfying population-based park requirements set forth in the General Plan to serve residents in this park-deficient community.

**Operating Budget Impact:** This facility will require an on-going budget for personnel and non-personnel expenses. The project's final design has not been approved, therefore, the current cost estimate of \$27,000 is based on the Park and Recreation Department's current cost to maintain various developed park areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013. Construction will be scheduled when additional funding is identified.

**Summary of Project Changes:** This is a newly published project for Fiscal Year 2013.

**Description:** This project provides for the acquisition, design and construction of approximately 0.46 acres (composed of three separate parcels) of unimproved property. The project will expand useable park acreage in the Southeastern San Diego-Encanto Neighborhoods Community. Improvements will include amenities such as multi-purpose turf areas, a children's play area, seating, walkways, landscaping, and security lighting.

**Justification:** This project will contribute to satisfying population-based park acreage requirements set forth in the City's General Plan in a community currently deficient in population-based parks per General Plan guidelines.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The project's final design has not been approved; therefore the current cost estimate of \$5,369 is based upon the Park and Recreation Department's current cost to maintain various landscape areas. Operational costs for the project will be revised as the project is refined.

**Relationship to General and Community Plans:** This project is consistent with recommendations of the Southeastern San Diego-Encanto Neighborhoods Community Plan, and is in conformance with the City's General Plan.

**Schedule:** Property acquisition was completed in Fiscal Year 2011. Design and construction of the project will be scheduled as funding is identified.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

**Description:** This project provides for preparation of a comprehensive site assessment of current conditions within the vicinity of 378 Valencia Parkway and recommend alternatives, construction costs, required discretionary permits, specific reports and studies necessary to implement the preferred solution to re-establish the storm water conveyance system. A large section of the brow ditch has collapsed and a large gaping haole has formed causing erosion and is a hazard to the public.

**Justification:** A large section of the original brow ditch storm water conveyance system on the west side of Valencia Parkway has collapsed and storm water is no longer flowing as designed. A large hole has formed and continues to grow with each rainy season. The hole is approximately ten feet deep and is a hazard to the public.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** The project is consistent with the Southeastern San Diego Community Plan and is in conformance with the City's General Plan.

**Schedule:** Site Assessment and Design is scheduled for Fiscal Year 2013. Construction is scheduled for Fiscal Year 2014.

**Summary of Project Changes:** This is a newly published project for Fiscal Year 2013.

**Description:** This project provides for Americans with Disabilities Act (ADA) accessibility upgrades and improvements to the park site and to the children's play area. The project will provide for accessible paths of travel within the park, upgrades to the comfort station and concession stand, upgrades to existing site furnishings, and upgrades to the parking area. This project upgrades both play areas to meet current accessibility standard by providing new play equipment, safety surfacing, and upgrades seating near the play areas.

**Justification:** This project is needed to upgrade existing site improvements and play area facilities to meet current federal and State safety and accessibility regulations.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Penasquitos Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction began in Fiscal Year 2012.

**Summary of Project Changes:** No significant changes has been made to this project for Fiscal Year 2013.

**Description:** This project provides Americans with Disabilities Act upgrades and improvements to the children's play area and path of travel within the park required to comply with all State and federal accessibility guidelines and City standards. This project includes a new accessible onstreet parking space, site furnishings, play area equipment and surfacing.

**Justification:** The Americans with Disabilities Act (ADA) of 1995 requires that children's play areas provide like facilities for all children regardless of physical ability. This includes equipment, as well as a resilient surfacing which is accessible to persons with disabilities. This project will also upgrade the children's play areas to be fully compliant with current State safety regulations and Federal ADA requirements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is in conformance with the Mira Mesa Community Plan and the City's General Plan.

**Schedule:** Construction was scheduled to begin Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Betterment    | koliver@sandiego.gov                      |

**Description:** This project provides for the design and construction of approximately four acres at Wegeforth Elementary School for joint-use facilities to supplement existing park acreage in the Serra Mesa Community. Phase I joint-use improvements may include turf multi-purpose sports fields, multi-purpose courts, walkways, landscaping, and accessibility upgrades. Phase II improvements may include a comfort station.

**Justification:** This project will contribute to satisfying the population-based park acreage requirements set forth in the City's General Plan.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$46,200 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as all amenities and unique site characteristics are refined.

**Relationship to General and Community Plans:** This project is consistent with the Serra Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2009 and is scheduled to be completed in Fiscal Year 2012. Construction is scheduled to start in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for replacement of the destroyed identification sign located on Rancho Bernardo Road east of Interstate 15 and west of Bernardo Center Drive within the Rancho Bernardo Community.

**Justification:** This project is an identified improvement in the Rancho Bernardo Maintenance Assessment District. The existing sign was destroyed in a vehicle accident and is in need of replacement. The Rancho Bernardo MAD Citizen's Advisory Committee has approved full funding for this project to replace this sign (using proceeds from the insurance settlement).

**Operating Budget Impact:** Maintenance of the sign, including repair due to vandalism or vehicle accidents, removal of graffiti, general upkeep and cleaning, and ancillary landscaping and lighting, will be funded by the Rancho Bernardo Maintenance Assessment District.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Bernardo Community Plan and it is in conformance with the City's General Plan.

**Schedule:** Design and construction are scheduled to begin in Fiscal Year 2013 at the completion of the community input phase.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

**Description:** This project provides for design and construction of a 0.35 acre mini-park within the West Lewis and Falcon Streets rights-of-way. Amenities include hardscape, landscape, irrigation, seating areas, and interpretive sign.

**Justification:** This project will contribute to satisfying the population-based park acreage requirements set forth in the City's Progress Guide and General Plan.

**Operating Budget Impact:** This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$5,000 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as all amenities and unique site characteristics are refined.

**Relationship to General and Community Plans:** This project is consistent with the Uptown Community Plan and is in conformance with the City's General Plan.

**Schedule:** The first phase of construction began in Fiscal Year 2011 and was completed in Fiscal Year 2012. The second phase is currently unfunded, but design is anticipated to be completed and construction commencing in Fiscal Year 2014.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for beach access and parking lot improvements, and protection of cliffs and beaches through storm drain erosion control at Windansea Beach. The improvements will be completed in phases as funding becomes available. Phase I includes the construction of three sets of stairs. Phase II includes parking lot and drainage improvements. Future phases may be necessary to address the protection of cliffs and beaches through storm drain erosion control.

**Justification:** This project will provide stairs to the beach, coastal bluff stability, improve storm water protection through upgrades to the existing storm drain systems, and parking lot improvements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** Phase I construction was completed in Fiscal Year 2004. Design for Phase II began in Fiscal Year 2008 and construction began in Fiscal Year 2009. Construction was completed in Fiscal Year 2011.

**Summary of Project Changes:** Project is complete and will be closed at the end of the fiscal year.

**Description:** This project provides for Americans with Disabilities Act upgrades and improvements to the children's play area and path of travel within the park to comply with State and federal safety and accessibility guidelines. This project includes an accessible on-street parking space, curb ramp, site furniture, and accessible play area equipment and surfacing.

**Justification:** This project is needed to upgrade existing site improvements and play area facilities to meet current federal and State safety and accessibility regulations.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley (North City West) Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design will not begin until full funding is identified. Construction will be phased as funding is identified.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

# Police

The San Diego Police Department (SDPD) serves approximately 1.3 million residents with professionalism, dependability and integrity. In addition to the full-service headquarters building, the department is represented by nine area commands located throughout the 329.6 square miles covered. San Diego is divided into 19 service areas which encompass 123 neighborhoods.

The dependability of SDPD can only be accomplished through the consistent management of its varied facilities which allows the practice of community-based policing and problem-solving, known as Neighborhood Policing. The two largest area command facilities are Central Division and Mid-City Division (24,000 square feet each). These facilities serve geographical areas of 9.7 square miles and 12.8 square miles, respectively. The largest geographical area of the city (103.8 square miles) is served by the Northeastern Area Station (16,533 square feet). SDPD's Capital Improvement Program plays an important role in addressing the needs of such existing facilities. Deferred maintenance bond funding has provided the means for department CIP projects to focus on keeping the facilities updated, dependable and accessible. Future projects will be focused on deferred maintenance, energy efficiencies, facility overhauls and development of regional assets.

## 2012 CIP Accomplishments

In Fiscal Year 2012, the Police Department accomplished the following:

- The preliminary design phase of the Police Range Refurbishment project is now complete. Plans have been reviewed and approved by the Development Services Department. Also, City Council approval was obtained.
- A major accomplishment this year was the much needed roof repairs and replacement of 18 energy-efficient HVAC (heating, ventilation and air-conditioning) systems at Mid-City Division. Funding was made possible via deferred maintenance bond funding.
- Various small construction projects were completed which allowed for the removal and replacement of aged and highly damaged roofing material at six area command facilities, including Eastern, Traffic, Southeastern, Southern, Western and Northeastern. Deferred maintenance bond funding was utilized for these projects.
- The window re-sealing project at the Police Department's headquarters building was completed. This was necessary due to the age of previous seals. Deferred maintenance bond funding was utilized for this project.

## 2013 CIP Goals

The San Diego Police Department is looking forward to Fiscal Year 2013 due to variety of projects funded through the CIP which are slated for the design phase or completion.

- Finalization of architectural design for the Police Shooting Range Refurbishment project, which includes: new bullet recovery systems; new retaining walls; ADA improvements to existing restrooms and walkways; replacement of the earthen embankments with tilt up walls; a trash collection facility; the addition of disabled parking spaces; drainage improvements; soil remediation and restoration of the historical shade structures.
- Completion of roof replacement at the Police Department headquarters building.
- Completion of electrical and plumbing upgrades at the Police Department headquarters building. In addition to the replacement of front entrance doors to meet ADA requirements.

**Description:** This project will replace existing engines and system components necessary to provide for system reliability.

**Justification:** This project will provide the facility with more reliable power during emergency operation events.

**Operating Budget Impact:** The maintenance contract to service the two engines plus absorber will cost approximately \$60,000 annually. Additional natural gas costs can run at an estimated cost of \$10,000 annually.

**Relationship to General and Community Plans:** This project is consistent with the Centre City Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and was completed in Fiscal Year 2012. Installation of co-generation components is scheduled for Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project will provide for the repair, replacement and maintenance of the existing police shooting range located on Federal Boulevard. The project includes the demolition of dilapidated bullet back stops, removal of lead contaminated soil berms, hauling of excess soil off site, drainage improvements, installation of retaining walls and the installation of new bullet recovery systems.

**Justification:** This project will provide for the repair and maintenance of the existing police shooting range.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: City Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** Project began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2014. Construction is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** Design of project will start in late Fiscal Year 2012. Construction is anticipated to begin at end of Fiscal Year 2013.

**Description:** The City Council approved a Joint Powers Authority between the City of San Diego, County of San Diego and San Diego Community College District for the development, financing and administration of the Regional Public Safety Training Institute (RPSTI). This project provides for an Emergency Vehicle Operations Course (EVOC) training facility in the Camp Nimitz area of the former Naval Training Center. The Naval Training Center Reuse Plan, approved by the Department of the Navy and City Council, set aside 24.7 acres for the purpose of a public safety training facility. The City's projected share of the total cost of the project will be funded jointly by the San Diego Fire-Rescue and Police Departments.

**Justification:** The expansion of the campus at Miramar College has required the relocation of law enforcement training, specifically the EVOC, to QUALCOMM Stadium. Construction of an EVOC will allow for consistent training of all emergency responders countywide.

**Operating Budget Impact:** The impact on the Police Department's operating budget cannot be determined at this time due to the unavailability of detailed project information. This project would impact the operating budget of the Police and Fire-Rescue Departments. Additional staffing may be established through the other Joint Powers Authority.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

**Schedule:** The project description is preliminary and the scope of work is not established; only planning and other preliminary activities have been performed to date. The project schedule for the design and construction will be established once the scope of work is approved and the remaining funding identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

## **Public Utilities**

## Public Utilities

The Public Utilities Department provides water, wastewater, and recycled water services to approximately 1.3 million water customers and 2.5 million wastewater customers within the San Diego region. The Department's Capital Improvement Program (CIP) supports the infrastructure for reliable water supply and wastewater collection and treatment. The water system extends over 404 square miles with demands of approximately 200 million gallons per day (mgd). This system includes 49 water pump stations, 29 treated water storage facilities, three water treatment plants, and over 3,000 miles of pipelines. The Department also manages the recycled water system, which includes three pump stations and over 80 miles of purple pipe delivering an annual average of over 10 mgd for irrigation, manufacturing, and other non-potable uses. The wastewater system consists of the Municipal (Muni) System and Metropolitan (Metro) System. The Muni System consists of approximately 3,000 miles of pipelines and 79 sewer pump stations including East Mission Gorge Pump Station, Sewage Pump Station No. 64, Sewage Pump Station No. 65, and Penasquitos Pump Station, and is primarily used to collect and convey wastewater from residences and businesses in the City of San Diego. The Metro System consists of three wastewater treatment plants, one biosolids processing facility, four large pump stations and two outfalls, and provides treatment and disposal services for the City and 15 other agencies and districts within a 450 square mile area stretching from Del Mar to the north, Alpine and Lakeside to the east, and San Ysidro to the south.

Funding for water and wastewater projects are provided by a variety of sources which include bond financing, water and sewer rates, state revolving fund loans, and grants. The CIP program includes water projects contained in the Compliance Order from the California Department of Public Health (DPH) and the execution of the Environmental Protection Agency (EPA) Consent Decree projects for the wastewater system. These projects will meet the requirements of the federal Safe Drinking Act and Clean Water Act, and provide for the needed replacement/rehabilitation of aging infrastructure.

## 2012 CIP Accomplishments

The Public Utilities Department, in cooperation with the Public Works Department- Engineering & Capital Projects, oversees the design and construction of water, wastewater, and recycled water projects. FY 2012 project highlights included:

Construction of the Water Purification Demonstration Project's one-mgd advanced water purification facility was completed. The 12-month testing and operational period commenced immediately following construction and will end in July 2012. The facility treats tertiary-treated water produced at the North City Water Reclamation Plant and is equipped with micro-filtration and ultra-filtration, reverse osmosis, and an ultraviolet light-hydrogen peroxide advanced oxidation process. The Demonstration Project Report will document the facility's water quality results and findings from all other project components.

Construction was completed on North County Sewer Pump Station Upgrades which consisted of six pump stations in Rancho Bernardo and one off Via de la Valle. The scope of work included emergency storage tanks, pump and motor replacement, exterior lights, emergency pump connections, flow meter additions, landscaping, and electrical upgrades.

Construction began on Pipeline Rehabilitation Phase L-1 to rehabilitate 40,984 linear feet of existing 8-inch sewer main and laterals, including rehabilitation or replacement of manholes, installation of

## Public Utilities

new cleanout and sewer laterals, and pipeline point repairs in the Torrey Pines and La Jolla communities.

Construction began on the Torrey Pines/La Jolla Blvd Phase 3 Water Main Replacement which consists of replacing 3,706 linear feet of existing 16-inch cast iron pipe with 3,929 linear feet of PVC pipe on La Jolla Shores Drive from Avenida de la Playa to just north of Ruelle Monte Carlo.

Construction began on the Palm City Trunk Sewer which consists of the installation of 8,906 linear feet of 8-inch and 15-inch diameter PVC sewer mains and abandonment of existing 8-inch, 10-inch, and 12-inch and 15-inch vitrified clay (VC) sewer mains in the Otay Mesa-Nestor Community Area.

Construction began on the Los Penasquitos Recycled Waterline which consists of constructing 9,776 linear feet of 24.-inch Polyvinyl Chloride (PVC) purple pipe. The majority of the pipe will be installed in the public right-of-way (underground) including Park Village Road, Camino Del Sur and the Canyonside Park access roadway.

The East Point Loma Trunk Sewer project utilized state of the art trenchless technologies to rehabilitate approximately 4,932 linear feet of existing 27-inch and 3,229 linear feet of 30-inch vitrified clay sewer mains, sewer manholes, and sewer lateral reinstatements in the Peninsula and Midway-Pacific Highway Community areas. The project utilized Cured-in-Place pipe (CIPP) lining technology and extensive large diameter bypass operations to convey sewage flows up to 3.5 mgd during construction. The City saved approximately \$17.3 million by lining the existing pipe at an estimated total cost of \$3.3 million versus the original open trench cost of \$20.6 million.

In FY 2012, the DPH Compliance Order requires that 10 miles of Water Main replacement be awarded. The EPA Consent Decree requires 45 miles of Sewer Main replacement/rehabilitation/repair. The Department anticipates awarding 20 miles of Water Main replacement and completing 60 miles of Sewer Mains.

In Fiscal Year 2012, the Department televised 54.75 miles of sewer mains. In total, the Department has televised over 1,600 miles of sewer mains and has identified over 540 miles needing replacement or rehabilitation in the next 20 years.

### 2013 CIP Goals

In FY2013, the Public Utilities Department's goal is to continue to provide safe, healthful drinking water to the 1.3 million residents of San Diego, and regional wastewater treatment and disposal services for the 2.5 million wastewater customers in the San Diego region.

In order to improve aging infrastructure, the Department plans to replace/rehabilitate 45 miles of sewer pipeline and award 20 miles of water pipeline.

The Department will continue to review the overall scope of the water pipeline replacement program. Concurrent with over 129 miles of Cast Iron water pipe remaining to be replaced, a condition assessment program of approximately 2,100 miles of asbestos cement water pipeline will be initiated to help determine the replacement rate for the next 10 years. On the wastewater side, the Department will determine the replacement mile per year from the assessment data of 540 miles as previously stated in the CIP Accomplishments Section.

## Public Utilities

The Department plans to initiate a proactive condition assessment program to evaluate the condition of water transmission lines, reservoirs and large size wastewater pipelines.

Additionally, the Department plans to install back-up generators at: Pump Stations 1, 64, 65; Penasquitos Pump Station; North City Water Reclamation Plant (NCWRP), and the Environmental Monitoring & Technical Services (EMTS) Laboratory

| <b>Improv Type:</b> Replacement                                | erubalcava@sandiego.gov                     |

**Description:** This project will replace all cast iron sections of the 30th Street Pipeline south of Thorn Street in University Heights (390 Zone) with 16,397 linear feet of new 30-inch/16-inch distribution/transmission line, and reconnect all services to the new line. It will abandon all parallel cast iron distribution lines and reconnect all services to the new 16-inch line.

**Justification:** Because the pipeline has been paralleled by the newer 28th Street Pipeline south of Thorn Street and no longer serves as an important transmission route to University Heights (390 Zone), this project will replace the cast iron pipe, provide supply reliability to the south end of the 390 Zone, and improve water quality.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Greater North Park and Greater Golden Hill Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013 and will be completed in Fiscal Year 2015. Construction is scheduled to begin in Fiscal Year 2015 and completed in Fiscal Year 2017.

**Summary of Project Changes:** In Fiscal Year 2012 Council approved the deappropriation of \$100,000. (R-307485)

**Description:** This project will construct a new pump station at the corner of 69th Street and Mohawk Street. The new pump station will feed the 645 Redwood Village Zone. Suction to the pump station will come from the Mid-City Pipeline Phase II.

**Justification:** This project will replace the existing Montezuma Pump Station for Redwood Village which is reaching the end of its life cycle.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with College Area and Mid City: Eastern Area Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013 and will be completed in Fiscal Year 2014. Construction is scheduled to begin in Fiscal Year 2015 and be completed in Fiscal Year 2016.

**Summary of Project Changes:** No significant change to this project for Fiscal Year 2013.

**Description:** This project explores the feasibility of the project's treatment technology to produce water that can be sent to a reservoir and later be treated again and distributed as drinking water. During the time the Demonstration Plant is in operation, the advanced treated water will be frequently tested to determine the effectiveness of the treatment equipment in removing contaminants; operational data will be gathered and analyzed to refine operation and maintenance estimates for a full scale system; and tours will be conducted as part of the public outreach effort. The Demonstration Project is the second phase of a three phase program that could lead to implementation of full-scale Indirect Potable Reuse/Reservoir Augmentation (IPR/RA).

**Justification:** A rate increase to fund the Demonstration Project was approved on November 18, 2008, and went into effect on January 1, 2009 and ended on September 1, 2010. This project was established by Ordinance-19887 Section IV-A, with an initial budget of \$7.2 million.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan, and is in conformance with the City's General Plan.

**Schedule:** Design, procurement and installation was completed in Fiscal Year 2011. Data collection will continue through early Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b>      | Replacement                                   |                             | erubalcava@sandiego.gov |

**Description:** This project provides for replacement of the aging Kearny Mesa Pipeline transmission route with a new transmission route that uses the Alvarado 2nd Pipeline. It will replace 17,032 linear feet of existing 20-inch and 16-inch cast iron Morena Boulevard Pipeline with a new 36-inch Morena Boulevard Pipeline. This 36-inch line will run from the end of the 48-inch Alvarado 2nd Extension Pipeline and connect to the Kearny Mesa Pipeline at the north end, operating at a 536 Hydraulic Grid Line (HGL). It will also replace 15,598 linear feet of parallel 16-inch distribution line from Friars Road and Morena to Morena and Balboa Avenue. The new 16-inch line will operate at 390 HGL connected to the existing 16-inch line on Friars Road and terminating at Morena and Bunker Hill Street. Additionally, it is proposed that 22,504 linear feet of new 48-inch Alvarado 2nd Extension Pipeline from the western terminus of the existing 48-inch Alvarado 2nd Pipeline (at Interstate 805 and Friars Road to Morena Boulevard and Napa Street) be built. The project will use existing surface streets in Mission Valley to avoid tunneling under the State Route 163 freeway, and other bridge crossings.

**Justification:** This project will replace cast iron pipe; provide redundant transmission to the coastal zones of La Jolla and Pacific Beach for supply reliability; improve water quality; reduce energy waste at the Miramar County Water Authority Pumpback facility; reduce peaking problems in the Miramar Water Treatment Plant service area; and provide supply flexibility (Alvarado vs. Miramar). This project is part of a larger plan to improve transmission reliability to the coastal Pacific Beach/La Jolla Zones by replacing the aging Kearny Mesa Pipeline as the lead supply, and adding a second transmission route to the coastal zones.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Valley, Linda Vista, and Mission Bay Park Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013 and will be completed in Fiscal Year 2015. Construction is scheduled to begin in Fiscal Year 2016 and be completed in Fiscal Year 2018.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Duration:</b> 1999 - 2018                 | 619-533-5105                                  |
| <b>Improv Type:</b> Expansion                | iagharzadeh@sandiego.gov                      |

**Description:** This project increases the treatment capacity of the Alvarado Water Treatment Plant (WTP) from 150 million gallons of water per day (mgd) to 200 mgd and upgrades the existing treatment plant facilities to replace aged equipment to comply with new drinking water regulations. This project is split into multiple construction projects and will be phase funded. The major project components consist of the construction of two new sedimentation basins, the rehabilitation of existing 1950's-era sedimentation basins, the rehabilitation of the mechanical equipment and controls on the filters, ozone generation, and treatment facilities. Various site and landscaping improvements will also be made.

**Justification:** The Safe Drinking Water Act, Environmental Protection Agency regulations, and a Department of Public Health Compliance Order dictate the need to upgrade the treatment plant process and equipment. Anticipated future demands within the Alvarado Water Service Area also require the plant to be expanded to 200 mgd, allowing for better utilization of the raw water storage in the San Vicente and El Capitan Reservoirs.

**Operating Budget Impact:** The upgrade from chlorine to ozone, as the primary disinfectant, will have a significant impact on the electrical and chemical consumption of the plant (an increase of approximately of \$1.6 million annually at completion). The increase in treated water capacity and the technical aspect of the equipment will also impact the cost for maintaining and operating the plant.

**Relationship to General and Community Plans:** This project is consistent with the Navajo Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 1999 and has continued through subsequent phases of work. Construction began on the initial phase of work in Fiscal Year 2004 and is scheduled to be completed in Fiscal Year 2013. Alvarado WTP - Flow Control Facility #12 has been rescheduled for Fiscal Year 2014 and has an estimated completion date of Fiscal Year 2018.

**Summary of Project Changes:** In Fiscal Year 2012 Council approved the deappropriation of \$17,085,486. (R-307485)

**Description:** This project will purchase seven generators and provide design build to install the generators and associated equipment for permanent power connection to existing sewer pump stations 1, 64, 65, Penasquitos, North City Reclamation Plant, and Environmental Monitoring Technical Services laboratory.

**Justification:** This project is necessary to prevent environmental damage from sewer spills and prevention of permit violation issues when regional electrical black outs occur.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** ngine procurement began in late Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2013. Design build contract is anticipated to begin in Fiscal Year 2013 and is scheduled to be completed in Fiscal Year 2014.

**Summary of Project Changes:** This stand alone project is newly published and was approved by Council in Fiscal Year 2012. (R-307393)

**Description:** This project includes the construction of approximately 4,500 linear feet of 18-inch trunk sewer, and replacement of 1,700 feet of 8-inch and 12-inch, 10-inch, and 8-inch sewer mains.

**Justification:** This project will upgrade the existing trunk sewer with a larger pipe to accommodate additional flow in the future.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Clairemont Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2002 and was completed in FY2010. Construction is underway and is scheduled to be completed in Fiscal Year 2012.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

| <b>Project Status:</b> Released   | <b>Contact Information:</b> Rubalcava, Eric |
| <b>Duration:</b> 2010 - 2016      | 858-654-4292                                |
| <b>Improv Type:</b> Betterment    | erubalcava@sandiego.gov                     |

**Description:** This project will assess the 10 to 12 mile of open channel delivering water from the Barrett Reservoir to the Lower Otay Reservoir. Based on the assessment the flume will be covered or replaced.

**Justification:** Each year golden eagles, deer, and other wildlife drown in the open channel sections of the Barrett Flume. There is also an excessive maintenance burden to keep soil and sediment out. Additionally, there is a slight algae build up due to sunlight. Covering the open flume sections is necessary to prevent fines and sanctions from the resource agencies, to maintain water quality, and to reduce maintenance and down time.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is outside of the City limits and there is no community planning area. This project is in conformance with the City's General Plan.

**Schedule:** Planning will begin in Fiscal Year 2013. Design is scheduled to begin in Fiscal Year 2014. Construction is estimated to begin in Fiscal Year 2015 and end in Fiscal Year 2016.

**Summary of Project Changes:** In Fiscal Year 2012 Council approved the deappropriation of \$100,000. (R-307485)

### CIS ERP Implementation / S11100

**Council District:** 1, 2, 3, 4, 5, 6, 7, 8  
**Community Plan:** Citywide  
**Project Status:** Technically completed  
**Duration:** 2010 - 2012  
**Improv Type:** Replacement

### Bldg - Other City Facility / Structures

**Priority Score:** N/A  
**Priority Category:** N/A  
**Contact Information:** Arnold, Jane  
 619-533-4839  
 jarnold@sandiego.gov

**Description:** This project provides for the establishment of an integrated, real-time enterprise customer service information and billing system.

**Justification:** The Customer Information System (CIS) Enterprise Resource Planning (ERP) Implementation is a strategic project for investment in, and support of, the Citywide SAP ERP System for the City of San Diego. The legacy CIS provides the water, sewer, storm drain, fire service, reclaimed water, backflow and associated meter customer billing information for the City. This project will replace the legacy CIS and Installation Order System (IOS).

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

**Schedule:** This project is complete and awaiting capitalization.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Replacement              | llwilson@sandiego.gov                       |

**Description:** This project provides for construction of a transmission waterline east of Interstate 5, along the alignment of Carmel Mountain Road to the eastern boundary of the Carmel Valley Community Plan area.

**Justification:** The waterline is required in order to develop the southern portion of Carmel Valley in accordance with the Carmel Valley Community Plan.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley Community Plan and is in conformance with the City's General Plan.

**Schedule:** The portion of the transmission potable water pipeline along Carmel Mountain Road west of Canter Heights Drive and east of Timber Brook Lane has been constructed and is in-service. The remaining portion east of Timber Brook Lane easterly along Carmel Mountain Road to the eastern Carmel Valley Community Boundary was completed in Fiscal Year 2011.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for replacement of the existing Carmel Valley Trunk Sewer east of Interstate 5.

**Justification:** The existing sewer has experienced a significant number of structural failures. Continuing development within the area tributary to the existing trunk sewer will also create the need for greater capacity than the existing sewer can provide. Caltrans will replace a portion of the existing trunk sewer in conjunction with its work on the State Route 56/Interstate 5 interchange. This project is included in the Environmental Protection Agency Consent Decree.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project is completed and awaiting closure and capitalization.

**Summary of Project Changes:** This project is completed and awaiting closure and capitalization.

| <b>Duration:</b> 2012 - 2016     | 858-654-4292                                |
| <b>Improv Type:</b> Replacement  | erubalcava@sandiego.gov                     |

**Description:** This project provides for replacement of 13,963 linear feet of 12-inch and 16-inch cast iron mains with a new 16-inch PVC pipe on Catalina Boulevard with 16-inch lines. The 16-inch pipe will consolidate the 12-inch cast iron line with the parallel 4-inch and 6-inch small distribution mains north of Garden Lane, and consolidate the dual 12-inch cast iron pipes south of Garden lane. The new pipeline will run parallel to the existing 12-inch pipeline.

**Justification:** This project will replace cast iron pipe, provide supply reliability to the Catalina Pump Station service area, and improve water quality.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013 and will be completed in Fiscal Year 2014. Construction is scheduled to begin in Fiscal Year 2015 and be completed in Fiscal Year 2016.

**Summary of Project Changes:** In Fiscal Year 2012 Council approved the deappropriation of \$100,000. (R-307485)

| <b>Duration:</b> 2012 - 2017                                | 858-654-4292                                |
| <b>Improv Type:</b> Expansion                               | erubalcava@sandiego.gov                     |

**Description:** This project provides for the replacement of the Cielo and Woodman Pump Station (PS) with a new PS with a 12 million gallons per day (mgd) capacity to improve efficiency and reliability, and allow for substitution of Alvarado City water (536 Zone) which is now provided via the County Water Authority (CWA) #19 Paradise Mesa Crosstie. It will replace two 12-inch and 16-inch cast iron distribution mains. The first main is on Imperial and Woodman Street and the second main is on Skyline Drive to Cielo Drive. It will install a dedicated Alvarado 536 line from the intersection of Imperial Avenue and Woodman Street to the new upgraded Cielo and Woodman PS.

**Justification:** This project will replace a deteriorating pump station facility and cast iron mains that lead to the station. According to year 2030 demands, the Otay Water Treatment Plant (WTP) will not be able to supply enough suction head to the pump station, thus the pump station would need to be supplied from the Alvarado Water Treatment Plant (WTP).

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Southeastern (Encanto Neighborhoods) Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013 and will be completed in Fiscal Year 2014. Construction is scheduled to begin in Fiscal Year 2015 and be completed in Fiscal Year 2017.

**Summary of Project Changes:** In Fiscal Year 2012 Council approved the deappropriation of \$100,000. (R-307485)

| <b>Duration:</b> 2011 - 2013    | 619-533-5492                            |
| <b>Improv Type:</b> Replacement | ramen@sandiego.gov                      |

**Description:** This project consists of the installation of approximately 1,524 linear feet of 16-inch water mains, 400 linear feet of 8-inch water mains, and relocation of several water services and fire hydrants within the following streets: Via Capri, Via Avola, Caminito Rialto, Caminito Avola and within the existing water easement adjacent to the Colony Hill HOA Clubhouse.

**Justification:** This project is a result of a settlement agreement between the City of San Diego and the Colony Hill Home Owners Association (HOA) in July of 2010. The City of San Diego is responsible to complete the construction within two years from the date of the settlement.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** Planning started in Fiscal Year 2011 and was completed in Fiscal Year 2012. This is a design/build project. Design and construction began in Fiscal Year 2012 and will be completed in Fiscal Year 2012.

**Summary of Project Changes:** This is a newly published project in Fiscal Year 2013. The project was authorized via Council Resolution R-306932 adopted on August 4, 2011.

**Description:** This annual allocation provides for renovating or replacing deteriorating corrosion control and monitoring systems throughout the City.

**Justification:** Deteriorating corrosion control and monitoring systems are in need of rehabilitation. This annual allocation provides for an ongoing program to rehabilitate over 600 existing corrosion protection stations.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 has decreased by \$100,000 due to revised requirements.

| <b>Improv Type:</b> Replacement   | ghwang@sandiego.gov                      |

**Description:** This annual allocation provides for rehabilitating and reconstructing improvement projects at reservoirs and dams. Projects include resurfacing access roads, reconstructing berms, installing lighting around dams, and sandblasting and shotcreting all exposed surfaces of the dams.

**Justification:** The rehabilitation and reconstruction of access roads and the upgrading of berms, lighting, and all exposed surfaces of the dams are necessary to maintain access to and safety in the dam area. The State required improvements will also serve to satisfy a portion of the Division of Safety of Dams.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is in compliance consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis. Modifications to Lake Hodges Dam scheduled in Fiscal Year 2010 were deferred to Fiscal Year 2012. The Emergency Storage Project-San Vicente Reservoir Marina project was started in Fiscal Year 2009 and will be completed in Fiscal Year 2013.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 has decreased by \$368,405 due to revised requirements.

| <b>Improv Type:</b> Expansion       | erubalcava@sandiego.gov                     |

**Description:** This project provides for the installation of 2,800 feet of 36-inch pipe portions not being built by developers along the east end of the pipeline, including 3,668 feet of parallel pipeline between Mona Lane and Lopiella Meadows Place for redundancy.

**Justification:** This pipeline was built in 1961 and has experienced leaks. It is in poor condition and has no corrosion protection. The original pipe was a 30-inch Steel Cylinder Rod Lined (SCRW) pipeline. This size is too small to meet projected demand increases in the area.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Del Mar Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2014 and will be completed in Fiscal Year 2016. Construction is scheduled to begin in Fiscal Year 2017 and be completed in Fiscal Year 2018.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project will provide for the relocation and upsizing of this 36-inch pipeline in the ultimate right-of-way for Carmel Valley Road. The existing Del Mar Heights Pipeline will no longer follow the alignment of Carmel Valley Road once Carmel Valley Road is improved to four lanes.

**Justification:** Future maintenance of this facility is enhanced when it is in an accessible and convenient location such as a public street right-of-way. This project will relocate the pipeline so that it can be easily maintained, repaired, and serviced in the future.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Del Mar Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to be completed in Fiscal Year 2012. Construction will begin in Fiscal Year 2013 and is scheduled to be completed in Fiscal Year 2014.

**Summary of Project Changes:** No significant change has been made to this project in Fiscal Year 2013.

| <b>Improv Type:</b> Expansion    | melling@sandiego.gov                        |

**Description:** The Environmental Monitoring and Technical Services (EMTS) Laboratory Boat Dock and Steam Line Projects provides for the design and construction of a boat dock located in the channel adjacent to the EMTS laboratory, as well as the installation of an esplanade and under-grounding of approximately 600 feet of an above ground steam line situated along the frontage of the boat channel.

**Justification:** As part of a Public Benefit Conveyance (PBC) from the federal government, MWWD designed and constructed a 40,000 square foot ocean monitoring laboratory which is now in operation. The design of this project included a boat dock to service the laboratory. Permits obtained as part of the construction additionally required MWWD fund a portion of a future park esplanade located adjacent to the laboratory frontage. To gain future unobstructed access to the boat dock, and to provide unobstructed access to the future esplanade, the existing steam line must be undergrounded. Public Utilities currently leases boat dock space at Driscoll's Wharf and this project would eliminate this ongoing expense.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

**Schedule:** The dock was partially designed in Fiscal Year 2001, but was postponed due to ongoing issues related to the contamination and conveyance of the boat channel. The design is scheduled to begin and be completed in Fiscal Year 2013 with construction scheduled to begin in Fiscal Year 2015 and be completed in Fiscal Year 2016.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the rehabilitation of the East Mission Gorge force main due to deterioration of the pipeline concrete lining from sulfuric acid build up.

**Justification:** This project provides for the rehabilitation of the force main in order to prevent breakage of the force main and prevent potential sewage spills.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Navajo Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2004. This project is on hold pending the negotiation of a cost sharing agreement with the participating agencies.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** Construction consists of the rehabilitation of approximately 4,932 feet of 27-inch & 3,229 feet of 30-inch trunk sewer mains, the rehabilitation of sewer manholes, and sewer laterals connections, and all other work and appurtenances necessary to complete the work. The affected streets are Nimitz Boulevard, Barnett Avenue, and Cushing Road between Nimitz Boulevard and Barnett Avenue.

**Justification:** The age of the existing system is almost 60 years old and needs to be rehabilitated.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Peninsula and Midway-Pacific Highway Corridor Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2004 and was completed in Fiscal Year 2011. Construction began in Fiscal Year 2011 and will be completed in Fiscal Year 2013.

**Summary of Project Changes:** In Fiscal Year 2012 Council approved the deappropriation of \$4,000,000. (R-307485)

| <b>Council District:</b> Non-city | <b>Priority Score:</b> 35                     |
| <b>Community Plan:</b> Non City   | <b>Priority Category:</b> High                |
| <b>Project Status:</b> Released   | <b>Contact Information:</b> Asgharzadeh, Iraj |
| <b>Duration:</b> 2010 - 2013      | 619-533-5105                                  |
| <b>Improv Type:</b> Replacement   | iasgharzadeh@sandiego.gov                     |

**Description:** This project previously provided for a pipeline parallel to the existing 48-inch El Capitan Pipeline with 41,490 linear feet of new 54-inch pipeline. Now the project will replace the existing 48-inch butterfly valve at station 16+00 with a 48-inch plug valve and a 48-inch energy dissipater valve. It will also replace the existing 30-inch plug valve at station 17+00 with a 30-inch plug valve and a 30-inch energy dissipater valve to assist with a thorough condition assessment of the pipeline.

**Justification:** The existing valves are leaking and need to be replaced. The valves are part of the emergency drawdown system required by Division Safety of Dams - State Department (DSOD) for El Capitan Reservoir.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is outside of the City limits and there is no community planning area. This project is in conformance with the City's General Plan.

**Schedule:** Design is schedule to begin in Fiscal Year 2012 and be completed in Fiscal Year 2013. Construction will begin and be completed in Fiscal Year 2013

**Summary of Project Changes:** Total project costs have decreased by \$44,316,707 due to the deferral of the pipeline construction component of this project which may be rescheduled after a condition assessment of the pipeline has been completed.

**Description:** This project provides funding to upgrade / replace approximately 15,000 linear feet of 36-inch steel pipeline. Based on assessment the pipeline will be replaced or lined.

**Justification:** The pipeline was installed in the 1920's and 1930's and relined in the 1960's. The pipeline is reaching the end of its life span.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Navajo Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2014. Construction is scheduled to begin in Fiscal Year 2015 and be completed in Fiscal Year 2017.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

**Description:** This project provides for repairing and widening the access road to El Capitan Reservoir.

**Justification:** The existing access road is narrow and has become a safety concern due to rain induced sloughing. Widening the road will improve accessibility to the reservoir, accommodate the recreation activities, and assist maintenance efforts for the reservoir.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is outside of the City limits and there is no community planning area. This project is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2000 and was completed in Fiscal Year 2001. Construction has been re-scheduled to begin in Fiscal Year 2016 and scheduled to be completed in Fiscal Year 2018.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project will install a steel liner in the existing 63,900 foot long 48-inch to 72-inch diameter pipeline with a capacity of 150 million gallons per day (mgd) between the Lakeside Pump Station and the Alvarado Water Treatment Plant.

**Justification:** This project is necessary to ensure that future water demands are met in the Alvarado service area.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Navajo Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project is currently undergoing condition assessment and planning. Condition assessment was rescheduled for Fiscal Years 2012 and 2013. Planning and design are scheduled for Fiscal Years 2014 and 2015, respectively. Construction is scheduled to begin in Fiscal Year 2016 and be completed in 2020.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides funding to relocate water lines in conflict with the State Department of Transportation highway construction zones.

**Justification:** Waterline relocation is required by the State Department of Transportation's effort to expand the State Highway System. Relocation projects are accomplished in conjunction with highway projects scheduled by the State Department of Transportation.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis per Caltrans requests.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 increased by \$50,000 due to revised requirements.

**Description:** This annual allocation provides for investigation work related to legal, technical, regulatory, and water quality issues; and for the planning, design, and construction of groundwater facilities to increase the local water supply.

**Justification:** The City imports 90 percent of its water from the Colorado River and the State Water Project. The City has access to nine under-utilized groundwater assets that could be developed to supply new yield, seasonal storage or carryover storage.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is in compliance with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Research, exploration and demonstration began in Fiscal Year 2001 and will continue through Fiscal Year 2014. Design and construction of sub-projects identified in the research/exploration/demonstration phase are anticipated to begin in Fiscal Year 2012 and continue through Fiscal Year 2021 and beyond.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 decreased by \$13,750,000 due to revised requirements.

**Description:** This project replaces 4.4 miles of 16-inch Cast Iron water pipeline from Harbor Drive Bridge to the Point Loma Reservoir.

**Justification:** These improvements are necessary to prevent water pipe breaks and to ensure a continuous water supply to the Ocean Beach, Old San Diego, and Peninsula community planning areas.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Ocean Beach, Old San Diego, and Peninsula Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design phase began in Fiscal Year 2010 and will be completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2012 and will be completed in Fiscal Year 2014.

**Summary of Project Changes:** This is a newly published project for Fiscal Year 2013. It replaces project S-00019 (Harbor Drive Pipeline) per Resolution 307121, dated November 30, 2011. Total project cost decreased by \$421,211 due to revised requirements.

**Description:** This project will install two pressure regulating stations at the Kensington Park Villas in order to provide more consistent water pressure throughout the community.

**Justification:** The pressure regulating station will provide more consistent water pressure throughout the community and decrease pipe ruptures or other problems due to over pressurizing.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Normal Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project has been deferred until Fiscal Year 2014 or later.

**Summary of Project Changes:** In Fiscal Year 2012 Council approved the deappropriation of \$31,564. (R-307485)

### La Jolla Scenic Drive 16inch Main / S12009

### Water - Distribution Sys - Transmission

|                                 |                                             |
|---------------------------------|---------------------------------------------|
| <b>Council District:</b> 1      | <b>Priority Score:</b> 27                   |
| <b>Community Plan:</b> La Jolla | <b>Priority Category:</b> Low               |
| <b>Project Status:</b> Created  | <b>Contact Information:</b> Rubalcava, Eric |
| <b>Duration:</b> 2012 - 2016    | 858-654-4292                                |
| <b>Improv Type:</b> Replacement | erubalcava@sandiego.gov                     |

**Description:** This project provides for replacement of 6-inch, 8-inch, and 12-inch pipelines with 15,635 linear feet of 16-inch pipe from the Soledad Reservoir that travels south along La Jolla Scenic Drive South; continues onto La Jolla Rancho Road, La Jolla Mesa Drive, Muirlands Drive, and El Camino Del Teatro; rejoins Muirlands Drive and Nautilus Street; and terminates at Fairway Road and the Muirlands Pump Station (PS). It will connect the Muirlands PS to the south Soledad Muirlands (725 Zone) to provide backup supply to the 725 Zone, and to solve fire flow deficiency and maintain peak pressures.

**Justification:** Current distribution grid has insufficient capacity to not only meet fire flow requirements, but is a bottleneck that leads to two isolated portions of the 725 Zone. If either of the pump/reservoir tandems that feed the zone go out of service, feed from the other tandem could not effectively be moved across the zone.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013 and will be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2014 and be completed in Fiscal Year 2016.

**Summary of Project Changes:** In Fiscal Year 2012 Council approved the deappropriation of \$100,000. (R-307485)

| <b>Improv Type:</b> Expansion   | cspier@sandiego.gov                     |

**Description:** This project provides for the replacement of 15,900 linear feet (3.01) miles of existing 12-inch, 15-inch, and 18-inch diameter and installation of maintenance access pathways.

**Justification:** This project provides for the upsizing of the trunk sewer to meet build-out capacity.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Navajo Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2003 and was completed in Fiscal Year 2010. Construction began in Fiscal Year 2010 and was completed by Fiscal Year 2013.

**Summary of Project Changes:** In Fiscal Year 2012 Council approved the deappropriation of \$7,000,000. (R-307485)

| <b>Improv Type:</b> Replacement                 | hazar@sandiego.gov                        |

**Description:** This project replaces 1.34 miles of pipeline and relocates the 16-inch cast iron transmission main from adjacent to the departure taxiway at Lindbergh Field to the public street which is more accessible for operation and maintenance.

**Justification:** In case of a pipe failure requiring Water Operations to perform emergency repair, the pipeline must be relocated to a location outside the secured Airport property that is more accessible for operation and maintenance. The 12-inch and 16-inch cast iron pipe was installed in 1940's.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Midway-Pacific Highway Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal year 2010. Construction began in Fiscal Year 2012 and is scheduled to be completed in late Fiscal Year 2014.

**Summary of Project Changes:** Total project cost has decreased by \$842,221 due to revised requirements.

**Description:** This project provides for the construction of approximately 15,800 linear feet of 30-inch diameter water transmission pipeline in Carmel Mountain Road and Little McGonigle Ranch Road within the Del Mar Mesa and Pacific Highlands Ranch communities to provide capacity for both Del Mar Mesa and Pacific Highlands Ranch.

**Justification:** The pipeline is required to provide capacity in the water system to adequately supply the demand resulting from the build-out of the Del Mar Mesa and Pacific Highlands Ranch communities.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Del Mar Mesa and Pacific Highlands Ranch Community Plans and is in conformance with the City's General Plan.

**Schedule:** Phases 1 and 2 are complete. The design of Phase 4 and 5 is complete. Construction of Phase 4 and 5 is scheduled to be completed in Fiscal Year 2013, but is dependent upon the construction of the Shaw Lorenz Community. The design of Phase 3 is not scheduled, at this time.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the installation of two sluice gates on the auxiliary spillway to improve draw-down capacity.

**Justification:** The State Department of Safety of Dams requires an emergency draw-down capability of 10 percent of reservoir capacity in 10 days. Lower Otay Reservoir (backed up by Savage Dam) requires 56 days for 10 percent draw-down in order to prevent a risk of dam failure.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is outside of the City limits and there is no community planning area. This project is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2001 and was completed in Fiscal Year 2010. Construction is scheduled to begin in Fiscal Year 2013 and is scheduled to be completed in Fiscal Year 2014.

**Summary of Project Changes:** In Fiscal Year 2012 Council approved the deappropriation of \$4,000,000. (R-307485)

**Description:** This project provides for two additional biosolid storage silos (numbers 9 and 10).

**Justification:** When a silo is out of service, silo storage capacity is frequently exceeded. In order to accommodate such events and to restore adequate silo capacity, it is essential to build two more storage silos.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is located on federal property and there is no community planning area. This project is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2009 and is scheduled to be completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2012 and be completed in Fiscal Year 2015.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Expansion   | iasgharzadeh@sandiego.gov                     |

**Description:** This project provides for the replacement of six of the eight existing dewatering centrifuges with six larger capacity units to handle larger future biosolids flows. The existing units are also near the end of their useful life.

**Justification:** This project will increase the production capacity of the dewatering centrifuges to accommodate plant shutdowns for maintenance and construction, to accommodate future flows, and to address diverse types of constraining operational factors that limit current capacity. To achieve the required capacity, the existing dewatering centrifuge units must be replaced with larger units.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is located on federal property and there is no community planning area. This project is in conformance with the City's General Plan.

**Schedule:** The schedule is based on a design/build (D/B) type of contract. Selection of the D/B entity is projected for Fiscal Year 2013, design is scheduled to be completed by Fiscal Year 2014, and installation of the six centrifuges is scheduled to be completed by Fiscal Year 2016.

**Summary of Project Changes:** Total project cost has increased by \$1.4 million due to revised requirements.

| <b>Project Status:</b> Released | <b>Contact Information:</b> Asgharzadeh, Iraj |
| <b>Duration:</b> 2007 - 2016    | 619-533-5105                                  |
| <b>Improv Type:</b> Expansion   | iasgharzadeh@sandiego.gov                     |

**Description:** This project provides for upgrading the odor control system fans and ducting to reduce system headlosses and improve overall foul air collection efficiency at the various process areas. Access platforms will also be installed at monitoring instruments and damper locations.

**Justification:** Several areas at the Metro Biosolids Center (MBC) have been identified to cause significant odor problems due to foul air collection deficiencies because of insufficient fan capacity and high headlosses, including poorly located foul air collection registers. Installing access platforms at the monitoring instruments and air volume control dampers will provide safe and timely access for operation and maintenance needs.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is located on federal property and there is no community planning area. This project is in conformance with the City's General Plan.

**Schedule:** Design is estimated to begin in Fiscal Year 2012 and be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013 and be completed in Fiscal Year 2015.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for replacement and upgrade of existing control systems at various Metropolitan Wastewater treatment and pump station facilities. These include Metro Biosolids Center (MBC), North City Water Reclamation Plant (NCWRP), and Point Loma Water Treatment Plant (PLWTP).

**Justification:** This project is needed to provide replacement of existing control systems at various facilities. The existing control systems are microprocessor/computer-based. The life cycle of these systems is seven to ten years. Replacement will also provide an upgrade in technology. The change in technology will provide the facilities with greater control system capabilities and are essential for future facility expansion.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with University and Peninsula Community Plans, and is in conformance with the City's General Plan.

**Schedule:** Design and construction began in Fiscal Year 2010 and is scheduled to be completed in Fiscal Year 2014.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides for replacement or improvements of facilities at Metro Treatment Plants - Point Loma Wastewater Treatment Plant (PLWTP), North City Water Reclamation Plant (NCWRP), South Bay Water Reclamation Plant (SBWRP) and Metro Biosolids Center (MBC).

**Justification:** Various facilities require replacement due to increasing wastewater flows and to be compliant with current regulatory requirements. This annual allocation will be considered an enhancement to the facility and does not include operation and maintenance.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with Peninsula, Tijuana River Valley, University Community Plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 has increased by \$2,996,445 due to revised requirements.

**Description:** This annual allocation provides for comprehensive upgrades, design modifications, and renovations or replacement of equipment such as pumps, valves, tanks, controls, odor control systems, etc. at Metropolitan System Pump Stations 1, 2, Otay River and Grove Avenue.

**Justification:** These improvements will allow pump stations to run more efficiently and increase the reliability of the Metropolitan Wastewater System.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 has increased by \$100,000 due to revised requirements.

**Description:** This annual allocation provides for the replacement of trunk sewers at various locations, including canyons, within the City limits.

**Justification:** This annual allocation provides for the upgrading of trunk sewers, to improve the level of service to residents of San Diego and to comply with regulatory agencies by reducing the impact of sewer spills.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 has increased by \$1.7 million due to revised requirements.

| <b>Improv Type:</b> Replacement              | iasgharzadeh@sandiego.gov                     |

**Description:** This project will construct two new clearwells just west of the Miramar Water Treatment Plant.

**Justification:** This project will replace the existing clearwells at Miramar Water Treatment Plant. The existing clearwells were determined to have significant structural issues.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2012 and to be completed in Fiscal Year 2015. Construction is scheduled to begin in Fiscal Year 2016 and to be completed in Fiscal Year 2020.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Replacement - Rehab      | erubalcava@sandiego.gov                     |

**Description:** This project is to replace and/or rehab the leaking roof systems on buildings at the Water Treatment Plant facility.

**Justification:** The Miramar WTP is a key facility within our water system that supplies nearly 50% of the City of San Diego's treated water demand. Leaks from the failing roof systems could result in a water treatment plant shutdown, potentially leaving customers out of water service.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This plan is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Planning is complete. Design build is scheduled to begin Fiscal Year 2013 and will be completed Fiscal Year 2014.

**Summary of Project Changes:** This is a newly published project for Fiscal Year 2013.

| <b>Improv Type:</b> Replacement - Retrofit | pwong@sandiego.gov                     |

**Description:** This project provides for monitoring and reinspection of 26,870 linear feet of existing pre-stressed concrete cylinder pipe on Mira Mesa Boulevard from Pacific Heights Boulevard eastward to the Miramar Water Treatment Plant. A pipeline condition assessment will be performed prior to initiating design.

**Justification:** These improvements are necessary to prevent water pipe breaks and to ensure a continuous water supply to the Mira Mesa Community.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mira Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** The Miramar Pipeline re-inspection began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Community Plan:</b> Scripps Miramar Ranch | <b>Priority Category:</b> N/A                 |
| <b>Project Status:</b> Released              | <b>Contact Information:</b> Asgharzadeh, Iraj |
| <b>Duration:</b> 1993 - 2013                 | 619-533-5105                                  |
| <b>Improv Type:</b> Expansion                | iasgharzadeh@sandiego.gov                     |

**Description:** This project provides for upgrades to and expansion of the Miramar Water Treatment Plant, including construction of state-of-the-art filters, rapid mix and de-aeration facilities, chlorine and chemical facilities, four flocculation and sedimentation basins, an ozone structure with generation equipment, site paving, landscaping, and an administration building.

**Justification:** The Safe Drinking Water Act, mandated by the Environmental Protection Agency and the Department of Public Health, dictates the need to upgrade the existing treatment plant. Increasing demands on the plant by the rapidly growing North City area also necessitate its expansion.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 1997 and will continue through subsequent phases of work. Construction began on the initial phase of work in Fiscal Year 2001 and is scheduled to be completed in Fiscal Year 2013.

**Summary of Project Changes:** Total project cost decreased by \$80,907,696 due to the completion and closure of the Miramar WTP Flocculation and Sedimentation Basin and Ozone Equipment/Installation sub-phases.

**Description:** This project will construct a new 66-inch pipeline from the Alvarado Water Treatment Plant Clearwells to the existing 48-inch Mid-City Pipeline, which crosses Highway 8. Approximate pipeline length is 6,505 linear feet.

**Justification:** This project will give complete redundancy to the Trojan Pipeline and will add transmission capacity to all of San Diego, south of Highway 8. The project will provide a back-up supply for the aging 54-inch Trojan Pipeline that currently supplies the Mid-City Pipeline west of the 63rd Street inter-tie, a second supply line to the largest region of the Alvarado Water Treatment Plant service area, and a back-up service that will allow the Trojan Pipeline to be removed from service for inspection. In addition, the project provides connections for a new 69th and Mohawk Pump Station to become the lead supply to the Redwood Village (645 Zone).

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the College Area, Navajo and Eastern Area Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013 and completed in Fiscal Year 2014. Construction is scheduled to begin in Fiscal Year 2015 and completed in Fiscal Year 2017.

**Summary of Project Changes:** In Fiscal Year 2012 Council approved the deappropriation of \$394,931. (R-307485) This amount has been added to Fiscal Year 2014.

**Description:** This project provides for the replacement of approximately 6,769 feet of the existing 12-inch and 15-inch trunk sewer with 21-inch pipe.

**Justification:** This trunk sewer will be upgraded with a larger pipe to accommodate future flow capacity.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the College Area Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2004 with final design completed in Fiscal Year 2011. Construction for this project will begin in Fiscal Year 2013.

**Summary of Project Changes:** Total project cost has increased by \$2.1 million due to revised requirements.

| <b>Improv Type:</b> Betterment    | hazar@sandiego.gov                        |

**Description:** This project upgrades the outlet tower to meet seismic requirements, replaces the electrical system and outlet tower piping, interior and exterior valves, and platforms. It will add a 100-foot long, 6-foot wide pedestrian bridge from the dam to the outlet tower and two sluice gates at the emergency spillway.

**Justification:** The aging outlet tower components are in need of replacement for safety and ease of operation. Furthermore, the electrical system needs to be upgraded to meet current standards, provide better control, and provide safety and better accessibility.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is outside of the City limits and there is no community planning area. This project is in conformance with the City's General Plan.

**Schedule:** Design phase began in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 and will be completed in Fiscal Year 2015.

**Summary of Project Changes:** Total project cost decreased by \$206,637 due to revised requirements.

**Description:** This project provides for the correction of a vibration problem at the North City Water Reclamation Plant (NCWRP) Sludge Pump Station.

**Justification:** Excessive vibration of the pump and flywheel contribute to wear and tear of equipment. The vibration also generates tremendous heat. The excessive vibration and heat can cause premature failure of equipment, impact operational efficiency and have structural impacts at the facility.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2008 and will be completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 and be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Expansion     | ghwang@sandiego.gov                      |

**Description:** This annual allocation provides recycled water to the Northern Service Area extending from Black Mountain Road west, along the I-56 corridor, to Carmel Valley. Portions of the recycled water pipeline expansion have been completed; bringing service to Olivenhain Municipal Water district and the communities of Black Mountain Ranch and Santa Luz. Recycled water pipelines are planned in Carmel Valley, Pacific Highlands, Los Penasquitos Canyon and Camino Del Sur. State Proposition 50 (Integrated Regional Water Management Plan) and Bureau of Reclamation Title 16 Grant funds are anticipated for this project.

**Justification:** Recycled water pipelines have been constructed by private developers or Caltrans. The City needs to construct the gaps to complete the system and start delivering recycled water. The City also needs to expand the distribution system to customers already retrofitted to use recycled water.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Planning, design and construction began in Fiscal Year 2001 and is currently scheduled for completion in Fiscal Year 2015.

**Summary of Project Changes:** Total annual project costs for Fiscal Year 2013 decreased by \$17,266 due to revised requirements.

**Description:** This project will abandon approximately 13,630 feet of aged 30-inch and 36-inch pipes, identified as Otay 1st and 2nd water transmission pipelines. These pipelines sections will be abandoned from Highland Avenue and Wightman Street east to 54th Street. This project will also install approximately 8,120 feet of new 16-inch distribution mains from a 12-inch line at University Avenue and Winona Avenue to 54th Street and Chollas Station Road.

**Justification:** This project will abandon approximately 13,630 feet of existing Cast Iron Cement Lined, Reinforced Concrete Steel Cylinder and Cement Mortar Lined Coated Steel pipes in accordance with California Department of Public Health's compliance order 04-14-96CO-022. These pipelines, constructed as early as 1915, have reached the end of their life cycle and have become a liability to the City. In order to provide system redundancy and maintain distribution needs, approximately 8,120 feet of new 16-inch distribution mains will be installed.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: City Heights and Eastern Area Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2012 and to be completed in Fiscal Year 2014. Construction is scheduled to begin in Fiscal Year 2014 and completed in Fiscal Year 2016.

**Summary of Project Changes:** Total project cost increased by \$460,000 due to revised requirements.

**Description:** This project provides for replacement of Otay 1st and 2nd Pipeline (west of Highland Avenue, along the existing Otay 2nd alignment). It will replace 14,572 linear feet of existing cast iron Otay 2nd Pipeline with a new 42-inch Wightman Street. Pipeline line, primarily along existing Otay 2nd alignment from Highland Avenue and Polk Avenue to the University Heights Reservoir at Howard Avenue and Idaho Street. The reach on Highland Avenue includes replacement of 1,328 linear feet of the existing cast iron Otay 1st Pipeline. It will also replace 10,896 linear feet of the cast iron Otay 1st Pipeline from Highland and Polk to the University Heights Reservoir with a 16-inch distribution line.

**Justification:** This project will develop a replacement and/or abandonment plan to remove the existing castiron segments of pipeline west of Highland Avenue. Cast iron reaches of the Otay 1st and 2nd Pipelines are neither safe nor reliable facilities, and may contribute to poor water quality.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the City Heights and Greater North Park Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013 and will be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2014 and be completed in Fiscal Year 2016.

**Summary of Project Changes:** Total project cost decreased by \$850,000 due to revised requirements. Additionally, In Fiscal Year 2012 Council approved the deappropriation of \$100,000. (R-307485)

**Description:** This project provides funding to evaluate the condition of existing pipelines and to make appropriate upgrades and replacements to the water pipeline.

**Justification:** This pipeline was originally installed in 1928 and has exceeded its useful life expectancy of 60 years. Breaks in the pipeline have revealed severe pipe corrosion in certain locations, requiring upgrades and replacement.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Skyline-Paradise Hills and Southeastern San Diego Community Plans and is in conformance with the City's General Plan.

**Schedule:** Engineering studies and design began in Fiscal Year 1999 and were completed in Fiscal Year 2007. Project scheduling is contingent on the assessed condition of the pipeline.

**Summary of Project Changes:** Total project cost decreased by \$21,180,890 due to the completion and closure of the Cast Iron Replacement and the North Encanto Pipeline sub-phases. Additionally, in Fiscal Year 2012 Council approved the deappropriation of \$1,238,380. (R-307485)

**Description:** This project provides for upgrading the treatment processes at the Otay Water Treatment Plant (Phase 1 and 2) to comply with the Safe Drinking Water Act standards. The Safe Drinking Water Act is a federal act, enforced by the State of California.

**Justification:** New standards required by the Safe Drinking Water Act dictate the need to upgrade the existing water treatment plant standards.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is outside of the City limits and there is no community planning area. This project is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2001 and will continue through subsequent phases of work. Construction began in Fiscal Year 2009 and completed in Fiscal Year 2012.

**Summary of Project Changes:** In Fiscal Year 2012 Council approved the deappropriation of \$993,552. (R-307485)

**Description:** This project will improve the reliability of the Pump Station. It will also provide the required surge protection and backup power against an electrical outage in compliance with the Environmental Protection Agency (EPA) recommendation of standby power for essential facilities.

**Justification:** Sewer Pump Station 2 currently has three feeds from San Diego Gas and Electric (SDG&E). Two of the feeds are fed from the same substation. Neither of the two SDG&E substations provides 100% power to Pump Station 2. EPA guidelines recommend that facilities like Pump Station 2 be equipped with two separate and independent sources of electrical power provided from either two separate utility substations or from a single substation and a plant base generator. The current pump station electrical configuration does not comply with the EPA recommendations. Besides satisfying the EPA guidelines, it is also required that force main surge protection be provided at all times during pump station operation and in the event of a total power failure.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Midway/Pacific Highway Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013 and be completed in Fiscal Year 2014. Construction will begin in Fiscal Year 2015 and is scheduled to be completed in Fiscal Year 2016.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for replacement of 32,423 linear feet of 16-inch cast iron Pacific Beach Pipeline with a new 16-inch PVC main, from Upas Street and Pacific Coast Highway intersection to Foothill Boulevard and Tourmaline Street; with the exception of 9,205 linear feet which will be replaced with a new 20-inch main along Ingraham Street from Buena Vista Drive to West Mission Bay Drive and Sports Arena Boulevard. The project also includes replacement of 11,369 linear feet of existing 12-inch mains with a new 12-inch PVC main along Ingraham Street from Crown Point Drive to Tourmaline Street and Foothill Boulevard; and the demolition of the Pacific Beach Reservoir.

**Justification:** This project is needed to replace cast iron pipe, provide supply reliability to Pacific Beach, improve water quality, reduce energy waste at the Miramar County Water Authority Pumpback facility, reduce peaking problems in the Miramar Water Treatment Plant service area, and to provide supply flexibility (Alvarado vs. Miramar).

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Midway-Pacific Highway, Mission Bay Park and Pacific Beach Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2012 and will be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2014 and be completed in Fiscal Year 2017.

**Summary of Project Changes:** Total project cost increased by \$9,395,111 due to revised requirements.

**Description:** This annual allocation provides for the rehabilitation and repair of deteriorated sewers and man-holes at various locations within the municipal wastewater system.

**Justification:** This annual allocation provides for the extension of the useful life of sewers and manholes, improvements in the level of service to the residents of San Diego, and compliance with regulatory agencies' standards by reducing the impact of sewer spills.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 has increased by \$2.0 million due to revised requirements.

**Description:** This project provides rehabilitation and repair of 21.72 miles of sewer pipeline.

**Justification:** This project will help meet Environmental Protection Agency (EPA) requirements to reduce sewer spills while reducing maintenance costs and extending the service life of sewer pipelines.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the applicable community planning areas and is in conformance with the City's General Plan.

**Schedule:** Construction began in Fiscal Year 2008 and was completed in Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to the project in Fiscal Year 2013.

| <b>Project Status:</b> Released  | <b>Contact Information:</b> Asgharzadeh, Iraj |
| <b>Duration:</b> 2001 - 2015     | 619-533-5105                                  |
| <b>Improv Type:</b> Replacement  | iasgharzadeh@sanidiego.gov                    |

**Description:** This project provides for upgrading the existing grit removal process at the Point Loma Wastewater Treatment Plant (PLWTP) which includes new grit agitation blowers enclosed in a sound dampening facility and the associated air piping.

**Justification:** The Point Loma Wastewater Treatment Plant has six aerated grit removal tanks. The plant is not achieving desirable grit removal because the existing grit processing equipment is unable to extract fine sand or silt. The grit accumulated downstream of the grit tanks reduces the efficiency of processing equipment and minimizes the biosolid treatment in the digesters.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2001 and is scheduled to be completed in Fiscal Year 2014. Construction began in Fiscal Year 2006 and is scheduled to be completed in Fiscal Year 2014.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for negotiating an agreement with the San Diego County Water Authority for the disposition of the City's share of the Pomerado Pipeline.

**Justification:** The City and the San Diego County Water Authority jointly own the Pomerado Pipeline. The agreement will determine the long-term disposition of the pipeline. Negotiations with the San Diego County Water Authority are expected to continue through 2014.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Scripps Miramar Ranch and Tierrasanta Community Plans and is in conformance with the City's General Plan.

**Schedule:** Negotiations with San Diego County Water Authority are scheduled on a priority basis.

**Summary of Project Changes:** Project delayed until after Fiscal Year 2016.

| <b>Improv Type:</b> Replacement   | ghwang@sandiego.gov                      |

**Description:** This annual allocation provides for replacing existing pressure reducing stations or expanding pressure capacities to meet present and future water demands.

**Justification:** Increasing demands for water throughout the City required a pressure reducing station to better control water pressure throughout the City's system. This annual allocation will continue to fund the replacement and expansion of pressure reduction facilities.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis. Pressure regulating station upgrade projects for Rosecrans and Nimitz are scheduled for Fiscal Year 2012.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 has decreased by \$1,000,000 due to revised requirements.

**Description:** This project provides for continued access to the Point Loma Wastewater Treatment Plant (PLWTP) investigating and if necessary implementing options to mitigate erosion at two sea coves adjacent to the plant's access road.

**Justification:** The treatment plant has only one access road as granted by the federal government. This project is needed to ensure continued access.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

**Schedule:** Phase I design began in Fiscal Year 2002 and was completed in Fiscal Year 2007. Based on re-prioritization of projects, Phase II design and construction is scheduled to begin in Fiscal Year 2018 and be completed in Fiscal Year 2018.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides for the comprehensive upgrades, design modifications, and renovations or replacement of equipment, such as pumps, valves, tanks, controls, and odor control systems at the pump stations.

**Justification:** These improvements will allow the pump stations to run efficiently and increase the reliability of the Municipal Wastewater System.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 has increased by \$3,380,000 due to revised requirements.

**Description:** This project provides for the elimination of Sewer Pump Station 62 through the installation of various pipelines and the upsizing of the existing Sewer Pump Station 84.

**Justification:** This project is needed to optimize the sewage system and to eliminate Sewer Pump Station 62.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Bernardo and Rancho Penasquitos Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2010 and was completed in Fiscal Year 2011. Construction began in Fiscal Year 2012 and anticipated to be completed in Fiscal Year 2014.

**Summary of Project Changes:** Total project cost increased by \$4,279,522 due to revised requirements.

**Description:** This annual allocation provides for the replacement of deteriorated municipal pumping equipment and/or pipeline appurtenances.

**Justification:** Many existing sewer pump stations have reached or exceeded their anticipated service life. However, because of the widely varying actual lengths of service life, the scheduling for pump station restorations is difficult. This project allows flexibility in replacing deteriorated pumping equipment.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This annual allocation is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 has decreased by \$56,946 due to revised requirements.

**Description:** This project provides for the upgrade of 23 pump stations, divided into four groups, located throughout San Diego. The upgrades involve providing new and backup pumps and motors, new control panels, new generators, redundant force mains, underground storage tanks, and miscellaneous civil work.

**Justification:** This project will provide for the upgrading of deteriorated pump stations, improvement of the level of service to the residents of San Diego, and compliance with regulatory agencies by reducing the impact of sewer spills.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Group I design began in Fiscal Year 2003 and was completed in Fiscal Year 2009. Construction began in Fiscal Year 2009 and is scheduled to be completed in Fiscal Year 2012. Group II design began in Fiscal Year 2008 and was completed in Fiscal Year 2010. Construction started in Fiscal Year 2011 and was completed in Fiscal Year 2012. Group III design began in Fiscal Year 2005 and was completed in Fiscal Year 2011. Construction is scheduled to begin in Fiscal Year 2012 and be completed in Fiscal Year 2013. Group IV design was completed in Fiscal Year 2008. Group IV construction began in Fiscal Year 2008 and was completed in Fiscal Year 2009.

**Summary of Project Changes:** Total project cost has decreased by \$2.3 million due to the completion and closure of PS Upgrades Group IV Comfort Stations.

**Description:** This annual allocation provides for pipeline extensions of the City's Recycled Water Distribution System to serve potential customers adjacent or in close proximity to the existing system.

**Justification:** This project provides recycled water to customers served by the pipeline extensions.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Planned Northern Service Area recycled water extension projects over the next five years include Black Mountain Road, north of Westview Parkway, Camino Del Sur and Via Azul. Tentative South Bay projects include Plantel Way and Dennery Road.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 decreased by \$50,000 due to revised requirements.

**Description:** This annual allocation provides for supplying city facilities with the proper connections and metering for the new reclaimed water distribution system.

**Justification:** The City of San Diego has embarked on an aggressive water reclamation program to provide reclaimed water to large users of potable water for irrigation purposes. This will allow the City to increase its available potable water to serve new potential customers.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

## Public Utilities

### Recycled Water System Upgrades / S10010

**Council District:** 1, 2, 3, 4, 5, 6, 7, 8  
**Community Plan:** Citywide  
**Project Status:** Released  
**Duration:** 2010 - 2016  
**Improv Type:** Betterment

### Reclaimed Water System - Pipelines

**Priority Score:** N/A  
**Priority Category:** N/A  
**Contact Information:** Azar, Hossein  
 619-533-4102  
 hazar@sandiego.gov

**Description:** This project is needed to ensure that spills from the recycled water system flow into the sewer rather than the storm water system. This project would include 14 Pressure Reducing Station vaults to be retro-fitted to divert the drainage inside the vault from the storm drain to the sewer system, as required by Regional Water Quality Control Board.

**Justification:** This project is needed to comply with the latest regulatory requirements of the Regional Water Quality Control Board that recycled water be drained to the sewer system rather than the storm drain system when emergency spills or main breaks occur inside the vaults.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Design and construction began in Fiscal Year 2011 and construction is to be completed in Fiscal Year 2014.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 increased by \$1,400,000 due to revised requirements.

**Description:** This project provides four tank drain modifications to comply with new regulatory requirements. The tanks being modified are the 9 million gallon (mg) Miramar Recycled Water Tank, the 9mg Tank Automated Chlorination Facility, the 9mg Tank Reservoir Management System (two mixers inside the tank).

**Justification:** This project is needed in order to comply with the latest regulatory requirements of the Regional Water Quality Control Board that recycled water be drained to the sewer system rather than the storm drain system.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with Scripps Miramar Ranch, Rancho Penasquitos and Tijuana River Valley Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2013 and will be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2014 and be completed in Fiscal Year 2015.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides demineralization of reclaimed water using the Electrodialysis Reversal (EDR) process. The project will relocate two trailer mounted EDR units from the North City Water Reclamation Plant to the South bay Water Reclamation Plant to reduce the Total Dissolved Solids (TDS) in the reclaimed water.

**Justification:** The majority of reclaimed water is used for irrigation. Demineralization will reduce the level of total dissolved solids in the reclaimed water.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Tijuana River Valley Community Plan and is in conformance with the City's General Plan.

**Schedule:** This design build project to start in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the construction of a new pump station with a total pump station capacity of 17.2 Millions of Gallons per Day. This pump station will replace the Scripps Miramar pump as the lead pump to the 1020 zone (Scripps Ranch Pump Station).

**Justification:** The existing pump station is past its useful life span and has become inefficient and unreliable and lacks adequate fire flow capacity.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This plan is consistent with the Scripps Miramar Ranch and Miramar Ranch North Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design/Build contract began in Fiscal Year 2012 and will be completed in Fiscal Year 2014.

**Summary of Project Changes:** This project converted from a sublet of the Water Pump Station Restoration Annual Allocation to a standalone project per Council Resolution R-306915 in Fiscal Year 2012 and is a newly published project for Fiscal Year 2013.

**Description:** This annual allocation provides for seismic retrofits and upgrades to existing facilities to protect the water system in case of an earthquake.

**Justification:** Many existing facilities throughout the City have serious structural and seismic defects. This annual allocation provides funding to upgrade these facilities to meet current compliance requirements and guidelines. This project allows City crews the ability to rapidly restore water services to affected areas after a large earthquake.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides for the replacement of deteriorated and undersized sewer mains at various locations within the Municipal Wastewater System.

**Justification:** This annual allocation provides for the replacement of sewer mains that are in a deteriorated condition or are undersized.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 has decreased by \$42.7 million due to revised requirements.

| <b>Improv Type:</b> Replacement - Rehab | wgamboa@sandiego.gov                      |

**Description:** The improvements consist of a complete design of the pump station; one new 8-inch primary main and one new 8-inch secondary main; construction of a new structure for pump station including odor control, emergency storage tank and generator room, and demolition.

**Justification:** The existing pump station and force main were built in 1953 and have exceeded their service life. The project's goal is to restore and improve the reliability of the pump station and bring it up to current standards and regulations. This project is mandated by the Environmental Protection Agency.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2003 and was completed in Fiscal Year 2008. Construction began in Fiscal Year 2009 and was completed in Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to the project in Fiscal Year 2013.

**Description:** This project acquires a pipeline that was installed by the Metropolitan Wastewater Department at Dairy Mart Road. It is approximately 4,145 linear feet of 30-inch diameter, ductile iron pipe, polyurethane lined and coated. A cathodic protection system is in place on this project. Subsequently, additional sub-projects will be created to form a distribution system for reclaimed water produced at the South Bay Water Reclamation Plant.

**Justification:** One of the requirements of the Ocean Pollution Reduction Act Consent Decree Agreement between the City, the State of California and the Environmental Protection Agency is the Beneficial reuse of Title 22 reclaimed water.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the San Ysidro and Tijuana River Valley Community Plans, and is in conformance with the City's General Plan.

**Schedule:** All pipelines for this project have been completed. The final phase of this project is the installation of a mag-meter assembly to facilitate recycled water billings to the Otay Water District. Project construction began in Fiscal Year 2012 and will be completed in early Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides for reconstructing standpipes and reservoirs to improve operations and extend their service life.

**Justification:** Many existing standpipes and reservoirs in the water system have deteriorated to a point where they must be reconstructed or replaced to meet the current Occupational Safety and Health Act and Environmental Protection Agency safety and water quality standards.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is in compliance with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis. Construction of the San Carlos Reservoir Interior Enhancement project is anticipated for completion in Fiscal Year 2012. Planning for the Catalina Standpipe project has been completed. Pomerado Park Reservoir has been placed on hold. No new projects for Fiscal Year 2013 are currently planned.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 increased by \$149,571 due to revised requirements.

| <b>Project Status:</b> Released    | <b>Contact Information:</b> Azar, Hossein |
| <b>Duration:</b> 2010 - 2017       | 619-533-4102                              |
| <b>Improv Type:</b> Expansion      | hazar@sandiego.gov                        |

**Description:** This project provides for a new station with a total pump station capacity of 13.9 MGD, and 2,900 feet of 16-inch transmission mains. It will replace the existing Temporary Tierrasanta Pump Station and the Via Dominique Pump Station, and will serve the Tierrasanta Norte 900 Zone and the Tierrasanta 752 Zone.

**Justification:** The existing pump stations are past their useful life, are heavily deteriorated and inefficient.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This plan is consistent with the Tierrasanta Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is anticipated to begin Fiscal Year 2013 and be completed in Fiscal Year 2014. Construction is anticipated to begin Fiscal Year 2014 and is scheduled to be completed in Fiscal Year 2015.

**Summary of Project Changes:** This project converted from a sublet of ABJ00001 to a standalone project per Council approval in Fiscal Year 2012 (R-307437). The sublet budget of \$110,931 will be transferred to this project from ABJ00001.

| <b>Project Status:</b> Released | <b>Contact Information:</b> Azar, Hossein |
| <b>Duration:</b> 2000 - 2014    | 619-533-4102                              |
| <b>Improv Type:</b> Replacement | hazar@sandiego.gov                        |

**Description:** This project provides for the replacement of approximately 31,496 linear feet of the existing 16-inch cast iron pipe along Torrey Pines Road and La Jolla Boulevard.

**Justification:** This project is necessary to prevent water pipe breaks and to ensure a continuous water supply to the La Jolla community.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project was scheduled with multiple phases. Construction of the Fay Avenue Realignment segment was completed in Fiscal Year 2002. Construction of Phase I was completed in Fiscal Year 2006. The Pacific Beach Water Main Accelerated Replacement construction was completed in Fiscal Year 2006. Phase II construction was completed in Fiscal Year 2007. Design of the La Jolla Shores Drive 16-inch Water Main Replacement (Phase III) was put on hold in Fiscal Year 2006 at 90% completion due to funding issues. In Fiscal Year 2009 the project restarted, however due to revised project requirements, the design was redone and completed in Fiscal Year 2011. Construction is scheduled to begin in Fiscal Year 2012 and completed in Fiscal Year 2013.

**Summary of Project Changes:** Total project cost decreased by \$258,004 due to the completion and closure of the La Jolla Boulevard/Pacific Beach Water Main Accelerated-Asbestos Cement Overlay sub-phase. Additionally, in Fiscal Year 2012 Council approved the deappropriation of \$382,047. (R-307485)

**Description:** This project provides for the replacement of the existing 2.2-mile trunk sewer. The trunk sewer starts on the west side of Interstate 15, proceeds east through Horse Ranch Canyon, and continues east on the edge of Pomerado Road to 400 feet east of Avenida Magnifica.

**Justification:** This project will provide for the upsizing of the trunk sewer to meet build-out capacity.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Scripps Miramar Ranch and Mira Mesa Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2002 and is scheduled to be completed in Fiscal Year 2013. Construction began in Fiscal Year 2011 and will be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to the project in Fiscal Year 2013.

**Description:** This project replaces 23,072 linear feet of existing cast iron University Avenue Pipeline with new 16-inch distribution line on the entire alignment of the pipeline. This project will connect crossing distribution lines at all intersections, and re-connect all services, including lining or sleeving of freeway crossings, where necessary.

**Justification:** Cast iron reaches of the University Avenue Pipeline are neither safe nor reliable facilities, and may contribute to poor water quality. An active approach is recommended because of high risks and consequences of pipe failure. The University Avenue Pipeline was built in 1912 and lined with concrete in 1974. The replacement of cast-iron pipes is mandated by the California Department of Public Health's (CDPH) Compliance Order.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Uptown and Greater North Park Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2012 and will be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013 and be completed in Fiscal Year 2016.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides for repair and replacement of municipal sewers in need of emergency or unscheduled repairs.

**Justification:** This annual allocation provides for emergency repairs and replacement of sewer pipeline to avoid failures of the Municipal Sewer System.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Project Status:</b> Released                                             | <b>Contact Information:</b> Asgharzadeh, Iraj |
| <b>Duration:</b> 2011 - 2016                                                | 619-533-5105                                  |
| <b>Improv Type:</b> Replacement                                             | iasgharzadeh@sandiego.gov                     |

**Description:** This project replaces 22,184 linear feet of existing cast iron Upas Street Pipeline with a new 16-inch and 30-inch line from 30th and Upas to Upas and Front Street. Abandon 2,546 linear feet of existing cast iron Upas Street Pipeline from Upas and Front to West Upas and Ibis Street. Replace 250 linear feet of cast iron Upas Street Pipeline with a new 8-inch line from West Upas and Ibis to West Upas and Jackdaw Street. Abandon 1,902 linear feet of Upas Street Pipeline from West Upas and Jackdaw to the west side of California Street. Replace 249 linear feet of cast iron Upas Street Pipeline with new 16-inch lines from the Pacific Beach Pipeline west of California Street to the 12-inch connection west of Pacific Highway.

**Justification:** This project is needed because the cast iron reaches of the Upas Street Pipeline are neither safe nor reliable facilities, and may contribute to poor water quality. An active approach is recommended because of high risks and consequences of pipe failure. The Upas Street Pipeline was built in 1940. The replacement of cast-iron pipes is mandated by the California Department of Public Health's (CDPH) Compliance Order.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Uptown, Greater North Park, and Midway-Pacific Highway Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2012 and will be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013 and be completed in Fiscal Year 2016.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Replacement      | agarcia@sandiego.gov                     |

**Description:** This project is in the Pacific Beach Community and consists of the replacement of 30,879 linear feet of various pipe materials and sizes (3,184 linear feet of asbestos concrete (AC) 6-inch, 8-inch, 10-inch and 16-inch pipes; 27,514 linear feet of cast iron (CI) 8-inch, 10-inch and 16-inch pipes; and 181 linear feet of poly-vinyl chloride (PVC) 12-inch pipe).

**Justification:** The majority of Pacific Beach Community pipelines are made of cast iron and are due for replacement in accordance with California Department of Public Health's (CDPH) Compliance Order 04-14-96CO-022. This project is intended to reduce maintenance and improve service.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This plan is consistent with the Pacific Beach Community Plan and is in conformance with the City's General Plan.

**Schedule:** Planning began in Fiscal Year 2012 and will be completed in Fiscal Year 2013. Design is scheduled to begin in Fiscal Year 2013 and end is Fiscal Year 2016. Construction is scheduled to begin in Fiscal Year 2016 and end in Fiscal Year 2018.

**Summary of Project Changes:** This is a newly published project for Fiscal Year 2013.

**Description:** This project provides for an emergency financial reserve for Water Fund capital improvement projects.

**Justification:** This reserve is required to comply with the stipulation in the Bond Counsel.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This reserve is not a project. Projects utilizing this funding source are consistent with applicable community plans and are in conformance with the City's General Plan.

**Schedule:** This reserve will be used on an as-needed basis, in conformance with Bond Counsel requirements. This reserve will be held as a continuing appropriation.

**Summary of Project Changes:** No significant change has been made to this reserve for Fiscal Year 2013.

**Description:** This project provides for the removal and replacement of 26,732 linear feet (5.25 miles) of 6-inch, 8-inch, 12-inch and 16-inch of cast iron mains (CI) and 1029 linear feet of asbestos concrete (AC) pipes in the 6-inch and 8-inch diameter range in the Mid-City areas of City Heights , Kensington-Talmadge and the Eastern Area communities. All of these mains are being replaced with polyvinyl chloride (PVC) pipelines.

**Justification:** Water mains require replacement due to their deteriorated condition or size limitation. The existing cast-iron system is either approaching or has exceeded its expected life. The replacement of cast-iron pipes is mandated by the California Department of Health's (CDPH) Compliance Order.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City City Heights, Kensington-Talmadge, and Eastern Area community plans and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2008 and was completed in Fiscal Year 2011. Construction began in Fiscal Year 2012 and be completed in Fiscal Year 2013

**Summary of Project Changes:** Total project cost decreased by \$1,893,966 due to a timing issue when project converted to a standalone project in Fiscal Year 2011.

**Description:** This project will replace 4.41 miles of existing water mains comprised of the following components: This job is located within two separate planned communities. The first is located within the Paradise Hills/Skyline Community Plan area which consists of the replacement of 15,877 linear-feet (3.0 miles) of water mains ranging from 2-inch to 12-inch in diameter. The streets affected by the construction are: 68th Street, Jamacha Road, Guthie Way, Cardiff Street, Bonsall Street, Wade Street, San Vicente Street, Sawtelle Avenue and Skyline Drive. The second site is located within the La Jolla Community Plan and consists of the replacement and addition of a total of 10,629 linear-feet (2.01 miles) of water mains ranging from 6-inch to 12-inch in diameter. The streets affected by the construction are: Nautilus Street, Michael John Drive, Aranda Avenue, Avenida Manana, Via Barranca, Avenida Mirola, Avenida Reina and Avenida De Las Pescas.

**Justification:** Water mains require replacement due to their deteriorated condition or size limitation. The existing cast-iron system is either approaching or has exceeded its expected life. The replacement of cast-iron pipes is mandated by the California Department of Public Health's (CDPH) Compliance Order.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla and Skyline/Paradise Hills Community Plans and is in conformance with the City's General Plan.

**Schedule:** Planning phase began in Fiscal Year 2008. Construction started in Fiscal Year 2010 and will be completed in Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Replacement   | ghwang@sandiego.gov                      |

**Description:** This annual allocation allows for the replacement of water mains at various locations throughout the City.

**Justification:** Water mains require replacement due to their deteriorated condition or size limitation. The existing pipeline is either approaching or has exceeded its expected life. The replacement of cast-iron pipes is mandated by the California Department of Public Health's (CDPH) Compliance Order.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 increased by \$8,000,000 due to revised requirements.

## Public Utilities

### Water Pump Station Restoration / ABJ00001

### Bldg - Water - Pump Stations

|                                   |                                          |
|-----------------------------------|------------------------------------------|
| <b>Council District:</b> Citywide | <b>Priority Score:</b> Annual            |
| <b>Community Plan:</b> Citywide   | <b>Priority Category:</b> Annual         |
| <b>Project Status:</b> Released   | <b>Contact Information:</b> Hwang, Guann |
| <b>Duration:</b> 2010 - 2021      | 858-292-6476                             |
| <b>Improv Type:</b> Replacement   | ghwang@sandiego.gov                      |

**Description:** This annual allocation provides for replacing deteriorated pumping equipment and appurtenances or expanding pumping capacities to meet present and future water demands.

**Justification:** Many existing water pump stations have reached or exceeded their anticipated service life or demands have exceeded their maximum pumping capacity. However, because of the widely varying actual lengths of service life, scheduling for pump station restoration is difficult.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis. Design for the Tierrasanta (Via Dominique) Pump Station and Design/Build for the Scripps Miramar Pump Station began in Fiscal Year 2012.

**Summary of Project Changes:** Total annual project cost for Fiscal Year 2013 has decreased by \$10,695,999 due to revised requirements. Additionally, the Tierrasanta (via Dominique) Pump Station budget of \$110,931 will be transferred to S12040 per council approval in Fiscal Year 2012. (R-307437)

| <b>Improv Type:</b> New           | ghwang@sandiego.gov                      |

**Description:** This annual allocation provides for upgrades and replacement of the treatment facilities at Alvarado, Miramar, and Otay water treatment plants.

**Justification:** These improvements are necessary to ensure a reliable water supply to the customers and for compliance with the Safe Drinking Water Act.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Start pre-design in Fiscal Year 2013.

**Summary of Project Changes:** This is a new annual allocation in Fiscal Year 2013.

**Description:** This project includes the implementation of the Emergency Live Stream Discharge of reclaimed water from the North City Reclamation Plant during heavy rain events to reduce the capacity demand on the downstream sewer system and facilities. This project also includes constructing a seven million gallon underground storage tank at Liberty Station to provide hydraulic relief to Pump Station 2, the South and North Metro Interceptors, and the major trunk sewers.

**Justification:** The facility will reduce the risk of potential wet weather overflows, which may be caused by the capacity limitation of Pump Station 2 during extreme rainfall events.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula, University, and Clairemont Mesa Community Plans, and Mission Bay Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** A feasibility study for wet weather intermittent stream discharge was completed in Fiscal Year 2012. Construction for the facilities required for the wet weather intermittent stream discharge is scheduled to begin in Fiscal Year 2016. Design for a seven million gallon storage facility is scheduled to be completed in Fiscal Year 2027. Construction for a storage facility is scheduled to begin in Fiscal Year 2028 and be completed in Fiscal Year 2030.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

## **Public Works - General Services**

## **Public Works - General Services**

The Public Works-General Services Department's Facilities Division provides repair, modernization, and improvement services to over 1,600 municipal facilities incorporating 10 million square feet of floor space.

The Facilities CIP projects include the construction of new City structures and major improvements to existing buildings, including the backlog of deferred capital requirements, used by General Fund departments. Other projects bring City buildings into compliance with the Americans with Disabilities Act (ADA). The Public Works-General Services CIP is funded by deferred capital bond proceeds, the Capital Outlay Fund, the General Fund, and federal grants.

The Fleet Services Division has a CIP project that will expand the existing fitting facility and that is funded through its Equipment Division fund.

### **2012 CIP Accomplishments**

Projects throughout the City completed under the Department's City Facilities Improvements annual allocation included :

- Elevator modernizations
- Heating, Ventilation and Air Conditioning (HVAC) installations
- Electrical and plumbing systems upgrades
- Roof repairs and replacements at various City buildings for Police, Fire, Library and Park & Recreation Departments

The Mission Beach Community Clinic ADA Improvements project improved accessibility to the clinic for compliance with ADA requirements. Accessible paths of travel from the parking area and sidewalks as well as improvements to the ramp ensure that all users of the facility will be accommodated. Additionally, numerous projects for both City facilities and the public right-of-way were completed under the Department's annual allocation for ADA improvements. These activities brought the facility into ADA compliance and provided greater access for residents.

### **2013 CIP Goals**

The Fitting Facility Expansion project, located at the Chollas Operations Yard, will be completed. This facility is responsible for outfitting new vehicles, including Police and Fire vehicles, and placing them into service. The facility will be expanded to accommodate personnel, add service bays, and provide greater efficiencies for City staff.

Various building projects currently in the design phase are scheduled to be completed in Fiscal Year 2013. These projects include the Mid-City Police Station HVAC and roof replacement, and Northeastern Police Station, Southeastern Police Station and Western Police Station roof replacements.

Projects in the construction phase and planned for completion in Fiscal Year 2013 include the Casa Del Prado roof replacement in Balboa Park, and Mission Bay parking lot resurfacing.

**Description:** This annual allocation provides for City facilities and public right of way improvements related to the Americans with Disabilities Act (ADA). Funding ADA obligations is one of the Mayor's eight significant areas.

**Justification:** ADA improvements will allow greater access to City facilities and public right of way for residents.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis. Council approved funding of \$30.0 million of land sale proceeds to support ADA improvements since Fiscal Year 2008.

**Summary of Project Changes:** An increase of \$2,611,000 to fulfill ADA requirements Citywide has been allocated to this project from various Developer Impact Fee (DIF) funding sources. In addition, \$245,000 is anticipated to be transferred to two standalone projects (\$200,000 for Mission Bay Athletic Area Comfort Station Modernization / S10021 and \$45,000 for Palisades Park Comfort Station Replacement / S10026) in Fiscal Year 2013. It is anticipated that this project will receive \$8.2 million bond financing in Fiscal Year 2013. Proceeds from land sales is the primary funding source for this project. Funding is allocated as it becomes available.

**Description:** This project provides for the installation of a fire sprinkler system and upgrading the existing fire alarm system at the City Administration Building located at 202 C Street in Centre City. Phase I provided for the installation of fire sprinklers on the 10th, 14th, and 15th floors. Phase II provided for the installation of eight-inch stand pipes and eight-inch basement lateral pipes. Phase III provided for the installation of sprinklers in the basement and on the 11th and 13th floors and a fire alarm system in the basement and on the 10th, 11th, and 13th floors. Included in Phase III was abatement of amosite ceiling tile on the 11th floor. Phase IV will provide for the installation of sprinklers and alarm system for the 1st through the 9th, and 12th floors and installation of a new generator.

**Justification:** The project will provide much needed improvements necessary to ensure the safety of the building occupants.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Centre City Community Plan and is in conformance with the City's General Plan.

**Schedule:** Phases I, II and III were completed in Fiscal Years 2000, 2002, and 2003, respectively. Phase IV is scheduled to begin in Fiscal Year 2012 and completed in Fiscal Year 2013.

**Summary of Project Changes:** Deferred Capital Bond financing of \$3 million is anticipated for this project in Fiscal Year 2013.

**Description:** This annual allocation provides for capital improvements at City facilities. Potential improvements include roof, heating, ventilation, air-conditioning and elevator replacements.

**Justification:** Several City-owned facilities are aged and in need of repair. High-priority repairs will be completed with this project. Funding for this annual allocation will ensure the facilities remain safe.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** This project reflects \$16.5 million of bond financing within the Fiscal Year 2013 Anticipated column. Approximately \$81.2 million of bond financing is scheduled for building projects through Fiscal Year 2017. Based on a General Fund supported buildings condition assessment conducted in November 2011, the City will need an additional \$57.3 million in unidentified funding to address the remaining deferred capital needs. Additionally, as a result of the Fiscal Year 2012 Mid-year Appropriation Adjustments, per City Resolution R-307312 approved on March 14, 2012, this project received \$500,000 in CIP Contributions from General Fund for the Council District 9 Office remodel.

**Description:** This project allows for the expansion of the existing vehicle fitting facility located at the Chollas Operations Yard. The expansion will increase the facility from one service bay to six service bays and will include office space. The project will also provide equipment necessary for operations.

**Justification:** The fitting facility is responsible for outfitting new vehicles and placing them into service as well as preparing retired vehicles for auction. With the consolidation of the fleet to include Police and Fire vehicles, the workload has significantly increased. Additionally, as part of the fleet consolidation, the repair facility located at 20th and B was closed. The vehicles serviced at that location as well as the personnel were transferred to the repair facility at the Chollas Operations Yard. The existing building does not have sufficient space to accommodate the personnel.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Southeastern (Encanto Neighborhoods) Community Plan and is in conformance with the City's General Plan.

**Schedule:** The project is currently on hold pending a review of Fleet Services capital funding requirements following the completion of the fleet maintenance managed competition process.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides the required upgrades to improve Americans with Disabilities Act (ADA) accessibility to the Mission Beach Community Clinic in compliance with the ADA. The scope of work for this project includes upgrading the accessible parking, wing area, plaza and patio area, providing an accessible path of travel from the sidewalk, and accessible parking to the picnic area and building entrance, and upgrades to the men's and women's restrooms.

**Justification:** These improvements provided ADA accessibility to the facility from the street.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Beach Precise Plan and is in conformance with the City's General Plan.

**Schedule:** This project is scheduled to be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides needed roof replacements at various City facilities. This project has funded various roof replacements including Museum of Art, Museum of Man, Old Globe Theater and Bud Kearns Pool.

**Justification:** This annual provides roof replacements for various city facilities that are beyond their life cycle and are in need of total roof replacements. Leaky roofs damage other building infrastructure and building systems (electrical, interiors, carpets, etc.) increasing repair or replacement costs. Sustainable maintained roofs preserve the life cycle expectancy of a building.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**QUALCOMM Stadium**

# **QUALCOMM Stadium**

Qualcomm Stadium is a 70,500 seat sports stadium that hosts the San Diego Chargers, San Diego State University Aztecs, the annual Holiday and Poinsettia Bowls, plus Supercross and monster truck events and major religious conventions. The Stadium hosts over one-million visitors every year. The 166-acre stadium site opened in 1967, and is now in its 45th year of operation. The Stadium parking lot spans 122 acres. The CIP budget supports the implementation of projects that keep the 45 year old stadium in the type of condition that contributes to the fan experience and keeps San Diego in the forefront for large scale, national events. Funding for Capital Improvements Program projects comes from Qualcomm Stadium revenue.

## **2012 CIP Accomplishments**

Capital improvements are vital to the continuing operation of the stadium. For Fiscal Year 2012, these improvements included completion of press box upgrades with a glass barricade for Occupational Safety and Health Administration (OSHA) compliance on the Press Level.

## **2013 CIP Goals**

The CIP Goals for Fiscal Year 2013 remain as critical to stadium operations as ever. As the stadium continues to age, more investment in the upkeep of the venue will be required. To remain true to commitments to clients, vendors and customers, the CIP budget will be needed to support:

- Electrical and plumbing system upgrades
- Parking lot resurfacing
- In-house audio and video systems upgrades
- Renovation of broadcast booths
- Re-construction of the service elevator

**Description:** This annual allocation provides for needed improvements at QUALCOMM Stadium, including the electrical system, parking lot and stadium seating areas.

**Justification:** QUALCOMM Stadium enriches the quality of life through a variety of hosted events, and serves as a visitor attraction that strengthens the local economy. As the stadium ages, regular upgrades and renovations are required for various components of the facility.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mission Valley Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction will be phased in accordance with the scope of various projects.

**Summary of Project Changes:** Fiscal Year 2013 projects will be funded from the annual allocation's continuing appropriations.

## **Real Estate Assets**

## **Real Estate Assets**

The Real Estate Assets Department manages the City's real estate portfolio, directs the operations of the Community Concourse, and manages the Evan V. Jones Parkade parking garage which provides parking for City employees and the general public. The Department's capital improvement project is an equipment upgrade to Evan V. Jones Parkade. The new parking equipment will improve traffic flow and increases revenue which coincides with the Department's goal of optimizing the City's real estate portfolio. The funding source for the CIP project is the Concourse & Parking Garage Fund, which receives revenue from the Parkade, Concourse events, and Concourse leases.

## **2012 CIP Accomplishments**

Public Works-Engineering and Capital Projects is currently working with the Evan V. Jones Parkade parking garage project bidder to finalize scope and specifics of the project.

## **2013 CIP Goals**

Public Works-Engineering and Capital Projects have placed the Evan V. Jones Parkade parking garage project on hold pending further evaluation.

| <b>Project Status:</b> Technically completed | <b>Contact Information:</b> Darvishi, Ali |
| <b>Duration:</b> 2010 - 2013                 | 619-533-5328                              |
| <b>Improv Type:</b> Betterment               | adarvishi@sanidiego.gov                   |

**Description:** The project provides for the furnishing and installation of fully automated parking garage equipment upgrades which will allow visitors to utilize self-service pay machines or credit card pay-in-lane. New basic equipment will include ticket machines; pay-on-foot and pay-in-lane machines; credit card machine; and intercoms.

**Justification:** The project will improve ingress and egress to the parking facility. It will improve the overall traffic flow. It will reduce time to exit due to transactions occurring in advance, i.e. prior to the parker retrieving their vehicle, which only requires submission of the paid ticket to the acceptor at the exit gate. It also centralizes the supervision via a command center operation. Intercoms will also allow immediate response to customer service issues and monitoring of entrance and exit gate activity.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Centre City Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project is scheduled to begin in Fiscal Year 2011 and to be completed in Fiscal Year 2013.

**Summary of Project Changes:** The project is currently on hold and will be re-evaluated.

## **Special Promotional Programs**

## **Special Promotional Programs**

Special Promotional Programs are intended to advance the City's economy by promoting the City of San Diego as a visitor destination in the national and international market place. The Department also supports programs that increase hotel occupancy and develops and enhances visitor-related facilities. The Department's Capital Improvements Program project will expand the existing the Convention Center to accommodate larger events, increase attendance and provide significant economic benefits. Funding for the initiation of this project was made available by the Convention Center.

## **2013 CIP Goals**

A concept design for the Convention Center expansion will be developed as the first phase of the project.

## Special Promotional Programs: Capital Improvement Projects

| <b>Improv Type:</b> Expansion      | dgreenhalgh@sandiego.gov                       |

**Description:** This project provides for the expansion of the existing San Diego Convention Center. The expansion will increase the existing leasable space by approximately 225,000 square feet of exhibit hall, 101,000 square feet of meeting rooms, and 80,000 square feet of ballrooms for an approximate total of 405,000 square feet.

**Justification:** The existing facility cannot accommodate some of the larger major events, which leads to the loss of events to other venues. The expansion is expected to increase the attendance and numbers of events held at the facility and provide significant economic benefits to the region such as tax revenues and permanent jobs.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Centre City community plan and is in conformance with the City's General Plan.

**Schedule:** A concept design is currently being developed. Design and construction of the facility will be scheduled as a financing plan is approved and funds become available.

**Summary of Project Changes:** This is a newly published project for Fiscal Year 2013.

## **Transportation & Storm Water**

## Transportation & Storm Water

The Transportation & Storm Water Department's Capital Improvements Program includes roadway infrastructure and drainage improvements within the public right-of-way. The Department's Traffic Engineering Operations Division manages the City's roadway infrastructure of 2,659 centerline miles of asphalt streets and 115 centerline miles of concrete streets. The Division is also responsible for the planning and programming of capital improvement projects which include resurfacing, reconstruction, and replacement of streets and sidewalks, in addition to the engineering of traffic systems to improve traffic flow and safety for motorists, pedestrians, and cyclists.

The Department's Storm Water Division leads the City's efforts to protect and improve water quality through capital improvement projects focused on providing the most efficient storm drain system and meeting Best Management Practices (BMPs) to capture or treat storm water runoff.

The Utilities Undergrounding Program plans for the removal of utility lines (electric, phone, cable) and affiliated poles from overhead for relocation underground. Although the City has been undergrounding overhead utility lines since 1970, the City's program expanded in 2003 following the California Public Utilities Commission approval of an undergrounding surcharge on San Diego residents' electricity bills. This surcharge is the primary funding source for the program. The expanded program has undergrounded 359 miles of utility lines out of a total of 1,439 miles.

Funding for the Department's projects comes from a variety of sources such as development impact fees, facilities benefit assessments, deferred capital project bond financing, TransNet and grants.

### 2012 CIP Accomplishments

In Fiscal Year 2012, the Transportation & Storm Water Department saw the completion of a number of capital projects which included the construction of 59 pedestrian, roadway, and traffic improvement projects in addition to resurfacing approximately 75 miles of streets.

Completed transportation projects include the following:

- La Jolla Village Drive and I-805 Ramp project widened the overpass, added auxiliary lanes, bike lanes and reconfigured the interchange to provide greater capacity and traffic circulation improvements to this heavily used interchange.
- Carroll Canyon Road Extension project, constructed jointly with Caltrans, improved traffic circulation by providing a collector street with bike lanes and direct access ramps to the freeways.
- Aldine Drive and Fairmount Avenue Slope project constructed stability improvements to a slope impacted by heavy rain events. The project ensured that traffic on the affected roadways would no longer be impaired
- Rose Creek Bikeway project constructed a pedestrian and bicycle bridge across Rose Creek and closed a gap in the existing network of bike lanes and paths in Mission Bay Park.

To improve storm drain infrastructure, the Department completed the construction of 11 projects that included:

- Mission Bay Sewage Interceptor System upgraded low flow diversion sites which redirect storm water runoff from the storm drains to the sewer systems during low flow conditions.
-

## Transportation & Storm Water

- The Memorial Park Infiltration Basin was the City's first large scale water quality improvement project. The construction of this project was designed to remove pollutants from storm water before it entered the public waterways. Projects of this type satisfy watershed-based water quality activity requirements.
- The Department also completed storm drain repairs at the following locations that were local emergencies: 5670 Bounty, Via Esprillo, Carmel Mountain Road, and 47th Street and Market.

The Utilities Undergrounding Program will relocate between 15 and 20 miles of overhead utilities in Fiscal Year 2012.

### 2013 CIP Goals

In Fiscal Year 2013, the Department plans to resurface 80 miles of roads, complete the construction of 41 pedestrian, roadway, and traffic improvements projects, and establish new transportation projects including sidewalks, traffic calming, signal modifications, street lights, bridge rehabilitation, and bike facilities.

Projects scheduled to be completed in Fiscal Year 2013 include:

- Talbot Street Slope Restoration project will stabilize the eroded slope and protect houses at the top of the slope.
- Azalea Park Artistic Enhancement is part of a community revitalization effort including pedestrian and vehicular enhancements as well as community identification signage.
- San Diego River Multi-Use Path provides increased mobility and safety for bicyclists and pedestrians along the north side of the San Diego River from Hazard Center Drive to Fashion Valley.
- Skyline Drive Improvements will provide for enhanced traffic flow and corridor walkability.
- Ted Williams Pedestrian Bridge will provide for increased pedestrian safety to fulfill a community request.
- University Avenue Mobility Project will improve safety and mobility along the corridor for pedestrians, bicyclists, transit and automobile traffic.
- Palm Avenue Roadway Improvements project provides for vehicular and traffic safety improvements on Pam Avenue from Beyer Way to Interstate 805.
- 25th Street Renaissance Project will construct pedestrian amenities, traffic calming, and streetscape improvements.

In addition, the Storm Water Division is scheduled to complete the construction of seven pipeline replacement and water quality projects. Projects in design and/or construction include the Kellogg Park Green Lot Infiltration System, Nye Street Storm Drain Replacement, Arden Way Storm Drain Replacement, 46th Slope Restoration, La Cresta Storm Drain Pipe Replacement, Judy Lee Storm Drain, and the Maryland Street Storm Drain Replacement.

The Utilities Undergrounding Program plans to relocate 17 miles of overhead utilities in Fiscal Year 2013.

**Description:** This project provides for the construction of pedestrian amenities, traffic calming, streetscape improvements and parking along 25th Street from Highway 94 to Balboa Park. The focus of the improvements is between E Street and B Street.

**Justification:** This project will provide traffic calming and improve pedestrian safety.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Golden Hill Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary design began in Fiscal Year 2009 and was completed in Fiscal Year 2011. Design began in Fiscal Year 2011 and was completed in Fiscal Year 2012. Project construction is scheduled to begin and to be completed in Fiscal Year 2013.

**Summary of Project Changes:** In Fiscal Year 2012, an additional \$1,500,000 in TransNet funding was allocated to this project per City Council Resolution R-307150, dated November 30, 2011. There are no significant changes to the project for Fiscal Year 2013.

**Description:** This project provides for improved flood control by upgrading the existing pipe and outfall along 34th Street.

**Justification:** This project will alleviate frequent flooding during normal storm events as a result of failure at the discharge end of the pipe.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Golden Hill Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and is anticipated to end in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013 and is anticipated to be completed in Fiscal Year 2014.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

**Description:** This project provides full street improvements on 38th Street from Dwight Street north to terminus. Improvements will include curb, gutter, driveways, sidewalk, pedestrian ramps, pavement, drainage facilities, angled on-street parking, etc. The improvements will comply with current local, State and federal safety and accessibility codes and regulations.

**Justification:** Street improvements are needed to comply with the City's design guides for the improvement of public right-of-way.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** The project is consistent with the Mid-City: City Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2010 and was completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** Schedule has been revised due to design issues with storm water improvements.

**Description:** This project provides for realigning the intersection at 43rd Street and National Avenue. This project will make necessary traffic enhancements to handle the increased daily traffic associated with the residential, industrial and commercial development of the State Route 252 Corridor (approximately 66 acres).

**Justification:** This project is a major component in the development of the State Route 252 Corridor within the Southcrest Project. The street currently handles approximately 12,000 weekday trips. Once development on the corridor is complete, the number of trips will increase significantly. The Southeastern San Diego Community Plan recommends improvement to four lanes to handle the current capacity.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Southeastern San Diego Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and land acquisition began in Fiscal Year 2002 and was completed in Fiscal Year 2009. Construction began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2013.

**Summary of Project Changes:** The Transportation and Storm Water Department is allocating \$60,000 to this project in Fiscal Year 2013 for the purpose of constructing storm water biofiltration features. General fund contributions for this purpose had previously been appropriated to the project but were deappropriated as part of the Fiscal Year 2010 Year-End General Fund Solution. Part of the funding shortfall created by the deappropriation was addressed through project cost reductions due to lower bids coming in under the engineer's estimate, therefore only \$60,000 is needed to complete construction.

**Description:** The proposed project will install missing sidewalks within the community boundaries.

**Justification:** The purpose of this project is to provide improved pedestrian access.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City City-Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2012. Construction is expected to begin in Fiscal Year 2013 and be completed in Fiscal Year 2014.

**Summary of Project Changes:** The Redevelopment Agency funding for this project was allocated via City Council Resolution R-307188, dated December 15, 2011.

**Description:** This project provides for the evaluation, design and construction of slope stability improvements along the south side of Aldine Drive between Fairmont Avenue and Van Dyke Avenue.

**Justification:** The inordinate amount of rainfall from the 2004/2005 rainy season caused erosion of sections of the slope along the south side of Aldine Drive between Fairmont Avenue and Van Dyke Avenue.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project implements the Mid-City: Kensington-Talmadge Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began and was completed in Fiscal Year 2010. Construction began in Fiscal Year 2011 and was completed in Fiscal Year 2012. There will be 25 months of maintenance after the completion of construction. It is anticipated that the project will be closed in Fiscal Year 2014.

**Summary of Project Changes:** TransNet funding in the amount of \$300,000 has been allocated to this project for Fiscal Year 2013.

**Description:** This project will repair the erosion and damage to the lower La Jolla Canyon bounded by Alta La Jolla Drive and the cul-de-sac at Vickie Drive.

**Justification:** This project is part of the settlement agreement and limited release entered into by the La Jolla Alta Master Council and the City of San Diego.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design will be completed in Fiscal Year 2013. Construction schedule is subject to receipt of State and federal permits. It is anticipated that construction will begin in Fiscal Year 2014.

**Summary of Project Changes:** Funding for construction has not been received. Construction funds will be received from the insurance provider. No significant change has been made to this project for Fiscal Year 2013.

**Description:** The project provides for the installation of missing sidewalks within the community boundaries.

**Justification:** The purpose of this project is to provide improved pedestrian access.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City City Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin in Fiscal Year 2012. Construction is expected to begin in Fiscal Year 2013 and be completed in Fiscal Year 2014.

**Summary of Project Changes:** The Redevelopment Agency funding for this project was allocated via City Council Resolution R-307188, dated December 15, 2011.

**Description:** This project provides for the realignment of Alvarado Canyon Road from 380 feet east of the Fairmount Avenue and Camino Del Rio North intersection to the Fairmount Avenue and Mission Gorge Road intersection. Improvements for this two-lane collector street will include a structure over the existing concrete drainage channel, removal of some existing pavement, re-grading of affected private parcels and traffic signal modifications.

**Justification:** This project will improve the traffic flow at the Interstate 8, Fairmount Avenue and Mission Gorge Road interchange.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is in conformance with the City's General Plan. The proposed realignment requires an amendment to the Navajo Community Plan.

**Schedule:** Preliminary engineering began in Fiscal Year 2009 and continued through Fiscal Year 2010. Design will begin once the Navajo Community Plan Amendment is finalized.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for installing curb ramps at various locations throughout the City as funded by Development Impact Fees (DIF).

**Justification:** Persons with disabilities and many senior citizens find their mobility restricted by curbs, which they find difficult or impossible to negotiate.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the appropriate community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled contingent upon the rate of development and fees collected in the community.

**Summary of Project Changes:** Developer Impact Fee (DIF) funding has been allocated to this project for Fiscal Year 2013.

**Description:** This project provides for the construction of new vehicular and pedestrian improvements, including raised medians, sidewalks and curb ramps, enhanced crosswalks and curb-extensions, (which are to be funded by Development Impact Fees), neighborhood identification signs (which are to be funded by Community Development Block Grants), and seating areas. This project is part of a community revitalization effort outlined in the Azalea Park-Hollywood Park Revitalization Action Program. The specific locations of this portion of the project are the intersections of Poplar Street and Fairmount Avenue.

**Justification:** These improvements will benefit the community by increasing safety, improving the flow of traffic, enhancing pedestrian access, and promoting community identification.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation and Storm Water budget.

**Relationship to General and Community Plans:** This project implements the recommendations found in the Mid-City Community Plan and the Azalea Park-Hollywood Park Revitalization Action Program and is in conformance with the City's General Plan.

**Schedule:** The preliminary design process for the raised medians, neighborhood identification signs and seating areas, which included neighborhood residents' involvement, was completed. Design began in Fiscal Year 2007 and will be completed in Fiscal Year 2013. Construction of vehicular and pedestrian improvements began in Fiscal Year 2011 and was completed in Fiscal Year 2012. The community identification sign will be constructed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for improvements to the former State Route 274, which is Balboa Avenue. This project is divided into three phases. Phase I begins at Interstate 5 and ends at Interstate 805. Phase II begins at Interstate 805 and ends at Interstate 15. Improvements to both phases consist of roadway widening, construction of new curbs, gutters, and sidewalks, reconstruction of existing sidewalks and medians, installation of a new traffic signal(s), modification of existing traffic signals, and new bicycle routes. Phase III will install community signs at the Kearny Mesa Community boundaries.

**Justification:** This project is funded by a State contribution agreement as part of the relinquishment of State Route 274 to the City of San Diego.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Clairemont Mesa and Kearny Mesa Community Plans and is in conformance with the City's General Plan.

**Schedule:** Phase I - Preliminary engineering was completed in Fiscal Year 2005. Design began in Fiscal Year 2005 and was completed in Fiscal Year 2006. Construction began in Fiscal Year 2008 and was completed in Fiscal Year 2009. Phase II - Preliminary engineering began in Fiscal Year 2009 and design began in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2014. Phase III - Design started in Fiscal Year 2009 and was completed in Fiscal Year 2012. Construction will start and be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for evaluation, design, and construction to repair a damaged storm drain that leads from Park Boulevard and the San Diego Zoo parking lot into the Florida Canyon creek bed.

**Justification:** This project repairs a damaged storm drain caused by erosion of a gully that spans the entire length of Florida Canyon, from Park Boulevard east to the creek bed. This project will repair the storm drain to prevent further erosion and allow a north-south trail access to continue through the west side of Florida Canyon.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Balboa Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2009. Construction began in Fiscal Year 2009 and was completed in Fiscal Year 2010. The five year mitigation and monitoring requirements for this project began in Fiscal Year 2011.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for constructing a Class I bikeway from the northern end of 13th Street to Main Street at the Interstate 5 interchange at the southeast corner of San Diego Bay. This project will include the construction 2.7 acres of Coastal Sage Scrub restoration as mitigation for impacts from the Bayshore Bikeway Project.

**Justification:** This project completes the missing segment of the planned bike path around San Diego Bay from Point Loma to Coronado. When completed, this change will improve public use safety overall.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa/Nestor Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2004 and was completed in Fiscal Year 2008. Construction began in Fiscal Year 2009 and was completed in Fiscal Year 2010. Mitigation design began in Fiscal Year 2011 and was completed in Fiscal Year 2012. Design of the mitigation restoration began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2013. A five year mitigation maintenance period will continue into Fiscal Year 2017.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the beach area interception and diversion of sewer spills and storm drain low-flows. Federal grants are available for 55 percent of the construction costs for Phase II, which has 10 sites and Phase III, which has 11 sites.

**Justification:** This project provides for returning dry weather sewer overflows and low flow storm runoff to the sewer, preventing pollution in the beach areas.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla and Pacific Beach Community Plans and is in conformance with the City's General Plan.

**Schedule:** Phase I, completed construction. Phase II, design completed in Fiscal Year 2004 and construction was completed in early Fiscal Year 2008. Phase III, design and construction were completed in Fiscal Year 2010.

**Summary of Project Changes:** This project has been completed and will be closed by the end of the fiscal year.

**Description:** This project will install a missing section of sidewalk and provide curb ramps on the east side of the street between Kearny Villa Road/Mesa College Drive and Frost Street.

**Justification:** The project location is a highly used area. One or more Americans with Disabilities Act (ADA) complaints have been received. The improvements are needed for disabled access in the public right-of-way for compliance with current ADA standards.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Serra Mesa Community Plan and in in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and was completed in Fiscal Year 2012. Construction was completed in Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the installation of bicycle detection of 20 intersections at various locations within the Balboa Park, Barrio Logan, Centre City, College Area, Mission Beach, Otay Mesa-Nestor, Skyline-Paradise Hills, Southeastern and Uptown communities.

**Justification:** This project will promote bicycle safety and mobility by providing detection to enable bicycles to actuate traffic signals. All locations are in older parts of the City where the existing loop detection systems are not sensitive enough to detect bicycles.

**Operating Budget Impact:** None. The new detection systems will not require any more maintenance than the older existing systems.

**Relationship to General and Community Plans:** This project is consistent with the Balboa Park, Barrio Logan, Centre City, College Area, Mission Beach, Otay Mesa-Nestor, Skyline-Paradise Hills, Southeastern and Uptown Community Plans and with the City's General Plan (Mobility Element), and the City's Bicycle Master Plan.

**Schedule:** Design and construction began in Fiscal Year 2011. Construction was completed in Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project updates the current Bicycle Master Plan that was completed in 2002. This update provides for documenting existing conditions and making recommendations for future bicycle facilities. It is an essential reference tool for updating community plans, and for use in reviewing development proposals and street improvement plans.

**Justification:** To facilitate grant fund applications, a new Master Plan is required to update the existing 2002 Bicycle Master Plan.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** The Request for Proposal was issued in January 2008 and the Master Plan project was completed in Fiscal Year 2011.

**Summary of Project Changes:** The project was completed and will be closed by the end of the fiscal year.

**Description:** This project provides traffic calming measures to reduce speed and improve safety and walkability on La Jolla Boulevard. The project includes three modern roundabouts on La Jolla Boulevard and three mini roundabouts on connecting residential streets. La Jolla Boulevard will be reduced from four to two lanes. The project also includes 20 additional traffic calming measures on connecting residential streets.

**Justification:** This project will reduce traffic speed and improve traffic flow and safety on La Jolla Boulevard. The project also reduces speed and minimizes traffic on surrounding area streets. This project is in accordance with the La Jolla Public Facilities Financing Plan, Project T-13.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2004 and was completed in Fiscal Year 2007. Construction will be scheduled in two phases. Phase I construction was completed in Fiscal Year 2008 and Phase II was completed in Fiscal Year 2010 when the Notice of Completion was processed.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

**Description:** This project provides for the development of bridge preventive maintenance assessments. It will provide an evaluation of 318 existing vehicular bridges, analyze current industry practices, and determine the cost benefits of program implementation.

**Justification:** Bridges identified in this assessment will be considered for participation in a future preventive maintenance construction contract. This will minimize structural deficiencies and extend bridge existence.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** The program began in Fiscal Year 2007 and continued through Fiscal Year 2012 per terms of the grant.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides for the widening, replacement or retrofitting of miscellaneous bridge rehabilitation projects.

**Justification:** This project maintains an ongoing program to promote safety on City bridges. Funding is provided on an as-needed basis.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** TransNet funding in the amount of \$448,056 has been allocated to this project for Fiscal Year 2013.

| <b>Duration:</b> 2010 - 2020      | 619-533-3611                                |
| <b>Improv Type:</b> Betterment    | scelniker@sandiego.gov                      |

**Description:** This project will provide for the installation of concrete pads in the roadways at bus stops city-wide. The project is funded by the City's share of bus stop advertising revenue. Funding for the project was provided per terms of an agreement with San Diego Metropolitan Transit System in Fiscal Years 2011, 2012 and 2103.

**Justification:** Asphalt street pavement at bus stops may be damaged by rippling and potholing caused by friction from bus tires when buses decelerate, accelerate or turn. This project provides for replacing asphalt paving at bus stops with concrete pads in the street that better withstand the wear from buses. This extends pavement life and reduces maintenance costs.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New          | jfuentes@sandiego.gov                      |

**Description:** This project will install curb, gutter, and sidewalk on Caliente Avenue from Otay Mesa Road to Airway Road.

**Justification:** The purpose of this project is to provide improved pedestrian access.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation and Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction were scheduled to begin and to be completed in Fiscal Year 2012.

**Summary of Project Changes:** Caltrans will design and construct this project as part of the South Route 905 construction and the City will reimburse the entire project cost to Caltrans upon completion. As a result of the cooperative agreement with Caltrans, funding for the project was reduced by \$579,840 per City Council Resolution R-307145, dated November 11, 2011. City share of the project is estimated to be \$100,160.

**Description:** This project will design and construct a four-lane major roadway within a six-lane right-of-way. The project will be built in two phases. The first phase consists of the two northerly lanes between Bernardo Lakes Drive and Lone Quail Road that have been built as a subdivider improvement. The second phase consists of design and construction of the southerly two lanes and the median from Bernardo Lakes Drive to Lone Quail Road. This is project T-34.2 in the Black Mountain Ranch Public Facilities Financing Plan.

**Justification:** This facility is required to accommodate traffic generated by new development in Black Mountain Ranch and surrounding communities as well as existing sub-regional traffic needs.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Black Mountain Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Reimbursement to the developer is anticipated in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the construction of Camino del Sur (formerly Camino Ruiz) as a four-lane major street with Class II bicycle lanes from SR-56 to 1,600 feet north of Park Village Road.

**Justification:** Camino del Sur is the major street connecting the southwest corner of Rancho Penasquitos to the future Carmel Mountain Road extension and to State Route 56. This street is required to accommodate traffic generated in Rancho Penasquitos, Torrey Highlands and surrounding communities.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** The Torrey Highlands Public Facilities Financing Plan was approved by City Council Resolution R-304935 on June 2, 2009 authorizing the appropriation of \$4,036,000 in the project. The project is also consistent with the Rancho Penasquitos Community Plan, and Torrey Highlands Subarea Plan, projects T31A, 32A, 31B and 32B and is in conformance with the City's General Plan.

**Schedule:** The Environmental Impact Report was completed in Fiscal Year 2006. Design was scheduled to begin in Fiscal Year 2012 contingent on funds being available. Construction is scheduled to occur in Fiscal Year 2017

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the construction of Camino del Sur between State Route 56 and Carmel Valley Road as a two-lane interim roadway (40-foot paved width) within the right-of-way for a future six-lane facility. Additional lanes may be required in the immediate vicinity of the interchange. This project will be constructed by the developer who will be reimbursed.

**Justification:** This project will accommodate the increase in vehicular traffic caused by development in the area and is funded by development within Torrey Highlands.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Torrey Highlands Subarea Plan and is in conformance with the City's General Plan. See Projects T2.1 and T2.2 in the Torrey Highlands Ranch Financing Plan.

**Schedule:** The initial four lanes of this project are complete and reimbursement to the developer is pending, contingent upon fees collected within the community and an amendment to the original reimbursement agreement. The final two lanes of the project within the six lane right-of-way are tentatively scheduled for Fiscal Year 2014 contingent upon the rate of development within the community.

**Summary of Project Changes:** Black Mountain Ranch Facilities Benefit Assessment funding will fund the cost of the final two lanes contingent upon fees collected within Black Mountain Ranch FBA.

**Description:** This project provides for reimbursement to a developer for the design and construction of Camino del Sur between San Dieguito Road south to Carmel Valley Road as a two-lane interim facility within a six-lane right-of-way. It also provides a wildlife crossing, traffic signals and intersection widening at San Dieguito Road, B Street and Carmel Valley Road. A second phase of the project will construct two additional lanes on Camino del Sur from San Dieguito Road southward to Carmel Valley Road and modify the traffic signals accordingly.

**Justification:** This project is in accordance with projects T-10 in the Black Mountain Ranch Public Facilities Financing Plan, Council Resolution R-301005, November 1, 2005, and Project T-2.4 of the Torrey Highlands Public Facilities Financing Plan, Council Resolution 304935, June 2, 2009.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Black Mountain Ranch and Torrey Highlands Subarea Plans and the Torrey Highlands Public Facilities Financing Plan, and is in conformance with the City's General Plan.

**Schedule:** Phase I of this project was completed in Fiscal Year 2002, with reimbursement to developer ongoing, per the terms of an existing reimbursement agreement. A portion of Phase II was completed in Fiscal Year 2004. The remainder of Phase II construction began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2013 with reimbursement to the developer scheduled for Fiscal Years 2013 and 2014.

**Summary of Project Changes:** Reimbursement to the developer has been scheduled for Fiscal Year 2013 and Fiscal Year 2014.

| <b>Improv Type:</b> New                     | jtracana@sanidiego.gov                     |

**Description:** This project provides for reimbursement to a developer for the design and construction of Camino Ruiz between Santaluz and Camino del Norte.

**Justification:** This project is in accordance with the Black Mountain Ranch Public Facilities Financing Plan, Project T-5.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Black Mountain Ranch Subarea Plan and is in conformance with the City's General Plan.

**Schedule:** The road was built and completed in Fiscal Year 2006. Reimbursement, per terms of an existing reimbursement agreement, is contingent upon the rate of fees collected within the community.

**Summary of Project Changes:** Due to lack of Facilities Benefits Assessment (FBA) revenues, it is anticipated that the continuing appropriation funding will be reprogrammed based on the anticipated future update to the Black Mountain Ranch Subarea Plan.

**Description:** This project provides construction of Little McGonigle Ranch Road and will be completed in two phases. Phase I has been completed for the construction of Little McGonigle Ranch Road (formerly Camino Santa Fe) (45'/65') from the northerly terminus of Carmel Mountain Road at Del Vino Court, north-westerly to the easterly terminus of Del Mar Mesa Road. The project includes a multi-use trail adjacent to the roadway. Phase II provides for the construction of Little McGonigle Ranch Road (40'/62') from Del Mar Mesa Road to State Route 56. The project will include a 100-foot bridge. A multi-use trail will also be constructed adjacent to the roadway.

**Justification:** This project is required to accommodate additional traffic in Del Mar Mesa and will provide access from Del Mar Mesa to adjoining communities.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Del Mar Mesa Specific Plan and is in conformance with the City's General Plan.

**Schedule:** Land acquisition, design and construction were completed by the developer for Phase I of the project. Phase II improvements are not anticipated for several years and will be contingent upon the availability of FBA funding; therefore, a new project will be created for Phase II.

**Summary of Project Changes:** Phase I of this project has been completed and will be closed by the end of the fiscal year.

**Description:** This project provides for raising the elevation of an existing bike path crossing over Carmel Creek.

**Justification:** This project will provide for relief of water ponding under the Carmel Country Road Bridge and to the east of the bridge on the Palacio Del Mar property. This condition has created a health and safety issue for area residents.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley Public Facilities Financing Plan (Project W-3) and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013. Advertise and award of the contract is scheduled for Fiscal Year 2014 with construction scheduled to begin in Fiscal Year 2014 and to be completed in Fiscal Year 2015.

**Summary of Project Changes:** Project scope has been revised from the construction of permanent low flow channel to an elevated bike path. The existing bike path runs through the drainage channel and is frequently impassable due to the presence of water. The schedule has been revised to reflect change in scope and the additional required environmental impacts.

**Description:** This project provides for the construction of Carmel Mountain Road as a two-lane collector street from the Carmel Valley Neighborhood easterly boundary to Little McGonigle Ranch Road (formerly Del Mar Mesa Road). The 4,050 linear feet of half-width road (FBA funded) which traverses open space will be 40-foot/62-foot. Also included as part of this project is a wildlife crossing under Carmel Mountain Road. The remainder (sub-divider funded) will be both 40-foot/62-foot and 50-foot/72-foot and will include left-turn lanes at intersections and major driveways as needed. A multi-use trail will be constructed as part of this project along the entire project length.

**Justification:** This project is required to accommodate the additional traffic generated as a result of development in Del Mar Mesa.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Del Mar Mesa Specific (Community) Plan and is in conformance with the City's General Plan.

**Schedule:** Project design and construction is to be completed by developer in accordance with a future Reimbursement Agreement (RA). The RA is anticipated to be completed during Fiscal Year 2013 with work moving forward shortly after.

**Summary of Project Changes:** Due to lack of Facilities Benefits Assessment (FBA) revenues, it is anticipated that the continuing appropriation funding will be reprogrammed based on the anticipated future update to the Del Mar Mesa Public Facilities Financing Plan.

**Description:** This project provides for reimbursement to a developer for the design and construction of Carmel Valley Road from Lopelia Meadows place to Via Abertura as a four-lane facility within a 122 foot right-of-way that can accommodate six lanes in the future (Approx. 3,600 LF).

**Justification:** This project is in accordance with the Pacific Highlands Ranch Public Facilities Financing Plan, Project T-4.4. Companion Projects T-4.2 and T-4.3 for the other phases of this project.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Highlands Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Phase I completion is scheduled for Fiscal Year 2012, if Pardee agrees to advance funding and will be reimbursed from the Pacific Highlands Ranch Facilities Benefit Assessment (FBA) under the terms of a reimbursement agreement. Reimbursement to the developer is programmed for Fiscal Year 2015. Subsequent phases are anticipated with adjacent subdivision development estimated to occur in Fiscal Year 2017.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New                 | jtracanna@sandiego.gov                     |

**Description:** This project provides for the design and construction of two additional travel lanes in two increments. The first increment requires the widening along the frontage of Torrey Del Mar development. The second increment completes the remainder of the widening. Timing of each increment of widening will be based on the rate of development in Torrey Highlands.

**Justification:** This facility is required to accommodate traffic generated by new development in Black Mountain Ranch, Torrey Highlands and surrounding communities as well as existing sub-regional traffic needs.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Torrey Highlands Subarea Plan and is in conformance with the City's General Plan. See project T4.3 in the Torrey Highlands Public Facilities Financing Plan.

**Schedule:** Initial lanes have been completed. Widening to be completed by the developer per terms of the Reimbursement Agreement (RA). The Reimbursement Agreement and construction of the lanes adjacent to the Torrey Del Mar development are anticipated to be completed in Fiscal Year 2013.

**Summary of Project Changes:** It is anticipated that the developer will be reimbursed in Fiscal Year 2013.

**Description:** This reimbursement project provides for the design and construction of Carmel Valley Road from the Camino Santa Fe Interchange to Pacific Highlands Ranch Parkway as a six-lane facility within a 146 foot right-of-way transitioning to a four-lane facility within a 122 foot right-of-way (4,000 linear feet). The expanded right-of-way will permit widening of up to 24 additional feet for a future transit oriented facility. In the interim, these two-lanes shall be landscaped and incorporated into the center median improvements.

**Justification:** Due to anticipated traffic volumes on Carmel Valley Road, the portion between SR-56 and Del Mar Heights Road will be constructed as a six lane facility, in two phases, as required by the Transportation Phasing. See Project T- 4.2 and Torrey Highlands Public Facilities Financing Plan Project T- 4.5.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Highlands Ranch and Torrey Highlands Public Facilities Financing Plans and is in conformance with the City's General Plan.

**Schedule:** The developer (Pardee) provided advanced funding for this project and will be reimbursed from the Pacific Highlands Ranch Facilities Benefit Assessment under the terms of a reimbursement agreement.

**Summary of Project Changes:** It is anticipated that the developer will be reimbursed in Fiscal Year 2013.

**Description:** This project provides for improving Carmel Valley Road to a modified two-lane collector street from 300 feet east of Portofino Drive to the Del Mar city limits. The improvements include construction of curb, gutter, sidewalks and drainage improvements as well as construction of a Class II bicycle lane on both sides of Carmel Valley Road.

**Justification:** This project will improve traffic flow and turning movements on this roadway and provide bike paths on Carmel Valley Road.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction of the project are complete. Environmental monitoring will continue through Fiscal Year 2014.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for design and construction of Carmel Valley Road from A-Street to the Neighborhood Parkway as a four-lane facility within a 122 foot right-of-way that can accommodate six lanes in the future. The two internal lanes will be left unimproved for future expansion to accommodate six lanes of traffic or another transit oriented facility. In the interim, these two lanes shall be landscaped and incorporated into the center median improvements. This section of Carmel Valley Road includes the pedestrian undercrossing at the Neighborhood Parkway. See Project T-4.3 in the Pacific Highlands Ranch Public Facilities Financing Plan. This project will be built by the developer who will be reimbursed.

**Justification:** Due to anticipated traffic volumes on Carmel Valley Road, the section between A-Street and Neighborhood Parkway will be constructed as a four-lane facility that can be expanded to six lanes in the future.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Highlands Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Reimbursement to the developer will be made in accordance with the existing reimbursement agreement. This project is complete.

**Summary of Project Changes:** It is anticipated that the developer will be reimbursed in Fiscal Year 2013.

**Description:** This project provides for a modified four-lane collector street from Sorrento Valley Road, under Interstate 805 to Scranton Road as part of a joint project with Caltrans. Carroll Canyon Road will include Class II bike lanes and direct access ramps onto I-805 from Carroll Canyon Road to the I-5 interchange.

**Justification:** Canyon Road extension project is necessary in accordance with the community plan and the average daily trip forecast is 25,000 vehicles per day. Currently, there is no roadway and the traffic travels on Mira Mesa Boulevard which is over capacity. This project will improve traffic circulation in the area.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mira Mesa Community Plan and the Torrey Pines Community Plan and is in conformance with the City's General Plan.

**Schedule:** Land acquisition was scheduled in Fiscal Year 2005 and rescheduled to Fiscal Year 2009 due to changes in scope and alignment. Design was completed in Fiscal Year 2010. Construction began in Fiscal Year 2010 and is anticipated to be completed by Fiscal Year 2013, however, this schedule is dependent upon the availability of State funding for the Caltrans portion of the project.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for pedestrian improvements in the vicinity of Central Elementary School. Proposed improvements include enhanced paved crosswalks, new pedestrian signals, and new sidewalk.

**Justification:** Improvements in the vicinity of Central Elementary School will provide traffic calming elements to reduce traffic.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City Communities Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2009. Construction began in 2009 and was completed in Fiscal Year 2010.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

**Description:** This project provides for the reconstruction of the curbs, gutters, and sidewalks on Cherokee Street from Monroe Avenue to East Mountain View.

**Justification:** This project is required in order to mitigate drainage problems and reduce flooding.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: Normal Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary engineering began in Fiscal Year 2009 and was completed in Fiscal Year 2010. Design began in Fiscal Year 2012 and will be completed in Fiscal Year 2013. Construction is scheduled for Fiscal Year 2014.

**Summary of Project Changes:** TransNet funding in the amount of \$480,000 has been allocated to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Betterment    | jfuentes@sandiego.gov                      |

**Description:** This annual allocation provides for corrections of miscellaneous erosion problems along the shorelines that affect City streets.

**Justification:** This project provides remedies for erosion caused by surf, weather, and surface runoff impacting City streets in various locations along the San Diego shoreline.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Phase I, completed in Fiscal Year 1994, studied the coastline that borders the City of San Diego and prioritized areas in need of restoration and enhancement. Phase II, also completed in Fiscal Year 1994, involved detailed analysis of the prioritized areas. Phase III will begin project planning and implementation on an annual basis.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for identifying the best alignment for a bikeway route of approximately 10 miles between Sorrento Valley/Carmel Valley Rd to the Gilman Drive/I-5 Intersection.

**Justification:** This project is part of a larger multi-jurisdictional project, which proposes a bikeway along the coast in the cities of Oceanside, Encinitas, Solana Beach, Carlsbad, Del Mar, and San Diego. It is intended to provide regional connectivity for both commuting bicyclists and recreational activities.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Torrey Pines and University Community Plans and is in conformance with the City's General Plan.

**Schedule:** Preliminary engineering and preparation of environmental document is scheduled to begin in Fiscal Year 2013. Design is anticipated to begin in Fiscal Year 2013. Construction is expected to begin in Fiscal Year 2014. This schedule will be revised once funding is identified to complete the project.

**Summary of Project Changes:** This project has been awarded \$489,507 in federal Regional Surface Transportation Program (RSTP) funds and \$63,429 in Transportation Development Act (TDA) funds. A City Council action was processed in Fiscal Year 2012 to accept and appropriate this additional funding to the project. Until appropriated, the grant funding will be shown as anticipated.

| <b>Improv Type:</b> New             | drhughes@sandiego.gov                      |

**Description:** This project provides for the design and construction of street lights in the Colina Del Sol Neighborhood to meet City standards for street lighting.

**Justification:** Installation of street lights to meet the requirements of the City's Street Design Manual will improve safety and promote walking in the neighborhood.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation and Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mid City: City Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design is scheduled to begin and to be completed in Fiscal Year 2013. Construction is expected to begin in Fiscal Year 2013 and be completed in Fiscal Year 2014.

**Summary of Project Changes:** The Redevelopment Agency funding for this project was allocated via City Council Resolution R-307188, dated December 15, 2011.

| <b>Improv Type:</b> New                      | wgefrom@sandiego.gov                       |

**Description:** This project will remove the utility pole located where the curb ramp needs to be installed at the alley south of 70th Street and Saranac Street.

**Justification:** The project location is a highly used area. One or more ADA complaints have been received. The improvements are needed for disabled access in public right-of-way for compliance with current ADA standards.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the College Community Plan and the City's General Plan.

**Schedule:** The project description is preliminary and the scope of work has not been established. Design and construction will be scheduled following definition of project scope.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for improved flood control by upgrading the existing pipe and inlet along Coolidge Street.

**Justification:** This project will alleviate frequent flooding during normal storm events as a result of the current undersized storm drain.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Linda Vista Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** Deferred Capital Bond financing in the amount of \$175,000 will be allocated to this project in Fiscal Year 2013 for construction.

**Description:** This annual allocation provides for the City's share of the cost of traffic signal improvements undertaken in cooperation with others.

**Justification:** It is often beneficial for the City to share in the cost of traffic signal improvements undertaken in cooperation with other agencies. The most common situation involves the intersection of a City street with a State highway, County road, or street that is the responsibility of another jurisdiction. This project provides the flexibility necessary for timely initiation of these improvements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** TransNet funding in the amount of \$40,000 has been allocated to this project for Fiscal Year 2013. Future year funding will be allocated as sublet projects are identified.

| <b>Community Plan:</b> Rancho Penasquitos | <b>Priority Category:</b> N/A              |
| <b>Project Status:</b> Released           | <b>Contact Information:</b> Hughes, Duncan |
| <b>Duration:</b> 2005 - 2011              | 619-533-3141                               |
| <b>Improv Type:</b> New                   | drhughes@sanidiego.gov                     |

**Description:** The project provides for a feasibility study for a bike lane connection between the State Route 56 Bike Path and Park Run Road and is a part of the State Route 56 Corridor Study.

**Justification:** Bicyclists would otherwise only be able to access the bikepath from the adjacent freeway interchanges of Black Mountain Road or Camino Ruiz. Providing this direct connection would reduce the out-of-direction travel for accessing the bikepath and would also positively influence the potential usage by bicyclists.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** The project is consistent with the Rancho Penasquitos Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project's feasibility study began in 2005 and was completed in Fiscal Year 2010.

**Summary of Project Changes:** This project has been completed and will be closed by the end of the fiscal year.

**Description:** This project provides for developer reimbursement, contingent upon approval of a reimbursement agreement, for the half-width improvement of Del Mar Heights Road north to Ashley Falls Neighborhood Park to a six-lane major arterial with Class II bike lanes.

**Justification:** The developer was required to build this road and will be reimbursed from Facilities Benefit Assessment funding by agreement. See Project Number T-6 in the Carmel Valley Public Facilities Financing Plan.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project was constructed in prior years and the developer was reimbursed in Fiscal Year 2010.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

**Description:** This project provides for the necessary street and traffic improvements to include, but not limited to, flashing beacons, curb ramps, and traffic calming projects within the Carmel Valley Community. The current project will install a flashing beacon facing eastbound traffic on Del Mar Heights Road approximately 500 feet west of Seagrove Street.

**Justification:** The project provides for traffic safety improvements.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley Public Facilities Financing Plan (Included in Project T-2) and is in conformance with the City's General Plan.

**Schedule:** Design and construction have been rescheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the installation of traffic signal interconnect systems on Del Mar Heights Road from Mango Drive to Carmel Canyon Road, El Camino Real from Half Mile Drive to High Bluff Drive, and Carmel Country Road from Del Mar Heights Road to Townsgate Drive. The system will provide central communication to 16 traffic signals, improving traffic control.

**Justification:** This project will accommodate the need to centrally control heavily-traveled arterials and provide constant surveillance for efficient traffic signal operation and maintenance. The benefits include reduced stops, delays, fuel consumption and emissions.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley and Torrey Pines Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design, including the purchasing of equipment, began November of 2005 and was completed in March of 2010. Construction by City Forces began in December 2010, and was completed in June of 2011.

**Summary of Project Changes:** This project has been completed and will be closed by the end of the fiscal year.

**Description:** This reimbursement project provides for construction of Del Mar Heights Road from Old Carmel Valley Road to the new alignment of Carmel Valley Road as a modified five-lane roadway within a 122 foot right-of-way for a future six-lane facility. The project includes an eastbound third lane as the roadway approaches Carmel Valley Road. This project includes the bridge crossing over the open space corridor. This is the second phase of the project and will provide local access to the central area of development. The developer will advance funding for this project and be reimbursed from the Pacific Highlands Ranch Facilities Benefit Assessment under the terms of a reimbursement agreement.

**Justification:** This facility is required to accommodate traffic being generated by new development in Pacific Highlands Ranch as well as by existing sub-regional traffic needs.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Highlands Ranch Community Plan (Project T-3.2) and is in conformance with the City's General Plan.

**Schedule:** Construction of the project is complete. Reimbursements to the developer will continue through Fiscal Year 2013.

**Summary of Project Changes:** It is anticipated that the developer will be reimbursed in Fiscal Year 2013.

**Description:** This project provides for the construction of Del Mar Mesa Road as a two-lane rural residential road from Carmel Country Road to the future Carmel Mountain Road. The improvements also include a 16-inch water line and a multi-use trail. This roadway will provide access to the east until other road improvements are in place. This project was formerly named Shaw Ridge Road. This project will be constructed by three developers under three separate reimbursement agreements.

**Justification:** This project is required to accommodate the additional traffic generated as a result of development in Del Mar Mesa. See Project Number 43-3 in the Del Mar Mesa Public Facilities Financing Plan.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Del Mar Mesa Specific Plan and is in conformance with the City's General Plan.

**Schedule:** This project was constructed by developers in Fiscal Years 1999 through 2003. Reimbursements were made from the Del Mar Mesa Facilities Benefit Assessment fund as scheduled in the Public Facilities Financing Plan.

**Summary of Project Changes:** The project costs have been fully reimbursed to developers and project will be closed by end of fiscal year.

| <b>Improv Type:</b> New          | bjohnson@sandiego.gov                     |

**Description:** This project provides for construction of the central section of Del Sol Boulevard from the eastern boundary of Palm Ridge through the Multiple Species Conservation Program (MSCP) open space, and along the frontage of the proposed community park, elementary and middle school site. The roadway will consist of 800 linear feet of a two-lane collector and 2,000 linear feet of a four-lane collector street.

**Justification:** The transportation element of the Otay Mesa Community Plan suggests that an integrated transportation network will provide mobility and accessibility for the residents and business travelers to, from and through the community. See companion projects T-4.1 and T-4.2 in the Otay Mesa Public Facilities Financing Plan.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Phase I will be constructed by the San Ysidro School District through an Facilities Benefit Assessment Reimbursement Agreement. Phase I will construct approximately 1,000 linear feet of new road along the frontage of a new school. Phase II will be designed and constructed by the City to complete the connection from Phase I to the existing westerly terminus. Design of Phase I was completed in Fiscal Year 2012. Construction of Phase I began and was completed in Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for constructing approximately 2,900 linear feet as a two-lane collector street north of Palm Avenue within the Dennery Ranch Precise Plan area. Multiple Species Conservation Program frontage is to be funded from Facilities Benefit Assessment.

**Justification:** This project is required to accommodate the additional traffic generated as a result of development in the Otay Mesa community.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction have been completed. Reimbursement, per terms of an existing reimbursement agreement, contingent upon rate of fees collected within the community.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for an inventory and inspection of sidewalks in the Council District Three portions of the communities of Greater Golden Hill, Mid-City, and Greater North Park.

**Justification:** This engineering study would assist the City in planning for future improvements to sidewalks in Council District Three.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Golden Hill, Mid-City: City Heights, and Greater North Park Community Plans, and is in conformance with the City's General Plan.

**Schedule:** The study was completed in Fiscal Year 2004.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

| <b>Project Status:</b> Released   | <b>Contact Information:</b> Matter, Gene |
| <b>Duration:</b> 2010 - 2020      | 858-541-4346                             |
| <b>Improv Type:</b> New           | rmatter@sandiego.gov                     |

**Description:** This annual allocation provides for reconstructing or replacing failed drainage facilities citywide.

**Justification:** This project provides for the high priority redesign and reconstruction of existing storm drain structures. There are currently over 900 miles of storm drains in the City of San Diego. These storm drains can fail because of a variety of reasons (system material, age, earth movement, etc). The Operations and Maintenance Section of the Storm Water Division regularly cleans these systems and performs minor repairs; however, storm drain systems that require redesign and reconstruction are often encountered.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** Per the May Revision, TransNet funding in the amount of \$723,350 allocated in the proposed Fiscal Year 2013 budget has been removed and \$1,107,000 in additional funding for deferred capital from General Fund surplus in Fiscal Year 2012 has been added. In addition, this project reflects \$37.7 million of bond financing within Fiscal Year 2013 Anticipated column. This amount includes \$14.6 million of bond financing from a Fiscal Year 2012 Council action routing for approval and a Fiscal Year 2013 bond financing amount of \$23.2 million. Approximately \$99.8 million of bond financing is scheduled for drainage projects through Fiscal Year 2017. Based on a drainage condition assessment conducted in November 2011, the City will need an additional \$85.5 million in unidentified funding to address the remaining deferred capital needs.

**Description:** This project provides for widening Eastgate Mall to a four-lane collector street between Miramar Road and the San Diego Gas and Electric (SDG&E) easement. In addition, this project provides for Class II bicycle lanes.

**Justification:** These improvements will enhance traffic flow at this location. See project Number 34 in the North University City Public Facilities Financing Plan.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** The project description is preliminary and the scope of work is not established; only planning and other preliminary activities have been performed to date. The project schedule for the design and construction will be established once the scope of work is approved.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for median landscaping and related improvements along El Cajon Boulevard between Park Boulevard and Interstate 805. The improvements are part of other revitalization activities in the area.

**Justification:** The El Cajon Boulevard landscaping project has been a part of the Mid-City Commercial Revitalization Program as a Community Development Block Grant funded activity.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Greater North Park Community Plan, and is in conformance with the City's General Plan.

**Schedule:** Construction of improvements from 30th Street to Illinois Street were completed in Fiscal Year 1996. Design for Texas Street to 30th Street was completed in Fiscal Year 1997. Project phases between Park Boulevard and Texas Street, and 30th Street and Interstate 805, have been completed.

**Summary of Project Changes:** This project has been completed and will be closed by the end of the fiscal year.

**Description:** This project provides for reconstruction and widening of the existing two-lane bridge to a four-lane bridge. It provides for widening the existing two-lane roadway to a modified four-lane major road and includes improvements on eastbound Via de la Valle as far as northbound El Camino Real.

**Justification:** The El Camino Real project proposes to modify the segment of El Camino Real between Via de la Valle and San Dieguito Road in order to improve the structural integrity of the bridge over the San Dieguito river, alleviate problems associated with high flood events, improve pedestrian and vehicular access to nearby coastal and recreational resources, relieve traffic congestion, and improve consistency with the adopted land use plan for the project area.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Fairbanks Ranch Country Club Specific Plan and the North City Future Urbanizing Area Framework Plan and is in conformance with the City's General Plan.

**Schedule:** The environmental review process began in Fiscal Year 2007 and is scheduled to be completed in Fiscal Year 2013. Design began in Fiscal Year 2012. Land acquisition is scheduled to begin in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2014 and to be completed in Fiscal Year 2016.

**Summary of Project Changes:** Developer Impacts Fees (DIF) in the amount of \$950,000 have been allocated to this project for Fiscal Year 2013.

**Description:** This project provides for completion of the construction of the existing El Camino Real between Half Mile Drive and San Dieguito Road as a four-lane major street within the existing, graded right-of-way.

**Justification:** This project is required in order to accommodate the additional traffic generated as a result of development in the surrounding communities, including Pacific Highlands Ranch, as well as the existing sub-regional traffic needs.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Highlands Ranch and Black Mountain Ranch Public Facilities Financing Plans and is in conformance with the City's General Plan.

**Schedule:** This project is anticipated to be completed in Fiscal Year 2013.

**Summary of Project Changes:** This project will be closed by the end of the fiscal year.

**Description:** This project provides the installation of approximately 850 square feet of new sidewalk, curb and gutter, a black vinyl coated chain link fence, and two pedestrian ramps. The location of missing sidewalk is adjacent to a canyon, necessitating an approximate 590 square foot retaining wall of various heights, a pedestrian rail and a metal beam guard rail.

**Justification:** Construction of this missing section of sidewalk provides safe access for pedestrians.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City City Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** The project description is preliminary and the scope of work has not been established. Design and construction will be scheduled following definition of project scope.

**Summary of Project Changes:** The Redevelopment Agency funding for this project was allocated via City Council Resolution R-307099, dated November 17, 2011.

**Description:** This project provides for street improvements recommended in the Euclid Avenue Revitalization Program and the Mid-City Community Plan. Improvements will extend from Home Avenue to Thorn Street and will include curb, gutter, sidewalk, paving, traffic calming installations and landscape.

**Justification:** Euclid Avenue carries a traffic volume in excess of its design capacity, resulting in significant congestion, which impacts neighboring properties. Traffic speed, volume, and a deficiency in pedestrian infrastructure compromise pedestrian safety.

**Operating Budget Impact:** The landscape maintenance will be the responsibility of the landscape maintenance assessment district (MAD).

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: Normal Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** All construction improvements are completed except the landscape which is pending formation of a maintenance assessment district. The street is operational and open for traffic.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Replacement       | jbatta@sandiego.gov                      |

**Description:** This project provides for the replacement of the failed corrugated metal pipes under the roadway at the San Diego River Crossing and for the restoration of the roadway.

**Justification:** The road collapsed on December 30, 2004 due to the failure of six corrugated metal pipes under the roadway. The road is located in the floodplain zone and is, therefore, subject to inundation during heavy flows in the river as a result of high intensity rainfall. The road was repaired and in operation before the end of October 2005. The project is eligible for FHWA reimbursement.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mission Valley Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project is complete and the road is fully operational.

**Summary of Project Changes:** This project has been completed and will be closed by the end of the fiscal year.

| <b>Improv Type:</b> Replacement - Retrofit | apalaseyed@sandiego.gov                    |

**Description:** This project provides for seismic retrofit to the abutments, expansion joints and bracing of the First Avenue bridge and for replacement of corroded rivets. Miscellaneous painting is required to prevent rusting.

**Justification:** This bridge needs extensive hardware restoration and replacement, miscellaneous painting, and seismic upgrades to prevent collapse during a catastrophic earthquake.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project implements the Uptown Community Plan and is in conformance with the City's General Plan.

**Schedule:** An initial study began in late Fiscal Year 1993. Design began in Fiscal Year 1996 and was completed Fiscal Year 2007. Construction was completed in Fiscal Year 2010.

**Summary of Project Changes:** This project has been completed and will be closed by the end of the fiscal year.

**Description:** The project provides for the construction of pedestrian curb extension, sidewalk, curb ramps, countdown pedestrian crossing signal system, modifies traffic signage and signals to allow for safe pedestrian crossing at the intersections of Hancock Street and Washington Street and San Diego Avenue and Washington Street.

**Justification:** This project is needed to address public concerns regarding pedestrian safety in the Five Points Neighborhood.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Midway Pacific Highway Corridor and Uptown Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2009 and was completed in Fiscal Year 2012. Construction will begin in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides funding for preliminary engineering for future CIP projects.

**Justification:** Preliminary Engineering is required for all CIP projects to determine costs and feasibility.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** TransNet funding was not allocated to this project in Fiscal Year 2013. However, funding will be allocated for CIP planning activities as required in future years.

**Description:** This project will provide for the installation of new sidewalks, intersection bulb-outs to decrease the street crossing distances, road humps, pedestrian ramps, and a new traffic signal.

**Justification:** Located in the City Heights Community, Florence Griffith Joyner Elementary School serves students from kindergarten through fifth grade who walk or bike to school, and are faced with crossing several wide intersections in the vicinity of the school. This project will provide traffic calming measures and will enhance pedestrian mobility.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City: City Heights Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2013. Construction is scheduled to begin and to be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the installation of median improvements on Florida Drive. Improvements include the installation of a concrete center median and street lighting to enhance safety conditions for vehicles, bicyclists and other users of the roadway.

**Justification:** This project will enhance roadway conditions by reducing the occurrence of head-on collisions caused by vehicles crossing over the center median and adding street lights where none exist.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Balboa Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2012 and will be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2014.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New           | lschultz@sandiego.gov                      |

**Description:** This project provides for widening Genesee Avenue to six lanes plus dual turn lanes and replacing the existing Genesee Avenue overcrossing with a higher, wider (124-foot) structure and the modification of the existing ramps. The environmental document will also clear additional Interstate 5 Corridor improvements including auxiliary lanes on both sides of the freeway, north and south of Genesee Avenue and the replacement of the Voight Drive Overcrossing.

**Justification:** This project is needed to improve traffic flow. It is included in the Council-approved North University City Public Facilities Financing Plan as Project Number 24.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** The environmental document was completed in Fiscal Year 2011. Land Acquisition and Design are scheduled to be completed Fiscal Year 2013. Construction of the Genesee Overcrossing and ramps is scheduled to begin in Fiscal Year 2013. Construction of the additional corridor improvements is also contingent upon the identification of funding.

**Summary of Project Changes:** This project will be designed and constructed in partnership Caltrans. The City is the Implementing Agency for PS&E and Caltrans is the Implementing Agency for right of way and construction. It is currently anticipated the project funding responsibilities will be split between the City, SANDAG, Caltrans, and local property owners. The City will contribute a total of \$16.1 million to the project, SANDAG will contribute \$13.0 million, and SANDAG will contribute \$57.3 million. Local property owners will contribute \$7.7 million of property. FBA funding in the project will be reduced to bring the City's share in line with the agreement. Following the FBA reduction the total project will be reflected closer to the estimate of \$94.1 million.

| <b>Improv Type:</b> Widening      | apalaseyed@sandiego.gov                    |

**Description:** This project provides for widening Genesee Avenue from Nobel Drive to State Route 52 to a modified six-lane major street north of Decoro Street and a modified six-lane primary arterial south of Decoro Street. The project includes a right-turn lane, eastbound to southbound, at the Genesee Avenue/Nobel Drive intersection; additional left-turn lane, including a traffic signal at State Route 52 interchange; and Class II bicycle lanes.

**Justification:** This project is needed to increase the capacity of this facility. See Project Number A in the North University City Public Facilities Financing Plan.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** City Council initiated a community plan amendment to delete this project from the community plan (R-301787, August 21, 2006). City Council Resolution R-302497, April 2, 2007, stipulates deletion of the project pending the preparation, consideration and certification of a project level Environmental Impact Report (EIR). This project will remain in the financing plan until the EIR is completed.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New                   | mgiandoni@sandiego.gov                     |

**Description:** This project provides for seismic and structural improvements of the bridge and the adjacent retaining walls.

**Justification:** This bridge has severe spalling due to age and has severe height limitations which need to be corrected. Trucks continue to hit the low arches of the bridge.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project implements the Greater North Park Community Plan and is in conformance with the City's General Plan.

**Schedule:** The environmental review process and design will continue in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2014.

**Summary of Project Changes:** TransNet funding in the amount of \$500,000 has been allocated to this project for Fiscal Year 2013. Additionally, federal Highway Bridge Restoration and Rehabilitation (HBRR) funding is anticipated to be received for the project.

| <b>Project Status:</b> Released   | <b>Contact Information:</b> Fuentes, Julio |
| <b>Duration:</b> 2010 - 2020      | 619-533-3092                               |
| <b>Improv Type:</b> Replacement   | jfuentes@sanidiego.gov                     |

**Description:** This annual allocation provides for installing new and replacing old guard rails along streets where needed.

**Justification:** The City maintains an ongoing program to promote safety within the public right-of-way. Analysis of accident patterns at a particular location will occasionally show that some minor improvements in the area would help to reduce the number and/or severity of accidents. This annual allocation provides the flexibility necessary for timely initiation of such improvements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Project Status:</b> Released | <b>Contact Information:</b> Batta, Jamal |
| <b>Duration:</b> 2011 - 2014    | 619-533-7482                             |
| <b>Improv Type:</b> Replacement | jbatta@sandiego.gov                      |

**Description:** This project provides for improved flood control by upgrading the existing pipe along Hayes Avenue.

**Justification:** This project will alleviate frequent flooding during normal storm events as a result of the current undersized storm drain pipe.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Uptown Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013 and is anticipated to end in Fiscal Year 2014.

**Summary of Project Changes:** Per City Council Resolution R-307085, dated November 1, 2011, \$280,000 in Uptown Developer Impact Fee (DIF) funding was reallocated to this project from the Uptown Community Storm Drainage project (S-10060) and the Drainage Projects annual allocation (A.CA-00001). Improvements proposed in the Uptown Community Storm Drainage project will be completed as part of this project.

## Transportation & Storm Water

### High Accident Locations / AIL00006

### Trans - Signals - Traffic Signals

|                                   |                                            |
|-----------------------------------|--------------------------------------------|
| <b>Council District:</b> Citywide | <b>Priority Score:</b> Annual              |
| <b>Community Plan:</b> Citywide   | <b>Priority Category:</b> Annual           |
| <b>Project Status:</b> Released   | <b>Contact Information:</b> Hughes, Duncan |
| <b>Duration:</b> 2010 - 2020      | 619-533-3141                               |
| <b>Improv Type:</b> Replacement   | drhughes@sandiego.gov                      |

**Description:** This annual allocation provides for traffic signal modifications and other minor improvements such as guardrails, regulatory signs, and striping at locations experiencing sudden increases in accident frequency.

**Justification:** The City maintains an ongoing program to promote safety within the public right-of-way. Analysis of accident patterns at a particular location often shows that some minor improvements in the area would help to reduce the number and/or severity of accidents. This annual allocation provides the flexibility necessary for timely initiation of such improvements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** This annual allocation is no longer being funded. Traffic signal improvements at high accident locations are included in the annual allocation for traffic signal modifications/modernizations. Budget remaining in this annual allocation is related to active sublet projects and once the sublets are completed, this project will be closed.

**Description:** This project will provide for the widening of Hillery Drive and traffic calming on adjacent streets.

**Justification:** Caltrans is completing a high occupancy/transit freeway lanes project in the middle of Interstate 15, with a Direct Access Ramp (DAR) onto Hillery Drive to serve the Mira Mesa community. Traffic mitigation is required as part of this project.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mira Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and Right of Way acquisition began in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2014.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Community Plan:</b> Otay Mesa - Nestor    | <b>Priority Category:</b> N/A               |
| <b>Project Status:</b> Technically completed | <b>Contact Information:</b> Marabian, Linda |
| <b>Duration:</b> 2009 - 2012                 | 619-533-3082                                |
| <b>Improv Type:</b> Widening                 | lmarabian@sandiego.gov                      |

**Description:** This project provides for improvements to the west side of the 900 block of Hollister Street. Improvements include new curb, gutter, sidewalk, and asphalt pavement.

**Justification:** The project addresses the need for adequate drainage and pedestrian accessibility.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa/Nestor Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project was cancelled because it was determined that the new curb, gutter and sidewalk required placement in the ultimate location which meant widening the street and causing significant conflicts with the existing mobile home park and church facility. These issues substantially increased the cost of the project with no additional funding available.

**Summary of Project Changes:** This project has been cancelled and will be closed by the end of the fiscal year.

**Description:** This project provides for construction of curbs, gutters, sidewalks, driveways, curb ramps, and pavement on Holly Drive from South Willie James Jones Avenue to South Euclid Avenue.

**Justification:** This project will improve the street and sidewalk making them safer for pedestrians.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Encanto Neighborhoods Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and will be completed in Fiscal Year 2013. Construction is scheduled in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** The Interstate 5/State Route 56 Fiber Optic Relocation project will abandon an existing fiber optic cable alignment adjacent and parallel to Interstate 5 between Carmel Valley Road and Del Mar Heights Road and will relocate the utility to the east of the existing alignment and into the public right of way.

**Justification:** The relocation is necessary to accommodate the future road widening of Interstate 5 that would affect the existing utility alignment.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction will begin in Fiscal Year 2013 and will be completed in Fiscal Year 2013.

**Summary of Project Changes:** Caltrans will be constructing the project utilizing federal funds. The City's share of the project is a contribution per terms of the cooperative agreement.

## Transportation & Storm Water

### I-5 to SR-56 Freeway Connectors / S00707

#### Trans - Roadway

|                                      |                                           |
|--------------------------------------|-------------------------------------------|
| <b>Council District:</b> 1           | <b>Priority Score:</b> N/A                |
| <b>Community Plan:</b> Carmel Valley | <b>Priority Category:</b> N/A             |
| <b>Project Status:</b> Released      | <b>Contact Information:</b> Johnson, Brad |
| <b>Duration:</b> 2003 - 2016         | 619-533-5120                              |
| <b>Improv Type:</b> New              | bjohnson@sandiego.gov                     |

**Description:** This project provides for the preparation of a project report and environmental document (PR/ED) for northerly connections of the Interstate 5 and State Route 56 freeways. Alternatives under consideration include direct freeway to freeway connectors from westbound State Route 56 to northbound Interstate 5 and southbound Interstate 5 to eastbound State Route 56, an auxiliary lane alternative which proposes providing operational improvements on Interstate 5 between Del Mar Heights Road and Carmel Valley Road, on Carmel Valley Road between Interstate 5 and State Route 56 and on State Route 56 west of Carmel Country Road. The third alternative includes the direct freeway connectors from westbound State Route 56 to northbound Interstate 5 and the auxiliary lane alternative improvements on southbound Interstate 5, eastbound Carmel Valley Road and eastbound State Route 56.

**Justification:** State Route 56 opened to traffic in July 2004 and provided a new east/west connection between Interstates 5 and 15. This introduced a significantly new volume of traffic to the Interstate 5 corridor in Carmel Valley, some of which needs to travel to or from the north. This project will provide the improvements necessary to make these moves most efficiently and avoid the heavy use of local streets.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley Community Plans and is in conformance with the City's General Plan.

**Schedule:** Preparation of the project report and environmental determination began in Fiscal Year 2004 and is scheduled to be completed in Fiscal Year 2013. Design and construction will be scheduled following completion of the prior phases.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Widening                  | drhughes@sanidiego.gov                     |

**Description:** This project provides for widening the westbound approach on Home Avenue by narrowing and relocating the median to provide two left turn lanes onto the Interstate 805 south/Route 94 east on-ramp and two through lanes.

**Justification:** This project will improve safety by allowing additional capacity through this intersection.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mid-City Community Plan and the City Heights Facilities Financing Plan, and is in conformance with the City's General Plan.

**Schedule:** The project description is preliminary and scope of work has not been established. Design and construction will be scheduled following definition of project scope.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Project Status:</b> Released   | <b>Contact Information:</b> Hughes, Duncan |
| <b>Duration:</b> 2010 - 2020      | 619-533-3141                               |
| <b>Improv Type:</b> Replacement   | drhughes@sandiego.gov                      |

**Description:** This annual allocation provides for the installation of, and modifications to, traffic signal interconnect systems citywide.

**Justification:** This project provides for increased traffic signal coordination which will reduce traffic congestion.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** TransNet funding has been allocated to this project through Fiscal Year 2017.

| <b>Improv Type:</b> New                     | jtracanna@sandiego.gov                     |

**Description:** This project involved the design and construction of capacity improvements on the I-15 freeway between SR-56 and the northern City of San Diego limits near Lake Hodges which included auxiliary lanes, HOV lanes, managed lanes and widening of the northbound bridge over Lake Hodges.

**Justification:** This project is in accordance with the Black Mountain Ranch Public Facilities Financing Plan, Project T-55, Council Resolution R-301005, November 1, 2005.

**Operating Budget Impact:** The operating and maintenance funding for this project was included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Black Mountain Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project was completed by Caltrans in Fiscal Year 2009 using city, State, and federal freeway construction funds. Black Mountain Ranch, LLC. provided Caltrans a fair share of the funding in the amount of \$7,150,000 in Fiscal Year 2007, which was in turn reimbursed from the Black Mountain Ranch Facilities Benefit Assessment (FBA).

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

## Transportation & Storm Water

### Interstate 5 Underpass - Bikeway/Ped Connector / S00982

### Trans - Bicycle Facilities (All Class.)

|                                      |                                            |
|--------------------------------------|--------------------------------------------|
| <b>Council District:</b> 1           | <b>Priority Score:</b> 66                  |
| <b>Community Plan:</b> Carmel Valley | <b>Priority Category:</b> High             |
| <b>Project Status:</b> Released      | <b>Contact Information:</b> Landre, Thomas |
| <b>Duration:</b> 2009 - 2012         | 619-533-3045                               |
| <b>Improv Type:</b> New              | tlandre@sandiego.gov                       |

**Description:** This project will provide the (missing) link between two existing bike/pedestrian paths: the regional bike connection that runs parallel to State Route 56 corridor, and the Sorrento Valley Road multi-use bike/pedestrian path, and will pass under Interstate 5, just south of the Carmel Mountain Road interchange.

**Justification:** Currently cyclists and pedestrians must use the shoulders of Carmel Valley Road to access the west side of Interstate 5. High traffic volumes coupled with commercial driveways and freeway ramps make it difficult for pedestrians and cyclists to travel from one side of the freeway to the other.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Valley Public Facilities Financing Plan (Project T-5) and is in conformance with the City's General Plan.

**Schedule:** Design was rescheduled to begin in Fiscal Year 2012. Construction will be scheduled contingent upon timing/availability of funding. It is anticipated that State and federal grant funding will become available for this project.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the replacement of the existing concrete pavement on Juan Street from Taylor Street to Sunset Road. The improvements include construction of curb, gutter, curb ramps, sidewalks (east and west sides), underground utilities, replacement of water main as well as construction of new storm drain system.

**Justification:** This project is needed to reconstruct the roadway due to deterioration of the existing roadway. This project location is one of the lowest rated non-residential concrete streets within the City based on Overall Condition Index (OCI) rating.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Old San Diego and Uptown Community Plans and is in conformance with the City's General Plan.

**Schedule:** Environmental document began in Fiscal Year 2011 and will be completed in Fiscal Year 2013. Design is scheduled in Fiscal Year 2012. Construction is scheduled for Fiscal Year 2014.

**Summary of Project Changes:** No significant change to this project for Fiscal Year 2013.,

| <b>Duration:</b> 2000 - 2011      | 619-533-3682                               |
| <b>Improv Type:</b> New           | jtracanna@sandiego.gov                     |

**Description:** This project provides for constructing Judicial Drive from Golden Haven Drive to Eastgate Mall as a four-lane major street, including an undercrossing at La Jolla Village Drive. The undercrossing will be funded by Facilities Benefit Assessment (FBA) funding.

**Justification:** This project is needed to improve traffic flow, and it is included in the Council-approved North University City Community Financing Plan and Facilities Benefit Assessment Document. See Project Number 33 in the North University City Public Facilities Financing Plan.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in October of 2002 and was completed in December of 2003. Construction began in May of 2005 and was completed in September of 2006.

**Summary of Project Changes:** The project costs have been fully reimbursed to the developer and the project will be closed by the end of the fiscal year.

| <b>Improv Type:</b> Replacement               | jbatta@sandiego.gov                      |

**Description:** This project involves replacement of existing deteriorated corrugated metal pipe and outfall and restores the adjacent slope.

**Justification:** Replacement is required to prevent flooding and potential damage to surrounding structures.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mid City: Eastern Area Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and was completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** Proposition 1B Transportation Bond funding was reallocated to this project per City Council Resolution R-307145, dated November 30, 2011. This action increased total project budget by \$175,000.

| <b>Improv Type:</b> New            | bjohnson@sandiego.gov                     |

**Description:** This project provides for the installation of community signs in Kearny Mesa.

**Justification:** The project is funded by a State contribution agreement as part of the relinquishment of State Route 274 to the City of San Diego and was requested by Council District 6.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Kearny Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design has been completed. Construction schedule is to be determined.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New            | gmartedi@sandiego.gov                       |

**Description:** This project provides for the resurfacing and repair of damaged bicycle lanes on Kearny Villa Road between Miramar Way and State Route 163.

**Justification:** The deteriorating asphalt in the bicycle lane causes bicyclists to ride close to the main travel lanes, where there are high volumes of high-speed traffic. This project will replace the existing bicycle lane with new asphalt and provide a safer route of travel for bicyclists.

**Operating Budget Impact:** The operating and maintenance funding for this project is included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Kearny Mesa Community Plan and is conformance with the City's General Plan.

**Schedule:** Design and construction began in Fiscal Year 2011 and was completed in Fiscal Year 2012.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New            | tlandre@sandiego.gov                       |

**Description:** This project will provide for a feasibility study focusing on a long term solution to provide an alternative parallel facility to the existing bicycle lane on Kearny Villa Road, including possible operational improvements at the interchanges at State Route 163.

**Justification:** This project's goal is to increase bicycling as a viable commuting or recreational option.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Kearny Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** The study began in Fiscal Year 2010 and continued through Fiscal Year 2012.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

| <b>Improv Type:</b> New                       | bjohnson@sandiego.gov                     |

**Description:** This project provides the installation of bulbouts and an in-pavement lighted crosswalk on Kelton Road between Zircon Street and Luber Street, at the entrance to Johnson Elementary School.

**Justification:** This will provide traffic calming elements in the vicinity of Johnson Elementary School and will be designed to slow traffic speed. This will narrow the roadway, thus providing better visibility for pedestrians, bicyclists and automobiles. This measure will also shorten actual distance crossing on streets, thus reducing children/pedestrians' exposure to traffic, reducing accidents.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Southeastern Community Plan and the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2013. Construction is scheduled for Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New         | jbatta@sandiego.gov                      |

**Description:** This project provides low flow diversion systems for four storm drain outfalls that discharge directly into the La Jolla Ecological Reserve Area of Special Biological Significance (ASBS 29).

**Justification:** This project will divert non-storm water discharges during the dry season from reaching La Jolla Shores, which minimizes harmful pollutants from entering this significant biological and recreational resource.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design of the low flow diversion system began in Fiscal Year 2008 and was completed in Fiscal Year 2012. Construction was begun in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the construction of a curb, gutter, and sidewalk on the east side of La Jolla Mesa south of Deer Hill Court.

**Justification:** This project is required in order to provide safer pedestrian access.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2009 and is scheduled to be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2014.

**Summary of Project Changes:** TransNet funding in the amount of \$100,000 allocated to this project for Fiscal Year 2013. This increase was due to a change in project scope which now includes drainage, retaining walls and sidewalk designs.

| <b>Improv Type:</b> Replacement     | mreyes@sandiego.com                      |

**Description:** This project coordinates, establishes and administers an Undergrounding Utility District for the La Jolla Mesa Vista area. The La Jolla Mesa Vista Underground Utility Assessment District No. 4098 outlines a process for SDG&E, AT&T and the cable companies to underground their facilities while installing new streetlighting and restoring roadway surfaces. Construction costs for undergrounding are paid by the utility companies in accordance with Public Utilities Commission Decisions 73078, 820118 and Case 8209

**Justification:** The California Public Utilities Commission (CPUC) Rule 20A mandates that local utility companies allocate funding for the undergrounding of their respective utility services at the direction of the local municipality. The City of San Diego must provide the necessary administrative expenses, conversion of City-owned streetlighting, and resurfacing of roadways associated with the undergrounding purpose.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Torrey Pines community plan and is in conformance with the City's General Plan.

**Schedule:** This project's Underground Utility Assessment District (No. 4098) was established in Fiscal Year 2008 and will continue to be active until all remaining deliverables are resolved on a priority basis or determined to be complete. This project was scheduled to be completed in Fiscal Year 2012.

**Summary of Project Changes:** It is anticipated that this project will be closed by the end of the fiscal year.

**Description:** This project converts the existing La Jolla Village Drive/Interstate 805 full cloverleaf interchange configuration to a partial cloverleaf configuration, including widening the overpass structure and approaches to provide three through lanes with an auxiliary lane in each direction. The project also provides for widening La Jolla Village Drive to eight lanes and constructing three lanes to the southbound on-ramp. Bike lanes will be included.

**Justification:** This project is needed to improve traffic circulation and safety in the University community per the North University City Public Facilities Financing Plan - Project C.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and land acquisition began in Fiscal Year 2001. Design was completed in Fiscal Year 2004. Caltrans awarded the construction contract in Fiscal Year 2011. Road construction was completed in Fiscal Year 2012. There will be a five year plant establishment and monitoring period through Fiscal Year 2017.

**Summary of Project Changes:** No significant change to this project for Fiscal Year 2013.

**Description:** This project provides for the maintenance, rehabilitation, and seismic retrofitting of the Laurel Street (Cabrillo) Bridge over Highway 163.

**Justification:** This bridge has been identified by Caltrans as requiring maintenance, rehabilitation and seismic retrofitting.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Balboa Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** The environmental process began in Fiscal Year 2009 and continued through Fiscal Year 2010. Design began in Fiscal Year 2011 and continued through Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013 and will be completed in Fiscal Year 2014. Caltrans is lead agency for this project.

**Summary of Project Changes:** TransNet funding in the amount of \$250,000 has been allocated to this project for Fiscal Year 2013 to support revised project scope to include the relocation of existing utilities.

| <b>Duration:</b> 2009 - 2019                   | 858-541-4348                               |
| <b>Improv Type:</b> New                        | ademich@sanidiego.gov                      |

**Description:** This project will provide for the design and construction of a central telemetry system for monitoring and control (SCADA) of low flow diversions.

**Justification:** This project, if completed, would have provided for a centralized telemetry system for the monitoring of coastal low flow diversions.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla and Pacific Beach Community plans and is in conformance with the City's General Plan.

**Schedule:** This project is inactive but is being retained in the budget until the grant funding is reallocated.

**Summary of Project Changes:** A City Council action (1472) will be processed to reallocate the grant funding to an eligible low flow diversion project and to close this project.

| <b>Improv Type:</b> Betterment      | jbatta@sandiego.gov                      |

**Description:** This project provides for improved flood control by upgrading the existing pipe inlet along Manhasset Drive.

**Justification:** This project will alleviate frequent flooding during normal storm events as a result of the current undersized storm drain.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water Department budget.

**Relationship to General and Community Plans:** This project is consistent with the College Area Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013 and is scheduled to be completed in Fiscal Year 2014.

**Summary of Project Changes:** Deferred Capital Bond financing in the amount of \$125,000 will be allocated to this project in Fiscal Year 2013 for construction costs.

| <b>Improv Type:</b> Replacement | jbatta@sanidiego.gov                     |

**Description:** This project involves replacement of existing deteriorated corrugated metal pipe within the right of way easement.

**Justification:** Replacement is required to prevent flooding and potential damage to surrounding structures.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Uptown Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2012. Construction is scheduled to begin and be completed in Fiscal Year 2013.

**Summary of Project Changes:** This project received additional Proposition 1B funding per City Council Resolution R-307145 in Fiscal Year 2012. The project is now fully funded.

**Description:** This annual allocation provides for the installation and improvements of medians citywide.

**Justification:** This project provides for safety improvements where medians are warranted.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** TransNet funding has been allocated to this project through Fiscal Year 2017. Per the May Revision, the Fiscal Year 2013 budget has been increased by \$300,000 to provide funding for high priority median projects.

| <b>Improv Type:</b> Betterment  | jespinoza@sandiego.gov                       |

**Description:** This project provides for the repair of the coastal bluff at the west end of Midway Street. Improvements will include enhanced support of the concrete paving and reconstruction of the protective barrier at the top of the bluff.

**Justification:** The coastal bluff at the west end of Midway Street in the Birdrock area eroded during the 2004-2005 storm season. The protective safety barriers at the bluff collapsed including portions of the concrete paving in the area. The area was temporarily barricaded to protect the public. This project provides for bluff repair and reconstruction of the protective barrier at the top of the bluff.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2013. Construction is scheduled to begin and to be completed in Fiscal Year 2013.

**Summary of Project Changes:** Deferred Capital Bond financing in the amount of \$65,000 is anticipated to be allocated to this project in Fiscal Year 2013. Additionally, funding from a private donation has been received and will be appropriated to the project.

| <b>Improv Type:</b> New           | spazargadi@sanidiego.gov                       |

**Description:** This annual allocation provides for the installation of bike facilities including Class I, Class II, and Class III bike facilities throughout the City.

**Justification:** This project will provide funding for various bike facilities.

**Operating Budget Impact:** The facilities will be maintained by Street Division of the Transportation & Storm Water Department.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled on a priority basis.

**Summary of Project Changes:** TransNet funding for this project has been allocated through Fiscal Year 2017.

## Transportation & Storm Water

### Minor Signal Improvements / AIL00007

### Trans - Signals - Traffic Signals

|                                   |                                            |
|-----------------------------------|--------------------------------------------|
| <b>Council District:</b> Citywide | <b>Priority Score:</b> Annual              |
| <b>Community Plan:</b> Citywide   | <b>Priority Category:</b> Annual           |
| <b>Project Status:</b> Released   | <b>Contact Information:</b> Hughes, Duncan |
| <b>Duration:</b> 2010 - 2020      | 619-533-3141                               |
| <b>Improv Type:</b> Replacement   | drhughes@sandiego.gov                      |

**Description:** This annual allocation provides for minor improvements to existing traffic signals as necessary to improve traffic flow and safety.

**Justification:** It is often necessary to undertake minor improvements to existing traffic signals. Such improvements are generally needed to accommodate changing traffic patterns. This annual allocation provides the flexibility necessary for timely initiation of such improvements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** This annual allocation is no longer being funded. Minor traffic signal improvements are included in the annual allocation for traffic signal modifications/modernizations. Budget remaining in this annual allocation is related to active sublet projects and once the sublets are completed, this project will be closed.

| <b>Duration:</b> 1991 - 2015     | 619-533-3045                               |
| <b>Improv Type:</b> New          | tlandre@sandiego.gov                       |

**Description:** This project provides for installation of an off-street transit center at Hillery Drive and Interstate 15. Concrete pads, bus bays, a shelter and a 300-space park-and-ride facility will be constructed. The Mira Mesa Facilities Benefit Assessment (FBA) fund will contribute \$692,000 toward the project which is estimated to cost a total of \$6 million. The Metropolitan Transit Development Board (MTDB) will design and construct the facility.

**Justification:** The transit center will facilitate transfer activity between existing and planned routes, and will establish a central focal point for transit in the community. It may also tie into either the future Interstate 15 corridor rail or the high-speed express bus system, depending on the results of the Metropolitan Transit Development Board Interstate 15 advance planning study now underway.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Mira Mesa Community Plan, and is in conformance with the City's General Plan.

**Schedule:** Construction is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2014.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for widening and extending Mira Sorrento Place to a four-lane collector street between Scranton Road and Vista Sorrento Parkway. It includes widening the Mira Sorrento Place/Scranton Road intersection.

**Justification:** This project is needed to improve traffic flow and is included in the Council-approved Mira Mesa Community Financing Plan and Facilities Benefit Assessment Document. See Project Number 56 in the Mira Mesa Public Facilities Financing Plan.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget. This maintenance would be up & above the long-term maintenance contract noted in the schedule and summary of project changes.

**Relationship to General and Community Plans:** This project is consistent with the Mira Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and land acquisition were completed in Fiscal Year 2002. Construction began in Fiscal Year 2004 and was completed in Fiscal Year 2008. The five year biological monitoring period ended in Fiscal Year 2012. A long term maintenance contract will be initiated in Fiscal Year 2013.

**Summary of Project Changes:** TransNet funding in the amount of \$100,000 has been allocated to this project for Fiscal Year 2013. This action will increase total project budget to \$12,460,253.

**Description:** This project provides for widening Miramar Road to eight lanes from the Interstate 805 easterly on and off-ramps to 300 feet east of Eastgate Mall. It includes dual left-turn lanes at Eastgate Mall. Phase I work consists of the construction of road improvements west of Eastgate Mall. Phase II will construct an exclusive right turn lane on westbound Miramar Road approaching Eastgate Mall and an exclusive right turn lane on southbound Eastgate Mall.

**Justification:** This project is needed to improve traffic flow, and is included in the Council approved North University City Community Plan and Facilities Benefit Assessment Document per the North University City Public Facilities Financing Plan - Project 50.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** Phase I has been completed. Phase II Right of Way acquisition was scheduled for Fiscal Year 2012 and construction is scheduled for Fiscal Year 2013.

**Summary of Project Changes:** A project scope change was made to add an exclusive right turn lane on southbound Eastgate Mall.

**Description:** This project will upgrade 31 low flow diversion sites in Mission Bay. These sites divert storm water runoff from the storm drain to the sewer system during low flow conditions.

**Justification:** This project rehabilitates and upgrades various low flow diversion systems. The Mission Bay low flow diversions have been in operation since 1987 and need rehabilitation and upgrades to bring them up to current safety and operational standards. The sub-systems of 31 sites were identified to be in need of repair because of salt water corrosion, outdated instrumentation and control equipment, and poor access for maintenance personnel.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Master Plan, the Mission Beach Precise Plan, and the La Jolla, Ocean Beach, and Peninsula Community Plans and is in conformance with the City's General Plan.

**Schedule:** Construction began in Fiscal Year 2010 and was completed in Fiscal Year 2011.

**Summary of Project Changes:** This project has been completed and will be closed by the end of the fiscal year.

**Description:** This project provides for preserving the life of the historic Mission Beach bulkhead from Balboa Court to Pacific Beach Drive. The project includes replacing the concrete deck, restoring the wall backfill, and replacing the parapet.

**Justification:** This project will preserve the life of the bulkhead which was built in 1928.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mission Beach Precise Plan and is in conformance with the City's General Plan.

**Schedule:** A study/evaluation report will be prepared to determine the integrity of the existing Mission Beach Seawall from the southern limits at south Mission Beach jetty to Thomas Avenue, a distance of approximately 2.4 miles. The study was scheduled to be completed in March 2012. Design was initiated in Fiscal Year 2012.

**Summary of Project Changes:** This project will receive \$1.0 million in Deferred Capital Bond financing from a Fiscal Year 2012 Council action.

**Description:** This project increases public accessibility of the beach areas in Pacific and Mission Beach. Phase I of this project completed the widening of 1.34 miles of boardwalk along Oceanfront Walk and Ocean Boulevard from Ventura Place to Santa Rita Place. This included widening of the existing concrete boardwalk by nine feet and the creation of a three foot wide landscape buffer zone immediately to the east of, and adjacent to, the boardwalk. Phase II, which is complete, was a safety study. Phase III provides for the acquisition of the right-of-way at Santa Rita Place and from Pacific Beach Drive to Oliver Avenue. Phase IV will complete the widening from Santa Rita Place to Thomas Avenue.

**Justification:** This project provides enhancements to promote safe pedestrian access.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water Department budget.

**Relationship to General and Community Plans:** This project is consistent with the Mission Beach Pre-cise Plan, Pacific Beach Community Plan, and is in conformance with the City's General Plan.

**Schedule:** Phase I was completed in Fiscal Year 2004 and the Phase II follow-up safety study was completed in the summer of 2003. Phases III and IV will be scheduled when funding is identified.

**Summary of Project Changes:** No significant change to this project for Fiscal Year 2013.

**Description:** This project provides for a new two-lane bridge extending Mission City Parkway from the intersection of Camino Del Rio North to the north over the San Diego River. Mission City Parkway would connect to Fenton Parkway, which was constructed by a developer as part of the Mission City Development. This project also provides for an additional entrance to QUALCOMM Stadium. This project description is preliminary and the amounts shown below only reflect the funding currently programmed. The total funding needs of the project will be determined once a final scope of work is established.

**Justification:** The bridge is part of the approved Mission City Plan and is being constructed from funding provided by H. G. Fenton as part of the settlement with the City implementing the Mission City Development, specifically for the construction of the bridge and roadway.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mission Valley Community Plan and is in conformance with the City's General Plan.

**Schedule:** The project description is preliminary and the scope of work is not established; only planning and other preliminary activities have been performed to date. The project schedule for the design and construction will be established once the scope of work is approved and the remaining funding identified.

**Summary of Project Changes:** No significant change to this project for Fiscal Year 2013.

**Description:** This project provides for traffic signal communication between seven traffic signals on Navajo Road from Park Ridge Boulevard to Lake Murray Boulevard. Wireless interconnect systems will be used in order to avoid street trenching.

**Justification:** This project will accommodate the need to centrally control heavily-traveled arterials and provide constant surveillance for efficient traffic signal operation and maintenance. The benefits include reduced stops, delays, fuel consumption and emissions.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Navajo Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design, including the purchasing of equipment, began in November, 2005 and was completed in September, 2010. Construction by City Forces Work began in September, 2010, and was completed in June, 2011.

**Summary of Project Changes:** This project has been completed and will be closed by the end of the fiscal year.

**Description:** This project provides for realigning a portion of the existing two-lane roadway by a private developer as an interim improvement. This work will be completed by an adjacent private developer and be reimbursed through Facilities Benefit Assessment credits.

**Justification:** The transportation element of the Otay Mesa Community Plan suggests that an integrated transportation network will provide mobility, accessibility and safety for the residents and businesses traveling to, from, and through the community. See Project Number T-21.3i in the Otay Mesa Public Facilities Financing Plan.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2000 and was completed in Fiscal Year 2002. Construction began in Fiscal Year 2002 and was completed in Fiscal Year 2004.

**Summary of Project Changes:** The project costs have been fully reimbursed to developer and project will be closed by end of the fiscal year.

**Description:** This annual allocation provides for the construction of sidewalks citywide.

**Schedule:** Projects will be scheduled on a priority basis.

**Justification:** This project provides permanent sidewalks to promote pedestrian safety and access.

**Summary of Project Changes:** TransNet funding has been allocated to this project through Fiscal Year 2017.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

| <b>Improv Type:</b> Replacement - Retrofit | apalaseyed@sandiego.gov                    |

**Description:** This project provides for the seismic retrofit of the North Harbor Drive Bridge, which will consist of stabilizing the existing piers and joining the paired piers together at the waterline to increase support during seismic events. Televising of the 87-inch force main is included.

**Justification:** The North Harbor Drive Bridge over Navy Estuary has been identified as a seismically deficient bridge by Caltrans. This project will provide safe use of the bridge once retrofitted.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2007. Construction began in Fiscal Year 2009 and was completed in Fiscal Year 2010. The project is scheduled to be closed in 2015 after the five year mitigation and monitoring period.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the installation of the final set of street lights within the boundaries of the North Park Maintenance Assessment District (MAD).

**Justification:** This project provides streetlighting to promote safe pedestrian access and use.

**Operating Budget Impact:** The North Park MAD will provide for the maintenance and energy costs associated with the enhanced street lighting. Maintenance of the street lights is identified as an improvement in the North Park MAD Assessment Engineer's Report.

**Relationship to General and Community Plans:** This project is consistent with the Greater North Park Community Plan and is in conformance with the City's General Plan.

**Schedule:** North Park MAD-funded street light installation began in Fiscal Year 2004. The project was scheduled to be completed in Fiscal Year 2012 with project close out activities occurring in Fiscal Year 2013.

**Summary of Project Changes:** No significant change to this project for Fiscal Year 2013.

**Description:** This project will provide eight curb ramps at the intersection of Utah Street and Monroe Avenue. It will also include new curb, gutter, sidewalk, and pavement.

**Justification:** The project location is a highly used area. One or more Americans with Disabilities Act (ADA) complaints have been received. The improvements are needed for safe disabled access in public right-of-way for compliance with current ADA standards

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Greater North Park Community Plan and the City's General Plan.

**Schedule:** The project description is preliminary and the scope of work has not been established. Design and construction will be scheduled following definition of project scope.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Community Plan:</b> Torrey Pines        | <b>Priority Category:</b> High             |
| <b>Project Status:</b> Released            | <b>Contact Information:</b> Palaseyed, Abi |
| <b>Duration:</b> 1992 - 2014               | 619-533-4654                               |
| <b>Improv Type:</b> Replacement - Retrofit | apalaseyed@sandiego.gov                    |

**Description:** This project provides for demolishing and reconstructing the North Torrey Pines Road Bridge over Los Penasquitos Creek and for transitionally widening both road approaches from approximately 770 feet south of the bridge to 1,100 feet north of the bridge. Tidal action from Los Penasquitos Lagoon is compromising beach access. Tidal action has become an issue due to the new configuration of the bridge span over the lagoon. Scouring of the access point from the State parking lot is an issue for State maintenance vehicles and beach patrons.

**Justification:** This project provides the replacement of the structurally deficient bridge to promote safe access and regular use.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Torrey Pines Community Plan and is in conformance with the City's General Plan.

**Schedule:** Environmental review was completed in Fiscal Year 2000. Design began in Fiscal Year 2000 and was completed in Fiscal Year 2003. Construction was completed in Fiscal Year 2006. Environmental mitigation and monitoring began in Fiscal Year 2012 and will continue until Fiscal Year 2016. Due to environmental obligations, a post construction ramp for access to Torrey Pines beach for state vehicles and beach patrons will be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New           | bjohnson@sandiego.gov                     |

**Description:** This project provides for the reconstruction of Genesee Avenue at Torrey Pines Road and John Jay Hopkins Drive. The proposed changes include rebuilding the intersection of Genesee Avenue/North Torrey Pines Road, widening Genesee Avenue and North Torrey Pines Road north of Genesee Avenue to a six-lane primary arterial, and widening North Torrey Pines Road south of Genesee Avenue to a six-lane major street. The limits of the widening are easterly to John Jay Hopkins Drive, southerly to Torrey Pines Scenic Drive and to 500 feet north of the North Torrey Pines Road/Genesee Avenue intersection. This project also provides for Class II bicycle lanes. See Project Number E in the North University City Public Facilities Financing Plan.

**Justification:** This project will improve sight distance through the intersection and provide additional left turn storage capacity on Genesee Avenue at John Jay Hopkins Drive and University of California entrance.

**Operating Budget Impact:** The operating and maintenance funding for this project is included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Torrey Pines and University Community Plans and the City's General Plan Guidelines.

**Schedule:** Design was scheduled in Fiscal Year 1992. Land acquisition was scheduled to begin in Fiscal Year 1992. Construction was scheduled to begin in Fiscal Year 1993 and be completed in Fiscal Year 1994. This project was reinstated in Fiscal Year 2004 to reflect budget and funding adjustments. All work associated with this project was completed in Fiscal Year 2006. The easement acquisition is anticipated to occur in Fiscal Year 2013, which would complete this project.

**Summary of Project Changes:** This project is nearing completion. Once easement acquisition occurs, the project will be complete and would be closed by the end of the fiscal year.

**Description:** This project provides for median curb, gutter, drainage and landscaping improvements, from 600 feet north of Genesee Avenue to the State Reserve boundary including the Callan Road intersection.

**Justification:** This project will improve safety and drainage on North Torrey Pines Road per the North University City Public Facilities Financing Plan - Project D.

**Operating Budget Impact:** Eligible maintenance activities will be funded by the Genesee Avenue/North Torrey Pines Road Maintenance Assessment District.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary design was completed in Fiscal Year 2004. Design began in Fiscal Year 2008 and is scheduled to be completed in Fiscal Year 2013. Construction is scheduled for Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for phased design and construction of drainage improvements, street grinding and resurfacing, installation of concrete gutters, additional surface drain inlets, enhanced crosswalks, curb pop-outs, hardscaping and tree planting along Newport Avenue from Sunset Cliffs Boulevard to Abbott Street.

**Justification:** The proposed improvements are necessary to satisfy the Americans with Disabilities Act (ADA) requirements by bringing the street surface areas up to standard.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Ocean Beach Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project was completed in Fiscal Year 2011.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

**Description:** This project provides for a Class I bike path to connect the existing Ocean Beach bike path (at its easterly end) to Hotel Circle North, along the south side of the San Diego River.

**Justification:** This bike path is needed as a critical connection for bicyclists in this area in accordance with the Mission Valley Community Plan.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mission Valley and Ocean Beach Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2004 and was completed in Fiscal Year 2006. Construction began in Fiscal Year 2008 and was completed in Fiscal Year 2010. The landscape maintenance phase was completed in Fiscal Year 2011. This project is scheduled to be closed in Fiscal Year 2013.

**Summary of Project Changes:** TransNet funding was reduced per City Council Resolution R-307150, dated November 11, 2011 and in accordance with the Regional Transportation Improvement Plan (RTIP).

| <b>Improv Type:</b> Replacement - Rehab | mnassar@sandiego.gov                     |

**Description:** This project provides for the removal and replacement of the existing pile cap, parapet wall, lights, and walkway along Ocean Front Walk between San Fernando Place and Ventura Place to their original 1925 appearance, in accordance with the Secretary of the Interior Standard for the Treatment of Historic Properties.

**Justification:** These structures are significant to the history of San Diego. They were constructed in 1925 to protect and complement the John D. Spreckels Amusement Center, now named Belmont Park. Extensive patching of spalled concrete and asphalt overlay of the walkway have robbed these structures of their character. Patching is no longer an option to restore and preserve these structures.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mission Beach Precise Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2001 and was completed Fiscal Year 2007. Construction will be scheduled upon identification of funding.

**Summary of Project Changes:** TransNet funding in this project was reduced per City Council Resolution R-307150, dated November 30, 2011.

**Description:** This project provides for reimbursing the developer for the City's share of the design and construction of Ocean View Hills Parkway (Phases II and III) from Denny Road to Otay Mesa Road. The project includes approximately 5,200 lineal feet of a four-lane major street and 4,900 lineal feet of a six-lane major street. See projects T2.1, T2.2 and T2.3 in the Otay Mesa Public Facilities Financing Plan.

**Justification:** The transportation element of the Otay Mesa Community Plan recommends that an integrated transportation network will provide mobility, accessibility and safety for the residences and businesses traveling to, from and through the community.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Phases I and II were completed in previous years with reimbursements to date. Phase III design began and was completed in Fiscal Year 2005. Construction began in Fiscal Year 2006 and has been completed. Schedule is contingent upon the rate of development and fees collected in the community.

**Summary of Project Changes:** It is anticipated that the developer will be reimbursed in Fiscal Year 2013.

**Description:** This project provides for design and construction of Old Otay Mesa Road from the Princess Park Subdivision (Crescent Bay Drive) to the Remington Hills Subdivision (Hawken Drive). This project includes approximately 2,400 linear feet of a two-lane collector street, sidewalks, curb, gutter, street lighting, new roadway sections, guardrail and traffic calming facilities.

**Justification:** The transportation element of the Otay Mesa Community Plan suggests that an integrated transportation network will provide mobility, accessibility, and safety for persons traveling to, from, and through the community. This project is being funded with Facilities Benefit Assessment Fees because there is either no project fronting this roadway or the projects fronting the roadway are also public facility projects, e.g., school, park. Should the adjacent properties be developed, these properties shall reimburse the Facilities Benefit Assessment Fees Fund for the actual cost of the project as a condition of approval of their developments.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is required by and is consistent with the Otay Mesa and Otay Nestor Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2008 and is scheduled to be completed in Fiscal Year 2013. Construction is anticipated to begin in Fiscal Year 2014. This schedule is contingent upon the rate of development and fees collected in the community

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This phase IV project provides for the construction of an additional lane to the existing Otay Truck Route from La Media Road to Drucker Lane and for the extension of the Truck Route (two lanes) from Britannia Boulevard to La Media Road and along Britannia Boulevard from the border to Britannia Court.

**Justification:** The Phase IV additional lane and extension of the Truck Route will remove cargo traffic from local streets and further expedite international truck traffic southbound into Mexico at the Otay Mesa Port of Entry

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** The environmental process for Phase IV is scheduled for Fiscal Year 2012. The design is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2014. Right of way acquisition is scheduled for Fiscal Year 2014. Construction for Phase IV is scheduled to begin in Fiscal Year 2015.

**Summary of Project Changes:** TransNet funding in the amount of \$350,000 has been allocated to this project for Fiscal Year 2013.

**Description:** This project will provide for curb ramps, curbs, gutters, sidewalks, street overlay, new curb inlets, cleanouts, Americans with Disabilities Act (ADA) pedestrian push buttons, a median curb and traffic striping at the intersection of Pacific Beach Drive and Mission Boulevard.

**Justification:** This project location is in a heavily used area. One or more ADA complaints have been received. The improvements are needed for disabled access in the public right-of-way for compliance with current ADA standards.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Beach Community Plan and is in conformance with the City's General Plan.

**Schedule:** The project description is preliminary and the scope of work has not been established. Design and construction will be scheduled following definition of project scope.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This reimbursement project provides for installing up to 16 different traffic signals within the Pacific Highlands Ranch Community.

**Justification:** These signals will be installed as part of the traffic control system for the Pacific Highlands Ranch community. They are needed to accommodate the increase in traffic generated by this community.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Highlands Ranch Public Facilities Financing Plan and is in conformance with the City's General Plan.

**Schedule:** Traffic signal installation will be scheduled as the community develops.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project will install a bicycle route from Pacific Highway to Enterprise Street to Barnet Avenue.

**Justification:** This project will provide for improved safety for bicycles.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Midway-Pacific Highway Community Plan and is in conformance with the City's General Plan. This study is also consistent with the Bicycle Master Plan which was adopted by Council Resolution R-296581.

**Schedule:** This project was completed in Fiscal Year 2011.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

| <b>Improv Type:</b> Betterment                  | mnassar@sandiego.gov                     |

**Description:** This project will provide for curb ramps, curbs, gutters, sidewalks, a new storm drain inlet, streetlights, and traffic striping on Pacific Highway at Estudillo Street, Bandini Street, and Sutherland Street.

**Justification:** The project location is a highly used area. One or more Americans with Disabilities Act (ADA) complaints have been received. The improvements are needed for disabled access in public right of way for compliance with current ADA standards.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Midway Community Plan and the City's General Plan.

**Schedule:** The project description is preliminary and the scope of work has not been established. Design and construction will be scheduled following definition of project scope.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Project Status:</b> Released                      | <b>Contact Information:</b> Palaseyed, Abi |
| <b>Duration:</b> 2002 - 2017                         | 619-533-4654                               |
| <b>Improv Type:</b> Widening                         | apalaseyed@sandiego.gov                    |

**Description:** This project provides for improving the Palm Avenue/Interstate 805 interchange in three phases. The first phase has been completed. The second phase consists of repairs to the bridge approaches and abutments; bridge widening to the south; installation of sidewalk and signal; restriping; and signage modifications. The third stage consists of bridge widening to the north, relocation of north bound on and off-ramp, and widening of the two on-ramps. All three phases of the project provide improvements per the Otay Mesa Public Facilities Financing Plan - Projects T1.1, 1.2, 1.3, and 1.4.

**Justification:** This project is required to accommodate the additional traffic generated as a result of development in the Otay Mesa Community. Improvements to this interchange will also help to reduce traffic volumes on State Route 905.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa and Otay Mesa/Nestor Community Plans and is in conformance with the City's General Plan.

**Schedule:** Phase I is complete. Phase II and III environmental studies began in Fiscal Year 2010. Phase II design will be completed in Fiscal Year 2015 and construction is scheduled in Fiscal Year 2016. Phase III design is scheduled in Fiscal Year 2013. Construction for Phase III will be scheduled upon allocation of funding. This schedule is contingent upon the rate of development and fees collected in the community.

**Summary of Project Changes:** FBA funding has been revised to reflect allocations anticipated to become available in Fiscal Year 2013.

**Description:** This project provides for vehicular and traffic safety improvements on Palm Avenue from Beyer Way to Interstate 805. The improvements include installation of raised center medians, turn pockets, traffic signals, a pedestrian refuge area, crosswalks, landscaping, striping and signage. Subsequent phases of this project may include further analysis of the pedestrian and streetscape aspects of the project area.

**Justification:** These improvements will benefit the community by increasing the safety and flow of traffic.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa-Nestor Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary project planning began in Fiscal Year 2007 and was completed in Fiscal Year 2008. Design began in Fiscal Year 2010 and is anticipated to be completed in Fiscal Year 2013. Construction is scheduled for Fiscal Year 2014.

**Summary of Project Changes:** Per the May Revision, TransNet funding was allocated to this project in the amount of \$749,106 support Fiscal Year 2013 needs.

**Description:** This project provides for construction of a pedestrian bridge along Shoal Creek Drive to facilitate crossing Ted Williams Parkway. This phase of the project includes design and environmental studies.

**Justification:** The intersection is in close proximity to Shoal Creek Elementary School and has a high volume of children crossing Ted Williams Parkway. This project will increase pedestrian safety and was requested by City Council and the community.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with the Carmel Mountain Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2003 and construction was completed in Fiscal Year 2011.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

| <b>Community Plan:</b> Peninsula, Ocean Beach | <b>Priority Category:</b> N/A            |
| <b>Project Status:</b> Technically completed  | <b>Contact Information:</b> Qasem, Labib |
| <b>Duration:</b> 2003 - 2009                  | 619-533-6670                             |
| <b>Improv Type:</b> Betterment                | lqasem@sandiego.gov                      |

**Description:** This project provides for traffic signal interconnect and central communications to 35 traffic signals in the Point Loma and Ocean Beach areas. Fiber optic cable will be installed on Rosecrans Street (1,900 feet) and on Sports Arena Boulevard (5,008 feet). Twisted pair interconnect will be installed on Nimitz Boulevard (8,200 feet), Catalina Boulevard (6,600 feet), West Point Loma Boulevard (5,000 feet), Chatsworth Boulevard (2,800 feet), Sunset Cliffs Boulevard (2,500 feet) and Voltaire Street (700 feet). This system will connect to the fiber optic communication network on Pacific Highway.

**Justification:** This project will accommodate the need to centrally control heavily-traveled arterials and provide constant surveillance for efficient traffic signal operation and maintenance. The benefits include reduced stops, delays, fuel consumption and emissions.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Point Loma, Ocean Beach, and Peninsula Community Plans and is in conformance with the City's General Plan.

**Schedule:** Design began and was completed in Fiscal Year 2003. Construction began in Fiscal Year 2004 and was completed in Fiscal Year 2006. The grant administration closeout process was completed in Fiscal Year 2011.

**Summary of Project Changes:** This project has been completed and will be closed by the end of the fiscal year.

**Description:** This project involved improvements at the intersection of Pomerado Road and Willow Creek Road/Avenue of Nations as part of the construction of Thurgood Marshall Middle School. The improvements included a traffic signal, widening, striping and landscaping.

**Justification:** This project is in accordance with the Scripps Miramar Ranch Public Facilities Financing Plan, Project: 34-14, Council Resolution R-302405, March 5, 2007.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** This project was completed by the San Diego Unified School District in Fiscal Year 2007, and reimbursement in the amount of \$1,260,158 was provided for the project from the Scripps Ranch Miramar Ranch Facilities Benefit Assessment (FBA) under the terms of a reimbursement agreement.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

**Description:** This project provides for installation of a concrete sidewalk on Potomac Street along the west side of the road adjacent to the Paradise Hills Community Park.

**Justification:** The surrounding streets to the Paradise Hills Community Park, Potomac Street and Paradise Valley Road, have existing sidewalk except for the segment in front of the park site. The concrete sidewalk will improve pedestrian access to the park.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Skyline/Paradise Hills Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2009 and construction was completed in Fiscal Year 2010.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

| <b>Improv Type:</b> Widening         | bjohnson@sandiego.gov                     |

**Description:** This project provides for the construction of a Class I bicycle path (combined pedestrian and bicycle travel) easterly along the south side of Poway Road from the I-15/Poway Road interchange to Sabre Springs Parkway, approximately 1,950 feet in length. This project replaces the existing Class II bikeway located within the shoulder of Poway Road.

**Justification:** The Sabre Springs Community Plan encourages the development of a system of bikeways within the community, tying into the regional bicycle network.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Sabre Springs Community Plan and is in conformance with the City's General Plan.

**Schedule:** The Environmental Process began in Fiscal Year 2008 and was completed in Fiscal Year 2012. Design began in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 and will be completed in Fiscal Year 2014.

**Summary of Project Changes:** TransNet funding was allocated to this project for Fiscal Year 2013.

**Description:** This project provides for improvements to streets and sidewalks throughout the Rancho Bernardo community, as needed. Other improvements may include installation of landscaping and irrigation systems and construction of retaining and sound walls.

**Justification:** Additional street and sidewalk improvements are required as a result of continuing development in the area.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Bernardo Community Plan and is in conformance with the City's General Plan.

**Schedule:** As street and sidewalk improvements are identified, funding will need to be identified for design and construction. Schedule pending identification of funding.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for a replacement storm drain pipe at Darwin Way and Ransom Street. Approximately 490 feet of 42-inch and 610 feet of 24-inch corrugated metal pipe will be replaced with reinforced concrete pipe.

**Justification:** The existing corrugated metal pipe under Darwin Way and Ransom Street is badly corroded and has created sinkholes on Ransom Street. Replacement is needed to prevent flooding of the streets.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa/Nestor Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction were completed in Fiscal Year 2010.

**Summary of Project Changes:** This project has been completed and will be closed by the end of the fiscal year.

**Description:** This project provides for an 870-foot bridge spanning the AT&SF Railroad and a portion of the flood plain. Additionally, this project provides for a four-lane major street with Class II bike lanes on Regents Road from the AT&SF railroad bridge to 100 feet north of Lahitte Court as well as widening the existing half width street to a four-lane major street from 100 feet north of Lahitte Court to Governor Drive, including Class II bike lanes. In addition, the project recreational improvements in the canyon, which include limiting noise to the greatest extent possible, traffic calming, walkability, profile/light penetration structure design, habitat restoration, recreational improvements for pedestrians, and bike access trails.

**Justification:** This project will complete Regents Road and provide continuous access to northern communities. This project is included in the Council-approved North University City Financing Plan and Facilities Benefit Assessment Plan - Project NUC-18.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** Project is on indefinite hold due to a vote not to proceed by the Land Use and Housing Committee.

**Summary of Project Changes:** No significant change to this project for Fiscal Year 2013.

**Description:** This project provides for widening Regents Road to a modified four-lane major street from Genesee Avenue to Executive Drive, relocation of the Genesee Avenue/Regents Road intersection to the east, and bike lanes.

**Justification:** This project is needed to improve traffic flow and is included in the Council-approved North University City Community Financing Plan - Project 13 and Facilities Benefit Assessment Document.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design will be completed in Fiscal Year 2013. Construction schedule will be established pending land acquisition from the University of California - San Diego (UCSD).

**Summary of Project Changes:** Total project budget has been revised to reflect removal of unidentified funding and addition of anticipated University of California - San Diego (UCSD) donation of \$600,000.

## Transportation & Storm Water

### Replace Obsolete T/S Controllers / AIL00010

### Trans - Signals - Traffic Signals

|                                   |                                            |
|-----------------------------------|--------------------------------------------|
| <b>Council District:</b> Citywide | <b>Priority Score:</b> Annual              |
| <b>Community Plan:</b> Citywide   | <b>Priority Category:</b> Annual           |
| <b>Project Status:</b> Released   | <b>Contact Information:</b> Hughes, Duncan |
| <b>Duration:</b> 2010 - 2020      | 619-533-3141                               |
| <b>Improv Type:</b> Replacement   | drhughes@sandiego.gov                      |

**Description:** This annual allocation provides for replacing obsolete and/or out-of-production traffic signal controller units.

**Justification:** Present day requirements for coordinated signal operation, protected left turns, and emergency vehicle preemption are increasingly difficult or impossible to incorporate into some older controller units now in service. Older units function with moving parts and electrical contacts, both of which are subject to wear. Maintenance costs are increasing and parts are becoming difficult to find. The new controllers are solid-state, less costly to maintain, and more adaptable to today's needs.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** As published in Fiscal Year 2012 Adopted Budget, this annual allocation was to receive \$75,000 of TransNet funding for Fiscal Years 2013-2015. The TransNet funding has been removed and reallocated to other TransNet eligible projects. This annual allocation will use prior year continuing appropriations to replace obsolete or out-of-production traffic signal controller units. Future TransNet funding will be allocated on an as-needed basis.

| <b>Project Status:</b> Released   | <b>Contact Information:</b> Gefrom, Walter |
| <b>Duration:</b> 2010 - 2020      | 619-527-7509                               |
| <b>Improv Type:</b> Betterment    | wgefrom@sandiego.gov                       |

**Description:** This annual allocation provides for roadway resurfacing, repair and reconstruction.

**Justification:** Resurfacing, repair, and reconstruction of City streets are necessary to maintain the streets in serviceable condition and prevent deterioration of the roadway.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** Per the May Revision, \$2,200,000 in additional funding for deferred capital in Fiscal Year 2013 from General Fund surplus in Fiscal Year 2012 has been added to this project. This project reflects \$72.4 million of bond financing within the Fiscal Year 2013 Anticipated column. This amount includes \$30.6 million of bond financing from a Fiscal Year 2012 Council action routing for approval and a Fiscal Year 2013 bond financing amount of \$41.8 million. Approximately \$252.4 million of bond financing is scheduled for street projects through Fiscal Year 2017. Based on a streets condition assessment conducted in November 2011, the City will need an additional \$152.6 million in unidentified funding to address the remaining deferred capital needs.

| <b>Improv Type:</b> Betterment         | rmatter@sandiego.gov                     |

**Description:** This project proposes Storm Water Best Management Practices (BMP's) to address pollutants of concern in the Tecolote Creek sub-watershed. A green street consisting of several biofiltration basins will be constructed at various points in the neighborhood around Mount Abernathy Avenue. The basins will reduce the amount of storm water runoff that reaches the storm drain system.

**Justification:** This project addresses pollutants of concern within the Rose and Tecolote Creek watersheds which satisfies the watershed-based water quality activity requirements in the Regional Water Quality Board's Municipal Storm Water Permit.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with Clairemont Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and is anticipated to be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013.

**Summary of Project Changes:** City Council Resolution R-307085, dated November 1, 2011, reallocated \$173,000 in Rose and Tecolote Creek Water Quality funding from Rose and Tecolote Creeks Water Quality Improvements (S-10002). This action consolidated the funding identified for this watershed improvement project. An additional \$50,000 was originally identified for the Mt. Abernathy Green Street component of this project from the General Fund. However, per the May Revision, this funding was reallocated to the the Watershed CIP annual allocation (ACC00001).

**Description:** This project provides for design and construction of a pedestrian/bicycle bridge across Rose Creek and a paved Class I bike path to connect the westerly end of the new bridge to Pacific Beach Drive.

**Justification:** This project will close a gap in the existing network of bike paths and lanes in Mission Bay Park. The project will allow pedestrians and bicyclists to circumvent a much longer existing route along Grand Avenue.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project implements the Pacific Beach Community Plan and the Mission Bay Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2001 and was completed in Fiscal Year 2010. Construction began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2014.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for improvements to the former State Route 209, which includes all or parts of Camino del Rio West, Rosecrans Street, Canon Street, Catalina Boulevard, and Cabrillo Memorial Drive. Camino del Rio West improvements consist of upgrading the sidewalk facilities, including installation of pedestrian ramps and traffic signal modifications, and construction of turn pocket and signal modifications on Rosecrans at Midway.

**Justification:** Redevelopment in the area resulted in increased traffic and pedestrian activity.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation and Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula and Midway Community Plans and is in conformance with the City's General Plan.

**Schedule:** Phase I of the project which includes traffic signal modifications, and installation of turn pockets began in Fiscal Year 2010. Construction of Phase I was completed in Fiscal Year 2011.

**Summary of Project Changes:** This project will be closed by the end of the fiscal year.

| <b>Improv Type:</b> New            | gmartedi@sandiego.gov                       |

**Description:** This proposed project will install 3.25 miles of Class II Bikeways from Kearny Villa Road to Murphy Canyon Road and upgrade the existing Class III facility on Murphy Canyon Road between Aero Drive to city limits that will connect to Murphy Canyon Road Bike Path.

**Justification:** This project will provide north and south connectivity to other bikeways within the city and will provide a safer route of travel for bicyclists.

**Operating Budget Impact:** The operating and maintenance funding for this project is included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Kearny Mesa Community Plan and is in conformance with the City's General Plan. This Study is consistent with the Bicycle Master Plan, which was passed by Council Resolution R-296581.

**Schedule:** Design began in Fiscal Year 2010 and was completed in Fiscal Year 2011. Construction will be completed in Fiscal Year 2012

**Summary of Project Changes:** TransNet funding in this project was revised per City Council Resolution, R-307150, dated November 30, 2011. Total project cost was increased by \$31,000. This project will be completed and closed by the end of the fiscal year.

**Description:** This project provides for the evaluation, environmental documentation and design for improving the State Route 94/Euclid Avenue Interchange.

**Justification:** This project will improve safety and capacity.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Encanto Neighborhoods Community Plan and in conformance with the City's General Plan.

**Schedule:** Preliminary engineering and environmental documentation began in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2013. Design is scheduled to begin late in Fiscal Year 2014 or early in Fiscal Year 2015. Construction is anticipated to begin in mid to late Fiscal Year 2015.

**Summary of Project Changes:** TransNet funding allocated to this project in the proposed Fiscal Year 2013 budget was removed per the May Revision. No further funding for this project is required.

**Description:** This project will provide for construction of a continuous uninterrupted sidewalk on the west side of Saturn Boulevard between Coronado Avenue and Grove Avenue. This sidewalk will be used by children accessing Mar Vista Middle School and Emory Elementary School.

**Justification:** This project will provide a sidewalk that is needed for school traffic safety improvements.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa-Nestor Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2012 . Construction is scheduled to be completed by Fiscal Year 2014.

**Summary of Project Changes:** Funding in this project will be reallocated to the Saturn Boulevard Roadway Improvements project, S-11028, via City Council Action in Fiscal Year 2013.

**Description:** This project is to construct intersection bulb-outs, curb ramps, sidewalks, install V-calm signs, and traffic calming features on the streets in and around Berry, Nestor, and Emory Elementary School and Mar Vista Middle School.

**Justification:** This project will provide accessible walking paths for pedestrians about school corridors within the community of Otay Mesa/San Ysidro.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa - Nestor Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design for this project began Fiscal Year 2012. Construction of the improvements is anticipated to be completed by Fiscal Year 2013.

**Summary of Project Changes:** New accessibility improvements are being considered for incorporation into the general scope. The project area is being evaluated with the participation of the community and will be administered upon approval/authorization of the State of California Local Assistance Program.

**Description:** This project provides for the design and construction of a loop ramp in the southeast quadrant of State Route 56 at Interstate 15 in Rancho Penasquitos for eastbound to northbound movements to eliminate the need for making left turns at the existing traffic signal. It will also widen the southbound to westbound ramp and the eastbound to southbound ramp. (See Project T-1.6 and Black Mountain Ranch PFFP Project T-56.)

**Justification:** This facility is required to accommodate the additional traffic generated as a result of development in the Interstate 15 Corridor, with Pacific Highlands Ranch contributing its fair share based on percentage of increased traffic.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Highlands Ranch Public Facility Financing Plan and is in conformance with the City's General Plan.

**Schedule:** Construction was completed in Fiscal Year 2011.

**Summary of Project Changes:** This project is complete and will be closed by the end of of the fiscal year.

**Description:** This project provides for development of a public education campaign to promote safe use of streets by motorists, pedestrians, and bicyclists.

**Justification:** This project will result in a guide for a multi-media ad campaign to raise public awareness of the interactions of motorists, pedestrians, and bicyclists on City streets. Various aspects of the public education campaign will target specific elements of the traveling public. Additional funding will be required for campaign implementation.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** This project was implemented in Fiscal Year 2009 and will continue through Fiscal Year 2014, pending award of additional grant funding.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for a multi-use pedestrian and bicycle path under State Route 163 from Hazard Center Drive to Fashion Valley Mall on the north side of the San Diego River. The project includes a paved bicycle and pedestrian path, grading, fill, striping, signage, bollards, and lighting for the path including the State Route 163 undercrossing.

**Justification:** This project is part of the Bicycle Master Plan to guide the development and the creation of a firm foundation for a bicycle-friendly environment to serve bicyclists and pedestrians throughout the City. These improvements will benefit the community by increasing the mobility and safety through the enhancement of the bicycle path environment.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mission Valley Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary engineering and planning began in Fiscal Year 2006 and was completed in Fiscal Year 2008. The environmental review process began in Fiscal Year 2009 and was completed in Fiscal Year 2012. Design began in Fiscal Year 2008 and was completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2014.

**Summary of Project Changes:** Per the May Revision, \$79,000 in Transnet funds have been allocated to this project to support Fiscal Year 2013 needs.

**Description:** This project provides for improved flood control by upgrading the existing pipe along San Remo Way.

**Justification:** This project will alleviate frequent flooding during normal storm events as a result of the current undersized storm drain.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in 2011 and is scheduled to be complete in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2013 and to be complete in Fiscal Year 2014.

**Summary of Project Changes:** Deferred Capital Bond financing in the amount of \$75,000 will be allocated to this project in Fiscal Year 2013 for construction.

| <b>Duration:</b> 2011 - 2014              | 619-533-3045                               |
| <b>Improv Type:</b> Betterment            | apalaseyed@sandiego.gov                    |

**Description:** This project provides for the widening of the west side of Saturn Boulevard, north of Grove Street. The project includes new pavement, with approximately 980 linear feet of new curb, gutter and sidewalk, pedestrian ramps, retaining wall, drainage improvements and relocation of existing above ground utilities.

**Justification:** The project is located adjacent to a school where students disembark from a school bus and then walk to school via this route. This project would provide a safer pedestrian route for the students and also improve surface drainage.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa-Nestor Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2013. Construction is scheduled for Fiscal Year 2013.

**Summary of Project Changes:** Developer Impact Fee (DIF) funding in the amount of \$350,000 has been allocated to this project for Fiscal Year 2013. TransNet funding in the amount of \$477,866 allocated to this project in the proposed Fiscal Year 2013 budget was removed per the May Revision and will be reallocated to this project from SR2S Sidewalk Projects Grant #2, L-00011, via City Council Action in Fiscal Year 2013. Total project cost is \$1,673,586.

| <b>Project Status:</b> Released   | <b>Contact Information:</b> Fuentes, Julio |
| <b>Duration:</b> 2010 - 2021      | 619-533-3092                               |
| <b>Improv Type:</b> New           | jfuentes@sandiego.gov                      |

**Description:** This annual allocation provides for the installation of traffic control devices, sidewalks, signal modifications and other improvements that will serve to improve safety surrounding schools. This allocation can also be used to match state or federal grants for this purpose.

**Justification:** The Public Safety and Neighborhood Services Committee of the City Council requested that this program be instituted in order to proactively respond to school traffic safety problems in the City.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be identified each year based on the priorities identified by the Public Works-Engineering and Capital Projects Department.

**Summary of Project Changes:** Prior year TransNet funding was reallocated from this project per City Council Resolution, R-307150, dated November 30, 2011. Per the May Revision, TransNet funding identified in the proposed Fiscal Year 2013 budget has been reduced by \$40,000. TransNet funding has been allocated to this project through Fiscal Year 2017.

| <b>Council District:</b> 5                   | <b>Priority Score:</b> 37                  |
| <b>Community Plan:</b> Scripps Miramar Ranch | <b>Priority Category:</b> Low              |
| <b>Project Status:</b> Technically completed | <b>Contact Information:</b> Palaseyed, Abi |
| <b>Duration:</b> 2001 - 2013                 | 619-533-4654                               |
| <b>Improv Type:</b> Betterment               | apalaseyed@sandiego.gov                    |

**Description:** This project provides for median improvements on Scripps Ranch Boulevard between Hibert Street and Mira Mesa Boulevard and on Mira Mesa Boulevard from Interstate 15 to Scripps Ranch Boulevard. Bike lanes will also be added along Mira Mesa Boulevard. The improvements on Mira Mesa Boulevard will be done by a developer reimbursement agreement, and includes a new traffic signal and mid-block crosswalk at the Hibert Street driveway, restricting u-turns during peak hours for east bound to west bound Mira Mesa Boulevard at Scripps Ranch Boulevard, and accommodating u-turns at the Scripps Ranch Boulevard and Erma Road intersection. The City will be responsible for the improvements on Scripps Ranch Boulevard.

**Justification:** This portion of Scripps Ranch Boulevard and Mira Mesa Boulevard is classified as a four-lane major street. The median improvement will improve vehicle access and operations per the Scripps Miramar Ranch Public Facilities Financing Plan - Project 34-2A.

**Operating Budget Impact:** The operating and maintenance funding for this project is included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Scripps Miramar Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2004 and continued into Fiscal Year 2010. Construction of the Scripps Ranch Boulevard portion began in Fiscal Year 2012. Construction of the Mira Mesa Boulevard portion was scheduled to begin in Fiscal Year 2012, contingent upon approval of a reimbursement agreement and the completion of design by the developer.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Community Plan:</b> Mission Bay Park | <b>Priority Category:</b> High             |
| <b>Project Status:</b> Released         | <b>Contact Information:</b> Palaseyed, Abi |
| <b>Duration:</b> 2007 - 2018            | 619-533-4654                               |
| <b>Improv Type:</b> Replacement         | apalaseyed@sandiego.gov                    |

**Description:** This project proposes to realign and widen the southbound off-ramp, reconfigure the off-ramp intersection to eliminate the free right turn onto Sea World Drive, widen the eastbound approach to the southbound on-ramp, and increase storage on the overcrossing for the eastbound to northbound left turn at the northbound on-ramp. In addition, this alternative proposes to provide a loop on ramp to northbound Interstate 5 from eastbound Sea World Drive. The eastbound and westbound approaches would be modified to provide required storage and the entire interchange would be relocated approximately 30-feet to the south to accommodate phased construction of a new overcrossing. In addition, when funding is identified, Sea World Drive will be widened to six lanes between Sea World Way and Interstate 5.

**Justification:** Widening Sea World Drive to six lanes and improving the Sea World Drive/Interstate 5 interchange are necessary to meet existing and forecasted traffic volumes.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Master Plan and is in conformance with the City's General Plan.

**Schedule:** Project study report was completed in Fiscal Year 2011. Preliminary engineering and preparation of environmental document were scheduled to begin in Fiscal Year 2011 but have been put on hold due to funding constraints. Design, environmental, Right of Way, construction support and construction engineering totaling \$106 million (\$23.9m design, R/W, environmental and \$82.2 M for construction support and construction) is on hold until funding can be identified.

**Summary of Project Changes:** Through the Project Study Report (PSR) process eight conceptual alternatives were developed to address year 2035 traffic and three were determined to be viable minimum build, loop ramp and no build alternatives.

| <b>Project Status:</b> Released            | <b>Contact Information:</b> Palaseyed, Abi |
| <b>Duration:</b> 2003 - 2011               | 619-533-4654                               |
| <b>Improv Type:</b> Replacement - Retrofit | apalaseyed@sandiego.gov                    |

**Description:** This project provides for the seismic retrofit which will consist of stabilizing the existing piers and joining the paired piers together at the waterline to increase support during seismic event.

**Justification:** The West Mission Bay Drive Bridge over Mission Bay Channel has been identified as a seismically deficient bridge by Caltrans.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction activities were completed in Fiscal Year 2004. Post Construction Environmental Obligations were completed in Fiscal Year 2011. This action is pending the successful creation of an Eel Grass Mitigation Ban, of which the project will need to contribute \$4,200. This payment is a stipulation of an environmental permit.

**Summary of Project Changes:** This project has been completed and will be closed by the end of the fiscal year.

**Description:** This annual allocation provides for the replacement of damaged sidewalks, curbs and gutters Citywide.

**Justification:** This project replaces damaged sidewalks, curbs and gutters along streets in areas where children are required to walk to school and contributes to the City's ongoing efforts to promote walking as a mode of transportation.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the appropriate community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis and as funding is identified.

**Summary of Project Changes:** General Fund Contributions in the amount of \$400,000 have been allocated to the project for Fiscal Year 2013.

**Description:** This project provides for improvements along Skyline Drive from 58th Street to Cardiff Street. These improvements include hardscape medians, traffic signal modifications, pavement enhancements, street lights, bus stops, pedestrian crossing improvements, traffic calming, and community signs.

**Justification:** The hardscaped medians, street lighting, and other proposed improvements will provide reduction in vehicle travel delay at many intersections. In addition, the proposed improvements will increase pedestrian and vehicular safety, particularly near many schools along the corridor. The project will also improve corridor walkability and add bicycle lanes that will provide connectivity to existing bicycle lanes.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Skyline/Paradise Hills Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary Design was completed in Fiscal Year 2008. Design began in Fiscal Year 2009 and was completed in Fiscal Year 2011. Construction began in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the reconstruction of Soledad Mountain Road. On October 3, 2007, a landslide occurred on Mt. Soledad and destroyed a large section of the 5700 block of Soledad Mountain Road and Desert View Drive Alley.

**Justification:** Soledad Mountain Road is classified as a four-lane major street with approximately 8,470 average daily traffic volume. The road is heavily utilized as a through access to and from La Jolla.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** The construction of Soledad Mountain Road has been completed and the road re-opened to traffic. Repairs to the landslide of the slope affecting Desert View Alley (S-00979) are also complete.

**Summary of Project Changes:** No significant change to this project for Fiscal Year 2013.

**Description:** This project provides for a new freeway interchange to address traffic congestion. The project will be constructed in coordination with Caltrans and the Federal Highway Administration. Land acquisition is required.

**Justification:** Traffic is at Level of Service I and is severely impacted by stoppage for trains at the Coaster Station.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mira Mesa and Torrey Pines Community Plans and is in conformance with the City's General Plan.

**Schedule:** Preliminary design began in Fiscal Year 2007 and was completed in Fiscal Year 2008. Design began Fiscal Year 2009 and is scheduled to continue through Fiscal Year 2013. Construction schedule is contingent upon identification of funding.

**Summary of Project Changes:** TransNet funding in the amount of \$625,000 has been allocated to this project for Fiscal Year 2013.

| <b>Project Status:</b> Released                 | <b>Contact Information:</b> Fuentes, Julio |
| <b>Duration:</b> 1992 - 2011                    | 619-533-3092                               |
| <b>Improv Type:</b> Widening                    | jfuentes@sandiego.gov                      |

**Description:** This project provides for modifying the intersection of Sports Arena Boulevard, Rosecrans Street and Camino del Rio West and widening Sports Arena Boulevard to a six-lane major street between Midway Drive and Rosecrans Street by modifying the median and restriping the street. This project description is preliminary and the amounts shown below only reflect the funding currently programmed. The total funding needs of the project will be determined, once a final scope of work is established.

**Justification:** The eastbound traffic on Sports Arena Boulevard will be able to continue eastbound through the intersection of Sports Arena Boulevard/Rosecrans Street/Camino del Rio. Widening Sports Arena Boulevard will improve the traffic circulation. The average number of daily trips forecast for this segment of Sports Arena Boulevard is 50,000.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation and Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Midway/Pacific Highway Corridor Community Plan and is in conformance with the City's General Plan.

**Schedule:** The project description is preliminary and the scope of work is not established; only planning and other preliminary activities have been performed to date. The project schedule for the design and construction will be established once the scope of work is approved and funding identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the installation of traffic signals at three locations and the construction of raised medians at a number of intersections to reduce cut-through traffic on local collector streets. The project includes interconnection of the traffic signals in the segment. Specific locations will be determined by a traffic study which is included in this scope of work. The Community Planning Committees of Miramar Ranch North and Scripps Ranch approved a two phase plan as a result of the scheduled traffic study: Phase I: Install a traffic signal on Spring Canyon Road at Spruce Run Drive and median chokers on Spring Canyon Road at Semillon Boulevard and Sunset Ridge Drive. Phase II: Further evaluation of traffic calming, roadway safety, capacity enhancement and traffic control features on Spring Canyon Road, which may include a traffic signal interconnect, additional traffic signals and electronic speed monitoring signs.

**Justification:** The traffic signals will allow pedestrians to cross at controlled intersections. The raised medians at the three intersections will provide additional control of the traffic movements. The additional raised medians at specific intersections will reduce cut-through traffic on local collector streets. Interconnecting the traffic signals will be an effective means of controlling traffic speeds without sacrificing roadway capacity.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Rancho Encantada Precise Plan and Scripps Miramar Ranch Community Plan, and is in conformance with the City's General Plan.

**Schedule:** The traffic study was done in Fiscal Year 2009. Design of Phase I traffic improvements began in Fiscal Year 2011 and was completed in Fiscal Year 2012. Construction was scheduled to begin in Fiscal Year 2012 and to be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Council District:</b> 6         | <b>Priority Score:</b> 71                  |
| <b>Community Plan:</b> Kearny Mesa | <b>Priority Category:</b> High             |
| <b>Project Status:</b> Released    | <b>Contact Information:</b> Palaseyed, Abi |
| <b>Duration:</b> 2005 - 2014       | 619-533-4654                               |
| <b>Improv Type:</b> Widening       | apalaseyed@sandiego.gov                    |

**Description:** This project provides for improving Clairemont Mesa Boulevard/State Route 163 to six-lane prime arterial standards. Phase I of the project consists of bridge widening and ramp realignment on the eastern side of the interchange. Phase II consists of ramp realignment on the western side. The interchange will be re-configured to eliminate existing loop on-ramps. The ramps will be re-configured to intersect Clairemont Mesa Boulevard at standard signalized intersections. High-occupancy vehicle/bus bypass lanes will be incorporated on the on-ramps.

**Justification:** These improvements will eliminate existing pedestrian/bike high-speed crossings and all vehicle, bike and pedestrian moves will be controlled, thus improving safety. Transit movement through the interchange area will be greatly enhanced.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Kearny Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2010 and was completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2014.

**Summary of Project Changes:** TransNet funding identified in the proposed Fiscal Year 2013 budget of \$314,000 has been increased by \$14,000 per the May Revision. However, total project cost has been reduced due to adjustments to TransNet funding per the RTIP.

## Transportation & Storm Water

### State Route 163/Friars Road / S00851

### Trans - Bridge - Vehicular

|                                       |                                            |
|---------------------------------------|--------------------------------------------|
| <b>Council District:</b> 6            | <b>Priority Score:</b> 61                  |
| <b>Community Plan:</b> Mission Valley | <b>Priority Category:</b> High             |
| <b>Project Status:</b> Released       | <b>Contact Information:</b> Palaseyed, Abi |
| <b>Duration:</b> 1990 - 2019          | 619-533-4654                               |
| <b>Improv Type:</b> Widening          | apalaseyed@sandiego.gov                    |

**Description:** This project provides for construction of a new southbound State Route 163 to westbound Friars Road off-ramp, widening of the Friars Road overcrossing structure to eight lanes extending to Frazee Road, construction of a third westbound lane on Friars Road to Fashion Valley Road, the addition of an exclusive right-turn lane on southbound Frazee Road to westbound Friars Road, other modifications to the existing on and off-ramps, and improvements to the existing State Route 163 southbound travel lanes to improve the weaving problems. This project also includes an auxiliary lane on southbound State Route 163 from Genesee Avenue to westbound Interstate 8, which requires major structural work to widen the bridge over the San Diego River. Additionally, over 5,300 feet of retaining walls will need to be constructed along State Route 163 and Friars Road, including one that is over 30 feet high. Friars Road widening and ramp improvements at Friars Road will be constructed with Phase I.

**Justification:** This project will alleviate some of the severe traffic delays along Friars Road due to new development in Mission Valley and the backup that occurs on the existing southbound off-ramp because of the weaving situation with the southbound on-ramp.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mission Valley Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary engineering was completed in Fiscal Year 1996. Phase I design began in Fiscal Year 2002 and continued through Fiscal Year 2009. Final design began in Fiscal Year 2011 and is scheduled to be completed in Fiscal Year 2014. Right of way will be acquired in Fiscal Year 2014. Construction for Phase I is scheduled for Fiscal Year 2014 due to an extended and complex design process. Phase II and Phase III are scheduled to be constructed in Fiscal Years 2017 and 2019.

**Summary of Project Changes:** TransNet funding in the amount of \$3,100,000 allocated to this project in the proposed Fiscal Year 2013 budget has been reduced to \$2,836,000 per the May Revision. Other funding through SANDAG recently became available for use in this project, therefore Transnet funding requirements are lower than previously anticipated to support Fiscal Year 2013 needs.

**Description:** This project will provide for a bicycle path interchange and community connection points at Black Mountain Road, Camino Del Sur, Rancho Del Sol Way, and Torrey Meadows Drive along State Route 56.

**Justification:** Bicyclists and pedestrians traveling the SR-56 bicycle path and needing to cross through the interchange areas have to contend with high volumes of conflicting vehicular traffic. This project will expedite the movements along the bicycle path through and connecting to the interchange areas.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Black Mountain Ranch, Del Mar Mesa, Pacific Highlands Ranch, and Torrey Highlands Subarea Plans and the Rancho Penasquitos Community Plan, and is in conformance with the City's General Plan.

**Schedule:** The project study report began in Fiscal Year 2006 and was completed in Fiscal Year 2008. Design and construction for SR-56 / Black Mountain Road began in Fiscal Year 2010 and were completed in Fiscal Year 2012. Remaining community bicycle paths will be designed and constructed once funding is identified.

**Summary of Project Changes:** Facilities Benefit Assessment funding anticipated in Fiscal Year 2012 was not materialize and was moved to Fiscal Year 2014. TransNet funding totaling \$400,000 has been allocated to this project through Fiscal Year 2015.

**Description:** This project provides for the State Route 56 freeway between the Carmel Valley and Rancho Penasquitos communities. A four-lane freeway will be constructed with interchanges at Black Mountain Road, Camino Santa Fe and Camino Del Sur. This project will provide the necessary right-of-way and prepare the grade for a six-lane freeway. In addition, this project provides for the bikepath through the State Route 56 corridor, and a future project is planned for a bikepath interchange at Camino Del Sur. The preparation of project report and environmental document for the remaining Interstate 5/State Route 56 connector ramps is budgeted under S-00707, Interstate 5/State Route 56 Freeway Connectors.

**Justification:** This project is needed to provide an east-west connection between Interstate 5 and Interstate 15.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Los Penasquitos Canyon Preserve Master Plan, the Sabre Springs, Rancho Penasquitos and Torrey Hills Community Plans, and the Torrey Highlands and Pacific Highlands Ranch Subarea Plans, and is in conformance with the City's General Plan.

**Schedule:** This project was completed in Fiscal Year 2010.

**Summary of Project Changes:** This project is complete and will be closed by the end of Fiscal Year 2013.

**Description:** This project will install 25 streetlights in the Memorial, Stockton and Grant Hill neighborhoods of Southeast San Diego. The proposed method of installation requires resident and Council office approvals which are forthcoming.

**Justification:** The street lights will improve the safety of pedestrian route to the new Logan Heights Library, the Clay Street Park, the Memorial Recreation Center, and the Stockton Recreation Center.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Southeastern San Diego Community Plan and in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and construction was scheduled to be completed in Fiscal Year 2012 with project close out activities occurring in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides for the replacement of obsolete street light series circuits.

**Justification:** Series circuits are over 70 years old and no longer meet current standards and they constantly have maintenance problems which impact a large number of lights.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** It is anticipated that this project will receive Deferred Capital Bond financing from a City Council action in Fiscal Year 2012.

**Description:** This project provides for the stabilization of the slope adjacent to Talbot Street at Martinez Street.

**Justification:** The winter storms of 2004 and 2005 eroded the steep slope adjacent to Talbot Street and threatened the houses at the top of the slope. This project is eligible for Federal Highways Administration (FHWA) reimbursement.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2008 and was completed in Fiscal Year 2011. Construction is scheduled to be completed in Fiscal Year 2014.

**Summary of Project Changes:** TransNet funding in the amount of \$300,000 has been allocated to this project for Fiscal Year 2013.

| <b>Duration:</b> 2007 - 2012         | 619-533-3045                               |
| <b>Improv Type:</b> New              | tlandre@sandiego.gov                       |

**Description:** This project provides for the replacement of a bicycle lane on Taylor Street between Presidio Drive and Hotel Circle South, adjacent to Presidio Park.

**Justification:** Erosion has caused the cliffside at this location to destabilize. Temporary barriers are in place to prevent additional rockslide onto Taylor Street; however, these barriers have eliminated the bicycle lane. This project will re-establish the bike lane.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Old San Diego Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction schedule and funding were determined upon transfer to the Public Works-Engineering & Capital Projects Department in Fiscal Year 2011 and will be incorporated in the cliff stabilization project.

**Summary of Project Changes:** TransNet funding in this project was revised per City Council Resolution R-307150, dated November 30, 2011. Total project cost was reduced by \$30,908.

**Description:** This project provides for construction of a pedestrian bridge along Shoal Creek Drive to facilitate crossing Ted Williams Parkway. This phase of the project includes design and environmental studies.

**Justification:** The intersection is in close proximity to Shoal Creek Elementary School and has a high volume of children crossing Ted Williams Parkway. This project will increase pedestrian safety and was requested by City Council and the community.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Carmel Mountain Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Environmental approval was received in Fiscal Year 2011. Design began in Fiscal Year 2008 and was completed in Fiscal Year 2012. Construction is scheduled to begin and to be completed in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> New                 | apalaseyed@sandiego.gov                    |

**Description:** This project provides for the design and construction of a two-lane overcrossing of Torrey Meadows Drive over State Route 56. This project will include the bridge approaches on each side of the bridge, approximately 200 linear feet of a two-lane local collector road, together with any right-of-way not previously acquired as part of the State Route 56 project. The City is moving forward with a reimbursement agreement with developer to provide design and construction specifications for future construction of project.

**Justification:** This two-lane connection will provide access to the neighborhood park, elementary and high schools, and the local mixed use zone for those properties south of State Route 56. The project should alleviate traffic congestion on the Camino Del Sur Interchange and provide enhanced traffic flow.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Torrey Highlands Subarea Plan, the Torrey Highlands Public Facilities Financing Plan (Project T-9) and is in conformance with the City's General Plan.

**Schedule:** Design and the environmental review process began in Fiscal Year 2010. Project design and construction is to be completed by developer in accordance with a future Reimbursement Agreement (RA).

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Betterment  | bjohnson@sandiego.gov                     |

**Description:** This project provides for improvements to Torrey Pines Road from La Jolla Parkway to Prospect Place. Improvements may include guardrails, median improvements, sidewalks, traffic signals and lighting, and installation of bikelanes and striping modifications.

**Justification:** Improvements are needed on the subject section of Torrey Pines Road in order to accommodate existing and future traffic volumes, and to provide for roadway features to enhance safety and traffic flow for vehicles, bicycles and pedestrians. A Corridor Study has been completed and potential improvements have been identified to enhance traffic safety and walkability along the Torrey Pines Road corridor.

**Operating Budget Impact:** Costs for operation and maintenance above and beyond the current levels within the project area will be included in the Transportation and Storm Water Department's budget during the final design phase.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary design was completed in Fiscal Year 2011. Phase I design began in Fiscal Year 2012 and is scheduled to be completed in Fiscal Year 2013. Construction of Phase I improvements will be scheduled upon identification of funding.

**Summary of Project Changes:** No significant changes to this project for Fiscal Year 2013.

**Description:** This project provides for reconstructing a 350-foot section of earthen slope along the south side of Torrey Pines Road between Little Street and Roseland Drive.

**Justification:** The existing slope is eroding. This project will eliminate the possibility of soil slough landing in the travel lane of a primary arterial street.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the La Jolla Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2014.

**Summary of Project Changes:** No significant changes have been made to this project for Fiscal Year 2013.

**Description:** This annual allocation provides for installing traffic control measures on an as-needed basis. These improvements respond to a variety of traffic concerns such as speeding motorists and shortcutting traffic. Solutions used may include the construction of flashing beacons and geometric design features such as road humps and traffic islands.

**Justification:** This annual allocation is needed to improve safety by mitigating traffic problems on streets such as speeding, shortcutting traffic, and the need for increased pedestrian safety.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** TransNet funding has been allocated to this project through Fiscal Year 2017.

**Description:** This project provides a means to conduct traffic studies and counts at various locations in the Peninsula, North University City and Pacific Beach Communities.

**Justification:** This project provides traffic counts and studies necessary determining traffic conditions and for developing solutions for improving traffic safety.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Peninsula, Pacific Beach, and University Community Plans and is in conformance with the City's General Plan.

**Schedule:** Traffic counts and studies began in Fiscal Year 2010 and were completed in Fiscal Year 2011.

**Summary of Project Changes:** This project is completed and will be closed by the end of Fiscal Year 2013.

## Transportation & Storm Water

### Traffic Signals - Citywide / AIL00004

|                                   |                                            |
|-----------------------------------|--------------------------------------------|
| <b>Council District:</b> Citywide | <b>Priority Score:</b> Annual              |
| <b>Community Plan:</b> Citywide   | <b>Priority Category:</b> Annual           |
| <b>Project Status:</b> Released   | <b>Contact Information:</b> Fuentes, Julio |
| <b>Duration:</b> 2010 - 2020      | 619-533-3092                               |
| <b>Improv Type:</b> Replacement   | jfuentes@sanidiego.gov                     |

**Description:** This annual allocation provides for the installation of traffic signals at high-priority locations and the City's share of the costs of traffic signals undertaken in cooperation with others.

**Justification:** The City maintains an inventory of candidate intersections which are periodically surveyed for significant changes in operating conditions. Installing traffic signals in select intersections provides for the orderly movement of traffic, increased traffic handling capacity, reduced frequency of accidents, and for improved traffic flow. Signals also permit vehicles and pedestrians from a minor street to enter or cross continuous traffic on the major street. The criteria for installing traffic signals are governed by Council Policy 200-6.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** TransNet funding has been allocated to this project through Fiscal Year 2017.

**Description:** This project provides for installing traffic signals identified in the Development Impact Fees (DIF) needs lists for various urbanized communities.

**Justification:** The purpose of this project is to provide for construction of required traffic signals.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with the appropriate community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled as funding is identified.

**Summary of Project Changes:** This annual allocation is no longer being funded. DIF funded traffic signal projects will be assigned individual CIP numbers as funding and locations are identified. Budget remaining in this annual allocation will be returned to fund balance and will be closed by the end of the fiscal year.

| <b>Improv Type:</b> Replacement   | drhughes@sandiego.gov                      |

**Description:** This annual allocation provides for upgrading existing traffic signals as necessary to improve traffic flow and promote safety. Improvements may include conversion from post-mounted to mast-arm-mounted indicators, addition of pedestrian signals, and additional phases to accommodate separate turning moves.

**Justification:** The City maintains an ongoing program to promote safety within the public right-of-way. Analysis of accident patterns at a particular location often shows that some minor improvement would help to reduce the number and/or severity of accidents. In addition, increasing traffic volumes and changing traffic patterns typically reduce the effectiveness and efficiency of existing traffic signal controls at certain intersections, warranting upgrades.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** Developer Impact Fee (DIF) funding from various sources has been allocated to this project for Fiscal Year 2013. In addition, TransNet funding has been allocated to this project through Fiscal Year 2017.

| <b>Project Status:</b> Released   | <b>Contact Information:</b> Tracana, John |
| <b>Duration:</b> 2010 - 2020      | 619-533-3682                              |
| <b>Improv Type:</b> Replacement   | jtracana@sandiego.gov                     |

**Description:** This project provides for upgrading existing traffic signals as necessary to improve traffic flow and promote safety. Improvements may include the addition of mast-arm-mounted signal heads, the addition of pedestrian signals, and the modification of medians to accommodate separate turning lanes.

**Justification:** Increasing traffic volumes and changing traffic patterns typically reduce the effectiveness and efficiency of traffic signal controls at certain intersections. This allocation funds modification to traffic signals in various urbanized communities for improved traffic control.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled based on a priority basis and is contingent upon anticipated Development Impact Fee revenues.

**Summary of Project Changes:** No significant change has been made to this project in Fiscal Year 2013.

**Description:** This annual allocation provides funding for matching fund obligations and/or supplementing transportation grant projects for various types of transportation grants.

**Justification:** In order to qualify for future additional grant funds, the City may be required to ensure that matching funds are available or projects may need supplemental funds to continue.

**Operating Budget Impact:** None

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** TransNet funding was not allocated to this project for Fiscal Year 2013. However, funding will be allocated in future years as grant match obligated.

| <b>Improv Type:</b> New          | jtracanna@sandiego.gov                     |

**Description:** This project provides for constructing a triple pipe arch culvert beneath Dennery Road where the road spans Dennery Canyon to maintain the continuity of the Dennery Canyon Open Space link with the Otay River Valley and to accommodate the existing wildlife movement.

**Justification:** The alignment of Dennery Road will bisect a key wildlife corridor within the Otay Mesa Community. In order to minimize the disturbance, a wildlife undercrossing is proposed to provide an unobstructed corridor for wildlife movement between Dennery Canyon and the Otay River Valley.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Otay Mesa Community Plan and is in conformance with the City's General Plan.

**Schedule:** The design and construction of the triple pipe crossing shall be performed by the subdivider responsible for the construction of Dennery Ranch Road and reimbursed from Facilities Benefit Assessment funding.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

| <b>Improv Type:</b> Betterment            | jguise@sandiego.gov                      |

**Description:** This project provides for the restriping of University Avenue from east of Florida Street to the west side of Mississippi Street, including the two intersections of University Avenue at Alabama Street to provide a center refuge median and wider travel lanes to improve bicycle and pedestrian safety. This project will provide for the removal of parking on both sides of the street and eliminate left turns in and out of both intersections of University Avenue and Alabama Street.

**Justification:** This project will provide a center refuge median and wider travel lanes to improve bicycle and pedestrian safety.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Greater North Park Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2010. Construction was scheduled to begin in Fiscal Year 2012; however, will be rescheduled once funding can be identified.

**Summary of Project Changes:** Grant funding in the amount of \$630,000 was anticipated to be received in Fiscal Year 2012. However, this grant did not occur and required amount was moved to unidentified funding.

**Description:** This project provides for the University Avenue Mobility Project-Phase I (UAMP-Phase I), which is a subset of the improvements planned in the larger University Avenue Mobility Plan. Since funding for the entire project is not available at this time, the Phase I project was developed by combining selected portions of the UAMP that would provide the greatest benefits, focusing on the commercial core of the corridor. The major elements of the UAMP-Phase I are restriping to provide a painted median, left turn pockets at signalized intersections and improved lane widths, installation of raised medians in the core area, installation of enhanced pedestrian crosswalks, repainting of existing crosswalks, removal of parallel on-street parking, and re-striping to provide angle parking on both sides of the street.

**Justification:** This project will significantly improve safety and mobility along the corridor for pedestrians, bicyclists, transit, and automobile traffic.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Greater North Park Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary design began in Fiscal Year 2007. The environmental process began in Fiscal Year 2009 and is scheduled to be completed in Fiscal Year 2013. Design will begin in Fiscal Year 2013 and is scheduled to be completed in Fiscal Year 2014. Construction is scheduled to begin in Fiscal Year 2014 and be completed in Fiscal Year 2016. Later phases of UAMP will be determined as additional funding is appropriated.

**Summary of Project Changes:** TransNet funding in the amount of \$200,000 has been allocated to this project for Fiscal Year 2013.

**Description:** This project provides for the installation of approximately 16,000 feet of new concrete sidewalk and other roadway and safety/capacity improvements on both sides of University Avenue from 54th Street to 68th Street. In addition, a corridor study will be completed to analyze existing conditions and future traffic in order to determine other capacity and safety improvements.

**Justification:** The existing sidewalk has settled and cracked necessitating replacement in order to provide safe pedestrian access. Portions of University Avenue within the limits of this project are without sidewalks. New sidewalk will be constructed in these areas. In addition, a corridor study will be completed to analyze existing conditions and future traffic in order to determine other capacity and safety improvements.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the College Area and Mid-City: City Heights and Eastern Area Communities Plans and is in conformance with the City's General Plan.

**Schedule:** Preliminary engineering was completed in Fiscal Year 2012. Design was to be completed in Fiscal Year 2012 and construction was scheduled for Fiscal Year 2013. However, Redevelopment Agency funding was withheld, which placed this schedule on standby until funding can be identified.

**Summary of Project Changes:** Redevelopment Agency funding in the amount of \$1.75 million was not received as initially anticipated and has placed this project on standby. The \$1.75 million is now reflected as unidentified funding.

**Description:** This annual allocation provides for additional underground conversion projects to augment the California Public Utilities Commission (CPUC) Rule 20A projects as well as provides for the necessary administrative expenses, conversion of City-owned street lighting, and resurfacing of roadways associated with the undergrounding of utilities.

**Justification:** The CPUC mandates that local utility companies allocate funding for undergrounding of utilities at the direction of the local municipality. San Diego Gas and Electric (SDG&E), AT&T and the cable companies spend several million dollars annually to underground overhead facilities. The City must provide the utility companies with a priority listing of projects, aid coordination, establish underground utility districts and give informational support. Construction costs for undergrounding are paid by utility companies in accordance with Public Utilities Commission Decisions 73078, 820118 and Case 8209. If not provided with administrative support, millions of dollars of utility company construction money could go unused. Additional underground conversion projects are funded through the City Undergrounding Surcharge Fund. This fund is used solely for the undergrounding of utilities and cannot be used for other purposes.

**Operating Budget Impact:** None.

**Relationship to General and Community Plans:** This project is consistent with applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects are scheduled on a priority basis.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project will reconstruct existing Via de la Valle between San Andres Drive and El Camino Real West to a modified four-lane major street to accommodate existing and projected sub-regional traffic. Modify signals at San Andres Drive and El Camino Real West as required and relocate existing overhead utilities to underground locations. Restripe Via de la Valle between San Andres Drive and Interstate 5 to six lanes. This is project T-32.1 in the Black Mountain Ranch Public Facilities Financing Plan.

**Justification:** This facility is required to accommodate traffic generated by new development in Black Mountain Ranch and surrounding communities as well as existing sub-regional traffic needs.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Black Mountain Ranch Community Plan and is in conformance with the City's General Plan.

**Schedule:** Preliminary engineering and design is on-going. Final design and construction was scheduled for Fiscal Years 2013 and 2014; however, has been delayed until project scope and cost can be determined and funding can be identified.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013.

**Description:** This project provides for the construction of one mile of Class III bicycle route on Villa La Jolla Drive from Nobel Drive to Gilman Drive.

**Justification:** The project will facilitate safe bicycle usage in the community, while conforming with the Bicycle Master Plan.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the University Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design and construction began in Fiscal Year 2010 and were completed in Fiscal Year 2011.

**Summary of Project Changes:** This project has been completed and will be closed by the end of the fiscal year.

**Description:** This reimbursement project provides for construction of Village Loop Drive, from the intersection of Del Mar Heights Road and Carmel Valley Road easterly to the property line (approximately 2,000 linear feet), as a four-lane collector roadway within a 108 foot right-of-way route providing access to the high school site and the core residential areas.

**Justification:** This project is dependent upon the development of the high school, community park, and core residential area including the village area of the community.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Pacific Highlands Ranch Public Facility Financing Plan and is in conformance with the City's General Plan.

**Schedule:** The developer (Pardee) advanced funding for this project and will be reimbursed from the Pacific Highlands Ranch Facilities Benefit Assessment (FBA) under the terms of a reimbursement agreement. Reimbursement is programmed from Fiscal Years 2006 through 2013.

**Summary of Project Changes:** This project has been completed by the developer (Pardee). It is anticipated that the developer will be reimbursed in Fiscal Year 2013. Once fully reimbursed, this project will be closed by the end of the fiscal year.

**Description:** This project provides for the construction of bike lanes on Vista Sorrento Parkway between Sorrento Valley Boulevard and Lusk Boulevard by widening the existing roadway.

**Justification:** Bicyclists along this section of Vista Sorrento Parkway currently must contend with heavy volumes and high speeds from vehicular traffic in common lanes. The proposed bike lanes will provide a separate venue for bicyclists to use, which is in accordance with the Torrey Pines and Mira Mesa Community Plans.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Torrey Pines and Mira Mesa Community Plans and is in conformance with the City's General Plan.

**Schedule:** Construction was completed in Fiscal Year 2010.

**Summary of Project Changes:** This project has been completed and will be closed by the end of the fiscal year.

**Description:** This project provides for streetscape improvements on Washington Street between San Diego Avenue and India Street, and between Goldfinch Street and Dove Street.

**Justification:** The Mission Hills Community Plan group adopted the Washington Street Beautification Master Plan in Fiscal Year 1997. Streetscape improvements are being installed to revitalize the Mission Hills Business District.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project implements the Uptown Community Plan and is in conformance with the City's General Plan.

**Schedule:** Construction of Phase I was completed in Fiscal Year 1994. In addition, Phase I included a community tree planting plan which added 80 street trees to Washington Street in Fiscal Year 1998. Design of Phase II was completed in Fiscal Year 1999. Construction of Phase II, segment one, which included upgrades and public artwork in two medians, was completed in Fiscal Year 2000. Improvements to the intersection of Washington Street and Goldfinch Street were designed in Fiscal Years 2003 and 2004, updated in Fiscal Year 2007 including median improvements on Washington Street between Goldfinch and Falcon Streets and between Eagle and Dove Streets. Construction of these improvements was completed in Fiscal Year 2009. The design for median improvements on Washington Street between India Street and San Diego Avenue was completed in Fiscal Year 2012, which construction is anticipated to occur in Fiscal Year 2013.

**Summary of Project Changes:** No significant change has been made to this project for Fiscal Year 2013. If construction is completed as anticipated, this project will be closed by the end of the fiscal year.

| <b>Duration:</b> 2010 - 2015      | 858-451-4346                             |
| <b>Improv Type:</b> Betterment    | rmatter@sandiego.gov                     |

**Description:** This project provides for the design and construction of watershed capital projects. These projects, in conjunction with non-structural water quality projects, address storm drain discharge water quality standards.

**Justification:** The purpose of these projects is to remove pollutants from storm water before it enters our public waterways or to reuse the storm water and keep it from entering public waterways. This results in reduced pollutants entering the ocean and various San Diego rivers and bays. These projects satisfy watershed-based water quality activity requirements in the Regional Water Quality Control Board's Municipal Storm Water National Pollutant Discharge Elimination System (NPDES) permit.

**Operating Budget Impact:** Maintenance cost of the structural watershed Best Management Practice (BMP) needs to be estimated and included in the storm drain infrastructure operating budget by Fiscal Year 2020.

**Relationship to General and Community Plans:** This project is consistent with the applicable community plans and is in conformance with the City's General Plan.

**Schedule:** Projects will be scheduled to address pollutants of concern within high priority watersheds and are planned based on regulatory requirements and as funding is allocated.

**Summary of Project Changes:** Per the May Revision, funding of \$50,000 was reallocated from the Rose and Tecolote Creeks Water Quality Improvements project and additional funding for deferred capital in Fiscal Year 2013 from General Fund surplus in Fiscal Year 2012 in the amount of \$1,500,000 was added to this project to provide additional funding for construction of water quality improvement projects. These actions have increased the Fiscal Year 2013 budget from \$2,740,000 to \$4,290,000.

**Description:** This project provides for replacing the existing four-lane West Mission Bay Drive bridge with a six-lane bridge, sidewalk, bike lanes and shoulder improvements.

**Justification:** A six-lane facility is needed to accommodate both the existing and the projected future traffic volumes. It was determined that a bridge replacement was more cost effective than widening the existing bridge.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mission Bay Park Master Plan, Midway - Pacific Highway Community Plan, and the Peninsula Community Plan, and is in conformance with the City's General Plan.

**Schedule:** Preliminary engineering was scheduled to begin in Fiscal Year 1998, however the scope changed from bridge widening to bridge replacement. Feasibility and environmental studies began in Fiscal Year 2001. Preliminary engineering and Environmental Document began in Fiscal Year 2009 and anticipated to be completed in Fiscal Year 2013. Design is scheduled to begin in Fiscal Year 2012 and to be completed in Fiscal Year 2013. Construction is scheduled to begin in Fiscal Year 2014 and will be completed once funding is identified.

**Summary of Project Changes:** TransNet funding in the amount of \$2,500,000 has been allocated to this project for Fiscal Year 2013. It is anticipated that Federal Highway Administration (FHA) grant funding and donated funds will become available for this project in Fiscal Year 2013.

**Description:** This project provides for public improvements along West San Ysidro Boulevard on the block located between Cottonwood and Via de San Ysidro. The improvements are the initial revitalization activities for the area and will consist of sidewalk improvements, new street trees, and ornamental street lamps.

**Justification:** The City of San Diego Redevelopment Agency and San Ysidro Business Improvement District have identified this public improvement project as a priority for the San Ysidro commercial district to help eliminate blight, spark new development, and increase business activity.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the San Ysidro Community Plan and is in conformance with the City's Progress Guide and General Plan.

**Schedule:** Design began and was completed in Fiscal Year 2004. Project has been completed.

**Summary of Project Changes:** This project has been completed and will be closed by the end of the fiscal year.

**Description:** The construction of the Westerly Extension of Hazard Center Drive will provide for the construction of a two lane road from the eastern terminus of Hazard Center Drive to the existing road behind Fashion Valley Shopping Center.

**Justification:** This project will provide for the construction of the missing segment of Hazard Center Drive and when constructed, the road will provide enhanced traffic circulation which will benefit the community.

**Operating Budget Impact:** The operating and maintenance funding for this project will be included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the Mission Valley Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design began in Fiscal Year 2011 and was completed in Fiscal Year 2012. Construction is scheduled to begin in Fiscal Year 2013 and to be completed in Fiscal Year 2014.

**Summary of Project Changes:** No significant change has been made to this project in Fiscal Year 2013.

**Description:** This project provides for improved pedestrian safety around Willow Elementary School. The scope includes the construction of new sidewalks, curb ramps, and pedestrian countdown timers.

**Justification:** The area surrounding Willow Elementary School has high automobile, bicycle, and pedestrian injury rates. This project will provide a safer walking environment for both students and members of the community.

**Operating Budget Impact:** The operating and maintenance funding for this project has been included in the Transportation & Storm Water budget.

**Relationship to General and Community Plans:** This project is consistent with the San Ysidro Community Plan and is in conformance with the City's General Plan.

**Schedule:** Design was completed in Fiscal Year 2009. Construction was completed in Fiscal Year 2010.

**Summary of Project Changes:** This project is complete and will be closed by the end of the fiscal year.

Design and construction of future phases of the project are currently unfunded.                                                                                                                                                                                                                                                                                                   |
| Concrete Streets / AID00006                            | 26,482,000    | 21,600,000           | 81.6%            | This annual allocation provides for resurfacing, repair, and reconstruction of concrete streets which are necessary to maintain the concrete streets in a serviceable condition and to prevent deterioration.                                                                                                                                                                                                                                                                                                |
| Drainage Projects / ACA00001                           | 249,941,877   | 85,507,101           | 34.2%            | This annual allocation provides for restructuring or replacing failed drainage facilities citywide. The unidentified funding amount reflects the funding needed to address the deferred capital needs of the City's General Fund supported drainage projects based on condition assessments.                                                                                                                                                                                                                 |
| El Camino Real - Half Mile to Via De La Valle / S00856 | 32,408,869    | 19,941,511           | 61.5%            | This project provides for reconstruction and widening of the existing two-lane bridge to a four-lane bridge. The construction phase is currently unfunded.                                                                                                                                                                                                                                                                                                                                                   |
| Genesee Avenue - Widen Interstate 5 Crossing / S00839  | 102,300,000   | 7,700,000            | 7.5%             | This project provides for widening Genesee Avenue and for Interstate 5 Corridor improvements. Construction of additional corridor improvements is currently unfunded.                                                                                                                                                                                                                                                                                                                                        |
| La Jolla Village Drive and Regents Road / S00867       | 1,370,900     | 90,900               | 6.6%             | This project provides for improved traffic flow at the La Jolla Village Drive and Regents Road intersection. A portion of the construction phase is currently unfunded.                                                                                                                                                                                                                                                                                                                                      |
| Mission Beach Boardwalk Bulkhead / S00726              | 5,392,225     | 3,500,000            | 64.9%            | This project provides for preserving the life of the Mission Beach Boardwalk bulkhead from Balboa Court to Pacific Beach Drive. Construction phase is currently unfunded.                                                                                                                                                                                                                                                                                                                                    |
| Mission Beach Boardwalk Widening Project / S00860      | 3,163,500     | 2,753,000            | 87.0%            | This project increases public accessibility to the beach areas in Pacific and Mission Beach, including the acquisition of the right-of-way at Santa Rita Place, Pacific Beach Drive to Oliver Avenue, and the widening of the boardwalk from Santa Rita Place to Thomas Avenue. Design and construction of Phase III and IV of the project are currently unfunded.                                                                                                                                           |
| Mission City Parkway/San Diego River / S00936          | 10,057,812    | 7,270,497            | 72.3%            | This project provides for a new two-lane bridge extending Mission City Parkway from the intersection of Camino Del Rio North to the north over the San Diego River and connecting to the extension of Mission City Parkway being constructed as part of the Mission City Development. This project also provides for an additional stadium entrance. The total estimated project cost of \$10.1 million includes an unfunded amount of \$7.3 million. Design and construction phases are currently unfunded. |

## Unfunded Needs List

| Project                                                     | Project Total | Unidentified Funding | Percent Unfunded | Description                                                                                                                                                                                                                                                                                                                                                                      |
|-------------------------------------------------------------|---------------|----------------------|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ocean Front Walk-San Fernando to Ventura / S00875           | 3,392,032     | 3,000,000            | 88.4%            | The project provides for returning the walkway along Ocean Front Walk to the original 1925 appearance. Construction phase is currently unfunded.                                                                                                                                                                                                                                 |
| Old Otay Mesa Road- Westerly / S00870                       | 6,750,000     | 3,500,000            | 51.9%            | This project provides for design and construction of a portion of Old Otay Mesa Road. Construction phase is currently unfunded.                                                                                                                                                                                                                                                  |
| Otay Mesa Truck Route Phase 4 / S11060                      | 19,750,000    | 12,250,000           | 62.0%            | This Phase IV project provides for the construction of an additional lane to the existing Otay Truck Route from La Media Road to Drucker Lane and for the extension of the Truck Route (two lanes) from Britannia Boulevard to La Media Road and along Britannia Boulevard from the border to Britannia Court. Construction phase is currently unfunded.                         |
| Pacific Beach Obstructed Curb Ramp Barrier Removal / S11048 | 370,000       | 320,000              | 86.5%            | This project will provide for curb ramps, curbs, gutters, sidewalks, street overlay, new curb inlets, cleanouts, Americans with Disabilities Act (ADA) pedestrian push buttons, a median curb and traffic striping at the intersection of Pacific Beach Drive and Mission Boulevard. Design and construction phases of are currently unfunded.                                   |
| Rancho Bernardo Street and Sidewalk Improvements / S00887   | 137,553       | 65,800               | 47.8%            | This project provides for improvements to streets and sidewalks, installation of landscaping and irrigation systems, and construction of retaining and sound walls in the Rancho Bernardo Community. Design and construction phases are currently unfunded.                                                                                                                      |
| Resurfacing of City Streets / AID00005                      | 506,141,499   | 152,680,176          | 30.2%            | This annual allocation provides for roadway resurfacing, repair and reconstruction of City streets are necessary to maintain the streets in serviceable condition and prevent deterioration of the roadway. The unidentified funding amount reflects funding needed to address the deferred capital needs of the City's streets based on condition assessments.                  |
| Sea World Drive/Interstate 5 Interchange Imp / S00888       | 120,163,209   | 105,438,300          | 87.7%            | This project proposes to realign and widen the southbound off-ramp, reconfigure the off-ramp intersection to eliminate the free right turn onto Sea World Drive, widen the eastbound approach to the southbound on-ramp, and increase storage on the overcrossing for the eastbound to northbound left turn at the northbound on-ramp. Construction phase is currently unfunded. |
| Sidewalk Repair and Reconstruction / AIK00003               | 15,981,718    | 6,000,000            | 37.5%            | This annual allocation provides for the replacement of damaged sidewalks, curbs and gutters Citywide.                                                                                                                                                                                                                                                                            |
| Sorrento Valley Road & Interstate 5 Interchange / S00914    | 53,019,000    | 47,000,000           | 88.6%            | This project provides for a new freeway interchange to address traffic congestion. Construction phase is currently unfunded.                                                                                                                                                                                                                                                     |
| State Route 163/Friars Road / S00851                        | 142,386,407   | 97,086,159           | 68.2%            | This project provides for reconfiguration of State Route 163 and Friars Road on and off-ramps and other Friars Road improvements. It is anticipated that federal funds will become available for future phases of this project.                                                                                                                                                  |
| State Route 56 Bike Interchanges / S00955                   | 11,458,508    | 6,822,940            | 59.5%            | This project provides at-grade or grade-separated bicycle path interchange facilities along State Route 56. Future sections of the project are currently unfunded.                                                                                                                                                                                                               |
| Street Light Circuit Upgrades / AIH00002                    | 36,650,000    | 33,347,000           | 91.0%            | This annual allocation provides for the replacement of obsolete street light series circuits.                                                                                                                                                                                                                                                                                    |
| Torrey Pines Improvements Phase I / S00613                  | 16,100,000    | 13,000,000           | 80.7%            | This project provides for improvements to the Torrey Pines Corridor. The construction phase is currently unfunded.                                                                                                                                                                                                                                                               |

# Capital Improvement Program Glossary

**ACCOUNTING PERIOD** – The City of San Diego's fiscal year is divided into 12 accounting periods. Each accounting period is a month and may have two or three pay periods.

**ANNUAL ALLOCATION** – A specific project type which receives budget on an annual basis and that provides for the establishment of sublet projects which fall under the budgetary threshold guidelines.

**AMERICANS WITH DISABILITIES ACT (ADA)** – Americans with Disabilities Act, Public Law 336 of the 101st Congress, enacted July 26, 1990. The ADA prohibits discrimination and ensures equal opportunity for persons with disabilities in employment, State and local government services, public accommodations, commercial facilities, and transportation. It also mandates the establishment of telecommunications device for the deaf (TDD)/telephone relay services.

**ADOPTED BUDGET** – The Mayor and City Council's approved plan for the City's financial operations, which includes an estimate of expenditures and revenues for a given fiscal year.

**ANNUALIZATION** – Prorating expenditures for a portion of a year over 12 months for the purpose of estimating annual costs.

**APPROPRIATION** – A legal authorization to make expenditures and to incur obligations for specific purposes.

**APPROPRIATION ORDINANCE** – The official enactment by the City Council to establish legal authority for City officials to expend and obligate resources.

**ASSET TYPE** – Capital assets are generally large and expensive and expected to last for at least one year but may be required for decades of public use and include complex underground water distribution and wastewater collection systems to buildings, parks, streets, and bridges.

**ASSET MANAGEMENT** - Asset management is a strategic, comprehensive approach that involves the systematic collection of key data and the application of analytical tools to provide officials with a framework for making sound decisions about needed maintenance and replacements of the City's assets. Asset managers must make decisions on when and how to inspect, maintain, repair, renew, and replace a diverse set of existing facilities in a cost effective manner.

**BOND** – A funding tool representing a written promise to pay a specific sum (face value or principal amount) in the future (maturity date), plus interest. In California, municipal government bonds are only used to finance capital improvements.

**BOND PROCEEDS** – Funds derived from the sale of bonds for the purpose of constructing major capital facilities.

**BUDGET** – Proposed plan of expenditure and revenue over a specified period of time.

**BUDGET CALENDAR** – The schedule of major events in the development of the annual budget including the proposed budget, budget hearings, budget deliberations, and the adoption of the annual Appropriation Ordinance.

**BUDGET DELIBERATIONS** – After the completion of public hearings, the City Council reviews and approves the Mayor's proposed budget during deliberations.

**BUDGET DOCUMENT** – The instrument utilized to present the City's comprehensive financial plan to the City Council and the public.

# Capital Improvement Program Glossary

**BUSINESS AREA** – A basic organizational unit of government that may be sub-divided into divisions, programs, activity groups, and/or activities.

**BUSINESS IMPROVEMENT DISTRICT (BID) FUNDS** – A special assessment levied upon business owners within a district with specifically defined boundaries established by City Ordinance. These assessments finance improvements within the district.

**CAPITAL IMPROVEMENTS PROGRAM (CIP) BUDGET** – A financial plan of capital projects and the authorized means of their expenditures over a given period of time.

**CAPITAL IMPROVEMENT PROJECT** – A capital improvement is generally a large construction project such as the development of park land, the construction of an overpass, the installation of a traffic signal, the acquisition of land, or the construction or remodeling of a City building. Funds for these projects are derived largely from the issuance of bonds, water and sewer fees, and a one-half cent local sales tax for transportation improvements (TransNet), grants, and developer impact fees.

**CAPITAL IMPROVEMENT PROGRAM ADVISORY COMMITTEE (CIPRAC)** – This committee provides oversight for prioritizing and approving CIP projects for the annual budget process. CIPRAC is comprised of the Mayor's staff to advise on CIP related matters such as project listings and prioritizations.

**COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) FUNDS** – Funds established to account for revenues from the federal government and expenditures as prescribed under the Community Development Block Grant Program.

**CONTINUING APPROPRIATIONS** – Funding approved in the current budget but not expended during that current budget year. These appropriations are carried forward into the next fiscal year for their intended purposes.

**CONTRACTS** – Expenditures for services provided by outside organizations and businesses, including consultant and construction activities.

**DEBT** – Payment of interest and principal on an obligation resulting from the issuance of bonds.

**DEFERRED CAPITAL** – A capital program established for street pavement, buildings, and storm drains improvements funded through a series of deferred maintenance bonds.

**DEPARTMENT** – A basic organizational unit of government that may be sub-divided into divisions, programs, activity groups, and/or activities. Also referred to as Business Area.

**DEFERRED MAINTENANCE** – A backlog of needed repairs to City facilities or other assets such as streets, roof repairs, heating and cooling system upgrades, painting, floor covering repair, structural repairs, and slurry sealing of streets.

**DEVELOPMENT IMPACT FEES (DIF)** - Fees that are collected within urbanized communities which are near build-out to mitigate the impact of new development.

**ENCUMBRANCE** – An encumbrance designates or reserves funds for a specific purpose as approved by the appropriate authority. When the goods and services are received, the encumbrance is released and the expenditure is recorded for the actual costs.

**ENTERPRISE FUNDS** – Funds established to account for specific services funded directly by fees and charges to users such as water and sewer services. These funds are intended to be self-supporting.

# Capital Improvement Program Glossary

**EXPENDITURE** – The actual outlay of monies from the City treasury.

**FACILITIES BENEFIT ASSESSMENT (FBA)** - An FBA generally provides 100% of funds for public facilities projects that service a designated area of benefit and are identified in the Public Facilities Financing Plan (PFFP).

**FEDERAL GRANT FUNDS** – These funds were established to account for revenue from the federal government and expenditures as prescribed by grant provisions/agreements.

**FISCAL YEAR (FY)** – A 12-month term designating the beginning and ending period for recording financial transactions. The City of San Diego has specified July 1 through June 30 as the fiscal year.

**FIVE-YEAR FINANCIAL OUTLOOK** – The Five-Year Financial Outlook includes revenue and expenditure forecasts which are based on various assumptions, such as economic conditions or previous policy decisions. The Financial Outlook serves as a long-range planning tool which identifies priorities, economic trends, risks and opportunities, and guides the City in the development of future budgets.

**FULL-TIME EQUIVALENT (FTE)** – The decimal equivalent of a part-time position converted to a full-time basis, i.e., one person working half-time would count as a 0.50 FTE position.

**FUND** – A fiscal and accounting entity with a self-balancing set of accounts to record revenues and expenditures.

**GENERAL FUND** – The City's main operating fund that pays for basic City services that use most of the City's tax revenue, such as public safety, parks, and library services..

**GRANT** – A contribution by a government or other organization to support a particular function.

**INFRASTRUCTURE** - The basic facilities, services, and installations needed for the functioning of a community, such as transportation and communications systems, water and power lines, and public institutions.

**MAINTENANCE ASSESSMENT DISTRICT (MAD) FUNDS** – Property owners within a specified district are assessed for the purpose of financing maintenance of open space areas, street medians, rights-of-way, and in some cases, mini-parks and streetlights.

**NON-PERSONNEL EXPENSE (NPE)** – Expenditures related to supplies, contracts, information technology, energy and utilities, other, capital expenditures, and debt.

**OPERATING BUDGET** – Authorized expenditures for ongoing municipal services (e.g., police and fire protection, street maintenance, parks, and libraries).

**OPERATING IMPACTS** – An estimate of a capital project's ongoing operating expenses upon completion and the impact on the City's operating budget.

**ORDINANCE** – A law adopted by the City Council. Ordinances usually amend, repeal, or supplement the Municipal Code; provide zoning specifications; or appropriate money for specific purposes.

**PERSONNEL EXPENSE (PE)** – Expenditures related to employee compensation including wages and salaries, fringe benefits, retirement, and special pays such as shift differentials.

**PROJECT TYPE** - Project types are a more specific manner of categorizing the kind of improvement provided by each project.

# Capital Improvement Program Glossary

**PROPOSED BUDGET** – The Mayor’s recommendation for the City’s financial operations, which includes an estimate of proposed expenditures and revenues for a given fiscal year. The proposed budget is delivered to City Council in April of each year.

**PUBLIC FACILITIES FINANCING PLAN (PFFP)** – These plans implements the improvement requirements set forth in a designated area and provides funding by the FBA.

**REIMBURSEMENT** – Fees received as payment for the provision of specific municipal services.

**REGIONAL TRANSPORTATION CONGESTION IMPROVEMENT PROGRAM FEE (RTCIP)** – Fees that were established to ensure that new development directly invests in the region’s transportation system to offset the negative impact of growth on congestion and mobility. This fee is only applicable on new residential development.

**REQUEST FOR PROPOSAL (RFP)** – A document intended to elicit bids from potential vendors for a product or service. The quality of an RFP is very important to successful project management because it clearly delineates the deliverables associated with the project and establishes a framework for project execution. Ideally, RFPs stipulate the requesting organization’s requirements and the conditions demanded of applicants clearly enough to minimize the possibility of misunderstandings and errors.

**RESOLUTION** – Formal expressions of opinion or intention of the City Council. Resolutions typically become effective upon their adoption.

**REVENUE** – Funds received from various sources and treated as income to finance expenditures.

**UNFUNDED NEEDS LIST** – A summary of projects with insufficient funding for project completion which identifies both the amount of funding required and the component of work that is not funded.

**UNIDENTIFIED FUNDING** – An amount required for project completion, but for which no funding source has been identified.
